BOBSTER® DNA

Bobster® prides itself on leading the pack when it comes to technology. All our products feature optically correct, polycarbonate shatter-resistant lenses that offer 100% UVA and UVB protection. We also offer products with Rx-ready frames, polarized lenses, photochromic lenses and all-new high-definition lenses.

HIGH-DEFINITION LENSES

High-Def lenses will enhance your vision whenever worn.

What this technology does is elevate individual colors, which enables you to see imperfections in the road, changes in the water, or divots in the dirt much easier.

Without having to strain your eyes to see what is coming up, you can anticipate and react with more precision while filtering out harmful UV rays, leading to overall greater visual comfort.

POLARIZED LENSES

While ordinary tinted lenses reduce brightness, only polarized lenses eliminate glare.

To ensure the impact resistance of the lenses, Bobster® uses polycarbonate polarized lenses while most other companies use polarized lenses that will shatter on high impact.

PHOTOCHROMIC TECHNOLOGY

Bobster® photochromic lenses are available in a variety of eyewear styles and are precisely designed to automatically darken/lighten to the amount of ultraviolet (UV) light that reaches the lens.

The advantage of a photochromic lens is that you can wear your eyewear all day and not have to carry multiple sets of eyewear with you or change your lenses according to light conditions.

Do not leave photochromic lenses in direct sun or extreme heat for long periods of time as it will decrease the performance of the lenses.

WIRE GAUGE SELECTOR

It's important to match up wire diameter and current properly. To choose the right gauge wire, you will need to know how much Wattage (or Amperage) you will draw and what the length of the cable will be.

NOTE: The chart below is based on a 12V system. To find the appropriate wire for 6V systems, the Amp and Watt numbers should be divided in half.

AMP	WATT	91 CM (3 FT)	152 CM (5 FT)	213 CM (7 FT)	305 CM (10 FT)	457 CM (15 FT)
