Pictured: Jason Mook and the team from Deadwood Custom Cycles

ON THE COVER

A classic model Harley Davidson FXR found in a small South Dakota town was the starting point for the 2026-27 Drag Specialties OldBook cover bike.

But the builder of this stunning FXR custom, Jason Mook, owner of Deadwood Custom Cycles in Deadwood, South Dakota, did not start this project with the intention of building a cover bike. He bought the bike for himself.

"I love FXRs," Mook said. "I think they are the greatest bike model that Harley Davidson has built. Just my opinion, you can argue it with me, but that's what I think."

"I have eight of them, each one a bit different" Mook said with a laugh. "I'm always on the lookout for FXRs."

Mook found the bike for sale in the town of Nemo, South Dakota. "One of the shop guys was in contact with the seller about buying a car, and he mentioned that the seller also had an FXR," Mook said. "It was available at a great price, so I went down to look at it, did a short test ride." It was rough but running, so he purchased it and took it back to the shop.

"I put it up on the bench," Mook said. It had performed OK during his brief test ride, but once he started to tear it down, he found some things that needed to be repaired or replaced to make the bike a solid runner. "A few things I found, I kind of was surprised my little test ride had gone OK," he laughed.

The entire bike was stripped down, and the frame and engine cases were sent out for powder coating. Then Mook turned to the Drag Specialties OldBook to start sourcing parts for the rebuild – not because this build was going to be the next OldBook cover bike. The OldBook is his usual go-to resource for parts for these kinds of builds.

"This started out as a build just for me," Mook said. "And there are so many great parts in the OldBook for FXRs. Drag has been offering parts for FXRs almost since the day the model came out in 1982. And I like to keep things 'pure,' in a sense," he said. "I don't put M-Eight motors in FXR frames, for example. We CAN do stuff like that, but I like to keep the FXR in its purest form. I still love carburetors!"

The engine/transmission setup got 'all the goodies', Mook said. Parts from S&S Cycle and Feuling were ordered to ensure strong, reliable engine performance. Mook went with an Andrews kit for a rebuild of the 5-speed transmission.

"The FXR late 1989 to 1990 is the first 5-speed transmissions that had a splined main shaft. They are not without a few known issues," Mook said. "I wanted to make sure it was set up right."

As the parts started arriving, the bike was up on the bench partially assembled, when a visit from Drag Specialties' Tom Motzko sparked the idea of using the in-progress build as the catalog cover bike.

"Tom is an occasional visitor to the shop," Mook said. "He came in, and there was some discussion about what we had available that might work for a cover bike build. I had a couple potentials, but the whole time we were talking, the FXR project was sitting up there on the lift. It kept catching our attention, like it was saying 'Pick me! Pick me!' And that's what we did!"

The final parts list expanded to include Saddlemen FXR mini fairing, a RWD rear fender and Klock Werks front fender. "Those pieces gave the painter a great blank canvas to work with," Mook said.

"I already had the frame, cases and some other parts powdercoated black, and also had some silver in the bike already," Mook said. "But I started to think about the final look for a cover bike, it needs to have that classic Drag Specialties blue in it. I'm not a 'blue bike' kind of guy, but for this build, I really wanted to have blue be a featured color."

Mook gave his ideas for the final look to the painter, Eric Malotke at Open Throttle Customs, with the suggestion to "Just go for it! I asked for multiple shades of blue, to go super-blue, in a sense," he said. "And he got it just perfect."

The blue paint is accented with a lot of Arlen Ness anodized blue accessories. "Those guys are just the kings of custom," Mook said. "They keep coming out with these amazing parts and finishes. I went with their footpegs, grips, mirrors, levers, the fork brace, all anodized in blue." The bike's seat is a Drag Specialties Predator III with double-diamond stitching with blue thread.

The exhaust system is from Trask, in Mook's preferred finish of choice - stainless steel. "I love the look of stainless steel for the exhaust," he said. "It is low maintenance, and it looks racy."

"I really want to emphasize what an honor it is to have a bike on the cover," Mook said. "And this build is a true team effort – every single member of the team at some point had their hands on this bike. And this build really is a true catalog build. I think there are only three parts in the entire build that are not from the OldBook – this bike is a great representation of what you can do with one of the most iconic Harley Davidson models and the parts in the OldBook and FatBook."

IMPORTANT INFORMATION RELATING TO MANUFACTURER'S WARRANTY, EMISSION CONTROL REGULATION AND NOISE REGULATION INFORMATION:

DISCLAIMER: There is no warranty on exhaust pipes and mufflers with regard to any discoloration. Discoloration (blueing) is caused by tuning characteristics, i.e. timing, carburetor, fuel injection/controller settings, etc., and is not caused by defective manufacturing. See the Tires, Tools and Chemicals catalog for products that will help prevent and remove blueing.

DISCLAIMER: Products shown may be designed, manufactured, intended and sold for closed circuit race use only and use of the same on public roads or lands may be a violation of local, state and/or federal/EU laws.

DISCLAIMER: A number of regions have exhaust noise laws. Exhaust products advertised might not be legal for sale or use on public roads or lands in such jurisdictions. Check applicable laws and regulations.

DISCLAIMER: Check your applicable laws and manufacturer's publication(s) and/or website(s) for manufacturer's warranty, maintenance, safety, mounting and any regulatory compliance/non-compliance information.

Memphis SHADES
MOTORCYCLE FAIRINGS & WINDSHIELDS

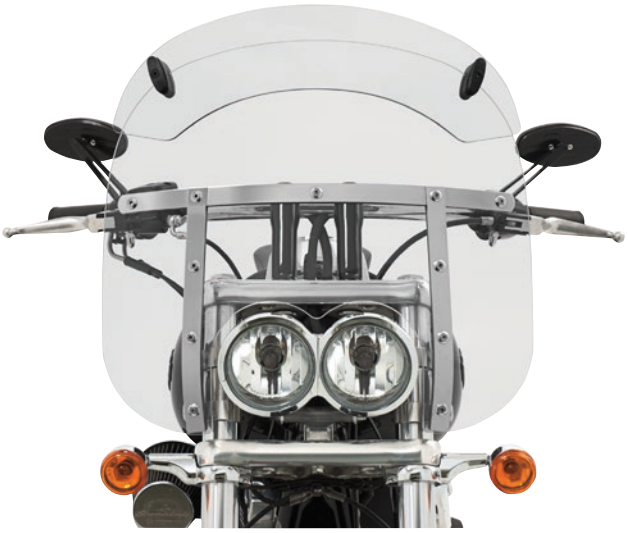
SIDE WINGS

- Expand comfort pocket, channeling air outward while "cleaning" the flow
- Adjust to suit rider preference
- Can be installed/removed with windshield intact – Santoprene pads grip the windshield but do not mar the surface
- "Ghost" shade – a neutral tint with 85% light transmission barely noticeable, with just enough tint to make the edges disappear
- Fit Road King, Fat Boy, Heritage and Memphis Fats windshield using injection-molded glass-filled nylon clamps in place of the billet aluminum clamps (can be mounted along with Hot Wing)

PART #	DESCRIPTION
2350-0200	Side Wings



HOT WING

- Boost airstream upward – Venturi action speeds up the airstream while smoothing the flow – without buffeting
- Allows the use of a shorter shield; now you can easily look over your shield
- Made with "Ghost" shade – a neutral tint with 85% light transmission; barely noticeable, with just enough tint to make the edges disappear
- Uses lightweight, economical injection-molded glass-filled nylon clamps
- Fits Memphis Fats windshields or similar windshields that measure 3 mm or 4,5 mm thick (includes inserts for both sizes)

PART #	DESCRIPTION
2350-0199	Memphis Hot Wing

Clear

Black

CUSTOM LOWERS

- Provide additional protection by extending your coverage downward
- Shield rider from rain, wind and noise coming up from the road
- Made of the same high-quality materials as Memphis Shades windshields with matching tints
- Available in black, clear and solar (a light tint with 72% visible light transmission)
- Must purchase Lowers mounting kits; see pages 12-13
- May require turn signal relocation
- Measure 20,5 cm H x 14 cm W (8" H x 5 – 5 1/2" W)
- Sold in pairs

PART #	DESCRIPTION
MEP5810	Clear

PART #	DESCRIPTION
MEP5811	Black

MEM9884

NO-TOOL TRIGGER-LOCK MOUNT KITS FOR MEMPHIS SHADES FATS/SLIM AND SPORTSHIELDS

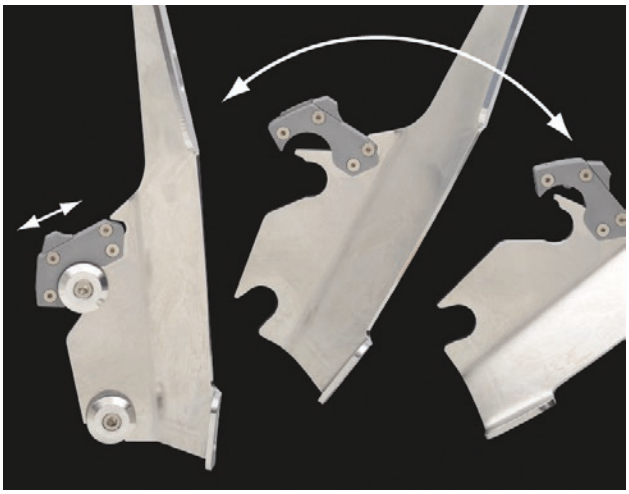
- Gone are the days of fumbling with tools to remove your windshield
- The revolutionary No-Tool Trigger-Lock hardware features an innovative system that allows you to quickly and easily remove your windshields without the use of any tools
- A pair of latches lock the windshield down until the spring loaded "trigger locks" are intentionally disengaged, allowing the rider to remove the windshield
- Hardware is fully adjustable to achieve just the right windshield angle
- Kits are a combination of CNC-machined aluminum plates, stainless steel bolts and aluminum anchors
- Kits are custom-fit to each style of bike for a truly no-hassle installation

PLATES-ONLY KITS

- Allow changing from Fats/Slim to Sportshield or from Sportshield to Fats/Slim without purchasing the entire mounting hardware

INDEPENDENT LOWERS KITS

- Mounts Memphis Shades Lowers to most motorcycles
- Each kit contains two fork clamp/mounting assemblies and all necessary hardware to mount Lowers plastic
- Kits can be used with select Memphis Shades windshields and several OEM windshields
- Sold in pairs; must order Lowers plastic separately



Whether your bike has conventional forks (tins) or a Springer front end, once installed, Trigger-Lock mounts let you remove or change Memphis Shades Fats/Slims/Sportshield windshields in a moment's time.

All part numbers in BLUE are new for the OldBook.

Memphis SHADES
MOTORCYCLE FAIRINGS & WINDSHIELDS

ABE

HELL CAT

- Sculpted full-body shape
- Measures 51 cm W (20") x approximately 45,5 cm H (18") above headlight
- Fits most round headlights
- Made of Lucite® for excellent optics and durability
- Available in solar (a light tint with 72% visible light transmission)
- Included two-point mounting hardware consists of polished billet aluminum handlebar clamp that fits 25 mm (1") and 22 mm (7/8") handlebars (with sizing band), aluminum rake plates and bushings, stainless steel support rods and socket-head screws
- Optional 32 mm (1 1/4") handlebar clamps sold separately (PART #MEM9950)

NOTE: To remove, simply loosen two socket-head screws, leaving clamps on bars for perfect reattachment of shield.

PART #	DESCRIPTION
MEM1719	Solar

ABE

DEMON

- Measures 53,5 cm W x 45,5 cm H (21" W x 18" H) above headlight
- Fits most round headlights
- Made of Lucite® for excellent optics and durability
- Available in solar (a light tint with 72% visible light transmission)
- Included two-point mounting hardware consists of polished billet aluminum handlebar clamps that fit 25 mm and 22 mm (1" and 7/8") handlebars (with sizing band), aluminum rake plates and bushings, stainless steel support rods and socket-head screws
- Optional 32 mm (1 1/4") handlebar clamps sold separately (PART #MEM9950)

NOTE: To remove, simply loosen two socket-head screws, leaving clamps on bars for perfect reattachment of shield.

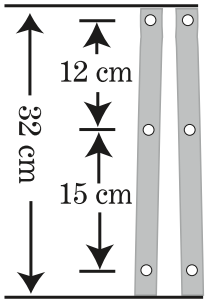
Memphis SHADES — MOTORCYCLE FAIRINGS & WINDSHIELDS

ABE

REPLACEMENT PLASTIC FOR HARLEY-DAVIDSON WINDSHIELDS

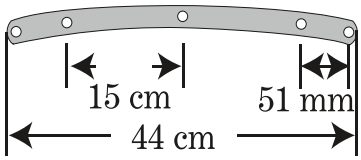
- Now riders can replace their OEM windshield with the size and color of their choice
- Available in clear and solar (a light tint with 72% visible light transmission)
- Made of Lucite® for excellent optics and durability
- Available for six models in up to four different heights – pick a size that's right for you
- Perfect fit with OEM hardware
- Holes are not drilled but rather machined to accept snap-in nylon inserts that prevent stress fractures and star cracks commonly seen around holes – an exclusive feature of Memphis Shades replacement plastic

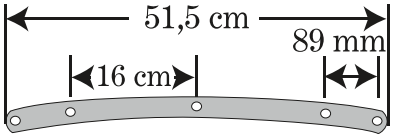
Due to variations in OEM mounting hardware, these windshields may not fit all models; be sure to check measurements before ordering.



VERTICAL STRAPS

There is a right and left strap, although they measure the same.





HORIZONTAL STRAPS

The Windshield should have one of the two straps illustrated.

Straps shown for reference only.

NOTE: Measurements are approximate and measured center to center of holes on the outside of windshield.

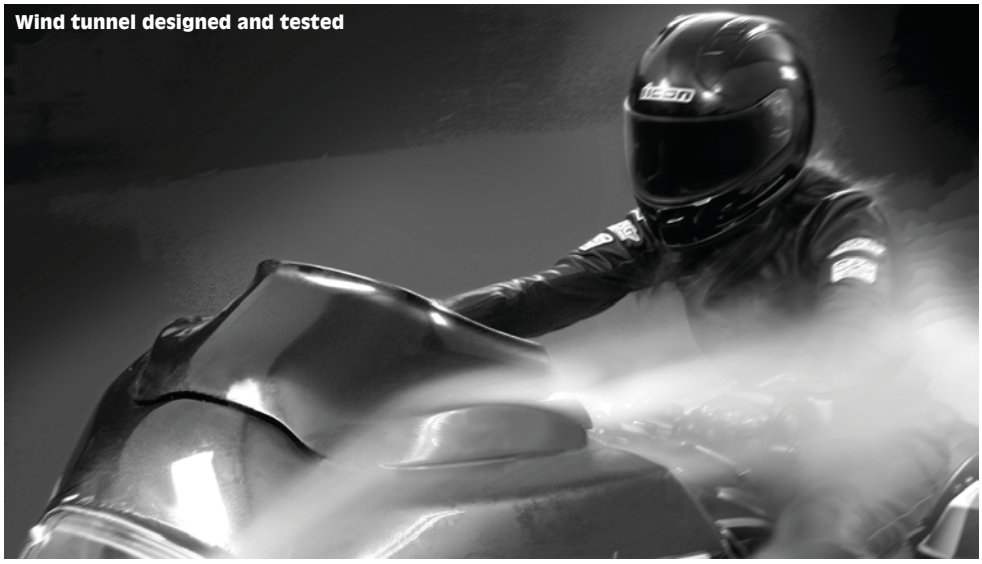
FLARE™ WINDSHIELD



FLARE® WINDSHIELDS

- Wind tunnel designed and tested, the "hips" provide added downforce while the flip at the tip directs air over the rider to help eliminate the swirl of air found in front of the rider on standard windshields
- Lexan® polycarbonate with FMR hard coating is used to create these custom-molded designs with unmatched durability
- All are predrilled for easy mounting using stock windshield hardware

NOTE: The black version may not be suitable for shorter riders as it's an opaque material.

The Klock Werks Flare® Windshields are protected under United States Patents: D632235S, D586274S, D586275S, D633017S, D626046S, D633018S and also under International Patents: 324093, 324094, 325192.

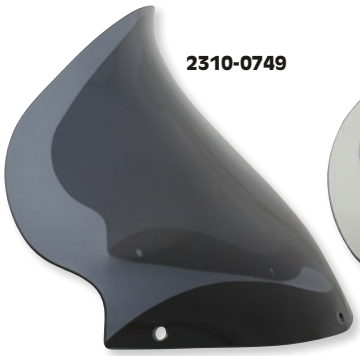
KLOCK Werks FLARE™ WINDSHIELD



2310-0749

2310-0748

30,5 CM (12") PRO-TOURING FLARE® WINDSHIELDS

- The Pro Touring Flare® is a wider, more full-coverage option for riders and passengers looking for greater wind protection during long-haul touring, yet is stylish enough for use around town
- The patented design features "hips" at the sides that re-route air away from the rider while adding downforce to the front end to improve stability and handling compared to the stock windshield design (the stock design creates lift)
- The "flip" at the top of the Flare® kicks air up and over the rider creating cleaner, less turbulent air for the rider and passenger
- Wind tunnel tested and designed for maximum performance and air management
- Made of Lexan® polycarbonate with FMR hard coating on both sides of the shield for unmatched durability
- All are predrilled for easy mounting using stock windshield hardware

The Klock Werks Flare® Windshields are protected under United States Patents: D632235S, D586274S, D586275S, D633017S, D626046S, D633018S. And also under International Patents: 324093, 324094, 325192.

FLARE™ WINDSHIELD

2310-0389

2310-0708

2310-0388

FLARE® BILLBOARD WINDSHIELDS

- Modeled after the original Flare® windshield for Baggers, now almost every rider can get all of the same performance and style with bolt-on ease
- With patented Klock Werks "hips" on the side and a flip at the top, shields have been wind tunnel designed and tested to produce the same amount of additional down force as original
- Real world testing and computer simulation also produced multiple heights that will work for most riders; heights listed are measured from headlight opening to top of shield
- All are predrilled for easy mounting using stock windshield mounting kits
- For the following applications "Detachable" refers to the old-style H-D grommet/hinge style mechanism

NOTE: All measurements given are approximate.

The Klock Werks Flare® Windshields are protected under United States Patents: D632235S, D586274S, D586275S, D633017S, D626046S, D633018S and also under International Patents: 324093, 324094, 325192.

Trigger-lock mounts let you remove your Batwing Fairing in a moment's time or quickly change to your Memphis Shades Fats/Slim or Sportshield windshield to instantly change the look of your bike

MEMPHIS SHADES BATWING FAIRING

- The clean aerodynamic shape and innovative mounting system easily enhances the style and comfort of your ride
- The fairing body of PART #2330-0017 measures 93 cm (36 1/2") wide and 43 cm (17") tall; fairing body of PART #2330-0075 measures 85 cm (33 1/2") wide and 43 cm (17") tall (excluding windshield and wind deflectors)
- Inner fairing structure is black textured ABS
- Fairing outer shell is opaque black Lucite® with a class A finish that looks great as is or can easily be painted
- No-Tool Trigger-Lock mount kits are CNC-machined and are available with E-coated polished or black aluminum and stainless steel hardware for a clean appearance that's built to last
- Trigger-Lock kits are available in a combination of CNC-machined aluminum plates, stainless steel bolts and aluminum anchors or black E-coated plates, bolts and anchors for a clean appearance that's built to last
- Fairing is predrilled and fitted with push-out hole plugs for easy wind deflector installation
- Windshields are available in four heights and two translucent colors and clear and solar (a light tint with 72% visible light transmission); see page 28
- Optional wind deflectors for increased downward airflow, windshield tri-pouch for storage and fairing trims for style are also available; see page 29
- Optional sound system can be added to the Batwing Fairing with Hogtunes' speaker systems

NOTE: Batwing Fairing is not compatible with any other fairing windshields, wind deflectors or accessories.

NOTE: Softail models listed that already have a Memphis Fats or Slims windshield installed can use their existing Trigger-Lock mount kit to install a Batwing Fairing, or purchase a plate-only kit (black or polished aluminum) and switch back-and-forth from Fats, Slim or Sportshield windshield to Batwing Fairing.

DS-710382	Custom headlight bracket

All part numbers in BLUE are new for the OldBook.

EMGO

VIPER FAIRING

- Adds a race or cafe style
- Fits 18 cm (7") headlights
- Universal type mounting hardware; may not work on all fitments without custom-made mounts
- Available in black with a dark smoke windshield

PART #	DESCRIPTION
2331-0113	Viper retro fairing

DRAG Specialties

OUTER FAIRING SHELL

- Perfect replacement for a damaged or battered OEM outer fairing shell
- Manufactured from OEM-grade material with precision tooling
- Accepts OEM inner fairing and components, as well as most aftermarket accessories
- Threaded brass inserts included for inner fairing installation
- Smooth outer surface requires minimal prep before painting

PART #	DESCRIPTION
2330-0115	For 96-98 FLHT/FLHTC/FLHTCU; repl. OEM #58236-96

DRAG Specialties

FAIRING POCKET LINING KIT

- Easy-to-install kit includes everything needed to line fairing compartments with a soft, thick, durable fabric
- Pliable, stretchable material fits easily into the tight corners of compartments for a professional fit and finish
- Pre-applied adhesive stays stuck, but can be removed
- Sold as pairs for left and right compartments
- Made in the U.S.A.

PART #	DESCRIPTION
2330-0091	For 98 FLTR

All part numbers in BLUE are new for the OldBook.

Custom DYNAMICS

WINDSHIELD TRIM WITH LED TURN SIGNALS

- Aluminum trim with flush-mounted amber/ white LEDs behind a smoked lens
- White running light LEDs are automatically deactivated when the turn signals or hazard warning lights are activated, allowing for greater visibility of the turn signals
- Direct bolt-on installation with included mounting hardware and wiring

PART #	DESCRIPTION
FOR 96-98 FLHT/FLHTC/FLHTCSE/FLHTCU	
2040-2829	Chrome, standard turn signal
2040-2828	Gloss black, standard turn signal

- Available in chrome or gloss black finish
- Plug-and-play installation
- Sold each

KURYAKYN

DRAGON WING VARIABLE AIR DEFLECTOR

- Replace the stock wind deflectors found on Ultra Classic models
- Easy upgrade for the rest of the FLHT family as well
- Large surface area directs airflow better than other designs
- Close the wing vane to direct air around the fairing for reduced turbulence, or open it for a cool blast of air on hot days
- Four adjustable positions; adjustment is made by hand using a spring-loaded mechanism
- Shatter-resistant polycarbonate construction
- Sold in pairs

PART #	DESCRIPTION
2350-0019	For 96-98 FLHT

All part numbers in BLUE are new for the OldBook.

DRAG Specialties

TOUR-PAK® LID ORGANIZER

- Trim, functional organizer fits snugly to the inner lid of a classic 93-98 H-D Tour-Pak
- Organize your trip packing and maximize your cargo space using the organizer's nine separate storage pockets
- A variety of elastic bands keep your flashlight, tire gauge and other gear in place, but easily accessible
- Easily installs to the lid by attaching to the rack fasteners or with the included self-adhesive hook-and-loop fastener tape strips
- Installation can be completed in minutes with no modification to your motorcycle
- Removes in seconds so you can use the convenient carrying handle to take your belongings into the hotel or your home at the ride's end
- Rugged construction will last a lifetime with its 600D and 150D polyester materials
- Dimensions: 51,5 cm x 35,5 cm x 25 mm (20,25" x 14" x 1")

PART #	DESCRIPTION
3516-0123	For 93-98 FLHT/FLHR/FLTR w/ King, Ultra or Chopped Tour-Pak

TOUR-PAK SOFT LINER BAG

- Standard soft tour pack liner bag is contoured to fit neatly into King or Chopped Tour-Paks and matches the appearance of Saddlemen's® Saddlebag Packing Cube Liner Sets
- Unique design stores flat when empty and features a full side lid opening so you have easy access to your stuff even when the bag is in the Tour-Pak
- Special shape and construction accommodates Tour-Paks with molded liners, light housings and radio antennas
- Made from durable 150D logo-stamped fabric with sturdy zippers that permit over-packing but keep the elements away from your cargo
- Great for trips, overnighters and organizing your gear
- Simply lift the liner bag out of the Tour-Pak to move cargo easily into the hotel, campground or to unload fast once you're home
- Dimensions: 57 cm x 19 cm x 38 cm (22,5" x 7,5" x 15")

SADDLEBAG PACKING CUBE LINER SET

- Four-piece liner set includes one full-size liner bag matched perfectly to the shape of FLD-style hard saddlebag plus one vertically oriented half-size liner used in conjunction with two quarter-sized horizontally oriented liner bags that stack neatly together in your other saddlebag
- Unique design permits efficient organization of your belongings – separate your laundry or keep rider and passenger gear divided while maximizing the capacity of your saddlebags
- Top sections of the quarter-sized liner bags are transparent with double-pull zippers so you can see the contents and get to them quickly – perfect for items you need to grab when you're on the road
- Made from light, but durable PVC-lined 150D polyester with sturdy zippers that permit over-packing but keep the elements away from your cargo
- Great for trips, overnighters, organizing your tools or cleaning supplies; simply lift your liners out of the saddlebags to move your cargo easily into the hotel, campground or to unload fast once home
- Complete set dimensions: large liner measures 40,5 cm x 13,5 cm x 24 cm (16" x 5,25" x 9,5"), medium liner measures 19 cm x 14 cm x 26,5 cm (7,5" x 5,5" x 10.5"), smaller liner measures 19 cm x 14 cm x 11,5 cm (7,5" x 5,5" x 4,5")

FTB1000/FTB1500 SPORT SISSY BAR BAGS

- FTB line features a bold, yet sporty look with an array of vital features bundled with superb construction and class-leading value pricing
- Sissy bar bag mounting is simple and quick, using Saddlemen's adjustable backrest sleeve that conforms to the width of your sissy bar or pad, and its shape
- Four hold-down straps included with each bag ensure secure mounting
- High-visibility, light-reflective rain cover protects the bag and its contents
- Carry your sissy bar bag with you, using the included padded backpack straps
- Shaped to present a trim line on your motorcycle, but open up to hold an impressive amount of cargo for their size
- The main cargo compartment flap opens fully with solid tethered sides for easy loading
- Internal mesh storage compartments secure smaller items while keeping them visible so you can locate your stuff fast
- Integrated, side-mount beverage holders on the FTB1000 adjust to the bottle's size and then fold down smooth when not in use
- FTB1000 dimensions: 30,5 cm W x 23 cm H x 18 cm D (12" x 9" x 7"); capacity 4,5 kg (10 lbs)
- FTB1500 dimensions: 28 cm W x 37 cm H x 24 cm D (11" x 14,5" x 9,5") excluding pockets; 35,5 cm W x 37 cm H x 24 cm D (14" x 14,5" x 9,5") including pockets; capacity 6,8 kg (15 lbs)

Custom fit

SADDLEMEN EXPRESS THROW-OVER AND CUSTOM-FIT SADDLEBAGS

Saddlemen's Express line of saddlebags are available two ways: Throw-Over style and Custom-Fit. Throw-Over style bags include a multi-adjustable yoke which hangs the bags from the fender or seat, and also include a quick-release bag connection to take off bags without disturbing the yoke or seat. Custom-Fit bags have a strong, smooth backside and no yoke, designed to allow custom mounting to your motorcycle.

The extra-strong plastic back on all Express bags works perfectly with the S4 Quick-Disconnect Mounting System (sold separately). S4 saddlebag support brackets are strongly recommended (sold separately).

CRUIS'N™ SLANT SADDLEBAGS

- Smooth, clean-styled saddlebags available in Throw-Over style
- Made of a durable combination of materials, including weather-resistant SaddleHyde™ and a tough plastic frame
- All feature easy-open lid with lockable twist-locks and supplemental hook-and-loop and rigid construction
- Extra-strong plastic back works perfectly with the S4 Quick-Disconnect Mounting System
- Dimensions: 43 cm L x 14 cm W x 25 cm H (17" x 5,5" x 9,75")
- S4 saddlebag support brackets (sold separately, see page 92) are strongly recommended

NOTE: Matching seats available; see SEATS & SISSY BARS section.

EZ-ON Mount System

EZ-ON MOUNT LOW-PROFILE SOLO SEATS

- Features solar-reflective leather in the seating area and automotive-grade vinyl on the sides (unless noted); the unique finishing process has been shown to reduce surface temperature by as much as 14 °C (25 °F) for a cooler seat, higher durability and longer life over conventional leather or vinyl
- Molded polyurethane foam for maximum comfort and styling
- 5 mm (3/16") ABS thermoformed seat base for a perfect fit, with a carpeted bottom and rubber bumpers to protect paint
- EZ-ON mount system (included) requires no tools for taking seat on and off
- Seat geometry places rider 51 mm (2") further back and up to 25 mm (1") lower (depending on model) than stock seat
- Lower position creates better rider position with improved styling
- Seat covers the two seat fender studs for a low, clean look
- Includes mounting hardware
- Rear solo seat sold separately

NOTE: 97-98 FLHR seats will also fit 97-98 FLHT/FLTR when used with lower dash extension PART #2202-0070; see DASHES & GAUGES section.

SADDLEMEN
THE GEL-SEAT EXPERTS / SINCE 1987

DOMINATOR SOLO SEATS

- Combines GelCore™ interior, progressive-density foam and a Gel Channel™ cover to provide riders with unparalleled comfort, control and modern style
- In addition to pressure relief, the Gel Channel center of the seat provides an airflow passage
- The rugged carbon fiber weave and smooth vinyl cover hold up to hard use and still retains its good looks
- Marine-grade fiberglass pans and chrome brackets make sure the seat is durable for decades of riding
- Easy to install; some seats and pillion pads include additional mounting hardware as needed

PART #	DESCRIPTION
0801-1497	For 97-98 FLHT/FLTR

PART #	DESCRIPTION
0801-1498	For 97-98 FLHR (except FLHRS)

LOW SOLO SEATS

- Specially designed to position the rider lower and farther forward for better control and riding comfort
- Saddle is low, wide and contoured to allow the rider to securely plant their feet when stopped
- Progressive-density foam and GelCore™ technology ease tailbone pressure for better circulation and comfort

PART #	DESCRIPTION
FOR 97-98 FHLR	
0801-1335	Low solo seat

PART #	DESCRIPTION
FOR 97-98 FLHT/FLTR	
0801-1341	Low solo seat

RENEGADE LS SOLO SEATS

- Purpose-built on Saddlemen's® slammed solo seat chassis with show-bike looks and quality
- Seat shape and contours have been carefully developed to create a clean look that is uncluttered by excessive seams
- Popular lattice stitch (LS) retro styling
- Saddlemen's ProFoam is formulated to provide a perfect balance of comfort and rigidity and user compliance with integrated GelCore™ technology
- Easy to install – just like the bike's original seat

RENEGADE SOLO SEATS

- Comfortable touring-style solo seats are wide and low for superior style and comfort
- Supple leather-grade SaddleHyde™ offers a combination of comfort, glove-soft leathery feel and weather-resistant, no-maintenance good looks
- This stitch-top cover provides initial plushiness and a custom appearance while the progressive density foam and GelCore™ foundation offers supportive comfort for hours on end
- Some available with a row of chrome studs that follow the seat's contour for an added splash of style
- The nose area of the seat was sculpted so it works well with the varied dash styles used on Touring models
- The seat interacts properly with the fuel tank, regardless of the length or width H-D dash mounted to the tank

NOTE: See pages 178-179 for matching Saddlemen® Renegade sissy bar pads.

DOMINATOR SOLO SEAT

- Hybrid seat design combines GelCore™ interior, progressive-density foam and a Gel Channel™-design cover to provide H-D riders with unparalleled comfort, control and modern style
- Saddlemen's Gel Channel (GC) technology has a center channel that relieves seating pressure on the perineal area, increasing blood flow, thus keeping the rider comfortable in the saddle longer
- In addition to pressure relief, the GC-style center of the seat provides an airflow passage
- The rugged carbon-fiber weave and smooth vinyl cover holds up to hard use and still retains its good looks
- Cover is constructed with durable, marine-grade vinyl that resists water and cold-cracking
- Using a very large gel pad for additional foam support and vibration damping, this GC-style seat offers the comfort levels normally found in larger touring seats
- Marine-grade fiberglass pans and chrome brackets make sure the seat is durable for decades of riding
- Easy to install

MATCHING SEATS AND TAIL SECTIONS

SEATS

- Designed to mount seamlessly with matching tail section
- Carbon fiber or lattice stitch (LS) seat options available
- LS seats infuse old-school lattice stitch retro styling with a modern twist
- Carbon fiber seat features that legendary carbon fiber look while providing comfort and stability
- Seat fastens to the tail section using integrated DZUS® fittings
- Seat base is durable marine-grade fiberglass construction

TAIL SECTIONS

- Taillights, license plate and turn signals require relocating
- Installing tail section will require the removal of the seat, fender and fender struts
- Weldable steel frame mounting hoop creates a solid foundation for the tail section
- Black gel-coat finish, ready to prep, prime and paint
- DZUS® seat fasteners cleanly mount the seat for a pro-built look

NOTE: Seats and tail sections sold separately.

DRAG Specialties seats

EZ GLIDE II™ BACKRESTS

- Features solar-reflective leather on contact area (unless noted); pouch and pad sides are high-quality automotive-grade vinyl
- Driver and passenger backrest capabilities
- Fits in seats' internal EZ Glide II™ system that features no metal-to-metal contact with the backrest detent bars; bars are securely suspended in place using synthetic composites that virtually eliminate corrosion and wear
- Features a detent bar with multiple detents on lower portion for adjustability up and down within the seat
- Chrome-plated hardware that allows up to 51 mm (2") of forward-rearward adjustment

THE CONVERTIBLE EZ GLIDE II™ BACKREST WITH BUILT-IN RAIN COVER

- Features solar-reflective leather on contact area; pouch and pad sides are high-quality automotive-grade vinyl
- "The Convertible" EZ Glide II™ backrest includes a built-in rain cover that pulls out of the pouch on the backside of the pad and covers the entire seat
- Rain cover is secured in the pouch by two snaps and can be removed for cleaning or to use the oversized pouch for additional storage

- Rain-resistant black cover is 600 x 600 denier polyester fabric with a urethane coating and WRMR (water-resistant, mildew-resistant) finish
- All exposed hardware is polished with a chrome finish; internal base is 14-gauge steel
- Pad pivots to the angle of your back and adjusts fore and aft up to 51 mm (2")

PART #	DESCRIPTION

DRIVER BACKREST KIT FOR OEM DRESSER/TOURING SEATS

- Specially designed to work with 88-98 Dresser/Touring models with OEM slotted one-piece seat
- EZ Glide™ receiver mechanism allows you to easily mount your choice of pad assembly (receiver mechanism and pads sold separately)
- Pad assembly includes high-quality polished and chrome-plated 184 mm (short) or 248 mm (tall) (7,25" or 9,75") detent bar with a design that provides 51 mm (2") of fore and aft adjustment
- All pads fold forward for ease of getting on and off bike
- Pad assembly options include a vinyl pillow-style to match tall pillow-style seats and solar-reflective leather styles that match both lower-profile and tall seats; solar-reflective reduces surface temperature by as much as 14 °C (25 °F) for a cooler contact, higher durability and longer life over conventional leather or vinyl
- All large pad assemblies also include a pouch
- Receiver mechanism includes all mounting hardware

NOTE: Short bar is Road King and Road Glide-style low-profile OEM seats. Tall bar is for H-D Ultra-style tall-profile seats and Drag Specialties large touring seats.

- 3D-molded process conforms quickly and comfortably to rider's anatomy, while the GelCore pad evenly distributes weight to absorb and eliminate pressure at hips and tailbone
- Includes exclusive air canals for increased cooling and breathability
- Center ergo channel eliminates pressure to prevent numbness and discomfort
- Comfort foam breathable top layer maximizes GelCore efficiency
- Quick-disconnect harness system mounts over the seat and remains in place when pad is removed; pad also features a non-slip bottom

PART #	DESCRIPTION
0810-0522	Medium; 24 cm L x 20,5 cm rear W x 15 cm front W (9,5" x 8" x 6")
0810-0521	Large; 26,5 cm L x 35,5 cm rear W x 20,5 cm front W (10,5" x 14" x 8")
0810-0520	Extra large; 32 cm L x 39,5 cm rear W x 21,5 cm front W (12,5" x 15,5" x 8,5")

GELCORE TECHNOLOGY

3D-MOLDED GEL PAD

- 3D-molded surface for additional comfort and air channel cooling
- GelCore™ evenly distributes weight to absorb and relieve hip and tailbone pressure
- Features Gel Channel™ technology that increases blood flow and keeps the rider in the saddle longer
- Fits many larger cruisers and most touring bikes, including H-D Baggers, as well as larger adventure bikes

PART #	DESCRIPTION
0810-2072	3D-molded gel pad

GELCORE TECHNOLOGY

GELCORE™ GEL SEAT PADS

- Viscoelastic GelCore™ pads add riding comfort to any seat on any model
- Pads can be separately heated or cooled for added comfort, depending upon temperature conditions
- Two cover choices: synthetic sheepskin cover softens your ride, prevents heat buildup and perspiration; or choose original soft-stretch cover
- Quick-disconnect harness system mounts onto or over the seat and remains in place when pad is removed (instructions included), or use the optional side-seat hooks
- Raw gel pads also available for custom installation inside an existing saddle
- Four sizes available to fit any seat

GELCORE TECHNOLOGY

DETACHABLE PILLIONS

- One of the most comfortable, lowest profile and best looking pillions on the market
- The unique blend of variable-density foam and GelCore™ technology is the largest comfort advancement in motorcycle seating since the creation of suspension
- The rugged but compliant cover works to keep riders and passengers comfortable for long stretches of highway time
- Each pad attaches easily and securely with its limited-lifetime warranted, unique dry-installation, dual-cavity suction cup and can be removed just as easily using the built-in quick-release pull tab
- Non-abrasive liner ensures your expensive rear fender paint job is protected during attachment or removal
- 15 cm (6") pad dimensions: 44 mm H x 15 cm W x 25,5 cm L (1,75" x 6" x 10")
- 18 cm (7") pad dimensions: 44 mm H x 18 cm W x 25,5 cm L (1,75" x 7" x 10")
- 23 cm (9") Contoured pad dimensions: 44 mm H x 23 cm W x 25,5 cm L (1,75" x 9" x 10")
- Dominator combines leading-edge styling with comfort enhancing Gel Channel™ technology for a truly unique seat that looks and feels great
- Knuckle is engineered to brashly transform your bike with its deep, aggressive ribs that are carefully stitched into element-resistant distressed SaddleHyde cover
- Lariat is covered in genuine distressed brown leather; it's as close to having a true western horse saddle as you can get
- Renegade LS is the finest, most comfortable low profile removable passenger pad in the world; available in black, brown or black with studs
- The S3's fit and finish matches its street-smart looks with two cover options to choose from: standard SaddleHyde and element-resistant distressed SaddleHyde cover

NOTE: Not for passenger use; for cosmetic use only.

NOTE: Pads should be installed dry; do not wet either fender or suction cups during installation.

NOTE: Not for use in hot, wet or rough conditions.

Biltwell Inc. "QUALITY COUNTS"

CAST STAINLESS STEEL SEAT HINGE

- Investment-cast stainless steel seat hinge is rugged and beautiful
- Raw cast chromoly bung welds to the backbone of the bike's frame to create a hinge for mounting solo seats on custom choppers
- Stainless steel seat bracket bolts securely to the weld-on bung with a recessed shoulder bolt to form a hinge on finished assembly
- Hand-polished finish

PART #	DESCRIPTION
0820-0046	Cast stainless steel solo seat hinge

Biltwell Inc. "QUALITY COUNTS"

MACHO SEAT HINGE

- Cast chromoly hinge head
- Laser-cut 4130 chromoly steel strap
- Seat bracket is black electroplated finish for durability
- Pivot bracket is raw steel and features bronze pivot bushings
- Retrofits to both the original welded and newer cast hinge bung so upgrades are easy
- Chrome shoulder bolt

PART #	DESCRIPTION
0820-0045	Steel solo seat hinge

DRAG Specialties seats

HINGED MOUNTING BRACKET

- Heavy-duty steel construction
- Black finish

PART #	DESCRIPTION
0820-0080	For Drag Specialties spring solo seats or custom applications

DRAG Specialties

UNIVERSAL SEAT HINGE BRACKETS

- Chromed brackets permit seat to flip over gas tank for easy access to engine components
- Fits most custom rigid Shovelhead applications
- Sold each

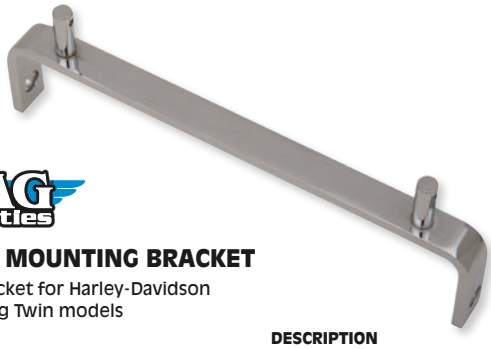
DS-902012	Round end
DS-902013	Square end



DRAG Specialties

SOLO SEAT MOUNTING BRACKET

- Chromed bracket for Harley-Davidson rigid frame Big Twin models

PART #	DESCRIPTION
DS-902016	For 57-78 XL (except XLCR)

All part numbers in BLUE are new for the OldBook.

SEAT MOUNTING BRACKET

- Lets you convert any FXR model's hinged seat to a one-piece seat that does not hinge (same as the FXR Super Glide models)
- A beautiful reproduction of the OEM bracket found on Super Glide models
- Can also be used on Softail and various XL models for custom seat mounting

PART #	DESCRIPTION
DS-490017	Tank/front seat bracket for FXR Super Glide (ea.); repl. OEM #52107-86

SEAT REAR MOUNTING BRACKET

- Bracket can be used with new- and old-style fender nuts
- Can be used on all motorcycles with the mount-nut and E-clip-style (OEM #59768-97 and PART #DS-490045) on 97 and later H-D models
- Comes with a plastic step washer that reduces the hole to a 6,4 mm (1/4") ID for early models with factory weld-in fender nuts
- Bracket replaces OEM #s 51651-79 early and 51652-83B later style
- Includes all mounting hardware

PART #	DESCRIPTION
0820-0027	Seat rear mount bracket

0820-0109

REAR SEAT BRACKETS WITH RETAINED SCREW

- Chrome-plated steel bracket features a retained mounting screw that stays attached with the bracket
- Mounting screw has a knurled edge for finger tightening and a hex socket for wrench tightening
- Bracket dimensions: 10 cm L x 25 mm W with 19,1 mm L x 6,4 mm W slots (4" x 1" with 3/4" x 1/4")
- Sold each

PART #	DESCRIPTION
0820-0110	Bracket w/ 1/4"-20 screw
0820-0109	Bracket w/ 1/4"-28 screw

DS-902004

DS-902014

BIG TWIN/UNIVERSAL SEAT BRACKET

- Chromed universal bracket lets you mount solo seats to frames without welding
- Use in conjunction with our universal seat bracket PART #DS-902013

FOR DRESSER/TOURING
2-INTO-1

LONG ROAD RAGE III STAINLESS 2-INTO-1 SYSTEMS

- Features stepped, 1 3/4" to 1 7/8", equal-length headpipes designed for maximum performance
- Included heat shields cover enough of the headpipes for heat protection but end inches from the collector to show off the stainless steel and hand TIG welding
- 4" straight can muffler body; mounts off of traditional saddlebag location
- O_2 ports with sensors, adapters, and plugs included
- Include removable baffle and end cap

PART #	DESCRIPTION
1800-2174	For 95-98 FLT/FLHT/FLHR/FLTR

1800-2535

1800-2536

ROAD RAGE II 2-INTO-1 WITH HOT ROD TURNOUT MUFFLER SYSTEMS

- Stepped headers merge into a 3 1/2" short straight muffler body with Hod Rod turnout end cap
- 1 3/4" headpipe steps up to 1 7/8" into the collector to increase flow and improve performance
- Removable spiral-core louvered baffle included
- Hand MIG welding
- 18 mm and 12 mm O_2 ports with adapters and plugs
- Includes mounting hardware
- Full heat shields included

FOR DRESSER/TOURING HEADERS

POWER CURVE TRUE-DUAL CROSSOVER HEADER PIPES

- True-Dual crossover header pipes perform as good as they look
- Feature proper port angle and matched-length rear headpipe design that produces even performance from each cylinder
- Offer improved low-end torque and appearance
- Fabricated from 16-gauge steel, finished in chrome and supplied with three custom-fit heat shields
- Can be used with Bassani mufflers or most 96-16 OEM-style aftermarket mufflers (mufflers sold separately)

PART #	DESCRIPTION
1802-0125	For 95-98 FLT/FLHT/FLHR/FLTR

BAGGER TRUE DUAL HEADER PIPES

- Made of 16-gauge steel and finished with show-quality chrome
- Supplied with three custom-fit heat shields
- Right-side pipe follows same clean lines as frame
- Can be used with Bassani mufflers or most 95-16 OEM-style aftermarket mufflers (sold separately)
- O_2 sensor port plugs included
- Mounting instructions and hardware included

PART #	DESCRIPTION
1802-0132	For 95-98 FLT/FLHT/FLHR/FLTR

POWER TUNE DUAL HEADER SYSTEM

- Independent dual-look with "under the bike" cross-over
- Hidden crossover passage between front and rear pipes for maximum performance
- Updated styling to give the motorcycle a more modern look
- Stainless steel construction for superior corrosion reisistance
- High-temperature Guardian Black finish full heat shields with 220° coverage
- Has 18 mm sensor ports and plugs
- Compatible with 95-16 style slip-on Dresser mufflers

MUFFLERS

POWR-FLO 4,5" SLIP-ON MUFFLERS

- 4,5" bodies tapers to 4-inch round at the front
- 4,5" machined aluminum, thin-line tips
- 3" cores for superior performance
- Acoustical engineering developments allow an incredibly deep sound because of intense, class-leading resonance absorption and prevention
- Use proprietary materials with specific acoustical dampening and thermal insulation properties
- The frequency and location of the perforation patterns in the cores creates significant sound scattering in the mid-frequencies, which helps to enhance the low-frequency tones
- Chrome finish
- Sold in pairs

PART #	DESCRIPTION
1801-0639	For 95-98 FLT/FLHT/FLHR/FLTR

4,5" RACE-PRO SLIP-ON MUFFLERS

- Bodies taper to 4" round at the front
- 4,5" machined aluminum thin line black tips are held in place with seven stainless steel, 12-point bolts
- Feature satin black laser-cut steel straps that tightly encircle the mufflers with built-in mounting straps
- 3" cores for superior performance
- The frequency and location of the perforation patterns in the cores creates significant sound scattering in the mid frequencies, which helps to enhance the low-frequency tones
- Acoustical engineering developments allow an incredibly deep sound because of intense, class-leading resonance absorption and prevention
- Use proprietary materials with specific acoustical dampening and thermal insulation properties
- Chrome finish
- Sold in pairs

1800-1753

1800-1754

SOFTAIL DUAL EXHAUST SYSTEMS

- Provide a classic dual-exit look while increasing performance
- 1,75" exhaust tubing provides improved exhaust flow; rear headpipe is not flattened to clear the coil bracket
- Removable louvered baffles increase back pressure and torque
- 2,5" heat shield gives the classic straight pipe look
- Available with 2,5" billet tips or a classic chromed steel fishtail-style tip
- Billet-tip style lines up with the rear fender
- Fishtail-style tip sticks out 6" further than the standard billet tip for a more custom look

NOTE: Minor modifications required to fit 86-96 models.

ROAD RAGE 3-STEP 2-INTO-1 EXHAUST

- Stepped equal-length headers – 1 3/4" to 1 7/8" to 2" designed for maximum performance
- Hand TIG-welded stainless steel construction
- Short megaphone muffler body
- Brushed aluminum end cap
- Removable baffle

PART #	DESCRIPTION
1800-2229	For 91-98 FXD w/ mid-controls

MID-LENGTH SUPER BIKE 2-INTO-1 EXHAUST SYSTEM

- Hand TIG-welded stainless steel construction
- 1 3/4" headpipes step up to 1 7/8" into the collector to increase flow and improve performance
- 4" diameter straight can 11" muffler body includes matching aluminum end cap
- Removable spiral-core perforated baffle features an all-new aggressive sound
- 18 mm and 12 mm O_2 ports with adapters and plugs
- Full coverage stainless heat shields for the front and rear header pipes included

PART #	DESCRIPTION
1800-2622	For 91-98 Dyna w/ mid controls

1800-1955

1861-1174

1861-1514

1861-1581

1860-1997

ROAD RAGE III EXHAUST SYSTEM

- 2-into-1 stepped equal-length headers – 1 3/4" to 1 7/8"
- Utilizes an advanced inner collector for maximum performance
- Stainless steel construction
- O_2 ports, plugs and adapters included
- Includes partial rear heat shield
- Hand TIG-welded
- Better ground clearance and fitment
- Brushed billet end cap included
- Removable baffle

NOTE: Designed to fit with stock OEM cam cover only.

NOTE: Qualified manufacturer declared replacement part for 91-94 FXD.

PART #	DESCRIPTION
1800-1955	For 91-98 FXD/FXDWG w/ mid controls

PART #	DESCRIPTION
1861-1174	Opt. heat shield
1861-1514	Opt. partial heat shield

PART #	DESCRIPTION
1861-1581	Repl. 4" Megaphone end cap
1860-1997	Opt. quiet baffle

1860-0547

REPLACEMENT COMPONENTS FOR VANCE & HINES EXHAUST SYSTEMS

- Replacement Allen cap screws for the "Supersport" and "SS2-R" exhaust systems
- Use these screws to reattach the can to the nose tip and end cap; sold as a set of 12
- Dog Bone includes two nut plates and four $^{5}/_{16}$" -18 x $^{5}/_{8}$" bolts
- Fits all Vance & Hines systems and slip-on mufflers that use the dog bone style attachment system

PART #	DESCRIPTION
V22533	Allen cap screw kit

PART #	DESCRIPTION
1860-0547	Dog Bone kit

EXHAUST DEALER SERVICE KIT FOR S&S EURO 4 MUFFLERS

- Everything needed to perform a required exhaust system service or end cap replacement
- Kit includes tamper-proof screws and S&S proprietary tamper-proof screw bit

PART #	DESCRIPTION
3850-0481	Dealer service kit for S&S EURO 4 exhaust

990165

UNIVERSAL HEAT SHIELDS

- High-quality heat shields look great and keep you cool
- Heat shields are a full 6" or 7" in length and come in three sizes to fit most pipes
- Shields are triple-chrome-plated and highly polished for a non-blueing look for years to come
- Come complete with clamps for mounting
- Sold each

PART #	DESCRIPTION
990155	6" L heat shield for 1 $^{3}/_{4}$" pipes
990165	7" L heat shield for 2" pipes
990175	7" L heat shield for 2 $^{1}/_{4}$" pipes

FLAMING SKULL HEAT SHIELDS

- Measure 10" in length
- Chrome-plated finish
- Universal fit for 2" to 2 $^{1}/_{4}$" OD exhaust pipes
- Sold in pairs; clamps included

PART #	DESCRIPTION
1861-0102	Chrome

RIGHT-SIDE CHROME HEAT SHIELD FOR DRESSERS

- 22" chrome lower right side heat shield fits stock exhaust systems
- Complete with hardware

PART #	DESCRIPTION
DS-203086	For 87-91 FLT/FLHT/FLHS

HEAT SHIELDS

- Fit most aftermarket 1 $^{3}/_{4}$" staggered dual pipes (rigid or rubber mount)
- Design allows installation of clean chrome pipe covers without cutouts for crossover tube
- Sold in pairs

PART #	DESCRIPTION
DS-203083	For 84-99 80" Evolution (except Dyna); repl. OEM #s 65702-86, 65732-86

BRIDGE THE GAP

- Takes the blues away
- Integrates easily and seamlessly to remove the gap between the stock heat shields
- For use with stock headpipes and stock heat shields

PART #	DESCRIPTION
1861-0150	For 93-98 Dresser and Road King

1861-1172

TORQUE CONES

- High-temperature stainless steel cones have fully radiused edges for improved engine response, especially low-end torque
- Generate correct levels of backpressure for increased horsepower
- Fit most stock and aftermarket exhaust systems; fit 44,5 mm (1,75") - 51 mm (2") ID exhaust pipes
- Vortex design increases backpressure, improving torque and horsepower
- Smooths out the power curve for more consistent performance
- Sold in pairs

HP PLUS® DRAG PIPE BAFFLES AND INSERTS

DRAG PIPE BAFFLES

- HP Plus® perforate core baffles dampen sound without impeding flow-through performance
- All steel construction
- Install easily on 1 3/4" or 2", 16 or 18-gauge drag pipes
- Baffles held by 1/4"-20 screws and locking nuts
- Sold in pairs or each

PART #	DESCRIPTION
DRAG PIPE BAFFLES	
DS-202011	1 3/4" (ea.)
DS-202012	1 3/4" (pr.)
DS-202032	2" (pr.)

INSERTS

- Create the proper restriction for big torque numbers low in the rpm range or change the sound to your liking
- Louvered inserts are best for balanced builds looking for power delivery across the rpm range
- Performance inserts are designed for big torque numbers; hits hard 2K rpm and up
- Ripper inserts create the noise, allowing your bike to be heard
- Sound kit takes off 4 dB at idle and improves low-end torque with minimal loss of top-end horsepower
- Easy installation with basic hand tools

PART #	DESCRIPTION
INSERTS	
1860-1818[1]	Louvered (pr.)
1860-0621[1]	Performance (pr.)
1860-1870[1]	Ripper (pr.)
1861-0806	Sound reduction kit

[1] Will not fit 2-into-1 exhaust systems.

- Material is labeled and conforms to BSAU 193T2
- Pack contains 250 g of silencer wool

PART #	DESCRIPTION
1860-0436	Baffle pac

HEADER WRAP KIT

- Features laser-cut Vance & Hines wrap clamps, black header wrap tape and locking stainless steel ties
- Black, fiberglass composite wrap tape helps lock in the heat and reduces the radiant heat by 50%
- Kit will wrap two motorcycle headers thoroughly
- Includes 2" x 25' roll of black wrap tape, two Vance & Hines Wrap Clamps and six locking stainless steel ties

IMPORTANT NOTICE: Use of this Vance & Hines Header Wrap Kit (PART #1861-0622) may void all warranties of the exhaust system that this kit is applied to. Header Wrap functions to insulate heat generated by exhaust gases flowing through the headpipe, thereby raising the headpipe temperature beyond its intended operating temperature. Using heat wrap may compromise the integrity of the headpipe material, and may ultimately lead to cracks in the headpipe and will not be covered under warranty. Use of header wrap on an exhaust system is a modification to, and not a normal use of, an exhaust system. This notice is intended to inform the buyer to consider this possibility before using this product.

PART #	DESCRIPTION
1861-0622	Black exhaust wrap kit

1001-0088

SUPER E OR G CARBURETOR/STEALTH AIR CLEANER KITS

- Combines a Super E or G carburetor with the S&S Stealth air cleaner
- Increases fuel and airflow for added performance
- Variable position enrichment starting system
- O-ring sealed idle mixture screw
- Washable, reusable air filter element
- Teardrop style air cleaner cover
- Adjustable accelerator pump for quick throttle response and easy starting
- Uses the factory dual-cable throttle system for smooth, reliable operation
- Easy to install and tune

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
1001-0085	W/ Super E carburetor and Stealth air cleaner kit w/ chrome teardrop air cleaner cover
1001-0087	W/ Super G carburetor and Slasher Stealth air cleaner kit w/ chrome slasher teardrop air cleaner cover
1001-0088	W/ Super G carburetor and Slasher Stealth air cleaner kit w/ gloss black slasher teardrop air cleaner cover

DS-0419

SUPER E AND G CARBURETOR/AIR CLEANER KITS

- Carb kit includes a natural finish S&S Super E or Super G gas carburetor (unless noted) with updated fuel delivery pots and idle screw, S&S teardrop air cleaner assembly, manifold (unless noted), mounting hardware, fuel line, clamps, overflow line, one extra intermediate jet and two main jets, VOES tubing (when applicable), installation and jetting instructions
- Super E has a 1,875" throat at the butterfly and a 1,5625" venturi and is recommended for use on Big Twin or Sportster engines up to 100-cubic-inch
- Super G has a 2,0625" throat at the butterfly and a 1,75" venturi and is recommended for use on 90-cubic-inch and larger high-performance and modified engines
- Super G is not recommended for smaller, lower compression engines
- If there is a doubt as to which carburetor to use, we suggest the 1,875" Super E

NOTE: S&S Super E & G carburetors require the use of a two-cable, pull open/pull close throttle assembly; S&S kits are compatible with stock cables, except as noted.

DESCRIPTION	SUPER E CARB KIT	SUPER G CARB KIT
KITS WITH MANIFOLD		
For 93-99 Evolution Big Twin	**DS-0419**	-
For 84-92 Evolution Big Twin	**DS-0407**	-
For 79-84 Shovelhead (band style intake)	**DS-0411**	-

SUPER E AND G CARBURETORS

1002-0025

1001-0044

- Four fuel delivery ports for better fuel flow
- O-ring sealed idle mixture screw
- Increased airflow for more horsepower
- Adjustable accelerator pump for quick throttle response and easy starting
- Uses the OEM dual-cable throttle system for smooth, reliable operation
- Variable position enrichment starting system
- High-quality fit and finish
- Super E carburetors have 1 7/8" throat at the butterfly and a 1,5625" venturi; recommended for use on Big Twin or XL engines up to 100 cubic inches in displacement
- Super G carburetors have a 2 1/16" throat at the butterfly and a 1,75" venturi; recommended for use on high-performance and modified engines 90 cubic inches or larger in displacement
- Super G carburetors are not recommended for smaller-displacement, low-compression engines
- Big bore carburetors also available (see chart); feature a larger venturi for more airflow
- Sold each

NOTE: Carburetor cannot be used with the stock backing plate and air filter, must use an S&S backing plate and air filter.

FOR 55-99 BIG TWIN AND 57-85 XL

PART #	DESCRIPTION	BORE
SUPER E		
1002-0025	Natural finish	Standard
1002-0059	Black finish	Standard
1001-0043	Black finish	Big bore
SUPER G		
1002-0026	Natural finish	Standard

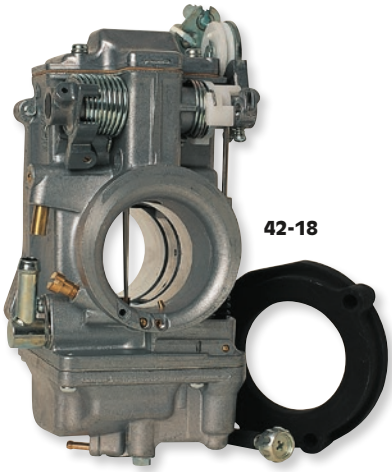
CRUISE CONTROL ADAPTER KIT

- Super Shorty carbs can easily be installed on motorcycles equipped with stock H-D cruise control
- Includes all parts and instructions needed to complete installation

PART #	DESCRIPTION
1003-0022	For 98-99 Evolution Big Twin

HSR42 AND HSR45 SMOOTHBORE CARBURETOR KITS



42-18

- Kits include the 42 mm/45 mm smoothbore carb in a natural finish
- Easier, faster installation using stock CV throttle cables
- Excellent throttle response and control; with more power, improved acceleration and better gas mileage
- Order fewer part numbers to cover more applications
- Well-made for years of dependable service
- See pages 234-235 for additional main and pilot jets
- Installation instructions and hardware included

NOTE: Kits are not for use on models with cruise controls.

42 MM/45 MM EASY KIT

- Accepts the original H-D intake manifold, choke cable, air cleaner and throttle cables
- Keeps the stock look of your bike
- Recommend the use of a high-flow air filter designed for the stock CV carb

42 MM/45 MM TOTAL KIT

- Includes performance intake manifold, rubber flange, 42 mm or 45 mm carb, high-flow K&N® filter, air cleaner cover, breather kit and hardware
- 84-89 models require the use of 90-95 Big Twin-style cables

EASY KITS

PART #	DESCRIPTION
42 MM	
42-18	For 90-99 Evolution Big Twin (not for use w/ stock air cleaner (requires a hi-perf air cleaner), use stock air cleaner cover, may be used with a Screamin' Eagle air filter kit)
42-7	For 90-99 Evolution Big Twin (includes chrome air cleaner cover)
45 MM	
1002-0030	For 90-99 Evolution Big Twin (requires use of Screamin' Eagle manifold and stock air cleaner cover; may be used with a Screamin' Eagle air filter kit)

TOTAL KITS

PART #	DESCRIPTION
42 MM CARB KITS	
42-8[1]	For 84-99 Evolution Big Twin (except 84-88 FLT)

[1] 84-89 models will require 90-95 Big Twin intake manifold flanges and seals (sold separately).

TM42-6

TM42-6P

HSR42 AND HSR45 SMOOTHBORE CARBURETORS

- For the high-performance engine builder who needs a carb for specific custom applications
- HSR smoothbore carbs offer excellent throttle response and control
- Well-made for years of dependable service
- See pages 234-235 for additional main and pilot jets

NOTE: Choke cable included, except for the TM42-6, which uses stock choke cable from CV-type carb.

NOTE: Airbox adapter HS42/001-K must be ordered separately.

NOTE: Kits are not for use on models with cruise controls.

PART #	DESCRIPTION
TM42-6	42 mm carb, standard finish

PART #	DESCRIPTION
TM42-6P	42 mm carb, polished finish

PART #	DESCRIPTION
TM45-2	45 mm carb, standard finish

HSR48 SMOOTHBORE CARBURETOR

- These high-performance carbs are ideal for realizing the maximum potential from custom and race engines
- Recommended for engines over 1200cc or larger
- Includes rubber mounting flange with 78 mm bolt hole centers, choke cable and four different main jets
- Uses stock H-D throttle cables
- HSR smoothbore carbs offer excellent throttle response and control
- Well-made for years of dependable service
- See pages 234-235 for additional main and pilot jets
- For race and custom applications only

PART #	DESCRIPTION
482X	48 mm carb, standard finish

HS42/012-300

REPLACEMENT FILTER ELEMENTS

- Replacement 2 1/2" or 3" filter elements for HSR42/45/48 carburetor

S&S CARBURETOR REBUILD KITS AND REPLACEMENT COMPONENTS

- Rebuild kits are available in master kits, body-only kits and accelerator pump kits
- Replacement gaskets, O-rings and components are made from the highest quality materials available

REPLACEMENT COMPONENTS

PART #	ID #	DESCRIPTION
112923	-	Master rebuild kit Super E (body, accelerator pump, fasteners, springs, idle mixture screw, seat and needle assembly)
112924	-	Master rebuild kit Super G (body, accelerator pump, fasteners, springs, idle mixture screw, seat and needle assembly)
1003-0453	-	Master rebuild kit Super A, B (body, accelerator pump, fasteners, springs, idle mixture screw, seat and needle assembly)
DS-289111	-	Rebuild kit for Super E (body rebuild kit)
1003-0312	-	Rebuild kit for Super E & G basic
112903	-	Rebuild kit for Super B (body rebuild kit)
1003-0056	-	Breather conversion kit for E, G carburetor
1003-0085	13A	Idle mixture screw (5 pk.)
1003-0040	14	Idle mixture screw spring (10 pk.)
1003-0047	20	Fast idle plunger/enrichener (ea.)
1003-0459	-	Enrichener lever, Super E or G carburetor
1003-0196	21	Throttle cable guide/bracket for use w/ butterfly cables (ea.)
1003-0195	21	Throttle cable guide/bracket for use w/ CV (constant velocity) cables (ea.)
DS289935	23	Manifold to carburetor O-ring, Super E (10 pk.)
112091	29	Bowl gasket, Super B and D (10 pk.)
1003-0455	24	Seal, bellows, Super E/G, 2T, Nitrile
1003-0043	24	Bellows seal, accelerator pump (5 pk.)
-	-	Main Jets, see pages 235
-	-	Intermediate Jets, see pages 235
0934-5028	29	Bowl gasket, Super E & G (ea.)
DS289933	29	Bowl gasket, Super E & G (10 pk.)
1003-0966	33	Screw, S&S float bowl, long (ea.)
1003-0452	33	Float bowl for Super E & G
1003-0041	34	Float bowl plug (5 pk.)
0935-0864	35	O-ring, 0,390" ID x 0,510" OD, Silicone (50-8009) (ea.)
0935-0870	35	O-ring, 0,390" ID x 0,510" OD, Silicone (50-8095) (ea.)
1003-0042	36	Needle for S&S E & G carb (1,875" E & 2,0625" G) (ea.)
1003-0052	37	Fuel inlet/seat for S&S E & G carb (1,875" E & 2,625" G) (uses needle 1003-0042) (ea.)
1003-0237	38	Inlet carb fuel swivel, 90°
0935-0865	38	O-Ring, (-006), 0,125" ID x 0,250" OD, Silicone (50-8011) (ea.)
1003-0192	38	O-ring, accelerator pump tube E & G carburetor (10 pk.)
1003-0194	40	Accelerator pump check ball only (10 pk.)
1003-0050	41	Check ball spring (5 pk.)
0935-0866	42	O-ring, (-009), 7/32" ID x 1/32" OD x 1/16" CS, Silicone (50-8012) (ea.)
0935-0867	42	O-ring, (-136), 2" ID x 2,187" OD, Nitrile (50-8013)
1003-0193	42	Accelerator pump cap O-ring (two required) (10 pk.)
1003-0188	44	Fuel bowl overflow hose; 24" long (5 pk.)
1003-0044	45	Diaphragm spring, accelerator pump (10 pk.)
1003-0045	47	Accelerator pump diaphragm (ea.)
112084	49	Enrichment device for B series carb (will work on Super E & G carbs when changing air cleaners) (ea.)
0706-0203	50B	Straight gas hose for use with the new S&S carbs with 90° fuel inlet
DS-289183	-	Gas line insulator
160057	52	1" Spacer block Super E
160491	52	0,25" Insulator block w/ O-ring Super E
1050-0360	53	1 7/8" x 3/8" Super E and G manifold insulator blocks w/ O-ring
160492	53	0,25" Insulator block w/ O-ring Super G
1003-0454	56	Tube, ejector nozzle, Super E/G, flared, brass
1050-0359	60	Hose VOES/oil (19-0395) (ea.)
DS-289113	-	Accelerator pump rebuild kit for E & G (diaphragm, spring, check balls and springs, pushrod and required hardware)
1050-0445	-	Plunger nut (ea.)
1050-0438	57	Idle mixture needle O-ring (ea.)
1003-0353	30	Float for Super E or G carburetor (ea.)
1050-0302	-	Fuel hose and swivel inlet fitting upgrade kit for early-style S&S E and G carburetors
1003-1874	-	Enrichment plunger spring for Super E and G carburetors (ea.)
0935-0862	-	O-ring (-160), 5,250" ID x 5.437" OD, Viton®
0935-0863	-	O-ring (-013) 0,437" ID x 0.565" OD, Viton
0935-0869	-	O-ring (-233), 1,625" ID x 1.875" OD, Viton

REPLACEMENT PARTS FOR HSR 42/45 CARB KITS

PART #	DESCRIPTION
HS42/001-K	Mikuni-to-CV carb air box adapter w/ three mounting screws
990-605-065	Short idle screw adjuster
990-662-002	Choke cable, for use with Mikuni plastic nut, spring and brass plunger
1003-2033	Replacement float for HSR42/45/48 carburetors

REPLACEMENT NEEDLE AND SEAT ASSEMBLY FOR MIKUNI HSR42/45 CARBURETORS

- Includes needle, seat and O-ring

PART #	DESCRIPTION
1050-0390	Repl. needle and seat assembly for Mikuni HSR42/45 carburetors

GENUINE MIKUNI HS CARBURETOR REBUILD KITS

- Genuine Mikuni parts properly replace worn or mistreated components for HSR42/45/48 carburetors
- Includes top cover gasket, jet needle E-ring and washer, throttle valve seal, pilot air O-ring, fuel joint O-ring, accelerator pump O-ring, needle valve O-ring, needle valve retainer screw, needle valve assembly, float bowl O-ring/gasket, overflow hose, float bowl screws, and accelerator pump rod boot

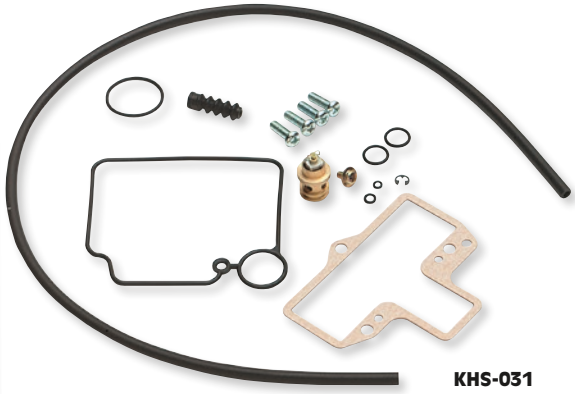
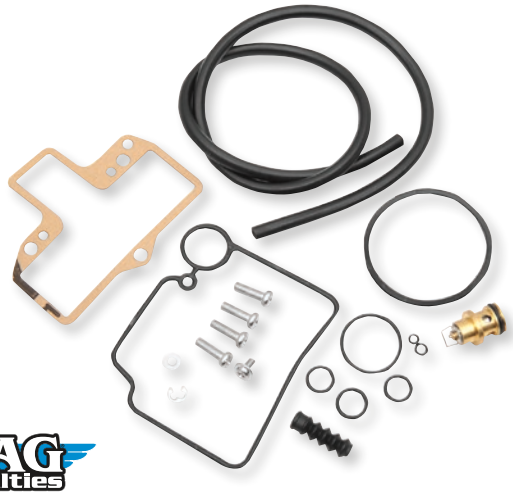
KHS-016	HSR42/45 Carb rebuild kit



KHS-031

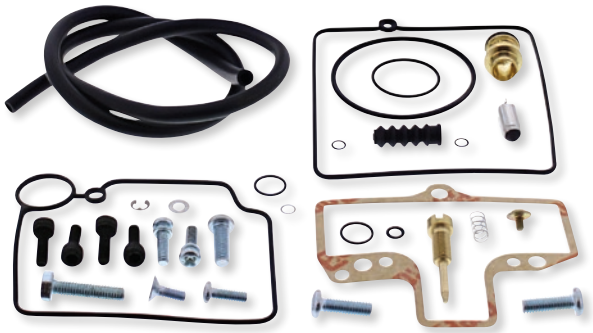
PART #	DESCRIPTION
KHS-031	HSR48 Carb rebuild kit



CARB REBUILD KIT FOR MIKUNI

- Includes all required parts to completely rebuild a carb
- For HSR42/45 mm carburetors

PART #	DESCRIPTION
1003-0293	Rebuild kit for HSR42/45 mm carbs



CARBURETOR KIT FOR MIKUNI

- NBR rubber material is used on all O-rings and rubber gaskets – NBR has excellent resistance to the ethanol used in today's fuels
- Kit is intended for closed-course racing only
- Includes: all gaskets and O-rings including spigot body gasket; float bowl, carburetor cap and spigot body screws; fuel mixture screw with spring, washer, and O-ring; float needle valve with FMK tip; and accelerator pump boot

PART #	DESCRIPTION
1003-1948	For HSR 42/45

MIKUNI CARB TOP COVER

- Chrome cover with Mikuni logo

PART #	DESCRIPTION
KHS-029	For Mikuni HSR carbs

ALL BALLS RACING

CV CARBURETOR REBUILD KIT

- NBR rubber material is used on all O-rings and rubber gaskets; NBR has excellent resistance to the ethanol used in today's fuels
- Components included in the kit are based on U.S. models and discretion must be used when attempting to install the kit on a non-U.S. model
- All gaskets and O-rings, including intake gaskets before and after the carburetor
- Kit includes float bowl, carburetor cap and accelerator pump screws
- Extended fuel mixture screw with spring, washer and O-ring
- Float needle valve with FMK tip
- Accelerator pump diaphragm spring and boot
- Emulsion tube with slide needle
- Three main jets and three pilot jets that can be used to tune a stock machine or a modified one
- Kit is intended for closed-course racing only

PART #	DESCRIPTION
1003-1273	For 90-99 Evolution Big Twin w/ CV carb (includes: 42, 45, 48 pilot jets; 175, 180, 185 main jets; N0KG needle)

DS-289104

0935-0100

Genuine JAMES GASKETS

CARBURETOR INSULATOR BLOCK KITS

- Kit includes 3/8" fiber insulator block and gaskets
- Designed to reduce the risk of boiling fuel in the carb

PART #	DESCRIPTION
DS-289104	For 76-80 FX and 79-84 FL; will also fit any Bendix or Keihin carb when longer studs/bolts are used (1 3/4" ID)
0935-0100	For 44-65, carb to intake (Linkert); repl. OEM #29250-55

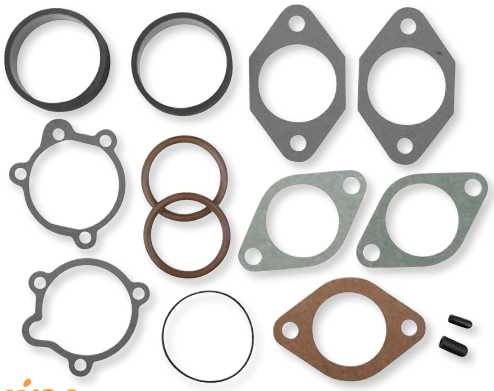
DS-174381

Genuine JAMES GASKETS

CARBURETOR AND INTAKE MANIFOLD SEAL KITS

- Kits contain carb-to-intake seal and two intake-to-cylinder head seals

PART #	DESCRIPTION
DS-174381	40 mm seal kit for 90-99 80" Evolution w/ OE carbs
DS173537	44 mm seal kit for 90-99 80" Evolution w/ Screamin' Eagle carbs



Genuine JAMES GASKETS

CARBURETOR INTAKE MANIFOLD GASKET KITS

- Kit contains carb-to-intake seal and two intake-to-cylinder head seals

PART #	DESCRIPTION
0934-1610	For 66-84 Shovelhead, 79-85 XL w/ Bendix/Keihin/Tillotson (butterfly style)

Genuine JAMES GASKETS

ACCELERATOR PUMP DIAPHRAGM

- Sold each

PART #	DESCRIPTION
DS-174445	For 76-89 w/ OEM Keihin carb; repl. OEM #27361-76

COMETIC GASKET

INTAKE MANIFOLD AND CARB SEAL KIT

- Kit contains one carburetor-to-intake seal (27002-89) and two intake-to-cylinder head seals (26995-86B)

PART #	DESCRIPTION
0935-0172	40 mm seal kit for 90-99 Evolution Big Twin w/ OEM carb

DS-290350

STAGE 7 THUNDERSLIDE WITH JET KITS

- Stage 7 kits are for 80 plus hp engines and include a taller carburetor top for more slide movement
- Revolutionary composite plastic slide provides unparalleled performance gains in both horsepower and mileage
- Unique set of lift holes moderate how the slide moves with respect to throttle position; the faster the slide opens, the quicker the throttle response
- Kits include jets, needles, clips, carburetor top and other necessary parts for CV carbs

PART #	DESCRIPTION
DS-290352	For 90-99 Evolution Big Twin

PART #	DESCRIPTION
DS-290350	For Screamin' Eagle 44 mm Keihin CV Evolution

THUNDERSLIDE JET KIT

- Designed for engines with stock or aftermarket air filter and exhaust system
- Revolutionary composite plastic slide provides unparalleled performance gains in both horsepower and mileage
- Unique set of lift holes moderate how the slide moves with respect to throttle position; the faster the slide opens, the quicker the throttle response
- Kit also includes jets, needles, clips and other necessary parts for CV carbs

PART #	DESCRIPTION
DS-289307	For 90-99 Evolution Big Twin

RECALIBRATION KITS

- Recalibrate your stock Keihin CV carb to make full use of the performance potential
- Include the jets, needles, instructions, etc., necessary to recalibrate stock engines with CV carbs
- Kits provide broad-range performance gains and maintain stock driveability

1050-0046	For S&S G-series carbs

FLANGE MOUNT INTAKE MANIFOLDS

- Can be used to replace stock "compliance fitting" manifold on 84-89 and stock rigid-mount manifold from 90-99
- Use with stock or S&S cylinder heads
- For use with stock 5.550" length cylinders
- Requires the use of S&S intake seals and flanges (sold separately)

PART #	DESCRIPTION
FOR 84-99 EVOLUTION-STYLE BIG TWIN	
1050-0293	For Super E carbs (no MAP sensor port)

PART #	DESCRIPTION
FOR 84-99 EVOLUTION-STYLE BIG TWIN (CONT)	
1050-0110	For Super G carbs (no MAP sensor port)

SPIGOT-MOUNT INTAKE MANIFOLD FOR S&S HEADS

1050-0295

- Used to install a stock CV carburetor on S&S 3.625", 4" and 4.125" bore motors
- Will also fit S&S Hot Setup and Super Stock™ head kits
- PART #1050-0295 is used when installing 48 mm CV or Mikuni carburetor

NOTE: Not for use with OEM-style O-rings, requires the use of S&S manifold O-rings and U-rings, sold separately.

PART #	DESCRIPTION
1050-0292[1]	Fits stock CV carburetor on S&S 3.625", 4" and 4.125" bore motors
1050-0295[2]	Fits stock CV carburetor on S&S 3.625", 4" and 4.125" bore motors

[1] Requires the use of S&S manifold O-rings and U-rings (sold separately). Will fit S&S Hot Setup and Super Stock head kits.

[2] Requires the use of S&S manifold O-rings and U-rings (sold separately).

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

STANDARD INTAKE MANIFOLDS

- Available for stock length cylinders
- Compatible with S&S Super E and B carbs
- L78-84 Shovelheads use rubber-band-type intake seals
- 66-E78 Shovelheads use O-ring-type intake seals

DS-289231

FOR L78-84 SHOVELHEAD (W/O VOES) (BAND TYPE)			
PART #	S&S OR STOCK ENGINE SIZE	CYLINDER LENGTH	SIZE
FOR S&S ES, LS, SUPER A, B, E, TILLOTSON®, BENDIX©, KEIHIN®			
DS-289232	74", 80", 84", 88"	5,330"	220

FOR 66-E78 SHOVELHEAD AND 57-78 XL (O-RING TYPE)

FOR S&S ES, LS, SUPER A, B, E, TILLOTSON®, BENDIX©, KEIHIN®			
DS-289231	74", 80", 84" 88"	5,330"	220

T-STYLE O-RING MANIFOLD

- Cylinder length: Stock 5,330"
- Manifold length: 2,975"

PART #	DESCRIPTION
1050-0337	For 55-65 Big Twin

1003-0313

0934-0665

1050-0347

INTAKE MANIFOLD O-RINGS AND U-RINGS

- For use with all current S&S intake manifolds
- O-rings sold in 10-pack
- U-rings sold each

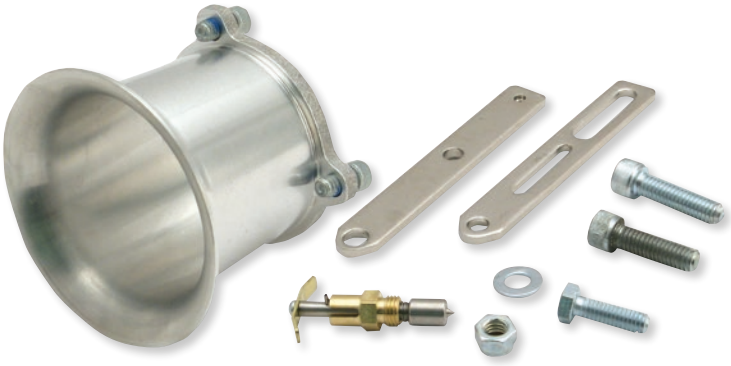
FOR 84-99 EVOLUTION BIG TWIN	
PART #	DESCRIPTION
O-RINGS (MANIFOLD TO CYLINDER HEADS)	
1003-0060	For stock heads w/ S&S manifold (10 pk.)
1003-0313	For stock heads (10 pk.); repl. OEM #26995-86A
1003-0457	For stock heads (ea.); repl. OEM #s 26992-99, 26995-86A, 26995-86B
O-RINGS (MANIFOLD TO S&S CARBURETOR)	
0935-0868	O-ring (1 7/8" for Super E carburetor (ea.)
1003-0456	For Super B or E carburetor (ea.)
U-RINGS (CV CARB TO MANIFOLD)	
0934-0666	40 to 42 mm
0934-0665	44 to 45 mm
REPLACEMENT PARTS	
1050-0347	Straight hose fitting (0,200" x 0,098")

1003-0458

INTAKE MANIFOLD RUBBER BANDS

- Replace OEM #27062-78
- Sold each or in packs of 10

PART #	DESCRIPTION
FOR 79-84 BIG TWIN, 79-85 XL	
1003-0458	10 pk.
1050-0336	ea.



AIR HORN VELOCITY STACK KIT

- Fully machined from lightweight alloy aluminum castings
- Kit includes: air horn velocity stack, three mounting screws, carb support bracket (bracket connects the center crankcase bolt to the bottom manifold carburetor mounting bolt), two longer bottom carb-to-manifold mounting bolts and an enrichment device
- Fits Super E & G carbs

PART #	DESCRIPTION
1011-3843	For S&S Super E & G carburetors

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

INTAKE MANIFOLD

- Intake manifold for HSR42/45/48 carbs
- Rubber flange adapters sold separately

PART #	DESCRIPTION
1050-0466	For all 84-99 Evolution Big Twin motors

BLACK FLANGE ADAPTERS

- Rubber flange adapters fit 42 mm, 45 mm and 48 mm spigot-type carburetors
- PART #HS42/018-42 has mounting holes that are 70 mm on center; ID of 45 mm
- PART #HS42/018-45 has mounting holes that are 70 mm on center; ID of 48 mm
- PART #HS42/062-48 has mounting holes that are 70 mm on center; ID of 71 mm
- PART #1013-0166 has slotted mounting holes that are 70 to 75 mm on center; ID of 45 mm
- PART #1013-0167 has slotted mounting holes that are 70 to 75 mm on center; ID of 45 mm
- Includes clamp
- Original straight-through design
- Sold individually

PART #	DESCRIPTION
HS42/018-42	42 mm
1013-0166	42 mm
HS42/018-45	45 mm

PART #	DESCRIPTION
1013-0167	45 mm
HS42/062-48	48 mm

CHROME INTAKE MANIFOLD FLANGES

- Chrome flanges replace the stock flanges
- Sold in pairs
- Replacement intake manifold seals also available; see GASKETS & SEALS section

PART #	DESCRIPTION
DS-289212	For 90-99 Evolution Big Twin

1013-0043

INTAKE MANIFOLD CLAMPS

- Clamp is 3/4" wide and constructed of 0,020" thick stainless steel and use a curved 10-24 threaded "T"-bolt with plated steel aircraft-style hex locknut
- Sold each

PART #	DESCRIPTION
1013-0044	For 79-84 Shovelhead and L78-85 XL with rubber band-style cylinder heads; repl. OEM #27063-80
1013-0043	For 55-78 Big Twin and 55-E78 XL with O-ring-style cylinder heads; repl. OEM #27063-57

M-VM-40-200

RUBBER FLANGE ADAPTERS FOR SPIGOT-TYPE CARBURETORS

- Adapters fit 38 mm and 40 mm spigot-type carburetors
- Includes clamp
- PART #M-VM-36-200 has mounting holes that are 70 mm on center; ID of 39,5 mm
- PART #M-VM-38-200 has mounting holes that are 74,6 mm on center; ID of 38 mm
- PART #M-VM-40-200 has mounting holes that are 74,6 mm on center; ID of 47 mm
- Sold individually

PART #	DESCRIPTION
M-VM-36-200	36 mm to 38 mm rubber flange adapter
M-VM-38-200	40 mm rubber flange adapter, 43 mm carb spigot OD (fits RS40, RS42)
M-VM-40-200	40 mm rubber flange adapter, 52 mm carb spigot OD

BILLET FLANGE ADAPTER FOR SPIGOT-TYPE CARBS

- Allows you to mount OEM late-model CV or Mikuni HSR42 carbs on Evolution, Shovelhead, Panhead or Sportster models with two-bolt flange manifolds
- CNC machined from 6061 billet aluminum
- Mounting holes are 2 3/4" on center
- Carb-to-manifold seal also available; see GASKETS & SEALS section
- Sold each

PART #	DESCRIPTION
DS-289219	Billet flange adapter

1050-0232

INTAKE MANIFOLD FLANGES

- Flanges sold in pairs (one front and one rear) or each (one front or one rear)
- Replace H-D #s 27009-86B and #27010-86B
- Replacement seals sold separately

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN W/ S&S INTAKE MANIFOLD	
1050-0232	Front and rear flange (set)
1050-0394	Front flange only
1050-0395	Rear flange only

MANIFOLD TO CYLINDER HEAD O-RING KIT

- Meets or exceeds OEM quality

PART #	DESCRIPTION
0934-4705	For 55-78 Big Twin and 57-E78 XL w/ O-ring style cylinder heads; repl. OEM #27060-55

INTAKE PIPE SEAL

- Precision machined duplicate of the original brass intake manifold seal
- Sold each

PART #	DESCRIPTION
2401-0431	For 40-54 O.H.V. 61"/74" engines; repl. OEM #27059-40

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

HSR CARBURETOR HEAD-BREATHER KIT

- For use with Mikuni air filter PART #s HS42012250 and HS42012300
- For the installation of HSR carburetor kits using the K&N® high-flow filter on Evo Big Twins

PART #	DESCRIPTION
KHS-020	For HSR42/45 carb on Evolution Big Twin

CRANKCASE BREATHER KIT

- One-piece chrome tube design
- Includes breather bolts, washers and hardware
- Works with most aftermarket air cleaners

PART #	DESCRIPTION
DS-289620	For 93-99 Evolution Big Twin

CRANKCASE BREATHER/SUPPORT BRACKET KITS

- Allows the installation of aftermarket air cleaner assemblies on late model bikes equipped with OEM CV carb
- Includes bracket, filter, hose and all mounting hardware necessary for installation except where noted

PART #	DESCRIPTION
DS-289082	For all 93-99 Evolution Big Twin
DS-289060	For 93-99 Evolution Big Twin (no hose or filter)

DS-289082

PART #	DESCRIPTION
DS-289073	Repl. filter

AIR CLEANER BREATHER KIT

- Enables the mounting of most aftermarket air cleaners to late-style engines that breathe through the cylinder heads
- Fittings can be rotated 360° so that hoses can be routed as necessary
- Hose sold separately

PART #	DESCRIPTION
DS-289055	For 93-99 Evolution Big Twin

BREATHER TUBES

- For use with OEM backing plates and air filters
- Sold in pairs

PART #	DESCRIPTION
1010-2029	For 93-99 Evolution Big Twin; repl. OEM #24922-93

EVOLUTION BREATHER BOLT KIT

- Chrome-plated hex-head breather bolts
- Fits most supports and breather brackets
- Includes sealing washers

PART #	DESCRIPTION
1012-0162	For 93-99 Evolution Big Twin (1/2"-13)

BREATHER BOLT WASHER KIT

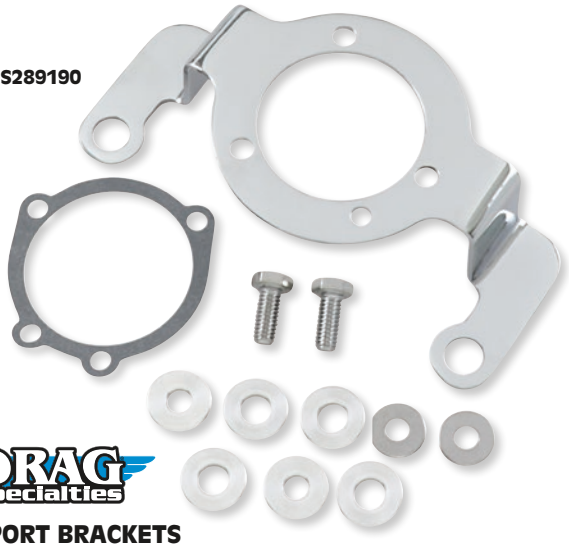
- Features four 1/2" and four 5/16" aluminum centering washers
- Also includes four 1/2" nylon sealing washers

PART #	DESCRIPTION
1012-0005	For 91-99 breather systems

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

DS289190



DRAG Specialties

SUPPORT BRACKETS

- Chrome air cleaner braces provide additional support for the Dragtron™ II air cleaners or any flat-backed air cleaners
- Mount to the cylinder heads
- Can be used in conjunction with most breather kits (where applicable)
- Breather kits/bolts sold separately
- All gaskets and mounting hardware included
- For replacement gaskets, see GASKETS & SEALS section

PART #	DESCRIPTION
DS289190	For 90-99 Evolution Big Twin (CV carb)
DS-289053	For 84-89 Evolution Big Twin (butterfly carb)

DRAG Specialties

CARB SUPPORT BRACKET WITH CHOKE CABLE MOUNT

- Chrome-plated stamped steel
- Provides support for carb and air cleaner
- Offers mounting of choke control under the carb for easy access

PART #	DESCRIPTION
2110-1212	For 92-99 Evolution Big Twin w/ Mikuni HSR 42/45 carb

DRAG Specialties

AIR CLEANER BRACE

- Use with our Dragtron™ air cleaners to eliminate carb vibration, which can lead to air leaks
- Includes hardware and template
- Must use either PART #DS-289104 block or OEM insulator
- Chromed steel support brace fits models equipped with Bendix or Keihin carbs

PART #	DESCRIPTION
DS-289094	For 57-85 XL

1001-0047

1001-0031

PROVEN S&S PERFORMANCE

FIXED-LENGTH CARBURETOR/ AIR CLEANER SUPPORT BRACKETS

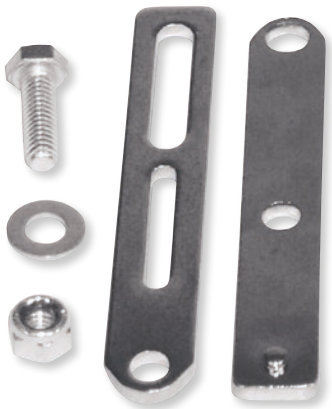
- All-steel construction with chrome plating
- Include hardware

PART #	DESCRIPTION
1001-0031	For 66-82 Shovelhead w/ Super E/G carb
1001-0047	For 66-84 Shovelhead w/ Super A/B/D carb

PROVEN S&S PERFORMANCE

ADJUSTABLE CARBURETOR SUPPORT BRACKET

- Adjusts from 5,25" to 6,375"
- Mounts from the center-case bolt between cylinders to the lower flange mount of the manifold



PART #	DESCRIPTION
160471	Support bracket

PROVEN S&S PERFORMANCE

THREAD REDUCER

- Used on 93-99 H-D cylinder heads when installing a carburetor support bracket that requires $^{5}/_{16}$"-18 mounting bolts
- Reduces a $^{1}/_{2}$"-13 threaded hole to $^{5}/_{16}$"-18
- Sold each; two required per motor

PART #	DESCRIPTION
7806-2940	$^{1}/_{2}$"-13 to $^{5}/_{16}$"-18 thread reducer

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

2401-0503

2401-0504

CARBURETOR SUPPORT BRACKETS

- Exact reproduction of the original H-D support brackets
- Used to support the Linkert carburetor

PART #	DESCRIPTION	OEM #
2401-0503	For 39-48 Big Twin	1110-39

PART #	DESCRIPTION	OEM #
2401-0504	For 36-52 45 Solo	27432-36

1050-0262

1050-0184

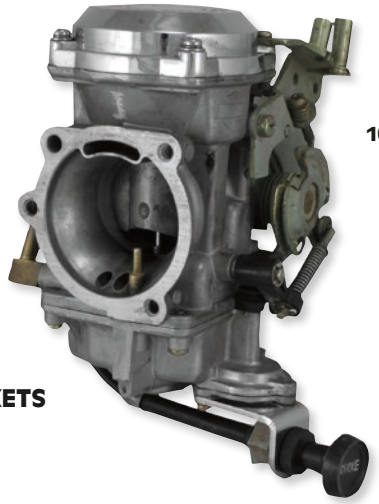
MIKUNI ENRICHENER CABLE RELOCATION BRACKET KITS AND KNOBS

- Kit includes bracket, idle mixture screw knob and enrichener cable knob
- CNC-machined billet aluminum components
- Available in black or raw finish

NOTE: Must be used with Mikuni enrichener cable, Drag Specialties PART #990-662-002; see page 230.

PART #	DESCRIPTION
1050-0262	Black
1050-0184	Raw

PART #	DESCRIPTION
990-662-002	Choke cable



1050-0227

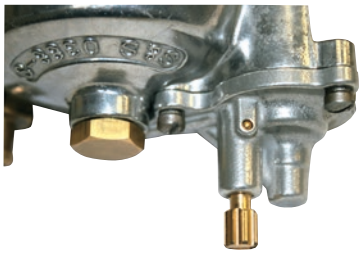
1050-0226

ECON ENRICHENER CABLE RELOCATION BRACKETS

- Relocates enrichener cable and knob out of the way
- For use with stock enrichener cables and knobs
- Made from stainless steel with ball-burnished finish

PART #	DESCRIPTION
1050-0227	For all Keihin CV carbs

PART #	DESCRIPTION
1050-0226	For all Mikuni HSR carbs



QUICKSHOT

- Cost-effective, bolt-on upgrade allows accelerator pump fuel spray to be adjusted with the turn of a screw
- Precision single hole sprayer tip directs and injects fuel more efficiently than stock
- Fine high-speed fuel stream atomizes faster to improve roll-on acceleration
- Provides instant throttle response
- Accelerator pump check valve stops bogging and coughing
- Adjustable fuel jet to control accelerator pump spray
- Improves low end performance and fuel economy
- Easy bolt-on; no modifications necessary

PART #	DESCRIPTION
1050-0241	For S&S Super E & G carburetors

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

DS-288880

ARLEN NESS

BIG SUCKER™ STAGE I AIR FILTER KITS

- One-piece aluminum backing plate features hidden breather technology
- Each hidden breather is o-ringed at the heads and exits at the mouth of the injector/carb to provide efficient engine breathing, eliminating the need for any external hoses or hardware
- Radius air inlet provides maximum performance by providing unobstructed airflow
- Backing plates are available in natural, black powdercoat, or chrome finish

PART #	DESCRIPTION
FOR 93-99 EVOLUTION BIG TWIN W/ CV CARB	
DS-288880	Kit w/ standard filter, natural
1010-1761	Kit w/ synthetic filter, chrome

1010-1761

1010-1762

- Filters are available in standard red or synthetic black filter elements
- Standard red filters are pre-oiled, washable and feature four-layers of surgical grade cotton for optimum filtration and maximum airflow
- Synthetic filters feature a black synthetic material that is water resistant and never needs to be oiled; just wash and reuse
- Accepts OEM outer cover or custom Ness outer cover
- All necessary hardware and instructions are included with each kit

PART #	DESCRIPTION
FOR 93-99 EVOLUTION BIG TWIN W/ CV CARB (CONT)	
1010-1762	Kit w/ synthetic filter, black

1010-0871

1010-0876

BIG SUCKER™ STAGE I AIR FILTER KITS WITH COVER

- One-piece aluminum backing plate features hidden breather technology
- Each hidden breather is O-ringed at the heads and exits at the mouth of the injector/carb to provide efficient engine breathing, eliminating the need for any external hoses or hardware
- Radius air inlet provides maximum performance by providing unobstructed airflow
- Backing plates are available in chrome or black powdercoat finish
- Kits are available with standard red or synthetic black filter elements

1010-1602

1010-2067

- Standard red filters are pre-oiled, washable and feature four layers of surgical-grade cotton for optimum filtration and maximum airflow
- Synthetic filters feature a black synthetic material that is water-resistant and never needs to be oiled; just wash and reuse
- All kits include high-performance filter, backing plate and outer cover
- All necessary hardware and instructions are included with each kit

FOR 93-99 EVOLUTION BIG TWIN W/ CV CARB

PART #	DESCRIPTION
KITS W/ STANDARD FILTER	
1010-0871	Smooth, chrome
1010-0876	Smooth, black

PART #	DESCRIPTION
KITS W/ SYNTHETIC FILTER	
1010-2077	Beveled, chrome
1010-2067	Slot Track, black

PART #	DESCRIPTION
KITS W/ SYNTHETIC FILTER (CONT)	
1010-1602	Smooth, chrome
1010-1606	Smooth, black

BIG SUCKER™ STAGE II AIR FILTER KIT WITH COVER

- Features a one-piece aluminum backing plate/carb support bracket with patented hidden breather technology and radius air inlet
- Eliminates the need for banjo fittings, hoses and filter
- Breather passages exit at the mouth of the carburetor/throttle body, creating a virtually closed-loop system
- Kit includes a 20% larger high-performance filter and steel outer cover
- Includes standard pre-oiled filters
- All necessary hardware and instructions are included

PART #	DESCRIPTION
1010-0430	For 93-99 Evolution Big Twin w/ CV carb (chrome)

1010-0584	Billet Sucker™/Big Sucker Stage I hardware kit for 93-99 Evolution Big Twin w/ CV carb

ARLEN NESS

REPLACEMENT AIR FILTER ELEMENT FOR STAGE 1 SCREAMIN' EAGLE AIR CLEANER

- Premium pre-oiled direct replacement element for Screamin' Eagle kits
- Each is handmade one at a time in a urethane body that won't crack; four layers of surgical-grade cotton provide optimum airflow and protection
- 100% reusable and washable
- Available in red cotton; fit with original Screamin' Eagle covers
- Can also be used with Ness Stage I top cover for an exposed filter high-performance look; no other hardware necessary

PART #	DESCRIPTION
2110-9494	For 99 FXST, 97-98 FXD/FXDWG

TRASK PERFORMANCE

ASSAULT SERIES

ASSAULT CHARGE HIGH-FLOW AIR CLEANERS

- Features a billet aluminum backing plate with hidden integrated breather system and a plexiglass outer cover
- Snap-in velocity stack for improved airflow
- Dyno developed and tested

1010-0985

1011-2485

FAST AIR INTAKE SOLUTION

- The most innovative and aggressive-looking forward-facing air intake on the market
- Features an internal crankcase breather system
- Contrast Cut™ finish features a polished surface that is black anodized, then re-cut to open the design

PART #	DESCRIPTION
FOR 93-99 EVOLUTION BIG TWIN W/ CV CARB	
1010-0985	Chrome
1010-0984	Contrast Cut™

1010-0984

- K&N® filter element allows for a significant horsepower increase over stock air cleaner
- Not for models with fairing lowers
- Includes rain sock

PART #	DESCRIPTION
REPLACEMENT COMPONENTS	
1011-2485	Rain sock
1011-2486	Air filter

C4 SERIES CARBON FIBER AIR CLEANER

- Ground-breaking appearance with weight savings and performance gains
- Embodies the essence of racing and modern design
- Beautifully sculpted ultra-lightweight carbon fiber shell
- Forward-facing reverse cone filter element
- Comes with a Black Ops™ finish outer ring
- Black Ops features a gloss black finish over a contrasting texture black finish

PART #	DESCRIPTION
1010-3272	For 93-99 Evolution Big Twin w/ CV carb

JET AIR CLEANERS

- Low-profile and lightweight air cleaners CNC machined from billet aluminum
- Innovative and versatile design allows unit to be mounted in the vertical or horizontal position
- Compact design for improved knee clearance
- Features PM's proven internal crankcase venting system
- Feature a high-flow reusable air filter
- Black Ops™ finish features gloss black on top of a contrasting textured black finish for outstanding durability and looks

SUPER STOCK™ STEALTH AIR CLEANER KITS

- For stock and S&S fuel system applications
- Kits include backing plate, filter and hardware
- Built-in stinger cone directs air smoothly into the bore of the carburetor or EFI throttle body and reduces turbulence and increases flow
- Optional high-flow (1" taller) filter and pre-filter/rain sock also available

NOTE: Kits that do not include a cover must use a stock Twin Cam 88, 96, or 103 "football-style" air cleaner cover, or a S&S Stealth air cleaner cover (sold separately).

1010-1313

1011-3119

PART #	DESCRIPTION
SUPER STOCK™ STEALTH AIR CLEANER KITS W/O COVER	
1010-1075	For 93-99 Evolution Big Twin w/ stock CV carburetor
1010-1077	For 93-99 Evolution Big Twin w/ S&S E/G series carbs or 52 mm throttle body
1010-1313	For 36-92 Big Twin, 57-85 XL models w/ S&S E/G series carbs

PART #	DESCRIPTION
REPLACEMENT/OPTIONAL COMPONENTS	
1011-2765	Repl. Stealth filter
1011-2766	Opt. Stealth hi-flo filter kit (1" taller)
1011-3119	Pre-filter/rain sock for standard Stealth air filter

STEALTH AIR CLEANER COVERS

- Fit the S&S Stealth air cleaner kits
- Bob and Muscle-style air cleaner covers are machined from billet aluminum, fit over the end of the air filter and leave the filter element exposed
- Powdercoated gloss black and highlight machined
- Air Stream style is die-cast and features screened vents for more air without sucking in rain/road hazards
- Tribute style mimics the classic S&S Two Throat air cleaner kits

PART #	DESCRIPTION
STEALTH AIR CLEANER COVERS	
1014-0173	Air 1
1014-0116	Air Stream, chrome
1014-0118	Bob dish, chrome
1014-0119	Bob dish, black wrinkle powdercoat
1014-0120	Bob dome, chrome

1012-0235

AIR CLEANERS AND COMPONENTS

- Original S&S teardrop air cleaner assemblies
- Include an S&S cover, backing plate and high-quality filter element and hardware kit
- Increase horsepower with no other changes
- Available for most OEM carburetors and S&S performance intake systems

PART #	DESCRIPTION
AIR CLEANERS WITH CHROME COVER	
1010-0325	For 93-99 Evolution Big Twin w/ stock CV carb
DS289211	For 93-99 Evolution Big Twin w/ E & G series carbs
DS-289129	For 84-92 Big Twin w/ E & G series carbs
AIR CLEANER WITH BLACK COVER	
1010-1866	For 93-99 Big Twin w/ stock CV carb
REPLACEMENT COMPONENTS	
DS289404	Repl. S&S air cleaner cover for E & G carb, chrome
1014-0237	Repl. S&S air cleaner cover for E & G carb, gloss black
DS289405	Repl. air cleaner cover screws (10 pk.)
1012-0222	Repl. vent screw fitting (ea.)
1010-1966	Repl. tear-drop backplate (ea.)
0934-4760	Repl. backplate tear-drop gasket (10 pk.)
1010-1735	Repl. gasket, backplate, Super E/G, CV Adapter, 0,0625"
1011-0324	Repl. crankcase breather hose for 93-99 Big Twin
1012-0231	Breather screw, 5/16"

NOTE: Installation of an S&S air cleaner may require re-jetting or engine re-tuning, however tuning within the OEM emissions standards is required to maintain E.O. validity.

NOTE: Covers may need to be notched when used with custom or 5-gallon or larger fuel tanks.

PART #	DESCRIPTION
REPLACEMENT COMPONENTS (CONT)	
1011-0325	Breather screw seals (silicone-coated steel washer), 0,520" ID (10 pk.)
1011-0326	Breather screw seals (silicone-coated steel washer), 0,380" ID (10 pk.)
1011-1721	Repl. filter element for DS-289137, DS-289211, DS-289128, DS-289129, DS-289130, 1010-0325, 1010-0326, 1010-0235, 1010-0236, 1010-0237, 1010-0419
DS289409	Repl. filter element for DS-289070, DS-289400, DS-289401, DS-289402, DS-289410 and S&S Super B
1010-1992	Backplate screw w/ thread lock 1/4-20 x 1/2", zinc plated, alloy steel
1011-3845	Breather screw seals (silicone-coated steel washer), 0,380" ID (ea.)
1012-0232	Breather screw, 1/2-13 92-99 Big Twin (ea.)
1012-0233	Vent fitting, aluminum alloy (ea.)
1012-0234	Vent fitting, aluminum alloy (pr.)
1012-0235	Hardware kit, super E/G

HIGH-FLOW AIR FILTER AND ADAPTER KIT

- High-flow filter designed especially for Super E and G carburetors
- Filter is 1" taller than standard filter and features a low-restriction, pre-oiled filter element
- Allows for a 37% increase in airflow
- Filter and adapters extend the teardrop housing out 1" for better exposure and a high-performance street racer look
- Kit installs in minutes; no permanent modifications required

NOTE: Not for use with S&S Super B or Super D carburetors, or Super E and G Kits for Buells.

PART #	DESCRIPTION
1011-0323	For S&S Super E and G carbs
1011-2286	Repl. high-flow filter for S&S Super E and G carbs (also fits S&S air cleaners for stock carbs and EFI throttle bodies)

TUNED INDUCTION AIR CLEANER REPLACEMENT PARTS

- Available as listed

1011-4631

1011-1336

PART #	DESCRIPTION
1011-4631	Repl. red filter w/ clamp (ea.)
1011-1336	Moisture repellent rain cover for S&S tuned induction filters (pr.)

K&N

CUSTOM AIR CLEANER ASSEMBLY

- Designed to fit Harley-Davidson motorcycles equipped with various carburetors
- Increases horsepower with proper carburetor calibration
- Mounts directly to the carburetor flange

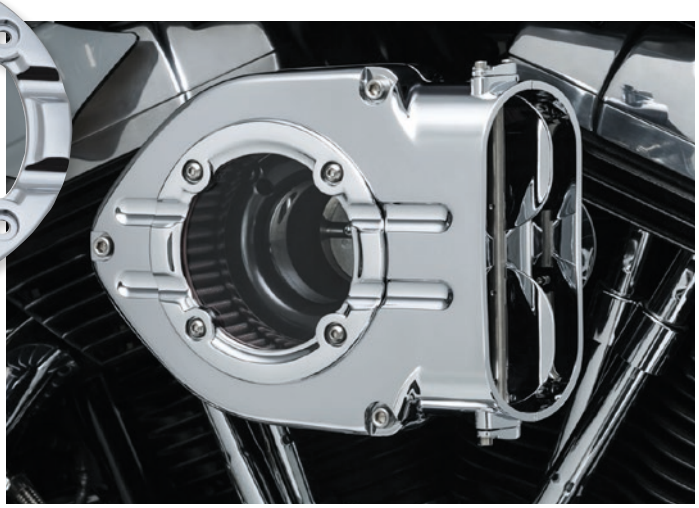
PART #	DESCRIPTION
1011-1058	36 to 38 mm Mikuni air filter; 5" dia. open round style

KURYAKYN

STINGER TRAP DOOR FOR HYPERCHARGER™

- If you have a need for more performance, look no further
- Stinger trap door maximizes airflow into the carburetor or throttle body through a high-flow filter element
- Highly cost-effective way to boost airflow to any standard Hypercharger™
- Easy four-bolt replacement for standard trap door
- Chrome finish

PART #	DESCRIPTION
1010-0145	Stinger trap door



KURYAKYN

CLEAR TRAP DOOR FOR HYPERCHARGER™

- Direct replacement for the trap door on Kuryakyn's standard and Blood Groove Hyperchargers™
- Gives you an inside look at the inner workings of the air cleaner and throttle body
- Trim ring is cast aluminum construction
- Clear window is made from durable, shatterproof polycarbonate
- Gasket included

PART #	DESCRIPTION
1014-0242	Clear trap door for Hypercharger™

KURYAKYN

PRO R HYPERCHARGER™ ACCESORY

- Sold each

PART #	DESCRIPTION
1011-3206	Repl. cage/foam filter assembly

STAMPED STEEL DRAGTRON™-STYLE AIR CLEANER

- Stamped steel version of our popular die-cast Dragtron air cleaner
- Fits Bendix, Keihin (not CV) and Tillotson carburetors

NOTE: Requires appropriate carb support bracket.

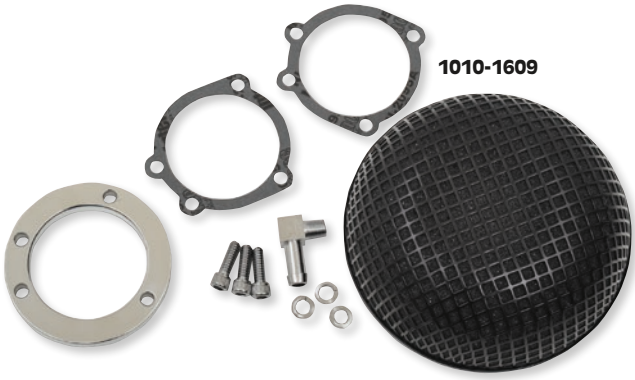
PART #	DESCRIPTION
DS-288999	Air cleaner

7" ROUND AIR CLEANER

- Chrome air cleaners fit Harley-Davidson models equipped with Bendix and Keihin butterfly carburetors
- Air filter element included

NOTE: Requires appropriate carb support bracket.

PART #	DESCRIPTION
DS-288998	For Bendix and Keihin (not CV) carbs



1010-1609

1010-0192

"BOB" RETRO-STYLE AIR CLEANERS

- Retro-style air cleaner measures 5 1/2" in diameter
- Has a reuseable foam filter element
- All necessary mounting hardware included
- Replacement filter element sold separately

NOTE: Requires appropriate breather/ carb support bracket.

1013-0059

1013-0060

AIR CLEANER ADAPTERS

- Allows installation of an LA Choppers xXx air cleaner or Baron Big Air Kit to a Mikuni or S&S carburetor
- Will also work for mounting other air cleaner kits designed to mount stock CV carburetors; not for use with Arlen Ness Big Sucker air cleaners
- Constructed from 6061-T6 billet aluminum

PART #	DESCRIPTION
1013-0059	For Mikuni HSR42/45 carburetors
1013-0060	For S&S carburetors

MIKUNI AIR CLEANER ADAPTER

- Machined 6061-T6 billet aluminum construction
- Use to mount either an S&S E/G or Keihin CV style air cleaners to a Mikuni HSR 42/45 carb

PART #	DESCRIPTION
1013-0099	Mikuni adapter

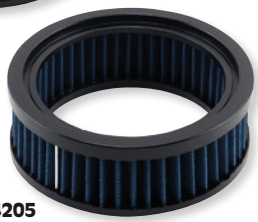
1011-4200

1011-4207

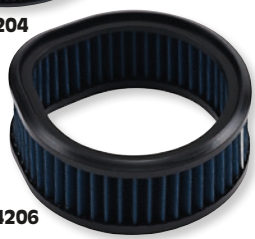
1011-4204

PREMIUM WASHABLE AIR FILTER ELEMENTS

- Durable epoxy-coated wire mesh designed to maximize airflow and provide peak filtration
- 100% reusable and washable
- Pre-oiled for quick, easy installation
- High-flow four-layer surgical-grade cotton filtration
- Urethane body will not crack or curl like rubber



1011-4205



1011-4206

PART #	DESCRIPTION
BIG TWIN	
1011-4200	For 90-99 80" Evolution Big Twin (carb); K&N® ref. #HD-1390; repl. OEM #29259-91A/29330-96
1011-4207	For 90-99 Screamin' Eagle Evolution Big Twin; K&N ref. #HD-0600; repl. OEM #29055-89

PART #	DESCRIPTION
AFTERMARKET AIR CLEANERS	
1011-4204	For S&S "D" teardrop air cleaner; 6" x 2 1/16" (K&N ref. #E-3224)
1011-4205	For S&S teardrop air cleaner; 6" x 2 3/16" (K&N ref. #E3225)
1011-4206	For S&S Super E and G teardrop air cleaner; 6" x 2½" (K&N ref. #E3226)

1011-3247

1011-2960

1011-4218

OEM-STYLE REPLACEMENT AIR FILTER ELEMENTS

- High-quality paper filter medium
- Meets or exceeds OEM specifications
- For use with OEM stock air filter housings

NOTE: Not for use with Screamin' Eagle air cleaners.

1011-4215

1011-4216

1011-4217

REPLACEMENT AIR FILTERS

- Replacement for current air cleaners using the new-style low-profile black air filter element

PART #	DESCRIPTION
1011-3628	For 93-99 Evolution Big Twin w/ CV carb

HIGH-FLOW REPLACEMENT AIR FILTERS™

- Designed to increase horsepower and torque
- Pleated media provides a large filtration area offering long service intervals
- Application-specific sealing bead ensures an airtight fit
- Multi-layers of woven cotton gauze media offer excellent filtration
- Washable, reusable, pre-oiled and ready to ride

V80 COMPLETE ENGINE

- Same displacement and dimensions as the 84-99 H-D Evolution engine
- Wrinkle black finish
- S&S Super E carburetor
- S&S 508 cams
- High-flow S&S cylinder heads
- S&S Super Stock® single-fire ignition

PART #	DESCRIPTION
0901-0230	For 84-99 Evolution Big Twin or 70-99 custom frame w/ alternator-style primary

0901-0208

V111 LONG BLOCK ENGINES

- +30% increase in HP and torque over stock
- Compatible with EFI
- Short stroke for less vibration and longer engine life
- Shorter than stock engine height for easy installation
- Does not include carb or ignition; use stock or aftermarket carburetor and air cleaner
- High-volume, high-pressure (HVHP) oil pump
- Durable S&S three-piece flywheels
- Performance 585 cam and valve springs
- 4 1/8" x 4 1/8" bore and stroke
- 9,8:1 compression ratio

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN OR 70-99 CUSTOM CHASSIS W/ ALTERNATOR-STYLE PRIMARY

0903-1269

74" AND 80" TOP END KITS

- Includes a set of S&S Shovelhead-style cylinder heads, a pair of S&S stock bore cylinders (3 7/16" for 74" engines or 3 1/2" for 80"), forged 8:1 compression pistons complete with rings and wrist pins, manifold clamps, manifold seals, all required hardware, and gaskets
- Pistons are pre-fit to the cylinders, so there is no machine work to be done and very little downtime

PART #	DESCRIPTION
0903-1269	For 66-78 Big Twin (74")
0903-1270	For 79-84 Big Twin (80")

0904-0004

SIDEWINDER® BIG BORE STROKER KITS

- Contains nearly everything needed to take a stock 74" or 80" Shovelhead engine up to 93" or 96" displacement
- Includes 3.625" bore high tensile, cast iron Sidewinder® cylinders and forged pistons with wristpin and rings
- 4.5" or 4.625" stroke, dynamically balanced S&S flywheel assembly complete with S&S heavy-duty connecting rods and mainshafts
- S&S stainless steel head bolts and base nut
- S&S adjustable chromoly steel pushrods
- All necessary head gaskets, base gaskets, exhaust gaskets, and an S&S heavy-duty top motor mount

PART #	DESCRIPTION
FOR 70-84 SHOVELHEAD	
0904-0004	93", approximate compression ratio of 8.5:1
0904-0005	93" high compression, approximate compression ratio of 9.1:1
0903-1299	96", approximate compression ratio of 9.1:1

96" SIDEWINDER KIT

- Kit includes standard flywheel assembly, 3 5/8" bore cylinders, 9.75:1 pistons, rings and gaskets
- Wrinkle black powdercoat cylinder finish

NOTE: Cases must be bored to accept 3 5/8" bore cylinders, and a minor crankcase clearancing operation for the crankpin nut must be performed.

NOTE: 77-89 style pinion gear and oil pump drive gears must be used when installing S&S flywheels in 90-99 engines.

PART #	DESCRIPTION
0903-1258	For 84-99 Evolution Big Twin w/ stock heads

0931-0688	For 79-84 Shovelhead

STOCK BORE CYLINDER AND STROKER PISTON KIT

- Cylinder and piston kit can be used to build 84", 86" or 88" stroker engines, or to replace the cylinders and piston in an engine with an existing S&S stock bore kit
- Includes 3,4375" bore high-tensile cast-iron cylinders, 8.4:1 forged pistons with rings and wristpins, head gaskets, stainless steel head bolts with washers, base nuts and base gaskets
- Can be used in engines with 4 1/2", 4 5/8" or 4 3/4" flywheels

PART #	DESCRIPTION
0931-0689	For 66-84 Shovelhead

3 5/8" BIG BORE CYLINDER AND BIG BORE PISTON KIT

- Cylinder and piston kit can be used to build an 88" engine, or to replace the cylinders and piston in an engine with an existing S&S stock bore stroker kit
- Includes 3 5/8" bore high-tensile cast iron cylinders, forged pistons with rings and wristpins, head gaskets, stainless steel head bolts with washers, base nuts and base gaskets
- 88", 10,8:1 compression
- Can be used in engines with 4 1/4" flywheels

PART #	DESCRIPTION
0931-0690	For 66-84 Shovelhead

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

0931-0017

DS-750507

REPLACEMENT CYLINDERS FOR EVOLUTION-STYLE MOTORS

- Replacement cylinders feature ductile cast-iron sleeves in aluminum castings
- Sleeve has external ribs that "lock" the sleeve to the aluminum casting so it cannot move
- Excellent for stock replacement
- Cylinders are finished slightly undersized so they may be finish-honed to fit your pistons
- Sold each

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN; REPL. OEM #S 16510-83A, 16512-86A (1340CC)	
0931-0017	Black w/ highlight fins
DS-750507	Natural

DS-750605

DS-750607

CYLINDERS

- Cast-iron cylinders meet or exceed OEM tolerance specifications
- Withstand greater pressure and heat than stock
- Available in front and rear versions
- Sold each

NOTE: All Shovelhead cylinders require the use of 12-point head bolts DS-190796.

NOTE: Panhead cylinders are limited to 0,040" overbore.

NOTE: Due to the many different brands of pistons that are available, all cylinders listed below will need to be sized and clearanced to the type of piston being used.

PART #	DESCRIPTION
FOR 66-80 1200CC BIG TWIN	
DS-750605	3,435" front; repl. OEM #s 16484-66B, 16485-74A
DS-750604	3,435" rear; repl. OEM #s 16492-66B, 16492-74A

PART #	DESCRIPTION
FOR 48-65 BIG TWIN	
DS-750607	3,435" front; repl. OEM #16483-48
DS-750606	3,435" rear; repl. OEM #16492-48

CYLINDER DOWELS

- CNC-machined dowels used for locating cylinder head
- Sold as a 4-pack

PART #	DESCRIPTION
DS-199772	For 84-99 Evolution Big Twin; repl. OEM #s 16573-83/16573-83A

CHROME CYLINDER BASE NUTS

- $^{7}/_{16}$"-20, high-torque style
- For use on specific applications

PART #	DESCRIPTION
DS-189966	For 57-84 XL

CYLINDER HEAD PLUG PIPE

- Available as listed

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN AND S&S 4 $^{1}/_{8}$" V-SERIES CYLINDER HEADS	
0927-0036	Plug pipe, $^{3}/_{4}$" taper ($^{1}/_{16}$" x 27 NPTF x 0,156") (ea.)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

0910-0005

92-1060

SUPER STOCK® CYLINDER HEADS AND PISTON KITS

- S&S heads give great performance, and work with additional upgrades
- Kits are fully assembled, and include stainless steel valves and high-lift springs (up to 0,640 lift)
- Intake manifold, pistons and gasket kits are sold separately; gasket kits contain head gaskets, base gaskets and exhaust pipe gaskets (rocker box gaskets are not included due to the variety of available rocker box styles)
- Must reuse stock headbolts
- S&S Super Stock® piston kits are required and include 10:1 ratio pistons, rings, piston pins and clips (sold separately in pairs)
- Sold in pairs

84-99 EVOLUTION BIG TWIN

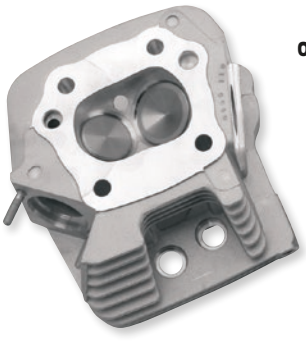
0934-0326	3,625" bore

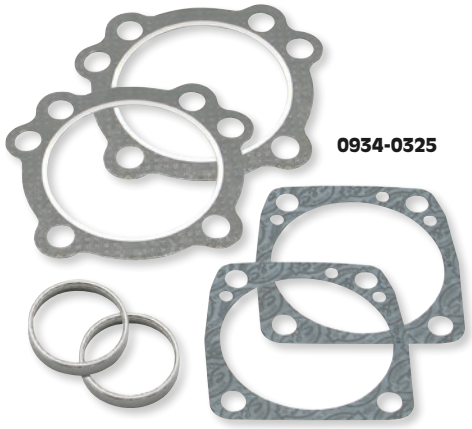


0930-0060

0930-0061

LOW COMPRESSION REPLACEMENT HEADS

- Now S&S heads are available to be used with stock-style flat-top pistons
- Kits are fully assembled, and include stainless steel valves and high-lift (0,585") springs
- Intake manifold and gasket kits are sold separately; gasket kits contain head gaskets, base gaskets and exhaust pipe gaskets (rocker box gaskets are not included due to the variety of available rocker box styles)
- Optimized for smaller displacement engines
- Low compression (82 cc in chamber)
- Port design increases flow, while maintaining velocity
- Set up for 0,585" maximum lift
- EFI compatible
- Sold in pairs



0934-0325

All part numbers in **BLUE** are new for the OldBook.

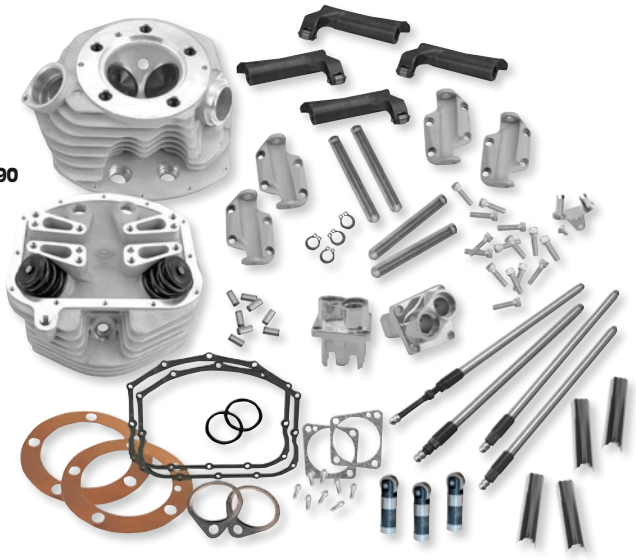
0930-0017

SUPER STOCK® CYLINDER HEAD KITS

- Heads come completely assembled with valve seats, valves, guides, seals, 0,590" lift valve springs, collars and valve keepers
- Complete kits also include rocker cover gaskets, head gaskets and miscellaneous hardware with instructions
- Use OEM manifolds and exhaust
- 79-84 design uses band-style intake (not included)
- PART #0930-0013 comes machined for dual plugs and internal oil drains
- Sold in pairs

PART #	DESCRIPTION
FOR 3 5/8" BORE CYLINDERS	
0930-0134	79-84 style heads, single spark plug (rubber band intake)
0930-0133	79-84 style heads, dual spark plugs (rubber band intake)
0930-0017	66-78 style heads, (O-ring intake)
0930-0013	66-78 high-compression style heads, (O-ring intake), dual plugs/internal oil drains

PART #	DESCRIPTION
FOR STOCK BORE CYLINDERS	
0930-0015	66-78 style heads, O-ring intake
0930-0009	79-84 style heads, rubber band intake



0930-0090

RETRO TOP-END CONVERSION KITS

- Give your Shovelhead engine that nostalgic look of a Panhead
- Kit consists of a set of S&S P-series cylinder heads with rocker cradles, S&S roller rocker arms, S&S hydraulic tappets, billet tappet guides, Quickee pushrods, pushrod cover clips and all required gaskets and hardware for assembly
- Heads have a Shovelhead bolt pattern, making them compatible with any stock or aftermarket cylinders for 66-84 Big Twins; heads come complete with valves and 0,590" lift valve springs
- Accept stock or S&S O-ring-style manifolds for Shovelheads and any exhaust system made to fit a Shovelhead engine

NOTE: Kits do not include pan covers.

PART #	DESCRIPTION
FOR 66-84 SHOVELHEAD	
0930-0089	For stock bore cylinders

PART #	DESCRIPTION
FOR 66-84 SHOVELHEAD (CONT)	
0930-0090	For 3,625" bore cylinders

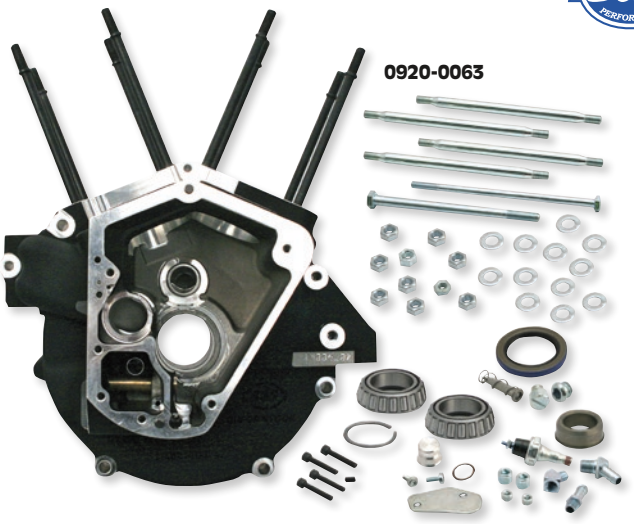
SPECIAL APPLICATION CRANKCASE

- Cam chest is moved outward 0,250" to allow crankcases to handle large cylinder bore sizes
- Relocated cam chest oil pickup increases gear case scavenging and virtually eliminates oil carry-over at sustained high rpm
- Machined to accept the stock oil filter assembly used on 92-99 Big Twins
- A ported breather passageway and a machined breather window allow the air/oil mist to flow from the flywheel cavity to the cam chest of the engine with the least possible restriction
- Crankcase venting can be achieved via two crankcase breathers, the cylinder heads, or both; S&S recommends using both crankcase breathers in engines larger than 95"
- Clearanced for strokes as long as 5"
- Machined for installation of a crank position sensor which allows the cases to be used in EFI applications and also allows easy installation of S&S IST Ignition and VFI Fuel Injection; a plug kit is included for applications that do not use a crank position sensor

PART #	DESCRIPTION
0920-0158	For 84-99 Evolution Big Twin (4" and over bore), S&S 4"and 4,125" V-Series engines

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

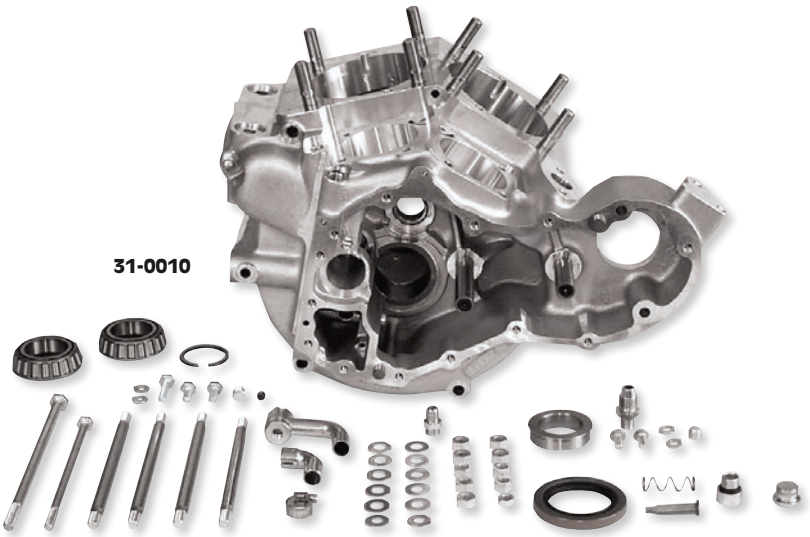


SUPER STOCK™ ENGINE CASES

- Cast from A356 T-6 heat-treated aluminum alloy
- Cases are available for 3,5" stock and 3,625" big bore motors for any stroke up to and including 5" and most stock length connecting rods
- Machined to accept an oil filter assembly that mounts on the front of stock motor cases
- All races are line-honed and breather cavity is precision-machined to optimize breather timing for maximum oil scavenging
- Additional parts include; crankcase bolts, washers and nuts, cylinder mounting studs, timing hole plug, magnetic drain plug, assorted breather and oil line fittings, oil pressure switch, oil screen, spring and plug, sprocket shaft Timken® bearing assembly and oil seal, pinion shaft main bearing race, cam needle bearing assembly, oil pump drive shaft bushing and installation instructions
- Machined for EFI fitment

PART #	DESCRIPTION
STANDARD BORE CASES	
DS-194301	For 92-99 Evolution Big Twin, natural finish
0920-0063	For 92-99 Evolution Big Twin, black powdercoat finish
DS-194303	For 84-91 Evolution Big Twin, natural finish
0920-0132	For 84-91 Evolution Big Twin, black powdercoat finish
DS-194305	For 70-84 Big Twin

PART #	DESCRIPTION
BIG BORE (3,625" CYLINDER BORE) CASES	
DS-194306	For 70-84 Big Twin
REPLACEMENT PARTS	
0920-0203	Crankcase oil screen for 48-99 Big Twin (except Twin Cam) (5 pk.); repl. OEM #s 24981-66, 24981-70



SUPER STOCK® GENERATOR ENGINE CASES

- Cast from A356 T-6 heat-treated aluminum alloy
- Includes crankcase bolts, washers and nuts, cylinder mounting studs, timing hole plug, magnetic drain plug, assorted breather and oil line fittings, top end oil screen spring and plug, sprocket shaft Timken® bearing assembly, oil seal, pinion shaft main bearing race, cam needle bearing assembly, oil pump shaft bushings and installation instructions
- Uses Timken style sprocket shaft bearings and 1958 and later pinion bearings (will not accept 1957 and earlier flywheels)
- Bearing races are all line honed and breather cavity is precision machined to optimize breather timing for maximum oil scavenging
- Machined for 3,4375" cylinders and tapped $^{1}/_{4}$"-20 for gear covers, oil pump, tappet guides, timer and timer advance
- 65 models use 65 alloy inner primary
- 63-65 models with outside oil lines must use oil port to the rear of the tappet block or oil port in gear cover and use custom oil lines
- 66-69 models use 66-69 alloy inner primary
- Drilled for $^{5}/_{16}$" generator mounting bolts
- Generator crankcase gear kit (includes circuit breaker drive gear, idler gear, circuit breaker gear and shims) and shafts must be purchased separately
- 70-84 models are for a $3^{5}/_{8}$" bore and machined for 70-84 alloy primary

PART #	DESCRIPTION
31-0010	65-69 Big Twin generator engine cases
0920-0124	48-64 Big Twin generator engine cases

PART #	DESCRIPTION
33-4226	Generator crankcase gear kit

All part numbers in **BLUE** are new for the OldBook.

84" STOCK BORE STROKER FLYWHEEL KIT

- Upgrades 74" and 80" Shovelhead engines to 84" displacement at approximately 8,4:1 or 7,3:1 compression (depending on pistons used)
- Includes a dynamically balanced 4 1/2" stroke flywheel assembly complete with S&S heavy-duty connecting rods and mainshafts
- Reuse the stock cylinders, saving cost and retaining stock appearance of the engine
- Minor crankcase and cylinder modifications are required that can easily be done with hand tools
- Kit requires special pistons, which must be ordered separately (contact S&S for required pistons)

PART #	DESCRIPTION
0922-0161	For 70-84 Shovelhead

FLYWHEEL ASSEMBLIES FOR EVOLUTION MOTORS

- Made of high-strength forged steel and designed for stock and high-performance custom applications
- Special keyed 6° large diameter tapered sprocket shaft that provides more contact area for increased strength
- Standard S&S tapered crankpin and pinion shaft are used for ease-of-service
- 8 1/2" diameter with 4 1/4" or 4 5/8" stroke
- Kits come fully assembled, trued and balanced to stock H-D 80" or 96" pistons
- Include flywheel, crankpin and connecting rods

NOTE: 90-99 applications will require pinion shaft conversion kit PART #33-4148.

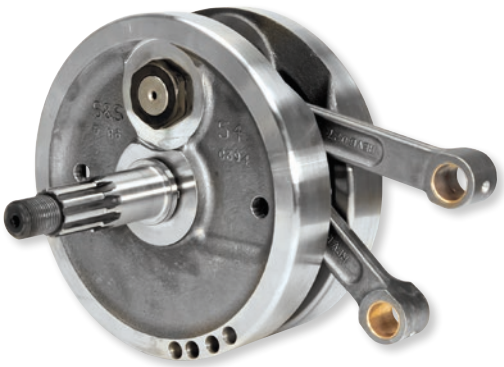
0921-0250

PART #	DESCRIPTION
FOR 95-99 EVOLUTION BIG TWIN (W/ EFI)	
0922-0146	4 1/4" stroke

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN (W/ CARB)	
0921-0250	4 1/4" stroke
0922-0147	4 5/8" stroke

FLYWHEEL ASSEMBLY

- The exact same assembly used in S&S production engines
- Can be used to overhaul an S&S engine or to build a custom engine using similar crankcases and pistons
- Features 4 1/4" stroke and an 8 1/2" diameter



PART #	DESCRIPTION
0922-0148	For 70-84 Big Twin

HEAVY-DUTY CONNECTING ROD SETS

- High-quality, heavy-duty rod sets come complete and ready-to-install
- Set includes front and rear rods, crankpin and nuts, steel cages and roller bearings
- Rods are deep-forged and heat-treated, 0,120" wider than stock in the I-beam section and feature rod-to-rod clearance to accommodate strokes up to and including 5"
- Crankpin has two oil holes and rod has four slots ground on each side of the throw ends to help maintain the oil film on thrust faces

NOTE: Installation of rod sets may require additional clearancing of flywheels and cases.

DS194027

PART #	DESCRIPTION
DS194027	For 84-99 Evolution Big Twin (0,792" wrist pin)
DS-194653	For L81-84 Big Twin (0,791" wrist pin)

PART #	DESCRIPTION
DS-194652	For 41-E81 Big Twin

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

PINION AND MOTOR SPROCKET SHAFTS

- All ground diameters are concentric to within 0,0003" to simplify flywheel trueing and rebuilding

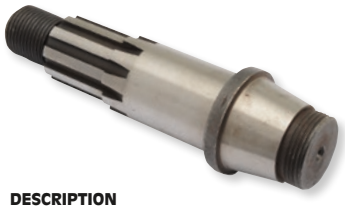
DS-194190

PART #	DESCRIPTION	REPL. OEM #(S)
MOTOR SPROCKET SHAFTS		
DS-194190	For L81-E85 Big Twin	23909-80
DS-194073	For 56-64 Big Twin	24001-56
DS-194080	For 36-54 Big Twin	24001-30

PART #	DESCRIPTION	REPL. OEM #(S)
PINION GEAR SHAFTS		
DS-194087	For 73-E81 Shovelhead	24006-73
DS-194141	For 54-57 Panhead	24006-54A
DS-194143	For 36-53 Big Twin	24007-39

MOTOR SPROCKET SHAFT

- High-quality precision-manufactured shaft



PART #	DESCRIPTION
0922-0133	For 72-E81 Big Twin; repl. OEM #24001-72

MOTOR SPROCKET AND PINION SHAFT ASSEMBLIES

- Includes tapered shaft, nut and keys
- For use with standard diameter bearing

0921-0221

0921-0168

PART #	DESCRIPTION
SPROCKET SHAFT ASSEMBLIES	
0921-0221	For 70-99 Big Twin (except 99 Twin Cam)
PINION SHAFT ASSEMBLIES	
0921-0168	For L81-99 Big Twin w/ OEM flywheels/84-99 Evolution Big Twin w/ S&S flywheels

PART #	DESCRIPTION
PINION SHAFT ASSEMBLIES (CONT)	
0921-0167	For 58-E81 Big Twin
0921-0166	For 36-53 Big Twin

MOTOR SPROCKET SHAFT SPACER

- Sold each

PART #	DESCRIPTION
0950-0885	For 65-99 S&S Big Twin, 70-99 OEM Big Twin cases (except Twin Cam); repl. OEM #24002-70

MOTOR SPROCKET SHAFT SPACER

- Machined to a 32-micron, burr-free finish for extended seal life
- Sold each

PART #	DESCRIPTION
DS-197034	For 70-99 Big Twin (except Twin Cam); repl. OEM #24002-70

MOTOR SPROCKET SHAFT SPACER KIT

- Spacers are machined to a 32-micron, burr-free finish for extended seal life
- Made to fit the sprocket shaft oil seal
- Eight-piece kit contains one of each of the following sizes: 0,336; 0,621; 0,516; 0,546; 0,574; 0,606; 0,636; 0,666

PART #	DESCRIPTION
DS-197035	For 55-69 Big Twin

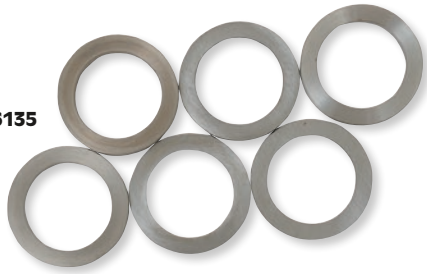
MOTOR SPROCKET SHAFT SPACER

- Sold each

PART #	DESCRIPTION
DS-195172	For 70-99 Big Twin (except Twin Cam); repl. OEM #24002-70

SPROCKET SHAFT SPACERS

- The only way to properly space/align the front motor sprocket or belt drive pulley
- Various thicknesses available in individual packs of five or as a set that includes one each of 0,060"; 0,090"; 0,120"; 0,150"; 0,180" and 0,210"



DS-196135

PART #	DESCRIPTION
FOR 70-99 BIG TWIN	
DS-196135	Set; 0,060 - 0,210"
DS-196151	0,010"; repl. OEM #35850-84

DS-196138	0,120"; repl. OEM #24034-70

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

MOTOR SPROCKET SHAFT BEARING RETAINERS

- Easy solution to the problem of oil seeping around the motor sprocket shaft
- Available in stock, oversized and undersized applications
- Retainer features a high-quality lip seal
- Sold each

DS-193410

PART #	DESCRIPTION
FOR 55-68 BIG TWIN	
DS-193410	Standard

PART #	DESCRIPTION
FOR 48-54 BIG TWIN	
DS-193411	Standard w/ snap ring

PINION SHAFT GEAR NUT

- OEM or better quality
- Sold each

PART #	DESCRIPTION
0950-0808	For 54-89 Big Twin; repl. OEM #26349-54

GEAR-SIDE PINION SHAFT NUTS

- 5/8"-24 left-hand threads
- Sold each

DS-198838

PART #	DESCRIPTION
DS-198838	For 90-92 Big Twin; repl. OEM #24022-90
DS-198839	For 54-89 Big Twin; repl. OEM #24023-54

GEAR-SIDE PINION SHAFT NUTS

- Sold in 5-pack

PART #	DESCRIPTION
0950-0225	For 93-99 Evolution Big Twin; repl. OEM #7916A

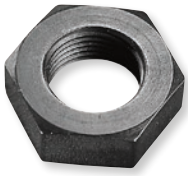
FLYWHEEL-SIDE MOTOR SPROCKET SHAFT NUT

- Heavy-duty nut fits flywheel-side of sprocket shaft
- 1 1/8"-16 threads

PART #	DESCRIPTION
DS-198836	For 72-E85 Big Twin (rod clearance must be checked on 72-E81 models) and JIMS big tapered motor sprocket shafts (ea.)

MOTOR SPROCKET NUT

- OEM replacement style
- Sold each



PART #	DESCRIPTION
DS-189865	For 30-54 Big Twin; repl. OEM #24003-30

ACORN FRONT BELT DRIVE PULLEY NUT

- Chrome front pulley nut for open primary belt drive applications
- Sold individually

PART #	DESCRIPTION
DS-193813	For 55-99 Big Twin (except Twin Cam)

MAIN BEARINGS

- Universal applications, see chart for cross reference

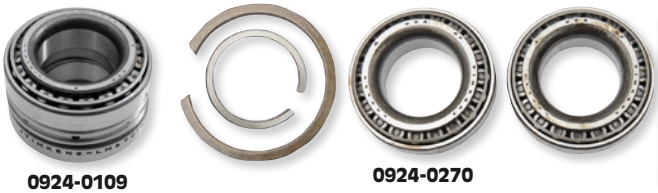
CRANKCASE MAIN BEARINGS

- High-quality original Timken bearing assemblies

0924-0108



0924-0109

0924-0270

PART #	DESCRIPTION
0924-0108	For 69-99 Big Twin (set); repl. OEM #9028
0924-0109	For 55-68 Big Twin (set); repl. OEM #9029

PART #	DESCRIPTION
0924-0270	For 77-85 XL; repl. OEM #24729-74

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

TIMKEN® SPROCKET SHAFT BEARING

- High-quality replacement for the OEM shaft bearing

PART #	DESCRIPTION
0924-0388	For 84-99 Evolution Big Twin

RIGHT SIDE CRANKCASE ROLLER BEARING

- Complete bearing assembly includes rollers and retainer
- Available for standard size applications
- Includes retainers (OEM #43578-35) and 28 9120 series rollers

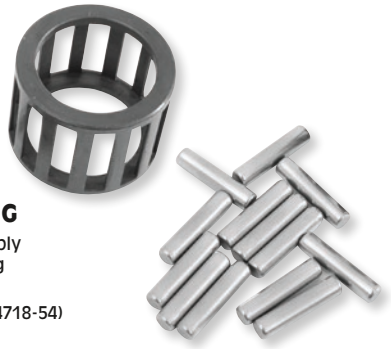
PART #	DESCRIPTION
0950-0345	For 58-84 Big Twin (except Evolution); repl. OEM #24650-58

0924-0497

RIGHT MAIN BEARING ASSEMBLIES

- Replacement right main bearing assemblies for Super Stock® crankcases
- Sold each

PART #	DESCRIPTION
FOR 58-99 BIG TWIN (EXCEPT TWIN CAM)	
0924-0495	Blue; repl. OEM #24643-87A
0924-0497	Red; repl. OEM #24641-87A



RIGHT-SIDE CRANKCASE BEARING

- Sold as a complete assembly with 13 rollers and bearing retainer in standard size
- Includes retainer (OEM #24718-54) and rollers (OEM #9421)

PART #	DESCRIPTION
0950-0333	For 55-57 Big Twin and 57-76 XL; repl. OEM #24650-55

0924-0180

0950-0532

CRANKCASE ROLLER BEARINGS

- Sold in packs of 28 or 12; see chart for details

HIGH-PERFORMANCE PISTONS

- Forged from a high-silicon aluminum alloy to deliver long life and consistent dimensions
- Wiseco's high-tech manufacturing ensures greater operating strength and lower expansion at high temperatures
- Sold in kits that include two pistons, rings, piston pins and circlips
- Include forged pistons with coated skirts, rings, retainer clips and chrome piston pins
- Piston kits are available with Hastings-style X-Ring package (0,062 top ring, 0,062 compression ring and 0,158 oil ring)
- X- and XC-rings are identified by PART # in the application chart; X-Ring PART #s end with an "X" and XC-Ring PART #s end with an "XC"

NOTE: Replacement rings include rings for one piston only.

TRACKER™ SERIES 106" PISTON KIT

- Forged piston crown with generous valve pockets for big valves and cams
- Precision-fit rings selected for each application for ultimate sealing
- Force-fed pin oiling provides enhanced lubrication of the piston pin
- Pressure seal groove reduces ring lifting and power loss
- ArmorGlide® skirt coating reduces friction, providing quieter operation and improving scuff resistance
- Value-packaged with two pistons, rings, piston pins and circlips

PISTON KITS

- Replacement pistons available for stock and big-bore applications
- All piston kits come with two pistons, rings, wrist pins, and wrist pin keepers
- Compression ratios listed are approximate and are calculated using the correct length cylinders as specified by S&S
- Require the use of connecting rods with a rod length of 7,440" (standard length OEM #24281-74A connecting rods); use of earlier connecting rods with a rod length of 7,470" (OEM #24281-41A) will result in a slight increase in the compression ratio of about one-half point, and may also result in clearance problems (check all piston to cylinder head clearances carefully when using the early style rods)

FOR 41-84 BIG TWIN

DRAG Specialties

REPLACEMENT PISTONS

- OEM-quality cast aluminum alloy construction
- Pistons come complete with wrist pins and keepers (sold in pairs)
- Available in various compression ratios
- Kit includes two pistons, wrist pins and clips
- Rings are not included (suggest using Hastings rings, sold separately)

0930-0135

COMPRESSION RELEASE KIT

- Available in electric style for S&S heads that accept compression releases
- Electric compression releases open when you press the start button and close when the button is released
- Kit includes the required parts for installation
- For ease of installation and removal, a special socket can be purchased separately
- Not for use on OEM heads

PART #	DESCRIPTION
2009-9080	Electric compression release kit
0930-0135	Repl. electronic compression release unit for 84-99 Evolution Big Twin

PART #	DESCRIPTION
2009-9082	Compression release hole plugs (ea.)
0930-0041	Repl. silicone solenoid caps (pr.)
0930-0137	Repl. silicone solenoid caps (ea.)

COMPRESSION RELEASE VALVES

- State-of-the-art design to help reduce hot start issues and starter/battery loads
- Have 5-7 Newtons of closing force resistance
- Custom molded knobs ensure they stay cool to the touch and are easy to operate
- Require an M10 x 1,00 threaded hole for installation
- Sold in pairs

PART #	DESCRIPTION
0950-0887	M10 x 1,00 threads, 1,400" overall length

MANUAL COMPRESSION RELEASE VALVES

- Give your starter a hand by installing these in your high-compression, big-inch motor
- Simply drill and tap (10 mm x 1,0 mm) each cylinder head and thread in the self-sealing release valves (thread tap PART #DS-196409 available separately)
- Sold in pairs

PART #	DESCRIPTION
DS-196400	Compression release valves for all Big Twin

COMPRESSION RELEASE CAPS

- Chrome cap covers the plain plastic end on many aftermarket compression releases
- Billet aluminum construction
- Install with silicone adhesive (not included)
- Sold in pairs

PART #	DESCRIPTION
0950-0101	Compression release caps

0950-0082

0950-0080

COMPRESSION RELEASE ADAPTERS

- Designed to be used in twin plug heads
- Accept 0,650"/10 mm x 1,0 compression release valves
- Sold each

PART #	DESCRIPTION
0950-0082	12 mm x 3/4" reach

PART #	DESCRIPTION
0950-0080	14 mm x 3/4" reach

MANGANESE BRONZE VALVE GUIDES

- Precision-machined guides
- Excellent heat conductivity which promotes long valve life
- Guides can be easily reamed with a battery-operated or electric drill and finished with a high-quality ball hone
- Eliminates the need for expensive honing equipment that would be required for nickel bronze valve guides
- Machined to accept OEM and aftermarket seals

- Include four seals

PART #	DESCRIPTION
0926-1166	For 84-99 Evolution Big Twin; repl. OEM #18061-83B
0926-1169	For 0,500" guide, 5/16" valve
0926-1168	For 0,530" guide, 5/16" valve for most Screamin' Eagle heads

Genuine JAMES GASKETS®

VITON® VALVE GUIDE SEAL KIT

- Kit includes four valve guide seals

PART #	DESCRIPTION
DS-199107	For 84-99 Evolution Big Twin; repl. OEM #18001-83B

Kibblewhite Precision Machining

PREMIUM VALVE SEALS

- Solid Viton® and solid PTFE seals utilize choker spring and lower tension spring to maintain optimal seal under high heat/stress conditions
- For use with stock intake and exhaust valve guides, except where noted
- Sold in packages of four

0926-3204

0926-0327

PART #	DESCRIPTION
VITON® SEALS	
0926-3204	For 84-99 Evolution Big Twin (use with 0,420" guides)
0926-3205	For 66-84 Shovelhead, 48-65 Panhead (0,562" x 3/8" seal cutter may be required for installation)
0926-3327	For 57-83 XL (use with 0,530" guides)

PART #	DESCRIPTION
PTFE SEALS	
0926-0327	For 84-99 Evolution Big Twin; repl. OEM #18001-83B
0926-0792	For 66-84 Shovelhead (use with 0,565" guides), 48-65 Panhead
0926-0794	For L79-84 Shovelhead w/ thin stem valves (0,3090" intake) (use with 0,565" guides)
0926-0795	For L79-84 Shovelhead w/ thin stem valves (0,3384" exhaust) (use with 0,565" guides)

VALVE GUIDE SEALS

- Seals sold in 4-packs

0926-2050

PART #	FITS MODEL	STEM OD	GUIDE OD
0926-2041	For 84-99 Evolution Big Twin	5/16"	0,420"
0926-2053	For L79-84 Shovelhead	5/8"	0,562"
0926-2050	For 48-E79 Big Twin	5/8"	0,562"

PART #	FITS MODEL	STEM OD	GUIDE OD
0926-2044	Intake for 57-85 XL	5/16"	0,531"
0926-2047	Exhaust for 57-85 XL	11/32"	0,531"

CAST IRON VALVE SEATS

- Tests have proven that the machine-ability, wear and thermal conductivity surpasses all standards
- Compatible with all fuel blends
- Sold each

0926-0322

PART #	DESCRIPTION	OD	ID	HEIGHT

0926-1440	Intake/exhaust	1,945"	1,500"	0,450"

HIGH CHROME VALVE SEATS

- Seats contain 18-22% Chromium for resistance to abrasion, corrosion and deformation
- Nickel content of 1-2% for added corrosion resistance and toughness
- Machined from solid bar stock and ground to exact tolerances
- Machines as a continuous chip
- Ideal alternative to powder metal valve seats
- Sold each
- Made in the U.S.A.

BLACK DIAMOND™ ENGINE VALVE KITS

- Kits include KPMI® or equivalent valve spring kit, a full set of Black Diamond™ stainless steel standard size valves, H.T. Steel valve keepers and valve stem seals (where applicable) for engine applications listed
- All valves are impregnated by a special process to a depth of 0,002" with a surface buildup of 0,0002"
- This process improves wear properties, reduces friction and provides resistance to corrosion and wear
- Compatible with leaded and unleaded fuels
- Sold as complete kit for one engine

PART #	DESCRIPTION
0926-3210	For 84-99 Evolution Big Twin
0926-3316	For 78-84 Shovelhead (80")
0926-3314	For 66-77 Shovelhead (74")

PART #	DESCRIPTION
0926-3212	For 84-85 883 XL
0926-3308	For 36-47 Knucklehead
0926-3208	For 70-83 XL

BLACK DIAMOND™ VALVE KITS

- Full set of Black Diamond™ stainless steel standard size valves for engine applications listed
- All valves are impregnated by a special process to a depth of 0,002" with a surface buildup of 0,0002"
- This process improves wear properties, reduces friction and provides resistance to corrosion and wear
- Compatible with leaded and unleaded fuels
- Sold as complete kits for one engine

PART #	DESCRIPTION
0926-3209	For 84-99 Evolution Big Twin
0926-3315	For 78-84 Shovelhead (80")
0926-3313	For 66-77 Shovelhead (74")
0926-3309	For 48-65 Panhead
0926-3207	For 70-83 Sportster

NITRIDED VALVES

- One-piece stainless-steel, stellite-tipped valves impregnated by a special nitrided process with 0,002" depth and 0,0002" surface buildup to improve wear properties and reduce friction
- This process provides resistance to corrosion; wears superior to hard chromium and electrolysis nickel-plating
- Lightweight with profiles that provide excellent flow characteristics
- Compatible with leaded and unleaded fuels and can be run in cast iron- and bronze-type guides at close tolerances for maximum oil control and heat dissipation
- Sold each

2008-2910

REPLACEMENT STAINLESS STEEL VALVES FOR S&S HEADS

- Available for 89 cc/91 cc cylinder heads
- 89 cc/91 cc heads are found on S&S Evolution-style motors and use 2,000" intake valves and 1,605" exhaust valves

PART #	DESCRIPTION
FOR 89 CC OR 91 CC HEADS	
2008-2910	Intake valve 2,000"
2008-2911	Exhaust valve 1,605"

REPLACEMENT EXHAUST VALVE

- Has 1,720" head, 0,030" smaller than stock; the smaller exhaust valve head allows higher TDC lifts without valve-to-valve interference as well as improved flow
- Sold each

PART #	DESCRIPTION
FOR 66-84 BIG TWIN	
0926-0129	1,720" exhaust valve; repl OEM #s 18086-80/81 and 18089-80/81

HIGH-LIFT VALVE SPRING KIT

- To be used with cams with up to 0,550" lift
- Includes springs and aluminum top retainers
- 140 lbs. seat pressure

PART #	DESCRIPTION
DS-199729	For 48-84 Big Twin

SIDEWINDER® 0,650" VALVE SPRING KIT

- Includes springs, upper and lower collars and keys
- For valve lift to 0,650" with 1,860"/178 lbs installed height, 376 lbs at max lift
- Max 6500 rpm

PART #	DESCRIPTION
0926-2056	For 84-99 Evolution Big Twin

FEULING BEEHIVE VALVE SPRINGS

HIGH-LOAD BEEHIVE® VALVE SPRING KIT WITH TITANIUM RETAINERS

- Made from premium stress-relieved conical ovate wire with nitrided surface heat treatment, shot-peened surface enhancements and Nano Peen™ polish
- Features extremely high level of fatigue life
- Uses a much smaller and lighter weight retainer to reduce valve weight and create quicker rev and smoother motion
- Designed to handle the highest demands of performance engines with high-lift, steep-ramped camshafts
- Allow up to 0,750" lift cams; no rocker box clearancing required
- Available for $^{5}/_{16}$" valves
- 10°, standard $^{5}/_{16}$" valve stem and keeper groove
- Kit includes: High-Load BeeHive® valve springs, lightweight 10° Titanium retainers manufactured from Ti-17 alloy and micropolished for enhanced fatigue life, machined heat-treated chromoly spring seats, seat shims, valve locks and a set of premium Viton® valve seals equipped with spring-loaded valve stem wiper system
- Seat lbs/installed height; 217 lbs at 1,789" (0,574" lift), 215 lbs at 1,800" (0,585" lift), 208 lbs at 1,819" (0,604" lift), 200 lbs at 1,845" (0,630" lift), 185 lbs at 1,900" (0,685" lift), 170 lbs at 1,935" (0,720" lift), 415 lbs at 1,215" (open height) coil bind at 1,125"

- Dyno proven and track tested
- Feuling® BeeHive valve springs must be installed at the correct OPEN HEIGHT, matching max lift to the open height spec of the valve springs

NOTE: Feuling® BeeHive® valve spring kits are direct replacement with no machining or rocker box clearance required up to 0,574" lift for 84-99 Evolution Big Twin. Larger camshafts require valve guide machining for seal-to-retainer clearance.

PART #	DESCRIPTION
0926-0853	For 84-99 Evolution Big Twin

FEULING

FEULING BEEHIVE VALVE SPRINGS

ENDURANCE BEEHIVE® VALVE SPRING KIT WITH TITANIUM RETAINERS

- Machined from premium-grade high-tensile chrome silicon single-conical ovate wire
- Shot-peened with specially processed thermal heat treat and super NexTex® finish for fatigue life needed to exceed high demands of V-Twin engines
- Use a much smaller and lighter weight retainer to reduce valve weight and create quicker rev and smoother motion
- Direct bolt-in replacement up to 0,650" cam lift; no machining or rocker box clearancing required
- Available for 5/16" valves
- 7°, standard 5/16" valve stem and keeper groove
- Kit includes: Endurance BeeHive® valve springs, lightweight 7° super Titanium heat-treated retainers, machined spring seats, seat shims, valve locks and a set of premium Viton® valve seals equipped with spring-loaded valve stem wiper system
- Seat lbs/installed height; 198 lbs at 1,685" (0,535" lift), 194 lbs at 1,703" (0,553" lift), 190 lbs at 1,724" (0,574" lift), 187 lbs at 1,754" (0,604" lift), 185 lbs at 1,780" (0,630" lift), 160 lbs at 1,800" (0,650" lift), 375 lbs at 1,150" (open height) coil bind at 1,100"

- Feuling® BeeHive® valve springs must be installed at the correct OPEN HEIGHT, matching max lift to the open height spec of the valve springs

NOTE: Feuling® BeeHive® valve spring kits are direct replacement with no machining or rocker box clearance required up to 0,574" lift for 84-99 Evolution Big Twin.

PART #	DESCRIPTION
0926-0851	For 84-99 Evolution Big Twin

0926-1467

0926-3322

ECONO BEEHIVE® VALVE SPRING KITS

- Made from premium stress-relieved conical ovate wire
- Feature extremely high level of fatigue life
- Use a much smaller and lighter weight retainer to reduce valve weight and create quicker rev and smoother motion
- Designed to handle the demands of performance engines with 0,585" and smaller lift camshafts
- Available for 5/16" valves
- PART #0926-1467 includes Econo BeeHive® valve springs, lightweight 7° steel retainers, machined heat-treated chromoly spring seats, seat shims, valve locks and a set of premium Viton® valve seals equipped with spring-loaded valve stem wiper system
- PART #0926-3322 includes Econo BeeHive valve springs, lightweight 7° Ti retainers, machined heat-treated chromoly spring seats, seat shims, valve locks and a set of premium Viton valve seals equipped with spring-loaded valve stem wiper system

- Seat lbs/installed height; 183 lbs at 1,760" (0,510" lift), 175 lbs at 1,785" (0,535" lift), 172 lbs at 1,803" (0,553" lift), 165 lbs at 1,825" (0,574" lift), 163 lbs at 1,835" (0,585" lift), 380 lbs at 1,250" OPEN HEIGHT coil bind at 1,180"
- Dyno proven and track tested
- Feuling® BeeHive® valve springs must be installed at the correct (open height), matching max lift to the open height spec of the valve springs

NOTE: Econo BeeHive® kit is direct replacement with no machining or rocker box clearance required for cams up to 0,574" lift for 84-99 Evolution Big Twin.

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0926-1467	7°, 5/16" valve stem w/ stock keeper groove (includes steel retainers)
0926-3322	7°, 5/16" valve stem w/ stock keeper groove (includes titanium retainers)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

0926-2927

0926-2926

0926-1443

COMPLETE VALVE SPRING KITS

- Designed for maximum performance
- Feature interference-wound, double-chrome silicone springs; heat-treated steel base washers
- Available in a complete set for one engine
- All PART #s except those listed below include new design HT steel retainers with drilled holes; retainers are super-strong yet lightweight to reduce overall drive train mass
- PART #s 0926-0800, 0926-2929 includes 7057 T6 aluminum retainers

NOTE: XL applications may require machining of valve guides for special seals. May require "R"-style valves to achieve correct install height.

PART #	DESCRIPTION
FOR L79-84 SHOVELHEAD	
0926-2930[1]	0,600" lift (seat pressure 155-165 lbs.)
0926-2927[1]	0,415" lift (seat pressure 125-135 lbs.) (OEM style)
FOR 66-E79 SHOVELHEAD	
0926-0800[2]	0,600" lift (seat pressure 155-165 lbs.)
0926-2926[2]	0,600" lift (seat pressure 155-165 lbs.)
FOR 66-E79 SHOVELHEAD (CONT)	
0926-1443[2]	0,415" lift (seat pressure 125-135 lbs.) (OEM style)
FOR 70-83 XL	
0926-0799	0,480" lift (seat pressure 155-165 lbs.)

[1] Spring base: fits 0,625" guide.
[2] Spring base: fits 0,565" guide.

HIGH-PERFORMANCE OVATE WIRE BEEHIVE VALVE SPRING KITS

- Progressively wound springs using Kobe super-clean, chrome silicon-based wire that is heat treated and shot peened
- Tight-tolerance, FEA-designed hardened steel Posi-Loc™ style upper retainers to ensure correct assembly height and resist keeper "pull through"
- Hardened steel basewashers control lateral movement
- Kits use OEM-style valve keys (sold separately)
- Accept 84-99 Evolution Big Twin style valve guide seals (sold separately)

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0926-3001	0,660" lift (seat pressure 178 lbs.)

0926-0802

RACING VALVE SPRING KITS

- Designed for maximum performance
- Feature interference-wound, double-chrome silicone springs; heat-treated steel base washers
- Available in a complete set for one engine
- Include new design H.T. steel retainers with drilled holes; retainers are super-strong yet lightweight to reduce overall valve train mass
- PART #0926-2935 includes titanium springs

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0926-0802	0,600" lift (seat pressure 170-180 lbs.)
0926-3167	0,650" lift (seat pressure 185 lbs.)
0926-2935	0,655" lift (seat pressure 190 lbs.) (titanium springs)
0926-2936	0,655" lift (seat pressure 185 lbs.)

VALVE SPRING KIT

- Dual super-clean, chrome silicon OEM-style stock replacement springs
- Accepts OEM-style spring collars
- Sold as a set of four

PART #	DESCRIPTION
0926-0807	For 57-83 XL

VALVE SPRING KIT

- Dual super clean chrome silicon springs; 0,600" lift with a 155-165 lbs. seat pressure
- Accepts stock and aftermarket spring collars
- Sold as a set of four

PART #	DESCRIPTION
0926-0806	For 48-84 Big Twin

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

JIMS
Performance Parts for Harley-Davidson Motorcycles

VALVE SPRING KITS

- Incorporate an interference double-spring design with a damper to control harmonics
- Engineered for maximum performance in severe applications such as high compression and big-inch street motors
- 0,600" spring kits are 1,460" OD and have a pressure of 160 lbs. when closed and 440 lbs. at 0,500" lift; installed height should be 1,850"; coil bind is at 1,200"
- Kits include locks, retainers and spring seats

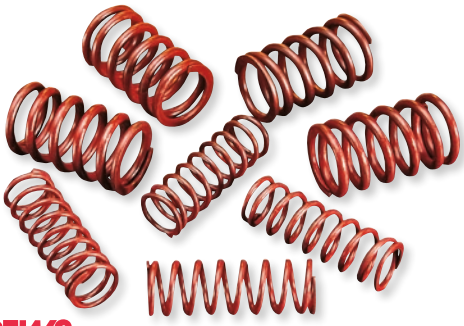
PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
DS-199523	0,600" spring kit w/ chromoly retainers

ANDREWS

HIGH-LIFT VALVE SPRING KIT

- Provide correct spring force for any of our performance cams when used in 74" and 80" motors
- Max lift; installation does not require complicated machining but does require proper valvetrain setup

PART #	DESCRIPTION
DS-199736	For 66-84 Shovelhead



ANDREWS

HIGH-LIFT VALVE SPRING KIT

- Accommodates cam lifts of 0,550"+
- Installation does not require machining of heads
- Kit includes four inner and four outer springs
- For use with titanium upper spring collars
- Collars sold separately

PART #	DESCRIPTION
DS-199739	For 84-99 Evolution Big Twin

ANDREWS

HIGH-LIFT UPPER SPRING COLLARS

- Cams with 0,600" lift can easily be accommodated when used with high-lift springs
- Made from T6 aluminum, collars are lightweight, hard-coated and very strong
- Sold as a set of four

PART #	DESCRIPTION
DS-199735	For 66-84 Shovelhead

ANDREWS

MEDIUM-LIFT UPPER SPRING COLLAR SET

- Intended to work with stock springs and add approximately 0,060" spring travel with no other modifications on 66-84 74" and 80" motors
- The easy way to install B or #2 cams in stock heads
- Sold as a set of four

PART #	DESCRIPTION
DS-199737	For 66-84 Shovelhead

ANDREWS

LOW-PROFILE SPRING COLLAR SETS

- Similar to stock 80-style parts, but lower profile for easier installation of higher lift cams
- Required parts if you use 80-style valve guides that utilize "K" line stem seals
- Heat-treated steel
- Sold as a set of four

DS-199738

0926-1439

PART #	DESCRIPTION
DS-199738	For 66-84 Shovelhead (lower)

PART #	DESCRIPTION
0926-1439	For 84-99 Evolution Big Twin (upper)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

ANDREWS

LOW-PROFILE LOWER SPRING COLLARS

- Similar to the late H-D collars
- Will provide 0,060" more spring travel than stock collars
- Sold as a set of four

PART #	DESCRIPTION
DS-199727	For 57-85 XL

0926-2928

Kibblewhite Precision Machining

LOWER COLLARS

- Made of heat-treated steel
- PART #0926-1445 is machined to fit 0,725" OD seal and 0,565" valve guide
- PART #0926-2928 is machined to fit 0,725" OD seal and 0,625" valve guide
- Lower collar is counter-bored to allow for greater retainer-to-seal clearance
- Sold in a set of four

PART #	DESCRIPTION
0926-2928	For L79-84 Shovelhead; work with 0,625" valve guides (OE style)
0926-1445	For 66-E79 Shovelhead; work with 0,565" valve guides (OE style)

FEULING

VALVE SPRING SEAT SHIMS

- Set valve spring open height to match camshaft lifts for optimum valve-train stability and performance
- Include four 0,060" thick shims, four 0,030" thick shims and four 0,015" thick shims with 1,500" OD and 0,645" ID

PART #	DESCRIPTION
0930-0237	For 84-99 Big Twin

PROVEN S&S PERFORMANCE

VALVE SPRING SHIM

- 0,574" x 1,450" x 0,030"
- Black, steel construction
- Sold each

PART #	DESCRIPTION
0930-0138	0,030" valve spring shim

PROVEN S&S PERFORMANCE

VALVE SPRING KEEPERS

- Steel construction

PART #	DESCRIPTION
0926-3329	For 36-84 Big Twin (8 pk.); repl. OEM #18228-36

JIMS Performance Parts For Harley-Davidson Motorcycles

VALVE LOCK KEYS

- Made from the highest-grade materials and heat-treated to JIMS strict standards
- Feature a 10° lock angle
- Work well with JIMS titanium valve spring retainers
- Sold in 8-pack

PART #	DESCRIPTION
DS-199555	For all 84-99 Evolution Big Twin that use a 10° lock angle and 5/16" valve stems

0926-1170

FEULING

VALVE LOCK KEYS

- High-quality machined steel valve locks
- Sold in 8-pack

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0926-3368	Standard height groove 5/16" valve stems, 7° w/ square groove; repl. OEM #18229-83
0926-1170	Offset 10° for 5/16" valve stems; raise valve spring retainer to gain 0,050" of valve spring installed height (also fits Feuling® High Load BeeHive® valve springs)

Kibblewhite Precision Machining

VALVE KEYS

- Made of H.T. steel
- Sold in 8-pack

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0926-0777	7° standard; repl. OEM #18229-83
FOR 57-85 XL	
0926-0775	15° replacement (OE style)

0927-0015

0927-0001

FORGED ROLLER ROCKER ARMS

- Forged from 8620 steel, heat-treated then shot-peened for additional strength and durability
- Rocker arms have 0,75" long bushings instead of the 0,50" long bushings found on most other rocker arms
- Feature a modified lubrication system with unrestricted roller oiling
- 1,625:1 ratio
- Must be used with adjustable pushrods; sold separately
- Recommended that new rocker shafts be used when installing roller rocker arms; available separately

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0927-0015	Roller rocker arms (set of 4)
FOR 84-99 EVOLUTION BIG TWIN (CONT)	
0927-0001	Roller rocker rebuild kit

FORGED ROLLER ROCKER ARMS

- Machined from 4140 forged steel and heat treated for maximum strength
- Features the exclusive 0,750" long S&S rocker arm bushing, which provides 50% more load bearing surface than stock 0,500" bushings
- Can be oiled through pushrods when used with S&S Shovelhead-style tappet guides and pushrods
- Nominal rocker ratio of 1,5:1
- Compatible with stock and S&S billet Shovelhead-style rocker boxes
- Some clearancing may be required when using stock rocker boxes
- Set includes two each front and rear rocker arms

PART #	DESCRIPTION
0927-0016	For 66-84 Shovelhead

0927-0014

FORGED STANDARD ROCKER ARMS

- An economical solution for stock rebuilds, and mild performance upgrades
- Forged from 8620 steel for greater strength than stock or cast steel
- Features the same 0,750" long rocker shaft bushings as S&S Roller Rockers: longer bushing provides 50% more load bearing area; eliminates the risk of engine damage associated with failed needle bearings
- Valve contact tips are induction hardened for extended durability
- Recommended for cams of 0,585" lift or less
- Sold in set containing two each of front and rear arms or individually

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0927-0032	Front exhaust/rear intake (ea.)
0927-0033	Rear exhaust/front intake (ea.)
0927-0014	Set of 4

ROLLER ROCKER ARMS

- The lightest rocker arm available, but still has superior strength characteristics due to its design
- The strength of 660 bronze bushings and bearing-grade steel for the roller tip
- Extensively tested under extreme conditions to ensure durability in your engine
- Will accept cams with up to 0,700" lift at a ratio of 1,625 (stock)
- Sold as a set of four

NOTE: Twin Cam rocker boxes may need to be clearanced.

PART #	DESCRIPTION
DS-193850	For 84-99 Evolution Big Twin; repl. OEM #s 17360-83/17375-83

ROLLER ROCKER ARMS

- Cast from 4340 heat-treated chromoly steel
- Reduce friction in the valve train, providing more horsepower and less heat in the top end
- Include 660 bronze bushing fit to 0,0007" to 0,0012" for the best wear resistance and oil control
- Roller tip made from bearing-grade material to reduce valve guide wear and valve tip galling
- Segmented parabolic pushrod cup reduces friction at pushrod ends, while putting the load on the outer perimeter of pushrod ends, with full oil pressure at pushrod tip
- Designed to work in conjunction with other JIMS valve train components; use JIMS Rocker Arm Shafts PART #DS-193819
- Set includes two each front and rear rocker arms

PART #	DESCRIPTION
0927-0021	For 66-84 Big Twin

REPLACEMENT ROCKER ARMS WITH BUSHINGS

- OEM style rocker arms
- Sold each

DS-193833

PART #	DESCRIPTION
0950-0355	For 57-85 XL; repl. OEM #17435-57B

ROCKER ARM BUSHING

- Replacement bushing for S&S roller rocker arms
- Sold each

PART #	DESCRIPTION
0927-0030	For S&S standard and roller rocker arms

ROCKER ARM BUSHINGS

- Manufactured from solid billet bearing bronze bar stock
- ID #0,547"
- Sold in packs of eight
- Ream to fit

PART #	DESCRIPTION
DS-193821	For 66-84 Big Twin, 57-85 Sportster; repl. OEM #17428-57

ROCKER ARM BUSHINGS

- Constructed of SAE660 bearing bronze
- Sold as a set of eight

PART #	DESCRIPTION
0927-0024	For 66-84 Shovelhead, 57-E84 XL

ROCKER SHAFT ADJUSTER KIT

- Contains shims, spacers and seals to rebuild all four rocker arm shafts found in 66-84 Shovelhead engines
- Rocker arm will not come out of adjustment or need re-shimming
- Only needs to be replaced with each valve job
- Replacement seals sold in 4-pack

PART #	DESCRIPTION
0927-0004	For 66-84 Shovelhead

PART #	DESCRIPTION
0927-0005	Repl. seals (4 pk.)

SOLID LIFTER CONVERSION KIT

- Converts stock hydraulic lifters to adjustable solids
- Kit includes four nonadjustable steel pushrods, four adjustable inserts and instructions

PART #	DESCRIPTION
0928-0062	For 66-84 Shovelhead

SOLID LIFTER CONVERSION KIT

- Hardened steel adapters
- Fit in place of the stock hydraulic units
- Use with stock adjustable pushrods
- Sold as a set of four

PART #	DESCRIPTION
0929-0059	For 53-84 Big Twin (except Evolution Big Twin)

"TIME SAVER" CHROMOLY ADJUSTABLE PUSHRODS

- Pushrods adjust from 9,500" to 11,500"
- 9 mm diameter provides superior strength and durability
- Speed up the installation of performance cams, rockers or other maintenance
- Removal of rocker boxes is not required for installation
- Adjusting end is a huge 0,354" – 40% larger than 0,250" ends
- Chromoly construction
- Sold in sets of four

NOTE: Not for use on 66-84 Shovelhead with OEM style tappets.

PART #	DESCRIPTION
0928-0050	For 84-99 Evolution Big Twin and 66-84 Shovelhead

93-5076

0928-0049

ADJUSTABLE PUSHRODS

- 0,4375" diameter chromoly steel for maximum strength
- Rocker boxes must be removed for installation or removal
- Sold in sets of four

PART #	DESCRIPTION
93-5076	For 84-99 Evolution Big Twin

PART #	DESCRIPTION
0928-0049	For 66-84 Shovelhead; repl. OEM #17904-66

NON-ADJUSTABLE PUSHRODS

- Replace stock pushrods perfectly
- $^{7}/_{16}$" high strength Chromoly steel tubing for increased strength
- Pushrods are marked with stock color code and valve position for easy installation
- Sold as a set of 4

PART #	DESCRIPTION
0928-0074	For 84-99 Evolution Big Twin

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

0928-0003

QUICKEE PUSHRODS

- Feature revolutionary design – allows quicker, easier installation without the removal of the rocker covers
- 0,4375" diameter Chromoly steel
- Threaded adjuster screws into the pushrod until the threads disengage and the adjuster simply slides into the pushrod, making installation or removal a snap
- Once the pushrod is installed and adjusted, the lock nut prevents the adjuster from moving
- The ball ends of the pushrods are drilled so that oil can flow through the pushrod

PART #	DESCRIPTION
0928-0003	For 84-99 Evolution Big Twin
0928-0066	For 66-84 Shovelhead (stock rocker arms)

PUSHROD COVER KEEPER SETS

- Chromed steel finish
- Sold in sets of four

PART #	DESCRIPTION
FOR 36-99 BIG TWIN (EXCEPT TWIN CAM)	
0928-0058	3,330" long; repl. OEM #s 17949-40, 17950-66

0928-0103

HP+® SERIES AND RACE SERIES® ADJUSTABLE PUSHRODS

- Maintain maximum valve lift
- Increased stiffness and column rigidity maximizing valve-train stability, increasing engine rpm horsepower and torque output
- Tapered 3/8" 4130 chromoly adjustable pushrods, use a minimal adjustment parameter eliminating flex and loss of valve train-stability problems associated with most adjustable pushrods
- Individual length intake and exhaust pushrods keep the adjustment extension to a minimum
- Designed to exceed the needs of performance engines using larger lift camshafts and high spring pressures, while maintaining proper and critical oil flow to top end valve gear
- HP+ Series® pushrods have 24 threads per inch adjustment, super strength single jam nut lock system, wall thickness 0,120"
- Race Series® pushrods have 24 threads per inch with 0,145" wall thickness - recommended when extreme valve-spring pressures are used
- Designed for use with hydraulic or solid lifters and street or race engines
- Can be used with the factory pushrod tubes

NOTE: Pushrods can be adjusted 0,225" longer than stock to accommodate longer cylinder and smaller base circle camshafts.

NOTE: Requires removal of rocker covers and rocker arm supports for installation.

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0928-0012	HP+ series®
FOR 84-99 EVOLUTION BIG TWIN (CONT)	
0928-0103	Race Series®

FAST INSTALL® ADJUSTABLE PUSHRODS

- Made from 7/16" diameter 4130 Chromoly steel with the same great design as the regular install Feuling® adjustable pushrods, but feature a slightly shorter tapered tube
- Come disassembled, allowing the engine builder to install the pushrods without removing the top rocker box
- Feature a dual-jam nut locking system and include Pushrod Tube Holder tool PART #3801-0159 to hold the pushrod tubes up and out of the way while adjusting
- Can be used with the factory pushrod tubes and are the longest fast-install pushrods available
- Use separate lengths for intake and exhaust which keeps the adjustment area to a minimum, creating a fast-install pushrod with maximum rigidity promoting maximum valve lift
- Standard 0,095" wall thickness

PART #	DESCRIPTION
0928-0025	For 84-99 Evolution Big Twin

JIMS
Performance Parts For Harley-Davidson® Motorcycles

TOP-END OILING KIT

- Meticulously engineered valve train kit enables Evolution-style oiling of your Shovelhead top-end
- Allows removal of stock Shovelhead top-end oiling system
- Top-end is oiled through JIMS proven Powerglide™ tappets, then up through Worksaver® pushrods into JIMS roller rocker arms
- Tappets maintain oil pressure better and improve lubrication because oil is pressurized through the points of contact
- Kit includes special Powerglide tappets with Evolution-style pushrod seat, special Worksaver pushrods, chrome tappet blocks with gaskets and roller rocker arms
- Easy-to-follow instructions

PART #	DESCRIPTION
DS194068	For 66-84 Shovelhead

BIG AXLE™ POWERGLIDE™ TAPPET

- Micro-finish bore allows a running fit of 0,0002"
- Big Axle™ rollers are designed around three working parts
- The outer wheel/roller has a 27% greater wall size – less harmonic distortion for better tracking of cam lobe
- Pin bearings are decreased in size by 12%, which increases rpm for more precise tracking
- Axle size is increased 36% and doubles as the inner race, so the pin bearing and complete roller assembly now rotate around the axle instead of an inner race, eliminating all possible movement in and around the axle

- Std. (0,8425") size
- Sold each

PART #	SIZE
DS-194107	For 84-99 80" Evolution Big Twin; repl. OEM #18523-86

POWERGLIDE™ TAPPETS

- These tappets will run in cast iron or aluminum tappet blocks
- Recommend fitting the tappets to the blocks with a clearance of 0,0007" to 0,0012"
- Produced from billet bearing steel
- A true center-line for roller life and exact cam timing
- State of the art pushrod seat, machined with the same segmented parabolic cup as the JIMS roller rockers
- Hand fit hydraulic unit to a running fit of 0,0002", with ultra-precision air-gauging system

SIZE	POWERGLIDE™ HYDRAULICS	STANDARD HYDRAULIC	STANDARD SOLID

[1] Hydraulic lifter not included.
[2] Adjuster screws and nut sold separately.

POWERGLIDE™ STEADY ROLL TAPPET

- The same Powerglide™ advantage (oil-fed axle, billet steel body, precision fit hydraulics), but now incorporates a Steady Roll bronze bushing in place of the needle bearing roller
- These tappets have undergone extensive development to increase load, lubrication, hydraulic and life capacities
- Billet body
- Increased roller width
- Roller perpendicularity held to 0,0002"
- Hand-honed hydraulic unit cavity
- Dynamic load capacities increased over 30%
- Lubrication capacities for hydraulic unit and valve train (top end) increased 10%
- Lubrication capacities for the roller, cams and cam bearings have increased 100% for increased cooling
- Sold each

PART #	DESCRIPTION
0929-0043	For 84-99 Evolution Big Twin; standard

HYDROSOLID TAPPET

- Performs like a hydraulic tappet up to 5500 rpm, then turn into a solid tappet
- When it turns into a solid tappet, it adds approximately three to six more usable horsepower
- Prevents hydraulic pump at high rpms
- Sold each

NOTE: Requires the use of adjustable pushrods.

PART #	DESCRIPTION
DS-194342	For 84-99 Evolution Big Twin (0,8425" OD); repl. OEM #18523-86

TAPPETS

- Standard solid rollers are designed around three working parts
- The outer wheel/roller has a 27% greater wall size – less harmonic distortion for better tracking of cam lobe
- Pin bearings are decreased in size by 12%, which increases rpm for more precise tracking
- Axle size is increased 36% and doubles as the inner race, so the pin bearing and complete roller assembly now rotates around the axle instead of an inner race, eliminating all possible movement in and around the axle

0929-0004

HYDRAULIC TAPPETS

- Rollers have a larger-than-stock inner bearing race that reduces stress and increases axle life
- Each lifter body and plunger assembly is hand-fit and pressure-tested to ensure correct operation
- Redesigned plunger assembly withstands forces associated with heavy-duty valve springs and pushrods typically used in high-performance applications
- Revised metering device precisely controls oil delivery to top end, ensuring rapid lifter pump-up and reducing possibility of oil starvation to bottom end
- Tappets that include the HL2T Limited Travel Kit improve cold starts and high rpm valve timing accuracy
- Sold in sets of four

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0929-0061	W/ HL²T kit
0929-0004	W/o HL²T kit

0929-0051

HYDRAULIC TAPPET ASSEMBLIES

- Precision-machined and heat-treated bodies
- Premium-quality anti-pump-up hydraulic inserts
- Eliminate noise from the mechanical valve train

PART #	DESCRIPTION
FOR 53-84 BIG TWIN	
0929-0051	Standard-hydraulic tappet assembly (4 pk.); repl. OEM #18522-53A
0929-0052	+0,003" hydraulic tappet assembly (4 pk.)

HP+® HYDRAULIC LIFTERS

- Performance hydraulic roller lifters dyno developed and track tested
- CNC machined and precision ground
- When used with Feuling® oil pump, they will increase critical oil flow to valves, springs, rockers, shafts and valve guides
- Extend life of top end valve gear
- Can also be used for OEM replacements
- Sold in a set of four

PART #	DESCRIPTION
0929-0018	For 84-99 Evolution Big Twin

RACE SERIES® FULL-TRAVEL HYDRAULIC LIFTERS

- Full-travel hydraulic lifters made from machined steel designed with 0,200" of travel
- Exceed the needs of large-lift camshafts and higher spring pressures with a slower bleed-down rate
- Maintain proper and critical oil flow to valves, springs, rockers, shafts and valve guides
- Increase engine rpm and valvetrain stability; decreases valve float for maximum valve lift
- Recommended for both strip and performance street engines
- Sold in a set of four

NOTE: High-volume oil pump recommended.

NOTE: Recommended for engines running higher than 185 lb valve spring seat pressure.

PART #	DESCRIPTION
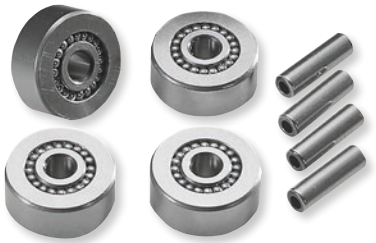
0929-0053	For 84-99 80" Evolution Big Twin
0929-0049	For 29-84 Big Twin, 57-85 XL; repl. OEM #18534-29A

TAPPET ROLLER KIT

- Made from 52100 bearing material
- Includes 4340 chromoly axle
- Sold each

PART #	DESCRIPTION
DS-197020	For 29-84 Big Twin and 57-85 XL; repl. OEM #18534-29A



TAPPET ROLLERS

- 4-pack of tappet rollers

PART #	DESCRIPTION
DS-194029	For 29-84 Big Twin and 57-85 XL; repl. OEM #18534-29A

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

HYDRAULIC LIFTER UNIT

- Quality hydraulic lifter unit
- Sold each

PART #	DESCRIPTION
0929-0050	For 53-84 Big Twin; repl. OEM #17920-53A

HYDRAULIC LIFTER UNIT

- Sold individually

PART #	DESCRIPTION
DS-194051	For 53-84 Big Twin; repl. OEM #17920-53A

DS-194025

LIFTER BLOCKS

- Come complete with two sets of Allen cap screws (1/4"-24 for 66-E76 and 1/4"-20 for L76-84), completely machined and ready for installation
- Made from durable cast iron and finished in either black or chrome

PART #	DESCRIPTION
FOR 66-84 BIG TWIN; REPL. OEM #S 18600-66B AND 18610-66A	
DS-194025	Chrome

DS-194024

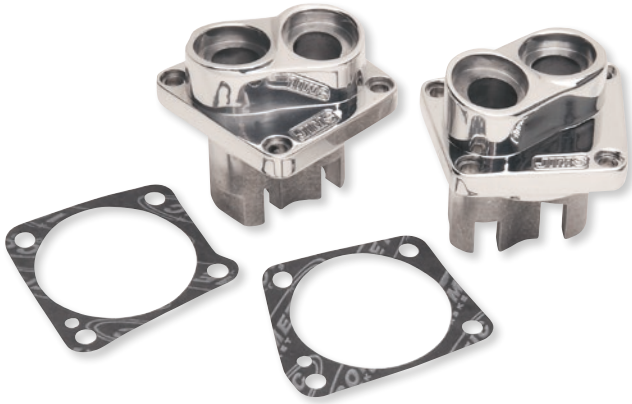
- Will also fit Panhead motors
- Sold in pairs

PART #	DESCRIPTION
FOR 66-84 BIG TWIN; REPL. OEM #S 18600-66B AND 18610-66A (CONT)	
DS-194024	Black

LIFTER BLOCKS

- Each pair is precision-machined and comes with a set of chrome-plated socket-head screws
- Made from cast aluminum, polished and chrome-plated
- Sold in pairs

PART #	DESCRIPTION
DS-194054	For 84-99 Evolution Big Twin; repl. OEM #s 18542-83A and 18540-83A



ALUMINUM LIFTER BLOCKS

- Made from 7075-T651 aluminum, with a polished finish
- Kit includes front lifter block, rear lifter block and gaskets
- Mounting screws must be purchased separately; 77-84 models use 1/4"-20 screws, 53-76 models use 1/4" -24 screws
- Sold in pairs

PART #	DESCRIPTION
DS-194030	For 53-84 Big Twin

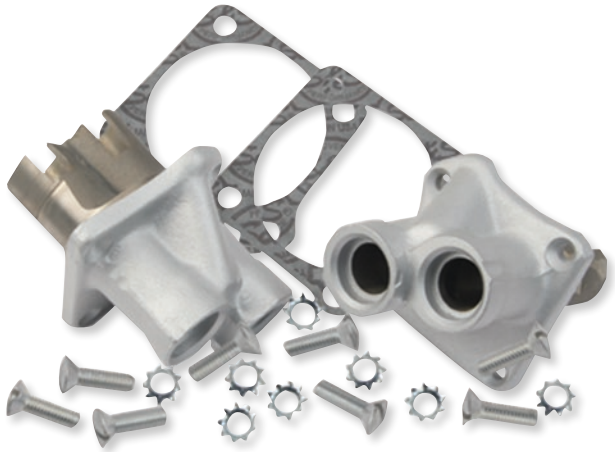
BILLET TAPPET GUIDE

- Made from 7075-T651 aluminum
- Precision machined with helical-style grooves for better lubrication
- Available in polished finish
- Sold each

PART #	DESCRIPTION
DS-194034	For 57-85 XL; repl. OEM #18607-57

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.



TAPPET GUIDE KIT

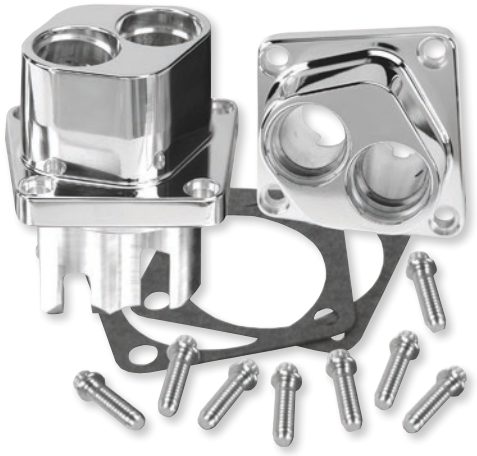
- Cast iron
- Mounting hardware and gaskets included

PART #	DESCRIPTION
0928-0054	For 36-47 Big Twin and S&S KN engines

CAST TAPPET GUIDES

- For V-Series Stock and Super Stock® crankcases
- Fit engines and crankcases with 0,250" offset cam chests
- Black finish
- Sold in pairs

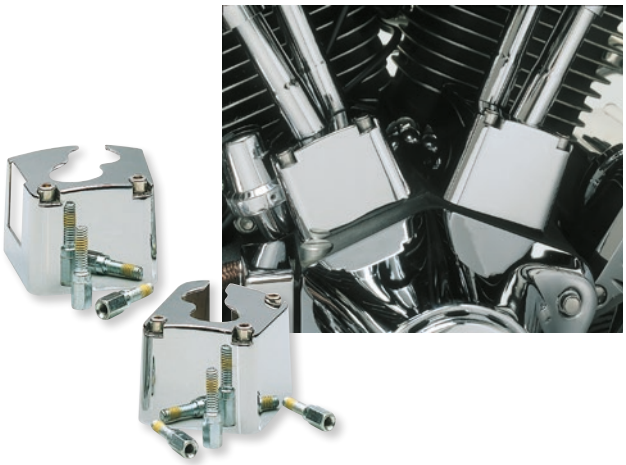
PART #	DESCRIPTION
0928-0070	Black



BILLET TAPPET GUIDES

- Machined from solid billet aluminum with chrome finish
- Part of S&S's top-of-the-line engine kits
- Available for engines with stock-style crankcases
- Sold in pairs

PART #	DESCRIPTION
0940-0953	For 84-99 Evolution Big Twin w/ stock crankcase



TAPPET BLOCK COVERS

KURYAKYN

- Show-chromed die-cast covers
- Install in minutes
- Include chrome hardware

PART #	DESCRIPTION
DS-376493	For 84-99 Evolution Big Twin

GARDNER WESTCOTT

LIFTER BASE SCREW KIT

- Includes eight chrome socket-head screws

PART #	DESCRIPTION
DS-190699	For L76-99 Big Twin (1/4"-20)

12-POINT LIFTER BASE SCREWS

- Chrome-plated finish
- Sold in a set of eight

PART #	DESCRIPTION
DS-189998	For L76-99 Big Twin (1/4"-20)

TAPPET ADJUSTER LOCKNUTS

- Split locknuts with 9/32"-32 thread
- Sold in four-pack

PART #	DESCRIPTION
DS-189844	For 38-84 Big Twin (except Evolution) and 57-85 XL; repl. OEM #18570-38

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

DS-193764

0928-0044

DS-194493

DRAG Specialties Genuine JAMES GASKETS

PUSHROD TUBE KITS

- Kits include upper and lower tubes, clips, cups, springs and washers (O-rings/corks sold separately)
- One kit will do a complete engine

PART #	DESCRIPTION
PUSHROD TUBE KITS	
CHROME	
DS-193764	For 84-99 Evolution Big Twin
DS-193761	For L79-84 Shovelhead
DS-193760	For 66-E79 Shovelhead
SATIN BLACK	
0928-0044	For 84-99 Evolution Big Twin

PART #	DESCRIPTION
PUSHROD TUBE SEAL KITS	
DS194458	O-ring seal kit for 84-99 Evolution Big Twin
DS-194486	O-ring seal kit for 82-84 Shovelhead
DS-194491	O-ring seal kit for L79-84 Shovelhead
DS-194493	Cork seal kit for 66-E79 Shovelhead

DRAG Specialties

CHROME PUSHROD TUBE ASSEMBLIES

- Original-style replacement; includes everything needed
- Replacement pushrod corks sold in 10-pack to dealer and sold each to consumer

NOTE: Each motor requires four tube assemblies.

DS-193787

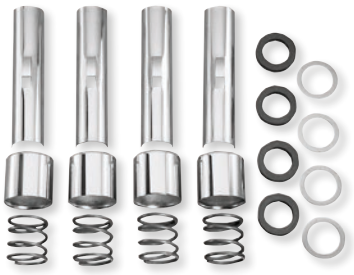
PART #	DESCRIPTION
FOR 48-65 PANHEAD	
DS-193788	Chrome pushrod tube assembly (ea.)
FOR 57-E79 XL	
DS-193787	Chrome pushrod tube assembly (ea.)

PART #	DESCRIPTION
REPLACEMENT PUSHROD CORKS	
DS-174190	Corks for pushrod tubes, small (10 pk.); repl. OEM #17955-36
DS-174390	Corks for pushrod tubes, large (10 pk.); repl. OEM #17955-48

Colony Where Excellence Is a Standard

PUSHROD TUBE KITS

- These kits contain exact OEM duplicate parts for proper fitment
- Upper cover kit contains chrome clips, chrome cups, springs, rubber seals and steel washers for four pushrod tubes
- Lower cover kit contains four chrome tubes, steel washers and O-rings
- Inner cover kit contains four aluminum inner covers
- Kits sold separately



DS-193766

DS-193768

DS-193767

PART #	DESCRIPTION
DS-193766	For 40-99 Big Twin models; upper cover kit
DS-193768	For 79-84 Big Twin models; inner cover kit; (repl. OEM #17935-79)

PART #	DESCRIPTION
DS-193767	For 84-99 Evolution Big Twin; lower cover kit; (repl. OEM #17938-83)

Eastern M C Parts

PUSHROD COVER SPRINGS

- OEM-quality replacements
- Sold in a 10-pack to dealers and sold individually to the customer

PART #	DESCRIPTION
0928-0115	For 36-99 Big Twin and 57-85 XL (10 pk); repl. OEM #17947-36

Eastern M C Parts

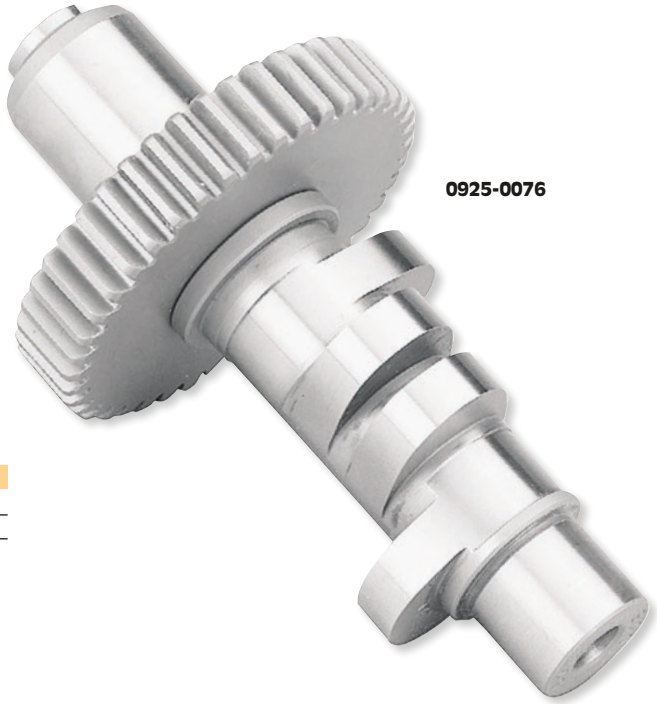
PUSHROD TUBE WASHERS

- Sold in 10-packs

PART #	DESCRIPTION
0950-0369	For 36-99 Big Twin, 57-85 XL; repl. OEM #6762B

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.



0925-0076

S&S CAMS

- S&S Cams are tested on the dyno, street and track before being offered to the public
- With hundreds of hours of testing on each cam, you know you are getting the best cam S&S can produce

NOTE: Installer must check coil bind, valve-to-valve clearance, valve-to-piston clearance and cam lobe to case clearance.

450S CAM

- For lower compression motors up to 88" with compression up to 8,5:1
- Good low and mid-range torque
- Recommend hydraulic lifters

450S CAM	
PART #	**DESCRIPTION**
0925-0418	For L77-84 Big Twin

508 CAM

- S&S' best bolt-in cam
- Works well in all size motors up to 10:1 compression
- Quiet valve train
- Provides best power in low to mid-range

508 CAM	
PART #	**DESCRIPTION**
0925-1017	For 84-99 Evolution Big Twin

510 CAM

- S&S' best bolt-in cam
- Ideal for engines to 96" up to 10:1 compression
- No spring spacing required
- Works with stock pushrods, springs and hydraulic tappets

510 CAM	
PART #	**DESCRIPTION**
0925-0076	For 84-99 Evolution Big Twin

514 CAM

- For lower compression 84" to 93" motors, not more than 9:1
- Best response from 2500 to 5000 rpm
- Recommend solid or performance aftermarket hydraulic lifters

514 CAM	
PART #	**DESCRIPTION**
DS199188	For L77-84 Big Twin
DS199186	For 48-69 Big Twin

520 CAM

- Works well in all size motors up to 10:1 compression
- Provides best power in low to mid-range
- Works with hydraulic tappets
- Requires high-lift springs

PART #	**DESCRIPTION**
DS199224	For 84-99 Evolution Big Twin

561 CAM

- For motors with up to 10:1 compression
- Very good midrange performance
- Work with hydraulic tappets
- Requires high-lift springs

561 CAM	
PART #	**DESCRIPTION**
DS199225	For 84-99 Evolution Big Twin

585V CAM

- Versatile for 80" to 96" engines with 10:1 to 10,5:1 compression, also works well in larger engines with 9,5:1 to 10:1 compression ratios
- 3500 to 6000 rpm

585V CAM	
PART #	**DESCRIPTION**
0925-0937	For 84-99 Evolution Big Twin

640 CAM

- For large displacement engines (110"+) with 10,5:1 to 11,5:1 compression and smaller engines (96 to 107") with 11:1 to 12:1 compression
- Less overlap and fast ramps build higher cylinder pressure
- Lower TDC lift makes installation easier
- Designed for use with hydraulic tappets
- Requires high-lift springs

640 CAM	
PART #	**DESCRIPTION**
0925-0044	For 84-99 Evolution Big Twin

S&S H-GRIND CAMSHAFTS

- OEM specification replacement hydraulic cam with unique front and rear timing specifications
- Dead-on reproduction of the stock cams used in 66-84 Big Twin
- Perfect for repair and restoration of 74" and 80" engines
- Available for generator engines with inner cam bushings or inner cam bearings

0925-0739

PART #	DESCRIPTION
0925-0741	For 78-84 Big Twin engines w/ alternator-style crankcases
0925-0740	For 70-77 Big Twin engines w/ alternator-style crankcases

PART #	DESCRIPTION
0925-0739	For 58-69 Big Twin engines w/ generator-style crankcases
0925-0738	For 48-57 Big Twin engines w/ generator-style crankcases

GRIND	OPEN FRONT/REAR	CLOSE FRONT/REAR	DURATION @ 0,053" FRONT/REAR	VALVE LIFT FRONT/REAR

Exhaust	53°/53°	12°/12°	245°/245°	0,389"/0,391"

REAPER® CAMS

- Produce more power and torque in the riding rpm range increasing throttle response, acceleration and fuel mileage
- Wide lobe separations produce wide power bands
- Smooth camshaft lobe ramps are easier on valve-train components and eliminate excessive valve-train noise and wear
- Dyno proven and track tested

518 CAM

- Direct bolt-in replacement for EVO engines
- Can be used with stock valve springs and lifters
- Will respond well with performance exhaust and air cleaner
- Will also respond well with increased compression and cylinder head work
- 1650 to 5500 rpm power range

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN (USE W/ FEULING® PUSHRODS PART #0928-0118)	
0925-1037	518 cam

543 CAM

- Requires performance valve springs
- Performance lifters recommended but not required
- Will work with factory pushrods on engines with factory stack up; if deck height, cylinders or rocker boxes have been modified from stock then adjustable pushrods are required
- Increased compression, cylinder head work and performance exhaust recommended but not required; increased compression is required for bottom end performance
- 2200 to 5950 rpm power range

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0925-1038	543 cam

574 CAM

- Requires performance valve springs; see PART #s 0926-1467 or 0926-0851 on page 281
- Performance lifters recommended but not required
- Will work with factory pushrods on engines with factory stack up, if deck height, cylinders or rocker boxes have been modified from stock then adjustable pushrods are required; see PART #s 0928-0025, 0928-0012 or 0928-0013 on page 289
- Increased compression, cylinder head work and performance exhaust recommended but not required
- Increased compression is required for bottom end performance
- 2700 to 6200 rpm power range

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0925-1373	574 cam

594 CAM

- Requires performance valve springs, performance lifters, adjustable pushrods, increased compression and cylinder head work
- Performance exhaust and intake/air cleaner upgrades also required
- 2500 to 6400 rpm power range

PART #	DESCRIPTION
FOR 84-99 EVOLUTION BIG TWIN	
0925-1039	594 cam

ANDREWS

ANDREWS CAMS BIG TWIN

Andrews Products grinds its cams with the help of a computer with cam design capabilities. This superior technology gives the utmost in both performance and reliability. Only the best alloy steel billets and heat-treating processes are utilized. Furthermore, the power in Harley-Davidson's Evolution engines can be made even more convincing when a superior Andrews computer-designed high-performance cam is installed. These hydraulic lifter cams are capable of 6000+ rpm with stock springs and no valve float.

NOTE: Must check coil bind, valve-to-valve clearance and valve-to-piston clearance.

NOTE: On late 77 and later engines, the pitch diameter on the camshaft, pinion gear and the breather valve gear was changed. These components are not interchangeable with earlier-style components unless replaced in sets only. Late 77 and later gear sets are identified by a circular groove machined in the outer face of the cam gear.

EV3 GRIND CAM

- Bolt-in cam for light bikes (FXRS, etc.) adds significant mid-range power without affecting idle
- A 6000+ rpm cam for stock heads and springs with hydraulic lifters

PART #	DESCRIPTION
DS-199320	For 84-99 Evolution Big Twin

EV7 GRIND CAM

- Designed for big-inch stroker motors with head work
- Works with stock hydraulics, with stock spring travel set to 0,560" minimum
- Excellent in the 2800 to 6500 rpm range
- Uses stock springs

PART #	DESCRIPTION
DS-199445	For 84-99 Evolution Big Twin

EV23 GRIND CAM

- Bolt-in cam for heavier touring bikes and high-geared bikes with 65-tooth rear pulleys
- Crisp throttle response and strong pulling power from 1500 to 6000 rpm
- Works well in higher altitudes
- Uses stock springs; works with carbs or fuel injection

PART #	DESCRIPTION
DS-199097	For 84-99 Evolution Big Twin

EV31 GRIND CAM

- Super power for supercharged engines
- Basically an EV27 cam with timing set for superchargers or big-inch motors with 10,5+ compression ratio

PART #	DESCRIPTION
0925-0071	For 84-99 Evolution Big Twin

EV51 GRIND CAM

- Long duration for modified street motors
- Works with stock hydraulics
- Easy installation
- Power range from 3000 to 6500 rpm

PART #	DESCRIPTION
DS-199447	For 84-99 Evolution Big Twin

"AB" GRIND CAMS

- Bolt-in street cams have an "A" intake and a long duration exhaust for cooler running and high-end power
- Suitable for hydraulic lifters

PART #	DESCRIPTION
DS-199317	For 48-69 Big Twin

EV5 GRIND CAM

- Designed for mildly stroked motors or motors with head work done
- Works with stock hydraulics, with stock spring travel set to 0,560" minimum
- Excellent power in the 2500 to 6500 rpm range

PART #	DESCRIPTION
DS-199443	For 84-99 Evolution Big Twin

EV13 GRIND CAM

- Bolt-in cam for street or touring use with more mid-range and upper-end power than the stock 88 EV cams
- Especially effective in reducing oil temperature
- Uses stock springs; works with carbs or fuel injection

PART #	DESCRIPTION
DS-199323	For 84-99 Evolution Big Twin

EV27 GRIND CAM

- Bolt-in street cam with fast open and close ramps
- Similar timing to EV3, but designed to produce a very broad torque band
- Pulls from 1500 to 6000 rpm
- Uses stock springs; works with carbs or fuel injection

PART #	DESCRIPTION
DS-199344	For 84-99 Evolution Big Twin

EV38 GRIND CAM

- Lower lift exhaust for easy installation
- Bolt-in for lighter bikes (FXLR, etc.)
- Great mid-range and high-end power
- Longer exhaust cam lowers oil temperature

PART #	DESCRIPTION
DS-199446	For 84-99 Evolution Big Twin

EV59 GRIND CAM

- Designed for modified 80" to 88" motors
- For use with high lift springs and collars
- Very broad powerband to 6000 rpm

PART #	DESCRIPTION
DS-199444	For 84-99 Evolution Big Twin

"B2" GRIND CAMS

- More mid-range and high-end power for street/strip with smooth idle; best cam for 74/80 inches and small strokers
- Spring spacing required, and clearance at main bearing boss must be checked

PART #	DESCRIPTION
0925-0296	For L77-84 Shovelhead
0925-0294	For 48-69 Big Twin

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

ANDREWS CAMS BIG TWIN (CONT)

"J" GRIND CAMS

- For mild street applications
- Add more power throughout rpm range and maintain a smooth idle
- Bolt-in with no head work

PART #	DESCRIPTION
DS-199303	For L77-84 Shovelhead
DS-199302	For 70-E77 Shovelhead

PART #	DESCRIPTION
DS-199301	For 48-69 Big Twin

"7" GRIND CAM

- Upgraded version of the original #6 Grind
- Great street cam, especially for 84/88-inch strokers with maximum torque from 2200 to 6500 rpm

#1 GRIND CAMS FOR LOW-COMPRESSION 66-84 BIG TWIN

- Designed with a combination of shorter durations and higher lifts to offer the advantages of a broad torque output through the entire rpm range
- Designed for hydraulics, but could be run with solids
- Grind #1 is the low-compression version of an "A" grind cam for 74" and 80" models

PART #	DESCRIPTION
#1 GRIND CAMS FOR LOW-COMPRESSION	
DS-199324	For L77-84 Shovelhead

PART #	DESCRIPTION
#1 GRIND CAMS FOR LOW-COMPRESSION (CONT)	
DS-199283	For 48-69 Big Twin

"N" GRIND CAM

- Stock Knuckle replacement cam
- For stock motors and restoring an older classic engine, this is the cam to use

PART #	DESCRIPTION
0925-0584	For 37-47 Knucklehead

PART #	DESCRIPTION
0925-0299	For L77-84 Shovelhead

NOTE: On late 77 and later engines, the pitch diameter on the camshaft, pinion gear and breather valve gear was changed. These components are not interchangeable with earlier style components unless replaced in sets only. Late 77 and later gear sets are identified by a circular groove machined in the outer face of the cam gear.

ANDREWS

0925-0591

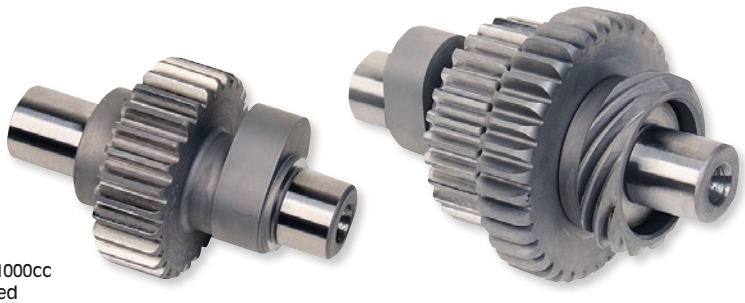
"PB+" CAM

- Bolt-in four-cam set
- More horsepower and torque
- Stock springs OK to 7000 rpm, require no headwork

NOTE: Installer must check coil bind, valve-to-valve clearance, valve-to-piston clearance and cam lobe to case clearance.

PART #	DESCRIPTION
0925-0591	For 71-80 XL

PART #	DESCRIPTION
0925-0592	For 81-E84 XL



"PB+" EXHAUST CAMS SPORTSTER

- "PB+" exhaust cams only (#s 1 and 4)
- Use with stock P intake cams for bolt-in power with stock 1000cc engines; stock springs are okay and no head work is required

NOTE: 81-E84 cam gear kits (with generators) do not have tachometer drive gears.

PART #	DESCRIPTION
DS-199345	For 71-80 XL

FEULING

INNER CAM BEARINGS

- Bearings are heavy-duty full-complement style designed to accept the higher loads and demands of performance engines
- Manufactured by Koyo® Torrington®
- Sold each

PART #	DESCRIPTION
0925-1155	For 58-99 Big Twin (except Twin Cam); repl. OEM #9058
0925-1267	For 57-85 XL; repl. OEM #9057

S&S PERFORMANCE

INNER CAM BEARING

- Superior quality replacement bearings
- Sold each

PART #	DESCRIPTION
0924-0386	For 58-99 Big Twin (except Twin Cam); repl. OEM #9058

CAM BEARINGS/BUSHINGS

Eastern MC Parts

- High-quality, better than OE replacement bearings and bushings
- Sold each

0924-0263

0924-0590

DS-194198

PART #	DESCRIPTION
INNER CAM NEEDLE BEARINGS	
0924-0263	For 59-99 Big Twin (except Twin Cam); repl. OEM #9058
0924-0590	For 58-99 Big Twin (except Twin Cam) (Torrington); repl. OEM #9058
0924-0262	For L58-85 XL (ea.); repl. OEM #9057
CAM COVER BUSHINGS	
DS-194198	For 70-99 Big Twin (except Twin Cam) (ea.); repl. OEM #25581-70
0924-0272	For 70-99 Big Twin (except Twin Cam) +0,005" (ea.)
DS-194171	For 57-85 XL (#s 1, 3, 4), 45" (#4) (ea.); repl. OEM #25586-37
DS-194174	For 57-85 XL (#2) (ea.); repl. OEM #25588-57

JIMS Performance Parts For Harley-Davidson Motorcycles

CAM COVER BUSHINGS

DS-197068

DS-197069

- Bushings are made from solid bronze bar stock
- Machined in one operation with a tolerance of 0,0002"
- Feature a lead-in for ease of installation
- Sold each

PART #	DESCRIPTION
DS-197069	For 70-99 Big Twin (1,2015" OD); repl. OEM #25581-70
DS-197068	For 36-69 OHV Big Twin (1,0035" OD); repl. OEM #25581-36
DS-197070	For 37-73 45", 37-48 74" and 80" side valves and 54-85 XL (0,9405" OD); repl. OEM #25586-37

S&S PERFORMANCE

CAM COVER BUSHING

- Replacement cam bushing for outer cover
- Sold each

PART #	DESCRIPTION
0924-0503	For 70-99 Big Twin (except Twin Cam); repl. OEM #25581-70

CAM BUSHING KIT

Eastern MC Parts

- Kit includes cam and gear shaft bushings/bearings, along with lock pins and thrust plate
- All parts are standard sizes

PART #	DESCRIPTION	OEM #
DS-194195	For 73-99 Big Twin	275, 9058, 25550-57, 25581-70, 25582-73

S&S PERFORMANCE

PINION GEARS

DS-194249

- High-quality pinion gears are carefully machined, heat-treated and then finish ground
- Available in various sizes
- Sold each

PART #	COLOR	OEM #	SIZE
FOR L77-84 SHOVELHEAD			
0950-0882	Black	24046-78	1,4710" - 1,4715"

PINION SHAFT BUSHING

- Made from solid brass bar stock
- Standard size
- Sold each

PART #	DESCRIPTION
0924-0273	For 73-92 Big Twin; repl. OEM #25582-73

PINION GEAR SPACER

- Sold each

PART #	DESCRIPTION
DS-194341	For 54-89 Big Twin; repl. OEM #24703-54B

STAKING DOWEL PINS

- Pins hold bushings in place
- Sold in 10-packs

PART #	DESCRIPTION
DS196313	For 36-99 Big Twin, 52-85 XL; repl. OEM #275

CIRCUIT BREAKER SHAFT KIT

- Circuit breaker shaft kit consists of a shaft and two replacement bushings

PART #	DESCRIPTION
DS-194234	For 36-69 Big Twin; repl. OEM #s 25856-36/25785-30A

IDLER GEAR SHAFT AND BUSHING KIT

- Includes shaft and bushing

PART #	DESCRIPTION
0925-1202	For 36-69 Big Twin; repl. OEM #s 25791-36, 25785-30A

IDLER AND CIRCUIT BREAKER STUD SNAP RINGS

- OEM or better quality
- Sold in 10-pack

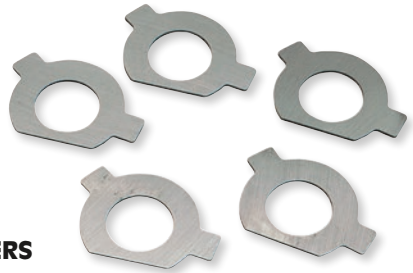
PART #	DESCRIPTION
DS-188049	For 36-69 Big Twin; repl. OEM #25810-15

CAM LOCK WASHER

- For Big Twin engines with 4", 4 1/8" or 4 3/8" cylinder bore
- Sold each

PART #	DESCRIPTION
0925-1333	Cam lock washer; repl. OEM #25550-57A

CAM LOCK WASHERS



- Sold in 5-packs

PART #	DESCRIPTION
DS-193144	For 58-99 Big Twin; repl. OEM #25550-57

STEEL ROTARY BREATHER GEARS AND KITS

- All-steel construction
- Welded-in screen
- Higher flow than stock
- Elongated breather pocket scavenge hole for increased suction
- Available in standard or + 0,030" diameter
- Kits include gear and spacer

DS-194242

DS194471

PART #	DESCRIPTION
STANDARD KITS	
DS-194242	For L77-99 Big Twin; repl. OEM #25313-88B
DS-194243	For 48-E77 Big Twin; repl. OEM #25313-73
+0,030" OVERSIZE KITS	
DS194471	For L77-99 Big Twin
DS194469	For 48-E77 Big Twin

PART #	DESCRIPTION
BREATHER GEAR ONLY	
0932-0124	For 84-99 Evolution Big Twin (std.)
0932-0125	For 84-99 Evolution Big Twin (+0,030")
0932-0126	For 48-77 Big Twin (std.)
0932-0127	For 48-77 Big Twin (+0,030")

CRANKCASE BREATHER REED VALVES

- New-style breather is not dependent on the rotation of the crankshaft to make it open and close; instead, reeds open when pressure in the crankcase becomes greater than pressure in the cam chest, and close when pressure in the cam chest is equal to or greater than pressure in the crankcase
- By opening and closing "on demand," the reed valves automatically compensate for lag time associated with accelerating the mass of air as it is forced out of the crankcase, increasing performance and stopping high-rpm oil carryover in engines with marginal piston ring seal
- Installation is fast and simple; no aligning timing marks, and no rotating parts

0920-0008

PART #	DESCRIPTION
FOR 93-99 EVOLUTION BIG TWIN STYLE ENGINE	
0920-0008	Standard

PART #	DESCRIPTION
FOR 93-99 EVOLUTION BIG TWIN STYLE ENGINE (CONT)	
0920-0009	+0,030" oversize

BREATHER GEAR SPACING SHIM KIT

- Shim kit includes one of each thickness: 0,100", 0,110", 0,120", 0,130", 0,140", 0,150", 0,160" and 0,170"

NOTE: These shims must be used with steel breather gears only.

PART #	DESCRIPTION
0932-0128	For 84-99 Big Twin w/ steel breather gears

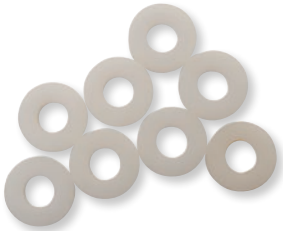
0950-0343

0950-0352

BREATHER SEPARATOR PLATE AND SCREEN

- Exact OEM replicas
- Screen and plates are sold separately

PART #	DESCRIPTION
FOR 36-69 BIG TWIN	
0950-0343	Separator plate (5 pk.); repl. OEM #25279-36
0950-0352	Breather screen (5 pk.); repl. OEM #25275-36



PLASTIC BREATHER VALVE WASHER SET

- Sold in set of eight in sizes: 0,130"; 0,135"; 0,140"; 0,145"; 0,150"; 0,155"; 0,160" and 0,165"

NOTE: Use only plastic washers with plastic breather valves. Do not intermix plastic and steel parts.

PART #	DESCRIPTION
DS-194160	For 82-99 Big Twin; repl. OEM #25320-82

STEEL BREATHER VALVE WASHER KIT

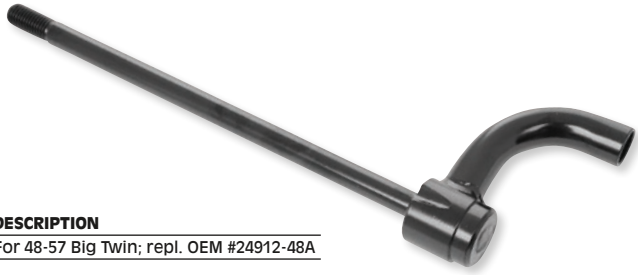
- Includes one each of the following size washers: 0,110"; 0,115"; 0,120" and 0,125" (0,195" ID hole)

NOTE: Use only steel washers with steel breather valves. Do not intermix steel and plastic parts.

PART #	DESCRIPTION
0950-0364	For 50-E79 Big Twin

CRANKCASE TO PRIMARY BREATHER PIPE

- Sold each



PART #	DESCRIPTION
1012-0104	For 48-57 Big Twin; repl. OEM #24912-48A

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

DRAG SPECIALTIES MINI CRANKCASE VENT FILTER

- Features chrome end caps with washable filter
- Measures 1,5" in diameter and 1,6" H
- Has a 1/4" mounting tab and accepts a 3/8" ID hose

PART #	DESCRIPTION
2110-0322	Mini crankcase vent filter

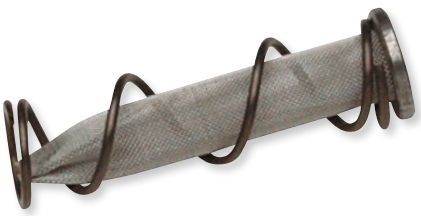
DRAG SPECIALTIES AIR CLEANER BREATHER FILTER

- Prevents impurities from entering the engine when an aftermarket air cleaner and breather kit is mounted
- Measures 1 1/2" L x 2" in diameter; 3/8" inlet on each end

PART #	DESCRIPTION
DS-289073	Dual-inlet filter

COLONY CRANKCASE OIL SCREEN AND SPRING

- Tappet screen and spring



PART #	DESCRIPTION
2005-3001	For 70-99 Big Twin and all aftermarket cases; repl. OEM #s 24981-70, 24982-70

All part numbers in BLUE are new for the OldBook.

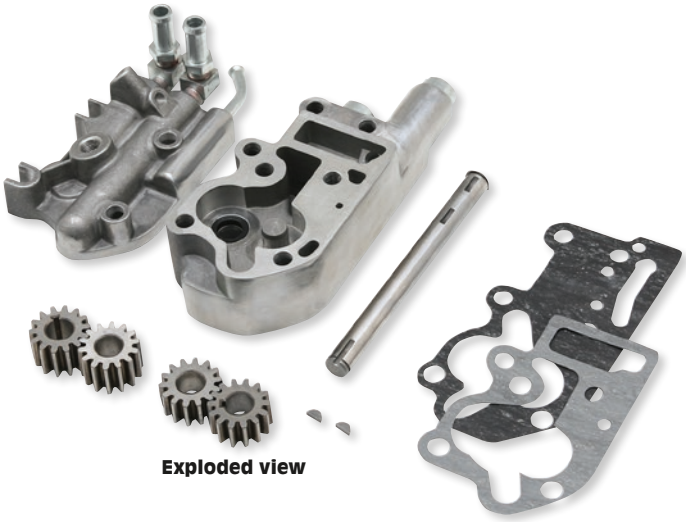
DRAG Specialties

OIL PUMP ASSEMBLIES

- High-quality replacement cast aluminum pump body with steel gears and shaft
- Raw cast aluminum finish
- Gaskets and seals included; mounting hardware sold separately

NOTE: 73-80 models may require drilling; use drilling jig PART #DS-197009 (sold separately).

0932-0108



Exploded view

PART #	DESCRIPTION
0932-0109	For 92-99 Evolution Big Twin
0932-0108	For 73-91 Big Twin; repl. OEM #26190-73

JIMS Performance Parts for Harley-Davidson Motorcycles

FLOW PRO 1 BILLET OIL PUMP COMPLETE ASSEMBLIES

- CNC-machined feed and return gears increase pump flow and return volume
- Pumps include cover, gears, drive shaft, seals, gaskets, woodruff keys, snap-rings and mounting bolts
- Oil pumps do not have provisions for primary chain or drive chain oiling

NOTE: Must check the thread size in the motor cases before mounting oil pump.

NOTE: 73-80 models may require drilling.

0932-0009

DS-197094

PART #	DESCRIPTION
FOR 92-99 EVOLUTION BIG TWIN (OEM-STYLE FITTINGS)	
0932-0009	Black w/ bottom feed/return oil lines
FOR 73-84 SHOVELHEAD (1/8" NPT FITTINGS)	
DS-197094	Polished w/ top feed/return lines

JIMS Performance Parts for Harley-Davidson Motorcycles

FLOW PRO 1 BILLET OIL PUMP BODIES

- Oil pump increases horsepower by decreasing drag on the flywheels and other rotating parts
- CNC-machined to exact tolerances for the most durable, strong and wear-resistant performance
- Feed and return gears are individually matched to each body
- Increases oil return volume over stock pumps
- OEM-type black wrinkle finish
- Cover not included

0932-0007

PART #	DESCRIPTION
0932-0007	For 92-99 Evolution Big Twin w/ 80" to 140" motors
0932-0006	For 73-91 Evolution Big Twin w/ 74" to 140" motors

31-6209

31-6208

HIGH VOLUME/HIGH PRESSURE (HVHP) POLISHED BILLET OIL PUMPS

- HVHP oil pumps have a new gear tooth profile with fewer but larger teeth that provides an increased oil volume for both supply and return-side of the pump
- Supply-side gears are 9% wider than stock
- Return gears are 28% wider than stock to ensure that the additional volume of oil supplied to the engine is scavenged and returned to the oil tank, reducing the amount of oil in the crankcase breather
- Pumps are available in universal and standard styles; universal style has a number of oil feed and return options allowing maximum flexibility for custom installations, while standard has 92-99 style oil line hookups
- Available as a kit or oil pump only
- Kits include supply gears, return gears, drive shaft, drive shaft keys, drive shaft snap rings, check ball, check ball spring, pressure valve spring, cover screws with O-rings, miscellaneous hose fittings, plugs, screws, gaskets, mounting hardware, oil pump drive shaft gear, oil pump pinion shaft gear, S&S breather gear and shim kit and instructions
- Oil pumps only include supply gears, return gears, drive shaft keys, drive shaft snap rings, check ball, check ball spring, pressure valve spring, cover screws with O-rings, miscellaneous hose fittings, plugs, screws, gaskets, mounting hardware and instructions

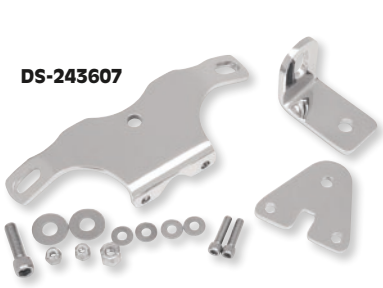
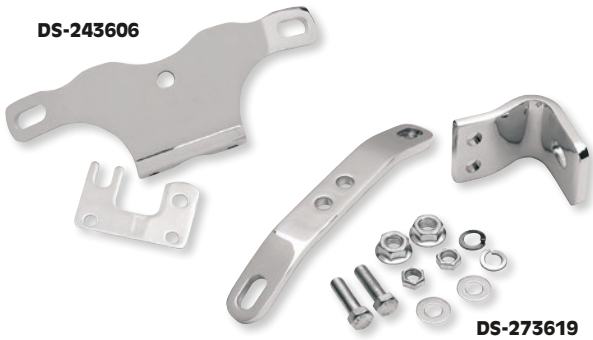
0933-0101	Front; repl OEM #47583-90/B
0933-0102	Rear; repl. OEM #47564-90





HEAVY-DUTY TOP MOTOR MOUNTS

- Chrome-plated heavy-duty mounts are 30% thicker than stock
- Mounts include chrome choke/horn brackets
- PART #s DS-243607, DS273619 come with sockethead hardware

PART #	DESCRIPTION
DS-243607	For 84-99 FXST/FLST

PART #	DESCRIPTION
DS-243606	For 84-94 FXR

PART #	DESCRIPTION
DS-273619	For 48-84 FL/FX

TOP MOTOR MOUNTS

- High-quality, chrome motor mounts
- Bolts not included

PART #	DESCRIPTION
DS-243602	For 91-98 FLT, FXDB and 91-99 FXST/FLST; repl. OEM #s 16247-91, 16242-90

PART #	DESCRIPTION
DS-243615	For 77-84 FXB/FXS/FXSB; repl. OEM #69013-77A

XL ENGINE MOUNT PLATES

- Steel mount plates with a polished chrome finish
- Sold in pairs

PART #	DESCRIPTION
DS-243516	For L84-85 XL; repl. OEM #s 16210-84A and 16212-84A

FRONT MOTOR MOUNT PLATE

- Made of heavy-duty chromed steel to OEM specifications

PART #	DESCRIPTION
DS-243601	For 82-94, 99-00 FXR and 80-98 FLT 5-speed models; repl. OEM #47159-79T

FRONT MOTOR PLATE

- Lighter and stronger than stock
- CNC-machined aluminum construction
- Available in machined or black anodized finish
- Hardware included

PART #	DESCRIPTION
FOR 80-98 FLT/FLHT/FLHR/FLTR, AND 84-00 FXR; REPL. OEM #s 47159-79A/47159-07BHP	
0933-0138	Black anodized finish
0933-0137	Machined finsh

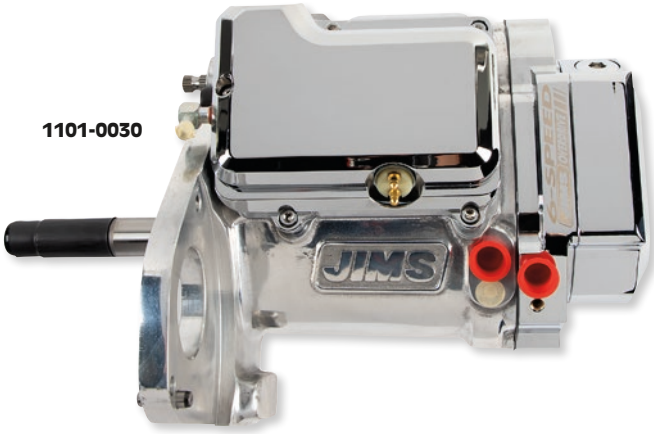
JIMS
Performance Parts For Harley-Davidson® Motorcycles

6-SPEED OVERDRIVE TRANSMISSIONS

- Comes with close-ratio 1st gear, stock 2nd through 5th gears and 0,86:1 "overdrive" 6th gear
- Made of 8620 steel
- Polished aluminum case
- Gears are CNC-machined; shifter dogs are machined with lead-in ramps for better and quicker shifting
- For use with 91-99 Evolution motors, but will fit earlier years if used with 91-or-later starter motor, clutch and inner- and outer-primary drive systems
- Requires a clutch-release rod and bearing, final drive sprocket and transmission lube (JIMS recommends Bel-Ray 85-140 gear lube); all sold separately



1101-0030

OVERDRIVE 6-SPEED GEAR SET KITS

- Includes a black trap door (unless noted), all gears, mainshaft, countershaft, shifter drum, detent components, bearings, snap rings, gaskets and hardware
- Significantly smoother shifting than stock due to a roller detent shift drum with reduced inertia and gear dogteeth with lead-in ramping
- Gear ratio of 2,94 and 0,86 6th gear available
- Available in black or polished
- Fits into stock and most aftermarket 5-speed transmission cases

NOTE: Exhaust bracket may require modification when using these kits.

75	3398	2923	475
80	3625	3118	507

6-SPEED OVERDRIVE SUPER KIT

- Designed to turn stock 5-speed transmission into a 6-speed
- Reduces vibration that creates wear
- Creates a more relaxing cruising speed
- All gear sets use 2,94:1 close-ratio 1st gear that widens bike's speed range in 1st gear and lessens the rpm drop when shifting into second
- Overdrive 6th gear (0,86:1 ratio) lowers engine rpm by almost 475 at 75 mph

NOTE: Requires speedometer sensor block-off plate kit (PART #2404-0114; see ELECTRICAL section); if speedometer is not driven from transmission then two block-off plates kits are required.

NOTE: Requires speedometer be recalibrated.

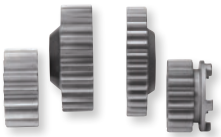
NOTE: Trap door extends 3/8" farther to the right than stock part. Alteration to some parts that attach to or around the trap door may be required.

PART #	DESCRIPTION
1103-0008	For 99 FXST/FLST/FXR, 91-98 FXD/FXDWG

All part numbers in BLUE are new for the OldBook.

JIMS
Performance Parts for Harley-Davidson Motorcycles

FAT 5™ 5-SPEED OVERDRIVE SUPER KIT



Fat 5™ gears

Standard gears

- Gear cluster is installed into a unique chrome trap door
- Designed to slip into stock transmission case
- 0.886:1 "overdrive" 5th gear
- Compact shifter technology increases width and strength of every gear
- Width increase varies from 18% to 53% depending upon the loads each gear set must carry

NOTE: Modifications to exhaust bracket may be necessary.

PART #	DESCRIPTION
1103-0010	For 91-98 FLT/FLHT/FLHR/FLTR, 90-99 FXST/FLST/FXR, 91-98 FXD/FXDWG

ANDREWS

5-SPEED GEAR SETS

DS-194515

- Gears are made from high-nickel alloy steel that is heat-treated and shot-peened for maximum durability and strength
- Where applicable, drive dogs have milled lead-in ramps to improve shifting and reduce wear
- Set includes gears, mainshaft and countershaft
- For ease of installation use transmission rebuild kits PART #s DS-325781, DS-325780 and DS-325779
- Available in stock and close ratio

PART #	DESCRIPTION
CLOSE RATIO SETS (2,94:1 FIRST RATIO)	
DS-194507	For 91-99 Evolution Big Twin
DS-194515	For 85-89 Evolution Big Twin

PART #	DESCRIPTION
STOCK RATIO SET (3,24:1 FIRST RATIO)	
DS-194508	For 91-99 Evolution Big Twin

ANDREWS

4-SPEED GEAR SETS

DS-194499

- Gears are made from high-nickel alloy steel, heat-treated and shot-peened to give maximum durability and strength
- Where applicable, drive dogs have milled lead-in ramps to improve shifting and reduce wear
- Sets include gears, shifter dogs and shifter forks
- Mainshaft, countershaft, bushings, bearings, snap rings, gaskets and lock washers must be ordered separately
- Available in stock or close ratio

PART #	DESCRIPTION
CLOSE RATIO SETS (2,44:1 FIRST GEAR/1,35:1 THIRD GEAR RATIO)	
DS-194498	For 77-E84 Big Twin
DS-194499	For 36-76 Big Twin
STOCK RATIO SETS (2,60:1 FIRST GEAR/1,23:1 THIRD GEAR RATIO)	
DS-194497	For 77-E84 Big Twin
DS-194500	For 36-76 Big Twin

PART #	DESCRIPTION
STOCK RATIO SETS (2,60:1 FIRST GEAR/1,23:1 THIRD GEAR RATIO), NO SHAFTS	
DS-194512	For 73-78 XL

MOTOR TRIKE INCORPORATED

MECHANICAL REVERSE KIT WITH ELECTRONIC CUT-OFF SWITCH

- Makes parking anywhere possible
- Constructed from lightweight aluminum, chromed and zinc-plated
- Equipped with an electronic cut-off switch to protect transmission from operator error
- No exhaust modification needed when used with OEM exhaust
- Does not affect forward gear operations
- Clutch-operated, eliminating any strain on the electrical system
- Plug-and-play harness, all installation tools and instructions included

PART #	DESCRIPTION
1103-0026	For 91-98 FLT/FLHT (standard clutch)

REPLACEMENT BEARINGS AND COMPONENTS FOR 5-SPEED BIG TWIN

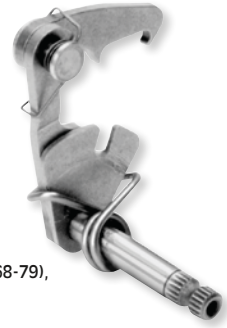
- Sold individually

PART #	DESCRIPTION
1106-0238	Countershaft bearing (closed end) for 80-99 Big Twin
1106-0239	Mainshaft/countershaft split-cage needle bearing (open end) for 80-99 Big Twin
1106-0240	Main drive gear needle bearing (open end) for 91-99 Big Twin
1106-0241	Main drive gear roller ball bearing for 85-99 Big Twin
1106-0242	Pulley/sprocket spacer seal for 94-99 Big Twin and XL
1106-0243	Transmission door bearing for 99 Big Twin

ANTI-OVERSHIFT RATCHET SHIFT PAWL ASSEMBLY

- Features a rectangular cross-section shifter-shaft spring
- Shift-shaft lever splines are hobbed on gear cutter just like Baker gears
- With this setup, there will be smoother shifts and no more broken shifter-shaft springs

PART #	DESCRIPTION
1110-0015	For 80-99 Evolution Big Twin 5-speed transmissions



5-SPEED SHIFTING ASSEMBLY

- Reduces shifter free play
- Assembly includes plate (replaces OEM #35068-79), spring (#34087-79), pawl plate (#34086-79), shifter shaft (#34084-86), spring (#34083-79), pin (#34082-79), washer (#6016) and retaining ring (#11016)

PART #	DESCRIPTION
DS194066	For 84-99 Evolution Big Twin 5-speed

1106-0087

1106-0086

SHIFTER LEVER SHAFT

- Meets or exceeds OEM standards
- Includes the ball
- Sold each

PART #	DESCRIPTION
1106-0087	For 77-85 XL; repl. OEM #34628-75

PART #	DESCRIPTION
1106-0086	For 54-74 XL; repl. OEM #34628-54A

1106-0049

1106-0048

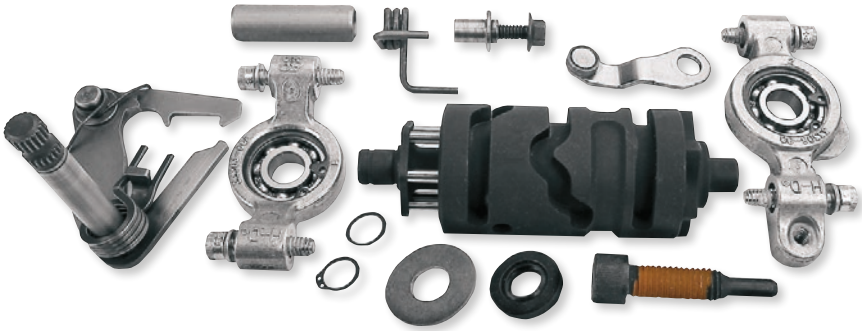
Performance Parts for Harley-Davidson Motorcycles

5-SPEED SHIFTER UPGRADE KIT

- Upgrades early-model 5-speed Big Twin with the latest technology
- Includes newly designed shift drum and lever assembly with built-in anti-overshift, late-model pillow blocks, case shifter shaft sleeve bushing, hardware and instructions
- To install shifter sleeve, use PART #3802-0008

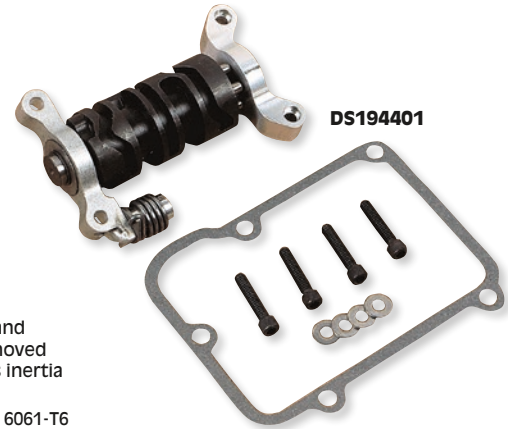


PART #	DESCRIPTION
1110-0043	For 86-99 FXST, 91-98 Dyna, 84-98 FLT/FLHT/FLHR/FLTR

BAKER DRIVETRAIN
Delivering American power to the pavement

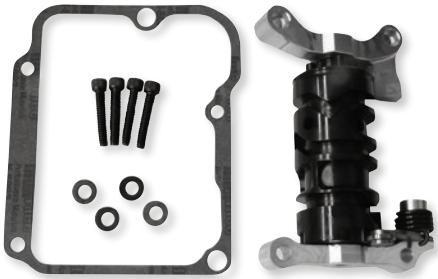
SHIFTER DRUM KIT

- Shifter drum grooves have been designed for smoother shifting and unneeded material has been removed from the barrel of the drum (less inertia translates to lower shift effort)
- Pillow blocks are machined from 6061-T6 extrusion stock for superior strength



DS194401

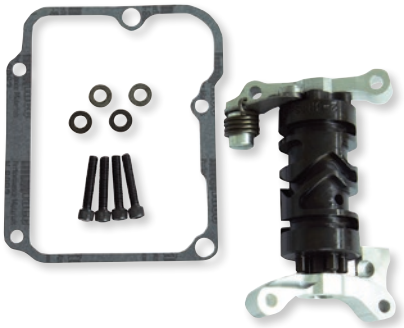
PART #	DESCRIPTION
DS194401	For all 98-00 Evolution Big Twin (except 00 FXST/FLST)



1110-0111

PART #	DESCRIPTION
1110-0111[1]	For 98-00 FLT/FLHT/FLHR/FLTR, 98-99 Softail

[1] Kit includes a neutral switch.

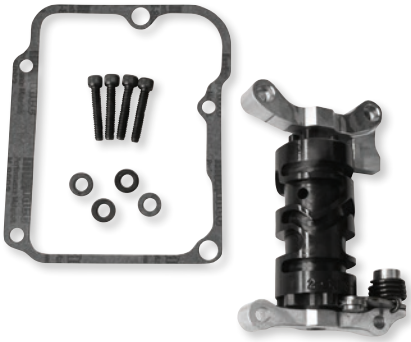


BAKER DRIVETRAIN
Delivering American power to the pavement

5-SPEED N1 SHIFT KIT

- N1 shift pattern was designed to prevent false neutrals during aggressive 1-2 upshifts by positioning neutral under 1st
- Popular choice for jockey shift/foot clutch users
- N1 drum used in conjunction with an electric shifter makes finding neutral (with the solenoid) seamless and yields a solenoid-actuated shift system that almost makes foot shifting obsolete
- For 5-speed transmissions
- Includes drum, pillow blocks, top cover gasket and fasteners

PART #	DESCRIPTION
1110-0101	For 80-97 FLH/FLT/FLHT/FLHR, Dyna, Softail and 00 FLT/FLHT/FLHR/FLTR



BAKER DRIVETRAIN
Delivering American power to the pavement

N1 SHIFTER DRUM KIT

- N1 shift pattern (neutral-1-2-3-4-5) was designed to prevent false neutrals during aggressive 1-2 upshifts by positioning neutral under 1st
- Popular choice for jockey shift/foot clutch users
- N1 drum used in conjunction with an electric shifter makes finding neutral (with the solenoid) seamless and yields a solenoid-actuated shift system that almost makes foot shifting obsolete
- For 5-speed transmissions

PART #	DESCRIPTION
1110-0113	For 98 FLT/FLHT/FLHR/FLTR, 98-99 Softail

BAKER DRIVETRAIN
Delivering American power to the pavement

5-SPEED SHIFTER FORKS

- Machined from billet steel and then hard chromed
- Cross section is three times thicker than stock forks
- Sold as a set (three shifter forks)

PART #	DESCRIPTION
DS-194173	For 80-99 Big Twin; repl. OEM #s 34191-79E, 34193-79E and 34195-79E

All part numbers in BLUE are new for the OldBook.

DS-194200

SHIFTER FORKS

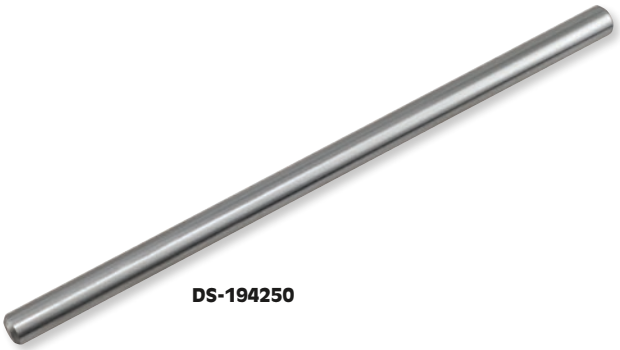
- Sold each

PART #	DESCRIPTION
FOR 36-86 BIG TWIN 4-SPEED	
DS-194200	Mainshaft shifter fork; repl. OEM #34158-36
DS-194210	Countershaft shifter fork; repl. OEM #34159-36

XL SHIFT FORK

- Available in standard dimensions
- Sold individually

PART #	DESCRIPTION	OEM #
7808-1001	For 85-85 XL, std.	34291-52B



DS-194250

SHIFT FORK SHAFT

- Available as shaft only or as a complete kit
- Kit contains shift shaft, O-ring (repl. OEM #34036-80) and retaining ring (repl. OEM #34062-52) for a complete repair

PART #	DESCRIPTION
DS-194250	Shaft for 87-99 Evolution Big Twin 5-speed; repl. OEM #34088-87
DS-194251	Shaft kit for 36-86 Big Twin 4-speed; repl. OEM #34186-76

SHIFTER FORK SHAFT

- Replacing this component makes shifting faster and more accurate

PART #	DESCRIPTION
DS-194214	For 36-79 Big Twin; repl. OEM #34140-36

SHIFTER FINGER

- Sold each

PART #	DESCRIPTION
DS-193147	For 41-E76 Big Twin; repl. OEM #34165-36

SHIFTER ROLLER FINGERS FOR 4-SPEED TRANSMISSIONS

- Manufactured from high-quality steel material for durability and strength
- Sold in 10-packs

PART #	DESCRIPTION
DS-193145	For L79-86 Big Twin, 54-85 XL; repl. OEM #34168-52
DS-193146	For 41-E79 Big Twin; repl. OEM #34168-39

SHIFTER FORK SHIMS

- Sold in 10-pack

PART #	DESCRIPTION
1106-0022	For 36-86 Big Twin 4-speed, 0,015"; repl. OEM #6752

SHIFTER CAM THRUST WASHER SET FOR 5-SPEED

- Set includes one of each of these eight sizes:
- 0,017" thick; repl. OEM #33205-80
- 0,020" thick; repl. OEM #33206-80
- 0,022" thick; repl. OEM #33207-80
- 0,025" thick; repl. OEM #33208-80
- 0,028" thick; repl. OEM #33209-80
- 0,031" thick; repl. OEM #33210-80
- 0,035" thick; repl. OEM #33211-80
- 0,040" thick; repl. OEM #33212-80

PART #	DESCRIPTION
1106-0035	For 80-99 Big Twin

All part numbers in BLUE are new for the OldBook.

DRAG Specialties

SHIFTER CAM FOLLOWER

- Quality steel, stronger than the aluminum OEM follower

PART #	DESCRIPTION
DS-194225	For L84-85 XL; repl. OEM #34063-84B

PROVEN S&S PERFORMANCE

SHIFT LEVER ADJUSTMENT SCREW

- OE or better quality

PART #	DESCRIPTION
2404-0817	For 80-99 Big Twin 5-speed; repl. OEM #33119-79B

JIMS Performance Parts for Harley-Davidson Motorcycles

SHIFTER ARM ADJUSTING SCREW

- High-quality OEM replacement component
- Sold each

PART #	DESCRIPTION
DS194067	For 80-99 Big Twin 5-speeds; repl. OEM #33119-79A/B

Eastern M C Parts

SHIFTER ARM ADJUSTING SCREW

- High-quality OEM replacement component
- Sold each

PART #	DESCRIPTION
1110-0044	For 80-99 Big Twin 5-speed; repl. OEM #33119-79A/B (OB)

JIMS Performance Parts for Harley-Davidson Motorcycles

SHIFTER SHAFT BUSHINGS

- High-quality replacement bushings
- Sold in packs of two

PART #	DESCRIPTION
DS-194253	For 77-85 XL (inner only); repl. OEM #40520-63

DRAG Specialties

1602-1300 1602-1301

SHIFTER SHAFT SPACERS

- Properly space the shaft of your shift lever away from your bike
- Chrome or gloss finish OEM-style components
- Sold each

PART #	DESCRIPTION
1602-1300	Chrome
1602-1301	Gloss black

DS-194397

Eastern M C Parts

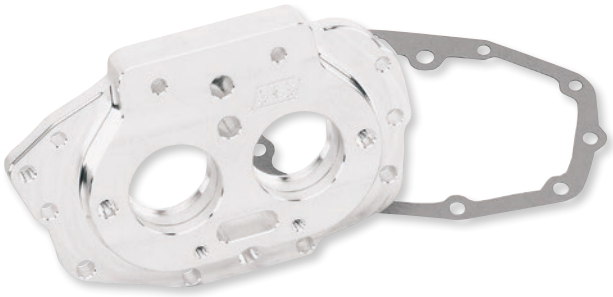
TRANSMISSION LOCK TAB WASHERS AND SNAP RINGS

- During transmission work, replace the lock tab washers and snap rings
- Fit a variety of applications; sold in 10-pack

DS-188018

PART #	DESCRIPTION
LOCK TAB WASHERS	
DS-194397	Inner primary, 85-99 Evolution Big Twin; repl. OEM #33318-85
0950-0417	Mainshaft, 36-86 Big Twin 4-sp.; repl. OEM #35050-40
0950-0412	Shift fork, 36-79 Big Twin 4-sp.; repl. OEM #34180-33
SNAP RINGS	
DS-188057	Access door C/S, 94-98 Big Twin 5-speed; repl. OEM #35021-89
DS-188023	Shifter cam 5-speed, 80-99 Big Twin; repl. OEM #11083
DS-188018	Shifter fork shaft, 66-86 Big Twin, 72-85 XL; repl. OEM #11036

All part numbers in BLUE are new for the OldBook.



TRANSMISSION CASE TRAP DOOR KIT

- Billet construction
- Kit includes bearings and hardware

PART #	DESCRIPTION
56-1027	For 86-99 Evolution-style S&S transmission cases or stock application

TRANSMISSION TRAP DOOR

- Billet construction

PART #	DESCRIPTION
1105-0229	For 86-99 Softail w/ 5-speed transmission

TRANSMISSION DOOR BEARINGS

- Sold in pairs

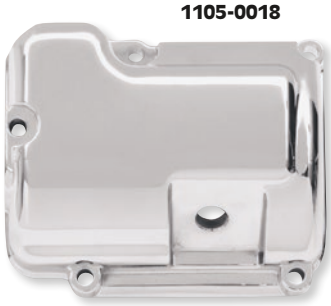
PART #	DESCRIPTION
DS-197063	For 80-98 Big Twin 5-speeds; repl. OEM #8998

TRANSMISSION DOOR BEARING

- High-quality replacement OEM component
- Sold each

PART #	DESCRIPTION
1106-0070	For 99 Softail; repl. OEM #8992A

1105-0018



1105-0241

TRANSMISSION TOP COVERS

- Beautifully complement your other chrome or flat black engine and transmission pieces

PART #	DESCRIPTION
FOR 98 FLHT/FLHR/FLTR, 98-99 SOFTAIL; REPL. OEM #S 34468-98, 34464-98, 34541-00 OR 34549-01	
1105-0018	Chrome
1105-0241	Black

PART #	DESCRIPTION
FOR MOST 87-99 EVOLUTION BIG TWIN W/ 5-SPEED TRANSMISSION (EXCEPT DYNA); REPL. OEM #S 34468-86A OR 34464-86A	
DS-325530	Chrome

DS-325519

1107-0355

TRANSMISSION SIDE COVERS

- Made from die-cast zinc
- Mount with existing hardware

NOTE: Not for use with hydraulic clutch.

PART #	DESCRIPTION
FOR 87-98 FLT/FXD/FXDWG, 87-99 FXST/FLST	
DS-325519	Chrome; repl. OEM #37105-87A

PART #	DESCRIPTION
FOR 87-98 FLT/FXD/FXDWG, 87-99 FXST/FLST (CONT)	
1107-0355	Satin black

All part numbers in BLUE are new for the OldBook.

KURYAKYN

OIL FILLER SPOUT COVER

- Adds a chrome highlight to the area around the oil filler neck
- Die-cast construction
- Compatible with H-D transmission interface covers

PART #	DESCRIPTION
0940-0592	For 93-98 Dresser and Road King

DRAG Specialties

TRANSMISSION OIL DIPSTICK

- One-piece construction with a chrome finish
- Indicates the fill level of the transmission fluid
- Sold each

PART #	DESCRIPTION
1105-0146	For 87-99 Evolution Big Twin; repl. OEM #s 37071-87, 37075-87

GARDNER WESTCOTT

TRANSMISSION OIL FILL PLUG/DIPSTICK FOR 5-SPEED BIG TWIN

- Show-chromed Allen-head plug includes oil level dipstick and O-ring

PART #	DESCRIPTION
DS-193860	For all 87-99 Evolution Big Twin; repl. OEM #s 37071-87 and 37075-87

DRAG Specialties

CHROME TRANSMISSION MOUNTING PLATE

PART #	DESCRIPTION
DS-243621	For 86-99 5-speed Softail; repl. OEM #47698-86B

1105-0011

1105-0013

PAUGHCO

TRANSMISSION MOUNTING PLATES

- Heavy-duty construction
- Easy bolt-in application
- Steel construction; chrome finish

PART #	DESCRIPTION
1105-0011	For Paughco rigid and swingarm 4-speed frames; repl. OEM #s 47968-36/47698-65
1105-0012	For Paughco Easyride or stock Softail when using 4-speed transmission
1105-0013	For Paughco 4-speed rigid frame when using Softail 5-speed transmission

Colony Where Excellence Is a Standard

DS-196008	Kickstarter shaft	For 57-76 XL; repl. OEM #33094-57
DS-196007	Starter gear	For 57-76 XL; repl. OEM #33348-57
DS-194124	Kickstarter shaft bushing	For 54-E79 XL/XLH/XLCH/KH; repl. OEM #33099-52A

1105-0041

1112-0032

HEAVY-DUTY KICKER COVER KIT

- Includes chrome kick cover, clutch release shaft, clutch release finger and mounting hardware
- Installs with included socket-head bolts that replace the existing studs

PART #	DESCRIPTION
1105-0041	For 66-86 Big Twin 4-speed

PART #	DESCRIPTION
1112-0032	Clutch release shaft and finger kit for 36-86 Big Twin 4-speed

KICKER COVER

- Close to original as you can get without stealing one from a factory museum bike
- Boss imperfections in the casting are meticulously duplicated to represent the casting capabilities of the era
- 100% CNC machined to achieve quality S&S standards
- Inside of the covers are beefed up around the kicker boss and uses a single kicker shaft bushing for complete oiling and additional strength and stability
- Cover is clearanced for the use of a large throw-out bearing and the kicker shaft bushing
- Clutch arm bushings are precision reamed and ready for install
- Accept stock hardware and filler plug
- Include a gasket so they are ready to install

PART #	DESCRIPTION
1107-0498	For 40-86 4-speed Big Twin (no number or date code); repl. OEM #s 33277-36, 33277-36A

TRANSMISSION KICKER COVER NUT KIT

- Kits include (9) nuts, OEM #7753; (9) flat washers, OEM #6316W; (1) nut, OEM #7837W and (1) washer, OEM #7039
- Available in a chrome finish

PART #	DESCRIPTION
2401-0612	For 36-84 Big Twin

All part numbers in BLUE are new for the OldBook.

KICKSTARTER SHAFT

- High-quality steel replacement shaft
- Machined for an exact fit

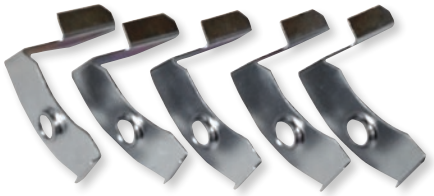
PART #	DESCRIPTION
DS-196010	For 54-86 Big Twin 4-speed; repl. OEM #33096-54B

DS-196011

KICKSTARTER SHAFTS

- Precision-machined replacement shaft
- PART #DS-196012 is extended 0,750" to allow more space between kicker arm and exhaust; keeps exhaust from getting scuffed

PART #	DESCRIPTION
FOR 36-86 BIG TWIN (4-SPEED)	
DS-196011	Kick starter shaft; repl. OEM #33096-54B
DS-196012	Extended kick starter shaft (+0,750"); repl. OEM #33096-54B



STARTER GEAR OIL DEFLECTOR

- Sold in 5-packs

PART #	DESCRIPTION
1112-0036	For 39-79 Big Twin; repl. OEM #33429-39

RIVETS FOR KICKSTART RATCHET PLATE

- Sold in 12-packs

PART #	DESCRIPTION
1112-0040	For 54-70 XL ($^{13}/_{16}$" L); repl. OEM #8215

KICKSTARTER BUSHING

PART #	DESCRIPTION
DS-197075	For L37-86 4-speed Big Twin; repl. OEM #33288-37

KICKSTARTER BUSHINGS

- Sold each

DS-325382

1112-0068

PART #	DESCRIPTION	MFG.
DS-325382	Kickstarter crank bushing kit for L37-86 Big Twin 4-speed; includes O-ring (repl. OEM #11101) and bushings (repl. OEM #33288-37)	Drag Specialties
1112-0068	Kickstarter ratchet gear bushing for 31-69 Big Twin; repl. OEM #33438-50	Eastern MC Parts

STROKER KICKER ARM

- Forged, chrome-plated arm is 10$^{1}/_{4}$" long overall, and includes pinch bolt

NOTE: Please note location of pinch bolt; this kicker arm will only work on kickstart shafts that feature a pinch bolt groove machined completely around the shaft.

PART #	DESCRIPTION
DS-241013	For all 36-76 Big Twin 4-speed (will also fit 77-84 Big Twin if a round or old-style kick pedal is used)

FORGED KICKER ARM

- Chromed forged steel kicker arm is built to meet or exceed OEM specifications

PART #	DESCRIPTION
DS-241003	For all 36-76 Big Twin, 57-76 XL (will also fit 77-84 Big Twin if a round or old-style kick pedal is used)

All part numbers in BLUE are new for the OldBook.

KICK ARM

- 304 stainless steel cast straight arm; provides positive kicking motion
- Available in standard length
- Flush-mount stainless steel "head" fastener
- Complete with all stainless steel hardware needed

PART #	DESCRIPTION
1112-0024	For Baker 4-speed, 5-speed, 6-speed, Frankentranny and 6-into-4 transmissions with kicker

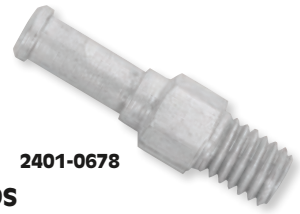
KICK RETURN SPRINGS

DS-241005

- Exact replacement
- High-quality construction
- Available in a chrome finish

PART #	DESCRIPTION
DS-241005	For 36-86 Big Twin; repl. OEM #33085-36
DS-241006	For 57-79 XL; repl. OEM #33084-41

KICKSTARTER SPRING STUDS

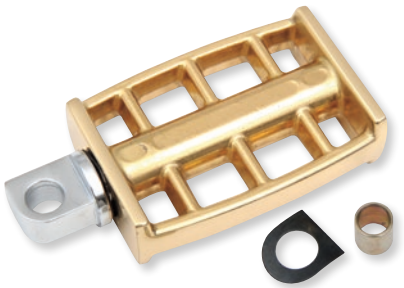


2401-0678

- Quality reproduction of the original part
- Available in chrome or cadmium finish

PART #	DESCRIPTION
2401-0679	For 71-78 XL chrome; repl. OEM #33088-71
2401-0678	For 52-70 XL cadmium; repl. OEM #33088-52

KICKSTARTER PEDAL



- Features a heavy-duty construction made from brass with a steel liner core
- Available in polished brass
- Includes bushing and clip
- Sold each

PART #	DESCRIPTION
1112-0031	For all 36-76 Big Twin kickstart, 77-86 Big Twin kickstart w/ early-style kicker arm, 57-76 XL

RAIL KICK PEDAL WITH SWIVEL

- Rail design matches our other rail accessories
- Includes the pedal bushing and spring washer

PART #	DESCRIPTION
DS-241055	For all 36-76 Big Twin kickstart models, 77-86 Big Twin kickstart models w/ early-style kicker arm and 57-76 XL

BICYCLE-STYLE KICK PEDAL

- Flat reinforced pedal
- Includes swivel

PART #	DESCRIPTION
DS-241049	For all 36-86 Big Twin kickstart models w/ early-style kicker arm and 57-76 XL

KICK PEDAL WITH SWIVEL

- Wide pedal features a brilliantly chromed swivel

PART #	DESCRIPTION
DS-241001	For all 36-76 Big Twin kickstart models, 77-86 Big Twin kickstart models w/ early-style kicker arm and 57-76 XL; repl. OEM #33175-16A

RUBBER FOR KICK PEDAL

- Quality OEM replacement
- Sold each

1107-0038	For 89-93 Softail

All part numbers in BLUE are new for the OldBook.

KURYAKYN

INNER PRIMARY FRONT COVER EXTENSION

- Puts the finishing touch on your primary
- Covers the shift pivot area and grease fitting
- Easily installed

PART #	DESCRIPTION
0950-0198	For 90-98 FLT/FLHT/FLHR/FLHS

KURYAKYN

DELUXE CHROME INNER PRIMARY COVER ACCENTS

- High-quality, chrome-plated, die-cast
- Precise fit and finished edges enhance the primary area
- Four mounting points for secure, quiet operation

NOTE: Not for use with rear suspension lowering kits.

PART #	DESCRIPTION
DS-375804	For 90-98 FLT/FLHT/FLHR/FLTR (grooved)
DS-375801	For 89-99 Softail (except FLSTS)

INNER PRIMARY SPACERS

- Fit between the inner primary and motor
- Used with fat tire/wide frame applications
- Polished finish

2214-5003

FOR MOST 84-99 EVOLUTION BIG TWIN PRIMARIES

PART #	DESCRIPTION	PART #	DESCRIPTION
2214-5001	1/4" spacer	2214-5003	3/4" spacer

1913-3012	For 94-99 FXST/FLST	1913-3009	For 80-85 Big Twin (4-speed)

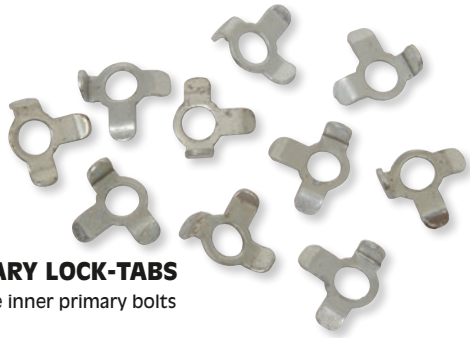
Genuine JAMES GASKETS

INNER PRIMARY LOCK-TABS

- Lock-tabs designed for use on inner primary bolts
- Sold in 10 pk.

PART #	DESCRIPTION
1132-0396	For 85-99 Evolution Big Twin; repl. OEM #33318-85

Eastern M C Parts



INNER PRIMARY LOCK-TABS

- Lock-tabs secure inner primary bolts
- Sold in 10-pack

PART #	DESCRIPTION
DS-194397	For 85-99 Big Twin; repl. OEM #33318-85

All part numbers in BLUE are new for the OldBook.

DRAG Specialties

INNER PRIMARY MAINSHAFT BEARING/SEAL KIT

- Includes pinion seal, main shaft seal, bearing snap rings, inner bearing race and bearing
- Fits OEM and most aftermarket inner primaries
- Includes OEM #s 12066, 12053, 12052, 60678-85 (2) and 34091-06, 9135

PART #	DESCRIPTION
1120-0162	For 89-99 Evolution Big Twin

DRAG Specialties

INNER PRIMARY MAINSHAFT BEARING/SEAL KIT

- Kit includes sealed ball bearing, seal and snap ring
- Designed for use on straight splined shafts only
- Designed for stock-style clutches only

PART #	DESCRIPTION
1120-0217	For 91-99 Evolution Big Twin

DRAG Specialties

INNER PRIMARY MAINSHAFT BEARING

- High-quality roller bearing comes with two retainer rings
- Fits OEM and most aftermarket aluminum inner primaries

PART #	DESCRIPTION
1132-0005	For 85-99 Evolution Big Twin; repl. OEM #s 9135, 60678-85

JIMS Performance Parts for Harley-Davidson Motorcycles

PRIMARY BEARING UPGRADE KIT

1120-0242

- Double-row ball bearing with seal and retaining ring kit
- Perfect for an open primary system or for added durability in a high-output system

PART #	DESCRIPTION
1120-0242	For 90-99 FXST, 90-98 FLHT/FLHR/FLHX/FLTR, 91-98 FXD and any 5-speed that uses OEM bearing #9135
1120-0414	Repl. inner primary bearing seal

BAKER DRIVETRAIN Delivering American power to the pavement

HIGH TORQUE BEARING/SEAL KIT

1110-0018

- Replaces the two-piece bearing and seal in the inner primary
- A must for large-horsepower motors that have the problem of the race moving in or out
- Great for belt drive primary conversions
- Replacement seal available separately

PART #	DESCRIPTION
1110-0018	For 85-99 Evolution Big Twin; repl. OEM #34091-85 inner race, 9135 bearing and 12052 seal
1104-0003	Repl. seal

DRAG Specialties

INNER PRIMARY COVER MAINSHAFT BEARING

- Sealed ball bearing fits into aluminum inner primary covers to support transmission mainshaft
- Sold individually

PART #	DESCRIPTION
1120-0177	For 65-86 Big Twin; repl. OEM #s 9061 and 9040

Eastern M C Parts

INNER PRIMARY MAINSHAFT BEARING

- High-quality replacement component
- Fits OEM and most aftermarket inner primaries
- Sold each

PART #	DESCRIPTION

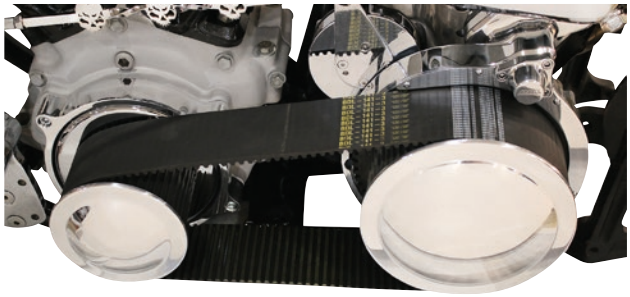
3" SHORTY BELT DRIVE KITS

- Designed for electric start applications
- Available with or without a 90 to 06-style starter
- Kit includes 141-tooth drive belt, motor plate, clutch hub, starter pinion gear assembly, compete set of clutch plates, ball-bearing pressure plate and hardware
- Rear 72/front 47 pulley combination

NOTE: Not for rotary top transmissions.



PART #	DESCRIPTION
FOR 70-78 BIG TWIN WITH ELECTRIC STARTER	
1120-0417	W/o starter

2" OPEN BELT DRIVE KITS

- Ball-bearing lockup clutch provides approximately 60% more surface contact area than the stock clutch for smooth, sure power transfer
- Kits include motor plate, starter standoff, ring gear guard, pinion gear kit, 52T front pulley, rear pulley with 69-tooth 2" clutch basket, ring gear, lockup clutch and 132T drive belt

NOTE: Requires the use of a 90-06 style starter motor.

1120-0212

1120-0228

FOR 70-78 BIG TWIN (CONT)	
1120-0228	Black

2" BELT DRIVE KITS

- Include BDL's ball-bearing lockup clutch, new full-coverage side guard and top mesh belt guard
- Kits also include motor plate and a 132-tooth belt
- 2" drive width allows for the use of stock floorboards

PART #	DESCRIPTION
FOR 90-98 FLHT/FLHR/FLTR, 90-94 FXR	
1120-0232	Black

1120-0226

1120-0227

2" OPEN BELT DRIVE KITS

- BDL's ball-bearing lockup clutch with ring gear provides ease of shifting and positive clutch engagement
- New streamlined baseplate provides a unique look
- Kits include a 142-tooth drive belt, motor plate, starter housing and guard, standoffs, side guard and rear pulley cover with hardware

PART #	DESCRIPTION
FOR 90-99 FXST/FLST	
1120-0226	Polished

PART #	DESCRIPTION
FOR 90-99 FXST/FLST (CONT)	
1120-0227	Black

All part numbers in BLUE are new for the OldBook.

SS-2 2" BELT DRIVE KIT

- Beautiful styling and awesome performance
- 2" drive features a one-piece billet motor plate
- Clutch design eliminates clutch dogs and features an internal mill-cut basket to drive the clutch
- Ball-bearing lockup clutch (patent pending) offers 30% more contact surface than our 3" drives

PART #	DESCRIPTION
1120-0082	For 90-99 FXST/FLST

2" "SHORTY" BELT DRIVE

- Designed for electric start applications (use 90-06 style starter)
- Kit includes starter housing, BDL ball-bearing lockup clutch assembly with ring gear, starter gear cover, rear pulley cover, front pulley and belt

PART #	DESCRIPTION
1120-0213	For 70-78 Big Twin

14 MM x 85 MM (3 3/8") MONSTER TOP FUEL BELT DRIVE KITS WITH CLUTCH

- Kits include front and rear pulley, 3 3/8" belt, nine friction plates and 11 steel clutch plates; use up to nine springs for varying pressure to accommodate any motor size
- Include oil filter mount between the pulleys
- Polished outboard bearing support; outboard support is reversible and the back side is channeled for another distinct look, but only the flat side is polished
- Replacement components available separately; see pages 350-351

NOTE: Systems are not designed for use with floorboards.

PART #	DESCRIPTION
FOR 90-99 FXST/FLST	
DS360190	W/ side guard

8 MM BELT DRIVE KIT WITH OUTBOARD SUPPORT PLATE

- 3" belt drive kit includes outboard bearing support for rear shaft
- Similar design to BDL's "Top Fuel"-style belt kits
- Includes clutch assembly
- Includes ball-bearing lockup design clutch pressure plate
- Outer support plate is polished 6061 aluminum
- Accepts any 90-06 Big Twin-style starter
- Replacement components available separately; see pages 350-351

NOTE: System is not designed for use with floorboards.

PART #	DESCRIPTION
1120-0255	For 90-99 FXST/FLST

8 MM BELT DRIVES WITH QUIET CLUTCH SYSTEM

- 1 1/2" and 1 5/8" kits include front pulley, belt, clutch hub, clutch basket and clutch set (consists of two half plates, four full plates and five steel drive plates)
- Direct bolt-in applications
- All systems now come with the Quiet Clutch system
- Precision-machined, polished aluminum pressure plate uses nine springs and shoulder bolts to ensure even spring pressure (included in kit)
- Rear pulley has a 40 mm, double-row bearing with an inner stress-proof steel clutch hub to support the clutch

NOTE: 3" system is not designed for use with floorboards.

NOTE: Not for use with offset primaries.

PART #	DESCRIPTION
1 5/8" SYSTEMS	
1120-0253	For 79-83 Big Twin w/ rear chain drive (5-speed)
1 1/2" SYSTEM	
1120-0248	For 70-83 Big Twin w/ rear chain drive (4-speed)

1120-0248

PART #	DESCRIPTION
3" KICK START SYSTEM	
2302-1263	For 55-E84 custom Big Twin

All part numbers in BLUE are new for the OldBook.

1120-0247

8 MM BELT DRIVES WITH LOCKUP CLUTCH

- 1 5/8" kits include front pulley, belt, clutch hub, clutch basket and clutch set (consists of two half plates, four full plates and five steel drive plates)
- Direct bolt-in applications
- 3" electric start kits include front pulley, belt, clutch hub and clutch basket and clutch set (consists of two half plates, four full plates and five steel drive plates), 6061-T6 billet motor plate, outside guard and polished pulley cover
- All systems come with the Quiet Clutch and ball-bearing lockup design pressure plate

PART #	DESCRIPTION
1 5/8" SYSTEMS	
1120-0247	For 90-99 FXST/FLST and 94-98 Dyna
3" ELECTRIC START SYSTEMS	
1120-0251	For 90-99 FXST/FLST

1120-0252

- Lockup design applies extra pressure to the clutch plates for positive engagement with no clutch slippage
- No increase in lever pull effort
- Rear pulley has a 40 mm, double-row bearing with an inner stress-proof steel clutch hub to support the clutch
- Replacement components available separately; see pages 350-351

NOTE: 3" systems are not designed for use with floorboards.

NOTE: Not for use with offset primaries.

PART #	DESCRIPTION
3" ELECTRIC START SYSTEMS (CONT)	
1120-0252[1]	For 86-89 FXST/FLST
1120-0245	For 91-98 Dyna

[1] Requires the use of a 90-06 style starter (sold separately).

8 MM AND 11 MM BELT DRIVES

- All 8 mm and 11 mm kits come with belt, clutch basket, front pulley, nut and washer
- 3" kit comes with a 52-piece roller bearing kit
- Pulley and clutch basket are hard anodized aluminum; front pulley is drilled and tapped for easy removal
- Inner clutch hub and plates are not included; must be purchased separately

NOTE: Not for use with offset primaries.

DS-360098

PART #	DESCRIPTION
8 MM 1 1/2" KITS	
DS-360098	For 79-E84 Big Twin electric start, except rear belt models (4-speed)
DS-360101	For 79-E84 Big Twin kick start (4-speed)

BDL REPLACEMENT COMPONENTS

- For use on BDL Belt Drive clutches

PART #	BDL #	DESCRIPTION
DS-191021	CDSB-100	Shoulder bolts, 3/8" x 1 1/4" (9 pk.)
DS-360154	ESB-100	Shoulder bolts, 3/8" x 1 1/2" (6 pk.)
1120-0101	SS-SB	Shoulder bolts, 3/8" x 3/4", 2" belt drive (4 pk.)
DS-360156	ECS-100	1,365" clutch springs, Top Fuel/Quiet Drive clutch belt drives (6 pk.)
DS-360157	SG-1	66T starter ring gear 65-84 Big Twin w/ quiet clutch (7 3/8" ID)
DS-360159	SG-2PG	66T starter ring gear w/ 9T pinion gear 94-06 Big Twin
2110-0067	PG-100	9T starter pinion gear, 90-06 Big Twin (3 1/4" L)
1120-0057	PG-100A	+1" 9T starter pinion gear for 90-06 Big Twin
1120-0047	TFSH-100	Starter housing, 3 3/8" Top Fuel belt drives
DS-360173	EHB-100	40 mm double-row hub bearing (ea.)

PART #	BDL #	DESCRIPTION
1132-0172	EPP-100	Pressure plate, 3" belt drive
1131-2471	TFCPS-100	Complete repl. clutch pack
1131-2455	ERCPS-100	Complete clutch kit (fibers and steels) for EV, EVO, EVB belt drives
DS-360175	ECP-200	Friction clutch plate two-sided, inner splined (ea.)
DS-360177	EDP-200	Steel backing plate inner splined (ea.)
DS360400	EVRD-1	Round clutch dogs for Evolution 5-speed (12 pk.)
DS360407	CC-244	C-clip for hub bearing (ea.)
1120-0034	TFBSB-100	Outboard bearings
DS-360170	IBK-1	Repl. idler assembly for 11 mm, 1 1/2" kits
1120-0322	MPB-9	Motor plate bearing
1120-0321	CDAS-100A	Clutch adjusting screw w/ jam nut (ea.)

All part numbers in BLUE are new for the OldBook.

OFFSET FRONT PULLEYS AND SPACER INSERTS

- Used to offset motor pulley for belt alignment
- Spacer inserts are available in eight widths from 1/4" to 2" and include a motor sprocket nut and mounting screws
- Pulleys are for 3" systems and accept any of the spacer inserts listed
- Pulleys and spacer inserts sold separately

DS360422

MOTOR PULLEY LOCKING PLATE

- For use with BDL's standard, 3/4", 1", 1 1/4" or 1 1/2" offset insert kits
- Kit contains three 5/16"-18 x 1 1/2" sockethead cap screws, three 5/16" lock washers, three 5/8" OD spacers and locking plate

PART #	DESCRIPTION
1120-0235	Motor pulley locking plate

PRIMARY BELT COVER

- Billet aluminum construction with a chrome-plated finish
- Styled to match Belt Drives' popular Top Fuel belt drive cover
- Fits 3" open BDL belt drive systems with 3 1/2" x 4" motor plate bolt pattern

PART #	DESCRIPTION
1120-0049	Cover for BDL 3" primary

POLISHED DOMED PULLEY COVER KITS

- Include clutch basket cover, motor pulley cover, special tape and button-head bolts with template for permanent installation

PART #	DESCRIPTION
DS-191026	For 47-tooth motor shaft pulley and 72-tooth clutch basket (Evolution)

All part numbers in **BLUE** are new for the OldBook.

DS-191018

1120-0321

PRIMARY CHAIN DRIVE SYSTEMS WITH CLUTCH

- Kits include primary chain, front sprocket and nut, chain adjuster, clutch basket and clutch assembly with clutch plates
- Feature new-style clutch that eliminates grabbing and dragging

NOTE: PART #DS-191014 will not work with rear belt drive.

NOTE: PART #DS-191018 comes with a new starter pinion gear that must be used on the 94-98 applications.

PART #	DESCRIPTION
DS-191018	For 90-98 Softail, 91-98 Dyna
REPLACEMENT PARTS	
DS-191019	Repl. friction clutch plates (7 pk.)
REPLACEMENT PARTS (CONT)	
DS-191021	Shoulder bolts (9 pk.)
1120-0321	Clutch adjusting screw w/ jam nut (ea.)

PRIMARY DRIVE KITS

- Kits include compensating sprocket assembly, chain adjuster assembly and complete clutch assembly with aramid friction plates
- Primary chains sold separately

PART #	DESCRIPTION
1120-0076	For 98-99 Evolution Big Twin, 25/26T
1120-0077	For 94-97 Evolution Big Twin, 25/36T
1120-0078	For 90-93 Evolution Big Twin, 24/37T

1101-5002

COMPENSATOR SPROCKET KITS

- Three-piece patented design with no spring
- Weigh less than the stock sprocket

U.S. Patent # 6,234,909B1.

PART #	DESCRIPTION
FOR 70-89 BIG TWIN (EXCEPT FLT/FLHT/FLHR/FLTR)	
1101-5002	24-tooth compensator sprocket
FOR 90-99 BIG TWIN (EXCEPT FLT/FLHT/FLHR/FLTR, 99 FXD/FXDWG)	
1101-5001	25-tooth compensator sprocket

SOLID PRIMARY SPROCKET KIT

- Eliminates the need for a complete compensator assembly
- Includes 25-tooth sprocket, flat washer and front pulley/sprocket nut

PART #	DESCRIPTION
1120-0412	For 94-98 Big Twin w/ splined shaft

DS195196

COMPENSATING SPROCKET KITS

- Complete kits contain a high-quality sprocket, sprocket shaft extension, sliding cam, sprocket nut and cover with spring plate

PART #	DESCRIPTION
DS195196	For 94-99 Evolution Big Twin (25-tooth); repl. OEM #40308-94
DS195197	For 91-93 Big Twin (24-tooth); repl. OEM #40269-85
DS195198	For 84-90 Big Twin (24-tooth); repl. OEM #40275-83

COMPENSATING SPROCKET

- Replacement steel compensating sprockets
- Available 24-tooth style; both fit variable primary gear ratios

PART #	DESCRIPTION
DS-191011	For 70-86 Big Twin w/ primary chain drive (24-tooth); repl. OEM #40275-70

All part numbers in **BLUE** are new for the OldBook.

1120-0269

SPROCKET SHAFT EXTENSIONS

- High-quality OEM replacement component
- Sold each

PART #	DESCRIPTION
1120-0270	For 85-99 Big Twin 5-Speed; repl. OEM #40266-85
1120-0269	For L70-85 Big Twin 4-Speed; repl. OEM #40375-70

COMPENSATING SPROCKET SHAFT EXTENSIONS

- Hardened alloy steel extensions have been precision ground
- For use with OEM or most aftermarket compensating sprockets
- Used when offsetting transmission in wide tire applications

1120-0001

PART #	DESCRIPTION
FOR 91-99 BIG TWIN	
1120-0001	+1" extension (1 3/8" overall)
1120-0002	+1 3/8" extension (1 3/4" overall)

COMPENSATING SPROCKET NUTS

- For use on L70-99 Big Twin models
- Sold each

PART #	DESCRIPTION
2017-3461	For 91-99 Big Twin; repl. OEM #40392-91

2017-3461

2017-3462

PART #	DESCRIPTION
2017-3462	For L70-90 Big Twin; repl. OEM #40392-70

1120-0283

1120-0286

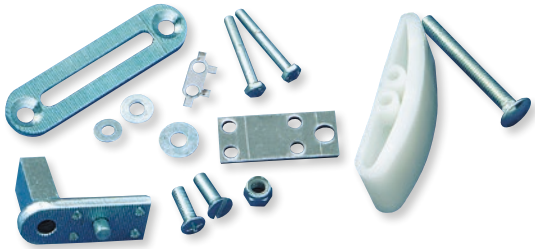
PRIMARY CHAINS

- Improved fatigue resistance
- Pre-loaded to reduce initial elongation
- Endless construction using high-quality raw materials for long life

PART #	SIZE	DESCRIPTION
1120-0282	428-2 x 76	For 80-98 FLT/FXR/FXRS/FXRT (5-speed); repl. OEM #40037-79A
1120-0283	428-2 x 82	For 84-99 FXST/FLST, 91-98 Dyna and 36-86 Big Twin (4-speed); repl. OEM #40007-36A/B
1120-0286	35-3 x 94	For 57-85 XL; repl. OEM #40005-57A/B

PRIMARY CHAIN ADJUSTER KIT

- Used for updating an old adjuster system or when building a new bike from the ground up
- Complete kit includes adjuster plate, bolts, shoe, brackets and hardware



PART #	DESCRIPTION
DS-181201	For 65-99 Big Twin (except Twin Cam); repl. OEM #s 39998-65, 39996-65, 39993-65, 39990-65, 39976-65B, 7778, 6703, 6400BH, 5444, 2614 and 1783

DS-192003

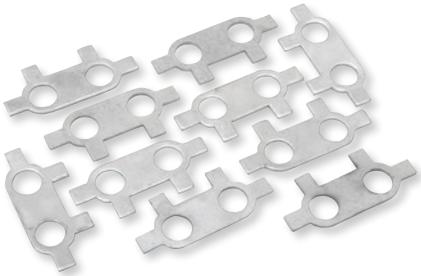
DS-192001

PRIMARY CHAIN ADJUSTING SHOES

- Replaces stock nylon shoe

PART #	DESCRIPTION
DS-192002	For 65-99 Big Twin (except Twin Cam); repl. OEM #s 39976-65 and 39976-65B
DS-192003	For L80-85 XL; repl. OEM #39966-80
DS-192001	For L58-E80 XL; repl. OEM #39978-58
DS-192004	For 54-76 K, XL (ea.); repl. OEM #39975-52B

Eastern M C Parts



PRIMARY CHAIN ADJUSTER PLATE LOCK TAB

- Sold in 10-pack

PART #	DESCRIPTION
1120-0189	For 65-99 Big Twin; repl. OEM #39996-65

All part numbers in BLUE are new for the OldBook.

DS223720

1131-0159

DS223723

SCORPION BILLET CLUTCHES

- CNC-machined billet aluminum design features over twice the friction area of the stock clutch
- Provides positive engagement and release
- Incorporates six heavy-duty coil springs instead of the diaphragm spring; includes an extra heavy-duty set of springs for higher horsepower applications
- Friction plates are compatible with most primary oil (48-E84 Big Twin and 71-E84 XL can run wet or dry)
- Simple bolt-on installation; requires the original clutch shell; no machining is necessary
- Kit includes clutch hub, drive plates, driven plates, (two) sets of clutch springs, pressure plate and necessary hardware
- Replacement fiber and steel clutch plates available separately

PART #	DESCRIPTION
FOR 98-99 EVOLUTION BIG TWIN	
DS223720[1]	Clutch
1131-0162	Repl. clutch plate set
FOR 90-97 BIG TWIN	
1131-0159	Repl. clutch plate set

PART #	DESCRIPTION
FOR 36-E84 BIG TWIN	
DS223723	Clutch

[1] Order Scorpion pressure plate PART #1131-0278 for use with hydraulic system OEM #s 45380-02, 45992-03.

1131-2446

REPLACEMENT PLATES FOR SCORPION LOW-PROFILE LOCK-UP CLUTCHES

- Set includes fiber and steel clutch plates

PART #	DESCRIPTION
1131-2446	For 98-99 Evolution Big Twin w/ mechanical clutch
1131-2446	For 90-97 Big Twin

REPLACEMENT CLUTCH PLATES FOR SCORPION LOCK-UP CLUTCH

- Can be run wet or dry
- Designed to fit in stock-type basket

PART #	DESCRIPTION
1131-0159	Repl. clutch plate set for 90-97 Big Twin

Assembled

1130-0177

COMPETITOR CLUTCHES

- Feature nine springs and shoulder bolts for simple clutch spring adjustment
- Eliminate the outdated three-stud clutch hub along with shifting problems
- Large, 40 mm double-row hub bearing provides maximum strength and performance
- Polished pressure plate adds a custom touch when using an open belt drive
- Race-proven clutch pack included
- Replacement plates available
- PART #1130-0176 features a standard pressure plate and clutch springs

PART #	DESCRIPTION
COMPETITOR CLUTCHES	
1130-0176	For 90-97 Evolution Big Twin w/ stock clutch basket
1130-0177	For 36-84 Big Twin
REPLACEMENT COMPONENTS FOR PART #1130-0112	
1131-0861	0,120" steel plate (ea.)
1131-0862	Friction plates (7 pc.)

CLUTCH PLATES AND KITS

- Designed to perform under extreme heat conditions
- Allow smooth, precise shifting
- 100% asbestos free
- Aramid fiber plates have higher-density compound for increased durability; organic plates for OEM replacement
- Steel plates are manufactured under strict quality-control standards
- Can be run wet or dry

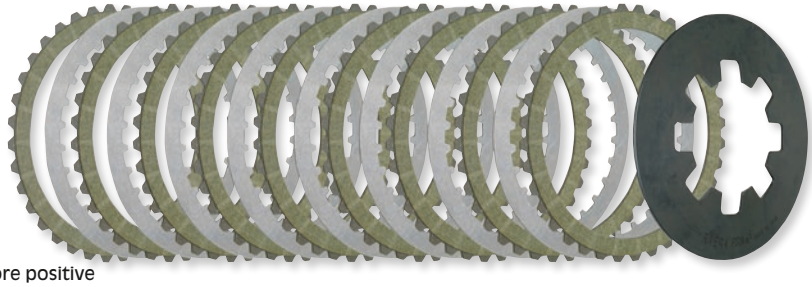
PLATE KITS FOR PRIMO RIVERA BELT DRIVE CLUTCHES/PRO CLUTCH KITS

- Complete replacement clutch plate kits for Primo Rivera belt drives listed
- Include all friction plates, drive plates and backing plates needed

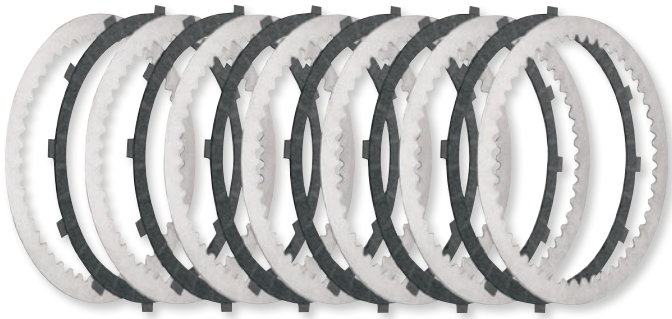
PART #	DESCRIPTION
1131-3172	Clutch pack w/ friction plates for Brute III/IV w/ new-style hub
1131-3171	Clutch pack for Pro Clutch PART #DS-223263; fits 90-97 Evolution Big Twin
1131-3177	Clutch pack for Pro Clutch PART #DS-223246; fits 36-84 Big Twin



HIGH-PERFORMANCE EXTRA CLUTCH PLATE KIT

- Kit includes nine friction plates on tempered steel cores and eight tempered steel drive plates
- Plates feature a starburst groove pattern for maximum heat dissipation and oil circulation
- 15% larger than stock surface area for stronger, more positive clutch engagement – ideal for high-performance stroker motors
- Includes 15% stronger diaphragm spring
- Pre-set stack height for easy installation

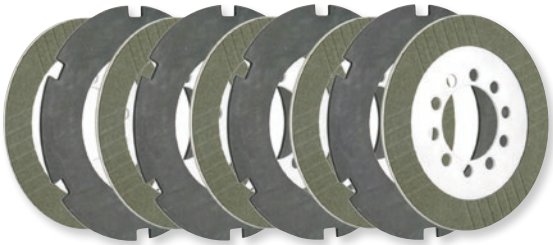
PART #	DESCRIPTION
1131-1804	For 90-97 Evolution Big Twin



CLUTCH PLATE KIT

- Includes six friction plates with tempered steel cores and seven tempered steel drive plates
- Plates measure 25% wider than the OEM plates for a significant increase in the clutch area
- Stack height is preset for easy installation
- Can be used in wet or dry clutches

PART #	DESCRIPTION
1131-1803	For L84-89 Evolution Big Twin



1131-1801

1131-1802

CLUTCH KITS

- Standard kit includes five friction plates with 6061-T6 aluminum cores and a maximum depth pattern for efficient heat dissipation and oil circulation
- Four tempered steel drive plates also included
- Kit with extra plate includes six friction plates with 6061-T6 aluminum cores, five tempered steel drive plates and 10 zero-crush coil type clutch springs
- Clutch plates are 20% wider than stock for improved clutch engagement and holding
- Both kits have the clutch plate stack height preset for easy installation

HIGH-PERFORMANCE CLUTCH KITS

- Specifically designed to provide extended clutch life, fade- and slip-free operation and superior shifting
- Friction plates have our exclusive high-heat friction materials for fade-free performance
- More durable than OEM plates
- Steel clutch plates won't expand; do not fade or promote clutch swell
- Long lasting – up to 300% more life than stock plates
- Will not muddy or contaminate oil

CK series

SRC series

SRK series

CLUTCH KITS AND SPRINGS

CK STANDARD SERIES

- Cork-based material impregnated with aluminum particles to increase wear life and heat resistance
- Highly compressed construction avoids swell and clutch drag
- Ideal for general-purpose street/sport/touring bikes
- Kit includes complete set of friction plates only
- Not for use with semi-synthetic or full synthetic oil

SRC SERIES CLUTCH KITS

- Aramid fiber paper-lined plate set, complete with heavy-duty clutch springs
- SRC kits have longer plate life and higher heat resistance
- SRC kits have a more aggressive/faster clutch takeup than the CK Standard series clutch kits

SRK SERIES CLUTCH KITS

- Include aramid fiber-lined friction plates, steel separator plates and springs
- Diaphragm-style spring used in kits for bikes with OEM diaphragm clutch springs
- All kits designed to withstand the rigors of hard street use

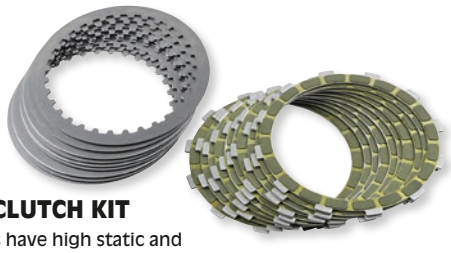
EXTRA PLATE CLUTCH KIT

- Kit includes six aramid fiber friction plates, one steel plate and a set of heavy-duty clutch springs
- Pre-68 models require an extra steel drive plate (PART #DS-223745)
- Kit adds approximately 20% more surface area
- Can be run wet or dry

PART #	DESCRIPTION
DS-223727	For 41-E84 Big Twin



EXTRA PLATE CLUTCH KIT

- Aramid fiber plates have high static and dynamic coefficient of friction
- The aramid fiber friction plates provide smooth, positive engagement and release
- Adds 11% more surface area to clutch pack
- Consists of 10 friction plates and nine steel plates

PART #	DESCRIPTION
DS-223472	For 98-99 Evolution Big Twin

DS-223739

EXTRA PLATE CLUTCH KITS

- Aramid fiber plates have a high-density compound and increased durability
- Carbon fiber plates have high static and dynamic coefficient of friction for smooth positive engagement and release
- Adds 12% more surface area to clutch pack
- Contains nine friction plates and eight steel drive plates

NOTE: Double steel drive plate not used with this kit.

1132-0701	For L84-85 XL; repl. OEM #36793-84

All part numbers in BLUE are new for the OldBook.

LOW PROFILE LOCK-UP PRESSURE PLATE CONVERSION KITS

- Specifically designed to fit under the stock or aftermarket primary/derby covers and increase the capacity of your stock clutch by using stainless steel weighted arms that progressively increase pressure to the clutch as rpm increases
- This also allows lever effort to be kept to a minimum – even with big-inch motors
- Three different sets of six coil springs (light, medium, heavy) are included for a variety of spring pressure options
- Coil spring design provides much smoother shifting and a more progressive, linear engagement compared to a diaphragm-type spring

1131-2404

- Simple bolt-on installation is all that is required with no modifications needed
- Cable-actuated and hydraulic versions are available

PART #	DESCRIPTION
1131-2404	For 98-99 Evolution Big Twin w/ cable-operated clutches
1131-2405	For 98-99 Evolution Big Twin CVO w/ hydraulic-operated clutches

TRW Lucas

COMPETITION SERIES CLUTCH PLATE KITS

- Clutch friction plate kits are supplied as a separate kit from springs and drive plates
- Different friction materials are used to match original specification
- Friction plates should be allowed to bed in to avoid glazing friction surface
- Clutch steel plates are made from corrosion-free steel
- Check old plates for color and wear and preferably replace at the same time as friction plates
- Increase in clutch spring strength is achieved either through the extra length or by tighter winding

NOTE: Some synthetic oils increase the danger of clutch slip with friction plates.

BRAIDED HYDRAULIC CLUTCH LINES

- Constructed with PTFE inner tubing, DuPont™ Kevlar® aramid fiber, premium Signature Magnum braid and an outer PVC jacket
- Unique stainless steel transmission fitting eliminates the use of adapters
- Available in Sterling Chromite® with highly polished chrome-plated banjos
- Braid color and weave match all other Magnum control cables and brake lines
- Crystal-clear outer jacket offers exceptional protection against scuffing the bike's paint or chrome and will never discolor
- Inner PTFE tubing braided with aramid fiber provides the ultimate in high performance and is compatible with all hydraulic fluids
- Choice of 35°, 90° or 180° banjos with rotating feature for perfect no-kink fitments
- Highly polished banjos are chrome-plated
- Transmission fittings for all hydraulic clutch lines have a natural stainless steel finish

DuPont™ and Kevlar® are trademarks or registered trademarks of E.I. du Pont de Nemours and company.

NOTE: 87-99 OE Harley-Davidson, CVO, P&A hydraulic clutch line fittings require taking a measurement to determine ordering length.

FOR 87-99 EVOLUTION BIG TWIN, CVO, P&A HYDRAULIC CLUTCH APPLICATIONS

STERLING CHROMITE	TOTAL LENGTH	BANJO ANGLE
1741-0309	74"	35°
1741-0316	78"	90°
1741-0302	70"	180°

STERLING CHROMITE	TOTAL LENGTH	BANJO ANGLE
1741-0303	74"	180°
1741-0304	78"	180°

HYDRAULIC CLUTCH HOSE ADAPTER

- CNC-precision-machined steel
- Screws into Big Twin OEM-style hydraulic clutch actuator
- Enables any AN-3 brake line to be used as a hydraulic clutch line

BYO® BUILD-YOUR-OWN UNIVERSAL HYDRAULIC CLUTCH LINES

1741-3219

1742-0320

1742-0321

- Design meets all FMVSS-106 Standards for safe and reliable on-road use (see compatibility note below)
- Assembles in five minutes with only side cutters and 7/16" wrench
- All components and hoses are available separately to build your own clutch line—choose banjo fittings, and then cut bulk line to the exact length needed to eliminate ordering guesswork for a perfect fit every time
- Hydraulic hose is 100% pressure tested and fittings are 100% inspected
- -3 bulk stainless brake line is fully labeled and sold in multiple lengths (includes one vice wrench for assembly)
- -3 braided stainless brake line is coated with a non-yellowing clear outer jacket – banjos are polished and chrome-plated with polished stainless steel fittings
- -3 braided black stainless line is coated with an opaque black outer jacket – banjos are black chrome-plated and include black heat shrink to cover the stainless fittings once assembled

1742-0322

1742-0319

NOTE: Compatible Magnum Shielding BYO® hydraulic hose and BYO components have been specifically designed to only work in conjunction with each other. Use with any other Magnum brake line products or other manufacturer's brands will void any warranty, performance, or liability claims.

NOTE: Please see BRAKES & BRAKE LINES section for compatible Drag Specialties and Magnum banjo bolts and crush washers.

ELECTRIC EASY SHIFT™ SPEED SHIFTER KITS

0502-0016

1601-0204

- For speed, comfort and fun
- Electronically suspends the ignition system, allowing the transmission to smoothly shift up or down with just the push of a button
- Shift up at partial or full throttle and back down at the touch of a button
- There is no need to use the foot shifter, and the clutch is used only when starting or stopping
- Works for normal street riding or full-throttle shifting
- Also a perfect match for male and female riders who own bikes that require a lot of hand strength to pull in the clutch lever
- OEM shifting ability is retained after installation
- Includes a dual-button handlebar control, a shift cylinder plated with a lustrous chrome finish, bolt-on shift cylinder support bracket and a state-of-the-art control module that sends a quick signal from the handlebar control to the shift cylinder
- Also included is the electronic ignition kill module and step-by-step instructions with photos for easy installation
- Universal kits also available with dual-button handlebar control to fit 7/8" or 1" diameter handlebars/clip-ons; installation may require purchase of frame tube brackets for shift cylinder mounting (sold separately)
- Not suitable for 4-speed transmissions

REGINA CHAIN
PERFORMANCE IN MOTION

ZRT SERIES

- Z-ring chains feature the patented Z44 sealing rings, which greatly improve performance and wear life, making previous X-ring Z-ring chains obsolete
- 50% reduction in friction compared to traditional O-rings
- Constant lubrication from special high-temperature grease in the critical pin/bushing area provides long life
- High-carbon allow pins to minimize wear and increased roller thickness to prolong durability
- Thicker outer plates and quad-riveting for greater tensile strength
- Gold color

REAR DRIVE BELTS

- Carbon fiber reinforced Goodyear engineered Falcon SPC™ belts offer up to 33 percent more tensile strength than conventional aramid reinforced belts
- High-temperature rubber compound offers excellent flex and long service life
- Fabric reinforced belt tooth surfaces improve wear resistance
- Durable material construction is designed to withstand belt-penetrating debris without breaking

NOTE: No warranty claims are made or implied.

PANTHER MOTORCYCLE DRIVE BELTS

PANTHER REAR DRIVE BELTS

- Improved RPP™ Panther® Design
- Features ULTRA-CORD™ tensile members and the Able™ compound
- ULTRA-CORD doesn't stretch or shrink, thus reducing the strain on bearings, shafts and other drive components
- ULTRA-CORD resists degradation and moisture to give you longer belt life
- The Able compound, an advanced polymer, resists tooth shear, adding to the belt's stability
- The rugged parabolic tooth profile reduces noise and offers drive efficiency up to 98%

NOTE: No warranty claims are made or implied.

REAR DRIVE BELTS

- BDL now offers Gates carbon X3N material for its rear belts
- The same brand used by Harley-Davidson since 1980 due to its reliability
- Teeth on the belts have a slick surface that is easy on pulleys
- Outer surface of the Gates belt is ribbed to help with flexibility
- Higher reliability due to increased length stability and better pitch
- Higher resistance to humidity
- Higher tensile strength and robust construction

NOTE: No warranty claims are made or implied.

Genuine JAMES GASKETS®

REPLACEMENT GASKETS, SEALS AND O-RINGS FOR BIG TWIN

- Get the top quality of Genuine James, delivered with the great service of Drag Specialties
- Genuine James gaskets, seals and O-rings for Big Twin transmissions are made to last

RUBBER-COVERED METAL (RCM)

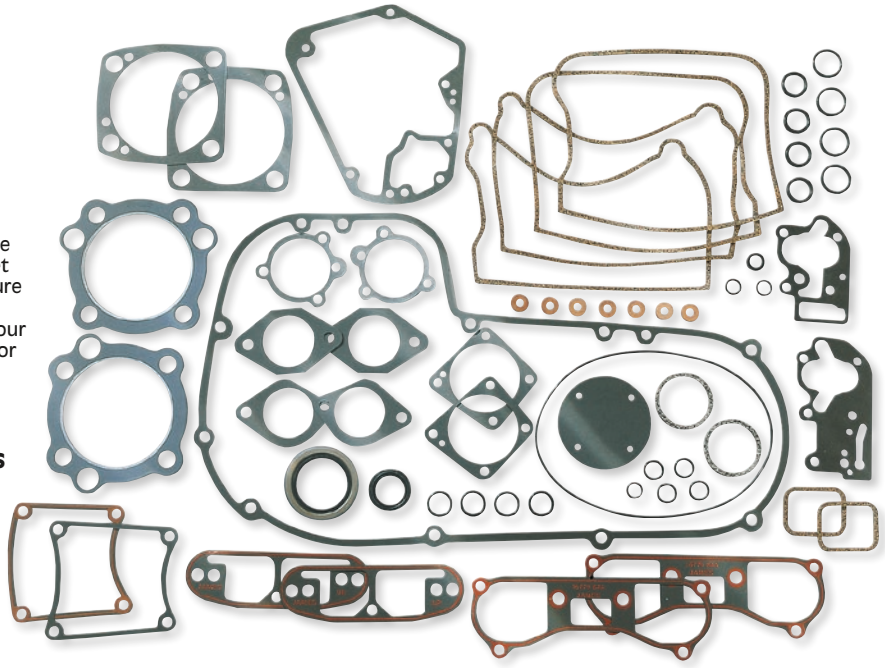
The James Gaskets Rubber-Covered Metal line of gaskets are made from a solid steel sheet coated on two sides with a high-temperature elastomer. Strategically placed elastomer beading helps ensure a positive seal while our clear silicone conformal coating fills in minor imperfections in the flanges and provides for easy release upon removal. They have excellent torque retention properties and will not extrude under high torque load.

FOAMET® EXPANDED RUBBER GASKETS

Our Foamet® product line features an aluminum core coated on two sides with expanded nitrile rubber then coated with a silicone release coating to ensure a positive seal with excellent release characteristic upon disassembly.

MICROPORE® PAPER GASKETS

The James Gasket flexible paper gasket product line utilizes the latest in gasket paper technology called MicroPore®. These gaskets exhibit exceptional fluid resistance and sealability in a wide range of applications and flange conditions. With a reduced pore size, this material is very resistant to wicking or fluid migration through the material and capable of handling operating temperatures in excess of 260 °C (500 °F).



EXPANDED METAL CORE HEAD GASKETS

Our expanded metal core head gaskets are made from top-quality graphite-coated high-temperature fiber material chemically and mechanically fused to an expanded metal core. They provide excellent sealing performance, load retention and structural strength, and provide a clean release upon removal. The stainless steel armor protects the cylinder bore from the hot combustion gasses and provides a positive seal at the combustion chamber.

REPLACEMENT GASKETS, SEALS AND O-RINGS FOR BIG TWIN TRANSMISSIONS

- Get the top quality of Genuine James, delivered with the great service of Drag Specialties
- Genuine James gaskets, seals and O-rings for Big Twin transmissions are made to last

RUBBER-COVERED METAL (RCM)

The James Gaskets Rubber-Covered Metal line of gaskets are made from a solid steel sheet coated on two sides with a high-temperature elastomer. Strategically placed elastomer beading helps insure a positive seal while our clear silicone conformal coating fills in minor imperfections in the flanges and provides for easy release upon removal. They have excellent torque retention properties and will not extrude under high torque load.

FOAMET® EXPANDED RUBBER GASKETS

Our Foamet® product line features an aluminum core coated on two sides with expanded nitrile rubber, then coated with a silicone release coating to ensure a positive seal with excellent release characteristic upon disassembly. Available in beaded and non-beaded construction depending on the application.

MICROPORE® PAPER GASKETS

The James Gaskets flexible paper gasket product line utilizes the latest in gasket paper technology called MicroPore®. These gaskets exhibit exceptional fluid resistance and sealability in a wide range of applications and flange conditions. With a reduced pore size, this material is very resistant to wicking or fluid migration through the material and capable of handling operating temperatures in excess of 260 °C (500 °F).

Genuine JAMES GASKETS®

REPLACEMENT GASKETS, SEALS AND O-RINGS FOR IRONHEAD XL

- Get the top quality of Genuine James, delivered with the great service of Drag Specialties
- Genuine James gaskets, seals and O-rings are made to last

RUBBER-COVERED METAL (RCM)

The James Gaskets Rubber-Covered Metal line of gaskets are made from a solid steel sheet coated on two sides with a high-temperature elastomer. Strategically placed elastomer beading helps ensure a positive seal while our clear silicone conformal coating fills in minor imperfections in the flanges and provides for easy release upon removal. They have excellent torque retention properties and will not extrude under high torque load.

FOAMET® EXPANDED RUBBER GASKETS

Our Foamet® product line features an aluminum core coated on two sides with expanded nitrile rubber then coated with a silicone release coating to ensure a positive seal with excellent release characteristic upon disassembly. Available in beaded and non-beaded construction depending on the application.

MICROPORE® PAPER GASKETS

The James Gasket flexible paper gasket product line utilizes the latest in gasket paper technology called MicroPore®. These gaskets exhibit exceptional fluid resistance and sealability in a wide range of applications and flange conditions. With a reduced pore size, this material is very resistant to wicking or fluid migration through the material and capable of handling operating temperatures in excess of 500 °F.

EXPANDED METAL CORE HEAD GASKETS

Our expanded metal core head gaskets are made from top-quality graphite-coated high-temperature fiber material chemically and mechanically fused to an expanded metal core. They provide excellent sealing performance, load retention and structural strength, and provide a clean release upon removal. The stainless steel armor protects the cylinder bore from the hot combustion gasses and provides a positive seal at the combustion chamber.

REPLACEMENT GASKETS/SEALS/O-RINGS

- High-quality products for long-term reliability
- Manufactured from premium fuel-resistant materials that will not creep, crack or become brittle
- Gaskets available in multiple types to best suit the intended application
- Extreme Sealing Technology (EST) gaskets feature embossed steel gaskets covered with a proprietary rubber material or solid copper, depending on the application
- Multi-Layer Steel (MLS) gaskets feature two outer Viton®-coated embossed spring steel layers with an inner steel layer to provide additional support
- CFM is a composite material with a steel tang center laminated to provide excellent heat tolerance without delaminating while providing a long-lasting seal
- Single-Layer Steel (SLS) gaskets feature a stainless steel core and embossed outer surfaces that create a heavy-duty seal between the center steel layer and the gasket mating surfaces
- Aluminum Foamette Material (AFM) gaskets feature an aluminum core and a chemically blown, compounded nitrile synthetic rubber coating that is bonded to the outside layer; do not require gasket sealer
- Viton® gaskets feature a stainless steel core with a 0,001" thick coating of Viton rubber on both sides

OEM #	DESCRIPTION	THICKNESS/MATERIAL	PART #	QTY.
26072-90	Oil pan gasket for 90-98 Dyna	AFM/0,060"	**0935-0217**	10 pk.

Genuine JAMES GASKETS®

GASKET SETS FOR BIG TWIN MODELS

- Top-quality gaskets available as complete sets, motor sets or top end sets
- Contain gaskets, oil seals and O-rings necessary to completely rebuild an Evolution, Shovelhead, Panhead or Knucklehead/Flathead engine

PART #	DESCRIPTION
COMPLETE GASKET SETS	
DS-173323	For 70-84 Shovelhead 4-speed (Fire-Ring™ head gaskets); repl. OEM #17029-70A
DS-173239	For 66-84 Shovelhead 4-speed; repl. OEM #s 17029-70/17029-66

PART #	DESCRIPTION
TOP END GASKET SETS	
0934-0947	For 92-99 80" Evolution (multi-layered steel head gaskets, RCM base gaskets, metal rocker gaskets); repl. OEM #17040-92A
DS-173250	For 92-99 80" Evolution (metal rocker gasket, 0,045" head gaskets); repl. OEM #17040-92A
0934-0946	For 84-91 Big Twin (multi-layered steel head gaskets, rubber rocker gaskets); repl. OEM #17033-83-MLS
DS-173251	For 84-91 Big Twin (rubber rocker gaskets, 0,045" head gaskets); repl. OEM #17033-83A
DS-173342	For 84-91 Big Twin (cork rocker gaskets); repl. OEM #17033-83
DS-173242	For 66-84 Shovelhead (0,045" head gaskets, 0,030" base gasket); repl. OEM #17034-66
DS-174973	For 66-84 Shovelhead (Fire-Ring™ head gaskets); repl. OEM #17034-66X
DS-173405	For 48-65 Panhead (0,045" head gaskets, 0,030" base gaskets, 1/16" thick and 1/32" thin pan cover gaskets); repl. OEM #17034-48

PART #	DESCRIPTION
MOTOR GASKET SETS (NO PRIMARY GASKET OR SEALS)	
DS-174532	For 92-99 80" Evolution (metal base/rocker gaskets); repl. OEM #17041-92A
0934-1591	For 92-99 80" Evolution (w/ MLS head gaskets); repl. OEM #17041-92MLS
DS-173245	For 84-91 80" Evolution (metal base and rocker cover gaskets); repl. OEM #17035-83B
0934-1589	For 84-91 80" Evolution (w/ MLS head gaskets); repl. OEM #17035-83MLS

All part numbers in BLUE are new for the OldBook.

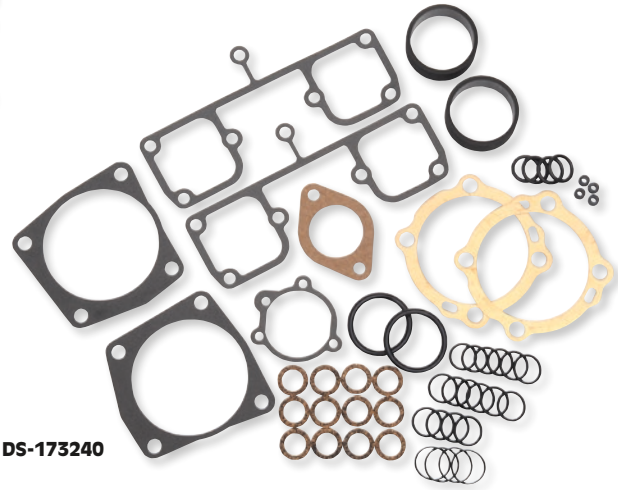
DS-181179



DS-173240

GASKET SETS FOR XL

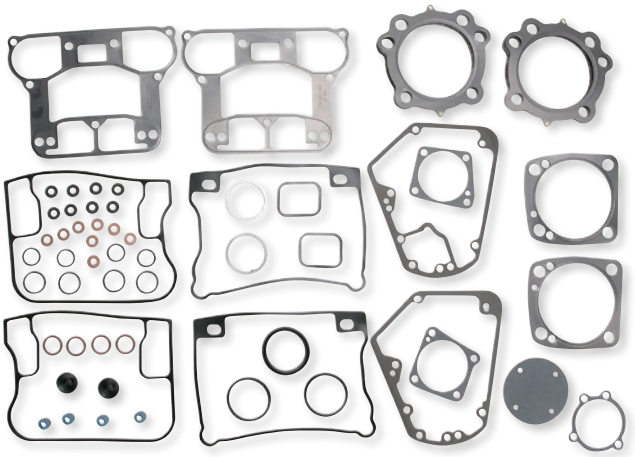
- Top-quality gaskets, oil seals and O-rings necessary to rebuild an XL engine
- Available as complete sets or top end sets only

PART #	DESCRIPTION
COMPLETE GASKET SETS	
DS-181179[1]	For 72-85 XL1000 (0,032", copper head gaskets); repl. OEM #17026-73

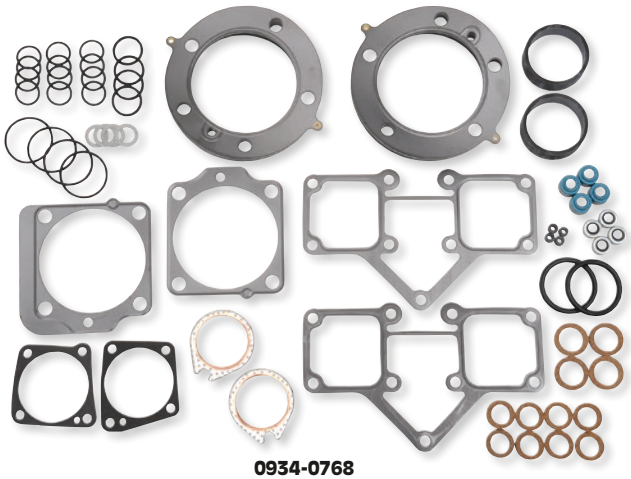
PART #	DESCRIPTION
TOP END GASKET SETS	
DS-173240[1]	For L73-85 XL; repl. OEM #17030-72A

[1] 72-E73 must order head gaskets separately; PART #DS-174080.

COMETIC GASKET



0934-0819



0934-0768

TOP-END GASKET KITS

- EST (Extreme Sealing Technology) gasket kits include embossed stainless steel head, base and rocker gaskets covered with a proprietary rubber material
- Head gasket material allows heat to be drawn away from the combustion ring and dissipated evenly across the gasket surface to eliminate hot spots and gasket failure
- Sets contain all the necessary gaskets, seals and O-rings to rebuild the top end from the cylinder base upward

PART #	DESCRIPTION
FOR BIG TWIN	
0934-0819	For 92-99 Evolution Big Twin, std. bore 0,030" head gaskets
0934-1203	For 92-99 Evolution Big Twin, std. bore (kit has no rubber rocker box gaskets)
DS172080	For 92-99 Evolution Big Twin; repl. OEM #17040-92
0934-0818	For 84-91 Evolution Big Twin, std. bore; 0,030" head gaskets
DS172081	For 84-91 Evolution Big Twin, std. bore; repl. OEM #17033-83
0934-0768	For 66-84 Shovelhead
0934-0766	For 66-84 Shovelhead, $3\frac{5}{8}$" bore
0934-0820	For 66-84 Shovelhead, $3\frac{3}{16}$" bore (no oil drains in head gaskets)

All part numbers in BLUE are new for the OldBook.

0407-0672

0407-0057

0407-0671

FORK SEAL KITS

- Seal design and special elastomer has 1/3 of the stiction and up to four times the life of an OEM seal
- Dual-lip design balances the drag forces across both sealing lips resulting in less lip distortion, which extends seal life and reduces seal operating temperature
- Sold in pairs or 10-pack as noted

PART #	DESCRIPTION
FOR 84-98 FLT/FLHT/FLHX/FLTR, 84-99 FXST/FLST, 93-98 FXDWG, 84-86 FXWG W/ 41 MM SHOWA FORKS

- MAX-LIFE has a coefficient of friction up to three times less than the OEM seal material
- Triple-lip seal design
- Directional ribs allow seal to be installed easily
- Kits include fork oil seals and dust seals; fork oil seals and dust seals also available separately

0934-5077

0934-5077

PART #	DESCRIPTION
FOR 84-98 FLT/FLHT/FLHX/FLTR, 84-99 FXST/FLST, 93-98 FXDWG, 84-86 FXWG W/ 41 MM SHOWA FORKS	
0407-0401	Fork seal and dust seal kit
0407-0437	Fork oil seal kit
0407-0470	Fork dust seal kit

PART #	DESCRIPTION
FOR 91-98 FXD, L87-99 FXR W/ 39 MM SHOWA FORKS	
0407-0412	Fork seal and dust seal kit
0407-0449	Fork dust seal kit
0407-0482	Fork dust seal kit

DS-194494

DS-174785

FORK SEAL KITS

- Kits come with everything needed to replace leaking fork seals

PART #	DESCRIPTION
DS-174781	For 84-98 FLT/FLHT/FLHR/FLTR, 84-99 FXST/FLST/FXWG and 93-98 FXDWG
DS-194496	For L77-84 FL/FLH, 80-83 FLT/FLHT/FXWG
DS-194494	For 48-E77 FL/FLH
DS173543	For 48-E77 FL/FLH; upgrade kit, includes triple lip fork seals
DS-174782	For L87-00 FXR/XL and 91-98 FXD
DS-174784	For L84-87 FX/FXR/XL
DS-174785	For L75-E84 FX/FXR/XL (Showa forks)

All part numbers in BLUE are new for the OldBook.

Genuine JAMES GASKETS

0935-0132

FORK SEAL RETAINERS

- Fork seal retainers available for OEM numbers listed
- Sold in 6-pack

PART #	DESCRIPTION
0935-0132	For 77-99 Big Twin 41 mm; repl. OEM #45842-77-A
0407-0296	For L87-99 FXR, 91-98 FXD 39 mm; repl. OEM #45905-87

AIR CONTROL O-RING KIT

- Kit includes all O-rings and seals needed to repair a leaking air control system

PART #	DESCRIPTION
DS-174904	For 84-96 FLT, 84-93 FXR w/ air control front forks

SWINGARM OIL SEALS

- High-quality replacement oil seals are for use on swingarms
- Sold in 5-pack

PART #	DESCRIPTION
DS-194463	For 66-72 FL/FX; repl. OEM #s 47519-58, 47519-83A

PART #	DESCRIPTION
DS-173428	For 58-65 Panhead; repl. OEM #47519-58

WHEEL SEALS

- Quality oil seals for various Shovelhead models
- Available in dealer packs of five sold each, or in dealer packs of two sold as pairs

0935-0098

PART #	DESCRIPTION	THICKNESS/MATERIAL	QTY.
DS-194463	For 84-99 Evoluion Big Twin and 84-85 XL; repl. OEM #47519-83A	0,410"	5 pk.
0935-0098	For 84-99 Evoluion Big Twin and 84-85 XL; repl. OEM #47519-83A2	0,410"	pr.

BRAIDED SPARK PLUG WIRES

- Intended for use with electronic ignitions
- 93,5 cm (37") wire length to reach anywhere it needs to go
- Tin-plated copper wire with silicon insulation jacket and fiberglass coating along with silicon boot combine to make these wires flame retardant and high temperature resistant
- Insulation diameter is 6-6,5 mm with 0,5 mm fiberglass outer cover
- External braided cover is made of fiberglass and comes in attractive colors to add to the customization of your bike

MAGNUM STERLING CHROMITE BLACK PEARL POLISHED STAINLESS

BRAIDED SPARK PLUG WIRES

- The industry's best braid is available in Sterling Chromite®, polished stainless, candy apple blue, candy apple red and black pearl
- Braid perfectly matches all other Magnum cables and brake lines
- High-voltage, high-temperature 8 mm silicone ignition wire with an OE style high-performance suppression conductor core for guaranteed compatibility with all H-D ignition systems
- Heavy-walled, extreme-duty, crystal-clear FEP Fluoropolymer outer insulation eliminates the need for grounding wires and ensures no interference with late model computer modules
- Posi-lock spring clip terminals and silicone boots ensure maximum performance and clean spark delivery
- OE direct fitments for ease of installation

PART #	DESCRIPTION
FOR 84-99 FXST/FLST (W/ COIL ADJACENT TO OIL TANK), 91-98 DYNA	
0802-3023	Sterling Chromite®
2104-0014	Black pearl

Sumax TAYLOR

8 MM CUSTOM-COLORED PLUG WIRES

- Precut plug wires have the plug/coil boots and terminals already installed
- Boots and wires are made from extra-high-temperature silicone, which gives protection up to 316 °C (600 °F)
- Spiro-Pro core provides up to 10 times the conductivity of a standard carbon-core wire

PART #	DESCRIPTION
FOR FOR L84-98 FLT/FLHT/FLHR/FLTR (54,5 CM (21,5") LEAD W/ 180° PLUG BOOT, 180° COIL BOOT, 23 CM (9") LEAD W/ 180° PLUG BOOT, 90° COIL BOOT)	
DS-242146	Black
DS-242157	Red
FOR 84-99 FX/FLST/FXST/FXWG (W/ COIL ADJACENT TO OIL TANK), 91-98 DYNA (40,5 CM/18 CM (16"/7") LEADS, 90° PLUG BOOTS, 180° COIL BOOTS)	
DS-242132	Black
DS-242349	Blue
DS-242149	Red

- Low resistance means they run cooler and last three to four times longer than carbon-core wires
- Designed for electronic ignitions, but also work great on point types
- Universal wire kits feature 61 cm (24") wire leads (not for Twin Cam)
- Sold in pairs

PART #	DESCRIPTION
FOR 82-94, 99-00 FXR W/ CENTER-MOUNT COIL (TWO 30,5 CM (12") LEADS W/ 90° PLUG BOOTS AND 90° COIL BOOTS)

DYNATEK dyna performance electronics

UNIVERSAL 8 MM SUPPRESSION PLUG WIRE SET

- Dyna suppression core spark plug wires use the highest grade graphite suppression core to reduce electrical noise and increase engine performance
- Two wires, each 122 cm L (48"); cut to length; can be used for up to four cylinders

PART #	DESCRIPTION
DW800	8 mm suppression plug wire set

DAYTONA TWIN TEC

UNIVERSAL SPARK PLUG WIRE KIT

- Wires available in 8,5 mm diameter
- Kit includes plug wires measuring 45,5 cm/61 cm (18"/24"), terminals and 90° and 115° spark plug boots for many applications

PART #	DESCRIPTION
7806-1557	For Evolution Big Twin

DRAG Specialties

PERFORMANCE SPARK PLUGS

- Conventional-style spark plugs, available in OEM heat ranges
- Plugs have a unique look with a black ceramic body and bold red logo/script
- Insulator is made of 95% pure alumina, features strong resistance to heat shock and superior insulation
- Multi-rib design of the insulator eliminates flashover
- Nickel-plated housing prevents oxidation and corrosion
- Multi-layer gaskets and heat crimping process ensure a leak-free, gas-tight seal
- Copper core electrode prevents oxidation and corrosion, has good electrical and heat conductivity and creates long spark plug service life
- Sold in pairs in blister pack

NGK

IGNITION PARTS

IRIDIUM IX

IRIDIUM IX SPARK PLUGS

- The ultimate in spark plug technology and performance from the industry leader
- The iridium electrode is 25% smaller than a platinum electrode, and it's just 1/4 the size of a conventional nickel electrode
- Ultra-small-diameter center electrode reduces voltage requirement and extends ignition system life
- Metal shell plating has enhanced anticorrosion qualities
- Sold each

PART #	DESCRIPTION
BPR5EIX-11	For 84-00 80" Evolution Big Twin
BPR5EIX-11	For 82-84 Shovelhead
BPR6EIX-11	For 83-85 XR1000
BPR6HIX	For 79-85 XL

NGK

IGNITION PARTS

SPARK PLUGS

- Superior construction for serious power
- NGK makes plugs for almost every application and riding style
- Versatile plugs with wide operating heat ranges prevent fouling from running too cool and pre-ignition from running too hot
- Features include high alumina ceramics for improved heat dissipation and electrical insulation, deep-seated copper core for a wider heat range and a nickel alloy tip for longer life
- Sold each

PART #	DESCRIPTION
BPR5ES-11	For 84-99 80" Evolution Big Twin (Cooler plug)
BPR5ES-11	For 75-81 Shovelhead
BPR7ES-11	For 75-81 Shovelhead (two steps colder than stock)
BPR6ES-11	For 84-85 XL
BPR6HS-10[1]	For 79-85 XL
BPR6HS[2]	For 79-85 XL
B6L	For 57-78 XL

[2] 0.7 mm Gap.

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

DENSO

IRIDIUM SPARK PLUGS

- Six times harder than platinum, iridium doesn't melt in temperatures up to 2204 °C (4000 °F)
- Because the plug's iridium electrode can shrink to only 0,4 mm, voltage requirements decrease while firing performance improves
- 360° laser welding of electrode provides a seal that resists wear even in the worst conditions
- Ground electrode features a tapered cut and U-groove that form a large volume area for the flame's center
- Sold each

IRIDIUM PART #	NGK REFERENCE #	DESCRIPTION
IW16	BPR5ES-11	For 78-84 Big Twin
IW20	BPR6ES-11	For 83-85 XR 1000
IW22[1]	BPR7EIX-11	For 83-85 XR 1000

[1] Cooler plug.

CHAMPION
PERFORMANCE DRIVEN

COPPER PLUS™ SPARK PLUGS

- Copper Plus™ spark plugs have a copper core center electrode that allows for accurate control of heat range, optimizing performance and longevity of the spark plug
- SAC-9 semi-conductor resistor for maximum EMI and RFI suppression
- Ultraseal™ coated shell for rust prevention
- Sold each (except as noted)

NOTE: Part numbers beginning with "R" are resistor type. Order by Champion numbers.

POWERMADD

E3 RESISTOR SPARK PLUG

- Unique electrode shape maximizes the power created by the spark plug – Diamond Fire technology
- Electrode is a combination of performance and technology that results in an improved flame kernel shape
- This flame front ignites the bulk air/fuel mixture faster, moves heat into the combustion chamber faster and creates a more localized pressure front for faster pressure rise during the cylinder power stroke
- The result is more complete combustion and an improvement in engine performance
- A truly premium performance plug
- Sold each

PART #	DESCRIPTION	NGK REF	H-D REF
2103-0083	For 78-84 Big Twin and 83-85 XR1000 models	BPR5EIX, BPR5ES, BPR6EIX, BPR6ES, BPR7EIX, BPR7ES, BUR4EB11, BUR5EB11, BUR6EA, BUR7EA11, GR45, GR4GP, GR4IX, GR55, GR5IX, IGR7AG, PGR5C11, PGR6A, PGR7A, ZGR5C	HD56, HD5A6, HD5A6A, HD5R6, HD5R6A, HD5RL, HD6RL

DRAG Specialties

SPARK PLUG HOLDER

- A replica of the spark plug holder found on early Panheads, updated to accept even late-model Shovelhead deep-reach plugs
- Metal holder clamps onto the rear frame tube behind the oil tank on all Big Twin models and holds two extra spark plugs (not supplied)
- Held in place by a thumbscrew

PART #	DESCRIPTION
DS-196091	Chrome

PARTS UNLIMITED

SPARK PLUG CADDY

- Dual-plug caddy holds two 14 mm spark plugs securely in place

PART #	DESCRIPTION
2870368	Spark plug caddy

2102-0275

12V MINI DUAL-FIRE IGNITION COILS

- Improves overall performance including starting, stops, high-speed misfires, and increases mileage
- 30.000V output for all 84 to 06 ignitions
- Peak spark voltage increases by at least 20%
- Smaller case for easier concealment (approximately 73 mm W x 70 mm H x 83 mm D (2 7/8" x 2 3/4" x 3 1/4"))
- Available with black body

PART #	DESCRIPTION
2102-0275	3-ohm/electronic ignition/dual-fire; repl. OEM #31614-83A
2102-0276	4-ohm/electronic ignition/dual-fire; repl. OEM #31609-80
2102-0277	5-ohm/points ignition/dual-fire; repl. OEM #31609-65A

MAGNETO COIL

- For use with 12V Magneto-style ignitions and Joe Hunt Magneto
- Comes in orange color; repl. OEM #29524-55A

PART #	DESCRIPTION
2102-0365	For 58-69 XL w/ magneto

2102-0191

6V COIL

- Available in black
- Includes spark plug wires
- Replaces OEM #31604-48
- Spark plug wire also available separately

PART #	DESCRIPTION
2102-0191	For 36-64 Big Twin

PART #	DESCRIPTION
2104-0220	Repl. spark plug wires (set)

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

3-OHM HIGH-OUTPUT SINGLE-FIRE IGNITION COIL

- This single-fire coil is actually two separate coils in a single package
- Works well with any single-fire ignition system

NOTE: Not compatible with the S&S variable fuel injection system.

PART #	DESCRIPTION
2102-0021	3-ohm single-fire coil for electronic ignition

2102-0204

2102-0205

SUPERVOLT 12V IGNITION COILS

- The original Andrews ignition coil adds great performance with a classic look
- Replacement coils deliver 30.000+ volts
- 2,8-ohm coil fits electronic ignition/dual-fire
- 4,8-ohm coil fits points ignition/dual-fire
- Produce more voltage than a stock coil
- PART #2102-0204 replaces OEM #31609-65A
- Sold each

PART #	DESCRIPTION
2102-0205	2,8-ohm coil, red
2102-0204	4,8-ohm coil, black

TWIN FIRE II COIL

- Single-fire just got easier
- High-technology materials now make it possible to put two coils in the same space as the stock coil with greater output
- No exposed laminations to rust and degrade performance
- High voltage and primary terminals machined from brass
- High-impact thermoplastic housing is ultrasonically welded and sealed against moisture
- Compact size fits easily under stock covers
- Peak gap current in excess of 50mA
- Over 40.000V per output
- Rated at 3-ohms; accepts 7 or 8 mm wires

NOTE: Not for use with DS6-2 ignition system.

PART #	DESCRIPTION
DC6-5	Twin Fire II Miniature, dual output towers

DC1-1

DC3-1

DC6-1

DC10-1

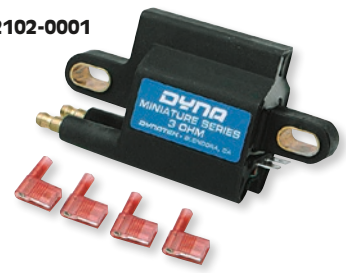
12V COILS

- The "industry standard" with 35.000V spark energies second to none
- Designed to work with any Dyna ignition system
- Can be used for single- or dual-plug applications

PART #	DESCRIPTION
DC1-1	3-ohm (green), angled dual output (pr.)
DC3-1	3-ohm (green), angled single output, for use with DS-62 single-fire ignition only race application (pr.)

PART #	DESCRIPTION
DC6-1	3-ohm (green), straight dual output, Std. H-D style (85-up electronic ignition) (ea.)
DC10-1	5-ohm (black), angled single output street application (pr.)

2102-0001



2102-0003

MINIATURE SERIES COILS

- One of the smallest packages delivers high output with advanced magnetic core technology
- Designed for use with Dyna 2000 and 3000 series ignitions, factory-installed electronics or with aftermarket ignitions that employ dwell control
- Secondary resistance is 11,5-ohms
- Great for customs where coils need to be hidden

NOTE: Not for use with the Dyna "S," DYNA III or earlier generation ignitions.

PART #	DESCRIPTION
2102-0002	3-ohm, single tower coil, single-fire, single-plug (pr.)
2102-0001	3-ohm, dual tower coil, single-fire, dual-plug (pr.)

PART #	DESCRIPTION
2102-0003	3-ohm, dual tower coil, single-fire, dual-plug (ea.)

EMGO

IGNITION COIL

- 12V dual lead spark plug leads with solid core wires
- Chrome body
- 3,9-ohms

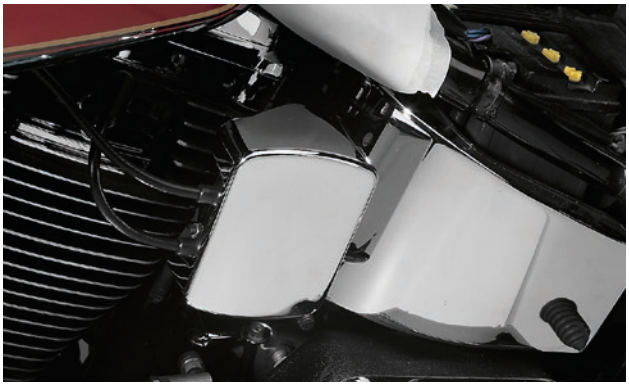
PART #	DESCRIPTION
2102-0303	For custom applications

DRAG Specialties

HEAVY-DUTY COIL BRACKET

- Exclusive replacement-type coil bracket made of solid steel for exceptional strength
- Features a chrome finish

PART #	DESCRIPTION
DS-325469	For 65-E82 Big Twin; repl. OEM #s 31724-65, 31728-78

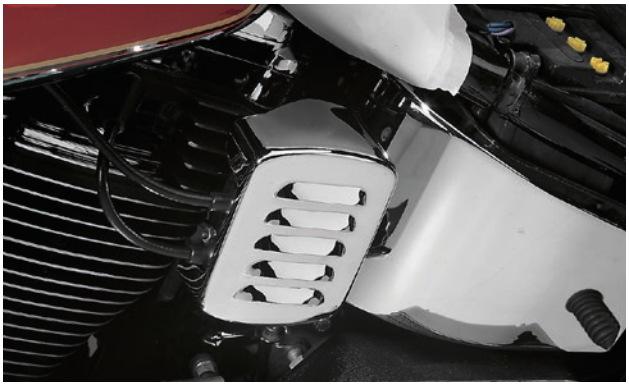


DRAG Specialties

SMOOTH COIL COVER

- Clean chrome style
- Covers coil when mounted in stock location

PART #	DESCRIPTION
DS-376601	For 84-99 FXST/FLST and 65-84 Big Twin



DRAG Specialties

LOUVERED COIL COVER

- Chrome-plated and accented with five louvers for a truly custom appearance

PART #	DESCRIPTION
DS-376610	For 84-99 FXST/FLST, 65-84 Big Twin

DRAG Specialties

CHROME COIL COVER

- Covers OEM and most aftermarket OEM-style coils in highly visible stock locations
- Mounts with OEM hardware
- Includes cover for the top and back side of coil on XL model

PART #	DESCRIPTION
2102-0065	For 84-98 FLT/FLHT and 83-85 XL

DRAG Specialties

CHROME OLD-STYLE COIL COVER

- An old-style look for bikes using OEM-style coils
- Sold each

PART #	DESCRIPTION
DS-376609	For 84-99 FXST/FLST

DRAG Specialties

COIL COVER

- Brilliant chrome finish

PART #	DESCRIPTION
DS-373605	For 82-94, 99-00 FXR

2101-0045

2101-0043

DYNATEK dyne performance electronics DYNA2000

2000-HDE PC-PROGRAMMABLE DIGITAL IGNITION MODULES

- A plug-in upgrade to the electronic advance ignition found on late H-D models
- Micro-computer controlled, generating extremely accurate control over the entire ignition process
- Allow riders to tailor the advance curve and rev limiter to the specific needs of their particular engine; four built-in advance curves cover the needs of stock to highly modified engines over a variety of operating conditions; four independent rev limiter choices from 6000 to 7500 rpm set the exact protection level needed
- PC programmability allows you to define a wide-open and part-throttle curve, rev limits, dead-cranking revs and rear cylinder offset
- PART #2101-0045 comes with 8-pin connectors; operates in single-fire or dual-fire modes
- PART #2101-0046 comes with 8-pin connectors; operates in dual-fire mode only
- PART #2101-0045 and 2101-0046 offer a quick curve which simulates a mechanical advancer for hot rod motors; option to use vacuum advance compensation via a VOES switch and retard mode, which allows selection of ignition retard of 5°, 7° or 10° upon activation of a retard input
- PART #2101-0044 is for use with a dual-fire ignition only; it simply plugs right into your 7-pin stock harness and mounts right in the original ignition mounting area
- PART #2101-0043 comes with a 7-pin connector; can be used with either one ignition coil firing both cylinders (dual fire), or with two ignition coils, one firing each cylinder (single-fire); no other ignition offers this flexibility
- A separate tach output wire allows clean tach operation during rev limiting and when in single-fire mode
- A diagnostic LED indicator is included on the back of the control module to assist trouble shooting and static timing

IMPORTANT NOTE: On any electronic advance ignition such as the Dyna 2000-HD1 or the stock ignition, you must use carbon fiber-type suppression spark plug wires to reduce radio frequency interference. Use of copper wires may cause malfunction of the ignition due to severe electrical noise generated at the spark plugs. The original H-D supplied wire should be okay.

NOTE: Not for fuel-injected models.

NOTE: HDE systems are not compatible with Dyna "S" systems. Use HD1/HD2 systems only.

PART #	DESCRIPTION
2101-0045	For L94-98 FLT/FLHT, 96-99 FXST/FLST, 96-98 FXD/FXDWG single- or dual-fire system (w/ 8-pin)
2101-0046	For L94-98 FLT/FLHT, 96-99 FXST/FLST, 96-98 FXD/FXDWG dual-fire system (w/ 8-pin)
2101-0043	For 91-E94 FLT/FLHT, 91-95 FXST/FLST, 91-95 FXD/FXDWG single- or dual-fire digital system (w/ 7-pin)
2101-0044	For 91-E94 FLT/FLHT, 91-95 FXST/FLST, 91-95 FXD/FXDWG dual-fire digital system (w/ 7-pin)

DAYTONA TWIN TEC

EXTERNAL IGNITION KITS

- Allows the use of an external ignition, which helps prevent heat-related ignition failures by replacing heat-sensitive internal nose-cone style ignitions
- Includes the 1007EX ignition module, an OEM-style cam position sensor with highly sensitive Hall effect sensor and rotor cup
- Kits also include adapter harness, mounting standoffs with screws, and a parts bag with a 4-pin male/female connector/pins/sockets along with Packard Weather Pack connectors for single-fire coil and tachometer hookup
- PART #1020-2749 also includes a Daytona Twin Tec single-fire coil and universal spark plug wire kit
- Includes detailed easy-to-follow directions

PART #	DESCRIPTION
FOR 70-99 BIG TWIN (EXCEPT TWIN CAM) AND 71-85 XL MODELS WITH NOSE CONE CAPABLE OF ACCEPTING AN IGNITION PICK-UP ASSEMBLY (CARBURETED MODELS ONLY)	
1020-2749	External ignition conversion kit with single-fire coil and spark plug wire kit

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

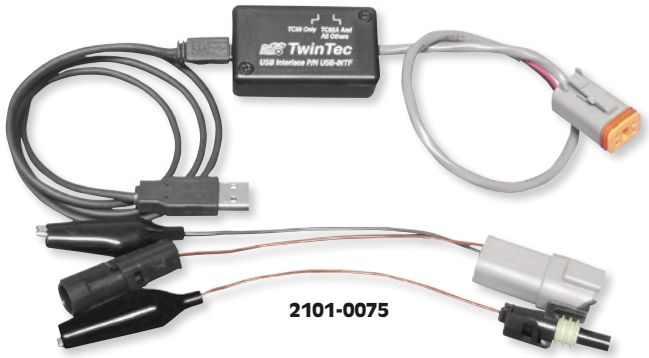
2101-0214

DAYTONA TWIN TEC

EXTERNAL MODULE IGNITION KITS

- Includes ignition module, single-fire coil, 8,5 mm spark plug wires and instructions
- Two advance curve families with adjustable advance curves to accommodate stock to wild engine modifications
- Unit has four rotary switches for adjusting timing, single/dual fire, rpm limit and two LED indicator lights
- Digitally set rpm limit (in 100 rpm steps); selectable single- or dual-fire mode
- Selectable multi-spark mode for quick starting and smooth cruising
- Coil outputs protected against short circuits
- Optional USB interface and software available for programming custom curves (programs available on website www.daytona-twintec.com/index.html)
- Kit uses the tachometer wire for the PC-link and comes with a connector

NOTE: Not for fuel-injected models.



2101-0075

PART #	DESCRIPTION
2101-0214	For L94-98 FLT/FLHT, 96-99 FXST/FLST and 96-98 FXD/FXDWG w/ 8-pin Deutsch plug
2101-0213	For 91-E94 FLT/FLHT, 91-95 FXST/FLST and 91-95 FXD/FXDWG w/ 7-pin Cannon plug
2101-0075	USB interface kit

DYNATEK dyna performance electronics

2000I PC PROGRAMMABLE ELECTRONIC IGNITION KITS

- Completely self-contained so entire unit hides under the cam cover for a clean look on custom bikes
- Single-fire operation down to zero rpm for easier cranking and kicking
- Will operate in all combinations of single-fire or dual-fire with single-plug or dual-plug heads
- Ten advance curves cover a broad range of engine builds and riding styles
- Engine over-rev protection, adjustable from 6000 to 7500 rpm
- Adjustable timing retard for nitrous and turbo applications
- VOES indicator lets you monitor VOES switch at a glance
- Built-in tach driver can be used to activate shift lights, auto-shifters and other accessories
- Easy static timing with built-in timing indicator
- Intelligent over-current/short-circuit protection
- Active dwell control
- Over-voltage protected against momentary spikes
- Data recording includes total engine hours, time wide-open throttle, longest time operating at wide-open throttle, max rpm, seconds near rev limit and number of engine starts

2101-0029

2101-0027

- PC programmability makes possible an eight-point, fully definable, wide-open throttle curve and a fully definable part-throttle curve, rev limit programmable in 50 rpm steps, programmable dead-cranking revs 0 to 5, rear cylinder offset, total of +/- 10°, programmable rev limiter, security lock-out (pin # activated), single- or dual-fire
- Programming and downloading data and graphs from module requires proper programming kit (includes cables and instructions) (sold separately)
- Pigtail connector enables the user to connect the ignition to a PC to either download recorded info from the ignition or program their own power curves, rev limits, dead revs or rear cylinder off-set timing; connector remains on bike

NOTE: Not for fuel-injected models.

NOTE: Programming kit is not necessary to use all selectable functions of the current ignition.

PART #	DESCRIPTION
FOR 70-99 BIG TWIN AND 71-85 XL; 82 AND EARLIER WILL REQUIRE A SENSOR CUP ADDITION, PART #2101-0234 (OEM #32402-83)	
2101-0029	Dual-plug/single-fire kit (includes module and pair of DC1-1 coils)
2101-0031	Single-plug/single-fire kit (includes module and DC6-5 Twin Fire II miniature coil)
2101-0027	Module only

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

DYNATEK
dyna performance electronics

DSK61

DSK62

IGNITION AND COIL KITS

- Complete electronic ignition systems built with the latest state-of-the-art engineering
- The same ignition used by top drag and road racers to set records and bring home victories over the past decade
- The Dyna S is completely housed behind the ignition cover and uses a magnetic rotor with the original advance unit, so the factory advance curve is maintained
- Coils provide spark voltages in excess of 30.000V and spark energies second to none

- The DSK61 Dyna S and coil system includes a DC7-1 high energy coil
- The DSK62 Dyna S and coil system is designed for single-fire applications; includes two DC10-1 Dyna coils

NOTE: Not for fuel-injected models.

NOTE: Later models will require the use of a mechanical advance unit.

PART #	DESCRIPTION
70-99 BIG TWIN, 71-03 XL	
DSK61	Dual-fire ignition kit

PART #	DESCRIPTION
70-99 BIG TWIN, 71-03 XL (CONT)	
DSK62	Single-fire ignition kit

DUAL-FIRE ELECTRONIC IGNITION SYSTEM

- Perfect ignition timing once and for all
- Self-contained ignition system features Hall Effect magnetic sensors, which are not sensitive to rpm changes or affected by dirt and oil
- Improves overall performance by changing the timing less than three degrees, extends plug life, eliminates the use of points and condensers; can be easily installed
- Used and endorsed by many championship racers

NOTE: On 84-up H-D applications, an advance weight mechanism is required.

NOTE: Not recommended for use with OEM coils.

PART #	DESCRIPTION
DS6-1	For 70-99 Big Twin (80-99 Big Twin require an advance unit), 71-85 XL

APPLICATION CHART FOR DYNA COILS WHEN USING DYNA "S" IGNITION SYSTEMS		
FITMENT	**APPLICATION**	**PART #**
W/ single-plug heads	Race only, 3-ohm (green), each	**DC6-1**

DS6-2

DC10-1

DC1-1

DC6-1

SINGLE-FIRE ELECTRONIC IGNITION SYSTEM

- All the features of the famous Dyna "S", plus the special feature of firing the front and rear cylinders independent of each other, allowing a much more accurate timing of each cylinder
- The stock ignition system fires both cylinders at the same time, which works fine for the front cylinder but the rear receives the "wasted" spark when the cylinder has started its intake stroke; this can result in harder starting, increased engine vibration, backfire and raw fuel being spit back into the carb, all creating a power loss
- Dyno and top-speed testing have shown a dramatic improvement in power in all areas; bikes with hotter cams show the greatest improvement

- If you truly want to get the most out of your stock, slightly modified or all-out customized Harley-Davidson, you need a Dyna "S" single-fire ignition system

NOTE: Not recommended for use with OEM coils.

NOTE: On later models, an advance weight mechanism is required.

NOTE: This unit must be used with special Dyna coils; see coil chart for correct coils.

NOTE: Tach adapter is required when using an electric tach.

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION
DS6-2	For 70-99 Big Twin, 71-85 XL using a mechanical advance unit

PART #	DESCRIPTION
D-101	Tach adapter

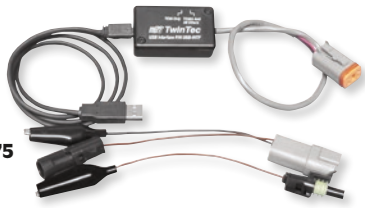
DAYTONA TWIN TEC

INTERNAL IGNITION KIT

- Includes ignition system, 8,5 mm spark plug wires, single-fire coil and instructions
- Ignition system has two advance curve families with adjustable advance curves to accommodate stock to wild engine modifications
- Four rotary switches for adjusting timing and single/dual fire rpm limit
- Digitally set rpm limit (in 100 rpm steps), selectable single- or dual-fire mode
- Selectable multi-spark mode for quick starting and smooth cruising
- Coil outputs protected against short circuits
- Optional USB interface kit and software available for programming custom curves (programs available on website www.daytona-twintec.com)
- Requires the use of an OEM timing rotor (OEM #32402-83 or PART #2101-0234)
- Uses the tachometer wire for the USB interface and includes a connector

NOTE: Not for fuel-injected models.

2101-0242



2101-0075

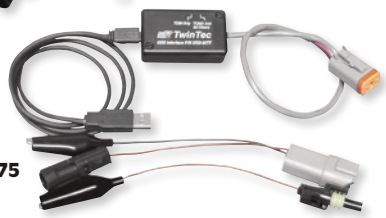
PART #	DESCRIPTION
2101-0242	For 70-99 Big Twin, 71-85 XL (mode switch position 9 can be used to set kickstart, single-fire race advance curves w/o use of the USB interface)
2101-0075	USB interface kit

INTERNAL IGNITION SYSTEMS

- Features two advance curve families that are adjustable to accommodate stock and modified engines
- Selectable multi-spark mode for quick starting and smooth cruising
- Four rotary switches for timing adjustments, single/dual ignition mode and rpm limit (100 rpm steps)
- Coil outputs protected against short circuits
- Requires coils with a minimum of 3-ohms resistance and low resistance spiral-core-type plug wires
- Requires timing rotor OEM #32402-83 or PART #2101-0234
- Uses the tachometer wire for the PC link and comes with a connector
- Optional USB interface and software available for programming custom curves (programs available on website www.daytona-twintec.com)

NOTE: Not for fuel-injected models.

2101-0209



2101-0075

PART #	DESCRIPTION
2101-0241	For 70-99 Big Twin, 71-85 XL (mode switch position 9 can be used to set kickstart, single-fire race advance curves w/o using the USB interface)
2101-0209	For 70-99 Big Twin, 71-85 XL (two-stage rev limiter)
2101-0075	USB interface kit

V-TWIN ELECTRONIC IGNITION SYSTEM

- Dual-fire electronic ignition system features fully encapsulated construction
- Includes special trigger rotor for use with traditional mechanical advance mechanism
- Precise digitally set rpm limiter (200 rpm steps from 5200 to 7000 rpm)
- Status LED for easy static timing
- Electronic dwell control for maximum ignition energy at high rpm and reduced current draw at low rpm
- Compatible with most OE and aftermarket dual-fire ignition coils
- Hall effect sensor detects teeth on trigger rotor and provides stable spark timing
- Operates down to below 6 volts
- Easy installation; two-wire hookup to coil
- Waterproof and highly resistant to vibration and shock
- Over-temperature protection; rated to operate at 125 °C (260 °F)

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION
2101-0267	For 70-99 Big Twin, 71-85 XL carb models

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

SUPER STOCK™ IGNITION KIT

- Single-fire operation ignition kit
- Requires a single-fire coil for single spark plug applications
- Overload and short-circuit protected
- Minimum of 3-ohms primary resistance
- VOES switches to a less aggressive curve under load or strong acceleration
- 6300 rpm rev limiter
- Has a 24-hour break-in rev limiter to prevent engine damage
- Datalogging and diagnostic capabilities
- Can be set to kick or electric start mode

PART #	DESCRIPTION
2101-0497	For 84-99 Big Twin

HI-4N IGNITION MODULE KIT

2101-0346

- More power than the stock ignition
- Single-fire and dual-fire function built into a single module
- All-metal housing provides improved heat dissipation
- Ignition advance and timing degree markings are on the metal flange
- Convenient cable notch in the housing makes installation easier and prevents damage to the cable
- Sensor and magnet housings are built into the all-metal back plate to protect the sensors from damage during installation
- Sensor housings contain advanced flux concentrators with high-temperature-resistant samarium/cobalt magnets for accurate, reliable ignition triggering
- Electronics are fully enclosed to resist vibration, moisture and dirt
- All electronics are mounted directly to the metal housing, which acts as a heat sink
- Four rotary switches for ignition mode selection, advance rate, and rev limit
- Switches provide accurate, repeatable settings
- PART #2101-0346 includes ignition module, S&S ignition coil and correct-length spark plug wires; PART #2101-0345 includes HI-4N ignition module only

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION
FOR 70-99 BIG TWIN (EXCEPT TWIN CAM), 71-85 XL	
2101-0346	HI-4N ignition module, ignition coil and plug wires

PART #	DESCRIPTION
FOR 70-99 BIG TWIN (EXCEPT TWIN CAM), 71-85 XL (CONT)	
2101-0345	HI-4N ignition module only

IGNITION SENSOR ASSEMBLIES

- Assembly includes pickup, mounting plate and wires with connectors

0807-0118

PART #	DESCRIPTION
0807-0116	For 80-84 Shovelhead, 84-93 FLT, 84-95 FXST/FLST, 84-94 FXR, 80-85 XL; repl. OEM #32400-80A
0807-0117	For 91-95 FXD; repl. OEM #32404-90
0807-0118	For 94-95 FLT; repl. OEM #32400-94

0807-3017

IGNITION SENSOR ASSEMBLIES

- Each assembly includes a pickup, mounting plate and wires with connectors

PART #	DESCRIPTION
0807-3019	For 94-95 FLT; repl. OEM #32400-94
0807-3017	For 84-93 FLT, 84-95 FXST/FLST, 84-94 FXR, 80-84 Shovelhead, 80-85 XL; repl. OEM #32400-80A
0807-3018	For 91-95 FXD; repl. OEM #32404-90

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

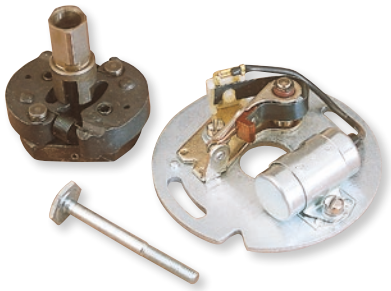
DRAG Specialties

ADVANCE UNIT ASSEMBLY

- Includes all the items shown; breaker plate assembly and the advance unit with bolt can be purchased separately

PART #	DESCRIPTION
FOR 70-99 BIG TWIN, 71-85 XL (EXCEPT SINGLE-FIRE IGNITION)	
DS-242299	Advance unit assembly, complete
DS-242298	Advance unit and bolt only
DS-242301	Breaker plate assembly w/ points, condenser; repl. OEM #32577-70



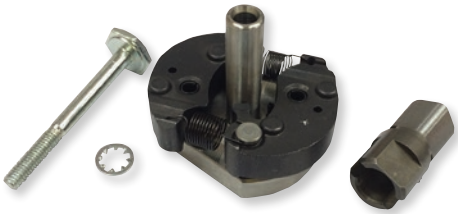
DRAG Specialties

ADVANCE UNIT ASSEMBLY FOR DISTRIBUTOR IGNITIONS

- Complete advance unit assembly includes all items shown

NOTE: Not for 70-99 model applications.

PART #	DESCRIPTION
DS-242291	For 29-65 Big Twin w/ aftermarket distributor ignition

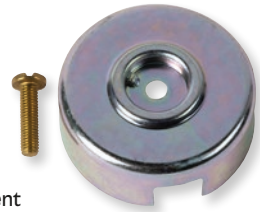


DRAG Specialties

ADVANCE UNIT

- Features a stainless steel base with steel cam, fly weights and springs
- Mounting bolt included

PART #	DESCRIPTION
2105-0124	For 70-99 Big Twin (except Twin Cam) and 71-85 XL



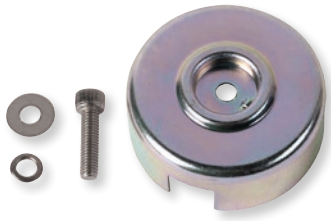
S&S PROVEN PERFORMANCE

IGNITION ROTOR

- High-quality OEM replacement component
- Comes with bolt and washer

NOTE: Must be ordered when converting points ignition to S&S HI-4 electronic ignition.

PART #	DESCRIPTION
2101-0332	For 84-99 Evolution Big Twin and 83-85 XL; repl. OEM #32402-83



DAYTONA TWIN TEC

TIMING ROTOR

- Includes mounting screw and washer

PART #	DESCRIPTION
2101-0234	For 84-99 Big Twin and 83-85 XL; repl. OEM #32402-83

DRAG Specialties

POINTS STYLE DISTRIBUTORS

- Features points, condenser and mechanical advance assemblies pre-installed
- Uses 70-E78 style points
- Chrome finish
- Sold each

2130-0055

PART #	DESCRIPTION
2130-0055	For 65-69 Big Twin w/ single hold down
2130-0054	For 48-64 Panhead w/ dual hold down

PAUGHCO

DISTRIBUTOR HOLD DOWN

- Single-bolt style with a chrome finish
- Also works with most aftermarket distributors

PART #	DESCRIPTION
0807-2610	For 66-69 Shovelhead

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in **BLUE** are new for the OldBook.

HIGH-PERFORMANCE STARTER MOTORS

- 100% new – not remanufactured!
- Starters feature oversize clutch rollers, cold-headed steel idler gears and armature hairpins that are resistance-fused to the armature
- All 90-99 starters are supplied with 10/32 threaded output shafts
- 1,4kW is a new replacement unit for stock and slightly modified engines; generates more power than the OEM stock starter
- 1,7kW is a new replacement unit for highly modified engines in touring bikes, featuring a permanent magnet motor coupled to the OEM-style offset gear reduction case, making a drop-in solution to hard-starting touring bikes (due to the high in rush current of a permanent-magnet motor a minimum 300 CCA battery is recommended with 4-gauge battery cables)
- Starter motor design is more compact than the original and does not require the rear bracket; because of the higher output, 4-gauge cables are recommended for this starter
- Available in black or chrome finish

NOTE: OEM Hitachi starters measure 133 mm (5 1/4").
OEM Prestolite starters measure 152 mm (6").

NOTE: For optimum performance, use with Drag Specialties battery and battery cables.

PART #	DESCRIPTION
FOR 90-99 BIG TWIN (REPL. OEM #S 31553-90 AND 31553-94)	
80-1001	1,4kW black
80-1002	1,4kW chrome
2110-0445	1,7kW black
2110-0446	1,7kW chrome
FOR PRE-89 BIG TWIN	
80-1005[1]	1,4kW Hitachi black
80-1007[1]	1,4kW Prestolite black

PART #	DESCRIPTION
FOR 81-85 XL	
80-1009	1,4kW black
80-1010	1,4kW chrome
FOR 67-80 XL	
80-1007[1]	1,4kW Prestolite black
FOR 74-E76 XLH	
80-1005[1]	1,4kW Hitachi black

[1] Starter motor design is more compact than the original and does not require the rear bracket. Because of the higher output, 4-gauge cables are recommended for this starter.

HIGH TORQUE STARTERS

- Starters feature 15% more power and torque than OEM units
- Manufactured using heavy-duty armature commutators, large drive-end bearings and needle bearings in the com-end caps

2110-0224

2110-0225

PART #	DESCRIPTION
FOR 65-82 BIG TWIN, 67-80 XL EQUIPPED WITH PRESTOLITE STARTERS (152 MM (6") LONG); REPL. OEM #31458-66	
2110-0224	Chrome
2110-0223	Black

PART #	DESCRIPTION
FOR 74-88 BIG TWIN, 74-E76 XLH EQUIPPED WITH HITACHI STARTERS (133 MM (5 1/4") LONG); REPL. OEM #31570-73	
2110-0226	Chrome
2110-0225	Black

STARTERS

- New 12V starter motor
- Bolt-on replacements for OEM starter

2110-1301

PART #	DESCRIPTION
2110-1301	For 74-88 Big Twin, 74-E76 XLH equipped w/ Hitachi starters (13 cm (5 1/4") long); repl. OEM #s 31570-73/B/C/T
2110-1303	For 65-82 Big Twin, 67-80 XL equipped w/ Prestolite starters (15 cm (6" long)); repl. OEM #s 31458-66/A/B/C/TA

SUPERTORQUE STARTERS

- Give your bike up to 46% more cranking torque compared to stock with intelligent gear-reduction design
- Performs well without the use of a high-amp battery
- Easy installation
- Available in chrome, black, or polished finish

2110-0890

PART #	DESCRIPTION
FOR 65-79 BIG TWIN	
2110-0891	Chrome
2110-0892	Black
2110-0890	Polished
FOR 86-88 BIG TWIN (EXCEPT FLT)	
2110-0885	Polished

PART #	DESCRIPTION
FOR 94-00 BIG TWIN	
2110-0141	Black
2110-0139	Polished
FOR 81-85 XL	
2110-0895	Black

2110-0567

SLUGGER 1,8KW HIGH-TORQUE STARTER MOTORS

- Starters are assembled using with heavy-duty components and tested with state-of-the-art equipment
- Starter offers superior windings, high-tolerance heavy-duty clutch and a thicker commutator that resists flying shorts
- 1,8kW output has the torque to start any monster motor with the least amount of amperage drain
- Static balanced for smoother operation
- Low-profile design will clear the electronic speedometer sensor for easy installation

NOTE: Starters on 90-98 FLT will require use of spacer block PART #DS-196233. On FXST/FLST, Dyna and FXR you must relocate oil lines and some wiring.

Polished Chrome

STARTER MOTORS

- Nippondenso starters are assembled using heavy-duty components and tested with state-of-the-art equipment
- Solenoid plunger, return damper and springs are replaced with stronger components
- Clutch shaft and rollers are replaced with precision-ground and hardened parts for longer service life
- All components are assembled with a special lube that has been formulated for starter roller clutch applications
- CNC-machined billet mounting noses are held together with aerospace fasteners
- After assembly, all starters go to a dyno test including hi-low voltage, stall torque, solenoid engagement, amperage draw, load test, maximum rpm and motor impulse wave form
- Starters have a 4,4:1 gear reduction and produce 46% more cranking torque than the stock starter
- Starters available in four kilowatt ratings (1,2; 1,4; 1,6 and 2,0)
- The 1,6kW starter is designed for 96" or larger motors with limited size batteries such as the FXR, FXST or FXD
- The 1,2/1,4/1,5kW starters are designed for OEM applications; use Terry battery cables and a batter with 300+ cranking amps like the Drag Specialties battery for best results
- The 2,0kW starter will start any monster motor (for best results, use with Terry battery cables and a battery with 300+ cold-cranking amps like the Drag Specialties battery)

NOTE: 1,6kW and 2,0kW starters will require the use of starter spacer block PART #DS-196233 when used on 90-98 FLT (sold separately). On Softail, Dyna or FXR, you must relocate oil lines and some wiring.

NOTE: PART #DS-196182 has a raw finish starter nose.

STARTER RELAY SWITCHES

- Designed to handle high-current draw with ease

DRAG Specialties

PART #	DESCRIPTION
DS-325702	For L85-E93 FLT, 86-E93 FXST/FXWG/FXR/FXRS, 91-E93 FXD, 80-84 Shovelhead, 80-85 XL; repl. OEM #31506-79B
DS-325494	For 74-79 Big Twin, 75-79 XL; repl. OEM #71463-73
DS-325866	For 91-99 Big Twin (w/ a diode); repl. OEM #31504-91A

DRAG Specialties

RELAY

- For the starter, brake light and fuel pump

PART #	DESCRIPTION
DS-325866	For 91-99 Evolution Big Twin (w/ a diode); repl. OEM #31504-91A

2110-0372

2110-0371

2110-0374

STARTER RELAY SWITCHES

- Easily handles high-current draw

STANDARD MOTORCYCLE PRODUCTS

PART #	DESCRIPTION
2110-0372	For L85-E93 FLT, 86-E93 FXST/FXWG/FXR/FXRS, 91-E93 FXD, 80-84 Shovelhead, 80-85 XL; repl. OEM #31506-79B
2110-0371	For 74-79 Big Twin, 75-79 XL; repl. OEM #71463-73
2110-0374	For 91-99 Evolution Big Twin w/ a diode; repl. OEM # 31504-91A

STANDARD MOTORCYCLE PRODUCTS

RELAY

- For use with starter, fuel pump and brake light

PART #	DESCRIPTION
2110-0374	For 91-99 Evolution Big Twin w/ a diode; repl. OEM #31504-91A

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

WATERPROOF 30A ELECTRIC RELAY

- Protects light-duty OEM wiring and switches (horn button) from damage when adding accessories that draw high amounts of current
- Strongly recommended for use with all dual electrical horn systems
- Also works well with driving lights; waterproof and vibration-proof

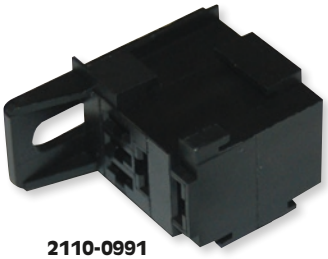
PART #	DESCRIPTION
2050-0094	Waterproof 30A electric relay

STARTER RELAY

- 30A starter relay easily handles high-current draw

PART #	DESCRIPTION
2110-0504	Starter relay; repl. OEM #31504-91A

2110-0990

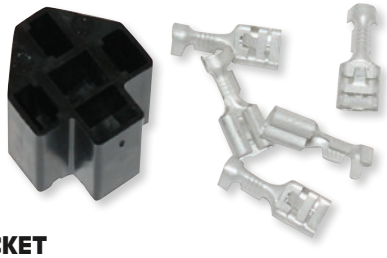


2110-0991

MICRO STARTER RELAY AND TERMINAL KIT

- 25A micro starter relay

PART #	DESCRIPTION
2110-0990	Micro starter relay
2110-0991	Micro relay socket and terminal kit



STARTER RELAY SOCKET AND TERMINAL KIT

- Five-wire relay socket
- Sold each

PART #	DESCRIPTION
2120-0682	Starter relay socket and terminal kit; repl. OEM #s 72046-79, 9937

STARTER RELAY

- High-quality OEM replacement component
- Includes a black cover

PART #	DESCRIPTION
2110-0455	For 67-73 Big Twin, 67-74 XL; repl. OEM #71455-67

2130-0217

2130-0215

MINI RELAYS

- Include brackets for easy installation
- Normally open, with four terminals
- Sold in a 10-pack

PART #	DESCRIPTION
2130-0217	Relays 12V 30A (10 pk.)
2130-0215	Relays 12V 30A with resistance (10 pk.)

2130-0143

RELAY SOCKETS

- Sold each or in a 10-pack

PART #	DESCRIPTION
2130-0143	Sockets for 6,3 mm Terminal relays (ea.)
2130-0216	Sockets for 6,3 mm Terminal relays (10 pk.)

STARTER SOLENOID CONNECTOR

- Female one-position connector
- Connects wire to starter solenoid

PART #	DESCRIPTION
2120-0603	Starter solenoid connector

2112-0712

Cycle Electric Inc.
Charging Systems for American V-twins MADE IN U.S.A.

3-PHASE 50A CHARGING KIT

- Produces 32A at 1000 rpm and 50A at 2500 rpm
- Yield more charging power when upgrading from 32A or 38A
- Improved durability and dependability than stock 48A system

PART #	DESCRIPTION
2112-1823	For 89-98 FLT/FLHT/FLHR and 89-94, 99-00 FXR
2112-0712	Repl. regulator

2112-1749

Cycle Electric Inc.
Charging Systems for American V-twins MADE IN U.S.A.

3-PHASE 38A CHARGING KITS

- Get more power out of a smaller stator
- Kits deliver 17A at 1000 rpm and 38A at 2500 rpm

PART #	DESCRIPTION
CHARGING KITS	
2112-1749	Fits 80-88 FLT, 84-88 FXR 5-speed models only
2112-1750	For 84-99 FXST/FLST, 91-98 FXD/FXDWG

PART #	DESCRIPTION
REPLACEMENT REGULATOR	
2112-0145	For kit PART #2112-1750

Cycle Electric Inc.
Charging Systems for American V-twins MADE IN U.S.A.

CYCLE ELECTRIC ALTERNATOR KIT

- Kit includes stator, rotor, voltage regulator and mounting hardware
- Available with a black Cycle Electric rectifying regulator

NOTE: Adding electrical accessories increases amperage usage. When doing so, it is important to consider amperage ratings of switches and wires. If you draw too many amps through a switch or wire, it will heat up and may burn. Fuses and breakers are sized to protect wiring and switches. DO NOT CHANGE 30A MAIN BREAKER TO A 50A BREAKER. THE SWITCHES AND WIRING WILL NOT BE PROTECTED.

2112-1744

PART #	DESCRIPTION
FOR 70-84 FLH, 79-81 FXEF, 77-82 FXS, 71-78 FX, 74-84 FXE, 83 FXDG/FLHT/FLHTC, 70-80 FL, 84 FLHX, 80-82 FLHS, 80-82 FXB	
2112-1744	22A
FOR 84-99 FXST/FLST (LOW VOLTAGE)	
2112-1746	29A

PART #	DESCRIPTION
For 84-99 FX/FXR/FXD/FXDWG (EXCEPT FXST/FLST)	
2112-1745	32A
FOR 84-90 XL	
2112-1125	19A

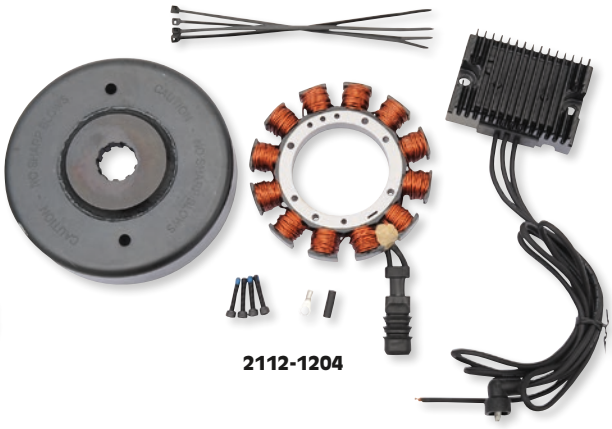
DS-195210

DRAG Specialties

HEAVY-DUTY 32A CHARGING KIT

- Kit includes an encapsulated magnetic rotor, precision-wound stator and an 89-99 32A chrome or black voltage regulator

PART #	DESCRIPTION
FOR 90-96 FLT, 84-96 FXST/FLST, 91-96 FXD/FXDWG, 84-94/99-00 FXR, 70-84 SHOVELHEAD W/ 32A SYSTEM	
DS-195210	W/ chrome regulator



2112-1204

- Features a thick 12,1 mm (0,476") center rotor as compared to a 5,6 mm (0,222") center OEM rotor

PART #	DESCRIPTION
FOR 90-96 FLT, 84-96 FXST/FLST, 91-96 FXD/FXDWG, 84-94/99-00 FXR, 70-84 SHOVELHEAD W/ 32A SYSTEM (CONT)	
2112-1204	W/ black regulator

RICK'S MOTORSPORT ELECTRICS

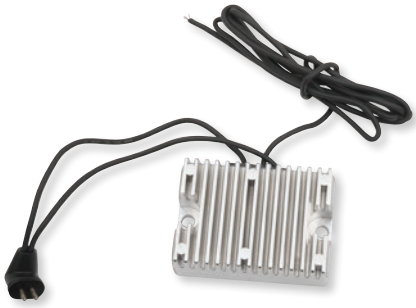
HOT SHOT SERIES UNIVERSAL LITHIUM-ION BATTERY-COMPATIBLE RECTIFIER/REGULATOR

- Designed as a universal piece, comes with wire leads only
- Connect your OE plug to the regulator harness via soldering
- The voltage set point is 14V +/- 0,2
- 50A unit made with Mosfet technology and designed for single phase systems with the correct voltage set point for lithium batteries

NOTE: Not for use with standard lead acid batteries.

NOTE: Some harness fabrication will be needed.

PART #	DESCRIPTION
2112-1631	For 81-99 Big Twin



RICK'S MOTORSPORT ELECTRICS

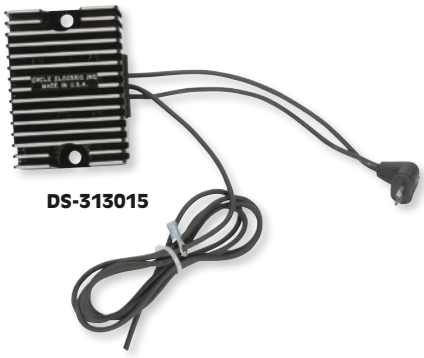
HOT SHOT SERIES REGULATOR/RECTIFIER

- Regulator/rectifiers are built to OEM specifications for a high-quality cost-effective replacement
- This direct replacement piece comes with the factory plug ends for an easy install; just unplug OE part and plug Rick's in
- High-performance, heavy-duty Hot Shot series version made with a special Mosfet technology for cooler running

PART #	DESCRIPTION
2112-1115	For 84-88 Evolution Big Twin; repl. OEM #74516-86

DS-313016

2112-0837



DS-313015

Cycle Electric Inc. Charging Systems for American V-twins MADE IN U.S.A.

CYCLE ELECTRIC RECTIFYING REGULATORS

- Control voltage on Harley-Davidson alternators, unlike other rectifiers or regulators that dump to ground and cause maximum stator current and higher temperatures
- Cycle Electric rectifying regulators block current to control voltage; this reduces stator current, resulting in low temperature and less drag on the motor, which means more efficient operation
- A lower-voltage style is available to lower the heat level in the battery where battery is enclosed in center of oil tank

PART #	DESCRIPTION	OEM REPLACEMENT PART #
STANDARD		
2112-0296	For 95-96 FLHT models w/ EFI	74505-95

Cycle Electric Inc. Charging Systems for American V-twins MADE IN U.S.A.

GENERATOR-MOUNTED REGULATORS

- Available for 12V applications in a black finish
- Updated end plate has an extra set of mounting holes to align the fins on the regulator with the fins on the engine
- If you have purchased a Cycle Electric generator since 1984, it may have the four-hole end plate
- Updated end plate is available separately if your current generator is not equipped with one (comes complete with bearing and seal)
- 12V regulators are available in a standard or low output style (for use with small batteries in wraparound oil tanks)

2113-0933

2113-0934

SLA MAX BGZ FACTORY-ACTIVATED AGM MAINTENANCE-FREE BATTERIES

- Provides maximum reliability and highest starting ability to all heavy-duty engines
- Designed with taller plates and built-in copper nuts terminals
- Superior capacity
- AGM construction (Absorbed Glass Material)
- VRLA battery (Valve Regulated Lead Acid)
- Sealed and factory activated
- Spillproof design
- Multi-positional fitment
- Ready and easy to use
- Increased power and extended life
- Extreme vibration resistance

NOTE: Factory-Activated batteries should be charged once a month when not in service.

PART #	FITS MODEL
2113-0933	For 97-98 FLT/FLHT/FLHR/FLTR
2113-0934	For 91-99 FXST/FLST, 91-98 Dyna
2113-0935	For 86-90 FLST, 84-90 FXST, 85 FXE

PARTS EUROPE

HEAVY-DUTY BATTERY KIT

- Parts Europe Heavy-Duty battery is built to the same exacting specifications and quality-control standards as OEM
- Rugged and provide more cranking power over standard batteries
- Lead calcium alloy reduces water loss and service by 66% compared to standard batteries
- Includes anti-sulfation chemical formulated to reduce sulfate crystal buildup on the battery plates
- Reduces self-discharge for longer time between charges
- Fiberglass separators improve acid flow
- Includes battery, pre-measured acid pack, red filler tube, hardware kit and clear vent tube

PART #	YUASA REF #	DESCRIPTION
2113-0408	Y50-N18L-A	For 80-96 FLT/FLHT

2113-0428

2113-0425

HIGH PERFORMANCE AGM MAINTENANCE-FREE BATTERIES

- Parts Europe is proud to offer a premium-quality, high performance maintenance-free battery
- Deliver additional cranking amps for vehicles that require extra starting power
- Special absorbed-glass mat battery eliminates water loss, permitting the battery to be permanently sealed once it is filled with acid
- Battery seals to prevent water loss
- Hold charge three times longer than conventional batteries

PART #	YUASA REF. #	DESCRIPTION
2113-0428	YTX24HL-BS	For 84-96 FLT/FLHT/FLHR
2113-0428	YTX24HL-BS	For 80-83 FLT/FLHT
2113-0425	YTX20H-BS	For 86-90 FLST, 84-90 FXST, 85 FXE

PART #	YUASA REF. #	DESCRIPTION
2113-0425	YTX20H-BS	For 82-94/99-00 FXR, 73-84 FXE
2113-0425	YTX20H-BS	For 79-85 XL/XLH

AGM MAINTENANCE-FREE BATTERY

- Parts Europe is proud to offer a premium-quality, maintenance-free battery at a great low price
- Special absorbed-glass mat battery eliminates water loss, permitting the battery to be permanently sealed once it is filled with acid
- Acid pack included
- Battery seals to prevent water loss
- Hold charge three times longer than conventional batteries

PART #	YUASA REF. #	DESCRIPTION
2113-0423	YTX20-BS	For 86-90 FLST, 84-90 FXST, 85 FXE
2113-0423	YTX20-BS	For 82-94/99-00 FXR, 73-84 FXE
2113-0423	YTX20-BS	For 79-85 XL/XLH

DRAG Specialties

PREMIUM PERFORMANCE BATTERIES

- AGM (Absorbed Glass Mat) separators with superior grid and component designs allow Drag Specialties to offer one of the most powerful batteries in the industry
- Improved charge recovery capability from a deeply discharged condition
- Longer shelf life
- Improved life cycle performance
- Extreme vibration resistance
- Factory-activated, spill-proof design
- Upgrade for customized motorcycles requiring the best performance

2113-0455

2113-0453

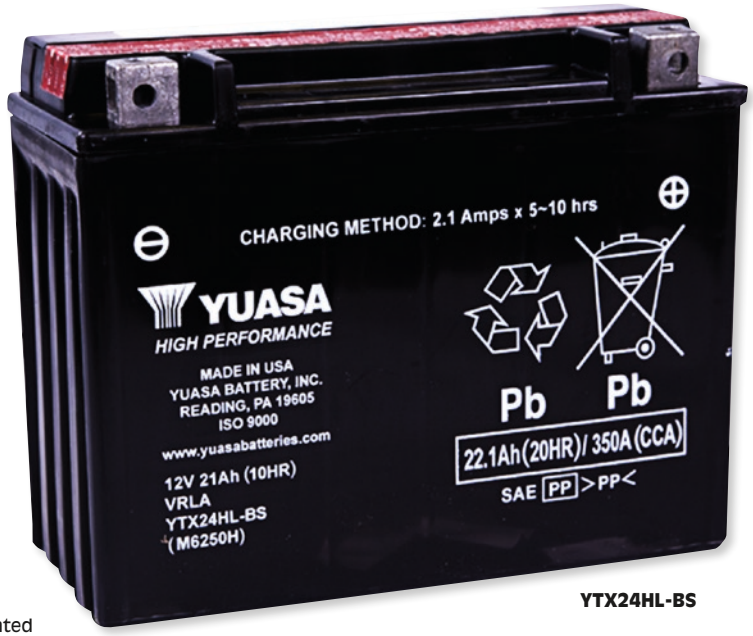
YUASA BATTERY



YTX24HL-BS

HIGH-PERFORMANCE AGM MAINTENANCE-FREE BATTERIES

- This new generation of maintenance-free batteries delivers higher cranking amps for vehicles that require extra starting power
- Additional cranking amps make these one of the most powerful batteries on the market
- Acid pack included, except where noted as Factory-Activated

NOTE: Factory-Activated batteries should be charged once a month when not in service.

PART #	DESCRIPTION
YTX24HL-BS	For 84-96 FLT/FLHT/FLHR
YTX24HL-BS	For 80-83 FLT/FLHT
YTX20HL-BS	For 91-99 FXST/FLST, 91-98 Dyna

2113-0672

2113-0671

CUSTOM BATTERY CABLE KITS

- Build custom-length cables for an exact fit
- Each kit contains the following: 7,6 m (25') cable (1), 6,3 mm (1/4") terminals (20), 7,9 mm (3/8") terminals (8), 9,5 mm (5/16") terminals (12), black heat shrink (40) and red heat shrink (12)
- Using 30,5 cm (12") cables as an example, this 7,6 m (25') custom cable kit will make 27 cables (a 30,5 cm [12"] cable uses 28 cm [11"] of cable and two terminal ends), for a substantial savings over precut lengths

NOTE: See Parts Europe Tire & Service catalog for crimping tool.

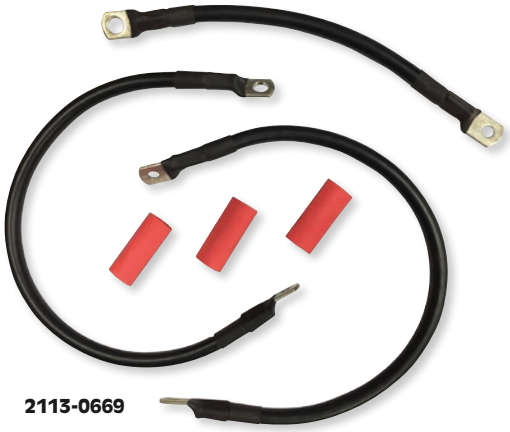
2113-0667



2113-0669

BATTERY CABLE KITS

- 4-gauge cable manufactured with pure electrolytic-grade, 36-gauge tinned copper strands for maximum current transfer and superior flexibility
- Increase starter performance by supplying maximum battery current to the starter motor
- Contain all battery cables to replace OEM cables

PART #	DESCRIPTION
2113-0661	For 93-98 FLT/FLHT; cable lengths 203 mm, 33 cm and 33 cm (8", 13", 13")
2113-0662	For 89-99 FXST/FLST; cable lengths 254 mm and 30,5 cm (10", 12")
2113-0664	For 91-93 FXD; cable lengths 203 mm, 203 mm and 38 cm (8", 8", 15")
2113-0667	For 84-88 FXST/FLST; cable lengths 203 mm, 38 cm and 43 cm (8", 15", 17")
2113-0668	For 82-88 FXR; cable lengths 30,5 cm, 40,5 cm and 40,5 cm (12", 16", 16")
2113-0669	For 65-84 FLH/FL; cable lengths 299 mm, 40,5 cm and 40,5 cm (9", 16", 16")
2113-0670	For 89-92 FLHT/FLT; cable lengths 84 cm and 84 cm (33", 33")

2113-0648

2113-0650

BATTERY CABLES

- Increases starter performance by supplying maximum battery current to the starter motor
- 4-gauge cable manufactured with pure electrolytic-grade, 36-gauge tinned copper strands for maximum current transfer and flexibility
- Specially rated 125 °C (257 °F), oil- and grease-resistant, ultra-flexible black jacket guarantees excellent performance
- All cables manufactured with 6,3 mm (1/4") terminal and 7,9 mm (5/16") terminal
- Sold each

NOTE: Cables do not have auxiliary wires.

PART #	LENGTH
2113-0648	178 mm (7")

SumaX

"EXTREME" DUTY BATTERY CABLES

- Flexible #2 gauge, 2000-strand copper wire
- 180A rating
- Black rubber-coated cables feature copper-coated tin lugs with glued heat-shrink sleeves to prevent corrosion

2113-0018

PART #	DESCRIPTION	CABLE LENGTHS
2113-0018	For 93-98 FLHT/FLT	33 cm/35,5 cm/203 mm (13"/14"/8")
7805-3020	For 89-99 FXST/FLST	254 mm/30,5 cm (10"/12")

TERRY COMPONENTS
FUEL / STARTING SYSTEMS FOR HARLEY-DAVIDSON® & BIG TWIN MOTORCYCLES

BATTERY CABLES

- Manufactured from 4-gauge, 1650-strand tinned copper wire with a super flexible silicone jacket
- Unique lug design (99,9% pure electrolytic copper) provides a positive connection with greater conductivity and dependable service
- These cables will deliver more cranking power with less voltage drop than any cable on the market today
- Available in black
- Cables are available in kits or individually
- Kits include cables for required stock applications

2113-0032

- Individual cables can be used for universal/ custom positive or negative applications

NOTE: Cables do not have auxiliary wire unless noted.

TERRY COMPONENTS
FUEL / STARTING SYSTEMS FOR HARLEY-DAVIDSON® & BIG TWIN MOTORCYCLES

BATTERY CABLE WITH AUXILIARY WIRE

- The perfect choice when doing custom wiring
- Positive battery cable with auxiliary wire eliminates stacking cables on the battery
- Perfect for wiring directly to the terminal block, regulator or any accessory
- Positive cable is 18K gold-plated and tinned copper 1666 strand Mega Cable
- Auxiliary wire is 12-gauge tinned copper 259 strand Mega Cable
- Negative battery cable is the perfect solution for the ground wire on custom bikes
- Eliminates poor electrical ground
- Install the 4-gauge wire to the transmission and the 12-gauge wire to any accessory for the ground

2113-0063

- Auxiliary wire measures 30,5 cm (12") L on both positive and negative battery cable wires

PART #	CABLE LENGTH
POSITIVE BATTERY CABLE	
2113-0055	20,5 cm (8")
2113-0056	25,5 cm (10")

REPLACEMENT BATTERY HOLD-DOWN BRACKET

- Made from 13-gauge steel
- Available in black powdercoat

PART #	DESCRIPTION
2113-0379	For 82-94, 99-00 FXR/FXRS/FXRT; repl. OEM #66183-82

OEM-STYLE BATTERY CUSHION

- Rubber battery cushion is acid-, oil- and heat-resistant
- Sold each

PART #	DESCRIPTION
DS-310480	For 85-94, L95-96 FXST/FLST; repl. OEM #66210-85B

BATTERY PAD

- 3 mm (1/8") low-density neoprene with pressure sensitive, removable liner on one side that exposes the adhesive for contact
- Pad is oversized so it can be trimmed into a top or bottom pad to fit all applications
- Can be cut into irregular shapes for anti-vibration padding, seat bottoms, dash panels, etc.
- Dimensions: 20,5 cm x 12,5 cm (5" x 8")
- Sold in 5 pk.

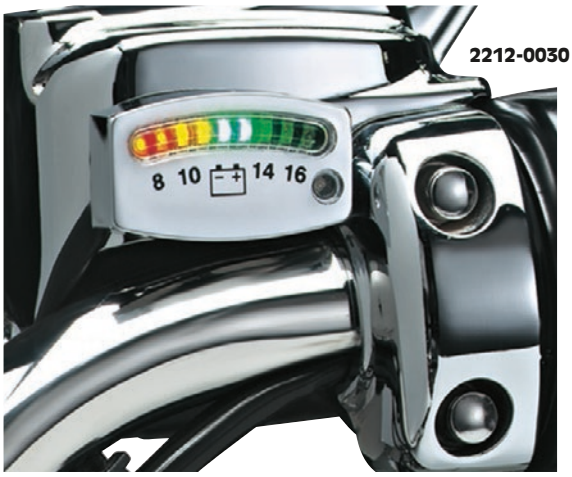
PART #	DESCRIPTION
2113-0077	Battery pad

KURYAKYN

LED BATTERY GAUGES

- Lets you know if your motorcycle's charging system is working with just a glance
- Green LED indicates normal operating range of 12,5 to 14,5V
- Amber LED warns the bike is not charging
- If reading drops below 10V or exceeds 15V, flashing red LED alerts the rider

2212-0030



PART #	DESCRIPTION
2212-0030	Chrome

2212-0029

- Simple two-wire connection
- Gauge dimensions approximately 51 mm L x 19 mm W x 5 mm H (2" x 3/4" x 3/16"); daylight sensor automatically adjusts LED brightness

PART #	DESCRIPTION
2212-0029	Black

VOLTAGE TESTERS

- Finds which line does not work
- Small and able to reach those hard-to-reach spots
- Works with 6V and 12V electrical systems
- Sold each unless noted; replacement bulbs sold in packs of 10

PART #	DESCRIPTION
3807-0247	Voltage tester 6V/12V
3807-0380	Voltage tester 6V/12V (5 pk.)

3807-0247

PB-02 POWER BOX JUMP STARTER

- Perfect back-up power solution able to deliver 600A for jump starting vehicles (motorcycles, cars, boats and more), charge USB devices (smartphones or tablets) and offer emergency lighting
- Compact and powerful booster rated at 600A (1200A peak current)
- Up to 20 jump starts in one charge
- Designed for gas and diesel engines
- Very safe: smart cable with spark-proof connection and reverse polarity protection
- Power supply for small electronic devices via their USB ports (most smartphones, earphones, portable gaming devices, MP3/MP4 players can be charged with the included accessories)
- LED flashlight function with 3 modes (powerful constant light/strobe/SOS)
- LED display with battery state of charging indication and output port used
- Compatible with lead acid batteries (SLA, GEL, AGM, EFB, MF, DRY, Ca/Ca)

PART #	DESCRIPTION
2113-0913	Power Box PB-02

BS 30 SMART BATTERY CHARGER/MAINTAINER

- Easy to use: connect and forget
- Includes nine stages of charge to enhance the performance of all your powersports batteries
- Designed for batteries up to 60Ah
- Auto detect lead acid or lithium technology
- Adaptable charging algorithm for lead acid and lithium (LiFePO4)
- Safe: connection spark free, reverse polarity, short circuit and internal overheat protection
- 12V smart battery charger and maintainer rated at 3A
- Includes one clamp set and one fused ring terminal set
- Multiaxis hook

PART #	DESCRIPTION
3807-0706	UK plug

BS 10 SMART BATTERY CHARGER/MAINTAINER

- Ideal for maintenance
- Very safe and compact
- Easy to use: connect and forget
- Includes nine stages of charge to enhance the performance of all your powersports batteries
- Designed for batteries up to 20Ah
- Auto detect lead acid or lithium technology
- Adaptable charging algorithm for lead acid and lithium (LiFePO4)
- Safe: connection spark free, reverse polarity, short circuit and internal overheat protection
- 6V and 12V smart battery charger and maintainer rated at 1A
- 6V and 12V manual switch selection
- Includes one clamp set and one fused ring terminal set

RIVCO

MAGNUM ELECTRIC HORN

- Featuring an output of 118 dB, these are the loudest electric horns you can buy
- Direct replacement for most 12V electric horns
- Horn set includes two chrome-finish horns (one high and one low tone), mounting brackets and installation instructions
- Each horn measures 76 mm x 76 mm x 76 mm (3" x 3" x 3")
- Uses the stock horn button; bolt-on, plug-in installation
- Hardware kits (sold separately from the horn set) include 30A relay and fuse, all model-specific, pre-cut 14-gauge wiring, mounting hardware and detailed instructions

NOTE: The use of a 30A relay is recommended with Horn Set (not included with the horn set, but included in each wiring/mounting kit) to achieve maximum volume and protect the stock electrical system.

- Billet aluminum body, water-resistant switch, stainless internal components with 61 cm (24") copper wire for dependable operation
- For normally closed battery-type ignition
- Optional wristband tether is easy to attach, fits over bulky gloves and offers hook-and-loop adjustment

PART #	DESCRIPTION
TETHER CORDS	
2106-0030	Optional tether cord w/ wristband

KILL SWITCH HOW TO ORDER

NOTICE TO CUSTOMERS: There are two types of stop switches: (1) Normally Open (NO) or (2) Normally Closed (NC).

Switches in this catalog are typically of the Normally Open (NO) type. They work by GROUNDING the primary ignition lead when activated.

Note that they will not work on electrical systems requiring a Normally Closed (NC) switch, which works by OPENING the circuit when activated. NC switches are typically used on battery type ignitions, which may have an ignition key as an identifier. NC switches are generally found on newer machines. If in doubt, check your machine's wiring schematic.

mo.UNIT BLUE DIGITAL CONTROL CENTER

- Equipped with all mo.unit basic features
- Encrypted Bluetooth® Low Energy connection for lower smartphone and energy usage
- Manage setup and alarm with mo.ride smartphone app
- Features Keyless Go, on-board electrical system switches on when approaching bike with smartphone
- Gives real-time audio fault messages through helmet headset
- Displays parking position and vehicle location
- Adjustable alarm system mode and sensitivity settings
- Operated using buttons or handlebar switches
- Operates with push-button switch gear or with conventional switch gear
- Dimensions: 101 mm L x 61 mm W x 28 mm D

PART #	DESCRIPTION
2020-1536	mo.unit blue digital control center

H-D HANDLEBAR TOP CLAMP

- Milled aluminum billet handlebar top clamp for all H-D models with 25,4 mm (1") handlebars
- Replaces the upper OEM part of the original handlebar clamp to incorporate the Motoscope Mini, sold separately; see DASHES & GAUGES section
- Features five LED indicator lights
- Includes four matching bolts in stainless steel for the clamp, two diodes if only one flasher indicator is used, two bolts to attach the instrument and installation instructions
- Black finish

PART #	DESCRIPTION
2201-0107	H-D handlebar top clamp

mo.LOCK NFC DIGITAL IGNITION LOCK AND ACCESSORIES

- Contactless digital ignition lock
- No more fumbling with keys or mechanical wear on lock cylinders
- The ignition and power supply of the bike is switched on when within 30 to 50 mm of the digital key/transponder
- Uses the most recent NFC technology (Near-Field-Communication)
- Each key is singular by its digital code and cannot be spoofed
- Includes one master key and one user key that are the size of a key tag
- Keys do not require batteries
- Optional wiring harness kit ensures seamless installation process
- NFC connection cable is a high quality, 2 m long, 3-wire cable for connecting the mo.lock NFC and fits the included cable cover

2105-0133

PART #	DESCRIPTION
2105-0133	mo.lock NFC digital ignition lock

PART #	DESCRIPTION
2105-0135	mo.lock NFC connect cable

mo.RELAY

- Small, compact relay
- Designed to control almost any kind of device including high-beam light, driving light, horn, ignition, etc.
- Moves high loads and currents directly to the switched devices
- Enhances the electrical reliability of your bike
- Reduces voltage drops in power supply
- Load and current at the handlebar switch gear and ignition lock is reduced to a minimum, allowing small diameter wiring at the switch gear for easier wiring
- CNC-machined and black anodized
- Molded internally, waterproof and vibration-resistant
- Two red cables allow the connection of devices for 12V power supply and up to 20A load current
- Two black cables allow the connection of the switch gear
- Not intended as a control unit for push-buttons
- Easy to install

PART #	DESCRIPTION
2020-0462	mo.relay

mo.FLASH DIGITAL FLASHER

- Replaces all conventional flasher relays; only uses two cables
- Perfect for custom bikes and modifications with limited space
- Route through the handlebar, frame tubing or in the cable harness
- Constant and correct flashing rate; suitable for almost all LED blinkers and all micro-blinkers
- Works with four signal lights or two handlebar end blinkers and has an immediate, lossless flasher response
- Features an automatic overload protection; does not generate heat during operation

PART #	DESCRIPTION
2020-0463	mo.flash digital relay

- Takes 5V to 18V to operate; suitable for 6V flashers
- Water- and short circuit-proof
- Does not require load resistors or similar accessories
- PART #2020-0463 is suitable for all LED blinkers, micro blinkers, halogen blinkers and bulb blinkers from 1W to 100W
- mo.wave PART #2020-0464 is the first flasher relay to allow a smooth fade in/fade out with your flash lights

PART #	DESCRIPTION
2020-0464	mo.wave digital relay

www.elektronikbox.de

ELEKTRONIKBOX WIRING HARNESS CONTROLLERS

- Cut down on wiring clutter and simplify electronic controls
- Version H has the following functions: switch and push-button lighting, flasher control, emergency flasher, 2x ignition flasher, comfort flasher, horn control, starter relay control
- Version D has the following functions: switch and push-button flasher control, auto flasher, emergency flasher, adjustable "low light" dimmer, low and high beam control, starter relay control, horn control, brake light control, LED power outlet status lights

THUNDERMAX U. S. A.

ELECTRONIC HARNESS CONTROLLER

- Compact design makes it easy to hide on a custom motorcycle
- Performs all fuse, relay and signal-canceling functions in one simple package
- Allows a dual-filament bulb to be used in three ways: tail, brake and turn signal (excluding the need for a center brake light); includes ribbon cable for integrating generic indicator lights
- Weather-resistant connections for trouble-free use in extreme environments
- Trim-to-fit harnesses allow installation on most custom bikes

PART #	DESCRIPTION
2120-0675	"D" model electronic controller w/ ribbon cable for indicator lights

THUNDERMAX U. S. A.

MICRO HARNESS CONTROLLERS

- Billet 6061-T6 aluminum housing and 213 cm (7') trim-to-fit wiring design is compact and easily hidden on custom motorcycles
- Performs all fuse, relay (includes starter relay) and signal-canceling functions in one simple package
- Provides multiple flasher combinations (signal canceling, hazard lights, running lights and turn signal) from one dual-filament bulb
- Utilizes relays to distribute all power functions, thus eliminating the need to run large wires to all the switches
- Can be used with micro switches
- PART #2120-0086 includes brake light module for separate brake light output
- Optional push-button momentary switch converter available separately (PART #2120-0085)

PART #	DESCRIPTION
2120-0086	For choppers and custom bikes w/ separate brake light

2120-0086

- Weather-resistant connections for trouble-free use in extreme environments
- Designed for U.S. and European applications
- Weighs 2,3 lbs

PART #	DESCRIPTION
2120-0023	For choppers and custom bikes w/o separate brake light

THUNDERMAX U. S. A.

PUSH-BUTTON CONVERTER

- Convenient way to wire up push-button hand control switches
- Takes momentary signal from a push-button hand control switch and converts it to a standard "latching" signal
- Design is fully circuit-protected and has no relays to wear out
- Compact size; measures just 50,8 mm L x 15,2 mm W x 12,7 mm H (2" x 0,6" x 0,5")
- Simple six-wire hookup; wiring diagram included
- Designed for use with 12V electrical systems such as Thunder Heart's Micro Harness Controller (sold separately); 1A maximum load

PART #	DESCRIPTION
2120-0085	Push-button converter

DRAG Specialties

HANDLEBAR WIRING HARNESS EXTENSION KIT WITH SWITCHES AND HARDWARE

- Available in a complete 122 cm (48") kit for left and right sides
- Completely soldered together, ready to install; color-coded to match OEM specifications
- Includes switches, wire connectors, buttons, screws, stoplight switch rubber boot and switch retaining plates

PART #	DESCRIPTION
DS-305202	For 73-81 Big Twin and XL

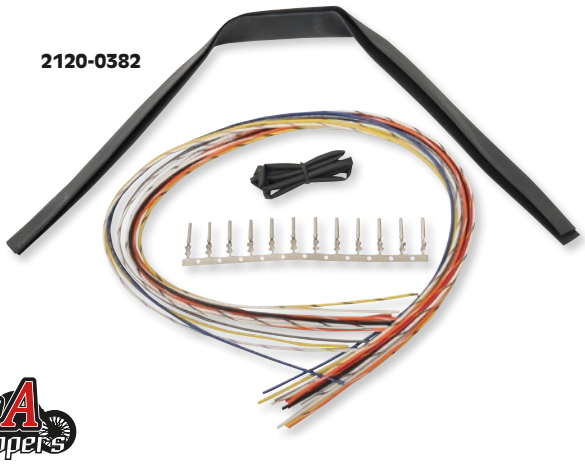
DRAG Specialties

EXTENDED HANDLEBAR WIRING HARNESS

- Replaces stock harness when converting to taller handlebars
- Has 122 cm L (48") wires and 96,5 cm L (38") black covering, which allows the installation of almost any height bars; it comes with connectors and tie wraps

PART #	DESCRIPTION
DS-305201	For 82-95 H-D, 122 cm L (48")

2120-0382



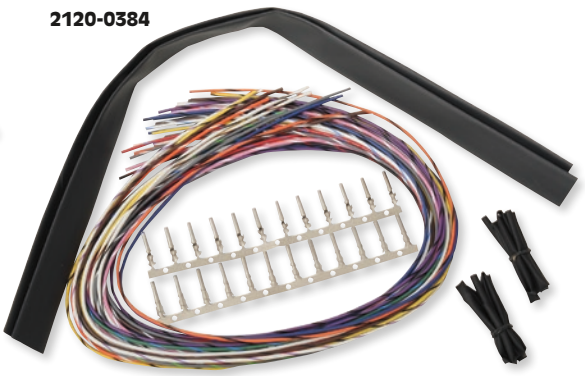
LA choppers

HANDLEBAR EXTENSION WIRING KITS

- Saves time by streamlining handlebar wiring jobs
- Kit includes all the materials necessary to extend the wires for hand controls (does not include extensions for Throttle-By-Wire controls if applicable)
- Terminals crimped on one end

PART #	DESCRIPTION
2120-0382	For 96-99 Evolution Big Twin (except FLHT/FLTR/FLHR)

2120-0384



- Cut-to-length design will accommodate up to 51 cm (20") Ape Hanger handlebars
- Includes OEM color matching wires and heat shrink

PART #	DESCRIPTION
2120-0384	For 96-98 FLHT/FLTR/FLHR

COMPLETE BIKE HARNESS

- The perfect start for any project bike or OEM model rewire
- Complete bike harness w/ starter relay, 3-circuits, self-canceling and run, brake and turn signal module
- Works with any stand-alone, Evo or Twin Cam ignition system
- Designed to operate with a two-position key switch
- Key start switches can be used with a simple wiring modification (ignition system and key switch are not included with this harness)
- OEM color-matching harness with 11-second self-canceling turn signal module
- Fuse block holds a full size, commonly available and replaceable starter relay and three ATO fuses
- A 30-amp circuit breaker is installed and is ready for any regulator/charging system
- Oil, neutral, high beam and turn signal indicator wiring
- Color-matching handlebar switch wiring, as found on most 96-13 models (except Dresser models)
- Headlight wiring with headlight socket and terminals
- Front turn signal connectors and terminals
- Rear fender harness with connectors and terminals
- Key switch wiring with ring terminals
- Coil wire with ring terminals, tachometer, horn, oil sending unit, brake switch and neutral switch wiring with terminals
- 4,8 mm (3/16"), 6,4 mm (1/4"), 9,5 mm (3/8"), and 12,7 mm (1/2") heat shrink sections included
- Heavy gauge 12(+) power and (-) ground wires with terminals for battery connection
- PART #2120-0769 has provisions for front and rear turn signals which function as run, brake, turn signal. OEM color matching harness with 11-second self canceling turn signal module
- PART #2120-0973 has no turn signal wiring, only indicator wiring

PART #	DESCRIPTION
2120-0769	Complete harness

PART #	DESCRIPTION
2120-0973	Indicator only

2120-0225

READY-TO-INSTALL HANDLEBAR WIRE EXTENSION HARNESSES

- All the items needed to successfully extend the wiring to a set of OEM H-D handlebar switches
- Harnesses include both male and female Molex terminals crimped on each end
- Kits for all except FLHT and FLT include wire heat shrink, a length of 10 mm (3/8") heat shrink and color-matching wire
- Kits for FLHT and FLT include wire heat shrink, a length of 13 mm (1/2") heat shrink and color-matching wire

PART #	DESCRIPTION
FOR 96-98 FLHT/FLT (24 WIRE)	
2120-0225	+102 mm (4")
2120-0226	+203 mm (8")
2120-0227	+30,5 cm (12")
2120-0228	+38 cm (15")

PART #	DESCRIPTION
FOR 99-99 EVOLUTION BIG TWIN (EXCEPT FLHT/FLT) (12 WIRE)	
2120-0233	+102 mm (4")
2120-0234	+203 mm (8")
2120-0235	+30,5 cm (12")
2120-0236	+38 cm (15")

2120-1021

HANDLEBAR SWITCH WIRE EXTENSIONS

- 61 cm (24") and 122 cm (48") wire extensions
- For cut and solder applications
- Wire ends are stripped but left with slugs to prevent fraying

PART #	DESCRIPTION
FOR 82-95 BIG TWIN (EXCEPT DRESSER)	
2120-1020	61 cm (24") extension

PART #	DESCRIPTION
FOR 82-95 BIG TWIN (EXCEPT DRESSER) (CONT)	
2120-1021	122 cm (48") extension

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

NAMZ Custom Cycle Products

UNIVERSAL HANDLEBAR SWITCH WIRE EXTENSIONS

- Designed for those who would rather stagger-cut and solder in order to lengthen their wiring for taller bars
- Wires are pre-stripped with the slug left in place to prevent fraying, and the other end has machine-crimped terminals that can easily be re-installed into the factory connector
- All kits come 100% complete with OEM color matching wire and all of the heat-shrink tubing needed to do the job right
- 61 cm (24") universal handlebar switch wire extensions; fits up to 51 cm (20") Apes

PART #	DESCRIPTION
2120-0497	For 96-98 FLHT

PART #	DESCRIPTION
2120-0496	For 96-99 Evolution Big Twin (except FLHT)

2120-0496

ALLOY ART MFG. PRIDE & QUALITY EST. 1999

EXTENDED HANDLEBAR WIRING HARNESS

- Extended harness simplifies handlebar swaps that require longer wiring
- Color coded to match OEM wiring; measures 91 cm (36") in length

PART #	DESCRIPTION
2120-0022	For 96-98 Big Twin

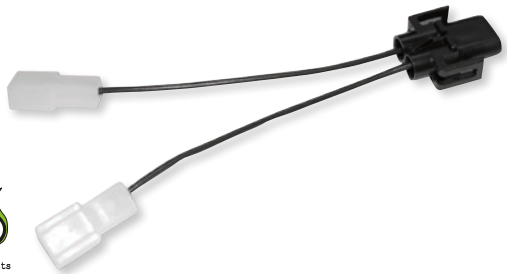
NAMZ Custom Cycle Products

MOMENTARY SWITCH CONVERTER

- Intended for custom applications where momentary switches are used for a HIGH/LOW headlight switch and RUN/KILL switch
- Module converts the momentary switch into a HIGH/LOW latching and an ON/OFF latching for a run switch

PART #	DESCRIPTION
2050-0244	Momentary switch converter

NAMZ Custom Cycle Products

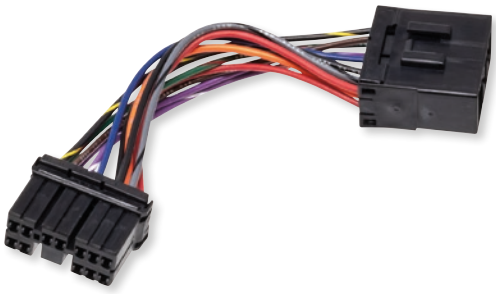


AUXILIARY LAMP WIRING HARNESS

- Allows mounting of late-style 11,5 cm (4½") auxiliary lamps equipped with spade connectors on pre-05 models
- Sold each
- Requires two harnesses

PART #	DESCRIPTION
2120-0604	Auxiliary lamp wiring harness; repl. OEM #68355-05

NAMZ Custom Cycle Products



PASSING LAMP CONTROL HARNESS

- Allows the use of passing lamps while the high beam is on
- Plug-and-play installation

PART #	DESCRIPTION
2120-1118	For 98 FLHT/FLHR

2120-0647

Custom DYNAMICS

2001-1264

LED HEADLAMP ADAPTER HARNESS

- Required when replacing the stock dual-halogen headlamps with an LED headlamp or any other H4 based headlamp
- Sold each

PART #	DESCRIPTION
2120-0647	H4 to Delphi (flat 4-pin) adapter

PART #	DESCRIPTION
2001-1264	H9/H11 to H4 adapter

NAMZ Custom Cycle Products

FRONT TURN SIGNAL EXTENSION HARNESS KITS

- A must when installing taller handlebars
- Intended for front turn signals mounted on handlebar switch housings
- No crimping necessary

PART #	DESCRIPTION
FOR 96-99 SOFTAIL, 96-96 DYNA	
2120-0344	+102 mm (4")

PART #	DESCRIPTION
FOR 96-99 SOFTAIL, 96-96 DYNA (CONT)	
2120-0345	+203 mm (8")

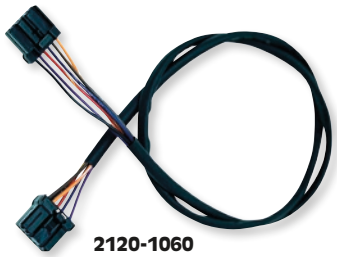
HARNESS TURN SIGNAL TAP

- Front turn signal tap
- For adding additional front turn signals
- Plug-n-play

PART #	DESCRIPTION
2120-1116	For 96-98 FLHT/FLHR

REAR WIRING HARNESSES AND ADAPTERS

- Plug-n-play installation
- Wiring matches OEM color-coding
- Connects to rear taillight circuit board
- Adapters allow Plug-n-Play connection of 10-20 FLTRX/FLHX OEM harness to models listed
- Harnesses and adapters sold separately



PART #	DESCRIPTION
WIRING HARNESS	
2120-1060	For 97-98 FLHR, 96-99 FLST, 97-98 FXD/FXDWG

PART #	DESCRIPTION
WIRING HARNESS ADAPTERS	
2120-1058	For 97-98 FLHR/FLHT/FLTR using a 14-20 style harness
2120-1059	For 97-98 FLHR/FLHT/FLTR using a 10-13 style harness

REAR FENDER PIGTAIL

- Ideal, plug-n-play solution for adding additional turn signals to saddlebags
- Uses OEM connectors and provides a right and left detachable turn signal pigtail that can be routed anywhere
- Factory colors, no other modifications necessary
- Universal applications

NOTE: Not for use with LED lights.

PART #	DESCRIPTION
2120-0679	For 96-98 FLHT

CONNECTORS WITH WIRE PIGTAILS

- OEM-style and Delphi connectors with 45,5 cm (18") wire pigtails
- Wiring matches Harley-Davidson OEM colors for easy installation

PART #	DESCRIPTION
OEM-TYPE CONNECTORS	
2120-0824	For 95-99 Evolution Big Twin, OEM-type idle speed control actuator and ignition coil Delphi connector; repl. OEM #72263-95
2120-0823	For 95-99 Evolution Big Twin, OEM-type throttle position sensor (TPS) Delphi connector w/ terminals; repl. OEM #72280-95
DELPHI CONNECTORS	
2120-0822	For 98-99 Evolution Big Twin, connects map sensor; repl. OEM #72230-98

Y-POWER TAP HARNESSES

- Gives you two available ports to tap for 12V switched power; works great for testing, using the OBDP and keeping your optional accessory plug in at the same time

PART #	DESCRIPTION
2130-0138	For 94-98 FLT/FLHT/FLHR/FLTR

DISCLAIMER: SEE PAGE 5 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATORY COMPLIANCE INFORMATION.

All part numbers in BLUE are new for the OldBook.

MULTI-LOCK BUILDERS KIT

- AMP Multi-Lock connectors are the direct H-D replacements that have been used since 1996
- These non-waterproof connectors are used on every factory model
- Includes all necessary wire seals, wedgelocks and crimp terminals
- Includes eight 8-position plugs, eight 6-position plugs, eight 4-position plugs, eight 3-position plugs, eight 2-position plugs and 100 terminals for plugs and caps
- Connectors also available in packs of five or individually
- Crimp terminals are sold separately

Custom DYNAMICS

POSI-LOCK® WIRE CONNECTORS

- Superior connection to crimping
- Wire ends are locked between opposing cone shapes when hand-tightened

PART #	DESCRIPTION
2120-0547	Lock it 24 to 18ga (9 pk.)

PART #	DESCRIPTION
2120-0548	Tap it 22 to 20ga (6 pk.)

Custom DYNAMICS

WIRING CAGE CLAMPS

- Excellent for joining multiple wires together (max five 24 AWG wires per port)
- Spring clip connector retention
- Tin over copper contact finish
- Stainless steel contact material
- Current rating of 20A
- RoHS compliant
- Sold in 10 pk.

PART #	DESCRIPTION
2120-0562	3-spot

DAYTONA

SLIM MOUNT USB POWER SOCKETS

- Two USB power sockets with a slim size and a clean appearance
- Handle clamps are compatible with sizes 22,2 mm (7/8") and 25,4 mm (1") and can be mounted on a wide range of vehicles
- 1 x USB-A port
- 1 x USB-C port
- Type-C USB PD (Power Delivery) and Type-A QC 3,0 dual port
- ABS housing
- IPX6 water resistance
- Powers on with ignition key
- Relay kit included
- Input voltage: 12VDC
- Output: 5 V/3 A, 9 V/3 A,12 V/2,5 A, Max. 60 W(30 W USB-A, 30 W USB-C)

PART #	DESCRIPTION
2130-0411	Slim mount USB power sockets

2130-0133	For 32 mm (1 1/4") handlebars

PART #	DESCRIPTION
2130-0134	For 82-99 H-D clutch/brake perch

NAMZ Custom Cycle Products

DUAL USB CHARGING PORT

- Mounts to panel
- Charge two devices at once
- Includes O-ring and lock nut
- 5V

PART #	DESCRIPTION
2130-0249	Dual USB charging port

NAMZ Custom Cycle Products

ON BOARD POWER PORT

- Plugs into on-board diagnostic port
- Does not require cutting/splicing of wires
- Acts like a cigarette lighter port in your automobile; works great for powering and charging accessories while riding

PART #	DESCRIPTION
2130-0101	For 94-98 FLT/FLTR/FLHR/FLHT; repl. OEM #91843-97

NAMZ Custom Cycle Products

UNIVERSAL USB POWER/CHARGING PORT

- When you wind up in the middle of nowhere, having a charged cell phone is key
- Even if you listen to your MP3 player, this universal charger is a must
- Simply plugs into any cigarette lighter port, or use a NAMZ Power Port for an additional power source
- Does not include charging cable

PART #	DESCRIPTION
2130-0117	Universal USB power/charging port

NAMZ Custom Cycle Products

UNIVERSAL USB EXTENSION CABLE

- If you ever plan to switch over to an aftermarket radio or head unit and plan on using an MP3 adapter, this handy little cable is a must
- Simply plug this 305 cm (10') universal USB male-to-female extension cable into the radio and run the cable to a pack, keeping your precious audio files safe and sound

PART #	DESCRIPTION
2120-0545	305 cm (10') universal USB male-to-female extension cable

FLOSSER

12V CIGARETTE LIGHTER PLUG

- Charge any electrical device on the bike
- Accepts any cable, easy installation
- Works for both Euro and small size cigarette lighters
- Comes with 8A fuse included for additional safety
- Sold each

PART #	DESCRIPTION
2130-0185	12V cigarette lighter plug

DRAG Specialties

UNIVERSAL MOISTURE-RESISTANT CIGARETTE LIGHTER

- Features a rubber seal/cap to keep moisture out
- Kit includes a lighter, fuse holder, 10A fuse and wire

PART #	DESCRIPTION
DS-272321	Lighter kit

JETSTREAM TURN SIGNALS

- "IC"-chip technology
- 32 MHz real time microprocessor controlled
- Kellerman HighPower LED technology
- Silent-Current, advanced Power Saving algorithm
- High measure of visibility across a wide-angle range
- Suitable for 12VDC
- Flow-optimized metal housing, high-quality manufacturing
- M8 x 20 mm thread
- Sold individually
- ECE approved

PART #	DESCRIPTION
2040-2905	Jetstream DF 3-in-1 rear turn signal/rear light/break light (amber/red)
2040-2906	Jetstream front/rear turn signal (amber)

BULLET 1000® DARK

- Unique and homogeneous light ring with a tinted glass
- HPT® - Homogenous Projection Technology
- Kellermann HighPower LED technology
- Longlife Protection Guard®, IC operated, 330kHz
- High-quality metal housing
- Suitable for 12VDC applications
- With M8 x 20 fastening screw
- Sold each

PART #	DESCRIPTION
2020-1680	Bullet 1000® Dark

BULLET 1000® RB

- Replaces the existing rear and brake light
- Unique and homogeneous light ring
- HPT® - Homogenous Projection Technology
- Kellermann HighPower LED technology
- Longlife Protection Guard®, IC operated, 330kHz
- In a black high-quality metal housing
- Suitable for 12VDC applications
- Sold each

PART #	DESCRIPTION
2020-1681	Bullet 1000® RB

ATTO® LIGHTS

2040-2126

2040-2127

2010-1361

- Sensationally small, spectacularly bright
- EXtranz® - Extreme Optical Transparency Technology
- Kellermann HighPower LED technology
- 330kHz
- High-quality metal housing
- Suitable for 12VDC applications
- With M5 x 0,5 x 6,6 fastening screw
- Dimensions: 14 mm (0,55") L x 10 mm (0,4") D
- Glass diameter 7,8 mm
- ECE approved

PART #	DESCRIPTION
2010-1384	Indicator, clear lens, chrome finish
2040-2126	Indicator, clear lens, black finish

10-LED 55 MM L (2,17")	
2040-0924	Amber/amber
2040-0925	Amber/clear
2040-0927	Red/smoke
20-LED 85 MM L (3,35")	
2040-0934	Amber/clear

PART #	DESCRIPTION
30-LED 11,5 CM L (4,53")	
2040-0939	Amber/clear
2040-0940	Red/red
45-LED 16 CM L (6,30")	
2040-0944	Red/red
75-LED 25 CM L (9,84")	
2040-0949	Red/smoke

PART #	DESCRIPTION
100-LED 32,5 CM L (12,80")	
2040-0922	Red/red
2040-0923	Red/smoke
115-LED 37 CM L (14,60")	
2040-0930	Red/red

DUAL CONVERTERS

PART #	DESCRIPTION	PART #	DESCRIPTION	PART #	DESCRIPTION	PART #	DESCRIPTION
2050-0097	For 5 to 10 LEDs	2050-0098	For 15 to 20 LEDs	2050-0099	For 30 to 60 LEDs	2050-0100	For 65 to 100 LEDs

All part numbers in BLUE are new for the OldBook.

TRUFLEX® 2-SECTION LED STRIP

- Flexible light strip with red tubing
- Red LEDs split in the center for turn signal
- Pre-taped for mounting on back surface
- Use with dual converter PART #2050-0099 for dual intensity function (sold separately)
- SMART Triple Play® module required for run, brake & turn signal function (sold separately)
- Dimensions: 37 cm L x 9 mm W x 8 mm H (14,6" x 0,34" x 0,30")
- Sold each

PART #	DESCRIPTION
2040-0928	LED light strip w/ 55 red LEDs/55 red LEDs with red tubing (28 cm L (14"))

2040-2000

TRUFLEX II® FLEXIBLE LED STRIPS

- Four times brighter than the original TruFLEX® lights
- Highly flexible with a unique faceted design to increase the viewing angle
- Available with red or amber LEDs in a choice of UV-stable amber, red or smoke tubing
- Each strip is pre-taped with automotive-grade tape
- Strip dimensions: 8 mm W x 8 mm H (0,33" W x 0,33" H)
- PART #s 2050-0274 and 2050-0275 convert two-wire TruFLEX II® to three-wire – low, high, and ground (sold separately)
- Sold each

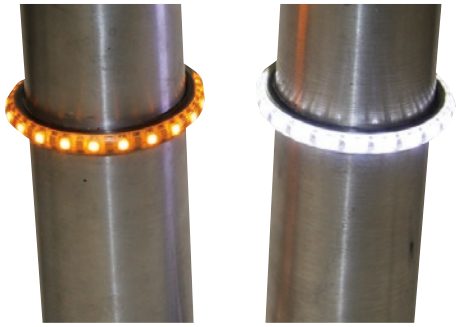
PART #	DESCRIPTION
40-LED 14,5 CM L (5,875")	
2040-1999	Amber/smoke

PART #	DESCRIPTION
40-LED 14,5 CM L (5,875") (CONT)	
2040-2000	Red/red

PART #	DESCRIPTION
40-LED 14,5 CM L (5,875") (CONT)	
2040-2001	Red/smoke

TRUWRAPZ® LED TURN SIGNALS

- 41 mm dual-function LED fork wrap-around turn signals
- Feature white running lights with amber LED turn signals in a smoke tube
- White running light LEDs are automatically deactivated when the turn signals or hazard warning lights are activated, and automatically reactivated when the turn signals or hazard warning lights are deactivated
- LEDs function with 4-way hazards and alarms when bike is on or off
- Easy to install, just clean surface with enclosed 3M™ Primer, peel liner from 3M tape, and wrap around the fork tubes
- Include 6 Posi-Taps for simple tap-in installation or solder connectors with enclosed adhesive-lined heat shrink tubing
- Include stainless steel wire loom and chrome tie wraps for a professional clean installation
- Sold in pairs



PART #	DESCRIPTION
2040-1496	TruWrapz® LED turn signals

UNIVERSAL LED CLUSTERS

- Wide-angle super-bright LEDs
- Each cluster has three wires (low, high, ground) and can be used as single or dual intensity
- 25 mm (1") diameter features 16 LEDs
- 32 mm (1,25") diameter features 25 LEDs
- 46 mm (1,8") diameter features 48 LEDs
- Sold each

2060-0257

2060-0258

PART #	DESCRIPTION
25 MM (1") DIAMETER	
2060-0256	Amber
2060-0257	Red

PART #	DESCRIPTION
32 MM (1,25") DIAMETER	
2060-0258	Amber
2060-0259	Red

All part numbers in BLUE are new for the OldBook.

GENESIS 21,5 CM (8,5") AUXILLIARY LED PLASMA RODS

- Single row of dual-intensity LEDs
- Designed to vertically side-mount between the rear fender and saddlebags
- Red or smoke faceted lens
- Quick disconnects allow plug-and-play installation on models with Custom Dynamics Plasma rod adapter (sold separately)
- Disconnects can be removed for custom 3-wire installation
- Dimensions: 21,5 cm L x 10,16 mm W x 10,16 mm H (8,5" x 0,4" x 0,4")
- 117 cm (46") 26 AWG wire
- Sold in pairs

PART #	DESCRIPTION
2040-3243	Red

PART #	DESCRIPTION
2040-3244	Smoked

DUAL-COLOR PLASMA RODS™

- Plug-and-play with model specific wiring adapters sold separately
- Can be used just about anywhere and work great between saddlebags and fender
- Pre-taped for easy installation
- Red run/brake LEDs, amber turn signal LEDs
- Smooth light output
- No drilling required
- Plasma rods sold in pairs, wiring adapter sold each

NOTE: Wiring adapter PART #2050-0429 required to allow run/brake/ turn operation (sold separately; one unit per bike).

PART #	LENGTH
PLASMA RODS	
2040-2702	20,5 cm (8") red/amber
2040-2703	25,5 cm (10") red/amber

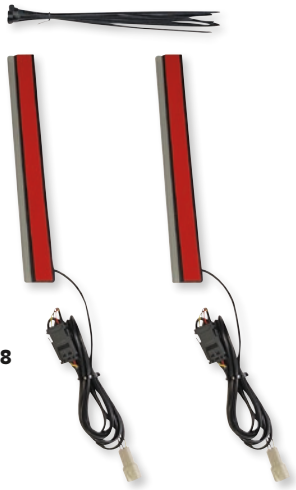
PART #	LENGTH
PLASMA RODS (CONT)	
2040-2704	30,5 cm (12") red/amber
2040-2705	35,5 cm (14") red/amber

PART #	LENGTH
ADAPTER	
2050-0429	For 98 FLTR, 97-99 FLHT/C, 96-99 Softail and 97-98 Dyna

PLUG-AND-PLAY RED PLASMA RODS™

- Dual-intensity red LEDs with smoked lens
- Smooth light output
- No drilling required, attach with tape
- Sold in pairs

NOTE: Requires use of wiring adapter PART #2050-0421 or 2050-0432 (sold separately).

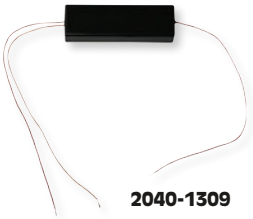


PART #	LENGTH
2040-2688	20,5 cm (8")

PART #	LENGTH
2040-2690	30,5 cm (12")

PLASMA RODS™ DUAL CONVERTERS

- Convert two-wire to three-wire for running-brake applications on Custom Dynamics Plasma Rods™



PART #	DESCRIPTION
2040-1309	20,5 cm (8")

PART #	DESCRIPTION
2040-1310	25,5 cm - 35,5 cm (10"-14")

All part numbers in BLUE are new for the OldBook.

Custom DYNAMICS

KNIGHT RIDERZ 11,4 CM (4,5") LED LIGHT BAR

- Feature 12 super-bright LEDs
- 3M™ double-sided tape for easy mounting
- Work with any 12 VDC system with no load equalizer or resistors required
- Dual-intensity with choice of flashing or non-flashing brake alert
- Dimensions: 11,4 cm L x 1,7 cm W x 1,7 cm H (4,5" L x 0,7" W x 0,7" H)
- Sold each

PART #	DESCRIPTION
2040-0646	Non-sequential light bar w/ non-flashing brake alert, red

KNIGHT RIDERZ FLASHING BRAKE LIGHT

- Contains 21 high-power dual-intensity red LEDs
- Designed for maximum visibility
- Works with any 12 VDC system
- No load equalizer or resistors required
- Dimensions: 19 cm L x 17,8 mm W x 17,8 mm H (7 1/2" L x 7/10" W x 7/10" H)
- Sold each

PART #	DESCRIPTION
2040-1297	Sequential light bar w/ flashing brake alert

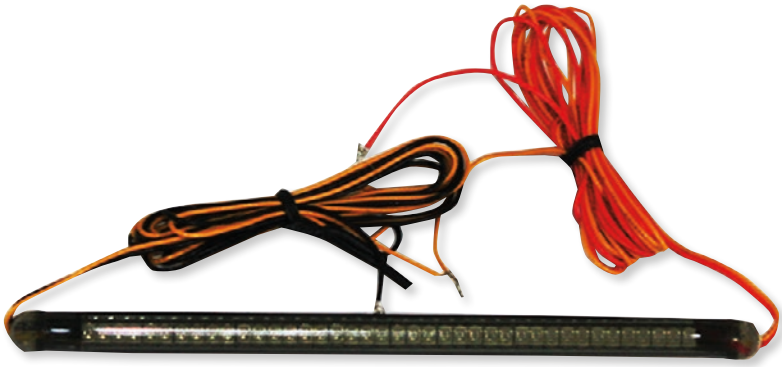
LUGGAGE RACK LED LIGHT BARS

- Super bright red dual-intensity LEDs
- Run and brake functions
- Plug-and-play installation
- All mounting hardware included

PART #	DESCRIPTION
FOR 97-98 FLHR, 98 FLTR W/ ADD-ON TOUR-PAK W/ AIR WING TOUR-PAK LUGGAGE RACK	
2040-2306	Smoke lens

TRUFLEX® INTEGRATED LED LIGHT BAR

- Contains 10 amber left and right turn signal LEDs
- Offers enhanced display with 20 red run and brake dual intensity LEDs
- Includes smoke tube
- Measures 14,5 cm L (5,7")
- Sold each



PART #	DESCRIPTION
2040-1837	TruFLEX® integrated LED light bar

LED LIGHT BAR

- 3-function LED light bar that emits red when activated (running light, stop light, right and left turn signals)
- 139,5 cm (55") wire length
- 38 cm L x 38 mm W x 22 mm H (15" x 1,5" x 7/8")
- Polycarbonate base
- Sold each

PART #	DESCRIPTION
2040-1031	Red lens/black base

All part numbers in BLUE are new for the OldBook.

PRO 1 PERFORMANCE PRODUCTS

MILLENNIUM TRIPLE TREE MARKER LIGHT BAR

- Chrome-plated light bar features amber lights
- Fit between the fork tubes on Wide Glide or narrow glide front ends
- Mount to the headlight bolt
- See pages 559-561 for replacement bulbs; sold as pairs

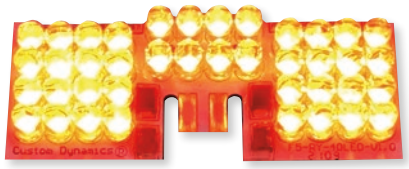
NOTE: May require the use of a load equalizer to function properly.

PART #	DESCRIPTION
DS-280185	For Wide Glide (FXWG/FXST/FXDWG)

Custom DYNAMICS

LED FENDER TIP BOARDS

2040-1289



2060-0453

- Replaces OEM #194 bulb
- 40 wide-angle super-bright LEDs
- Available in amber or white front LED lights or red running light
- Sold each

PART #	DESCRIPTION
FOR 81-98 FLHT, 81-99 FLST/FLSTC (FRONT)	
2040-1289	White LED light

PART #	DESCRIPTION
FOR 81-98 FLHT, 81-99 FLST/FLSTC (REAR)	
2060-0453	Red LED light

DRAG Specialties

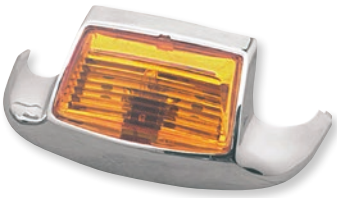
NOSTALGIA-STYLE FRONT FENDER LIGHT

- Improved version of Harley-Davidson's old-style front fender light is die-cast and chrome-plated
- Includes mounting gasket, concealed mounting hardware and extra-long wire leads
- Features an amber lens
- Dimensions: 17,5 cm L x 57 mm W x 51 mm H (6 7/8" x 2 1/4" x 2")
- For replacement bulbs, see pages 559-561

PART #	DESCRIPTION
DS-280180	Front fender light, 12V

DRAG Specialties

FENDER TIP LIGHTS



DS-719933

DS-719932

2040-0584

- These tip lights are a perfect fit on OEM and aftermarket front and rear fenders
- Clear fender light comes with amber and red bulb
- Replacement lenses available separately
- Sold each

PART #	DESCRIPTION
FRONT LIGHTS	
FOR 80-95 FLT/FLHT (EXCEPT FLTR) AND 86-95 FLSTC/N	
DS-719933	Light w/ amber lens; repl. OEM #59180-80
2040-1247	Light w/ smoke lens
REPL. FRONT LENS ONLY	
FOR 84-98 FLT, FLHT/C, 86-99 FLSTC	
2040-0589	Amber lens; repl. OEM #59180-80

PART #	DESCRIPTION
REPL. FRONT LENS ONLY (CONT)	
FOR 84-98 FLT, FLHT/C, 86-99 FLSTC (CONT)	
2040-0129	Clear lens
2040-0592	Smoke lens
REAR LIGHTS	
FOR 80-95 FLT/FLHT, 86-95 FLSTC	
DS-719932	Light w/ red lens; repl. OEM #59658-79

PART #	DESCRIPTION
REPL. REAR LENS ONLY	
FOR 99 FLSTC	
2040-0580	Light w/ red lens; repl. OEM #59672-99
2040-0584	Light w/ smoke lens
FOR 80-08 FLT/FLHT	
2040-0588	Red lens; repl. OEM #68046-79
2040-0591	Smoke lens

KURYAKYN

FENDER TIP LIGHT LENS KIT

- Fender tip smoke lens kit adds style
- Includes a push-in LED bulb and smoke lens
- Sold each

PART #	DESCRIPTION
FOR 84-98 FLT/FLHT, 86-99 FLST/FLSTC (FRONT FENDER)	
2040-0134	Kit w/ amber LED

All part numbers in BLUE are new for the OldBook.

2050-0023

PLUG-IN ILLUMINATOR WITH RED LENSES

- Our Illuminator run-brake-turn signal module packaged together with red signal lenses
- Lenses fit the rear OEM turn signal assemblies
- Gives you three running/brake lights and maintain turn signal functions

PART #	DESCRIPTION
2050-0023	For 96-98 FLT/FLHT/FLHR/FLTR, 98-99 FXST/FLST (except FLSTC) and 98 Dyna that have Deuce-style turn signals

2050-0022

- Greatly increase the visibility of the motorcycle when seen from the rear
- Illuminators plug into OEM wiring harness for a quick installation that does not require cutting and splicing wires (unless noted)

PART #	DESCRIPTION
2050-0022	For 97-99 FXST/FLST and 97-98 Dyna (except FXSTD/FLSTC) that do not have Deuce-style turn signals

PLUG-IN STYLE TURN SIGNAL LOAD EQUALIZER™ III

- Designed specifically to work with OEM alarm systems (TSSM) or turn signal module (TSM)
- Eliminates erratic blinking of turn signals
- Compatible with most custom turn signals (including halogen and LED signals)
- Solid-state waterproof module
- Produces absolutely no heat so it is OK for parade use; allows emergency flashers to be used for any amount of time
- For use on models with self-canceling turn signals

PART #	DESCRIPTION
2050-0049	For 96-98 FLHT/FLHR, 96-99 FXST/FLST and 97-98 Dyna

TURN SIGNAL LOAD EQUALIZER™ III

- Designed specifically to work with OEM alarm systems (TSSM) or turn signal module (TSM)
- Eliminates erratic blinking of turn signals
- Compatible with most custom turn signals (including halogen and LED signals)
- Solid-state waterproof module
- Produces absolutely no heat so it is OK for parade use

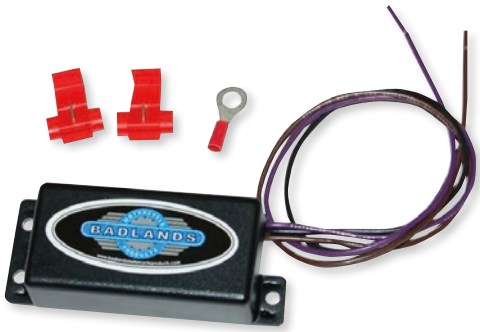
PART #	DESCRIPTION
0904-0003	For 91-99 Evolution Big Twin w/ self-canceling turn systems

TURN SIGNAL LOAD EQUALIZER™ II

- Improved design with all the features of the original Load Equalizer, plus retains emergency flasher capability
- Returns amperage draw to the correct factory specification when aftermarket marker lights are used to replace stock turn signals

NOTE: Not intended for use in parades or with the turn signals running for an extended time.

PART #	DESCRIPTION
BLLE02	For 91-99 Evolution Big Twin w/ a self-canceling turn signal system



TURN SIGNAL LOAD EQUALIZER™

- Badlands Electronic Unit returns amperage draw to correct factory specifications when aftermarket marker lights are used to replace stock turn signals on bikes with self-canceling systems
- The self-canceling "Brain Box" must have the correct draw in order to function properly

PART #	DESCRIPTION
DS-272236	For 91-99 Evolution Big Twin

All part numbers in BLUE are new for the OldBook.

7808-1028

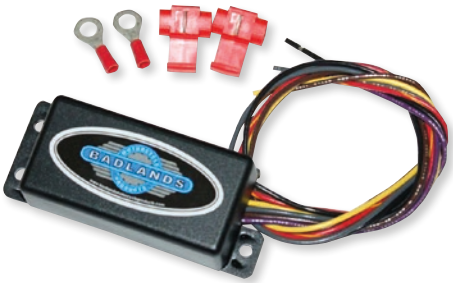
2050-0091

DS-272235

RUN, BRAKE AND TURN SIGNAL MODULE

- Turns stock or custom turn signals into running and brake lights; also retains turn signal capabilities
- Increases visibility from the rear of the motorcycle
- Built-in load equalizer will allow running of even the smallest lights or a minimum of two lights only
- Comes complete with wiring, connectors and easy-to-follow instructions

PART #	DESCRIPTION
7808-1028	For 97-98 FLTR/FLHT/FLHR, 97-99 FXST/FLST (except Deuce) and 97-98 Dyna (8-pin connector)
2050-0091	For 94-96 FLHT w/ 8-pin Deutsch plugs
2050-0214	For 91-93 FLT/FLHT
DS-272235	For 73-84 FX/FL, 91-98 Dyna, 91-98 FLHT/FLHR/FLTR, 84-99 FXST/FLST (hardwire design)



0904-0002

7808-1029

2050-0215

7808-1030

PLUG-IN AUTOMATIC TURN SIGNAL CANCELERS

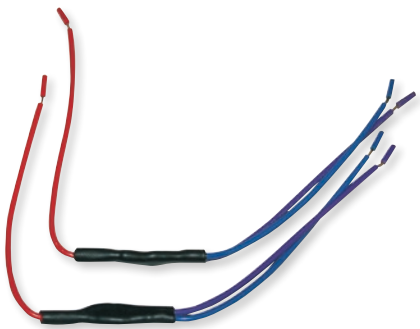
- Plug in and replace the OEM signal canceler
- Do not require stock speedometer for proper operation
- Automatically flash for 11 seconds; can be manually canceled at any time
- Built-in emergency flasher mode
- Built-in load equalizer runs LEDs of up to 100W per side
- Dimensions: 73 mm L x 34,9 mm W x 22,2 mm D ($2\frac{7}{8}$" x $1\frac{3}{8}$" x $\frac{7}{8}$")

NOTE: Be sure to identify which connector is on the bike before purchasing, as the factory was not consistent during 1994-1999.

PART #	DESCRIPTION
0904-0002[1]	Automatic turn signal canceling module, universal fitment
7808-1029	AMP style 6-pin plug for 87-93 FLT, 90-93 Big Twin
2050-0215	Female Deutsch style 8-pin plug for 94-99 Big Twin w/o Delphi TSM
7808-1030	Male Deutsch style 8-pin plug for 94-99 Big Twin w/o Delphi TSM

[1] Not a plug-in style; will require a cut/splice connection.

NAMZ Custom Cycle Products



INTENSIFIER HIGH-LOW MODULE III

- Converts single-function LED bulbs into high-low dual-function bulbs; run-stop, run-turn or high-low
- Includes hard-wired pair of two-function intensifiers with a universal LED fitment (500mA maximum)
- Works with LED turn signals, marker lights or driving lights
- Will not work with incandescent or halogen bulbs

PART #	DESCRIPTION
2050-0189	For custom/universal applications

CULT-WERK

MINI RESISTOR FOR H-D LED INDICATORS

- Required for all H-D models with turn signal relays that are retrofitted with LED turn signals
- Required for new H-D models with a control unit in order to adjust the frequency of the display on the speedometer

PART #	DESCRIPTION
2050-0467	Mini resistor

All part numbers in BLUE are new for the OldBook.

SMART TRIPLE PLAY® MODULE

- Converts rear turn signals to run-brake-turn
- Works with LEDs or incandescent bulbs
- Ten user-selectable built-in brake light strobe/flash patterns (user can also select no strobe/flash on brake)
- Ten user-selectable running light intensities allow user to match the running light brightness of turns to center taillight
- Ability to apply brake strobe/flash patterns on center taillight only, rear turns only, or rear turns and center taillight
- Built-in short-circuit protection
- Sealed, weathertight case
- Slimline design: 11 cm x 36 mm x 15 mm (4,2" x 1,4" x 0,6")

NOTE: Requires SMART Signal Stabilizer™.

PART #	DESCRIPTION
2050-0146	For 97-98 Touring, 96-99 Softail and 97-98 Dyna

LOAD BALANCING TRIPLE PLAY MODULE®

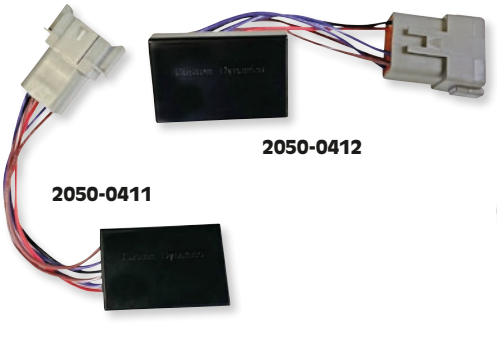
- Acts as a no-load, no-heat load equalizer
- Converts rear 1156 turn signals to function as run/brake/turn signals
- 10 user-selectable built-in brake light, or strobe/flash patterns
- Plug-and-play

PART #	DESCRIPTION
2050-0381	For 97-98 Touring, 96-99 Softail and 97-98 Dyna

SMART TRIPLE PLAY® EXTENSION HARNESS

- Plugs into accessory ports on the Smart Triple Play® module
- Allows for a total of three plug-and-play 3-wire lighting products
- Sold as pair

PART #	DESCRIPTION
2120-0976	Smart Triple Play® extension harness



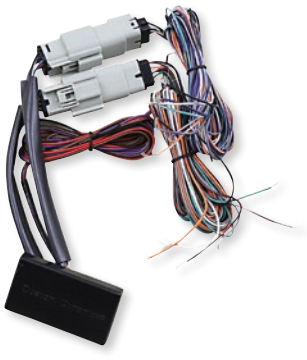
AUTO-CANCEL TURN SIGNAL MODULES

- Plug-and-play OEM flasher replacement
- Converts turn signals to auto-cancelling with the added feature of four-way flashers
- Three different auto-cancel modes (10-, 20- and 40-seconds)
- Works with LED or incandescent bulbs
- Plug-and-play

PART #	FITS MODEL
2050-0411	96-98 FLHR/FLHT/Dyna, 96-99 Softail models w/ installed 8 position male connector
2050-0412	For Deutsch style 12-pin male plug for 94-99 models w/o Delphi TSM
2050-0413	For 94-95 FLHR/FLHT/XL models w/ installed 8-position female connector
2050-0414	For 90-95 FX, 89-93 FL models with 10-position connector
2050-0415	Universal hardwire application

SEQUENTIAL TURN SIGNAL CONTROL MODULE

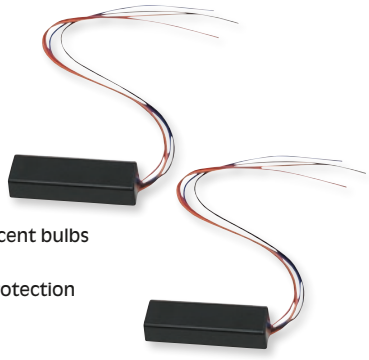
- Allows for up to five separate turn signal segments per side to flash sequential instead of flashing all at the same time
- 91 cm (36") wire leads
- Built-in quick connectors
- 9 to 16VDC operating range
- Reverse battery protection
- 0,25A per output



PART #	DESCRIPTION
2050-0426	Sequential turn signal control module

UNIVERSAL TURN SIGNAL ISOLATORS

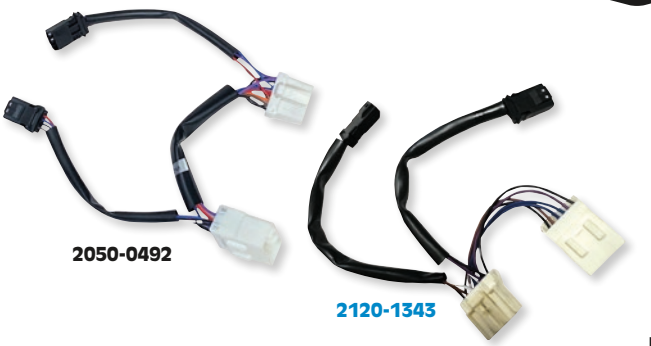
- Completely isolates turn signals from motorcycle
- Provides outputs for aftermarket turn signals
- Works with LED or incandescent bulbs
- Max load of 5 A per side
- Short circuit and thermal protection
- 4-way hazard compatible
- Sold as pair



PART #	DESCRIPTION
2050-0320	Universal turn signal isolators

All part numbers in BLUE are new for the OldBook.

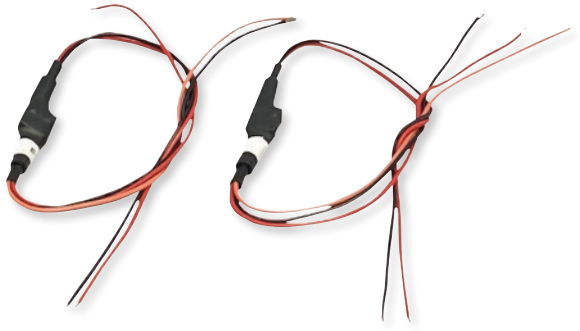
Custom DYNAMICS



RUN/TURN SIGNAL FRONT ACCESSORY ADAPTERS

- Plug-in wiring harness connects to the OEM wire harness to access run power, turn signal power and ground
- Provides connection for Custom Dynamics® plug-and-play lighting products like Micro Turn Signals, Mirror Mount Turn Signals or LED mirrors (sold separately)
- Pigtails for left- and right-side connections
- JAE female connectors

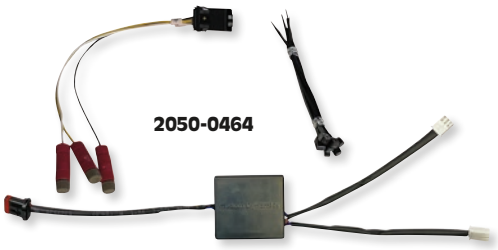
PART #	DESCRIPTION
2050-0492	97-98 FLHT/FLTR/Dyna, 96-98 Softail (installs under seat)
2120-1343	For 96-98 FLHT, 93-99 Softail (installs at neck)



ECLIPZE2™ DUAL-FUNCTION MODULE

- Converts single-function LEDs to dual-function with the advantage of 100% on running lights and a full-contrast turn signal flash
- Works with any size LED up to 300 mA per side
- Increases front visibility by changing the running light from 30% brightness to 100% brightness and flashing the LEDs from 0% to 100% to give more contrast to the turn signal
- Eclipze2™ LEDs work with emergency hazard flashers and all alarm systems when the vehicle is off or on
- Sold in pairs

PART #	DESCRIPTION
2050-0085	Eclipze2® dual-function module

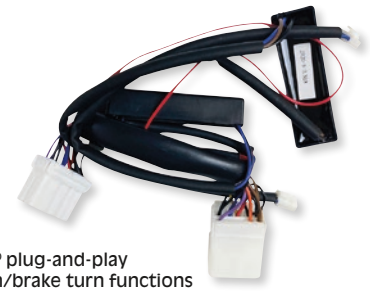


ALTERNATING BRAKE STROBE MODULES

- Plug-and-play brake strobe module takes alerting traffic behind you to the next level
- Compatible with add-on custom LED lighting such as Custom Dynamics LED Boltz™ PART #s 2040-2838, 2040-2839 when used as left and right side rear brake lights (sold separately see page 571)
- Does not affect OEM rear brake lights
- When the brake is applied, the programmed flash or strobe pattern will alternate between left and right side lighting accessories creating an eye-catching pattern

PART #	DESCRIPTION
2050-0462	For 97-98 FLHT/FLHR/FLTR, 96-99 FXST/FLST, 97-98 FXD/FXDWG

PART #	DESCRIPTION
2050-0464	For models w/ 12VDC negative ground systems



RUN/BRAKE/TURN ACCESSORY ADAPTER

- Converts Custom Dynamics® plug-and-play run/brake accessories to run/brake turn functions
- Compatible with non-sequential, single-color red LED accessories
- Separated brake wire lead
- Plug-and-play
- Sold each

PART #	DESCRIPTION
2050-0432	For 97-98 FLHT/FLHTCU/FLHR/FLHRC/FLTR, 96-99 Softail and 97-98 Dyna

INTEGRATED TAILLIGHT HARNESS

- Provides turn signal power to rear taillight assembly for compatibility of any Custom Dynamics or ProBEAM® integrated LED taillight
- For all 98 and earlier H-D models with integrated taillight assembly
- Plug-and-play
- Sold each

PART #	DESCRIPTION
2120-1074	Integrated taillight

PLUG-AND-PLAY REAR FENDER ADAPTERS

- Plugs into OEM harness under seat
- Mates into OEM rear lighting harness on newer model rear fender
- Makes a rear fender swap plug-and-play

PART #	DESCRIPTION
FOR 97-98 FLHT/FLHTCU/FLHR/FLHRC/FLTR	
2120-1151	14-current rear fender conversion

PART #	DESCRIPTION
FOR 97-98 FLHT/FLHTCU/FLHR/FLHRC/FLTR (CONT)	
2120-1152	10-13 FLHX or FLTRX rear fender conversion

All part numbers in BLUE are new for the OldBook.

QUICK-DISCONNECT FOR TOUR-PAK

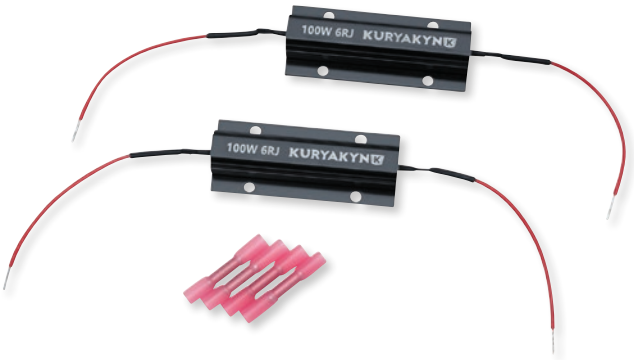
- Provides convenient plug-and-play connection of OEM or add-on Tour-Pak
- Provides accessible connector for easy removal of Tour-Pak
- Sold each

PART #	DESCRIPTION
2130-0268	For 97-98 FLHT/FLHR/FLHRC/FLTR

MPR EXTENSION HARNESSES

- Allows for three separate Custom Dynamics plug-and-play products to run off a single MPR adapter harness
- Compatible with dual-intensity products with a 3-pin accessory port
- Sold as pair

PART #	DESCRIPTION
2120-1026	MPR extension harness

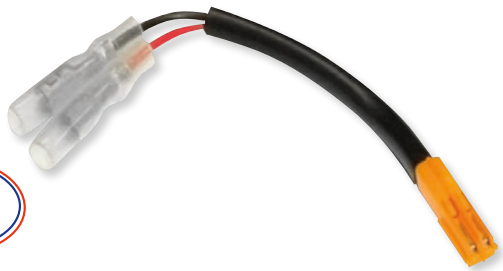


KURYAKYN

ALUMINUM LOAD EQUALIZERS

- Perfect for any custom application when replacing OEM incandescent turn signals with low-draw LED turn signals
- 100W – 6-ohm rating
- Black anodized aluminum housings for durability and heat dissipation
- Includes heat shrink butt connectors
- In most instances, this kit will allow all four turn signals to be replaced with LED lights
- Sold in pairs

PART #	DESCRIPTION
2050-0433	For universal 12V applications

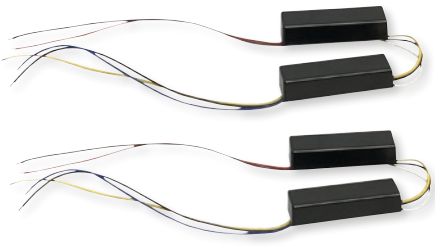


K&S TECHNOLOGIES INCORPORATED

TURN SIGNAL WIRE ADAPTERS

- Eliminate the need to cut and splice wiring when using aftermarket turn signals or marker lights
- Plug into the OEM turn signal plug and then use pin connectors used on aftermarket lights
- Sold in pairs

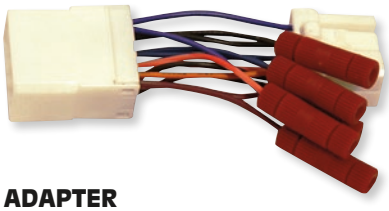
PART #	DESCRIPTION
2020-1170	Universal turn signal wire adapters



WRAP-AROUNDS™ WIRE CONVERTERS

- Convert 2-wire Custom Dynamics Wrap-Arounds™ to 3-wire
- Convert wire function to run as both running and turn instead of just turn
- Sold in pairs

PART #	DESCRIPTION
2050-0251	Wrap-Arounds™ wire converters



UNIVERSAL WIRING ADAPTER

- Provides easy connection to run, brake, left and right turn, and ground wires

PART #	DESCRIPTION
2050-0167	For 97-98 Touring, 96-99 Softail and 97-98 Dyna (except FXDB/FXDLS/FXDWG)

KURYAKYN

TOTAL CONTROL PASSING LAMP HARNESS

- Allows passing lamps to remain lit when the high beam is in use
- Required when using Kuryakyn Phase 6 or Phase 7 LED headlamp/passing lamps
- Plug-and-play installation
- Sold each

PART #	DESCRIPTION
2050-0185	For 98 FLHT (all models w/ passing lamps)

K&S TECHNOLOGIES INCORPORATED

IN-LINE RESISTORS

- 10W/3-ohm universal in-line resistors or 20W/8,5-ohm heavy-duty in-line resistors
- Work great with LED lights
- Extra terminals included
- Sold in pairs

PART #	DESCRIPTION
2050-0065	Universal in-line resistors (10W/3-ohm)
2050-0069	Heavy-duty in-line resistors (20W/8,5-ohm)

All part numbers in BLUE are new for the OldBook.

VARI LOAD DIGITAL LOADEQUALIZER

- The Vari Load is a programmable Load-Equalizer that affords you to use LED flasher in any bike
- The Vari Load's power is adjusted using the thin blue cable
- Simply hold the blue cable against +12V and the load will slowly increase in 50 steps up to approximately 10W
- If you hold the blue cable against ground, the load will decrease until it reaches 0W
- As soon as you disconnect the cable from ground or +12V, the set load value is saved and recalled the next time you turn it on
- A complete cycle through all available power values takes approximately 20 seconds
- The built-in LED flashes up to 50 times when the power value changes, indirectly indicating the set value through its number of flashes
- As soon as one of the two limits (0W or approximately 10W) is reached, it lights up continuously
- Dimensions: 56 mm x 37 mm x 17 mm
- Body material: ABS
- Input voltage range: 7 to 18V
- Connections: Inputs 0,14 mm², Outputs 0,75 qmm
- Output power range: Between 2 x 1W and 2 x 15W
- Maximum ambience temperature: 80 °C

PART #	DESCRIPTION
2120-1438	Vari Load digital loadequalizer

REAR LIGHT CONVERSION MODULE

- A simple solution for rewiring imported bikes to match local standards
- Convert brake light/indicator signals from US requirements to European requirements, or vice versa
- Cheaper and easier than rewiring manually

NOTE: Module does not differentiate between brake light and emergency flashers; external emergency switch is required for emergency flasher function.

PART #	DESCRIPTION
2120-0962	US to EU conversion module

BRAKE 2 FLASHER MODULE

- Add flasher functionality to brake lights
- Makes bike more visible on the road for a safer ride
- 14 different programmable modes

PART #	DESCRIPTION
2120-0964	Brake 2 flasher module

MULTI FLASHER RELAY

- Small flasher for push-button lighting that will fit any handlebars
- Comfort flasher function switches off indicators if no buttons are pushed for a short while
- Dimensions: 38 mm x 16 mm x 11 mm

PART #	DESCRIPTION
2120-0965	Multi flasher relay

MINI SWITCH RELAY

- Features two 60W power outputs
- Change between outputs with the push of a button
- Dimensions: 38 mm x 16 mm x 11 mm

PART #	DESCRIPTION
2120-0966	Mini switch relay

NANOFLASH FLASHER RELAY

- Small enough to fit anywhere on a bike
- Durable ABS housing
- Dimensions: 15 mm x 9 mm x 5 mm

PART #	DESCRIPTION
2120-0967	Nanoflash

All part numbers in BLUE are new for the OldBook.

motogadget

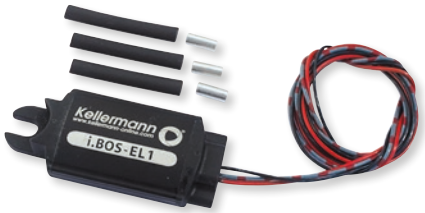
mo.STOP BRAKE LIGHT MODULATOR

- Adjustable digital brake light controller
- Increases road safety
- Allows brake light to pulsate, creating faster reaction time for traffic behind you
- Can also be used as a normal flasher relay or a flasher relay with automatic switch-off
- Route through the handlebars, frame tubing or in the cable harness
- Six different light/blink variants adjustable for brake light: normal mode (no flashing, direct transmission); rise and fall at 3Hz; flashing at 5Hz; flashing eight times at 5Hz, then continuous illumination; flashing two times at 5Hz, then one second continuous illumination and again repeat; three second transmission, then flashing at 5Hz
- Works with almost all LED brake lights and all conventional brake light lamps
- Easy to install
- Watertight, vibration-resistant and does not generate heat during operation
- Features an automatic overload protection

PART #	DESCRIPTION
2020-0465	mo.STOP digital brake light modulator

Kellermann high quality products made in germany

i.BOS



2040-2316

2040-2317

- Fix control lights when functioning inaccurately

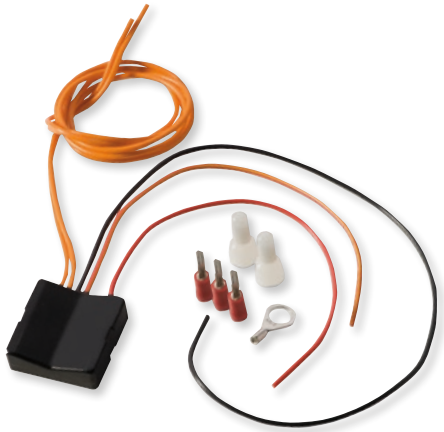
2040-2315	For use with indicator control light

PART #	DESCRIPTION
2040-2318	For use with 10W LED indicators

Kellermann high quality products made in germany

ECE Type Approved

LOAD-INDEPENDENT INDICATOR RELAY

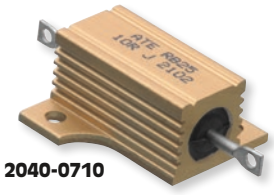


- Ideal for use with LED or halogen indicators
- In addition to regulating the indicating frequency, this relay offers the advantage of cancelling the function of the unused indicator
- Optimally suited for motorcycles with one or two indicator lights and as a replacement for two- or three-poled original relays
- Includes all necessary mounting hardware

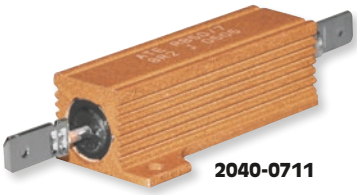
PART #	DESCRIPTION
2040-0709	Load-independent indicator relay

Kellermann high quality products made in germany

POWER RESISTORS



2040-0710



2040-0711

- When changing the original indicators to LED or halogen, the indicating frequency is automatically altered
- The indicating frequency is adjusted for parallel switched power resistors
- See application chart for guidance

NOTE: When using micro 1000 DF and a light control bulb, one additional resistor at 33-ohms (PART #2040-0712) for the rear light and one additional resistor at 7,5-ohms (PART #2040-0711) for the brake light are required.

PART #	DESCRIPTION
2040-0710	10-ohms
2040-0711	7,5-ohms
2040-0712	33-ohm

APPLICATION CHART			
POWER INTAKE OF ORIGINAL INDICATORS	**MICRO 1000 HALOGEN**	**MICRO 1000 LED/RHOMBUS**	**MICRO BL 1000 LED**

2001-1185	18 cm (7"); 12V 75/75W

H4-STYLE LED HEADLIGHT BULB

- Replaces all H4-style headlight bulbs
- Uses stock reflector and bulb housing
- 6000K daylight white (not yellow) light beam with no blue tint
- Built-in ballast with active heat-management fan
- Offers a super-bright 4200 lumen LED output (versus standard lumen output of 1450 lumens)
- Draws 3A compared to stock bulb at 5A
- Easy do-it-yourself plug-and-play installation
- Kit includes four different mounting adapters to fit 90% of all motorcycle models (H4 replacement)
- 30.000 hour bulb life

PART #	DESCRIPTION
2060-0825	H4-style LED headlight bulb

HALOGEN HEADLIGHT BULBS

- Halogen bulbs available in standard or Superwhite Xenon styles
- Standard bulbs use clear glass bulb
- Superwhite bulbs use a special blue filter coating to produce a whiter, brighter light

All part numbers in BLUE are new for the OldBook.

38 MM (1,5") HAMMERHEAD HANDLEBARS

- Aggressive new look
- Pointed tip for a look that stands out in the crowd
- 140 mm (5,5") of pullback for an aggressive feel
- 31,75 mm (1,25") diameter clamping area with 389 mm (3,5") on-center knurling (requires the use of 31,75 mm (1,25") risers and clamp)
- Black finish

Note: Accept OEM heated grips.

PART #	END RISE	WIDTH	CENTER WIDTH	PULLBACK
0601-5966	30,5 cm (12")	77,5 cm (30,5")	26,67 cm (10,5")	14 cm (5,5")

All part numbers in **BLUE** are new for the OldBook.

38 MM (1,5") TREE HUGGER HANDLEBARS

- The lowest profile handlebars on the market
- New, innovative adjustable riser design allows you to adjust the handlebars forward or backward
- 12,7 mm (0,5") risers let you hug the top of the triple tree (89 mm (3,5") on-center)
- Can be used with cable and TBW (Throttle-By-Wire) applications
- Designed to flow with a Wide Glide triple tree on a Softail or Dyna, and fits under the nacelle on 96-98 Road Kings
- Drilled for internal wiring

NOTE: Accepts H-D OEM heated grips.

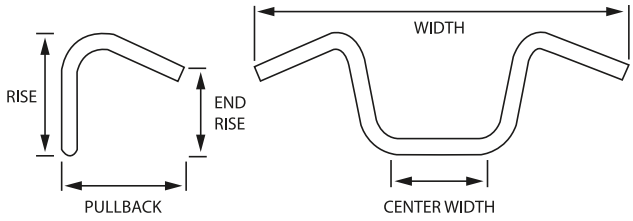
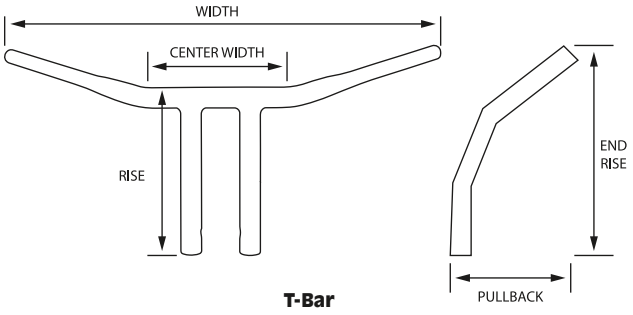
DRAG Specialties



Conventional



T-Bar

32 MM (1¼") BUFFALO BARS

- The ultimate 32 mm (1¼") diameter handlebar, designed for maximum comfort
- 25,4 mm (1") diameter in clamping area
- Slotted and notched for Throttle-By-Wire applications unless noted
- Standard bars have 89 mm (3½") on-center knurling to prevent movement (except T-Bars)
- Springer-style bars have 12 cm (4¾") center diamond knurling for a smooth finished look; work with the OEM Springer risers and handlebar clamps
- Optional 32 mm (1¼") thick Buffalo risers are also available to complete the look
- Optional handlebar clamps cover all of the center area that is sized down to one inch
- Optional gauge mounts for T-Bars sold separately; see DASHES & GAUGES section
- See pages 612-626 for handlebar clamps and risers

NOTE: Compatible with hydraulic clutch controls.

NOTE: Accepts OEM H-D heated grips.

32 MM (1,25") BIG JOHNSON FL HANDLEBARS

- Improves the rider's overall body position
- Provides a more comfortable ride, is easier to steer and makes the bike feel 90 kg (200 lbs) lighter
- Will work with all stock cables, lines and controls
- Is a direct replacement for stock bars with a 25,4 mm (1") riser clamp diameter
- Reduced reach and improved back position is provided by the 33 cm (13") pullback
- A lower grip point helps relax the shoulders for added comfort
- An improved bar length helps increase the leverage, which makes the bike easier to steer
- Reduced or eliminated hand numbness comes from the realigned wrist position
- Will not interfere with stock mirrors

All part numbers in **BLUE** are new for the OldBook.

32 MM (1,25") HEFTY TWIN PEAKS HANDLEBARS

- Features 32 mm (1,25") diameter in the clamping area
- Works with the OEM riser and clamps; has the correct wire exit location
- Bar includes new black control clamps to replace the oversize OEM clamps, unless noted
- Does not need to remove the stock pin in the OEM mount clamps; bar still has more than 35° of adjustment
- 89 mm (3,5") on-center knurled clamping area
- Will work with hydraulic clutches
- Flat black finish

NOTE: Accept H-D OEM heated grips.

32 MM (1,25")
TWIN PEAKS TOURING HANDLEBARS

- Handlebars with an emphasis on touring comfort
- More parallel wrist angles for a perfect pullback angle and stress-free riding
- Flowing bends on the uprights designed specifically for Batwing fairing bikes
- 89 mm (3,5") on-center knurling, 25,4 mm (1") clamping area
- Drilled for internal wiring
- Work with hydraulic clutches
- Can be used on cable and TBW (Throttle-By-Wire) applications

NOTE: Accept H-D OEM heated grips.

MAGNUM

VIKING HANDLEBARS

31,8 MM (1¼") VIKING HANDLEBARS

- Viking handlebar internal design guarantees easy installations of complete wiring harnesses
- Without taking away from the clean look of the peak, the novel design creates enough room to allow the complete wiring harness with factory vinyl covering and the terminal connections along with their respective shrink sleeve to easily pass through without chaffing
- Using a unique flaring process, the burr-free internal radius creates a generous pocket of additional clearance within the troublesome peak of the handlebar
- To make wiring installations even easier, Magnum preloads the bars with E-Z pull-thru plastic woven sleeving
- Insert the wiring harness into the sleeving and pull through, it's that simple
- Manufactured with the highest quality construction, including machined control mounts (not swaged) plus burr-free internal wiring holes and electronic throttle control slots
- All handlebars are 31,8 mm (1¼") diameter, have 25,4 mm (1") diameter center sections, 89 mm (3½") on center knurling and work with standard controls, including hydraulic clutch and OE heated grips
- Each handlebar is CNC-mandrel bent for an accurate fit and incorporates an aggressive look with wrist angles engineered for riding comfort
- Bagger style bars are designed for the correct clearance on Batwing models
- Available in Bagger or Ape Hanger styles with high-luster chrome or gloss black finishes for an unsurpassed appearance

NOTE: Not for use with stock risers and handlebar clamp/ gauge mount clamp on 883C/1200C models.

NOTE: Viking Handlebars have a 25,4 mm (1") diameter center section and fit 25,4 mm (1") risers. Models originally equipped with handlebars that have a center section diameter larger than 25,4 mm (1") will require changing the risers to a 25,4 mm (1") ID version.

31,8 MM (1¼") CRUSADER HANDLEBARS

- Stainless steel handlebars available in 25,5 cm (10"), 30,5 cm (12") and 35,5 cm (14") heights Bagger style with wrist angles engineered for riding comfort
- Manufactured with the highest quality construction, including machined control mounts (not swaged), CNC mandrel bends, and burr-free internal wiring holes and electronic throttle control slots
- Magnum's internal design guarantees easy installation by creating additional room to allow complete wiring harnesses with factory vinyl covering and sleeved terminal connections to easily pass through without binding or chaffing
- Pre-loaded E-Z pull-thru plastic woven sleeving makes wiring installation even easier
- Handlebars are 31,8 mm (1¼") diameter with a 25,4 mm (1") diameter center and 89 mm (3½") on center knurling
- Work with standard controls, including hydraulic clutch and OE heated grips
- Bagger style bars are designed for the correct clearance on Batwing models

31,8 MM (1¼") TOP-GUN T-BAR HANDLEBARS

- Stainless steel handlebars that are manufactured with the highest quality construction, including machined control mounts (not swaged) and laser-cut, burr-free holes for internal wiring and slots for electronic throttle control
- Available in 20,5 cm (8") and 25,5 cm (10") height options with high luster chrome or gloss black finish for an unsurpassed appearance
- All handlebars are 31,8 mm (1¼") diameter with 89 mm (3½") on-center mounting geometry
- Work with standard controls, including hydraulic clutch and OE heated grips
- Include machined ½"-13 mounting threads for an extremely rigid and strong connection to the bike
- CNC mandrel bent for an accurate fit and incorporates wrist angles designed for riding comfort
- Preloaded with E-Z pull-thru sleeving to make wiring installations a breeze

31,8 MM (1¼") MACH MOTO HANDLEBARS

- Ergonomically designed to change grip location with the rider as the bars get taller in size, yielding a more comfortable riding experience
- Stainless steel handlebars that are manufactured with the highest quality construction, including machined control mounts (not swaged), burr-free holes for internal wiring and slots for electronic throttle control
- Available in 10 cm (4") and 15 cm (6") height options with chrome or gloss black finish for an unsurpassed appearance
- All handlebars feature a 31,8 mm (1¼") center diameter and have 89 mm (3½") on-center knurling
- Work with standard controls, including hydraulic clutch and OE heated grips
- CNC mandrel bent for an accurate fit
- Preloaded with E-Z pull-thru sleeving to make wiring installations easier

NOTE: Installation of these bars will require risers that accept 31,8 mm (1¼") center diameter handlebars.

CHUBBY® 32 MM (1 1/4") HANDLEBARS

- Handlebars are 25% thicker than stock
- All bars are precision-machined (not swage-formed) at control mounts, providing perfect fit, form and unsurpassed look
- Designed with fluid bends at precise angles for maximum comfort and control
- Pre-drilled for internal wiring
- Polished welds and diamond knurled
- Work with hydraulic clutch, stock and most custom controls, stock risers and top clamps
- Available in show-chrome finish or Blackout series featuring a satin black finish to match OEM black switch housings
- All handlebars work with Throttle-By-Wire as well as cable applications

NOTE: All bars work with H-D heated grips.

NOTE: Not for FLHT (unless noted).

32 MM (1,25") HANDLEBARS

- 32 mm (1,25") diameter formed handlebars with 25,4 mm (1") center diameter and 25,4 mm (1") grip/control mounts
- Ape Hangers are offered in Original and Bobber styles
- Original bars have grips that sweep down and back and offer a relaxed position with reduced reach
- Bobber-style bars have grips that are upright and forward for a pure attitude position
- Dresser bars feature a 30,5 cm (12") center straight section for proper clearance in the batwing fairing
- Diamond knurled for non-slip clamping with risers on 89 mm (3 1/2") centers
- Dimpled and drilled for late model controls
- Work with standard controls and grips

MAGNUM

25,4 MM (1") HANDLEBARS

- Available in Bagger or Ape Hanger styles with 25,5 cm (10"), 30,5 cm (12"), 35,5 cm (14") and 40,5 cm (16") height options
- Feature a high-luster chrome or gloss black finish
- Manufactured with quality construction, including laser-cut, burr-free holes and slots for internal or external wiring
- All handlebars have 89 mm (3 1/2") on-center knurling and are notched for Throttle-By-Wire applications
- All handlebars are CNC bent for an accurate fit and incorporate comfortable, but aggressive looking wrist angles
- Bagger bars are designed for correct clearance on Batwing models

NOTE: Fits 25,4 mm (1") risers. Models originally equipped with handlebars having a center section diameter larger than 25,4 mm (1") will require changing the risers to a 25,4 mm (1") ID version.

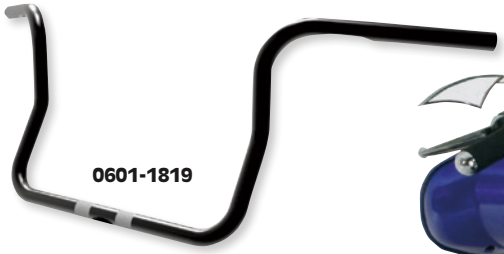
Paul Yaffe's Bagger Nation



25,4 MM (1") CLASSIC "BAGGER APES"

- Paul Yaffe says, "Give instant attitude to your Bagger with a fresh new set of ape hangers!"
- Mandrel-bent from 25,4 mm (1") seamless steel tubing
- Notched for electronic throttle
- Knurled, dimpled and pre-drilled for internal wiring
- 25,5 cm and 30,5 cm heights (10" and 12")

NOTE: When installing any of these bars on 98 and earlier models, the one-piece top handlebar riser clamp OEM #55918-08 (or PART #0603-0363) is required.

BUFFALO RISER KITS

- Risers are machined from billet aluminum
- Fit any handlebars that have a 25,4 mm (1") diameter in the clamping area, and have 32 mm (1 1/4") riser diameter to complement the style of 32 mm (1 1/4") diameter handlebars
- Accepts Buffalo handlebar clamps or OEM-style handlebar clamps with offset mounting holes
- Pullback risers have 25,4 mm (1") of pullback
- All risers use 1/2"-13 riser bolts; available separately

PERFORMANCE RISER KITS

- Beautifully machined billet aluminum risers not only look great but provide strength and comfort for your bike
- Straight risers are available in 15 cm (6"), 20 cm (8") and 25 cm (10") heights
- Pullback risers are available in 15 cm (6"), 20 cm (8") and 25 cm (10") heights and have 5 cm (2") of pullback
- Available with a 25 mm (1") or 31,75 mm (1,25") clamping area for use with 25 mm (1") or 31,75 mm (1,25") handlebars
- Machined pockets not only reduce weight but add a distinct look
- Top clamp accommodates the use of LA Choppers specific gauge mounts

PULLBACK 25,4 MM (1") HANDLEBAR RISER KIT

- Improves the look and feel of the riding position
- Extremely strong billet aluminum construction will not flex
- For handlebars with 25,4 mm (1") center diameter
- Offers 51 mm (2") of pullback
- Fits any Harley-Davidson bike with 89 mm (3,5") on-center risers
- Todd's Cycle logo engraved into top clamps and lower risers

PART #	DESCRIPTION	RISE
0602-1382	Chrome	15 cm (6")

METHOD KICKBACK RISER KITS

- 18 cm (7") or 25,5 cm (10") height risers with an added 38 mm (1 1/2") kickback to provide the proper mix of comfort and control
- CNC machined from solid blocks of billet aluminum with a black anodized finish
- Risers and top clamp feature machined windows and sculpted pockets
- Integrated crossbar adds rigidity to the handlebar risers and is used as a wire guide
- Accepts 25,4 mm (1") diameter handlebars
- 89 mm (3 1/2") on-center riser mounting
- 10 cm (4") Method speedo mount is available separately to add a 10 cm (4") gauge to the top or bottom of the Method Riser kits (compatible with many OEM H-D 10 cm (4") gauges and rubber gasket OEM #67121-95A is required for proper fitment)

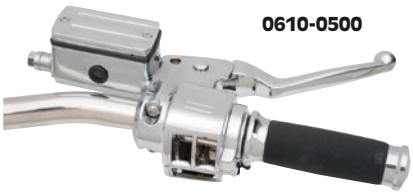
HANDLEBAR CONTROL KIT WITH SWITCHES

- Die-cast OEM-style metal housing with a chrome finish
- Switches come pre-assembled with 122 cm (48") wire leads
- Kit includes clutch lever assembly, master cylinder assembly, housings with switches and hardware

PART #	DESCRIPTION
DS-280354	Kit w/ 3/4" bore master cylinder and black switches for 72-81 Big Twin (single disc)

0610-0500



0610-2148

DS-290723

0616-0353

HANDLEBAR CONTROL KITS WITHOUT SWITCHES

- Customize the most visible area the factory overlooked – the handlebar controls
- Designed to work with all 25,4 mm (1") diameter handlebars
- Chrome die-cast clutch/brake controls with switch housings are sold in complete kits or as individual components
- OEM wires and switches mount directly into these housings, so there is no need for new wires and switches
- Each complete kit includes clutch lever assembly with clamp half, a master cylinder assembly with clamp half, and the right and left switch housings
- Switch housing kit includes right and left housing only with mounting hardware
- Individual components are available to replace specific pieces instead of the complete assembly
- Kits come complete with all hardware for easy installation

NOTE: Lower switch housings will not fit 84-95 models with radio control switches in housings.

NOTE: Use appropriate master cylinder rebuild kit and levers for equivalent OEM model year and bore size.

PART #	DESCRIPTION
CHROME COMPLETE KITS	
0610-0500	Kit w/ 19 mm (3/4") bore single/dual disc master cylinder for 82-84 FLH, 82-83 FXR/FLT

STEALTH I AND II MIRRORS

- The original Stealth mirrors are available in clear or "Blue Sapphire" tinted designs
- "Blue Sapphire" design looks great and helps reduce glare
- The original Stealth I mirror with a 12 cm (4¾") stem; works great on most pullback and Ape Hanger bars
- The Stealth II – same great custom mirror head but has a 15 cm (6") stem – fabulous for drag or custom handlebars
- Stems fit all Stealth mirror heads plus most OEM and aftermarket OEM-style mirror heads that thread at the mirror head
- All feature familiar stud-style mounting common to other mirrors, or we supply chrome socket head Allen bolts for a new style of custom mounting
- Oval head measures 12,5 cm x 64 mm (5" x 2½"); right- or left-side installation
- Mount on clutch or brake lever housings and most custom mounting applications
- Mirror head screws and pivots are stainless steel
- Sold each

GILLES ECE Type Approved

GT MIRRORS

- High-quality handlebar mirrors combine a delicate design with maximum functionality
- Slim glass housing creates a minimalist look that integrates harmoniously into the vehicle design without being intrusive
- Anodized CNC machined mounting ensures not only a refined appearance, but also a secure attachment
- Remains firmly in place on the master cylinder mounts of the brake and clutch and does not loosen over time
- Thanks to the innovative ball joint system, the mirror glass can be adjusted seamlessly to the desired position, ensuring optimal visibility
- Folding function provides additional flexibility without compromising stability
- Made from high-strength aluminium, this mirror offers the perfect balance between stability and lightweight construction
- Matte black anodized finish enhances its sophisticated appearance while providing extra protection against external influences
- Weighing only 280 g, mirrors contribute to vehicle weight optimization
- Precision-milled groove on the main arm further reduces weight without compromising stability
- Includes adapters for many motorcycle models
- Sold each

HANDLEBAR END MIRRORS

- To ensure optimal visibility of the traffic, mirror offers the flexibility of dual adjustable positions that can be continuously adjusted
- Plug-and-play design, mirrors can be easily mounted on your motorcycle and adjusted to your personal, ergonomic needs
- Features a universal clamp, the mirror is suitable for most models and offers simple and secure attachment
- Delicate look ensures that the mirror blends seamlessly into the overall design of the vehicle without being obtrusive
- Simple and space-saving installation directly on the handlebar end, for optimal visibility without impairment
- Offers an optimal balance between weight and strength, resulting in improved performance and longevity
- Made of high-strength aluminum, a material known for its exceptional strength, durability and lightness
- Can be used on either the left or right side
- Mirror thickness – 6 mm
- Mirror weight – 600 g
- Symmetrical
- Sold each

KURYAKYN

MIRROR STEM EXTENDERS

- Attach to the handlebar like the stock mirrors
- Extend mirrors outward approximately 76 mm (3") from the stock position
- For use with H-D mirrors with round steel stems
- Sold in pairs

0641-0156

0641-0280

PART #	DESCRIPTION
0641-0156	Chrome

PART #	DESCRIPTION
0641-0280	Gloss black

DRAG Specialties

MILLER'S MIRROR CLAMPS

- Classy chrome-plated or matte black finish two-piece clamp by Miller's Custom Cycle
- Great for mounting Harley-Davidson type mirrors to 25,4 mm (1") handlebars
- Versatile – can be used on either the right or left side
- 25,4 mm (1") inside diameter fits most safety bars, frame tubes and handlebars
- For use when late-style H-D controls are not used or when mirror position is not functional
- Sold each

DS-302020

0641-0109

DS-302020	Chrome-plated

PART #	DESCRIPTION
0641-0109	Matte black finish

EMGO

HANDLEBAR MIRROR MOUNT

- Easily mounts around 25,4 cm (1") diameter handlebars
- Uses two-piece clamp for easy installation without having to remove other handlebar components
- Durable chrome finish
- Standard 10 mm threads
- Sold each

PART #	DESCRIPTION
0641-0191	25,4 mm (1") handlebar mirror mount

PINGEL Since 1967

FAIRING MIRROR DROP BRACKETS

- Unique design drops the OEM fairing mount mirrors for that cool Bagger look on models with tall bars
- Provide the same clear image with the OEM mirrors as compared to the shaky-blurred image when using handlebar-mounted mirrors
- Fit FLHT models by drilling small holes in the inner fairing
- Billet aluminum with a black finish
- Mounting hardware and instructions included
- Sold in pairs

NOTE: Not for use with stock handlebars; rider will not see past arms.

PART #	DESCRIPTION
0640-0984	For 96-98 FLHT

LA Choppers

FAIRING MIRROR HOLE PLUGS

- The perfect plug for covering the unsightly hole left behind in your fairing when relocating the stock mirrors
- Seamlessly blends with your stock fairing, looking like your bike was meant to come that way yet still adds a minor flare to an otherwise dull spot
- Sold in pairs

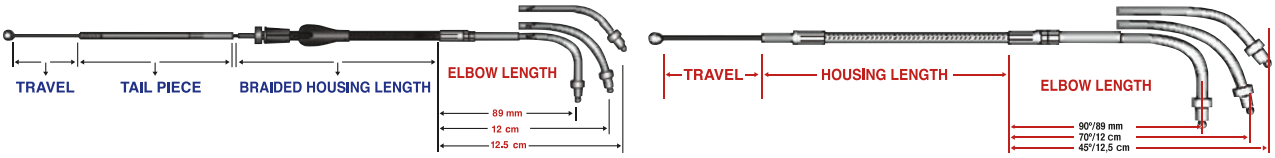
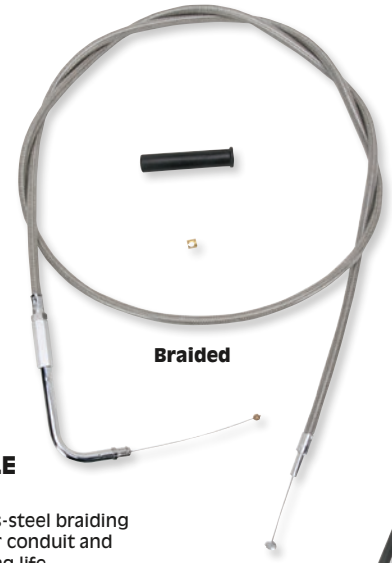
CABLES





BRAIDED AND BLACK VINYL THROTTLE AND IDLE CABLES

- Cables feature polished-chrome fittings, stainless-steel braiding or black vinyl outer casings, tempered-steel inner conduit and an inner nylon liner for smooth operation and long life
- Braided cables feature outer housings coated with a non-yellowing clear covering for abrasion resistance
- Available in undersize/standard/oversize lengths for most single and dual cable applications

NOTE: Length given is the length of the outer housing only, excluding the elbow.

NOTE: Throttle cables for 74-E76 models do not come with the 90° adjuster elbows. These cables fit into OEM throttle adjuster. If you do not have the stock adjuster, order the L76-E81 cable.

NOTE: Cables will also fit late style Mikuni carbs.

Braided

Black Vinyl

BRAIDED AND BLACK VINYL HIGH EFFICIENCY (H.E.) CLUTCH CABLES

- Low effort, maximum efficiency cable design meets or exceeds all OEM specifications for fitment, construction and endurance requirements
- Cables feature chrome-plated fittings, stainless-steel braided or black vinyl outer casings, tempered-steel inner wire and a nylon inner sleeve for smooth operation
- Braiding is coated with a non-yellowing clear coating for abrasion resistance
- High-performance cables use the latest technology of longitudinally winding the outer housing lengthwise rather than spirally so cable bends in a more natural arc and eliminates spring and compression
- Available in undersize/standard/oversize lengths for most models

HOW TO MEASURE CLUTCH CABLES

NOTE: Late-style cables are measured with the adjuster completely collapsed.

NOTE: Adjuster measured from bottom of cable.

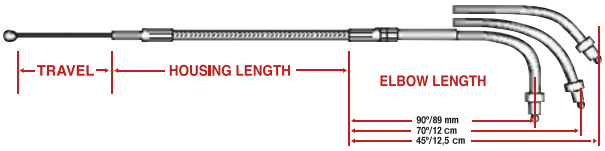
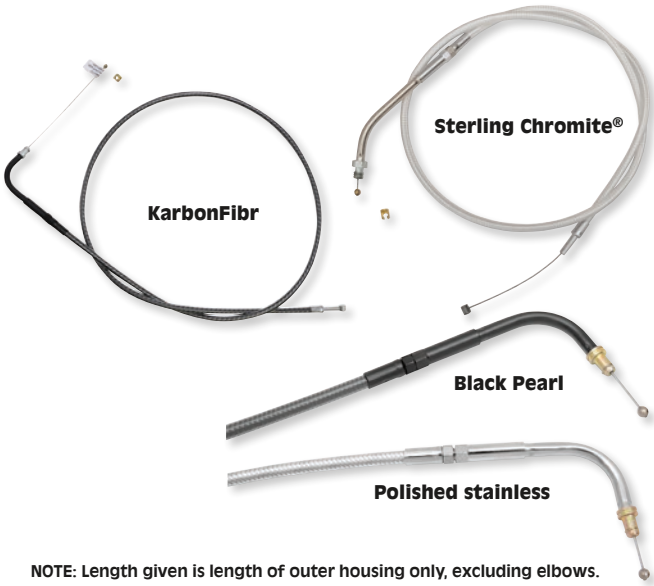
MAGNUM STERLING CHROMITE BLACK PEARL KARBONFIBR POLISHED STAINLESS





BRAIDED THROTTLE AND IDLE/IDLE-CRUISE CABLES

- The industry's highest quality braid in four color choices to complement your bike; Sterling Chromite®, Black Pearl, KarbonFibr and Polished stainless
- KarbonFibr braid is created from metallic wire with distinct black tone colors, blended and interwoven to mimic the distinct look of carbon fiber
- Braid color and weave match on all Magnum control cables and brake lines
- Fittings are polished and chrome or black chrome-plated
- Crystal-clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- All cables are made with anti-friction inner liners, nylon adjuster inserts, and are factory lubricated for smooth, consistent, long-lasting operation
- Meets or exceeds all OE specifications for fitment, construction and endurance

NOTE: Length given is length of outer housing only, excluding elbows.

NOTE: All pre-96 cables have threaded elbows; 96 and later cables have non-threaded elbows.

[1] Cables do not come with compression spring per OEM specs.

BRAIDED THROTTLE AND IDLE/IDLE-CRUISE CABLES continued on next page.

All part numbers in BLUE are new for the OldBook.

MAGNUM STERLING CHROMITE BLACK PEARL KARBONFIBR POLISHED STAINLESS

BRAIDED HIGH EFFICIENCY CLUTCH CABLES

- The Industry's highest quality braid available in four color choices to complement your bike; Sterling Chromite®, Black Pearl, KarbonFibr and Polished stainless
- KarbonFibr braid is created from metallic wire with distinct black tone colors, blended and interwoven to mimic the distinct look of carbon fiber
- Braid color and weave match on all Magnum control cables and brake lines
- Coated with a non-yellowing, crystal-clear outer jacket for exceptional protection against scuffing paint or chrome
- Attractive adjuster with integrated water-resistant seals does not require a boot
- Rubber seal in transmission fitting eliminates fluid leaks
- Low-effort, high-efficiency cable design meets or exceeds all OE specifications for fitment, construction and endurance
- All fittings are polished and chrome or black chrome-plated
- Cables are made with anti-friction inner liners and adjuster inserts, plus they are factory lubricated for smooth, consistent, long-lasting operation

NOTE: Check torque spec on transmission fitting when installing.

HOW TO MEASURE CLUTCH CABLES

NOTE: Cables are measured with the adjuster completely collapsed. Travel is measured with cable straight.

ALTERNATIVE LENGTH HIGH EFFICIENCY CLUTCH CABLES FOR CUSTOM HEIGHT/WIDTH HANDLEBARS

MAGNUM STERLING CHROMITE

STERLING CHROMITE® BRAIDED THROTTLE AND IDLE CABLES FOR S&S CARBS

- The best braid available to complement your bike
- Braid color and weave matches on all MAGNUM control cables and brake lines
- Coated with a non-yellowing, crystal-clear FEP fluoropolymer outer jacket for exceptional protection against scuffing paint or chrome
- All fittings are polished and chrome-plated
- Meets or exceeds all OE specifications for fitment, construction and endurance
- All cables are made with anti-friction inner liners, nylon adjuster inserts and are factory lubricated for smooth, consistent, long-lasting operation

BYO® BUILD YOUR OWN® CONTROL CABLE KITS

- Available in three styles: stainless steel braid or black vinyl with chrome fittings and black vinyl with black chrome fittings
- Looks and performance like a factory made cable
- BYO cables are extra long to allow you to build the perfect stock or plus length cable every time
- Easy installation – route, cut and assemble in less than 10 minutes
- Throttle and idle cable kits make up to a 132 cm (52") housing length, have a choice of either a 90 degree or 45 degree elbow assembly
- Throttle and Idle kits are sold separately
- Clutch cables are a high-efficiency design and the clutch inner cable fitting has a pull-off strength of 226+ kg (500+ lb)
- Two-piece clutch cable kits fit 1987 and later 5 or 6 speed transmissions and can make up to 203 cm (80") total length
- Black two-piece clutch cables include a black boot to cover the adjuster; adjuster and transmission fittings are chrome
- One-piece clutch cable kits are specific for Big Twin or Sportster models and both types of kits are available in either stainless steel braid or black vinyl with chrome fittings
- One-piece cables make up to 178 cm (70") total length for Sportsters or 188 cm (74") total length for Big Twins
- Use enclosed template to set free length to factory specifications for most applications (throttle, idle and two-piece clutch cables only)

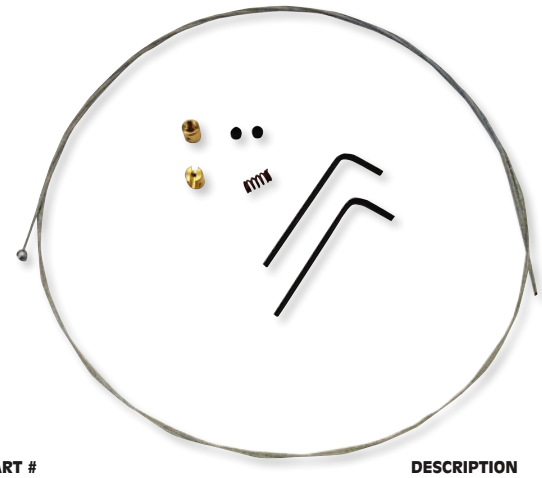
CLUTCH INNER CABLE REPAIR KIT

- Everything you need to replace a broken inner cable on your mechanical clutch
- Long enough to repair most Harley-Davidson clutch cables
- Includes one pre-lubed 254 cm (100") inner cable, two clutch slugs, two clutch pins and one pin holder
- A must-have item for your tool pouch or saddlebags for those long road trips

NOTE: This kit is a universal/custom fit part, and does not have any exact model application. A hammer and a hard level surface is needed to correctly install the transmission end of the inner cable.

PART #	DESCRIPTION
0652-1984	Clutch cable repair kit

THROTTLE/IDLE CABLE REPAIR KIT



- Everything you need to replace a broken inner throttle or idle cable
- Long enough to repair most Harley-Davidson throttle, idle or idle-cruise cables
- There is no need to remove the cable housing from the bike to make the repair
- Includes: one pre-lubed 165 cm (65") inner cable, one throttle twist grip barrel, one idle cable spring and one carburetor double setscrew locking barrel with two Allen wrenches
- A must-have item for your tool pouch or saddlebags for those long road trips

NOTE: This kit is a universal/custom fit part, and does not have any exact model application.

PART #	DESCRIPTION
0650-1586	Throttle/idle repair kit

THROTTLE AND IDLE CABLES

DS-223265

- Fit early-style S&S carburetors with short cable guides when using stock throttle assemblies
- Available with black housings, in several lengths
- Sold each

NOTE: Length given is the length of the outer housing only, excluding the elbow.

PART #	DESCRIPTION
FOR 96-99 BIG TWIN	
DS-223261	106,5 cm (42") Throttle
DS-223265	122 cm (48") Throttle
DS-223262	106,5 cm (42") Idle

PART #	DESCRIPTION
FOR 96-99 BIG TWIN (CONT)	
DS-223266	122 cm (48") Idle
FOR 84-95 BIG TWIN	
0632-0736	91,4 cm (36") Throttle, open side, threaded

SPECIALTY/UNIVERSAL THROTTLE CABLE

- Black, vinyl-encased throttle cable for a variety of universal or specialty fitments

PART #	DESCRIPTION
DS-243070	Universal type w/ barrel/ball ends; 152,5 cm (60") L, 133 mm (5¼") free length

UNIVERSAL THROTTLE CABLE

- Cut to length for use with internal throttle assemblies
- 203 mm (8") over stock length
- 135 cm (53") total length, including adjuster

PART #	DESCRIPTION
0650-1576	Universal black vinyl throttle cable

Complete stainless kit

Standard stainless kit

HANDLEBAR CABLE/BRAKE & CLUTCH LINE/WIRE KITS AND COMPONENTS

- Take "cable calculation" headaches out of swapping handlebars
- Individual components for all kits are available as listed

COMPLETE KITS

- Kit includes the correct length braided brake/clutch lines and wire extensions to complete a handlebar swap
- Stainless braided kits include clutch line, brake lines, chrome "T" brake line junction, banjo bolts, fittings and copper crush washers
- Black vinyl/stainless kits include black vinyl clutch line and brake lines with chrome fittings, banjo bolts and crush washers
- Midnight series kits include clutch line and brake lines covered in a black smoke tinted coating with pure black fittings throughout; lines appear graphite or carbon fiber in appearance providing that ultra custom look and the black fittings seamlessly blend with blacked out controls and covers on the bike

STANDARD KITS

- Kit includes the correct length brake/clutch lines and wire extensions to complete a handlebar swap; electrical wire extensions not included (available separately)
- Stainless braided kits include clutch line, brake lines, chrome "T" brake line junction, banjo bolts, fittings and copper crush washers
- Black vinyl/stainless kits include black vinyl clutch line and black stainless brake lines with chrome fittings, banjo bolts and crush washers
- Midnight kits include stainless steel brake lines and clutch lines covered in a black smoke tinted coating with pure black fittings throughout; lines appear graphite or carbon fiber in appearance providing that ultra custom look and the black fittings seamlessly blend with blacked out controls and covers on the bike

DESIGNER HANDLEBAR INSTALLATION KITS

- The only complete kits with matching braided cables and brake lines
- Kits are available for non-ABS Harley-Davidson models with 25,5 cm (10") to 47 cm (17") ape hanger style handlebars installed
- Kits include throttle and idle cables, clutch cable or hydraulic clutch line, brake lines, copper crush washers, hardware, and any necessary switch wiring or turn signal extensions
- All cable and brake lines feature either Sterling Chromite® or Black Pearl braid with highly polished chrome or black chrome-plated fittings
- Brake lines are constructed with PTFE inner tubing, DuPont™ Kevlar® aramid fiber, premium Signature Magnum braids and an outer PVC jacket
- All cables are a low-effort, high-efficiency design that meets or exceeds all OE specifications for fitment, construction and endurance
- Kits for dual disc models include an all brazed manifold that eliminates leaks, alignment problems and unattractive threaded connections

DuPont™ and Kevlar® are trademarks or registered trademarks of E.I. du Pont de Nemours and Company.

NOTE: Kits are based on using ape hanger style handlebars with 51 mm (2") risers (except for Touring models).

MAGNUM

XR STAINLESS HANDLEBAR INSTALLATION KITS

- Magnum XR handlebar installation kits offer a great fit and excellent quality at an economical price
- XR handlebar installation kits are available for non-ABS Harley-Davidson motorcycles with 30,5 cm (12") to 43 cm (17") ape hanger style handlebars
- Three color combinations to complement your bike: clear-coated stainless steel with chrome-plated fittings, OE style black vinyl with chrome plate fittings or black-coated with black chrome-plated fittings
- All cables are a low effort, high efficiency design that meets or exceeds all OE specifications for fitment, construction and endurance
- Magnum XR brake lines use an enhanced construction of heavy gauge stainless steel embedded in tough abrasion-resistant nylon outer jacket for superior durability
- The coating on cables and brake lines offers exceptional protection for paint or chrome
- Kits that include manifolds use an all-brazed construction to ensure optimal OE fitment and appearance
- Manifolds use -3 AN connections for an easy installation
- Kits include throttle and idle cables, clutch cable or XR hydraulic clutch line, XR brake lines, copper crush washers, hardware, turn signal and switch wiring extensions

Note: Kits are based on using ape hanger style handlebars and 51 mm (2") risers (except Touring models).

CABLE ADAPTER FOR DRAG SPECIALTIES MINI GAUGES

- Allows speedometers with a 12 mm cable connection to use 5/8"-12 speedometer cable
- Fits all Drag Specialties mini gauges and other speedometers with a 12 mm cable connector
- Sold each

PART #	DESCRIPTION
2210-0062	Cable adapter

CHOKE CABLES

- Cables feature black vinyl outer casings
- Match the entire stock of Drag Specialties cables
- Available for most applications

0654-0025

0654-0028

PART #	DESCRIPTION
0654-0025	For 90-98 FLT, 90-99 FXST, FLST, 91-98 Dyna, 90-00 FXR; 203 mm (8") L, includes knob; repl. OEM #s 29229-88, 29236-90, 29229/88C/88D
0654-0028	For 84-89 FLTC, 84-87 FLHT, 84-89 FLHTC, 87-89 FLHS,84-89 FXRS, 84-88 FXRP/FLHTP, 84/87 FXRC, 86 FXRD, 84 FXRDG, 87-89 FXLR, 83/86-89 FXR, 85-89 FXRS-SP, 84-89 FXRT; 233,7 mm (9,2") L; repl. OEM #s 29209-86, 29210-86, 29225-79
0654-0028	For 80-83 FLTC, 83 FLHT, 82-83 FXRS, 80-83 FLT, 82-83 FXR, 83 FXRT; 233,7 mm (9,2") L; repl. OEM # 29225-79
0654-0026	For 86-89 FLST, 87-89 FLSTC, 84-89 FXST; 41,7 cm (16,4") L; repl. OEM #s 29213-79, 29211-86
0654-0027	For 73-78 FX, 73-81 FXE, 77-81 FXS, 80-81 FXB, 79-81 FXEF, 72-E80 XLH/XLS, 72-79 XLCH, 77-78 XLCR, 77 XLT (includes knob; cable is 284 mm (11,2") L: inner wire only); repl. OEM #s 29216-72, 29219-78

All part numbers in **BLUE** are new for the OldBook.

BOTTLE CAP CHOKE CABLE KNOB

- Adds some flair and personality to your bike
- Personalize your choke knob with the bottle cap from your favorite beverage
- Installs in minutes, and can be changed as often as you like
- Bottle cap not included

PART #	DESCRIPTION
0657-0025	For 90-99 Evolution Big Twin w/ stock choke cable

DS-189141 DS-189140

CHROME BILLET CHOKE CABLE KNOB COVERS

- Fits all plastic choke knobs
- Screw together for a positive fit
- Available in smooth or ball-milled finish

PART #	DESCRIPTION
DS-189141	Ball-milled

PART #	DESCRIPTION
DS-189140	Smooth

KURYAKYN MARQUIS CHOKE CABLE KNOB COVER

- Chrome cover installs over the stock plastic knob
- Improves looks and is easier to use

PART #	DESCRIPTION
DS-189142	For 90-98 Big Twin w/ stock choke cables

DS-324804 DS-324802

KURYAKYN CLUTCH CABLE FERRULE/BANJO BOLT COVER KIT

- Kit includes chrome covers for clutch cable ferrule and master cylinder banjo bolt
- Banjo bolt cover also can be used on caliper banjo bolts
- Covers can be purchased separately

PART #	DESCRIPTION
FOR 84-99 BIG TWIN AND 84-85 XL	
DS-324804	Clutch cable ferrule cover and banjo bolt cover combo kit
DS-324802	Banjo bolt cover only (ea.)

MOTION PRO THROTTLE CABLE BOOTS

- Replacement for the original equipment cable boot for all models
- Sold in 10-pack

PART #	DESCRIPTION
0659-0005	Throttle cable boots

DS-390448

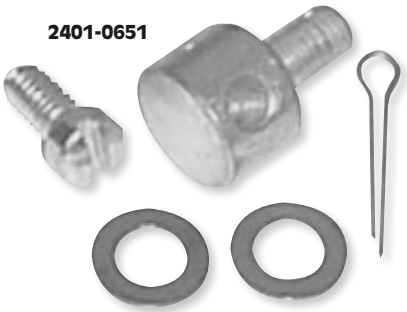
DRAG SPECIALTIES CLUTCH CABLE ADJUSTER COVERS

- Replaces the rubber boot found on most clutch cables
- Two-piece design is easy to install or remove when clutch needs adjusting
- Fits 87-99 5-speed clutch cables

PART #	DESCRIPTION
DS-390448	Chrome

0659-0016

PART #	DESCRIPTION
0659-0016	Gloss black



2401-0651

COLONY LINKERT/BENDIX CARBURETOR THROTTLE LEVER WIRE BLOCK KITS

- Kit includes cadmium-plated block, OEM #27450-36, screw, cotter pin and brass washers
- Available standard or +0,005" oversized

PART #	DESCRIPTION
FOR 36-65 BIG TWIN	
2401-0651	Standard
2401-0652	+0,005"

DS-223067

DS-223069

MOTION PRO THROTTLE CABLE RETAINING CLIPS AND FERRULES

- Replacement clips and ferrules with clip-in cables
- Sold in 10-pack

PART #	DESCRIPTION
DS-223067	Throttle cable clips, 96-99 models; repl. OEM #11272
DS-223069	Ferrules for throttle/idle cables, 76-99 Big Twin; 57-85 XL; repl. OEM #56508-76

All part numbers in BLUE are new for the OldBook.

Accutronix
precision crafted billet products

THROTTLE/IDLE CABLE CLAMP

- Billet aluminum construction
- Two-piece clamp separates cables so they don't rub together
- Keeps cables routed where they belong

PART #	DESCRIPTION
DS223350	Oval, chrome

Motion Pro

CABLE CLAMPS

- Unique two-piece design allows easy installation
- Swivel-head design allows more natural cable routing without excessive bending
- Polished chrome or E-coated black finish
- Innovative single-bolt clamp gives a clean custom look
- Rubber sleeves protect painted surfaces and cable housing
- 25,4 mm (1") clamps fit handlebars and many aftermarket frames
- 28,6 mm (1 1/8") clamps fit XL models through 81 and OEM 4-speed or Softail frames
- 32 mm (1 1/4") clamps fit 82-95 FXR, Dyna and 82-03 XL
- 38 mm (1 1/2") clamps fit custom frames

0658-0004

PART #	DESCRIPTION
0658-0007	25,4 to 28,6 mm (1" to 1 1/8") dual throttle/clutch
0658-0004	32 to 38 mm (1 1/4" to 1 1/2") single throttle/clutch

ABE

STAINLESS STEEL DRILLED BRAKE ROTORS WITH ABE

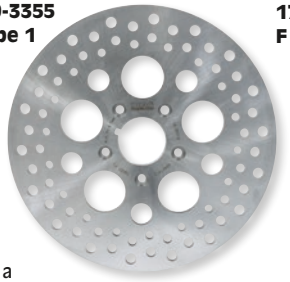
TYPE F DISC

- Stainless steel brake rotors
- Proprietary heat treatment ensures homogeneity and consistency of the rotor design
- Machined surfaces are finished using a bi-lateral cross-textured grinding process that keeps rotor runout to no more than 0,01 mm
- All non-machined surfaces are finished using anti-corrosive paint for durability and protection from the elements
- Manufactured in Europe to ISO/TS 16949 certified standards that meet or exceed OEM specifications
- Available in Type 1 Classic and Type 2 T-Bone styles

TYPE FTK DISC

- Stainless steel fully floating brake rotors
- Outer brake ring features machined and painted rotor slots
- Innovative design improves brake performance and helps cool the rotor faster during extreme use
- Design gives maximum resistance to fade/warp from heat and mechanical stresses
- Rotor design allows for better heat exchange
- Rotor bobbins are stainless steel for efficient rotor "float" so the rotor will not warp and distort under extreme stress/heat
- Stainless steel outer rotor rings are machined and the surfaces finished using a bi-lateral cross-textured grinding process that keeps rotor runout to no more than 0,01 mm

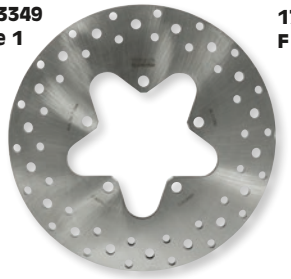
1710-3355
F Type 1



1710-3417
F Type 2

1710-3338
FTK

1710-3349
F Type 1



1710-3411
F Type 2

- Rotor weight and inertia are not increased compared to other brake rotor disc types; do not impede the motorcycle's steering/handling characteristics
- Very original style, great for customizers or to enhance the look on older stock bikes
- Manufactured in Europe to ISO/TS 16949 certified standards that meet or exceed OEM specifications

FLOATING ROUND BRAKE ROTOR

- Lower unsprung weight
- More braking power
- Better heat dissipation
- Excellent resistance to corrosion
- Less tendency to warp
- Anodized or chromed high resistance aluminium (7075-T6 to 6082-T6) or stainless steel (AISI 420) carrier

DESCRIPTION	PART #
For 86-89 FLH, 94-99 FLH	**1710-4210**

ROUND FRONT BRAKE ROTORS

- Classic look and has more braking power than the original disc
- Low working temperature and less tendency to warp
- Excellent resistance to corrosion
- Stainless steel high carbon content
- Floating discs are made from anodized or chromed high-resistance aluminum (7075-T6 to 6082-T6) or stainless steel (AISI 420) carrier

DESCRIPTION	STYLE	PART #
For all 84-89 Big Twin, 94-98 FLHR	Fixed	**1710-4209**

ADRIAN BRAKE ROTORS

- Developed to perform under heavy loads and in combination with today's powerful aftermarket brake calipers
- Made from premium quality stainless steel
- CNC laser cut and precision double ground within the tightest tolerances to reduce vibration
- High corrosion-resistance
- Omnidirectional, can be used in either right or left side applications
- Dual disc applications require the purchase of two front rotors
- Sold each

1701-0310

FOUR-PISTON DIFFERENTIAL-BORE CALIPERS

- Feature differential bore pistons that apply a different force at both the leading edge and the trailing edge of the pads to ensure superior braking
- Dual-disc applications require separate purchase of a left and righ front caliper
- Available in chrome, polished, Black Ops™ and Contrast Cut™ finishes
- Black Ops is a gloss black finish on top of a contrasting textured black finished for outstanding toughness and design
- Contrast Cut finish starts with a polished caliper that has been black anodized, then recut to open the design

1701-0317

- Includes brake pads, bleeder screw and 3/8"-24 banjo bolt

NOTE: Will not fit FXD/FXR/XL with spoke wheels.

SIX-PISTON DIFFERENTIAL-BORE FRONT CALIPERS

- Designed for 11,5" rotors with 112 x 6B calipers
- Dual-disc applications require a left and right caliper
- Work with OEM-style or Performance Machine rotors
- Chrome calipers are highly polished then chrome-plated
- Contrast Cut™ finish starts with a polished caliper that has been black anodized, then recut to open the design
- Include brake pads, bleeder screw and 3/8"-24 banjo bolt

NOTE: Will not fit FXD/FXR/XL with wire spoke wheels.

FOR 91-98 FXD/FXDC/FXDL/FXDB, 93-98 FXDWG, 95-98 FXDS-CONV, 84-99 FXST/FXSTB/FXSTC (EXCEPT FXSTS), 86-99 FLST/FLSTC (EXCEPT FLSTS), 90-99 FLSTF, 93-99 FLSTN, 84-98 FLT/FLHT/FLHR, 84-00 FXR, 87-94 FXLR, 84-92 FXRT, 84-85 XL/XLH

VINTAGE REAR CALIPERS AND BRACKETS

- Braking power comes from Performance Machine's proven 4-piston internals, with styling cues taken from the Dual Action Cast caliper
- CNC-machined fins give the caliper its vintage style while keeping the caliper cool and providing optimal braking power with no flex
- The precision-machined Performance Machine logo around the accent bolt and centrally located banjo are the finishing touches to a true classic
- Available in chrome, Black Ops™ and black finishes
- Black Ops is a gloss black finish on top of a contrasting textured black finish for outstanding toughness and design
- Calipers and brackets sold separately

Sintered metal

Organic Aramid Fiber

BRAKE PADS

- Sintered metal brake pads are the OEM-type replacement pads for most bikes from the late 1970s to the present
- Sintered metal brake pads are proudly made in the U.S.A.; second-to-none in their stopping abilities and wear characteristics while still providing excellent reduction in noise and dust
- Organic aramid fiber pads are OEM type replacement brake pads for 1970s and earlier models
- Organic aramid fiber pads are the perfect choice for polished or chromed rotors and billet steel rotors
- Semi–metallic brake pads offer a pad in between both the sintered and organic brake pads
- All three compounds of Drag Specialties brake pads are asbestos, nickel and lead free

NOTE: If you are using aftermarket billet steel rotors, it is recommended you use our organic aramid fiber brake pads to avoid damage to them. Sintered pads are not recommended for billet steel rotors as the pad material is too aggressive for those rotors.

DP Sintered

SDP Sport HH+

RDP Race

DP BRAKES SINTERED METAL BRAKE PADS

- Give your bike peak braking performance with DP Brakes brake pads
- Pads have a quick break-in period so you get peak braking performance fast
- DP Brakes design and materials ensure consistent, hard stops and fade-free performance
- Pads give long pad life – sintered metal compounds outlast conventional organic or aramid pads
- Made with DP Brakes' proven sintered metal pad material
- Gray-colored aluminum oxide-based ceramic material on backplate of pad keeps heat away from caliper piston and fluid in extreme conditions for fade-free performance
- Excellent initial bite and feel in both wet and dry conditions
- GG friction rated
- Quiet and non-abusive to most rotors; no brake dust or brake fade
- OEM pads for Performance Machine calipers
- ABE approved

SDP SPORT HH+ SINTERED METAL BRAKE PADS

- Feature the industry-high, HH+ friction rating
- Provide superior stopping power with no mileage penalty
- Gray-colored aluminum oxide-based ceramic material on backplate of pad keeps heat away from caliper piston and fluid in extreme conditions for fade-free performance
- Quick pad break-in time so you get maximum stopping power fast
- Quiet and dust-free
- ABE approved

RDP RACING SINTERED METAL BRAKE PADS

- Developed with the aid of top works teams to give your bike maximum stopping power
- Gray-colored aluminum oxide-based ceramic material on backplate of pad keeps heat away from caliper piston and fluid in extreme conditions for fade-free performance
- Designed to give maximum initial power, with fingertip control throughout the stop
- Quiet and dust-free

NOTE: DP Brakes brake pads are not for use with polished rotors.

⚠ WARNING RDP Race pads are for Race/Track use only; not for street use. These pads are for Race/Track use only. Any other use could result in death or serious injury.

SBS BRAKE PADS

The pads formerly known as Drag Specialties by SBS deliver unmatched performance and quality.
You can find the right pad and compound for your application from SBS – proudly made in Denmark.

STREET EXCEL SINTERED METAL FRONT BRAKE PADS

- Excellent for Touring models and those wanting high-performance pads
- Class-leading HH friction rating developed in racing, then tuned for the street
- OEM replacement choice when replacing sintered pads
- Compound is formulated for low wear and high performance
- Leading noise-reducing technology for the lowest risk of noise
- Sold in pairs

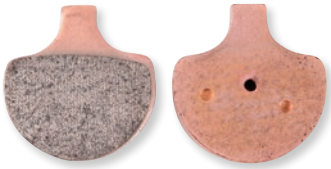
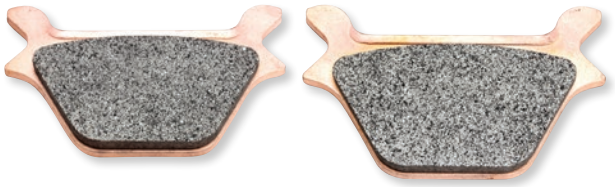
Organic Pads



Double-H pads

Semi-Sintered V pad



Extreme Performance pad

BRAKE PADS

ORGANIC PADS

- Organic brake pads feature aramid fibers; these are man-made high-performance fibers used widely for their light weight, high strength, abrasion resistance and thermal stability
- Aramid fibers have high strength-to-weight, thermal stability and abrasion resistance to provide advantages over cheaper steel fiber-based products
- Provide excellent stopping power without noise and rotor galling, even on polished rotors
- Fingertip control and strong, predictable brake response

DOUBLE-H SINTERED METAL PADS

- Feature the HH friction rating, the highest in the industry
- Provide maximum brake effect and last twice as long as organic pads

SEMI-SINTERED "V" PADS

- All-new semi-sintered construction containing 30% copper by weight within an organic matrix
- This design combines the long life of a sintered pad with the great feel and lack of rotor damage common with sintered pads
- Can be used to replace aramid fibers or sintered metal compound pads

EXTREME PERFORMANCE SINTERED METAL

- The newest sintered metal brake pad fusion technology
- Has the highest friction rating available in a pad - 0,6 - for strong, fade-free stopping power
- No lead, iron or steel additives; no more rotor outline etching or rotor stiction
- Super-fast bed-in; full friction after 10 to 15 race stop uses
- Great heat cycle ability; pads cool after extreme use and perform just as strong the next day

NOTE: Brake pads include abutment shims where required.

See chart for details

NRS Technology

BRAKE PADS

STANDARD PADS

- Organic material
- Long pad service life
- Suitable for use with all brake discs
- Solid performance, even in wet conditions
- Features NRS Technology, precluding loss of lining material under extreme thermal conditions
- All parts are ABE approved unless noted

RQ SINTERED METAL PADS

- Completely metallic sintered brake pads
- Good all-around performance
- Suitable for use with most brake discs
- Friction rate is matched to our SV sintered metal pads
- Recommended only for use when replacing sintered metal pads
- No bedding is required

SV SINTERED METAL PADS

- Completely metallic sintered brake pads
- Good all-around performance
- Suitable for use with most brake discs
- No bedding is required

SRQ SINTERED METAL ROAD RACING PADS

- Completely metallic sintered brake pads
- Extremely high friction rate
- Very effective performance with low pressure at the lever
- Suitable for high-performance use

CRQ CARBON RACING PADS

- Carbon-based racing pad
- Greater durability than the SRQ pad
- High friction levels; requires low effort at the lever
- Suitable for high-performance use

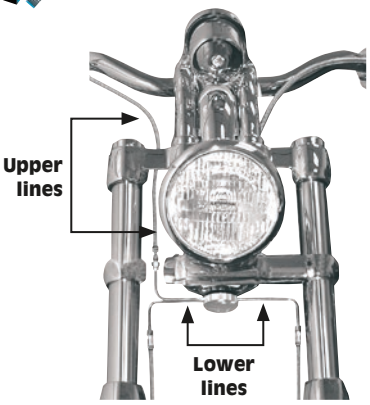
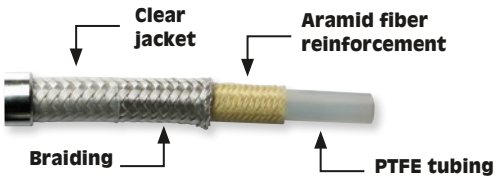
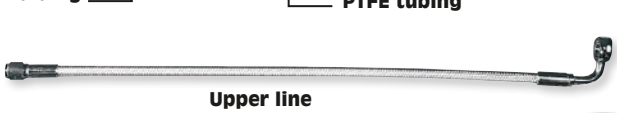
MAGNUM STERLING CHROMITE BLACK PEARL POLISHED STAINLESS KARBONFIBR







DESIGNER SERIES BRAIDED NON-ABS FRONT BRAKE LINE KITS

- Brake kits utilize a superior two-piece design consisting of a direct fit lower assembly used in conjunction with alternative length upper lines
- All brazed manifold construction eliminates leaks, alignment problems and unattractive threaded connections for a sleek appearance
- Choice of 35°, 90° or 180° upper brake line banjo angles ensure a great fit
- AN-3 connections for easy installations
- All fittings are highly polished and chrome or black chrome-plated
- The industry's highest quality braid in four color choices to complement your bike: Sterling Chromite®, Black Pearl, Karbonfibr and Polished Stainless
- Braid color and weave match on all Magnum control cables and brake lines
- Crystal clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- Inner PTFE tubing braided with Aramid Fiber reinforcement provides the ultimate in high performance by greatly reducing line expansion
- Brake lines are constructed with PTFE inner tubing, DuPont™ Kevlar® aramid fiber, premium Signature Magnum braids and an outer PVC jacket

NOTE: Upper and lower brake line kits are sold separately to allow for a perfect fitment.

NOTE: Non-stock applications require taking a measurement for the upper brake line length and banjo angle to ensure correct fitment (see How to Order).

DuPont™ and Kevlar® are trademarks or registered trademarks of E.I. du Pont de Nemours and Company.

IMPORTANT - HOW TO ORDER

Stock fitments: Use the stock fitment chart to determine the upper and lower kits needed for your application. The stock upper line length and banjo angle is also listed for each application. This information may be helpful when choosing alternative length lines.

Lower lines are model specific. Use the stock fitment chart to determine which kit is required.

Alternative fitments: Due to handlebar changes, fitment options are accommodated with the UPPER line only. You may prefer to use a different length or banjo angle based your specific routing. See the alternative length chart for available lengths and banjo angles.

Upper line length is determined by measuring the routing path from the top of the lower triple tree to the master cylinder. The upper and lower connection is made at this point – see diagram.

XR STAINLESS EXTREME RESPONSE FRONT BRAKE LINE KITS

- Manufactured with an enhanced construction for extreme braking response and durability
- Designed to be compatible with Harley-Davidson ABS requirements for stock and alternate length brake lines
- Inner PTFE tubing braided with XR stainless steel reinforcement embedded in a tough nylon outer jacket offers exceptional protection for paint or chrome
- Three color choices: Clear-coated with chrome fittings, OE-style black stainless steel with chrome fittings or black-coated stainless steel with black chrome fittings
- Available in stock and plus lengths with clear or black coated XR stainless brake line
- All fittings are highly polished and chrome or black chrome-plated
- All brazed manifold construction eliminates leaks, alignment problems and unattractive threaded connections for a sleek appearance
- -3AN connections for easy installations

NOTE: Complete kits contain brake line assemblies to connect the caliper(s) to the master cylinder.

E-Z ALIGN BRAIDED SINGLE DISC FRONT BRAKE LINES

- E-Z Align rotating caliper banjo feature for perfect no-kink fitments
- Choice of 35°, 90° or 180° upper brake line banjo angles
- Brake lines are available with either a $^{7}/_{16}$" or $^{3}/_{8}$"/10 mm master cylinder banjo fitting
- All fittings are polished and chrome or black chrome-plated
- The industry's highest quality braid available in four color choices to complement your bike: Sterling Chromite®, Black Pearl, Karbonfibr and Polished Stainless
- Karbonfibr braid is created from metallic wire with distinct black and gray tone colors, blended and interwoven to mimic the distinct look of carbon fiber
- Braid color and weave match on all Magnum control cables and brake lines
- Crystal-clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- Inner PTFE tubing braided with aramid fiber reinforcement provides the ultimate in high performance by greatly reducing line expansion
- Brake lines are constructed with PTFE inner tubing, DuPont™ Kevlar® aramid fiber, premium Signature Magnum braids and an outer PVC jacket

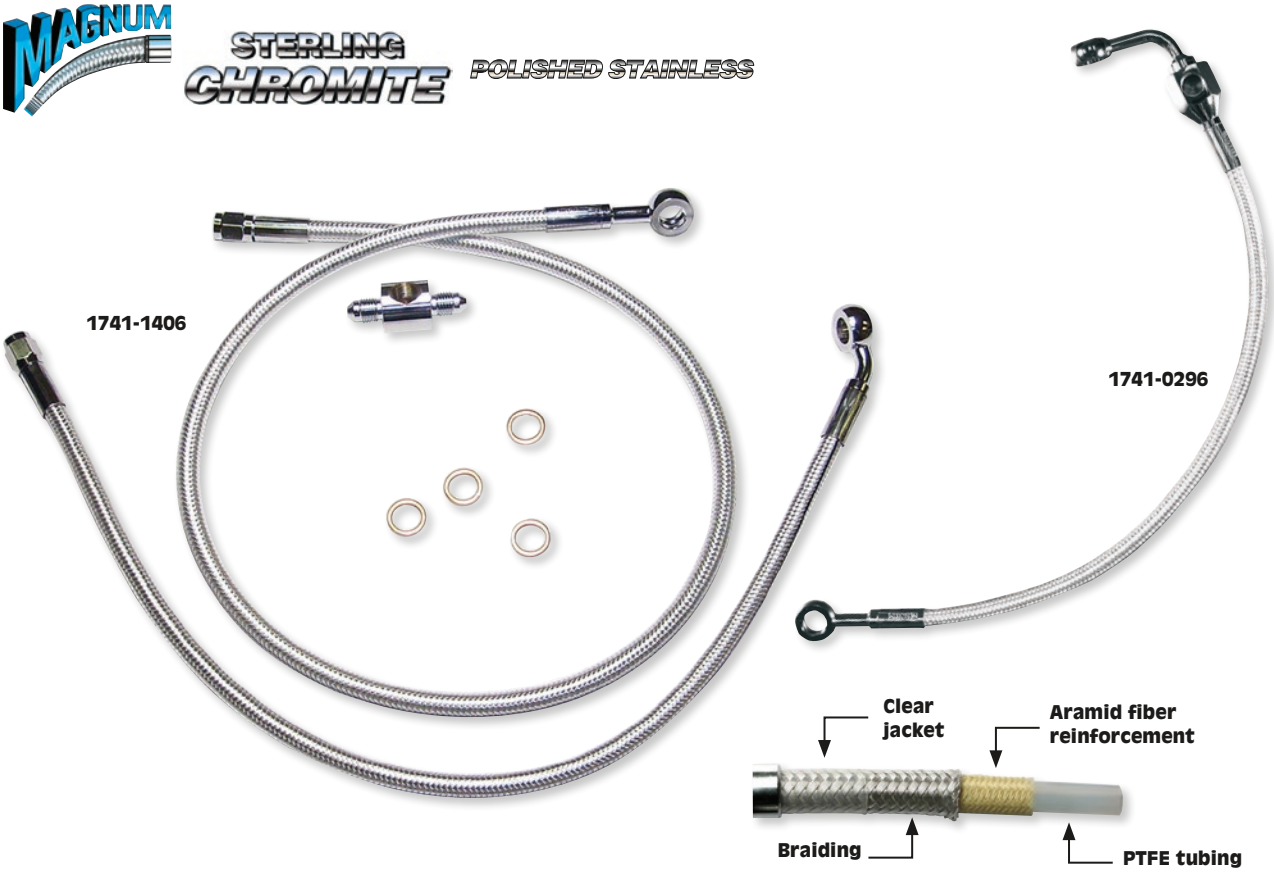
MAGNUM STERLING CHROMITE POLISHED STAINLESS



BRAIDED DOT REAR BRAKE LINE KITS

- The industry's highest quality braid available in two color choices to complement your bike: Sterling Chromite® and Polished Stainless
- Braid color and weave match all other Magnum control cables and brake lines
- All fittings are polished and chrome-plated
- Kits use OE-style manifolds or universal T-blocks for a complete installation
- Crystal-clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- Inner PTFE tubing braided with aramid fiber provides the ultimate in high performance and is compatible with all hydraulic fluids
- Constructed with PTFE inner tubing, DuPont™ Kevlar® aramid fiber, premium Signature Magnum braids and an outer PVC jacket

DuPont™ and Kevlar® are trademarks or registered trademarks of E.I. du Pont de Nemours and Company.

UNIVERSAL BRAKE LINE AND FITTINGS

- Universal, black $^{3}/_{16}$" OD nylon brake lines; ideal for custom fabrication
- Semi-rigid nylon construction offers unparalleled flexibility, allowing the builder ultimate control
- Compression-type chrome fittings with unique concave design
- Line and fittings also work great for custom hydraulic clutch applications
- For offroad and show use only
- Fittings made from steel, not brass
- Line and fittings sold separately

NOTE: All Big Twin and XL use standard $^{3}/_{8}$" and $^{7}/_{16}$" banjo bolts, washers and fittings. Fittings and washers listed as $^{3}/_{8}$"/10 mm can be used in either application.

BYO® BUILD-YOUR-OWN DOT BRAKE LINE BUILDER KITS

- Assemble lines in only five minutes with side cutters and a 7/16" wrench for a perfect fit and alignment every time
- Two different kits are available in two colors to solve your brake line assembly challenges
- Basic Builder Single Disc Kits contain 7/16" and 10 mm banjos and fittings to build multiple front single disc brake lines
- Deluxe Builder Kits contain banjos and fittings to build multiple front single disc brake lines, hydraulic clutch lines and most rear brake lines
- All kits are organized in a labeled, compartmental carrying case and include 7,6 m (25') of non-yellowing clear or black coated braided stainless steel hose, chrome or black chrome plated banjos, polished stainless hardware, copper crush washers plus a set of durable Aluminum BYO® Vise Jaws. Kit contents are listed below
- Brake hose and fittings are compliance labeled, pressure tested and 100% inspected
- NOT for use with Anti-lock Brake Systems

NOTE: BYO® brand brake hose and components have been specifically designed to work ONLY in conjunction with each other. Use with any other Magnum brake line products or other manufacturer's brands will void all warranty, performance, and liability claims.

NOTE: Black and Basic BYO Single Disc builder kits do NOT contain rear brake line T-blocks or inverted flare fittings.

NOTE: Black and Basic BYO Single Disc Builder Kits Hydraulic Clutch Fittings are a natural stainless steel finish.

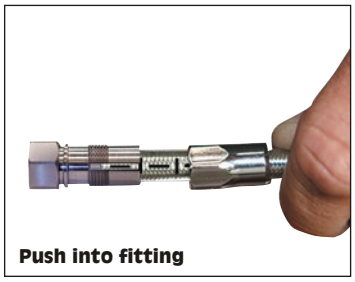
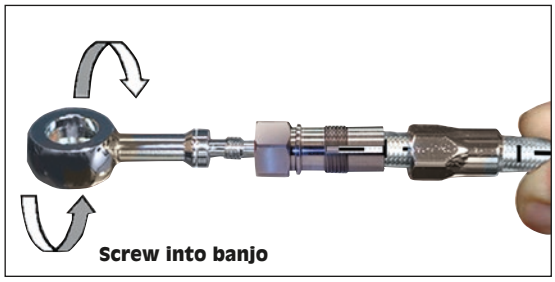
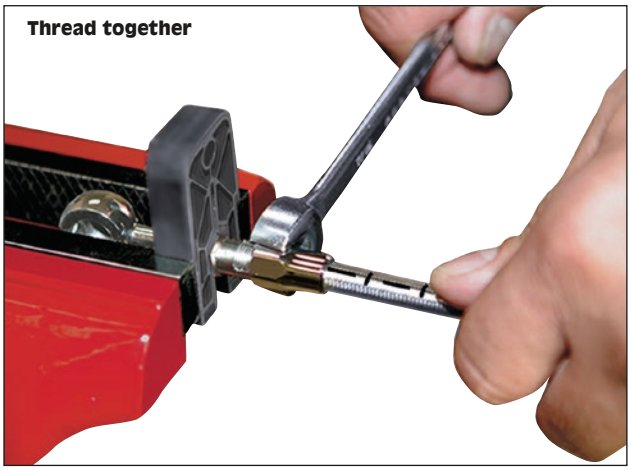
Cut to length



Push into fitting



Screw into banjo



Thread together

BYO® BUILD-YOUR-OWN UNIVERSAL BRAKE LINES

- Assembles in five minutes with only side cutters and 7/16" wrench
- All components and hoses are available separately to build your own brake line – choose banjo fittings, and then cut bulk line to the exact length needed to eliminate ordering guesswork for a perfect fit every time
- Brake hose is 100% pressure tested and fittings are 100% inspected
- -3 bulk stainless brake line is fully labeled and sold in multiple lengths (includes one vise wrench for assembly)
- -3 braided stainless brake line is coated with a non-yellowing clear outer jacket – banjos and inverted flare fittings are polished and chrome plated with polished stainless steel fittings
- -3 braided black stainless brake line is coated with an opaque black outer jacket – banjos are black chrome plated and include black heat shrink to cover the stainless fittings once assembled

NOTE: Compatible Magnum Shielding BYO® brand brake hose and BYO components have been specifically designed to only work in conjunction with each other. Use with any other Magnum brake line products or other manufacturer's brands will void any warranty, performance and liability compliance claims.

NOTE: All BYO® brand brake lines are intended for non-ABS applications ONLY.

NOTE: Please see page 741 for compatible Drag Specialties and Magnum banjo bolts and crush washers.

All part numbers in BLUE are new for the OldBook.

BRAIDED UNIVERSAL BRAKE LINES AND FITTINGS

- Brake lines available in Universal DOT or ABS Universal DOT
- ABS Universal DOT brake lines are manufactured with an enhanced construction designed to be compatible with Harley-Davidson ABS requirements for alternate length brake lines
- The industry's highest quality braid in four color choices to complement your bike; Sterling Chromite®, Black Pearl, Karbonfibr and Polished Stainless
- Braid color and weave match on all MAGNUM control cables and brake lines
- Inner PTFE tubing braided with aramid fiber reinforcement greatly reduces line expansion to provide the ultimate in high performance
- Crystal-clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- Universal AN-3 fittings, banjos, and manifolds are chrome or black chrome-plated
- Banjos are offered in most popular sizes and bend angles
- AN-3 Male Mini Tee with bracket and Rear Brake Switch block are available to complete custom builds
- Brake lines constructed with PTFE inner tubing, DuPont™ Kevlar® aramid fiber, premium Signature Magnum braids and an outer PVC jacket

DuPont™ and Kevlar® are trademarks or registered trademarks of E.I. du Pont de Nemours and Company.

NOTE: For banjo bolts, see page 741 and for crush washers, see page 741.

XR STAINLESS UNIVERSAL BRAKE LINES

- Manufactured with an enhanced construction for great braking response and durability
- Designed to be compatible with Harley-Davidson ABS requirements for stock and alternate length brake lines
- Three color choices: clear-coated with chrome fittings, OE-style black stainless steel with chrome fittings or black-coated stainless steel with black chrome fittings
- Universal AN-3 fittings are highly polished then chrome or black chrome-plated
- Inner PTFE tubing braided with XR Stainless Steel reinforcement embedded in a tough nylon outer jacket offers exceptional protection for paint or chrome
- Banjos are offered separately in most popular sizes and bend angles
- Male Mini Tee with bracket and Rear Brake Switch block are available separately to complete custom builds

1741-2088	For FXRS-SP 87-93, FXRT 87-92
1741-2120	For 95-97 FXSTSB

[1] Clear-coated.

UNIVERSAL BRAKE LINES

- Available in uncoated, clear-coated, ebony and platinum-finished stainless steel lines
- The combination of the PTFE inner and stainless steel outer braid eliminates the spongy feeling under heavy braking conditions
- Great looks combined with reliability and safety
- Thread of 3/8-24 female to go with adapters on pages 737-738

STEEL BRAIDED HYDRAULIC BRAKE LINES

- Inner core is made from PTFE
- Steel fabric has four wires
- Available in black (unless noted) in custom lengths from 13 cm L to 200 cm L
- Hose ends have screw-in connectors; must order hose ends and banjo bolts separately for a complete brake line assembly (see page 740)
- Sold each
- Brake lines comply with international DIN standard FMVSS106

KURYAKYN

ALLEY CAT LED FUEL AND BATTERY GAUGE

- Provides a nod toward retro muscle car styling
- Easily monitor voltage and fuel levels with the illuminated multi-colored LEDs that produce a highly visible display and provide the perfect complement to the Kuryakyn Alley Cat Gas Caps PART #s 0703-0711 and 0703-0710, sold separately
- Die-cast aluminum, measure 3" in diameter

PART #	DESCRIPTION
2212-0629	For 94-98 FLHR, 91-98 Dyna and 88-94 FXR (except console-mounted gauges)

INFORMER LED FUEL/BATTERY GAUGE

- Cap incorporates LED battery and LED fuel gauge
- Daylight sensor adjusts LED brightness level
- Fuel gauge illuminates a single green LED when full, from full to 5/8 tank a string of green LEDs, from 1/2 to 1/4 tank amber LEDs, from 1/4 tank red LEDs, and when near empty, a flashing single red LED
- "Empty" fuel level at which the red LED begins flashing can be set by the rider
- Battery gauge shows green LEDs when the charging system is between 12,5V and 14,5V, amber LEDs if the bike is not charging and flashing red LEDs if charging level exceeds 15V or drops below 10V
- The perfect match for Kuryakyn's flush-mount gas cap

PART #	DESCRIPTION
2212-0433	For 94-98 FLHR, 91-98 Dyna (except console-mounted gauges) and 88-94 FXR (except console-mounted gauges)

MESH

MESH FUEL/BATTERY GAUGE

- Plug-and-play direct replacement for the stock fuel gauge
- Ultra-bright LED display shows fuel level and battery voltage
- Low-profile, multi-piece design can be easily disassembled for custom finishing and paint
- Matches the Kuryakyn Mesh Gas Cap PART #0703-0764 (sold separately)

NOTE: Replaces tank-mounted (not center console mounted) fuel gauge.

PART #	DESCRIPTION
2212-0635	For 94-98 FLHR, 91-98 FXD/FXDWG and 88-94 FXR

MESH

MESH GAS CAP

- Sleek design with indented grooves around the edge for easy removal/installation
- A380 aluminum construction with a stainless steel mesh insert
- Insert can be removed for custom painting
- Vented right-hand threads
- Satin black finish

PART #	DESCRIPTION
0703-0764	For L96-99 models w/ screw-in type vented gas cap

FLUSH-MOUNT GAS CAP

- High-tech look of aviation-style fuel fillers
- Simply screws into the stock opening in your gas tank
- Keyed entry permits the low profile and prevents unauthorized entry
- Outer rings prevent chips around gas opening
- Available in vented style for 83 and later screw-in style tanks (L96-98 tanks will require reusing the stock gas cap gasket)
- Sold each

U.S. Patent #400838.

PART #	DESCRIPTION
0703-0883	Vented style for 82-99 H-D screw-type tanks (right-hand thread)
0703-0219	Repl. key for PART #s DS-390038, DS-390039

ULTRAFLAT POP-UP GAS CAP

- Vented, ultraflat design with a right-hand thread
- The special feature of the high-quality lid, which is equipped with a seal, is the retractable knurled screw with pop-up function; when you press on the closed tank cap with your thumb, the knurled screw can be countersunk by turning it 90°, the cap is now ultra-flat and conveys a classic smooth look
- Dimensions: outer diameter 60 mm, height with countersunk knurled screw 36 mm, diameter of knurled screw 38 mm, height of knurled screw 9 mm
- Thread diameter approx. 45 mm, thread depth approx. 28 mm

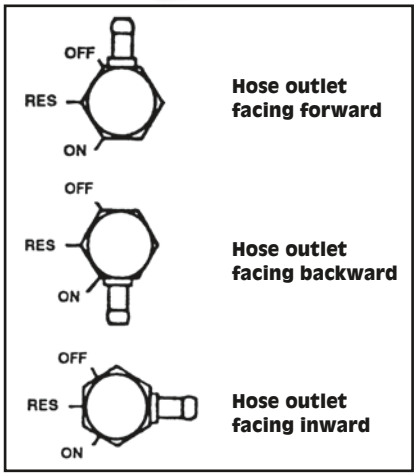
POWER-FLO™ FUEL VALVES

- Substantially higher fuel flow compared to OEM or aftermarket fuel valve
- Necessary for adequate fuel delivery even on stock motorcycles and a must for high performance
- Available for 75-84 (75-85 XL) models with a 22 mm external thread, or 66-74 tanks internally threaded for 3/8" NPT
- Adapter nut included on 22 mm threaded valves



NOTE: All descriptions are made from a seated position on the motorcycle with a reference from outlet position to the On, Reserve and Off position of the fuel valve lever.

THE GUZZLER® FUEL VALVES

- This is a serious fuel valve for serious riders
- Hardcoat anodized billet aluminum and stainless steel construction
- Spring-loaded detents for positive on-off positioning; no reserve available
- Flows up to 211 oz. of fuel per minute
- Available with 3/8" NPT or 22 mm inlets (all single outlets face down)
- Some styles available highly polished for that custom look

PART #	DESCRIPTION
22 MM CLEAR ANODIZED

VACUUM FUEL VALVES

- Has the highest fuel flow of any vacuum-style fuel valve on the market
- The same feature as OEM vacuum fuel valves – when valve is left in the "on" position with the motor off, fuel flow is shut off automatically
- High-quality, lustrous chrome finish is the same as Pingel's Power-Flo line of fuel valves
- Fits all 94-99 stock applications with 22 mm external thread
- Will also fit 84-93 models if a vacuum source is tapped
- Outlet is a single $^{5}/_{16}$" hose barb and will accept the stock vacuum line

PART #	DESCRIPTION

PINGEL Since 1967

BIG TWIN VALVE ADAPTER

- Offers better fuel flow and retains the stock crossover connection of your 35-65 style H-D split fuel tanks
- Don't let the stock fuel valve be the main jet — the stock fuel valve setup simply cannot support the fuel demands of today's high-performance engine
- Stainless steel gas tank adapter and any 22 mm threaded Pingel Power-Flo or Guzzler fuel valve (sold separately) will drastically improve your fuel supply

PART #	DESCRIPTION
0705-0053	Valve adapter

S&S PROVEN PERFORMANCE

FUEL PUMP FOR FUEL-INJECTED CUSTOM BIKES

- Pump can be mounted in nearly any tank
- Hollow mounting bolts secure the pump flange to the bottom of the tank and provide an outlet for wiring and pressurized fuel
- In-tank fiber filter prevents contaminants from damaging the pump or clogging fuel injectors
- Kit contains pump, in-tank filter, inlet hose, mounting hardware and instructions
- Pump specifications: 58 psi, 12,0 gal/hr., 5A draw

PART #	DESCRIPTION
1009-0007	Fuel-injected fuel pump for custom applications

ALL BALLS RACING

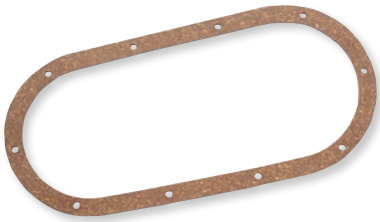
FUEL PUMP MODULE KIT

- Comes ready for plug-and-play installation
- Economical solution for restoring lost performance or non-performing fuel pump
- Includes necessary pump, filter, hose(s), clamp(s) and wiring harness as necessary per model

PART #	DESCRIPTION
1009-0077	For 95-98 FLT/FLHT/FLTR/FLHR

DRAG Specialties

SEAL FOR FUEL PUMP DOOR



- Meets or exceeds OEM specifications

FUEL TANK OUTLET PLUG

- Use to plug the outlet on fuel tanks that use either the fuel-injection or petcock adapter
- Also for use on aftermarket fuel tanks that have dual fuel outlets, but only one is required for use
- Includes O-ring seal
- Fits OEM and aftermarket fuel tanks that accept petcock adapter OEM #62842-00 (Drag PART #0705-0024)

PART #	DESCRIPTION
0705-0054	Polished chrome

PINGEL Since 1967

TANK FITTING KIT FOR FUEL-INJECTION TO CARBURETOR CONVERSION

- Use when converting from OEM fuel-injection systems to use a carburetor in order to deliver adequate fuel for large-displacement engines
- Kit replaces the factory tank fittings, allowing the use of a high-quality, high-flow Pingel fuel valve to feed the carburetor
- Made of stainless steel
- Kits include adapter and plug or adapter only with O-rings or gaskets

• See Pingel fuel valves on pages 759-760

NOTE: Due to tight tolerances in the tank fittings, a Pingel fuel valve is the only one that will fit.

PART #	DESCRIPTION
0705-0030	For 95-98 FLT/FLHT w/ Magneti Marelli EFI (adapter and plug); for use w/ any Pingel 22 mm valve

PINGEL Since 1967

LP (LOW PERMEATION) PREMIUM FUEL LINE

- Certified to meet permeation emission standards of 15g/M2/day
- On emission-controlled vehicles, check with local and state agencies to determine suitability
- Robust multi-layer design and construction
- Fluoropolymer liner compatible with higher ethanol-blend gasoline up to 100%
- Highly flexible, easy to install and offers excellent fitting retention
- Resistant to swelling, hardening and cracking caused by hydrocarbon-based fluids
- Ozone and UV light resistant
- Wide temperature range from -28,9 to 73,9 °C (-20 to 165 °F)
- Yellow color for easy identification
- Use Stepless® Clamps

WARNING: Not for use with fuel injection systems.

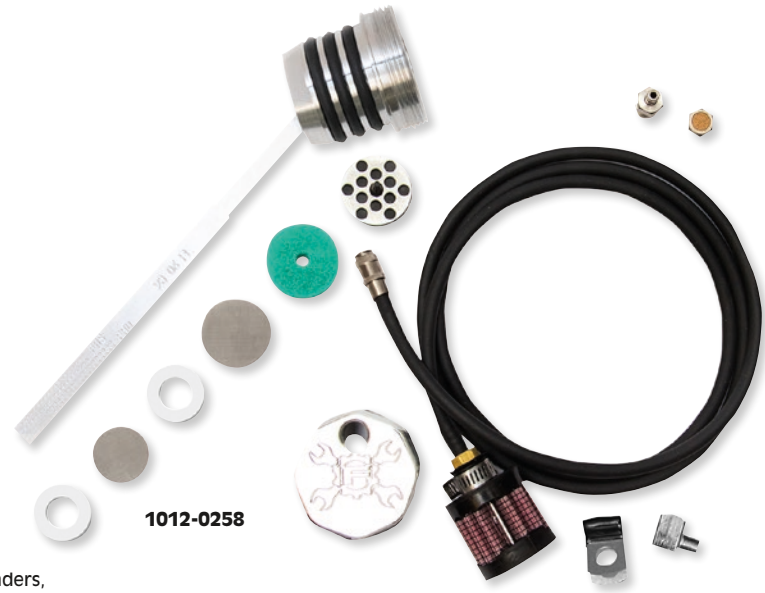
VIBRATION MOUNTS

- For battery boxes, oil tanks or custom parts
- Meets or exceeds all OEM specifications
- Sold to dealer in 5-pack; sold to consumer as each

PART #	DESCRIPTION
2404-0032	5/16"-18 studs, 1/2" long; repl. OEM #69123-92
DS-350145-PK	1/4"-20 threaded studs and steel side plates; for mounting battery boxes and oil tanks (5 pk.); repl. OEM #62563-65



1012-0258

VENTED DIPSTICKS

- Billet dipsticks vent/breathe excessive crank case pressure from the oil tank through a PCV style breather consisting of an oil separator system, perforated disc, replaceable filter element and umbrella flapper valve
- Screws into the factory oil fill spout as a stock replacement part
- These breathing dipsticks remove unwanted build-up of blowby pressure
- Larger cubic inch engines as well as engines with worn and/or loose ring clearances will have increased blowby
- Blowby is pressure that is forced past the rings and cylinders, pushed into the crankcase and then forced back into the oil tank
- Feuling test results show a decrease in engine oil sump levels, more freely/smoother revving engine, increased MPG and decreased blowby
- Dipsticks vent/breath excessive crank case pressure from the oil tank through a breather system consisting of a oil separator system, perforated disc, replaceable filter element and umbrella flapper valve
- Kits includes two venting style options to choose from when installing the dipstick
- Option 1: 1/8" NPT breather vent fitting with internal porous filter element (this option gives a clean look, however it can produce an oil misting/residue out of the element on engines with excessive leakdown/blowby)
- Option 2: Quick-disconnect coupler fitting with rubber hose and filter element (this option will run any excessive oil misting/residue through the line and into the filter element, however this option does requires disconnecting the fitting in order to check the oil

PART #	DESCRIPTION
FOR 93-98 FLT/FLHT/FLHR/FLTR	
1012-0258	Polished

- For Option 2, Feuling recommends routing the line up the frame rail, up under the seat/abs area then back down along the right side frame rail and the filter element can fit cleanly between the engine/trans matting area on the inside of the lower right frame rail
- Checking oil level: There are two ways to read the oil level with this dipstick, with the bike on the jiffy stand (FHS) or the bike upright and level (FHU)
- FHS = FULL HOT STAND
- FHU = FULL HOT UPRIGHT
- Available in polished or fade-resistant black

NOTE: These dipsticks do get hot; use a glove when checking oil level.

NOTE: It is important to get the correct hot oil level in your bike. Feuling recommends running the oil level 90%-99% full when hot.

NOTE: The oil pick up port is on the right side of the engine. Letting the bike idle or warm up on the kickstand will naturally fill the engine case and skew the oil level in the tank.

PART #	DESCRIPTION
FOR 93-98 FLT/FLHT/FLHR/FLTR (CONT)	
1012-0259	Black

PRO PERFORMANCE PRODUCTS

SLIMLINE BILLET OIL FILTER MOUNT

- 1/2"-thick billet aluminum mount with 3/8" external fittings
- Available in chrome
- Provide a low-cost, slim oil filter mount

PART #	DESCRIPTION
0712-0035	For 92-99 Evolution Big Twin

PROVEN S&S PERFORMANCE

OIL FILTER MOUNTING BRACKET KIT

- Polished billet oil filter mounting bracket
- No voids or other casting defects in the material to cause leaks
- Position of the filter has been shifted slightly to give additional clearance between the filter body and the crankcase for easier filter installation and removal
- Also machined to make it easy to install an oil cooler in the pressure-side of the system; if a cooler is not needed, simply install the pipe plugs in the threaded holes in the filter bracket, instead of the hose fittings

PART #	DESCRIPTION
0712-0313	For 92-99 Evolution Big Twin and all S&S V-series motors

OIL FILTERS

- Sturdy steel canister houses the finest filtering media and internal components available
- Canister is slightly smaller in diameter than stock filters to make them easier to remove and install; include O-rings
- Designed with a direct bypass valve that routes bypass oil directly to the filter exit, which minimizes the amount of contaminants carried to the engine in the unfiltered bypass oil
- The nominal particle capture size is smaller than that of stock filters while the resistance to oil flow is nearly the same
- Sold individually or in packs of 12
- Available in black or chrome finish

PERFORMANCE OIL FILTERS

- K&N® delivers a premium oil filter which is built with a synthetic media specifically designed to withstand the high concentrates of synthetic racing oils
- A large filter media provides high-flow rates and outstanding oil filtration to keep your motor running clean and smooth
- Uniform pleated synthetic filter media provides high capacity and outstanding filtration
- Synthetic Media allows for the higher-flow rates associated with synthetic and synthetic blended oils
- Protected by a heavy-duty canister and base plate, with a double-rolled seal
- Check-valve/anti-drain back valve prevents drain-back and dry starts (where applicable)
- Pre-lubed base gasket
- 17 mm hex nut (pre-drilled for safety wire security) allows easy-on, wrench-off removal (where applicable)

HF172C

OIL FILTERS

- The original Hiflofiltro factory was founded in 1955 and has been manufacturing filters for the OEM motor industry since 1963
- With more than five decades of constant research and development in a completely modern production facility, Hiflofiltro offers some of the best quality filters in the world
- Constructed using the best materials available
- One of the broadest ranges of aftermarket coverage

PERFORMANCE OIL FILTERS

- Heavy-duty steel casing features a pre-drilled welded hex nut for easy removal and installation
- Performance filters feature premium high-flow tri-fiber filtration media which stops more contaminants from reaching critical engine components
- Racing technology that is engineered for everyday use and standard service intervals
- Fully compatible with all oil types

Jagg Oil Coolers

0713-0272

0713-0273

VERTICAL FRAME-MOUNT OIL COOLER KITS

Installation time measured in minutes
Extra riding time measured in years

- Cooler oil makes engines last longer – simple as that!
- Jagg oil coolers feature cutting-edge technology to keep your engine cool under the most punishing conditions
- And because they're designed to look as good as they perform, they'll perfectly complement your bike's style
- Hoses and clamps are included with oil cooler kits

Engineered to perform

- Multipass oil flow configuration ensures the oil's utilization of the entire oil cooler
- Specially designed turbulators in each oil passageway gently stir oil, exposing it to more critical heat dissipation surface area for superior cooling with minimal oil pressure restriction
- Highly concentrated mini-louvered air fins allow maximum heat transfer

PART #	DESCRIPTION

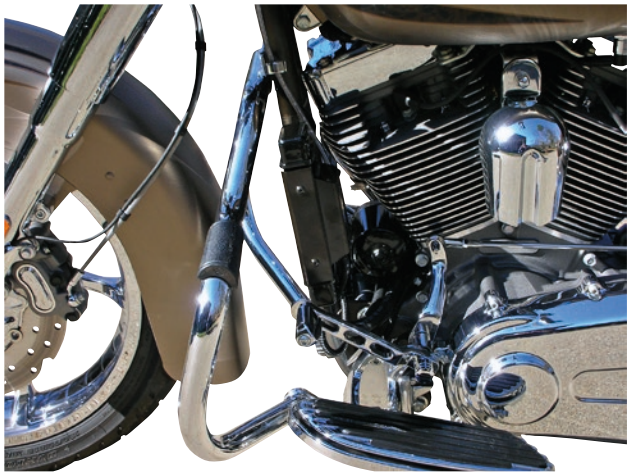
0713-0275	WideLine 10-row

VERTICAL FRAME-MOUNT FAN-ASSISTED KIT

- Features the Jagg high-performance 10-row oil cooler kit with an integrated fan
- Designed to perform as well at low vehicle speeds and stop-and-go traffic as on the open highway
- Kit includes cooler, sealed-motor fan, oil hose, mounting hardware, automatic thermal fan switch wiring harness and Jagg offset oil filter adapter



- Fan turns on automatically at approximately 96 °C (205 °F)
- Fan pulls a full 150 cfm of air across cooler
- HyperFlow technology ensures unsurpassed flow and heat rejection

PART #	DESCRIPTION
0713-0282	For 84-98 FLT/FLHT/FLHR/FLTR, 84-99 FXST/FLST and 91-98 FXD/FXDWG

OIL FILTER ADAPTERS WITH THERMOSTAT

- Automatic thermostatic oil bypass valve allows oil to bypass the oil cooler until reaching operating temperature for faster vehicle warmup times
- Flows oil through the filter first, for better flow
- Stock-to-Jagg oil filter nipple is required when converting from stock H-D oil filter adapters to Jagg oil filter adapters; available separately
- Required for oil cooler installation on Twin Cam models
- Optional anti-rotation device for PART #0713-0031 bolts to face of offset oil filter adapter to lock in place during future oil filter removals; available separately
- Service kit for PART #0713-0031 includes new thermostat element assembly, AFM gasket and large O-ring
- Service kit for PART #0713-0145 includes two replacement quad-seal O-rings

PART #	DESCRIPTION
FOR 95-98 FUEL-INJECTED EVOLUTION BIG TWIN	
0713-0271	Oil filter adapter
0712-0557	Anti-rotation device for PART #0713-0031
0713-0216	Thermostat service kit for PART #0713-0031

PART #	DESCRIPTION
FOR 92-99 EVOLUTION BIG-TWIN (CARB) W/ FRONT-MOUNT SPIN-ON OIL FILTERS	
0713-0145	Oil filter adapter
0713-0217	Service kit for PART #0713-0145

OIL FILTER ADAPTER

- Installs between the oil filter landing and the oil filter for easy oil supply access for installing an oil cooler (not included)
- Machined from anodized billet aluminum
- Flows oil through oil cooler full-time, with no oil bypass
- Sweeping internal flow passages produce optimal flow characteristics
- ProLine swivel fittings for easy oil plumbing
- HyperFlow technology balances performance and flow
- NPT port and plug for optional installation of sending unit or switch

PART #	DESCRIPTION
0713-0253	For 92-99 Evolution Big Twin (carb), L84-85 XL w/ front-mount spin-on oil filters

0713-0215

MANUAL OIL BYPASS VALVE

- Acts as a manual thermostat, allowing you to bypass the oil cooling system for cold-weather riding or for faster warm-ups on cool days
- Durable anodized billet aluminum construction
- Knurled grip knob
- Works with all oil coolers
- Compact in-line installation
- Service kit contains replacement O-rings, snap-ring retaining clip for manual bypass knob and spare decal

NOTE: If oil hoses between the oil cooler and the oil source are too short, the oil cooler bypass valve may not fit in the oil lines. Jagg bypass valves require at least 76 mm (3") of straight hose.

DASH PANEL FOR FAT BOB-STYLE TANKS

- Dash panel cover is finished in chrome and covers the gap found on 13,2 liter (3,5 US gal.) and 18,9 liter (5 US gal.) Fat Bob-style tanks
- Fits custom conversions and FX models with split tanks, as well as FL and FLH models with seats that don't use a front pivot seat bar between the tanks
- Dash panel comes with hooks and a ring for easy installation

PART #	DESCRIPTION
DS-720264	For 36-84 Big Twin

DIE-CAST LOWER DASH PANEL

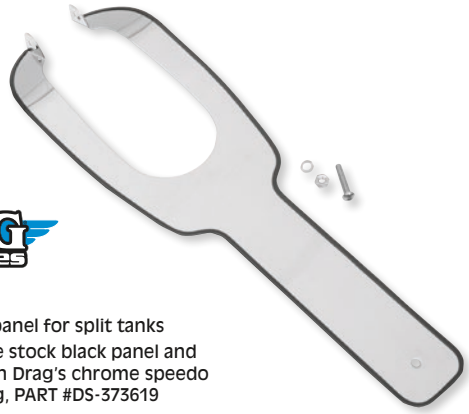
- Chrome lower dash panel replaces the stock tank panel
- Compatible with aftermarket Fat Bob tanks with a single-gauge dash

PART #	DESCRIPTION
DS-373615	For 84-99 Softail and 85-86 FXWG

LOWER DASH EXTENSION PANEL

- This chrome-finished steel panel is used to cover wires and hoses when using a short-nose Road King-style seat
- Matches the shape of the OEM dash
- Comes complete with hardware and trim for easy installation

PART #	DESCRIPTION
2202-0070	For 89-98 FLT/FLHT/FLTR



TANK TRIM

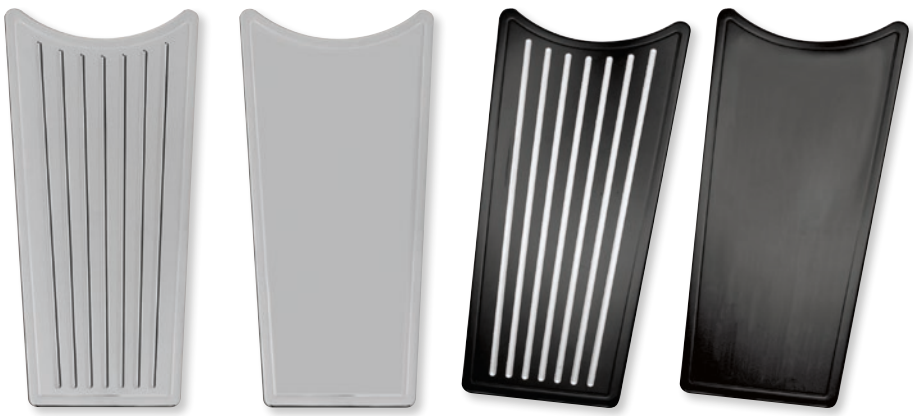
- Chrome center panel for split tanks
- Trim replaces the stock black panel and may be used with Drag's chrome speedo and tach housing, PART #DS-373619

PART #	DESCRIPTION
DS-373661	Tank trim w/ cut-out for 77-84 FXS/FXSB/ FXEF and FXB; repl. OEM #61647-77

DASH INSERT

- Made from aluminum sheet with a raw finish
- Paint to match stock or custom painted bikes

PART #	DESCRIPTION
2202-0110	For 89-98 FLT/FLHT



DASH INSERTS

- Add some style while maintaining that stock look
- CNC machined from billet aluminum
- Matching fuel doors are available separately for a truly custom look

2202-0136 | 2202-0134 | 2202-0137 | 2202-0135

MVX-8K SERIES ANALOG/DIGITAL PLUG-IN INSTRUMENTATION

- Whether installing a six-gauge set, or building your perfect gauge set from Dakota Digital's optional gauges, you will get all seven gauge readings displayed in the speedometer and tachometer LCD readouts (speed, rpm, volts, fuel, oil pressure, oil temp and air temp), as well as miles-to-empty and performance readouts (0 to 60 time, and quarter-mile speed and time)
- Personalize the gauge set by programming the pointer, backlight and LCD message center colors independently
- Six-gauge kits include speedometer, tachometer, oil pressure, oil temperature, fuel level and voltmeter
- Two-gauge kits include speedometer and tachometer (will display other gauge readouts in odometer)
- Optional fuel level gauges, oil pressure gauges, oil temperature gauges and voltmeter can only be used with MVX six- and two-gauge kits; they will not work alone
- Seven user-selectable LED lighting colors available for background, message and pointer: red, green, blue, teal, magenta, amber or white
- Chrome or black bezels available

FOR 96-98 FLT/FLHT

2210-0380

MVX SERIES ANALOG GAUGE SYSTEMS

- Has 140 mph speedometer, tachometer, odometer, dual resettable trip meters and full indicator light complement (turn signal, high beam, neutral, low oil pressure) in one stylish gauge
- Features seven user-selectable colors for pointer, backlight and LCD message center (red, green, blue, teal, magenta, amber or white)
- Two different face options available: black with gray accents and white with gray accents
- 8000 rpm tachometer has adjustable shift point and can display in digital numeric readout
- Resettable miles-to-service with a warning (user settable countdown) and hour meter
- Clock function (12-hour format)
- Voltage readout with low-voltage alert
- Cylinder head temperature sensor (if bike is equipped with factory sender unit)
- Oil pressure warning light (sold separately, PART #s 2212-0513 or DS-250019)
- Seven-speed gear position indicator, compatible with 3- to 7-speed transmissions
- Security system indicator
- Automatic turn signal cancelling compatible
- Wait to start/check engine light function
- Can perform performance calculations such as 0-60 time, top speed and peak rpm recall, 1/4-mile time and speed
- Wiring installation is cut/splice; not a direct plug-in gauge
- Case diameter measures 4 1/4" and bezel diameter of 4 5/8"

5000 SERIES HANDLEBAR-MOUNTED DIGITAL SPEEDOMETERS

- High-brightness readout is easy to read, even in direct sunlight
- Adjustable 0 to 255 mph/km/h speedometer with odometer and trip meter
- Features indicators for turn signals, high-beam, neutral, low oil pressure and check engine
- Sending units and mounting brackets available separately for use with electronic or cable drive systems; handlebar clamp mounts for American IronHorse motorcycles allow gauges to be mounted above or below handlebars and include wiring harness that plugs directly into stock wiring

2210-0011

PART #	DESCRIPTION
CHROME SPEEDOMETER MOUNTS	
DS-373895	Clamp mount for 1 1/4" T-bar/riser-style handlebars (can mount above or below handlebars)
2210-0118	Handlebar clamp mount for 05-06 American IronHorse models with V-bars (includes wiring harness)
BLACK SPEEDOMETER MOUNTS	
2210-0184	Flat 1" handlebar clamp mount for pullback risers

PART #	DESCRIPTION
ADAPTERS, SENSORS AND SENDING UNITS	
2210-0013	Pickup sensor, repl. OEM electronic 5-speed transmission sensor
2210-0011	Sending unit for cable drive applications (screws to the end of the cable, can be remotely mounted or mounted to the speedometer; uses 5/8"-18 thread)

All part numbers in BLUE are new for the OldBook.

Dakota Digital

MLX SERIES GAUGES

- Fits stock 4 1/2" - 5" or 3 3/8" tank dashes and offers direct plug-n-play installation
- Includes an adjustable speedometer, bar-type tachometer, voltmeter, cylinder temp (when available), clock, gear position, odometer with two trip meters, service meter and hour meter plus security and low-fuel indicators
- Performs calculations and displays high speed/rpm recall, 0 to 60 timer, 1/4-mile time and speed
- Displays automatically dims for comfortable nighttime riding and brightens to a high-contrast mode for excellent visibility, even in direct sunlight
- 31 illumination colors available

NOTE: Requires cut-and-splice hard wiring for installation.

4000 SERIES MINI GAUGES

- 1 7/8" diameter gauges are the smallest in the line
- High-brightness blue or red digital display
- 0 to 255 mph, adjustable speedometer features odometer and resettable trip odometer; speedometer is also available with km/h display
- Tachometer has a 0 to 18.000 rpm range and has a 10-rpm resolution under 10.000 rpm and 100 resolution over 10.000; features high-rpm recall and is adjustable from one to 15 cylinders
- Housing is 1 3/8" D with 2 1/16" OD bezel
- Available with retro-style bezels

2210-0188

GAUGES WITH BLUE DISPLAY	
2210-0188	Speedometer (km/h), retro

PART #	DESCRIPTION
GAUGE CUPS AND HANDLEBAR MOUNTING CLAMPS	
2210-0018	1" handlebar clamp for gauge mount

3015 MODEL SPEEDOMETER/TACHOMETER

- High-brightness, vacuum fluorescent graphic display technology
- Includes turn signal, high beam, low oil, neutral and engine indicator lights (found on fuel-injected bikes)
- Speedometer is easily recalibrated for any gearing and tire size combination
- Includes an odometer with resettable trip meter
- Selectable displays allow the rider to choose between speedometer only, speedometer with odometer and trip meter, or speedometer with bar/graph tachometer
- Tachometer offers an adjustable shift point warning; calibration adjusts easily for any combination of one to 15 cylinders without using coils
- Features high beam, turn signal, neutral and low oil pressure indicators
- Automatic turn signal canceling compatible
- Displays "check engine" and "wait to start" lights
- Compact 2 1/16" diameter gauge is only 1" deep; machined aluminum housing with chrome front bezel and scratch-resistant, no-glare lens
- Sending units, adapters and mounting brackets available separately for use with either electronic or cable drive systems – OEM electronic speedometer sensor cable plugs directly into the back of gauge if desired
- Order mounting cups and brackets below, available separately

3000 SERIES DIGITAL INSTRUMENTS

- High-quality digital instruments that offer stable, accurate and easy-to-view readings
- Teal display offers high-contrast visibility, even in sunlight
- All gauges have machined aluminum housings, chrome front bezels and non-glare, scratch-resistant lenses

SPEEDOMETERS

- Push-button calibration
- Odometer has resettable trip meter
- 3011 model is an adjustable 199 mph speedometer that calibrates to almost any gearing and tire size combination; easy push-button calibration
- Displays speed in numeric and bar graph form
- Odometer has two resettable trip meters and a miles-to-service meter with warning
- Features turn signal, low oil, high-beam and neutral indicators
- Performs calculations and displays high-speed recall, 0 to 60 timer and 1/4-mile time and speed
- Automatic turn signal canceling compatible

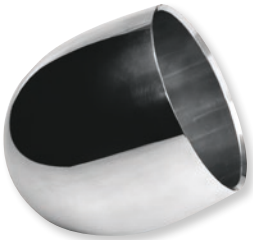
SPEEDOMETER/TACHOMETER

- Adjustable 255 mph speedometer calibrates easily to almost any gearing and tire size combination; push-button calibration
- Tachometer displays as bar graph and features an adjustable shift point warning
- Tachometer calibration is easily adjusted for combinations of 1 to 15 cylinders without using coils
- Odometer has two resettable trip meters, an hour meter and miles-to-service meter with warning
- Features turn signal, neutral, low oil pressure, low voltage, high beam and security indicators
- Performs calculations and displays high-speed recall, high-rpm recall, 0 to 60 timer and 1/4-mile time and speed
- Displays "check engine" and "wait to start" lights
- Gear position indicator works with 3- to 6-speed transmissions
- Automatic turn signal canceling compatible

PART #	DESCRIPTION
ODYSSEY II SPEEDOMETER	
2210-0012	36" extension cable for 99-03 Original Equipment electronic transmission sensor for PART #s 2210-0038 and 2212-0101
2210-0038	3011 model 3 3/8" speedometer w/ indicators (resolution 1 mph)
2212-0085[1]	Transmission speed sensor for PART #DS-250036
DS-250011	Sending unit for cable drive applications (can be mounted remotely or on speedometer; accepts 5/8"-16 cable nut) for PART #DS-250036
2210-0013	Pickup sensor, repl. Original Equipment electronic transmission sensor for PART #s 2210-0038 and 2212-0101
2210-0011	Sending unit for cable drive applications (screws to the end of the cable, can be remotely mounted or mounted to the speedometer; uses 5/8"-18 thread), for PART #s 2210-0038 and 2212-0101

2210-0016

2210-0018



2212-0148

2212-0144

TACHOMETERS

- Both models have 0 to 18.000 rpm range and easily adjust for combinations of one to fifteen cylinders without using coils; push-button calibration
- Works with single- or dual-fire ignitions
- Displays rpm and high-rpm recall
- 3021 model features an adjustable shift point warning and hour meter; when used with 3011 model speedometer, tachometer displays gear position indicator

NOTE: 3 3/8" speedometer, speedometer/tachometer and tachometer and 2 1/16" engine instruments will fit the 96-98 FLTR, FLHT fairing.

PART #	DESCRIPTION
OTHER ODYSSEY II INSTRUMENTS

All part numbers in **BLUE** are new for the OldBook.

Dakota Digital

BIG DOG DIRECT PLUG-IN SPEEDOMETER

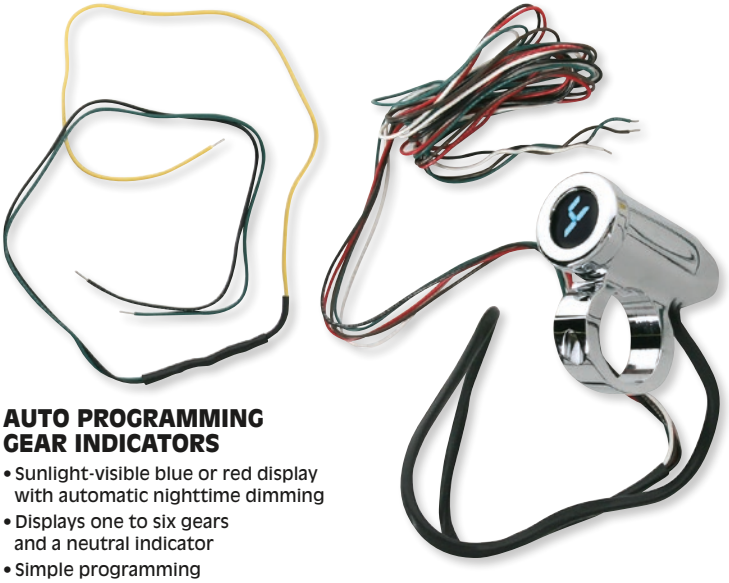
- Upgrade the analog speedometer to digital while retaining use of the factory tachometer and indicator lights; fits inside factory tach ring and housing and plugs directly into factory wiring harness
- High-brightness readout with automatic nighttime dimmer
- Features blue LED display
- Adjustable 0 to 99 mph/km/h speedometer
- Odometer with two resettable trip meters
- Stores and displays high-speed recall, high-rpm recall, 0 to 60 time, 1/4-mile time and 1/4-mile speed

PART #	DESCRIPTION
2210-0148	For Big Dog models w/ factory tach ring

2 3/16" STAND-ALONE LCD GPS COMPASS

- Designed to be used in place of the 96-98 factory air temperature gauge
- Uses the factory gauge cup and plugs directly into the existing gauge wiring
- LCD readout displays compass heading, air temperature and elevation in eight LED backlit color choices

PART #	DESCRIPTION
2212-0536	Silver/chrome



AUTO PROGRAMMING GEAR INDICATORS

- Sunlight-visible blue or red display with automatic nighttime dimming
- Displays one to six gears and a neutral indicator
- Simple programming
- Chrome or black-anodized housing with built-in mount
- Includes display, harness and instructions
- Available with handlebar mount (can be mounted above or below handlebars) or fairing flush-mount (clamps into 1,15" hole)

PART #	DESCRIPTION
FOR 1 1/4" HANDLEBARS	
2212-0141	Chrome w/ blue display

MCL 3000 SERIES "DRESSER" ACCESSORIES AND OPTIONAL SENSORS

- Accessories and optional pressure sensors for MCL 3000 series gauges

PART #	DESCRIPTION
ACCESSORIES	
2212-0367	Oil temperature sender for Bagger-style oil pans (3/8" NPT)
AIR PRESSURE SENSORS	
2212-0008	0 to 150 psi air pressure sensor
2212-0271	0 to 400 psi air pressure sensor

2210-0013

2210-0011

2000 SERIES "FATBOB" DIGITAL INFORMATION SYSTEM SENSORS AND SENDING UNITS

- Sensors and sending units for 2000 series "FatBob" digital information system gauges

PART #	DESCRIPTION
FOR 96-99 FXST/FLST AND 96-98 FLHR	
2210-0013	Pickup sensor, repl. OEM electronic transmission sensor
2210-0011	Sending unit for cable drive applications (screws to the end of the cable, can be remotely mounted or mounted to the speedometer; uses 5/8"-18 thread)

ELECTRONIC SPEEDOMETER RECALIBRATION MODULE

- Allows for the recalibration of most 95-00 OEM electronic speedometers when changing tire size, pulley or final gearing
- Easy installation – simply plugs in between the pickup sensor and the stock wiring harness
- Allows small step corrections of less than 1 mph
- Correction range of 50% to 200%
- No power required to maintain calibration when the bike is parked
- Two sealed buttons allow easy resetting of the speedometer reading while the bike is in motion
- A must for custom builders using electronic speedometers

PART #	DESCRIPTION
2210-0391	For 96-99 FXST/FLST, 96-98 FLT/FLHT/FLHR, 96-98 FXD/FXDWG

All part numbers in BLUE are new for the OldBook.

2212-0894	"Cube" digital LCD speedometer and tachometer

KOSO® Feel The Speed

ABE

XR-SR MULTI-FUNCTION ELECTRONIC SPEEDOMETER

- Easy-to-read, blue-backlit digital display with eight indicator lights
- Display shows speed (km/h and mph), odometer, two trip meters, tachometer (100 rpm resolution), fuel level (10-bar display) and engine temperature
- Adjusts to any engine or tire size
- Keeps record of top speed, max rpm and max temperature
- Indicator lights for neutral, high beam, low beam, hazard lights, turn signals, oil pressure and water temperature
- Gauge dimensions: 7,25 cm H x 11,6 cm W x 3,18 cm D (2,85" H x 4,57" W x 1,25" D)
- Includes gauge bracket, speed sensor with bracket, speed sensor magnet and water temperature sensor

PART #	DESCRIPTION
2210-0119	XR-SR multi-function speedometer

KOSO® Feel The Speed

EGT-02 EVO DUAL EXHAUST GAS TEMPERATURE DATA LOGGER

- Dual exhaust gas temperature sensor
- Allows rider to tune engine more precisely and keep a record of your previous runs (up to 50)
- Settable warning for each cylinder allows the opportunity to set a maximum temperature warning of up to 1149 °C (2100 °F)
- Red flashing of the screen makes it very easy to see if something is going wrong with the engine (this tool could save motor)
- Effective temperature range 10 to 60 °C (14 to 140 °F)

DESCRIPTION	PART #
EGT-02 dual exhaust gas temperature data logger	2212-0883

TRASK PERFORMANCE

CHIN SPOILERS

- Hand-laid fiberglass construction with a gel-coat finish
- Help fill the gap between the wheel and the front of the frame to add a custom finishing touch to a Bagger
- Stock-rake styles fit FL Touring models with factory oil coolers
- Raked chin spoiler comes out further and is for use on FL models that have been raked to accept a bigger wheel; will fit with most oil coolers including OEM and Jagg
- Includes all necessary hardware and grille insert

PART #	DESCRIPTION
FOR 98 FLHT/FLHR/FLTR	
0504-0256	Non-raked (19,5" x 11" x 6")

PART #	DESCRIPTION
FOR 98 FLHT/FLHR/FLTR (CONT)	
0504-0272	Raked (19,5" x 11" x 11")

KURYAKYN

SADDLE SHIELDS

- Frame-mounted polycarbonate shields with a reflective smoke tint help beat engine heat
- Dissipate and re-direct engine heat away from the rider
- Make riding on those hot summer days bearable
- Sold in pairs

PART #	DESCRIPTION
0502-0110	For 97-98 FLT/FLHT/FLHR/FLTR

KURYAKYN

DELUXE NECK COVER KITS

- Add brilliance to a dull area with these smooth, quickly installed covers that shroud the neck and extend down the frame
- Cover is enlarged enough on the right side to accommodate the in-line cruise control pull-off switch found on all Road King 02-05 models
- Includes two snap-on down tube pieces that add coverage almost all the way down to the floorboard mounts
- Easy to install

PART #	DESCRIPTION
FOR 95-98 FLT/FLHT/FLTR/FLHR

Before fillers

Detachable style shock-length/+2 fender stock-length saddlebags

0504-0090

0504-0091

LOWER FILLERS

- Constructed from 16ga steel and E-coated for rust and corrosion resistance and are designed to fill the void between the lower fender and saddlebags; a minor detail that makes a major impact!
- The only steel fillers designed to be used with or without detachables
- Detachable style is for use with OEM detachable accessories (available separately)
- Great to use in conjunction with Klock Werks Curvaceous Upper Fillers to smooth out that entire area
- Fillers are available in Standard for stock bags
- All are sold in pairs and include all necessary hardware and instructions to install them

HOW TO SELECT

STEP #1	STEP #2	
Fender/Saddlebags fender/style Determine: •Length/style of Fender •Length/style of Saddlebag	Detachable or Not	
	SMOOTH STYLE (Detachable backrest only)	DETACHABLE STYLE (Trunk or rack)

FOR 93-98 FLT/FLHT/FLHR/FLTR

PART #	DESCRIPTION
FOR USE WITH STOCK-LENGTH FENDER OR KLOCK WERKS +2" FENDERS AND STOCK-LENGTH HARD SADDLEBAGS	
0504-0090	Stock, smooth style
0504-0091	Stock, detachable style

CURVACEOUS UPPER FILLERS

- Accent the line of your fender and hide clutter for a custom look
- Steel construction with E-coating, ready to color match paint
- Upper fillers mate up to the stock fender/lower filler on Street Glides
- Requires removal of stock license plate mount bar
- Smooth for models with or without detachable backrests
- Must remove stock license plate mount bar
- Sold in pairs

PART #	DESCRIPTION
0504-0080	For 95-98 FLT/FLHT/FLHR/FLTR when used in conjunction w/ Klock Werks lower filler panels

RECEIVER TRAILER HITCH

- 32 mm (1 1/4") receiver trailer hitch mounts to frame struts and the saddlebag supports
- Does not interfere with accessories such as docking kits for sissy bars, racks and tour boxes
- Made from 3,2 mm (0,125") 1020 steel tubing, robotic-welded and high-gloss black powdercoated
- Includes polished chrome-plated hitch, 47,6 mm (1 7/8")" ball and pin with hitch clip
- Optional chrome-plated 5-pin, die-cast, automotive-style connector set PART #3902-0069 sold separately

NOTE: Not for use with accessory saddlebag rail kit.

PART #	DESCRIPTION
3902-0079	For L86-98 FLHT/FLHR/FLTR

All part numbers in BLUE are new for the OldBook.

RIVCO

TRAILER HITCH

- Steel construction and chrome-plated
- Includes tow ball and mounting hardware
- Quick installation

SAFETY WARNINGS: For information on the care, safety, maintenance, mounting, manufacturer's warranty and other information, consult the motorcycle manufacturer's and the trailer-hitch manufacturer's publication(s) and/or website(s) for complete information. Towing can negatively affect handling, cornering, stopping and stability and may void your warranty. Towing increases the likelihood of serious injury or death. If you tow a trailer, never exceed the motorcycle manufacturer's Gross Vehicle Weight.

PART #	DESCRIPTION
3902-0192	For 80-98 FLT/FLHT/FLHR/FLTR

DRAG Specialties

TRAILER HITCH RECEPTACLE KIT

- Mounts easily to underside of hitch plate for a quick, clean way to connect/disconnect trailer light wiring
- Includes a chromed receptacle plate, chrome safety chain hookup, a five-pin male/female plug-in connector and all wiring and hardware

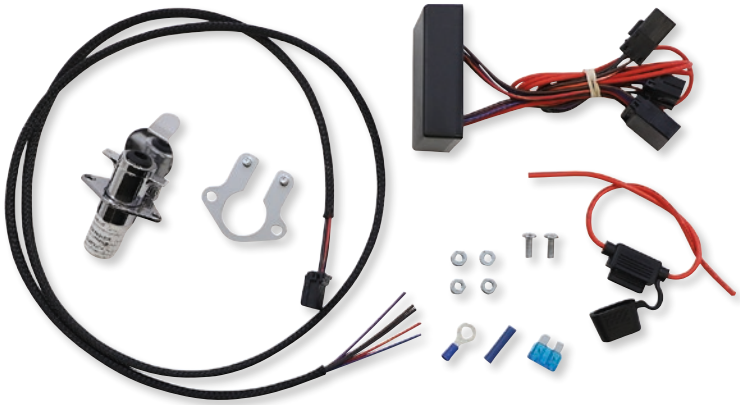
NOTE: Also fits other brands of trailer hitches.

PART #	DESCRIPTION
DS-720558	For 80-98 FLT/FLHT/FLHR and 86-99 FXST/FLST

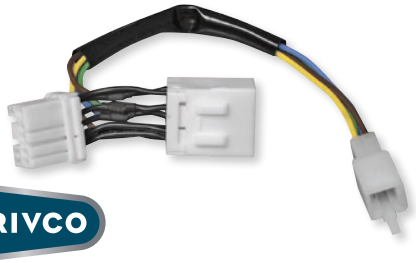
KHROME WERKS

TRAILER WIRING CONNECTOR KIT WITH ISOLATOR

- To be used with trailers using the same number wires as the motorcycle
- Wiring harness features an isolator module with a fused, separate circuit from battery positive to power the trailer lighting; works through built-in relays and prevents overloading of factory-lighting circuit
- 5-pin, die-cast, automotive-style connector
- Mounts using mounting bracket that bolts directly to the safety chain bracket on current production Khrome Werks trailer hitches



PART #	DESCRIPTION
3902-0082	For 97-98 FLT/FLHT/FLHR/FLTR w/ 8-pin rear light connectors



RIVCO

TRAILER WIRING SUB-HARNESS

- Trailer wiring sub-harness plugs into the bike's stock wiring harness on one end, and Rivco's own 5- to 4-wire converter or isolator on the other
- Eliminates the need to cut and splice the stock wiring harness
- Order the sub-harness for your bike based on your bike's plug-in type (see chart)
- Sub-harnesses sold each

PART #	DESCRIPTION
3902-0147	For 97-98 FLHR/FLTR/FLHT, 97-99 FXST/FLST (8-pin AMP multi-lock)

KURYAKYN

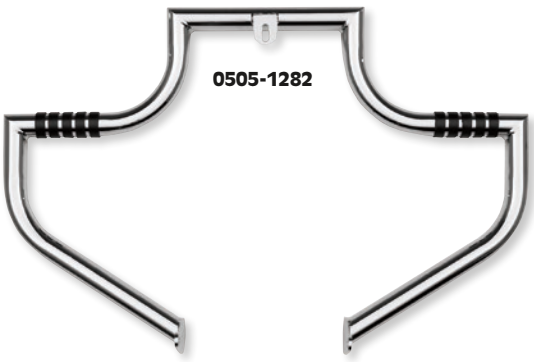
TRAILER WIRING HARNESS AND RELAY

- Eliminates blown fuses caused by overload of the stock lighting or accessory circuits; relay harness utilizes inputs from the motorcycle to direct power from the battery to the appropriate trailer lighting circuit
- Kits provide standard five-wire output (run, brake, left turn, right turn, ground) plus a bonus wire that can be connected to provide 12V fused power to the trailer for compartment lights or keyless entry systems
- Does not include receptacle kits

PART #	DESCRIPTION
2120-0560	For 97-98 FLHT/FLTR/FLHR, 96-99 FXST/FLST, 97-98 FXD/FXDWG

All part numbers in BLUE are new for the OldBook.

LINDBY CUSTOM, INC.



THE MAGNUMBAR®

MAGNUMBAR® FRONT HIGHWAY BARS

- Front bars are made from 1 1/2" high-strength steel for long-lasting durability

SADDLEMEN
THE GEL-SEAT EXPERTS / SINCE 1987

SOFT FAIRING LOWER SET WITH STORAGE POUCH

- Made of SaddleHyde™ with a plush felt inner liner and storage pouch for extra weather protection
- Marine-grade SaddleHyde™ pushes away the wind to prevent road grime, water and cold air from getting to your legs
- Snaps on the engine guards in seconds with adjustable nylon webbing lanyard straps and a perimeter steel zipper that sets the opening where you need it for your highway pegs
- Can also be used in place of the H-D hard fairing lowers
- Perfect for road trips; when the weather turns nice, remove the soft lowers and place them in the included storage pouch
- Installs quick and fast; includes instructions and mounting straps

CUSTOM SPRINGER FORKS

- Economical alternative to a shock dampened-type Springer
- Fully assembled with an in-line top bracket without a built-in rake
- The standard length Springer ((79 cm (31") measured from top bearing to the axle) is comparable to a standard-length FXST front end
- 1" OD steering stem designed for Timken® type bearings
- Both rear legs are threaded for right or left brakes
- The 3/4" OD axle kit includes a brake mount pivot with thrust washer and hub spacers (custom spacers may be required depending on the wheel used)
- Measures 9 1/4" between rockers
- Riser mounts are on 4 3/4" centers and threaded 1/2"-20
- Requires 84-99 wheel (compatible with 3/4" OD axle)
- These Springers are measured from the bottom of the top tree to the center of the axle

NOTE: Does not include speedometer adapter.

NOTE: Do not accept spotlight bars.

NOTE: No fender mounts.

41 MM FL-STYLE TRIPLE TREE

- Forged steel construction and highly chromed in a smooth style
- A distinctive addition to any H-D Big Twin model with FXST, FXWG and FL fork tubes (41 mm)
- Does not include mounts for stock headlight nacelle

NOTE: Does not allow fork-lock capability.

PART #	DESCRIPTION
DS-222939	Smooth style w/o mounts

All part numbers in BLUE are new for the OldBook.

DS-222530

2406-5415

Accutronix
precision crafted billet products

41 MM TRIPLE TREES

- CNC-machined billet aluminum
- Stem threads into underside of top triple tree for cleaner look
- Available in a smooth or radius groove design

NOTE: Raked triple trees change the handling characteristics of the motorcycle. Steering geometry must be calculated to determine which degree of rake is most suited for your application. Trees with more than 3° of rake should not be used in stock frame applications.

FOR 84-99 FXST/FXWG AND CUSTOM APPLICATIONS

PART #	DESCRIPTION
DS-222530	0° Elite radius groove; chrome
2406-5415	5° Elite smooth; chrome
2406-7417	7° Elite smooth; chrome

SM
SPEEDMERCHANT

39 MM SPEED TRIPLE TREE

- CNC-machined out of 6061 aluminum
- Available in black anodized finish
- Includes steering stem and external hardware for use with stock XL steering stops
- Pre-drilled for internal fork stops
- These trees have been designed for better stability especially when used with longer-than-stock shocks
- Will provide more stability at high speed, with a modified offset to increase the trail

PART #	DESCRIPTION
0408-0298	For 91-98 FXD and 88-99 FXR

PRO 1 PERFORMANCE PRODUCTS

39 MM TRIPLE TREES

- CNC machined out of solid 6061-T6 aluminum
- Increased clamping area of 0,25" on the bottom tree reduces lateral and torsional fork flex, which increases the rigidity and stability of the front end
- Machined cut-out in top tree for clean cable and wire routing
- No fork lock capabilities
- Works with optional internal fork stop; PART #DS-221926 (sold separately)
- Will fit most 39 mm front ends with 7" O.C. forks
- Designed to accept standard risers (3 1/2" O.C.)
- Available in black anodized or raw aluminum finishes

NOTE: Models with risers cast into the upper triple tree will require separate purchase of risers, bushings and mounting hardware.

AXEO
WWW.LEGENDSUSPENSIONS.COM

AXEO PERFORMANCE FRONT SUSPENSION

- Performance spring rate delivers agile handling for aggressive riders without sacrificing comfort
- Specifically designed to retain factory ride height on FL touring models
- Improves cornering clearance and minimizes dragging floorboard and footpegs
- Improves ride quality, straight-line stability, high-speed cornering, and maneuverability
- Increases resistance to bottoming out on large bumps or potholes
- Threaded pre-load adjuster allows tuning for various rider weights and increased pre-load range
- Reduces front-end dive and improves front tire traction under aggressive braking
- Designed for optimum performance with all Legend's rear suspensions
- Includes two stock length monotube, dual chambered damper cartridges, and two top out springs
- Designed to be used with stock diameter front wheels
- Compatible with 21" and 23" wheels with the addition of a Legend Travel Limiting Kit (sold separately)

PART #	DESCRIPTION
0414-0748[1, 2, 3]	For 97-98 FLT/FLHR/FLHT/FLTR

[1] Requires PART #0414-0756 for use with 21" front wheels. [2] Requires PART #0414-0757 for use with 23" front wheels.
[3] 1997-1998 models equipped with stock air forks will require additional purchase of OEM #s 45419-80 (2) and 45733-48 (2) to install.

AXEO TRAVEL LIMITING KITS

- Designed specifically for use with 21" AXEO Performance Cartridge kits
- Prevents front fender from contacting the lower triple clamp or fairing at full bottom-out
- Kit includes two 25 mm (1") travel limiters
- Compatible with AXEO Performance Cartridge Kits only
- Made in the U.S.A.

PART #	DESCRIPTION
0414-0756[1]	For 97-98 FLT/FLHT/FLHR/FLTR

[1] Only compatible with Axeo Performance Cartridge Kit PART #0414-0748.

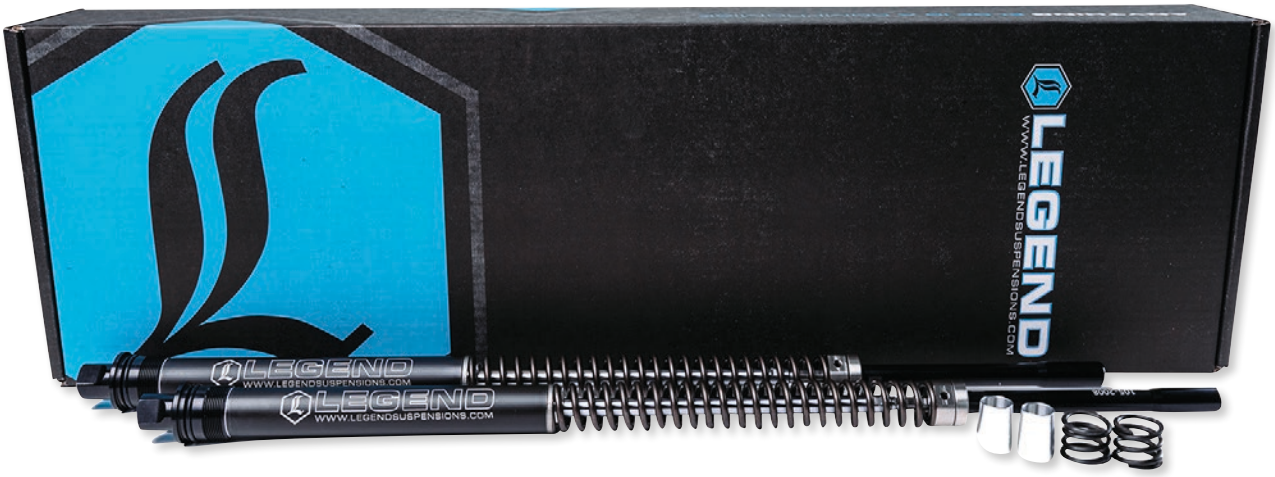
AXEO TRAVEL LIMITING KITS FOR 23" WHEELS

- Designed specifically for use with AXEO Performance Cartridge kits PART #0414-0748
- Prevents front fender from contacting the lower triple clamp or fairing at full bottom-out
- Kit includes two 32 mm (1,25") travel limiters
- Made in the U.S.A.

PART #	DESCRIPTION
0414-0757	For 97-98 FLT/FLHR/FLHT/FLTR

All part numbers in BLUE are new for the OldBook.

LEGEND WWW.LEGENDSUSPENSIONS.COM



AXEO+2 WWW.LEGENDSUSPENSIONS.COM

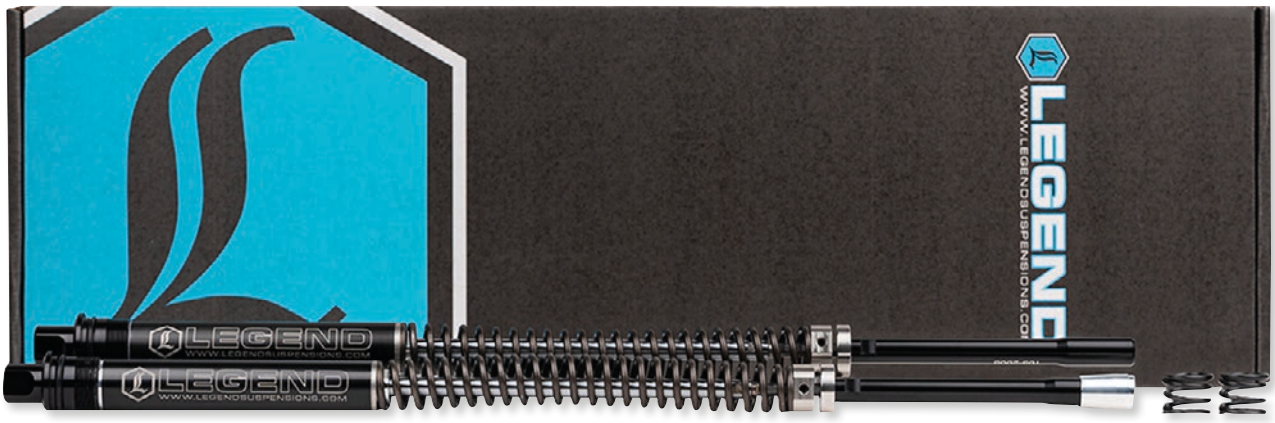
+2" AXEO PERFORMANCE FRONT SUSPENSION

- Performance spring rate delivers agile handling for aggressive riders without sacrificing comfort
- Specifically designed to increase ride height on FL touring models
- Improves cornering clearance, lean angles, and eliminates dragging floorboards and footpegs
- Improves straight-line stability, high-speed cornering, and maneuverability
- Increases resistance to bottoming out on large bumps or potholes
- Threaded pre-load adjuster allows tuning for various rider weights and increased pre-load range
- Reduces front-end dive and improves front tire traction under aggressive braking
- Designed for optimum performance with Legend's 14" Revo-Arc rear suspensions
- Includes two 2" over monotube, dual-chambered damper cartridges, and two top out springs
- Designed to be used with stock diameter front wheels

NOTE: This product is NOT designed for use with 21" and 23" wheels.

NOTE: Requires the use of Harley-Davidson upper fork tubes OEM #45500123 (24.31" L) or Drag Specialties PART #0404-0505.

PART #	DESCRIPTION
0414-0597	For 97-98 FLT/FLHT/FLHR/FLTR (41 mm forks)



AXEO WWW.LEGENDSUSPENSIONS.COM

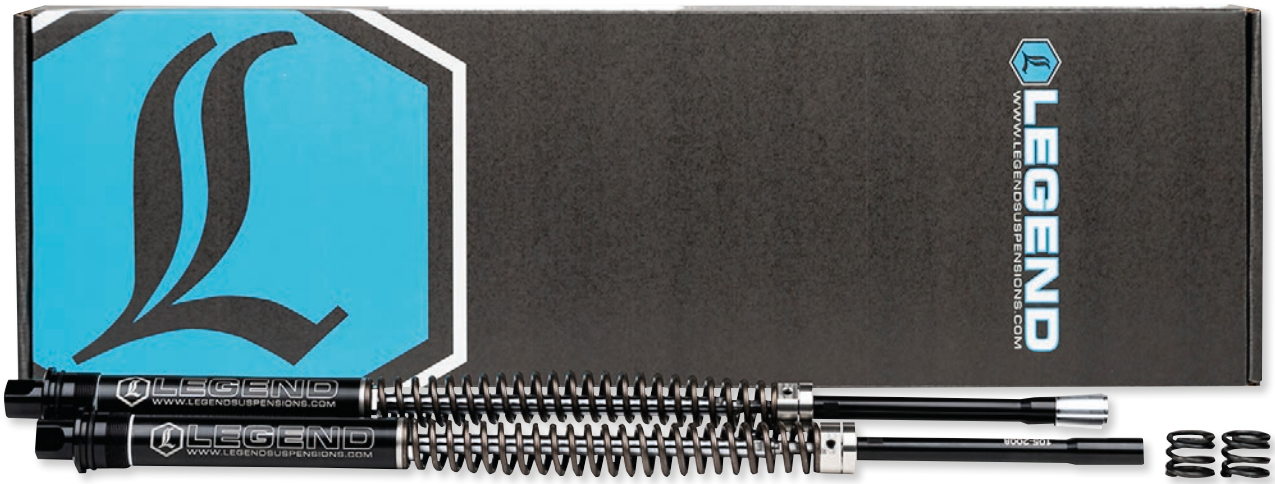
AXEO -1" FRONT SUSPENSION FOR FL MODELS

- Touring spring rate delivers improved rider comfort and chassis balance for a better connection to the road
- Specifically designed to reduce the factory ride height by one inch on FL touring models
- Offers a low stance and sure-footed confidence for shorter riders
- Improves ride quality, straight-line stability, high-speed corning, and maneuverability
- Increases resistance to bottoming out on large bumps or potholes
- Threaded pre-load adjuster allows tuning for various rider weights and increased pre-load range
- Reduces front-end dive and improves front tire traction during aggressive braking
- Designed for optimum performance with Legend's air ride or 12" coil rear suspensions
- Includes two 1" lowered monotube, dual-chambered damper cartridges, and two top-out springs
- Designed to be used with stock diameter front wheels
- Made in the U.S.A.

NOTE: This product is not designed for use with 21" or 23" front wheels.

PART #	DESCRIPTION
0414-0751	For 97-98 FLT/FLHR/FLHT/FLTR

All part numbers in BLUE are new for the OldBook.



LEGEND WWW.LEGENDSUSPENSIONS.COM AXEO WWW.LEGENDSUSPENSIONS.COM

AXEO COMFORT FRONT SUSPENSION

- Legend's comfort touring spring rate provides improved small bump compliance, superior ride quality, as well as increased resistance to bottoming for all-day comfort
- Threaded pre-load adjuster allows tuning for various rider weights and increased pre-load range
- Ride quality is smooth and controlled with improved stability, cornering, and traction
- Reduces front-end dive during aggressive braking and maneuvering
- Minimizes dragging floorboards and pegs
- Designed for optimum performance with Legend rear suspension
- Designed to be used with stock diameter front wheels
- Includes two matched mono-tube, dual-chambered damper cartridges, and two top-out springs
- Available only in standard length to maintain factory ride height
- Easy installation

NOTE: This product is NOT designed for use with 21" and 23" wheels.

NOTE: 1997-1998 models equipped with stock air forks will require additional purchase of Harley Davidson OEM #s 45419-80 (2) and 45733-48 (2) to install.

0405-0315	For 88-99 FXRT
0405-0296	For 85-86 FXWG

PROGRESSIVE suspension

FORK SPRINGS

- High-quality, high-performance replacement fork springs
- A Progressive Suspension rate spring has the advantage of a rising rate resistance to compression
- The benefit is the spring can be soft enough at the start of the travel to offer a "plush" ride, yet firm enough at the end of the travel to soak up the big bumps
- Spring rates have been chosen to reduce front-end dive during braking, yet still provide excellent ride comfort
- Sold in pairs

DS-222048

PART #	DESCRIPTION
DS-222048	For 84-99 FXST/FXSTD/FLST/FLSTF, 93-98 FXDWG, 84-98 FLT/FLHT/FLTR, 94-98 FLHR (41 mm)

PREMIUM RIDE-HEIGHT ADJUSTABLE SHOCKS

- Nitrogen-charged steel monotube damper bodies with hard chrome-plated shafts
- Dual-rate progressive wound springs for a smooth, comfortable ride
- Adjustable spring preload
- Ride-height adjustable, +/- 12,7 mm (½") from size listed
- Chrome shocks feature chrome springs and damper bodies with clear anodized end caps/eyelets
- Black shocks feature black springs and damper bodies with black end caps/eyelets
- Available in standard or heavy-duty applications (loads over 300 lbs)
- Mount with existing hardware

NOTE: Lowering the motorcycle will reduce ground and cornering clearance.

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues such as swingarm/axle to exhaust contact, as well as chain/belt guard or tire contact.

NOTE: OEM upper shock mount covers will not fit with these shocks.

NOTE: Not for use with rear lowering kits.

DRAG Specialties

PREMIUM 267 MM (10,5") SHOCKS

- Shocks have steel dual-tube hydraulic damper bodies with hard chrome shafts
- Dual-rate progressive wound springs for a smooth, controlled ride
- Adjustable spring preload
- Low riding 267 mm (10,5") from center to center on the shock eyelets
- Black shocks feature black springs and damper bodies with black billet aluminum endcaps/eyelets
- Chrome shocks feature chrome springs and damper bodies with clear anodized billet aluminum endcaps/eyelets
- Mount with existing hardware

NOTE: Lowering the motorcycle will reduce ground and cornering clearance.

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues such as swingarm/axle to exhaust contact, as well as chain/belt guard or tire contact.

NOTE: OEM upper shock mount covers will not fit with these shocks.

NOTE: Not for use with rear lowering kits.

NOTE: Shocks shorter than OEM length have reduced travel, this may affect the ride quality and handling of the motorcycle.

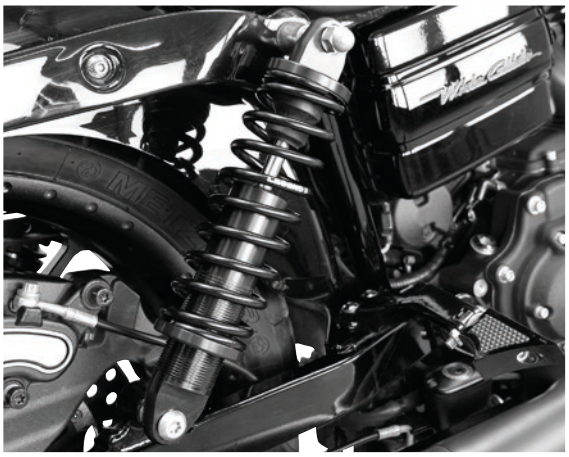
LEGEND WWW.LEGENDSUSPENSIONS.COM REVO



LEGEND REVO DYNA COIL SUSPENSION

- Available only in Black Type III hard coat anodize
- Legend's touring-specific coil spring rates provide superior ride comfort, improved performance, and increased resistance to bottoming for all-day comfort
- Adjusts by hand, no tools needed
- Available in 30,5 cm (12"), 33 cm (13"), and 35,5 cm (14"), standard or heavy-duty applications
- Easy installation and alignment, provided by spherical bearings on both top and bottom mounting points
- High-flow piston reacts quickly for improved fluid flow management
- Deflective disc valving self-adjusts to frequency and ensures controlled performance
- Low friction sealing system and sliding bearings for improved performance and feel
- Sold in pairs

NOTE: Heavy Duty application is recommended for 113 kg (250 lbs)+ rider and passenger total weight.

NOTE: Harley Davidson OEM #s 54666-08 (2), 7880 (2) and 8185 (2) are required for 91-98 models.

NOTE: 35,5 cm (14") shocks require short exhaust.

REVO ARC PIGGYBACK

LEGEND REVO-ARC PIGGYBACK FXR COIL SUSPENSION

- Legend's touring specific spring rates produce superior ride quality and performance
- Coils provide improved plush ride quality, control, and resistance to bottoming out
- Extended coil length has larger "sweet spot" without increasing overall shock length
- Allow minimal pre-load adjustments by hand when changing between riders' weights or loads
- Adjusts by hand, no tools needed
- Easy installation and alignment, provided by spherical bearings on both top and bottom
- 35 mm monotube construction
- Deflective disc valve stacks
- Balanced/Matched piston and base-valve design specific for these motorcycle applications
- Low friction sealing system and sliding bearings for improved performance and feel
- Seven external knob adjustments allow fine-tuning of rebound
- Seven external knob adjustments allow fine-tuning of compression
- Provide optimum rebound and compression performance for any given rider weight, personal ride quality preference, or personal riding style
- Nitrogen gas bladder design allows ultra-fast response and stiction-free movement
- Light to heavy riders can fine-tune ride preference
- Aggressive to casual riding styles can tune to desired quality or personal preference
- Sold in pairs

PROGRESSIVE suspension

FREQUENCY SENSING TECHNOLOGY

444 SERIES SHOCKS

- Features the all new Frequency Sensing Technology (FST) which allows the shocks to sense the frequency of a bump and automatically adjust damping for superior ride quality
- Deflective disc valving
- Adjust spring pre-load by hand, no special tool needed
- Include a progressive rate-spring and is high-pressure gas charged for consistent performance
- Standard or heavy-duty spring rate with black or chrome finish

NOTE: A shock which is slightly longer than stock may alter the head angle slightly and provide somewhat quicker steering.

NOTE: A shock which is slightly shorter than stock may slightly alter the head angle and provide somewhat slower steering.

NOTE: For OEM shock lengths, see the Quick Reference Guide in the back of this catalog.

NOTE: Heavy duty applications are recommended for bikes that are operated at or near the manufacturer's maximum load rating over 50% of the time.

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues, such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

412 SERIES SHOCKS

- Manufactured from the finest materials available
- Designed specifically for Harley models
- The 412s' simple, durable design makes them a cost-effective improvement to your motorcycle's suspension performance
- A five-position cam-style spring-load pre-load adjuster lets you easily dial in your ride
- Available with either a standard or heavy-duty progressive spring rate
- Multiple style options available
- Sold in pairs

NOTE: All shocks are measured center-of-eyelet to center-of-eyelet.

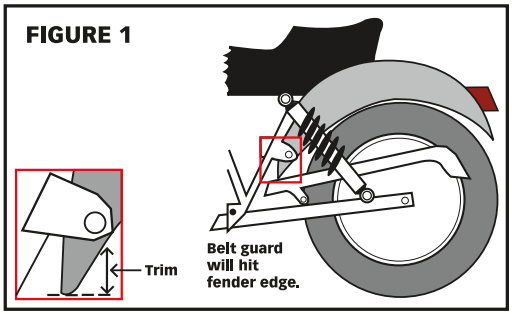
NOTE: A shock which is slightly longer than stock may alter the head angle slightly and provide somewhat quicker steering.

NOTE: A shock which is slightly shorter than stock may alter the head angle slightly and provide somewhat slower steering.

NOTE: Heavy duty applications are recommended for bikes that are operated at or near the manufacturer's maximum load rating over 50% of the time.

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

FIGURE 1



To use the 279 mm or 292 mm (11" or 11,5") shocks on FXDWG models, the fender must be modified as follows: When the shock is compressed, the belt guard will hit the fender edge (see Figure 1). Trim the fender as shown in Figure 1 inset. After the fender is trimmed, install one shock with springs removed and compress shock to verify that belt guard clearance is sufficient.

REPLACEMENT SPRINGS FOR PROGRESSIVE SUSPENSION 12- AND 412-SERIES SHOCKS

- Various rates allow fine-tuning for specific needs
- Choice of highly chromed and black springs
- Sold in pairs

NOTE: These springs must be ordered when ordering 12-series shocks. However, they can be used as replacements for the 412-series shocks.

PART #	DESCRIPTION
DS-222014[1]	70-120 psi chrome springs (std. spring on chrome 4000 series shocks)
DS-310030[1]	70-120 psi black springs (std. spring on black 4000 series shocks)

DS-222015

PART #	DESCRIPTION
DS-222015[1]	95-140 psi chrome springs
DS-222016[1]	105-150 psi chrome springs
DS-310032[1]	105-150 psi black springs

[1] These springs will not fit shock PART #s DS-222003, DS-222009 or DS-310087.

All part numbers in BLUE are new for the OldBook.

FREQUENCY SENSING TECHNOLOGY

944 FST ULTRA TOURING/LOW SHOCKS

- Unique Ultra spring configuration provides the superb ride quality and suspension travel of a 330 mm (13") shock but the custom lowered look of a 305 mm (12") shock
- Low Series shocks are designed to sit even lower; 50,8 mm (2") lower than a stock Touring model
- Built around Progressive Suspension's Frequency Sensing Technology (FST)
- Allows the shocks to sense the frequency of a bump and automatically adjust damping for superior ride quality
- Unique spring combination delivers a dropped ride height while being ridden, but also while the bike is on a side stand
- This allows you to better manage your bike at intersections and when parking
- Adjust spring pre-load by hand, no special tool needed
- Progressive rate main springs specifically designed for touring models
- High-pressure gas charged for consistent performance

NOTE: Heavy duty applications are recommended for bikes operating at or near the manufacturer's maximum load rating over 50% of the time.

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues, such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

PART #	DESCRIPTION
FOR 80-98 FLT/FLHT/FLHR/FLTR	
1310-0851	Ultra Touring, heavy duty

1310-1126	Ultra Low, heavy-duty

HYPERPRO Suspension Technology

ABE

SHOCKS

- High-performance, 7075-T6 aircraft aluminum construction; a wet born piston rod and self-adjusting bearing
- Radial piston with straight flow and preload through a pre-combustion oil chamber offers optimum response
- Anti-block system features a separate overpressure valve that prevents the shock from hydraulic lock
- Anti-fading damping system
- Rebound/compression adjuster; 50/30 clicks
- Feature progressive spring and threaded spring preload adjuster
- Adjusted for a solo rider and occasional two-up riding; spring load can be adjusted to personal preference

NOTE: When rear fender clearance allows, the low shocks also fit on other H-D motorcycles not listed in the charts.

PROGRESSIVE suspension

422 SERIES SHOCKS

- Fully adjustable for ride height and spring pre-load
- Tune suspension to match riding style
- Shocks feature a show chrome cover
- Pair of progressive-rate coil springs and purpose-designed monotube dampers provide superior suspension performance
- Dampers feature a nitrogen charge that eliminates internal oil cavitation and helps create a consistent ride while resisting heat-induced fade
- RAP (Remote Adjustable Pre-load) system allows for easy tuning of shocks to account for changing loads or the addition of a passenger with a remote pre-load adjuster
- Sold in pairs

NOTE: Heavy duty applications are recommended for bikes operating at or near the manufacturer's maximum load rating over 50% of the time.

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues, such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

1310-0852

PROGRESSIVE suspension

422 SERIES SHOCKS WITH RAP

- The Softail chassis has long been a challenge as the shocks are hidden under the frame, which makes common adjustments difficult
- The RAP (Remote Adjustable Pre-load) system allows for easy tuning of the shocks to account for changing loads or the addition of a passenger; conveniently located behind the left passenger peg
- Simply turn the knob in either direction to set the spring pre-load

NOTE: Before purchasing or attempting to install shocks that are different than the OEM length, confirm that your wheel travel can be altered without causing clearance issues, such as swingarm/axle to exhaust contact as well as chain/belt guard or tire contact.

NOTE: Heavy duty applications are recommended for bikes operating at or near the manufacturer's maximum load rating over 50% of the time.

BURLY BRAND MOTORCYCLE ACCESSORIES

SLAMMER KITS

- Complete lowering kit includes 267 mm (10,5") shocks with chrome springs and covers and fork springs
- Easy-to-install fork springs that do not require the removal of forks (on most models)
- Drop-in fork springs lower front end up to 2"
- Shocks lower rear up to 2 1/2"

PART #	DESCRIPTION
1310-0471	For 84-98 FLT/FLHT/FLHR/FLTR w/o cartridge-style forks

All part numbers in BLUE are new for the OldBook.

BIG SHOCK SPRINGS

- Ideal for lowered Softails
- Stronger than stock springs; prevent bottoming out
- Big Red springs are recommended for solo riders; rated for 1200 psi
- Big Blue springs are recommended if occasionally carrying a passenger or the rider weight is 100 kg (220 lbs) -131,5 kg (290 lbs); rated for 1300 psi
- Fit OEM and Progressive Suspension shock absorbers

1312-0131

1312-0131	Big Red

PART #	DESCRIPTION
FOR 89-99 FXST/FLST (CONT)	
1312-0132	Big Blue

SPRING SUSPENSION LIMITERS

- The compression travel of the rear shock absorbers can be limited with these universal spring deflection limiters
- The big advantage of these spring deflection limiters is that they are made of relatively soft rubber
- When you touch down on the spring deflection limiter, no hard impacts are caused, but a "gentle" touchdown takes place

- Dimensions: 13 mm inner diameter, 38 mm outer diameter, 10 mm thick
- Easy installation
- It is not necessary to remove the suspension

PART #	DESCRIPTION
1313-0228	Universal

FXST/FLST CHROME LOWERING KIT

- Adjustable from stock height to 2" lower than stock

PART #	DESCRIPTION
DS305046	For 89-99 Original Equipment and Progressive shocks

ADJUSTABLE REAR LOWERING KIT

- Made from 1144 stress-proof steel
- Zinc-plated finish
- Lowers the rear of the motorcycle up to a full 5 cm (2") lower than stock
- Accepts all factory mounting hardware

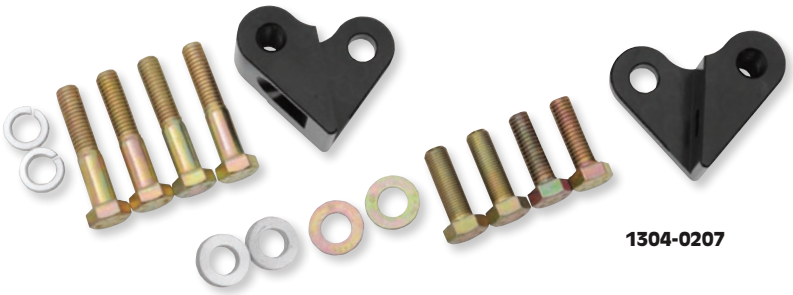
PART #	DESCRIPTION
1304-0210	For 89-99 FXST/FLST

REAR LOWERING KITS

- All kits are manufactured from high-strength steel
- Comes complete with all necessary mounting hardware and instructions
- Black finish

NOTE: Kits are not to be used in conjunction with "shorty" or "low-profile" shocks.

NOTE: Check all clearances before operating.



1304-0207

PART #	DESCRIPTION
1304-0207	For 97-98 FLT/FLHT/FLHR/FLTR (except FLHRS/FLHRC) - 25,4 mm (1") drop (aluminum construction)
1304-0150	For 95-98 Dyna - 25,4 mm (1") drop

DS-221475

REAR LOWERING KITS

- Kits are available in powdercoat black steel
- Simple bolt-on installation; comes with mounting hardware
- Designed for OEM and most aftermarket stock length shocks
- 97-98 FLHT models are lowered approximately 1"; 85-96 FLHT/FLT models are lowered approximately 1,5" using OEM air shocks (not for FLHX/FLHRCI, FLHRS/SI models)

NOTE: Rear lowering kits are not to be used in conjunction with "shorty" shocks or "low-profile" shocks.

NOTE: Fender-to-belt and tire clearance must be checked along with frame and exhaust clearance. Saddlebags may require spacing.

HUGGER SERIES FRONT FENDERS

- Steel fenders are thick enough to add rigidity to the front end by acting like a fork brace, but can still be cut or shaped enough for an even more Kustom appearance
- All fenders come predrilled and are stamped, not spun, to ensure a consistent finish and minimize body work
- E-coated to prevent rust and corrosion
- 16", 17", 18" and 19" fenders measure 6,25" outside width and will accommodate up to a 130 series tire
- 21" styles measure 5,875" outside width and will fit the current 120/70-21 series tires on 3,5" wide rims
- 21" Narrow measure 4,5" outside width and will fit models listed with the stock narrow rim and a tire up to 100/100-21
- Installation requires the use of Klock Werks Hugger mounting blocks (sold separately)

FOR 84-99 FXST/FXSTB/FXSTC, 93-98 FXDWG AND CUSTOM APPLICATIONS

BUILDERS SERIES 4" STRETCHED REAR FENDERS

- These fenders are the exact same quality and dimensions as Klock Werks standard fender but without the mounting holes
- Result yields a smooth finish while minimizing work needed for bodywork
- Stamped with 14ga U.S. steel
- Available with or without frenched license plate pocket

1401-0251

2030-0839

FOR CUSTOM APPLICATIONS (7.125" WIDE)

PART #	DESCRIPTION
FENDERS	
1401-0251	4" stretch; frenched plate pocket
1401-0252	4" stretch; smooth

PART #	DESCRIPTION
LICENSE FRAME	
2030-0839	Chrome lighted

WFB™ BENCHMARK STRETCHED REAR FENDERS

- Stamped from 14ga U.S. steel, these fenders are E-coated to prevent rust and corrosion
- Deep-draw stamping technology ensures a consistent flawless finish while minimizing body work
- Fenders are 7.125" wide, are 6" longer than a stock rear touring fender and are a direct replacement
- License frames will perfectly fit Klock Werks stretched rear fenders or can be used in custom applications; include mounting hardware and accept most 4" H x 7" W license plates

HINGED REAR FENDER

- High-quality with a raw steel smooth finish and no taillight hole

PART #	DESCRIPTION
DS-393489	For 58-84 FL swingarm; repl. OEM #59604-65A

QUICKBOB™ REAR FENDER

- Unique steel fender converts the look of a stock XL rear fender to an FXWG-type bobbed rear fender
- Uses XL sissy bar side straps, but it is wider so an 8 1/4" FX-style sissy bar back must be used
- Requires custom mounting
- License plate/taillight mount and your choice of taillight must be ordered separately to complete installation

NOTE: Components cannot be interchanged with OEM or aftermarket parts.

PART #	DESCRIPTION
DS-380061	QuickBob rear fender only for 57-78 XL

CUSTOM QUICKBOB® REAR FENDER

- Wide Glide-style with a raw steel finish
- Accepts stock fender struts and hardware
- Optional chrome license/taillight bracket (PART #DS-270120); sold separately

PART #	DESCRIPTION
DS-380032	For 73-85 FX (except FXWG/FXST/FXR)

FAT BOB-STYLE REAR FENDERS

- Universal custom fenders with left-hand or right-hand chain cutaway
- Each measures 38" L x 7" W x 5 1/2" D and has a raw steel finish

PART #	DESCRIPTION
DS-393496	For left-hand chain

PART #	DESCRIPTION
DS-393497	For right-hand chain

REAR FENDERS

- Steel construction
- Available in a smooth style with no taillight mount/license plate mount holes or a stock style with taillight/license plate mount holes
- Fender-mounting holes are predrilled for easy installation
- Also fits FXST models if a full fender is desired

PART #	DESCRIPTION
FOR 86-96 FLST/FLSTC	
DS-380058	Stock-style fender; repl. OEM #59144-87A

RIVCO

ADJUSTABLE PASSENGER FLOORBOARD MOUNTS

- Made from CNC-machined billet aluminum
- Accept either stock Harley-Davidson floorboards or any direct-fit accessory floorboard (floorboards not included)
- The ultimate in passenger comfort; movement of the boards forward eliminates the problem of passenger's calves pressing against the saddlebag/guard rail and greatly increase foot and leg support over stock boards
- Adjust in seconds to 12 different positions through a 9" range of motion; simply pull out spring-loaded lock pins, then move the board up or down until pin clicks into next position; no tools required

PART #	DESCRIPTION
FOR 93-98 FLT/FLHT/FLHS/FLTR/FLHR	
1621-0301	Chrome, for bikes w/ Original Equipment exhaust

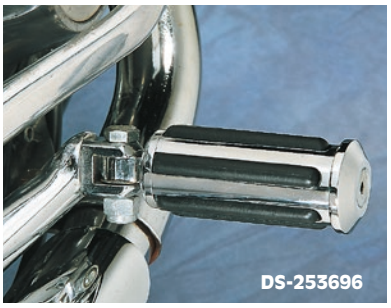
- Another unique design from Drag and Arlen Ness
- Protective rubber rails run completely around diameter for great looks no matter how pegs rotate or pivot
- Each is precisely die-cast, chrome-plated aluminum
- End cap is super-clean and uses a Grade 8 countersunk flat-head socket screw
- Very tight tolerances ensure a great-quality, superstrong footpeg assembly
- Carbon-steel pivot ends are stronger than other die-cast pivots



DS-253696

DS-253696

DS-253698

- Peg diameter is 1 1/2" (between a standard large-size driver and the smaller passenger-style pegs); length is 4" without pivot end
- Shifter peg matches footpegs
- Sold in pairs with pivot ends installed

WHEEL BEARING ADAPTER KITS

- Never again will you have to pass on a good deal at the swap meet because a wheel you want has the wrong bearings
- No more fighting with the wheel to remove the old bearings, only to have to fabricate a new inner bearing spacer
- Adapter kit PART #0215-1034 takes 25 mm wheels and reduces them down to fit a 3/4" axle
- Adapter kit PART #0215-1035 takes those 1" bearings and necks them down to fit a 3/4" axle
- Won't change existing wheel spacing
- Solid stainless steel construction to prevent corrosion

PART #	DESCRIPTION
0215-1034	25 mm to 3/4" bearing adapter
0215-1035	1" to 3/4" bearing adapter

TRK-350 TRIKE COVERS

- Made of medium-weight Tri-Max® polyester, this is the only trike cover guaranteed to be 100% waterproof
- All seams are electronically heat sealed and have silver heat-resistant lower panels
- Exclusive Perma-Venting® system prevents condensation buildup by allowing constant air circulation
- 50" rear zipper gives access to trunk without cover removal
- Snug-fitting, elasticized bottom has 25 mm (1") grommets in center and at front wheel
- Packed in included compression bag for the ultimate in compact storage
- Available in black with rear silver heat-resistant panel
- Two sizes available to fit most models

Compression bag

PART #	DESCRIPTION
TRK-350	TRK-350 trike cover (fits models w/ rear width up to 147 cm W (58"))
4001-0164	X-large trike cover (fits models w/ rear width up to 165 cm W (65"))

TRIKE DUST COVER

- Protect your trike from dust and spills when garaged
- Made from a breathable, soft, non-scratch brushed poly/cotton
- For indoor use only

PART #	DESCRIPTION
4001-0165	X-large trike dust cover (fits models w/ rear width up to 165 cm W (65"))

UV2000 1/2 COVERS

- Specially treated UV protector nylon
- Blocks out over 99% of sun's harmful rays
- 100% waterproof and protects against all natural elements
- All seams are electronically heat sealed
- Sewn-in elastic bungees for universal mounting
- Comes in its own fanny pack
- When folded, fits into almost any storage compartment
- Not intended for trailering
- Sizes Medium, Large and X-large to fit most models

PART #	DESCRIPTION
UV2000M	Medium
UV2000L	Large
UV2000XL	X-large

GEARS

PREMIUM MOTORCYCLE COVERS

- Heavy-duty 600D polyester construction with polyurethane coating for UV-protection and water-resistance
- Vent guard system allows cover to breathe, reducing moisture buildup
- Aluminum-coated heat shields allow cover to be used on hot pipes
- Windshield area is made of non-abrasive material to prevent scratching
- Elastic hems and web tie-down
- X-large features hook-and-loop slot in the rear for easy access to luggage and accommodation of dual antennas

PART #	DESCRIPTION
4001-0097	Medium (up to 241 cm (95")), for small cruisers and 400 to 600 cc sportbikes
4001-0098	Large (up to 254 cm (100")), for cruisers, sport touring and over 600 cc sportbikes
4001-0099	X-large (up to 264 cm (104")), for large touring and large cruisers

GEARS

BODYGUARD WATERPROOF COVERS

- Designed for use when storing your motorcycle, providing all weather protection
- Protects your motorcycle from rain, dirt, tree sap and other elements
- 100% Waterproof with electronically sealed seams
- Made of 600D Duramax polyester
- Extra strong elasticized hems for a secure fit
- Extra grommets added at bottom that can be used to secure cover with a chain lock (chain lock not included)
- Aluminized bottom panels for protection against hot engine pipes
- Non-scratch material on the inside to protect windshield
- Air vents for moisture control
- Two universal sizes (medium and large) designed to fit most sport, cruiser and touring motorcycles
- Folds into a compact size when not in use
- Storage bag included

PART #	DESCRIPTION

KURYAKYN

THE CLINGER BOTTLE HOLDER

- Holds water bottles, fuel bottles or fire extinguishers
- Holds up to a 89 mm (3 1/2") diameter bottle while strapped to 89 mm (3 1/2") or smaller diameter tubing
- Non-slip textured PVC fabric on the interior provides grip
- Elastic cord cinches around neck of bottle for added security
- Can be attached two ways: 38 mm (1 1/2") nylon webbing with cinch buckles for roll-bars/tubing or by weaving the 13 mm (1/2") nylon webbing straps through an existing molle field
- Molle webbing on outer surface allows attachment of additional gear or pouches

PART #	DESCRIPTION
3501-1838	The Clinger bottle holder

0603-0414

0603-0451

BEVERAGE CARRIERS

- Easy on/off snap design
- Made from PVC leather
- Drink pouch is collapsible for storage
- Beverage carrier only allows you to update any ring-style Kuryakyn drink holder with the Snap-n-Go drink carrier

PART #	DESCRIPTION
SNAP-N-GO BEVERAGE CARRIER WITH MOUNT	
0603-0414	W/ mount to fit clutch or brake perch on most 82-99 H-D models

PART #	DESCRIPTION
SNAP-N-GO BEVERAGE CARRIER ONLY (DOES NOT INCLUDE MOUNT)	
0603-0451	Snap-n-Go pouch only

0603-0688

0603-0403

0603-0402

UNIVERSAL DRINK HOLDERS

- Clamp to the handlebar or the clutch/brake perch and hold an average-size cup, can, bottle or mug
- Quick-detach mount leaves a simple clamp when not in use
- Clamp allows beverage to swivel when needed
- Choose either universal basket holder style or 12 US fl oz stainless steel mug with mounting ring

PART #	DESCRIPTION
WITH BASKET	
0603-0687	W/ 1" dia. handlebar clamp, gloss black
0603-0688	For most 82-99 H-D clutch or brake perch mounts, gloss black

PART #	DESCRIPTION
WITH STAINLESS STEEL MUG	
0603-0403	W/ 1" dia. handlebar clamp
0603-0402	W/ mount for most 82-99 H-D clutch or brake perch mounts

PASSENGER DRINK HOLDER

- Fasten securely to the passenger grab rails on Touring models
- Includes a basket that will hold just about any can, bottle or cup
- The clamp fastens securely to the 1/2" diameter passenger grab rails found on FLHT and FLHR models or can be mounted universally on any 1/2", 5/8" or 3/4" tubing

PART #	DESCRIPTION
0603-0288	Passenger drink holder w/ basket

All part numbers in BLUE are new for the OldBook.

FLAGPOLE WITH AMERICAN FLAG

- 12" L and comes with a 6" x 9" flag
- Comes with a pike dome nut pre-attached, with an extra round dome nut
- 1/4"-20 threaded for easy mounting
- Compatible with Ciro® flagpole mounts (sold separately)

0521-2143

4405-0494	For 98 FLHT (13,5 cm (5 1/4") speakers)

PART #	DESCRIPTION
4405-0495	For 98 FLTR (12,5 cm x 18 cm (5" x 7") speakers)

All part numbers in BLUE are new for the OldBook.

HOGTUNES
Audio Solutions For The Great American Cruiser

13 CM (5,25") FRONT AND REAR SPEAKER

- Gen 4, 13 cm (5,25") 6-ohm speaker fits front and rear locations
- Perfect replacement speaker when using radio's built-in power on 98 bikes
- Vented magnet properly controls heat for added reliability
- Sound is tailored to cut through exhaust and wind noise
- Install using factory grilles or use Hogtunes front speaker metal mesh grilles (PART #4405-0379)
- Compatible with popular plug-and-play aftermarket radios
- Sold in pairs

PART #	DESCRIPTION
4405-0763	For 86-96 FLHTC/FLHTCU w/ factory radio only

REPLACEMENT 11 CM (4,25") SPEAKERS FOR 86-95 DRESSERS

- Direct replacement speakers for 86-95 model bikes equipped with factory radios
- Fit behind factory grilles, includes 10 mm soft rubber gaskets for an improved fit
- 4-ohm, two-way design
- Feature Hogtunes "signature" sound to enhance sound on a bike at any speed
- Install using factory hardware
- Can be used on bikes with a car radio conversion kit
- Sold in pairs

PART #	DESCRIPTION
4405-0263	For 86-95 FLT/FLHT w/ factory or car radios

"HOG-POD" FLHT/FLHX DASH TRIM/TWEETER POD

- Complete add-on tweeter kit
- Doubles as a fairing accent piece with decorative chrome trim (included)
- Pod comes "satin black" to match stock inner fairings (as shown)
- Disassembles easily to paint-match custom-painted fairings
- Black "see-through" grilles can also be painted, chromed
- Second set of cloth-covered grilles included
- Works with all Hogtunes speaker systems, 98 stock systems or bikes with aftermarket car radios

- Includes custom-designed 50W (RMS) high-efficiency metalized dome tweeters with 3rd order (18 dB) passive crossovers
- Radically improves clarity and performance of your audio system
- All mounting hardware, drilling template and plug-and-play wiring is included in box

PART #	DESCRIPTION
4405-0172	For 98 FLHT

REAR SPEAKER PODS

- Kit includes vinyl-covered rear speaker pods, grilles, mounting hardware and wire harness for PART #s 4405-0338 and 4405-0341
- Also include wiring for bikes with car radios
- Hold Hogtunes 13,5 cm (5,25") front or rear model speakers

NOTE: Supplied wiring will not plug into radio on FLHT/FLHX and FLTR models. Amplifier, OEM harness or car radio is required. See PART #2120-0771 for more wiring options.

PART #	DESCRIPTION
4405-0229	For 98 FLHT/FLTR w/ radio and King Tour-Pak

All part numbers in BLUE are new for the OldBook.

REV SERIES 200-WATT 4-CHANNEL AMP KIT

- 200W, 4-channel amplifier (50W x 4)
- Includes upgraded, 100% plug-and-play harness
- Complete with everything needed for installation

PART #	DESCRIPTION
4405-0522	For 98 FLHT

R.E.M.I.T.

225-WATT AMP KIT

- 225W, 2-channel fairing mounted amp (112,5W x 2 RMS at 2-ohms)
- Features R.E.M.I.T. circuitry for excellent FM reception from a Class D amp
- 100% plug-and-play with supplied wire harnesses

NOTE: Not compatible with CVO models with factory amplifiers installed.

NOTE: PART #4405-0234 required if this is the second Hogtunes amp on FLHT/FLHX.

PART #	DESCRIPTION
4405-0493	For 98 FLHT/FLHX/H-D FL Trike w/ factory radio

ADAPTER MOUNT FOR 200-WATT AMPLIFIER KIT

- Adapter mount for 200W amp kits
- Includes all necessary hardware
- Adapter mount required to mount amplifier kit (PART #4405-0338) on 98 FLTR

PART #	DESCRIPTION
4405-0405	For 98 FLHT/FLTR w/ factory radio

AMP MOUNTING KIT

- Mounts 2-channel amp between radio and speaker in 98 FLT/FLHT
- Ideal for mounting second Hogtunes amplifier
- Kit includes steel mounting plate and all required hardware

PART #	DESCRIPTION
4405-0234	2-channel Hogtunes amp mount kit

ROAD GLIDE ADAPTER KIT

- Required if installing Hogtunes USA 24,2A, NCA 70,2 (PART #4405-0264) or REV 200-AA (PART #4405-0341) in FLTR
- Kit includes steel mounting plates, wire harnesses and all required hardware

PART #	DESCRIPTION
4405-0486	2-channel amp adapter kit

All part numbers in BLUE are new for the OldBook.

Dakota Digital

ELECTRONIC HIDDEN ANTENNA

- Finally, a hidden internal antenna that really works
- Mounts inside any fiberglass or plastic fairing
- Plugs into any standard AM/FM antenna jack
- Requires a switched 12V power source

NOTE: Antenna will not receive Weather Band frequencies.

PART #	DESCRIPTION
DS250034	Hidden antenna

KURYAKYN

HIDDEN ANTENNA

- Flexible and discreet design can be tucked away virtually anywhere for a clean look
- 28 cm (11") long with 61 cm (2') of cable
- Requires no power wire; simple plug-in installation
- Offered with universal round antenna connector
- Provides AM/FM and Weatherband signal (no CB radio capabilities)

PART #	DESCRIPTION
4401-0263	Hidden antenna w/ universal connector

All part numbers in BLUE are new for the OldBook.

HIGH CALIBER FLEXIBLE ANTENNAS

- Bullet-style antenna is a sleek, sturdy upgrade over long whip-style antennas
- AM/FM/WB reception is equivalent to OEM antenna
- Flexible rubber base prevents antenna from breaking
- No need to worry about bike cover
- Comes in 20,5 cm (8") or 30,5 cm L (12") length

FOR 89-98 FLHT/FLTR

PART #	DESCRIPTION
20,5 CM (8") LENGTH	
4401-0270	Chrome
4401-0271	Black anodized

PART #	DESCRIPTION
30,5 CM (12") LENGTH	
4401-0243	Chrome
4401-0244	Black anodized

AM/FM STUBBY ANTENNAS

- Comes in rubber or aluminum with carbon fiber insert
- Fits any H-D models with existing audio antenna
- 100% plug-n-play

PART #	DESCRIPTION
4401-0274	15,25 cm (6") rubber
4401-0275	17,75 cm (7") aluminum w/ carbon insert

WHIP ANTENNA

- Direct OEM replacement for H-D radio antennas
- 35,5 cm L (14") and screws into OEM antenna mounts
- Not intended to replace CB antenna

PART #	DESCRIPTION
4401-0188	Whip antenna

DUAL-FUNCTION FLEXIBLE ANTENNA

- Get range and clarity for your AM, FM and CB radio without the mile-high stock antenna
- Compact, flexible antenna measures only 43 cm L (17")
- Tuned for its specific mounting location – no calibration needed

PART #	DESCRIPTION
4401-0070	Tour-Pak mount antenna for 89-98 FLHT/FLTR w/ AM/FM radio and CB kit

BILLET ANTENNA

- No more bent/broken antennas
- Billet aluminum construction
- Rubber over-molded spring base allows the antenna to flex if bumped or hit
- Dimensions: 30 cm L (12"); direct replacement for the OEM antenna
- Picks up AM/FM signals only (no CB)

PART #	DESCRIPTION
4401-0141	For 89-98 FLT/FLHT/FLHR/FLTR

ALUMINUM ANTENNA STUD CAP

- Covers the stock antenna stud when the stock antenna is relocated

PART #	DESCRIPTION
4401-0204	Antenna cap

RAM® X-GRIP® KITS WITH VIBE-SAFE™ AND U-BOLT BASE

- High-strength composite and stainless steel construction with a powder-coated marine-grade aluminum
- Include a 25,4 mm (1") diameter rubber ball and socket system with adjustment points at both ends of the socket arm; this, with a twist of the arm knob, allows you to move the X-Grip® mount to optimum viewing position
- Spring-loaded holder expands and contracts for perfect fit of device
- Rubber-coated tips will hold device firm and stable
- The mounting hardware for brake/clutch reservoirs include both standard and metric mounting bolts
- Kits include U-bolts that fit bars 12,7 mm to 31,7 mm (5,5" to 1,25") in diameter
- Socket technology allows for multiple adjustment angles and articulation of device
- Include all necessary mounting hardware

PART #	DESCRIPTION

Typical Harley-Davidson VIN

VEHICLE IDENTIFICATION NUMBER 1936-1969 MODELS

- Typical Harley-Davidson VIN engine serial number breakdown 1936-1969

YEAR OF MANUFACTURE

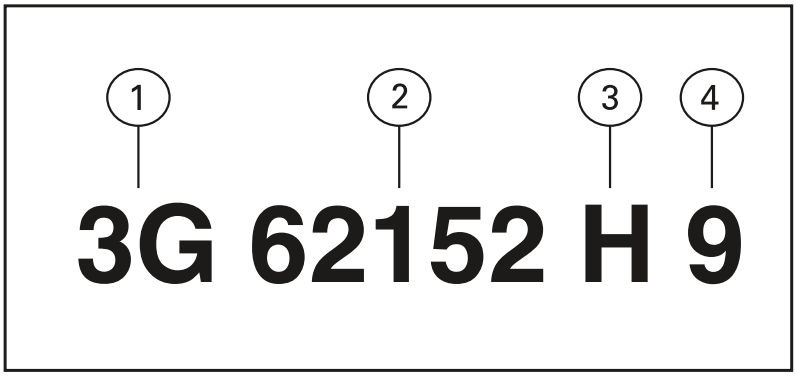
REFERENCE #	DESCRIPTION
1	Year of manufacture (two digits)

MODEL IDENTIFICATION

REFERENCE #	DESCRIPTION	WHAT THIS MEANS
2	WLA	45" Army
	WL	45" Solo
	G	45" Servi-Car
	GE	45" Servi-Car (electric start)
	EL	61" OHV
	ELH	61" OHV (high compression)
	FL	74" OHV
	FLH	74" OHV (high compression)
	UL	80" Side Valve
	ULH	80" Side Valve (high compression)
	VL	74" Side Valve
	K	750cc Flathead
	KH	888cc Flathead
	KHK	888cc Flathead (high performance)
	XL	900cc Sportster
	XLH	900cc Sportster (electric start)
	XLCH	900cc Sporster (kick start w/ magneto)

SEQUENTIAL NUMBER

REFERENCE #	DESCRIPTION
3	Sequential number (four digits)



Typical Harley-Davidson VIN

VEHICLE IDENTIFICATION NUMBER 1970 TO 1980 MODELS

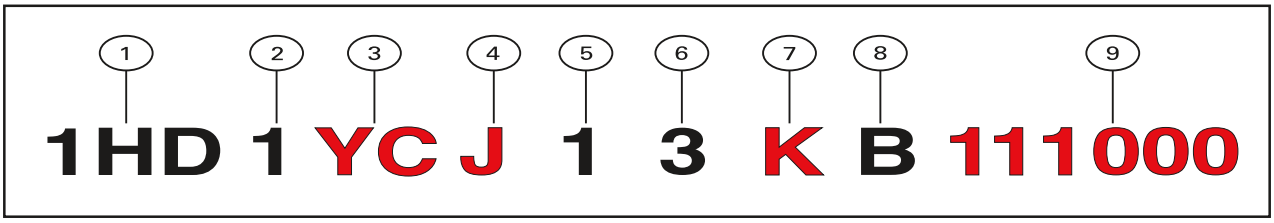
- Serial number identification for Harley-Davidson models
- Serial number located on engine case as well as the frame neck area

REFERERENCE #	DESCRIPTION	WHAT THIS MEANS
1	First two digits	1A FL-1200
		1H FXB-80
		1K FLH-80 (Shrine)
		2A FL-1200
		2C FX-1200
		2F FXS-1200
		2G XLT
		2H CLE (Side Car)
		3A XLH (Sportster)
		3G FLH-80
		3G FLH Classic (1979)
		3H FLH Classic (1980)
		4A XLCH (Sportster)
		4E XLS
		5E FXFE-1200
		5H FLHS-80
		6E FXEF-80
		6H FL-80
		7G FXS-80
		7H FLH-1200 (Police)
		8H FLH-1200 (Shrine)
		9G FXWG-80
		9H FLH-80 (Police)

REFERENCE #	DESCRIPTION	WHAT THIS MEANS
2	Next five digits (sequential numbers)	1970 through 1977 #10000 and up
		1978 through 1980 #60000 and up
		Side Cars #80000 and up

REFERENCE #	DESCRIPTION	WHAT THIS MEANS
3	Second to last digit (decade)	H = 1970 through 1979
		J = 1980

REFERENCE #	DESCRIPTION	WHAT THIS MEANS
4	Last digit (year)	0 = 1970 OR 1980 (depending on item #3)
		1 = 1971
		2 = 1972
		3 = 1973
		4 = 1974
		5 = 1975
		6 = 1976
		7 = 1977
		8 = 1978
		9 = 1979



VEHICLE IDENTIFICATION NUMBER 1981 AND LATER MODELS

- Engine Identification Number consists of an abbreviation of the VIN. Numbers/letters above in RED are used in the Engine Identification Number

REFERENCE #	DESCRIPTION	WHAT THIS MEANS
1	Origin of manufacture	1HD - manufactured in the USA
		5HD - manufactured in the USA for sale in other countries
		932 - manufactured in Brazil
		MEG - manufactured in India
		MLY - manufactured in Thailand

REFERENCE #	DESCRIPTION	WHAT THIS MEANS
2	Type of motorcycle	1 - Heavyweight - (over 900cc)
		4 - Middleweight - (351cc to 900cc)

ECE TYPE APPROVED

This logo symbolizes that the article conforms to applicable UN ECE regulations. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

ECE R90 TYPE APPROVED

This logo symbolizes that the article conforms to applicable UN ECE R90 regulations. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

PPE (Personal Protective Equipment)

This logo indicates the article's conformity with the Essential Health and Safety Requirements of Regulation (EU) 2016/425.

EC TYPE APPROVED

This logo symbolizes that the conforms to applicable EU EC directives. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

EU TYPE APPROVED

This logo symbolizes that the article conforms to applicable EU Regulation (generally for newer products). Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

PPE

This logo indicates the article's conformity with the Essential Health and Safety Requirements of Regulation (EU) 2016/425. (Non-motorcycle articles, e.g. Watercraft articles)

ECE R22.06

This logo symbolizes that a helmet, helmet visor/shield or other helmet accessory has been tested and certified to ECE R22.06 regulation.

ART

The ART quality mark symbolizes that the lock is independently tested according to the standard for two-wheeler theft prevention. (MBT-04) and certified by the ART Foundation. The locks are rated according to a 5 stars category designation system based on the use of a lock (bicycle, E-bike, scooter, motorcycle, other). The more stars a lock has, the higher its preventative value and the better it protects against theft.

ABE

This logo symbolizes the article has been approved by KBA (German Federal Motor Transport Authority) for specific vehicle application.

TEILEGUTACHTEN (German Parts Certificate)

This logo symbolizes that the article contains a TEILEGUTACHTEN (German Parts Certificate) to ensure the legal part installation. Issued by a German inspection body.

CLASSE S.R.A.

The logo symbolizes that the anti-theft device is tested and approved according to the SRA (SÉCURITÉ et RÉPARATION AUTOMOBILES France) rules for theft prevention. The classification in the "SRA classes" includes electronic protection systems (engine cut-off, alarm, etc.) and mechanical protection systems (U-locks, chains and disc locks).

SOLD SECURE

The logo symbolizes that the lock is tested and approved according to Sold Secure (UK's testing and certification house for security products) standards for theft prevention.

ELECTRICAL WIRING

WIRE GAUGE CONVERTER

GAUGE	MM²	MM Ø	GAUGE	MM²	MM Ø	GAUGE	MM²	MM Ø	GAUGE	MM²	MM Ø
22	0,33	0,65	16	1,0	1,3	10	5,0	2,6	4	19,0	5,2

18	0,8	1,0	12	3,0	2,1	6	13,0	4,1	0	52,0	8,3

WIRE GAUGE SELECTOR

It's important to match up wire diameter and current properly. To choose the right gauge wire, you will need to know how much Wattage (or Amperage) you will draw and what the length of the cable will be.

NOTE: The chart below is based on a 12V system. To find the appropriate wire for 6V systems, the Amp and Watt numbers should be divided in half.

AMP.	WATT	91 CM (3 FT)	152 CM (5 FT)	213 CM (7 FT)	305 CM (10 FT)	457 CM (15 FT)
5A	30W	18 AWG	18 AWG	18 AWG	18 AWG	18 AWG

FORMULAS

DISPLACEMENT

Bore x bore x stroke x 1,5708 = Displacement in Cubic Inches

Bore x bore x stroke x 25,744019 = Displacement in Cubic Centimeters

Example: A stock 96" Twin Cam has a bore of 3,750" and a stroke of 4,375".

Formula: 3,750" x 3,750" x 4,375" x 1,5708 = 96,64 cubic inch

3,750" x 3,750" x 4,375" x 25,744019 = 1583,86cc

COMPRESSION RATIO

Ratio = Cylinder displacement plus combustion chamber volume divided by combustion chamber volume.

Example: A 96" cubic inch Twin Cam has 794cc per cylinder. Combustion chamber volume is approximately 86cc.

Formula: 794 + 86 = 880 : 86 = 10,2:1 Compression Ratio (CR)

Note: When calculating compression ratio, do not forget to include gasket thickness, valve pockets and ringlands in the piston. CC-ing the heads, filling them with fluid after heads have been installed, will give you accurate numbers.

HEAD/BASE GASKET VOLUME

Bore x bore x 12,87 x compressed gasket thickness = Gasket volume in cubic centimeters

Example: A head gasket has a thickness of 0,045"; bore is 3,750".

Formula: 3,750" x 3,750" x 12,87 x 0,045" = 8,144cc

AREA OF CIRCLE

The radius is the diameter of a circle divided in half.

Radius x radius x 3,1416 = Area of a circle

Example : A stock 96" Twin Cam has a bore of 3,750".

Formula: 1,875" x 1,875" x 3,1416 = 11,05 Inch^2

47,63 mm x 47,63 mm x 3,1416 = 7127,09 mm^2 (71,271 cm^2)

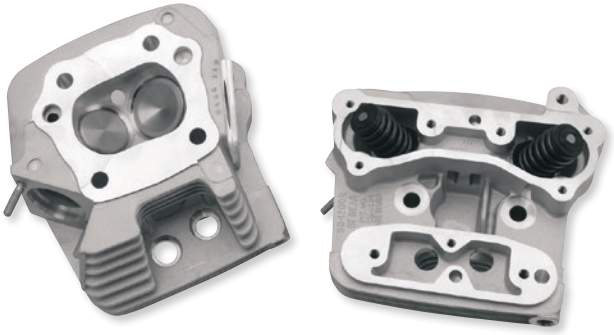
ELECTRICAL: AMPERAGE, WATT AND VOLTS

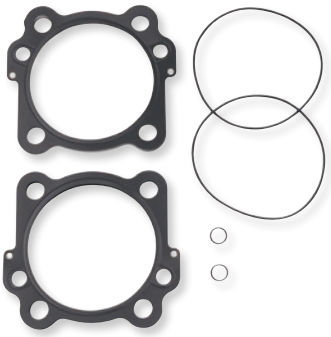
Understanding electrical current is important to prevent a meltdown within the electrical wiring of a motorcycle. It is useful to calculate what fuse you will need for a certain application.

Watt divided by Volt = Amp

Amp multiplied by Volt = Watt

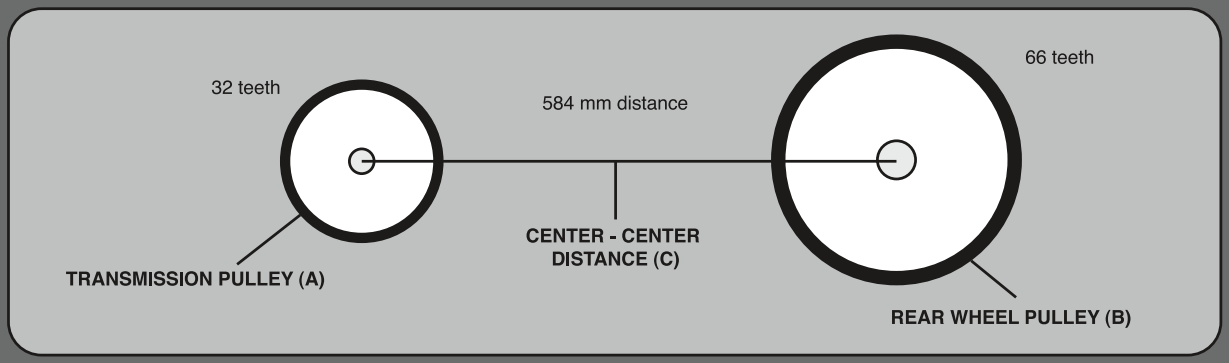
Watt divided by Amp = Volt





- THE 3-STEP BELT FORMULA -

How to find the correct belt



Formula

A = number of tooth transmission pulley
B = number of tooth rear wheel pulley
C = center to center distance between both pulleys

THE 3-STEP BELT FORMULA

Step 1) $\frac{(C \times 2)}{13,8} = D$

Step 2) $\frac{A + B}{2} = E$

Step 3) D + E = Number of teeth

Example

Transmission pulley has 32 tooth
Rear wheel pulley has 66 tooth
Center to center distance is 584 mm

Step 1) $\frac{584 \times 2 = 1168}{13,8 \text{ (belt pitch)}} = 84,6$

Step 2) $\frac{32 + 66}{2} = 49$

Step 3) 84,6 + 49 = 133,6 teeth
This means you must use a 133 tooth belt, because 137 tooth is not manufactured

From Our Garage To Yours

We are the #1 resource for V-Twin products. We support our dealers, suppliers and fans at races, rallies, special events and showcases.
