GP PLUS R v3 LEATHER JACKET

PERFORMANCE RIDING / SPORT RIDING

- Premium leather main chassis constructed from 1,3 mm genuine bovine leather with High Resistant Stretch Fabric (HRSF) strategically positioned for comfort.
- Alpinestars Nucleon Flex Plus armor on shoulder and elbow (Alpinestars Nucleon back protector and Nucleon KR-Ci chest protector available as an accessory upgrade).
- Accordion panel on back and shoulder with HRSF polyamide stretch material on sleeve for an optimized fit and performance.
- Waist adjustment for the highest level of comfort.
- Zip on front and leather collar tab closure for a secure closure.
- Low profile collar with soft edging and 3D mesh inner comfort fabric for enhanced rider comfort.
- Two zippered hand pockets, two inner pockets and an inner waterproof document pocket for safe and secure storage.
- Zippered ventilation for improved airflow.
- Reflective insert.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - CE Category II PPE Regulation (EU) 2016/425 – AA class.
 - CE Level 2 EN1621-2:2014 Alpinestars Nucleon back protector, available as an accessory upgrade.
 - CE Level 1 EN1621-1:2012 Alpinestars Nucleon Flex Plus shoulder and elbow protectors.

SP-1 v2 LEATHER JACKET

SPORT RIDING

- Premium leather main chassis constructed from 1,3 mm genuine bovine leather.
- Stretch panels on sleeves, side, chest and shoulder blades further improve fit and feel.
- Waist adjustment for an improved riding fit.
- Two zippered hand pockets for practicality.
- Printed logos and graphic details reduce weight and improve the flexibility of the leather, thus enhancing comfort and performance.
- Zippered air intake vents are strategically positioned for optimized airflow.
- Low profile collar construction with microfiber comfort edging plus 3D textured fabric comfort inner collar lining for high levels of rider comfort.
- Pre-curved sleeve construction reduces riding fatigue.
- Chest and back compartments are designed to accommodate the Alpinestars Nucleon chest and back inserts, available as an accessory upgrade.
- Multiple snap button system to integrate the Level 2 Alpinestars Nucleon Back protector.
- Waist connection zipper allows attachment to Alpinestars riding pants.
- Waterproof inner wallet pocket for peace-of-mind storage.
- Inner removable thermal liner for added versatility.
- Bio Armor on the shoulders and elbow protectors for enhanced levels of protection.
- GP Lite external protection on the shoulders offers additional impact protection.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - CE Category II PPE Regulation (EU) 2016/425 – A class.
 - CE Level 2 EN1621-2:2014 Alpinestars Nucleon back protector.
 - CE Level 1 EN1621-1:2012 Alpinestars Bio Armor shoulder and elbow protectors.

AST AIR v2 JACKET

SPORT RIDING

- Tech-Air 5° ready.
- Ventilated construction offers enhanced breathability and airflow for optimized rider comfort.
- GP Lite on shoulder for additional abrasion resistance.
- Offering a personalized sports riding fit, the AST-1 v2 Air jacket is an exceptionally light and durable jacket featuring a main mesh shell for superior ventilation that is fully optimized for use with or without Tech-Air5°, Alpinestars world leading electronic airbag safety system.
- Tech-Air® 5 compatible; Tech-Air® is the world's first completely electronic, self-contained, full independent upper body motorcycle airbag system with no bike-to-rider set-up configurations required.
- Strategically positioned stretch panel inserts have been designed to accommodate Alpinestars airbag system, allowing expansion when the airbag inflates but also offering a high level of anatomical performance and a superior fit when riding without the system fitted.
- Constructed from hard-wearing 600 denier poly-fabric and incorporating extensive mesh panels strategically placed on the front, back and arms for optimum airflow performance.
- Removable Nucleon Flex protectors in the elbows and shoulders are lightweight, sleek and promote exceptional resistance against impacts.
- GP Lite on the shoulders for superior abrasion resistance in a key area.
- Chest and back pad compartments with comfort padding (Alpinestars CE-certified Nucleon back and chest protectors available as accessory upgrade).
- Sleeves feature pre-curved construction for increased comfort performance in riding position.
- Volume adjustment system on sleeves incorporates hook and loop adjustments for highly personalized fit and to help maintain positioning of elbow protector.
- Elongated rear profile and hook and loop D-ring waist adjustment for added riding comfort and customization.
- External hand pockets are zipped for a safe and secure closure.
- Textile comfort edge on collar and cuffs for comfort and moisture-wicking.
- YKK® auto locking zippers for durability and safety.
- Reflective details.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - Fully CE-certified riding garment to CE – Category II prEN17092 standards – A class
 - CE Level 1 EN1621-1:2012 Alpinestars Nucleon Flex shoulder and elbow protectors.

MISSILE v2 LEATHER PANTS

SPORT RIDING

- Premium leather main chassis constructed from 1,3 mm genuine bovine leather.
- Accordion leather stretch zones above the knee offer improved flexibility.
- Extended high rear waist construction provides greater overlap with the riding jacket.
- Large stretch panels on calf and crotch area for improved fit and feel.
- Pre-curved leg construction helps reduce riding fatigue and improves fit.
- Zippered ventilation for air cooling.
- Waist connection zipper allows attachment to Alpinestars riding jackets.
- Hook and loop ankle adjuster.
- Internal mesh lining with stretch panel inserts work in conjunction with outer stretch zones for freedom of movement.
- Hip with loop construction for hip protector available as accessory upgrade.
- Internally reinforced seat area.
- Level 1 Alpinestars GP-R protection on knee.
- Replaceable Sport knee sliders for excellent impact and abrasion resistance.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - CE Category II PPE Regulation (EU) 2016/425 – AAA class.
 - CE Level 1 EN1621-1:2012 Alpinestars GP-R knee protectors.

RAIDER v2 DRYSTAR® PANTS

ALL-WEATHER SPORT RIDING

- An excellent tailored all-weather textile pant with class-leading internal protection incorporated into its multi-panel chassis, the Raider v2 Drystar® is equipped with Alpinestars Drystar® membrane for 100% waterproofing and high levels of breathability. With a removable thermal liner, these pants can adapt to all-weather conditions and are fully compatible with Alpinestars touring jackets.
- Multi-fabric poly-shell construction for optimal combination of durability, protection and weight.
- Strategically positioned abrasion and tear resistant reinforcements offer additional durability.
- Class-leading impact protection provided by removable Alpinestars Nucleon Flex Plus knee protectors. Protectors are housed within internal mesh pockets, allowing them to be adjusted according to rider's leg length.
- Hip compartments with Alpinestars Bio-Flex hip protector compatibility for protection in a key area.
- Excellent protection against the elements provided by Alpinestars Drystar® 100% waterproof and breathable membrane.
- Removable thermal lining means pants can be worn in a variety of climatic conditions, adding to their overall versatility.
- Pre-curved legs and an articulated knee construction provide high level of comfort while accordion stretch panels on knee provides enhanced freedom of movement.
- Elongated rear for greater coverage in the riding position with comfort edges for enhanced rider comfort.
- Optimized for use with range of textile jackets, thanks to a full circumference waist zipper.
- Dynamic Flow Control (DFC) zippered thigh direct vents allow for personalized and adjustable levels of airflow.
- Extended zippered boot gussets with double adjusters ensure a tight seal around the ankle and facilitate fitting and removal.
- Integrated high visibility reflective details.
- Hook and loop waist and leg adjustments for precision fit in various riding positions.
- Premium YKK zippers used throughout garment.
- Hand pockets for safe and secure storage of valuables.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - CE Category II PPE Regulation prEN17092 – A class.
 - CE Level 2 EN1621-1:2012 Alpinestars Nucleon Flex Plus knee and Bio-Flex hip protector compatibility (not included).

SP-2 v3 LEATHER GLOVE

PERFORMANCE RIDING

- A superbly styled and anatomically profiled glove for sports or naked bike enthusiasts the SP-2 v3 Glove has a full grain leather chassis incorporating multi-panel reinforcements for abrasion resistance and fit. The SP-2 v3 Glove also features a robust TPU compound knuckle guard to significantly ramp up its protective capabilities.
- Constructed from a supple and highly durable full-grain leather chassis to provide core abrasion resistance and durability.
- Palm and finger sidewalls are reinforced with supple goat's leather for feel and performance fit.
- Main shell reinforcement is provided by leather coverage over first and second fingers and cuff.
- Synthetic suede reinforcements on palm and landing zones for maximum abrasion resistance.
- Ergonomic, advanced compound and MotoGP-derived TPU slider on palm is backed with EVA foam for impact performance.
- Alpinestars robust yet flexible compound knuckle guard provides exceptional impact and abrasion protection.
- Strategically positioned impact absorbing EVA foam for additional impact performance.
- Alpinestars patented finger-bridge prevents excessive finger roll and separation during impacts.
- Extensive sport knuckle gusset opening on thumb allows flex and freedom of movement.
- Perforated cuff, leather top panel and ventilated finger sidewalls to help keep the hands cool.
- Cuff side leather padded patches to enhance protection.
- Pre-curved finger construction reduces rider fatigue.
- Wide hook-and-loop wrist closure for easy entry and secure fastening.
- Touchscreen compatible fingertip area on index and thumb for use with smartphones and GPS systems.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - EN 13594 2015, Level 1 KP.

SP-8 v3 GLOVE

RACING / PERFORMANCE RIDING

- Integrated wrist closure for a secure fit and ease of use.
- SP knuckle offers effective protection against impacts.
- Keoprotec reinforcement on for superior abrasion resistance.
- Premium, full-grain goat leather and synthetic leather material construction is comfortable, durable and offers excellent abrasion resistance.
- Excellent repeated impact performance is offered by the advanced MotoGP-derived SP dual density knuckle protector.
- Extended cuff for greater coverage with an integrated closure for security and ease of use.
- An innovative microfiber and PU grip insert is strategically positioned on the palm and thumb for excellent levels of grip control and durability.
- Alpinestars' exclusive ergonomic stretch insert between palm and thumb offers improved range of hand movement and greater sensitivity while operating the bike controls.
- Incorporates premium quality suede palm and landing reinforcement for grip, control and durability.
- Keoprotec reinforcement on palm slider for superior abrasion resistance.
- Alpinestars' patented third and fourth finger bridge prevents seam failure and finger separation in the event of a slide.
- Perforated cuff plus perforated finger sidewalls for superb breathability.
- Velcro cuff and wrist closure, plus elasticized wrist design for secure, personalized fit.
- Pre-shaped, anatomical finger design and half inner/half outer external seams for comfort and exceptional feel.
- Touchscreen compatible fingertip on index finger and thumb for use with touchscreen devices.
- New construction for reduced seams and enhanced rider comfort.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - EN 13594 2015, Level 1 KP.

SP-8 AIR GLOVE

RACING / PERFORMANCE RIDING

- Extensive ventilation for maximum airflow.
- SP floating knuckle offers effective protection against impacts and superior rider comfort.
- Keoprotec reinforcement for superior abrasion resistance.
- A universal riding glove bristling with racing DNA, the SP-8 Air Glove is constructed from strategically perforated full grain goat leather and synthetic leather with a 3D mesh top hand for high levels of cooling airflow; perfect for warm weather riding. The SP-8 Air Glove delivers high levels of protection thanks to its advanced MotoGP-derived SP dual density floating knuckle protection. With a pre-shaped finger construction, a Velcro cuff closure and a new anatomically profiled grip insert on palm and thumb, this glove affords a secure and highly personalized performance riding fit and high levels of movement and comfort.
- Premium, full-grain goat and synthetic leather construction is comfortable, durable and offers excellent abrasion resistance.
- Extensive perforations and mesh panelling on top hand delivers exceptional levels of airflow and breathability.
- Excellent repeated impact performance is offered by the advanced MotoGP-derived SP dual density knuckle protector.
- Extended cuff for greater coverage with an integrated closure for security and ease of use.
- An innovative microfiber and PU grip insert is strategically position on palm and thumb for excellent levels of grip control and durability.
- Alpinestars' exclusive ergonomic stretch insert between palm and thumb offers improved range of hand movement and greater sensitivity while operating the bike controls.
- Incorporates Keoprotec landing reinforcement for enhanced abrasion resistance and durability.
- Alpinestars' patented third and fourth finger bridge prevents seam failure and finger separation in the event of a slide.
- Perforated cuff, plus perforated finger sidewalls for superb breathability.
- Velcro cuff and wrist closure, plus elasticized wrist design for secure, personalized fit.
- Pre-shaped, anatomical finger design and half inner/half outer external seams for comfort and exceptional feel.
- Touchscreen compatible fingertip on index finger and thumb for use with touchscreen devices.

SMX 6 v2 GORE-TEX BOOT

ALL-WEATHER PERFORMANCE RIDING

- Newly designed boot upper incorporates innovative front, rear below and rear calf zones.
- Main upper material constructed from advanced microfiber for durability and abrasion resistance, plus a waterproof and highly breathable Gore-Tex liner for excellent all-weather performance.
- Ergonomic new last for forefoot streamlining to enable greater control of the bike's controls.
- Alpinestars innovative TPU lateral ankle brace protection provides a biomechanical support between lateral top calf/shin and ankle and offers improved structural integrity.
- Alpinestars new and exclusive compound rubber sole promotes improved feel and grip, water dispersion and durability.
- Air vents on the heel counter and shin plate improves cooling comfort on short and long rides.
- High modulus TPU injected shin guard, calf protector, heel counter and shift pad.
- Double density ankle protector on medial side layered under the upper offers protective performance.
- Innovative instep and Achilles accordion flex zone construction.
- Internal insole with the shank reinforcement integrated for support to the arch area and foot protection.
- Medial side entry opening/closure system features elastic-mounted zipper with wide hook and loop closure.
- Internal toe box protection is layered under the upper for durability, improved feel and performance.
- New, dual compound removable anatomic footbed includes EVA and lycra.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product: EN 13634:2010.

SMX S BOOT**PERFORMANCE RIDING**

- Durable microfiber upper construction offering superb levels of flexibility and comfort.
- Ergonomic new last for forefoot streamlining to enable greater control of the bike's.
- New TPU shin plate protector is race-derived for superior impact and abrasion resistance.
- Lateral TPR-injected ankle support construction offers optimized levels of protection and stability.
- TPU double density ankles protectors are layered under the upper in both lateral and medial side.
- Breathable textile interior lining.
- Integrated, replaceable bi-injected TPU slider features new easy no-screw fixing concept.
- Shift pad made from TPU incorporates technical texturing for protection and grip.
- Medial side entry opening/closure system features elastic-mounted zipper with wide hook and loop closure.
- Internal toe box protection is layered under the upper for durability, improved feel and performance.
- New, dual compound removable anatomic footbed includes EVA and Lycra.
- Alpinestars new and exclusive compound rubber sole.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - EN 13634:2017.

SMX1-R v2 BOOT**ALL-WEATHER PERFORMANCE RIDING**

- A class-leading, low-cut performance riding boot, the SM-1 R v2 Riding Shoe incorporates a host of technical innovations for improved levels of comfort, fit and durability. Constructed from a lightweight and abrasion-resistant microfiber upper and reinforced with strategically positioned TPU protectors, the SMX-1 R v2 Riding Shoe features a rubber compound sole with superior grip patterning for excellent grip both on and off the bike, while the accordion flex zones give support and control regardless of your riding position.
- Main upper constructed from an advanced microfiber for comfort, durability and excellent of abrasion resistance.
- Innovative heel counter support system, which works in conjunction with a strap closure to offer improved fit and support, as well as structural integrity.
- Rear of heel counter has been designed with soft TPR insert which works seamlessly with the rear flex zone to allow for improved freedom of ankle movement and comfort on the bike's controls.
- Rear flex bellow is equipped with a flex window, which also acts as an air intake for effective ventilation and airflow.
- New ergonomic TPU shift pad for enhanced durability in a critical area.
- Ergonomic boot shaping for forefoot streamlining which offers wide-ranging foot profile fit and comfort.
- Evolved closure strap is anatomically angled to follow natural shape of rider's instep.
- Front Velcro® closure system offers a quick and secure fit over the instep area while permitting excellent levels of flex. Strap features TPR puller for ease of use.
- Aramid fiber wires ensure the new strap closure system is durable, thin and lightweight.
- Alpinestars exclusive compound rubber sole with grip patterning to promote improved feel and grip, water dispersion and durability.
- Sole features integrated Alpinestars TPF (Transversal protection Frame) to protect against possible transversal loads.
- Instep and Achilles' accordion flex zones are constructed from lightweight microfiber for optimized levels of durability, comfort and maneuverability on and off the bike.
- Thermowelded flex grooves to control the flexion and flexibility of the shoe; instep, medial and back.
- Reverse zip closure ensures convenient in and out.
- Double density ankle protector on both sides layered under the upper offers protective performance and abrasion resistance in key area.
- Integrated, replaceable bi-injected TPU forefoot slider features new easy-screw fixing concept for quicker and easier replacement.
- External, high modulus TPU heel counter, lateral ankle and shift pad for improved shock protection and durability.
- Internal toe box protection is layered under the upper for durability, improved feel and performance.
- Removable anatomic foot-bed includes EVA foam and Lycra® for comfort and support.
- Internal mesh lining for cooling comfort and moisture-wicking.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply:
- CE EN13634:2017.

SP-1 v2 RIDING SHOE**ROAD RIDING**

- The main upper material is microfiber.
- Tongue and rear accordion made by lightweight padded material that offer superior comfort.
- Airflow and ventilation are improved thanks to lateral Air Intake with metallic mesh.
- New speed lace system derived from Alpinestars MOTOGP technology for improved quick precise and secure closure.
- Higher closure system with new adjustable hook-and-loop closure and debossed Alpinestars logo.
- Foam backed double density ankles disk protection are mounted under the upper plus lateral outer TPR guards provide all-round strategic protection and flexibility in keys area.
- External TPR toe reinforcement helps protect against abrasion and gives greater stability.
- Welded reflective insert on rear improves night time visibility.
- TPU heel counter protects from impact and abrasion.
- Internal toe box reinforcement layered under the microfiber.
- Breathable textile lining with anti-sliding microfiber suede on the heel.
- Removable anatomic EVA foam footbed.
- Alpinestars exclusive vulcanized rubber compound sole.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - EN 13634:2017.

FASTER-3 RIDEKNIT RIDING SHOE

ROAD RIDING

- Main upper material combination of advanced microfiber, knitted mesh and seamless thermo-welded microfiber forms an innovative and technical finish.
- Lower tongue, lateral and medial quarter in knitted mesh construction allows breathability, comfort and a modern streetwear look.
- Air vent details on lateral and toe area are strategically positioned to improve airflow and ventilation.
- Enhanced TPU ankle extended into lower lateral area gives improved support and protection.
- TPR slider details on lateral toe box gives increased flex and protection.
- New TPR heel counter design ensures additional lateral support and security.
- Asymmetric toe design gives protection on shift area.
- Traditional lace closure system for an easy, secure and comfortable fit.
- Lateral adjustable hook and loop closure system with TPR strap for increased security.
- Medial dual density ankle protectors are applied between the upper and padded lining to provide strategic protection and flexibility in key areas.
- Tongue and collar padding provides high levels of comfort and fit around the ankle and instep.
- Internal toe box and heel counter reinforcement is layered under the upper for a more ergonomic design.
- 3D mesh lining for high levels of breathability with anti-slip micro-suede in the heel.
- Replaceable anatomical EVA footbed with Lycra lining on top.
- Extremely lightweight, specifically compounded, rubber sole provides textured grip, excellent absorption and features an integrated support shank for enhanced sole rigidity.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product: EN 13634:2017.

NUCLEON KR-2 PROTECTOR PROTECTION

- Back protector developed in three waist to shoulder dimensions in order to cover all the body sizes.
- Back shell plate is constructed from a high performance polymeric material blend for optimized flexibility and excellent weight-saving properties.
- Soft viscoelastic compound developed for all the Nucleon protectors 2018.
- Hybrid construction: lattice shell with a new viscoelastic PU foam compound.
- Single injected lattice structure shell constructed with ergonomic design to absorb high impacts and allow maximum breathability and air flow.
- In combination with the Nucleon, PU foam on the central spine area offers extraordinary performance on impact absorption.
- Additional convex design on the central hard shell provides highest protection of the spine.
- Horizontal flex groves for an adaptive fit in all riding positions.
- Adjustable rib protector made by a high performance polymeric material blend for additional side protection.
- Shoulder blade protective padding extensions to protect the acromion bones.
- Waist adjustment for customized fit and slim vented kidney belt for added position stability and security.
- Adjustable and detachable elastic shoulder straps via snap fit system to allow a more comfortable use of the protector.
- Compatible with the Nucleon KR-C protector.
- Compatible with the Nucleon KR-TB protector.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
- Back protector according with the EN 1621-2 : 2014 Level 2.

NUCLEON KR-CELL CIR PROTECTOR

PROTECTION

- The Nucleon KR-CELL CIR has been designed to offer protection to track and sports bike riders while ensuring maximum levels of breathability and comfort.
- The Nucleon KR-CIR is a high performance, super lightweight track and race chest protector featuring the Nucleon Cell technology.
- The double-layered chest shell plate is constructed from a high performance polymeric material blend for optimized flexibility and excellent weight saving properties.
- The chest protector's structure design and structure changes from the centre towards the outside and provides the perfect balance between force dispersion and energy absorption.
- Unique CELL microstructure is designed for advanced energy absorption, adaptivity, maximum breathability and air flow.
- Ergonomic protection plate contours to the natural curve of the back ensuring optimum fit while riding.
- Soft comfortable airmesh on the body side of the protector offers maximum breathability and rider comfort.
- According to European statutory law the CE mark is a conformity requirement for the marketing of the product. The following standard applies:
 - Level 2 EN 1621-3:2018

NUCLEON KR-2 PROTECTOR

PROTECTION

- Extremely lightweight, flexible and ergonomically profiled for an optimized anatomical fit the NUCLEON
- KR-2i incorporates an airflow system for cooling and comfort.
- The highly protective NUCLEON KR-2i back protector is quick and convenient to insert and fits
- unobtrusively within a rider's jacket or suit for the ultimate in safety performance.
- Comes in international sizes S,M,L.
- According to European statutory law the CE mark is a conformity requirement for the marketing of the product.
- The following standard apply:
 - Level 2 EN 1621-3:2018

NUCLEON KR-CELLi PROTECTOR

PROTECTION

- The super lightweight back protector insert is developed in three waist-to-shoulder dimensions in order to cover all the body sizes.
- The triple segmented back shell plate is constructed from a high performance polymeric material blend for optimized flexibility and excellent weight saving properties.
- The back protector's structure design and structural change from the center towards the outside provides the perfect balance between force dispersion and energy absorption.
- Unique CELL microstructure designed for advanced energy absorption, adaptivity, maximum breathability and air flow.
- Ergonomic protection plate contours to the natural curve of the back ensuring optimum fit while riding.
- Horizontal flexion grooves for an adaptive fit in different riding position.
- Soft comfortable airmesh on the body side of the protector offers maximum breathability and rider comfort.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - Back protector according with the EN 1621-2 : 2014 Level 1.

STELLA SMX-1 R v2 BOOT**WOMEN'S PERFORMANCE RIDING**

- A class-leading, low-cut performance riding boot, the Stella SM-1 R v2 Riding Shoe incorporates a host of technical innovations for improved levels of comfort, fit and durability. Constructed from a lightweight and abrasion-resistant microfiber upper and is reinforced with strategically positioned TPU protectors the Stella SMX-1 R v2 features a rubber compound sole with superior grip patterning for excellent grip both on and off the bike, while the accordion flex zones give support and control regardless of your riding position.
- Anatomically engineered for an optimized women's fit.
- Main upper constructed from an advanced microfiber for comfort, durability and excellent of abrasion resistance.
- Innovative heel counter support system, which works in conjunction with a strap closure to offer improved fit and support, as well as structural integrity.
- Rear of heel counter has been designed with soft TPR insert which works seamlessly with the rear flex zone to allow for improved freedom of ankle movement and comfort on the bike's controls.
- Rear flex bellow is equipped with a flex window, which also acts as an air intake for effective ventilation and airflow.
- New ergonomic TPU shift pad for enhanced durability in a critical area.
- Ergonomic boot shaping for forefoot streamlining which offers wide-ranging foot profile fit and comfort.
- Evolved closure strap is anatomically angled to follow natural shape of rider's instep.
- Front Velcro® closure system offers a quick and secure fit over the instep area while permitting excellent levels of flex. Strap features TPR puller for ease of use.
- Aramid fiber wires ensure the new strap closure system is durable, thin and lightweight.
- Alpinestars exclusive compound rubber sole with grip patterning to promote improved feel and grip, water dispersion and durability.
- Sole features integrated Alpinestars TPF (Transversal protection Frame) to protect against possible transversal loads.
- Instep and Achilles' accordion flex zones are constructed from lightweight microfiber for optimized levels of durability, comfort and maneuverability on and off the bike.
- Thermowelded flex grooves to control the flexion and flexibility of the shoe; instep, medial and back.
- Reverse zip closure ensures convenient in and out.
- Double density ankle protector on both sides layered under the upper offers protective performance and abrasion resistance in key area.
- Integrated, replaceable bi-injected TPU forefoot slider features new easy-screw fixing concept for quicker and easier replacement.
- External, high modulus TPU heel counter, lateral ankle and shift pad for improved shock protection and durability.
- Internal toe box protection is layered under the upper for durability, improved feel and performance.
- Removable anatomic foot-bed includes EVA foam and Lycra® for comfort and support.
- Internal mesh lining for cooling comfort and moisture-wicking.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply:
 - CE EN13634:2017.

T-SP5 RIDEKNIT JACKET

SPORT RIDING

- Tech-Air 5® ready.
- Knit construction offers enhanced breathability and flexibility for optimized rider comfort.
- DFS Lite in key areas for additional abrasion resistance.
- With a highly durable and abrasion poly-fabric main shell and subtly incorporated class-leading Nucleon Flex Plus protection, the T-SP5 Rideknit Textile Jacket is designed to keep you safe and comfortable as you hold the throttle open. Fully optimized for use with or without Tech-Air5®, Alpinestars world leading electronic airbag safety system, this universal, sports fit riding jacket is equipped with knitted technology fabric on the seam area for maximum stretchability, thus optimizing fit and comfort, while zippered air intakes provide crucial ventilation.
- Knitted design textile jacket designed with a body mapped fit and pre-curved sleeves and body for optimal riding performance.
- Strategically positioned stretch panel inserts have been designed to accommodate Alpinestars airbag system, allowing expansion when the airbag inflates.
- Chassis constructed from hard wearing poly-fabric for comfort, durability and abrasion resistance.
- Large mesh panel on back of collar for optimized levels of airflow.
- Level 1 Nucleon Flex Plus armor on shoulder and elbow (Nucleon chest Level 1 and Nucleon Level 1 and 2 back protectors available as an accessory upgrade).
- DFS Lite shoulders with dynamic friction shield on shoulder for enhanced abrasion resistance.
- Rear of the jacket is elongated for enhanced coverage when riding.
- Knitted technology fabric on seam area for maximum stretchability, thus optimizing fit and comfort.
- Stretch knitted panels on arm pit, inner arms and torso for an optimized fit and performance.
- Hook and loop waist and cuff with semi-automatic zip for a secure closure.
- Multiple pockets on the liner for safe and secure storage.
- Large tooth Vislon main zipper for ease of use, even with gloved hands.
- Loops allow attachment to Alpinestars riding pants.
- Woven camouflage print for lightness and flexibility, thus improving comfort while giving the jacket a distinctive, unique look.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - Fully CE-certified riding garment to CE – Category II prEN17092 standards – A class
 - CE Level 1 EN1621-1:2012 Alpinestars Nucleon Flex Plus shoulder and elbow protectors.

T-SP5 RIDEKNIT PANTS

SPORT RIDING

- Knit construction offers enhanced breathability and flexibility for optimized rider comfort.
- Nucleon Flex Plus armor in key areas for the ultimate in rider protection and comfort.
- Tapered fit design for an optimal fit with riding footwear.
- With a highly durable and abrasion resistant poly-fabric construction and subtly incorporated class-leading GP-R Nucleon Flex and Bio Flex protectors, the Rideknit Textile Pants feature a modern silhouette and are tapered to fit with sports riding footwear. Fully optimized for sports and performance riding, these pants have a unique knitted technology fabric on the seam area for maximum stretchability, thus enhancing fit and comfort.
- Chassis constructed from hard wearing poly-fabric for comfort, durability and abrasion resistance.
- Knitted design textile pants with pre-curved knees for optimal riding performance.
- Optimized for comfort and performance, the pants are tapered for a seamless fit with sports riding footwear.
- Knitted technology fabric on seam area for maximum stretchability, thus optimizing fit and comfort.
- Single crotch panel for additional rider comfort.
- Rear of pants is elongated, giving a high back profile for enhanced coverage when riding.
- Knitted technology fabric on seam area for maximum stretchability, thus optimizing fit and comfort.
- Ergonomic pre-curved knee construction reduces rider fatigue.
- Hook and loop waist adjustment for a secure closure.
- Two front thigh pockets for real-world practicality.
- Elasticated ankle panel for quick and easy on/off.
- Front fly with button for a secure closure.
- Equipped with a short cord to tighten the calf, allowing riders to optimize the fit.
- Waist connection zipper allows attachment to Alpinestars riding jackets.
- Woven camouflage print for lightness and flexibility, thus improving comfort while giving the jacket a distinctive, unique look.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:

CERIUM TECH-STRETCH DENIM

URBAN RIDING

- The Cerium Tech Stretch Denim Pant is an excellent urban commuting jean that fuses class-leading protection for the knee in an ergonomic, slim fit denim design. With its pre-shaped leg construction and quality denim fabric (12oz cotton and elastane) the Cerium Tech Stretch Denim Pant features a stretch layer for the optimal fit.
- Extremely compact mono-layer fabric construction uses fine yarns in weft and warp for reduced material volume and superior mechanical performance.
- The elastomer present in the weft ensures elongation for a guaranteed temporary deformability as the user moves, returning to its natural position when the movement stops, for superior rider comfort.
- Basic indigo color with a black sulphur overcoating gives this denim a dark, uniform and at the same time three-dimensional look.
- Slim fit with stretch denim layer for enhanced levels of comfort.
- Nucleon Plus knee armor allows high levels of movement and has a slim design to ensure the protector is discreet off the bike.
- Triple stitched seams for strength and durability.
- Classic five pocket detailing.
- Stitched rivets.
- Reflective label.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - CE Category II PPE Regulation prEN 17012 draft standards – Level A.
 - CE Level 1 EN1621-1:2012 Alpinestars Nucleon Plus knee protectors.

JUGGERNAUT RIDING PANTS

CR-X DRYSTAR® RIDING SHOE

ALL-WEATHER ROAD RIDING

- Drystar® membrane offers effective weather protection in wet conditions.
- The sole unit 'DROP' (or, the off-set between heel and toe) is set at 9 mm (many running shoes have a 9 mm drop) to ensure a smooth heel-to-toe transition when walking.
- Features an EVA midsole provides for excellent all-day underfoot comfort.
- Forefoot Flex grooves are engineered into the midsole for enhanced forefoot comfort (the grooves promote flexing in the forefoot area).
- Full-length TPU CE-certified inner sole plate for superior riding protection and a dynamic heel-to-toe transition when walking.
- Asymmetric outsole stud configuration provides excellent levels of grip and abrasion resistance.
- Oil resistant dual rubber compound provides optimized grip on unclean/slippery surfaces.
- Removable Ortholite insock provides long lasting comfort and prevents over heating thanks to the Open Cell PU compound.
- Hidden asymmetric lateral and medial TPU ankle discs for effective but discreet ankle protection.
- Lightweight inner bootie with minimal construction design for a comfortable, glove-like fit.
- Tongue with bellows construction has been designed to remain in position when riding for a snug, secure fit.
- Gear shift zone features a highly abrasive-resistant TPU layer for enhanced durability.
- Internal EVA layer sandwiched between outer and inner materials reduces pressure on the foot in the gear shift area, thus ensuring superior rider comfort.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply:
 - CE EN13634:2017.

PRIMER RIDING SHOE**ROAD RIDING**

- A CE-certified riding shoe which can be worn off the bike casually for off bike urban activities. The Primer boasts a casual last which gives it an excellent spongy underfoot feel for all-day comfort.
- Snug fit coupled with ample inner volume creates a shoe which offers exceptional all-round foot comfort.
- Flex grooves on foot front offer enhanced levels of flex while walking.
- CE-certified TPU full length plate for protection and improved foot comfort.
- Outsole has an asymmetric stud configuration which provides excellent levels of grip and high abrasion resistance.
- Oil resistant dual rubber compound for optimized grip on unclean/slippy surfaces.
- The increased medial sole edge radius enables easy movement on the bike's pegs.
- Fore foot and rear foot bumpers for added stability, protection and durability.
- Open Cell PU removable Ortholite technical insock for easy step in and enhanced comfort.
- Open cell PU polyurethane compound ensures high levels of breathability, thus reducing overheating when worn.
- Nubuck leather quarters on upper for feel, stability and enhanced levels of abrasion resistance.
- Tongue has been designed to remain in position when riding for a snug, secure fit.
- Asymmetric rubber layer on fore foot for additional durability in the gear shift area.
- Internal EVA patch material between outer and inner materials reduces pressure on foot in the gear shift area for optimized levels of comfort.
- Open cell PU foam ankle protector for additional protection.

J-6 WATERPROOF CANVAS RIDING SHOE

ALL-WEATHER ROAD RIDING

- A riding shoe that looks like a sneaker, the J-6 Waterproof Shoe has all the safety features of a motorcycle boot. Constructed from luxurious and high quality leather and canvas, the shoe has a waterproof membrane and an advanced rubber sole for maximum durability and grip. It is also equipped with inner ankle and heel protection to provide cushioning and impact absorption, making this shoe perfect on the bike and for everyday use.
- Lightweight, street-styled upper combining full grain leather and canvas for optimized comfort, durability and look.
- Waterproof membrane subtly built into chassis for 100 per cent performance against wet penetration.
- Top tongue and collar constructed from leather for enhanced comfort, durability and luxurious feel.
- Metal eyelet lacing closure on instep for easy, secure and comfortable fit.
- Dual density and ergonomic MX-derived ankle and upper heel insert is applied between the upper and padded lining to provide complete strategic protection and flexibility in key areas.
- Padding on tongue and heel area provides high levels of comfort and fit around the ankle and instep.
- Advanced rubber compound cup sole is molded to the upper to offer stability, grip, support and durability.
- Reinforced midsole inserted between the upper and the sole for structural strength and durability.
- Removable and replaceable EVA and Lycra® foot-bed is anatomically profiled for added comfort and support.
- Internal toe box and heel counter reinforcement is layered under the upper for a more ergonomic design.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply:
 - CE EN13634:2017.

META TRAIL SHOE

WALKING / CASUAL / SPORT

- Designed for mechanics and teams looking for good all-day comfort and occasional off-road running.
- Easy to slip on design with large toebox that allows the toes to spread when kneeling for greater levels of comfort.
- EVA insert located in main midsole beneath the heel provides long lasting softness.
- Midsole wall wrapping snugly secures the foot and provides good stability and comfort.
- Oil resistant rubber sole improves grip on dirty surfaces.
- Removable inner sock with open cell PU compound provides high breathability, which reduces overheating, offers high durability and superb overall comfort.
- Lightweight minimal construction combined with quarter panel for enhanced foot stability and protection.
- 360° tongue configuration ensures a 'glove' like fit.
- Dual density PU foam is anatomically positioned to hold the ankle securely in place.

KETCHUM GORE-TEX JACKET

ALL-WEATHER RIDING / ADVENTURE TOURING

- Tech-Air® 5 ready.
- The road-orientated Ketchum Gore-Tex Jacket is a lightweight jacket designed to offer effective all-weather protection. The technically advanced construction of this jacket offers protection and abrasion resistance, while the fixed Gore-Tex waterproof and breathable LTD liner ensures excellent performance in all conditions.
- Lightweight design and lightweight materials offer low weight and excellent protection against the elements, while the technically-advanced fabric offers exceptional abrasion resistance.
- GP Lite shoulder cup for effective protection against impacts.
- Elongated touring length rear extended coverage when riding.
- Easy-to-open, -secure and -close direct ventilation ports for high levels of airflow.
- Discreet, hidden ventilation ports for enhanced breathability and back ventilation ports with shock cord for an easy opening.
- Removable thermal jacket allows the jacket to be adapted to any weather condition.
- Ergonomic stretch panels around armpit for enhanced fit and rider comfort.
- Magnetic engagement large tooth zipper for ease of use.
- Six pockets for convenient and secure storage.
- Arm and waist adjuster mechanisms ensure the optimal fit when riding.
- Reflective details.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - CE Category II PPE Regulation prEN17092 – AA class.
 - CE Level 2 EN1621-2:2014 Alpinestars Nucleon back protector, available as an accessory upgrade.
 - CE Level 2 EN1621-1:2012 Alpinestars Nucleon Flex Plus shoulder and elbow protectors.

ANDES v3 DRYSTAR® JACKET

ALL-WEATHER RIDING / ADVENTURE TOURING

- Designed using Alpinestars exclusive Drystar® construction, the Andes v3 Drystar® Jacket offers 100% waterproofing and high levels of breathability, even in difficult riding conditions. The technically advanced construction of this jacket offers protection and abrasion resistance and is adaptable to all-weather conditions.
- Tech-Air® 5 ready.
- Constructed with an advanced reinforced polyfabric textile for durability and a Drystar® waterproof and breathable membrane for 100 per cent waterproof performance in wet weather conditions.
- Newly developed direct ventilation system (DVS) zippered chest air intakes and back exhaust ports for high levels of airflow.
- Internal impact protection provided by removable elbow and shoulder protectors.
- Chest and back compartments can accommodate the Nucleon chest and back inserts (available as an accessory upgrade).
- Reinforced polymer-printed texturing in critical elbow and lower arm areas for enhanced abrasion resistance.
- Reflective details.
- Upper chest zippered hand pockets work in tandem with the direct ventilation openings to ensure personalized levels of cooling airflow.
- Front waterproof cargo pockets for convenience and peace-of-mind closure.
- Large, external utility pocket on lower back plus internal pockets and a waterproof wallet pocket for real-world practicality.
- Integrated soft edge collar and 3D mesh construction for enhanced comfort over long distances.
- Premium YKK zipper for main front closure offers adaptable, secure and convenient closure.
- Removable long-sleeve thermal liner (100g body 80g sleeves) ensures comfort on hot or cold days.
- Pre-contoured sleeves with stretch panels on elbows for comfort and freedom of movement.
- Hook and loop-closing waist adjustment belt ensures a highly customizable fit.
- External zippered chest pockets and cargo pockets for safe peace-of-mind storage.
- Shock cord on adjustment on inner bottom for an optimal fit.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - Fully riding garment to CE – Category II prEN17092 draft standards – A class.
 - CE Level 2 EN1621-2:2014 Alpinestars Nucleon back protector, available as an accessory upgrade.

ALL-WEATHER RIDING / ADVENTURE TOURING

- Designed using Alpinestars Drystar® construction, the Andes v3 Pant offers 100% waterproofing and high levels of breathability. With added protection in strategic areas, these pants can adapt to all-weather conditions and are fully compatible with the Andes Drystar® Jacket.
- Constructed with an advanced reinforced polyfabric textile for durability and Alpinestars exclusive Drystar® membrane for 100 per cent waterproof performance in wet weather conditions.
- Removable long thermal liner allows the pants to be adapted to suit the weather conditions.
- Efficient direct ventilation ports strategically positioned on thighs for high levels of airflow.
- Pre-contoured leg construction with knee stretch panels insert for optimum riding comfort.
- Tapered touring fit for enhanced comfort when riding.
- Interior hip pad compartments. (Bio-Flex inserts available as an accessory upgrade).
- Removable and positional-adjustable knee protectors ensure superior protection against impacts.
- Reinforced polymer-printed texturing in critical knee areas for added abrasion resistance.
- Integrated reflective details.
- Adjustment waist system features buckle and stretch material for an optimized fit.
- Zippered air intakes for effective internal temperature control.
- Cargo-style pockets for real-world practicality.
- Adjustable, removable bib braces for an improved comfort fit while also ensuring the pants remain in position.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - CE Category II PPE Regulation prEN17092 – A class.
 - CE Level 1 EN1621-1:2012 Alpinestars Nucleon Flex Plus knee with Bio-Flex hip protector compatibility (Bio-Flex hip protectors are available as an accessory upgrade).

GUNNER v2 WATERPROOF JACKET

ALL-WEATHER RIDING / TOURING

- Multi-fabric shell construction with abrasion resistant material inserts
- Padded elbow accordion helps movement and comfort on the bike
- Waist adjustment for improved riding fit
- Multiple volume adjusters on sleeves
- Two zippered hand pockets
- Zippered air intake vents are strategically positioned for optimized airflow when opened
- Low profile collar construction with 3D textured comfort fabric on inner collar lining
- Pre-curved sleeve construction reduces fatigue
- Chest and back pad compartments can accommodate the Nucleon chest and back protector, available as accessory upgrade.
- Removable thermal liner with micro polar fleece lining
- Fixed waterproof membrane
- Microfiber comfort edge on collar and cuffs
- Front inner waterproof pocket
- Waist connection zipper allows attachment to Alpinestars riding pants
- Reflective details.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - CE Category II PPE Regulation (EU) 2016/425 – A class.

JET ROAD v2 GORE-TEX GLOVE WITH GORE GRIP TECHNOLOGY

ALL-WEATHER RIDING

- Combination of stretch polyamide fabric and softshell on the backhand.
- Stretch fourchettes and sidewall.
- Goat skin for palm and thumb and details on backhand.
- Thumb and palm reinforcement for a superior grip.
- Synthetic leather reinforcements with padding on the palm and outer hand landing zone to provide abrasion resistance on key impact zones.
- Ergonomic wrist closure on backhand and large cuff closure.
- Arshield abrasive resistant fabric on little finger.
- Padding on fingers for fit and comfort.
- Reflective piping.
- Touchscreen compatible fingertips.
- PU covered hard knuckle for class-leading protection.
- Gore-Tex waterproof and breathable membrane with Gore Grip technology.
- Leather accordions on fingertips to increase flexibility and fit.
- Patented 3rd and 4th finger bridge prevents finger roll.
- Long cuff for extended coverage.
- PrimaLoft® lining 100g for excellent thermal properties.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
- CE Level 1 EN13594:2015, KP.

WR-1 v2 GORE-TEX GLOVE WITH GORE GRIP TECHNOLOGY

ALL-WEATHER RIDING / ADVENTURE TOURING

- The WR-1 v2 Gore-Tex Glove offers high levels of weather protection when touring. Featuring a textile and leather construction with sturdy knuckle protection, palm slider and a finger bridge on the third and fourth fingers, this glove is practical too; it comes equipped with touchscreen compatible fingertips for use with GPS systems and smartphones.
- Combination of leather and softshell on the backhand for high levels of durability and rider comfort.
- PrimaLoft Silver 80g insulation on top hand and Gold Eco 60g on palm with Grip Control offer excellent thermal properties.
- Stretch fourchettes for comfort and flexibility.
- Thumb and palm reinforcement for a superior grip.
- Synthetic leather reinforcements with viscoelastic palm absorber to provide superior abrasion resistance on the key impact zones.
- Ergonomic wrist closure and large cuff closure for ease of use.
- Soft padding on thumb for an enhanced fit and comfort.
- Reflective piping on backhand and finger.
- Touchscreen compatible fingertips.
- Covered hard knuckle for class-leading impact protection.
- Gore-Tex waterproof and breathable membrane for effective all-weather performance with Gore Grip technology.
- Accordions on finger and backhand for enhanced flexibility and fit.
- Finger bridge on third and fourth finger prevents finger roll and separation in an impact.
- Long cuff for extended coverage.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
- CE Level 1 EN13594:2015, KP.

COROZAL v2 DRYSTAR® GLOVE

ALL-WEATHER RIDING / ADVENTURE TOURING

- The Corozal v2 is a durable, multi-panel poly-fabric and leather short-cuff glove incorporating Alpinestars 100 per cent waterproof and breathable Drystar® performance membrane for excellent performance in the wet. This glove features class-leading safety features such as the over-molded hard knuckle protector and EVA foam padding reinforcements.
- Durable softshell stretch poly-textile upper with goat leather palm and back hand panels for optimized levels of abrasion resistance and comfort.
- Constructed using Alpinestars' Drystar® performance material technology, which incorporates a bonded layer construction to offer a reduced material chassis which promotes high levels of comfort, tactility and sensitivity on the bike's controls, high levels of durability and excellent windproofing performance.
- Over-molded polymer hard knuckle protector offers class-leading protection against impact and abrasion.
- Rubber thumb and palm reinforcement gives extra grip on the controls while offering great seam reinforcement and durability.
- EVA padding reinforcements on outer hand, fingers and palm provides strategic abrasion resistance and improved fit.
- Touchscreen compatible fingertips for use with smartphones/tablets/GPS systems.
- Pre-curved glove construction improves comfort and prevents hand muscle fatigue on longer journeys.
- Accordion stretch inserts for excellent lever control and dexterity.
- Short cuff design with hook-and-loop cuff closure for easy entry. Cuff is designed to fit under sleeve jacket for comfort.
- Available in international sizes S-3XL.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - CE Level 1 EN13594:2015, KP.

TOURER W-7 DRYSTAR® GLOVE

ALL-WEATHER RIDING / ADVENTURE TOURING

- Warm winter and waterproof glove with Alpinestars exclusive Drystar® membrane for high levels of breathability.
- Long Touring style cuff for extended coverage.
- Hard knuckle covered with leather for protection against repeated impacts.
- Mix of leather and softshell for comfort and durability.
- Reflective print.
- Thinsulate 150g tophand and Thinsulate 100g palm for high levels of warmth.
- Thin cuff closure flap and webbing wrist closure for security and ease-of-use.
- Side reinforcements.
- Padded fingers.
- Thumb and palm reinforcement for a superior grip.
- Ergonomic stretch insert on palm, fingers and backhand for better flexibility.
- Touchscreen compatible fingertips.

COROZAL ADVENTURE DRYSTAR® OILED LEATHER BOOT

ALL-WEATHER RIDING / ADVENTURE TOURING

- The upper is constructed from full grain oiled leather on lower medial panel, both with heat press texture for superior grip.
- Front and rear bellow made with lightweight microfiber for more durability and abrasion resistance.
- Extended PU coated leather gaiter helps seal out excessive water and dirt entry; rear gaiter includes rubber insert for flexibility and comfort.
- TPU shin plate and calf plate offer support and resistance for impacts.
- Bio-mechanical lateral "flexi-blade" system provides excellent front and rear movement while offering support and protection to the ankle.
- TPU shift pad made with technical texture for added grip plus foam padding on underneath for better comfort.
- Wide entry aperture for convenience with hook and loop upper closure flap to allow broad ranging calf fit adjustment.
- TPU double density ankles protector on medial side for protection.
- New closure system includes 2 polymer buckles with an innovative closure system. This closure includes a ratchet with memory and a quick release/locking system with self-aligning design for easy, precise closure.
- Soft foams surrounds the ankles and collar offer comfort and shock absorbing performance.
- Drystar® membrane layer between upper and lining for proven performance in difficult weather conditions.
- Toe box and heel counter reinforcement are layered under the upper.
- PP insole with steel shank co-injected for excellent feel and safety.
- Alpinestars exclusive vulcanized rubber plus injected PU midsole designed for optimal combination of comfort and grip.
- Replaceable anatomical EVA footbed with Lycra® lining on top.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product: EN 13634:2017.

ALL-WEATHER RIDING / ADVENTURE TOURING

- The upper is constructed from PU coated leather on lower medial panel, both with heat press texture for superior grip.
- Front and rear bellow made with lightweight microfiber for more durability and abrasion resistance.
- Extended PU coated leather gaiter helps seal out excessive water and dirt entry; rear gaiter includes rubber insert for flexibility and comfort.
- TPU shin plate and calf plate offer support and resistance for impacts.
- Bio-mechanical lateral flex-blade system provides excellent front and rear movement while offering support and protection to the ankle.
- TPU shift pad made with technical texture for added grip plus foam padding on underneath for better comfort.
- Wide entry aperture for convenience with hook and loop upper closure flap to allow broad ranging calf fit adjustment.
- TPU double density ankles protector on medial side for protection.
- New closure system includes two polymer buckles with an innovative closure system.
- This closure includes a ratchet with memory and a quick release/locking system with self-aligning design for easy, precise closure.
- Soft foam surrounds the ankles and collar offer comfort and shock absorbing performance.
- Drystar® membrane layer between upper and lining for proven performance in difficult weather conditions.
- Toe box and heel counter reinforcement are layered under the upper.
- PP insole with steel shank co-injected for excellent feel and safety.
- Alpinestars exclusive vulcanized rubber plus injected PU midsole designed for optimal combination of comfort and grip.
- Replaceable anatomical EVA footbed with Lycra® lining on top.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product: EN 13634:2010.

WEB GORE-TEX BOOT

ALL-WEATHER RIDING / TOURING

- Highly specified Touring GORE-TEX boot for long distance road, work in all-weather conditions.
- Leather construction gives excellent durability and long lasting comfort.
- Full GORE-TEX internal membrane ensures 100% waterproof performance and a high level of breathability.
- The boot shaping is engineered to give form fitting comfort for long days on the bike with a toe box construction to improve riding control.
- Extensive front and rear accordion microfiber flex zones offer fluid forward and back movement.
- Side entry system with elastic mounted zipper and wide hook and loop flap for convenience and a precise, secure, fit.
- Hook and loop tab locks the zip pull closed, keeping it flat and secure.
- Double density ankle disk protection is mounted under the leather in both lateral and medial sides.
- TPU shift pad protects the upper foot.
- Internal shock resistant shin reinforcement mounted under the leather with heat pressed Astars logo.
- Rear reflective insert for a better visibility.
- Textile collar inner lining is comfortable and durable.
- Robust internal toe box and heel counter provide impact protection and structure to the foot hull of the boot.
- Contoured insole injected high modulus polyamide includes shank reinforcement.
- Removable anatomic advanced EVA footbed.
- Alpinestars exclusive vulcanized rubber compound outer sole.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
- EN 13634:2017.

RADON DRYSTAR® BOOT

ALL-WEATHER RIDING / TOURING

- Main upper material constructed from advanced microfiber for durability and long lasting comfort.
- Incorporates ergonomic toe box construction for improved compatibility with bike's controls and for superior, wide ranging foot profile, fit and comfort.
- Internal heel counter and toe box gives boot enhanced structural integrity.
- TPU Shin Plate and shift pad offer support and resistance for impacts.
- New TPR design on lateral toe gives more flexibility and protection against abrasion.
- Drystar® membrane layer between upper and lining for proven performance in difficult weather conditions.
- Three adjustable lateral hook and loop straps ensure secure closure and highly personalized fit. Straps feature TPR pull tip for ease of closure and durability.
- Internal toe box and heel counter protection is layered under the upper for durability, improved feel and performance.
- Highly comfortable and durable technical textile collar lining.
- Dual density ankle protectors are backed with foam inner padding for protection on both ankle sides.
- High modulus midsole follows shape of foot and incorporates structured shank reinforcement.
- Innovative weight-saving laminated technology utilized on shin plate for weight-saving and additional protection against impacts.
- Removable anatomic foot-bed features EVA foam and textile for support and comfort.
- Rear reflective insert for improved visibility.
- Alpinestars exclusive vulcanized compound sole.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product: EN 13634:2017.

RIDGE v2 WATERPROOF BOOT

ALL-WEATHER RIDING / TOURING

- Waterproof membrane incorporated into an upper constructed from a durable, technical synthetic textile for enhanced durability.
- Thermowelded lateral side, ankle and toe box for additional durability.
- Waterproof membrane layer between upper and lining for proven performance in difficult weather conditions.
- Boot shaping provides long-lasting comfort and incorporates an ergonomic toe box construction for superior feel when operating the bike's controls.
- Streamlined design features a front bellow with a stitchless construction and textile underneath for lightness, thinness and low weight.
- Rear bellow on back allows for flex while maintaining the structural rigidity of the boot.
- Shift pad constructed from a thin but durable real rubber layer glued on for low material volume, a light weight and a slender toe.
- Dual closure system: adjustable hook and loop with a metal oval ring on the lateral ankle plus a hook and loop flap on the upper for greater adjustability and an optimized fit.
- Grip detail on upper closure flap for ease of use, even with gloved hands.
- Hot-melt reinforcement on shin plate for weight-saving and protection against impacts.
- Complete ankle protection: Dual density ankle protectors on medial and lateral sides are reinforced with poly-foam padding for protection and comfort.
- Internal toe box and heel counter protection is layered under the upper for durability, improved feel and performance.
- Contoured, high modulus midsole follows shape of foot and incorporates a structured shank reinforcement.
- Removable anatomic foot-bed features EVA foam and textile for memory and comfort.
- Alpinestars exclusive vulcanized compound rubber sole with unique side wrapping design, built to withstand the demands of life on the road.
- Comfort padding envelopes ankle area for fit and comfort.
- Reflective details on side and rear.

STELLA ANDES v3 DRYSTAR® JACKET

WOMEN'S ALL-WEATHER RIDING / ADVENTURE TOURING

- The Andes v3 Jacket is anatomically engineered for an optimized women's fit and its exclusive Alpinestars Drystar® construction ensures 100% waterproofing and high levels of breathability, even in difficult riding conditions. The technically advanced construction of this jacket offers protection and abrasion resistance and is adaptable to all-weather conditions.
- Tech-Air® 5 ready.
- Designed for an optimized woman's fit.
- Constructed with an advanced reinforced polyfabric textile for durability and a Drystar® waterproof and breathable membrane for 100 per cent waterproof performance in wet weather conditions.
- Newly developed direct ventilation system (DVS) zippered chest air intakes for high levels of airflow.
- Internal impact protection provided by removable elbow and shoulder protectors.
- Chest and back compartments can accommodate the Nucleon chest and back inserts (available as an accessory upgrade).
- Reinforced polymer-printed texturing in critical elbow and lower arm areas for enhanced abrasion resistance.
- Reflective details.
- Front waterproof cargo pockets for convenience and peace-of-mind closure.
- Large, external utility pocket on lower back, plus internal pockets and a waterproof wallet pocket for real-world practicality.
- Integrated soft edge collar and 3D mesh construction for enhanced comfort over long distances.
- Premium YKK zipper for main front closure offers adaptable, secure and convenient closure.
- Adjustable bottom side gussets for an optimal fit.
- Removable long-sleeve thermal liner (100g body 80g sleeves) ensures comfort on hot or cold days.
- Pre-contoured sleeves with stretch panels on elbows for comfort and freedom of movement.
- Hook and loop-closing waist adjustment belt ensures a highly customizable fit.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - Fully riding garment to CE – Category II prEN17092 draft standards – A Class
 - CE Level 2 EN1621-2:2014 Alpinestars Nucleon back protector, available as an accessory upgrade.
 - CE Level 1 EN1621-1:2012 Alpinestars Nucleon Flex Plus shoulder and elbow protectors.

STELLA ANDES v3 DRYSTAR® PANTS

WOMEN'S ALL-WEATHER RIDING / ADVENTURE TOURING

- The Stella Andes v3 Drystar® pant is anatomically engineered for an optimized women's fit and its exclusive Alpinestars Drystar® construction ensures 100% waterproofing and great levels of breathability, even in difficult riding conditions. The technically advanced construction of this pant offers protection and abrasion resistance and is adaptable to all-weather conditions and are fully compatible with the Stella Andes Drystar® v3 Jacket.
- Designed for an optimized woman's fit.
- Constructed with an advanced reinforced polyfabric textile for durability and Alpinestars exclusive Drystar® membrane for 100 per cent waterproof performance in wet weather conditions.
- Removable long thermal liner allows the pants to be adapted to suit the weather conditions.
- Efficient direct ventilation ports strategically positioned on thighs for high levels of airflow.
- Pre-contoured leg construction with knee stretch panel inserts for optimum riding comfort.
- Tapered touring fit for enhanced comfort when riding.
- Interior hip pad compartments (Nucleon inserts available as an accessory upgrade).
- Removable and position-adjustable knee protectors ensure superior protection against impacts.
- Reinforced polymer-printed texturing in critical knee areas for added abrasion resistance.
- Integrated reflective details.
- Adjustment waist system features buckle and stretch material for an optimized fit.
- Zippered air intakes for effective internal temperature control.
- Cargo-style pockets for real-world practicality.
- Adjustable, removable bib braces for an improved comfort fit while also ensuring the pants remain in position.
- According to European statutory law the CE mark is a conformity requirement for the marketing of this product. The following standards apply to this product:
 - CE Category II PPE Regulation prEN17092 - A class.
 - CE Level 1 EN1621-1:2012 Alpinestars Nucleon Flex Plus knee and Bio-Flex hip protectors (Bio-Flex hip protectors available as an accessory upgrade).

CHARGER PRO BACKPACK ACCESSORIES

- Thermo-formed front panel is semi-rigid for strength and aerodynamically sculpted to provide minimal drag when riding.
- Front panel has a smooth surface fabric construction for additional aerodynamic performance and features a polyurethane-coated pattern embossed polyester for durability.
- Durable textured main body fabric utilizes a Jaquard-weave 440g polyester with TPE back coating for exceptional durability.
- Clamshell main compartment opening with inner gusset for ease of use.
- Single auto-lock slider zipper on main compartment for a secure closure.
- The Charger Pro Backpack is expandable to increase the capacity by approximately 4.5 liters.
- Equipped with a back protector compartment that has been designed to accommodate an Alpinestars Nucleon KR-CELLi back protector (Size M).
- Adjustable harness allows riders to adapt it to their torso length for a personalized fit, thus ensuring stability and comfort.
- The lower strap has quick release buckles, making it easy for riders to remove the back pack.
- Harness has been designed to be used with one hand, and features a quick-release magnetic center buckle for quickly and easy use.
- Removable waist belt allows riders to adapt the bag to their personal riding requirements. When worn, the belt offers greater stability; when removed it allows greater freedom of movement.
- Equipped with a small pocket at top of the main compartment for storage of essentials, with removable waist belt pockets for additional storage options.
- A padded laptop pocket with a closure strap, individual organizer pockets plus additional mesh pockets allow riders to quickly and easily sort and store items.
- Built-in helmet carrier with color keyed anchor point allows riders to easily and securely carry a helmet without fear of dropping it.
- Rain cover included for wet weather performance.
- Reflective piping.

CITY HUNTER BACKPACK ACCESSORIES

- Multi-material Outershell : Light-weight 420D Nylon / 420D Ripstop Nylon to reinforce the bottom part.
- 25L Capacity (approximately).
- 2 external waterproof pockets on front.
- Computer compartment with full length zip featuring 15" laptop protective fleece sleeve.
- Large main compartment with internal organizer featuring a smartphone protective fleece sleeve.
- Built in helmet carrier.
- Rain cover stored in its pocket in the main compartment.
- Ergonomic 15 mm back padding preventing spine pressure with ventilation channels for an optimized air flow.
- Ergonomic shoulder belts with perforated foam padding and mesh panels for an optimized airflow, adjustable and removable sternum strap and the Alpinestars quick release system for a fast and secure adjustment, preventing the extra webbing flapping.
- Removable waist strap featuring the Alpinestars quick release system for a fast and secure adjustment, preventing the extra webbing flapping.
- YKK semi auto-locking zippers for a secure closure.
- Reflective details on the front and shoulder belts to improve rider's visibility in varying light conditions.

RIDE TECH v2 TOP LONG SLEEVE SUMMER

ACCESSORIES

- Polygiene treatment keeps the base layer fresh.
- Moisture wicking material prevents sweat from pooling on the body.
- Engineered pattern for optimal performance.
- Muscle supporting compression fit helps reduce fatigue.
- Purposely designed to work with Alpinestars' suit and jacket ventilation for improved cooling and comfort.
- Fully body-mapped construction with Lycra stretch spandex in main chest and back areas and strategically positioned open mesh inserts for ventilation.
- Designed for warm weather riding and to prevent the build-up of heat and sweat, Alpinestars Ride Tech v2 Top Long Sleeve Summer keeps you cool and comfortable under your suit and jacket with the added benefit of helping a rider get in and out of a suit.
- Comfortable, moisture-wicking fiber aids all round body temperature control and performance in hot conditions.
- Pre-curved sleeves and ergonomic flat lock seams for optimum levels of comfort.

HOW TO MEASURE

- A. Chest - Measure around the fullest part, under the armpits, keeping the tape horizontal.
- B. Waist - Measure around the natural waist line, inline with the navel, keeping the tape horizontal.
- C. Hip - Measure around the fullest part of your hips, about 20 cm below waist line, keeping the tape horizontal.
- D. Thigh - Measure around the thigh just below the crotch, keeping the tape horizontal.
- E. Inseam - Stand against a wall, ask someone else to measure from the crotch to the bottom of your leg.
- F. Arm Length - Measure from shoulder (Humerus) to wrist.
- G. Height - Stand against a wall, ask someone else to measure from the floor to the top of your head, keeping the tape vertical.
