# ICON HELMETS

---

ICON HELMETS ARE THE CULMINATION OF OUR UNIQUE RIDER DRIVEN DESIGN

An aggressive style, combined with peerless engineering, has carved ICON a unique niche within the riding community. Our commitment to quality has won us the prestigious J.D. Powers customer satisfaction award, and accolades from riders the world over. Whether your riding includes blasting high-speed circuits, storming the dirt of Baja, or strafing pockmarked highways; there's an ICON helmet for you.

## DOMAIN

After a decade-long absence, the Domain returns to the ICON Helmet lineup with a decidedly neo-retro twist. The Domain features a hand-crafted FRP shell for maximum integrity with minimal weight. In addition, a prominent dorsal ridge, large brow-mounted intake vents, and channeled EPS provide increased ventilation. This increased ventilation greatly enhances rider comfort when paired with the removable Hydradry™ liner. Finally, we've enabled the digital aspect of the Domain with the optional HelmLink Bluetooth® communication system.

## AIRFRAME PRO

The modern riding position - higher rear sets, lower clip-ons - has dramatically altered how a rider interacts with the modern hypersport motorcycle. Compressed into an ever more compact shape, the rider's head positioning requires increased angle to maintain visibility and stability. With this in mind, ICON designed the AIRFRAME PRO™.

## AIRFLITE

A neo-retro glimpse into one possible future, the AIRFLITE™ is the vessel of your dreams. The visually-defining shield makes a statement on the streets while the helmet's versatility and customizable ability speak to the development and design. Remove the shield, replace it with the AIRFLITE™ visor, and the helmet goes from street to dirt in a matter of moments. Combine that with a recessed twin-channel cooling system, Hydradry™ comfort liner, inner DROPSHIELD, sculpted neck-roll, and internal speaker pockets, and you get the ultimate street-style helmet.

## AIRFORM

For almost two decades, ICON Motosports has come to define moto-street style. Proven design, comfortable fit, and superb quality for the maximum value, the AIRFORM™ helmet is an excellent entry point into the ICON family. Includes world-renowned Hydradry™ comfort liner, ventilation, and an inner DROPSHIELD for those rides that start before sunrise and end well after the sunset. Highly customizable for those who like to dial it in.

**SAFETY WARNING:** Riding a motorcycle is a dangerous activity. No helmet can protect a wearer against all possible impacts. When riding, always wear a helmet, eye protection, protective clothing, gloves and boots. There is no assurance that serious injury or death can be avoided even if you wear a helmet. Take all precautions to avoid every risk when riding a motorcycle. This helmet is not meant for use as a fire retardant product and does not contain any fire retardant materials. Please ensure that your ICON® products fit properly. Improperly fitting products can impair your ability to control your motorcycle.

Roses are red, this skull is pale blue, beware of the sword that pierces it through. Equipped with a Dark Smoke Fliteshield™ and slathered from tip to tail in our exclusive matte rubatone™ finish, the Airflite Omnicrux is gothic incarnate. If the exterior wasn't dark enough, the Omnicrux features an internal Dark Smoke Dropshield™ to double down on your eternal night. In addition, the removable Hydradry liner wicks excess sweat away from your fevered brow, while the dual safety standards ensure almost global compatibility.

# AIRFORM FEVER DREAM™ HELMET

ECE R22.06

INCLUDES CLEAR & RST BLUE OPTICS SHIELD™  
INCLUDES DARK SMOKE DROPSHIELD™

It feels so real, doesn't it? Whatever strange trip you're on, the Airform Fever Dream Helmet will get you there in style. The details might be fuzzy, but you'll have clear vision with the RST Blue Fog-Free Optics™ shield. ICON's Intermediate Oval headform means this helmet is optimized for the majority of riders. Fever dream or not, this helmet has the very real and very latest ECE R22.06 certification.

**NEW** MOTOTANKER™ JACKET

ICON MOTOSPORTS

The classic canvas work jacket gets a moto-makeover in the Mototanker Jacket. The relaxed fit and rugged stretch canvas construction make this jacket something you can wear on or off the bike. Ax® Laredo accents in just the right spots add reinforcement as well as style. Inside, 300D polyester panels provide another layer of durability. The shoulders and elbows have Ghost impact protectors. Reflective piping on the back is subtle but effective.

## BASEHAWK2™ JACKET

ICON ONE THOUSAND

D30®

ULTRA THIN  
GHOST

VENTED

The Basehawk2™ is the next generation of this avant-garde hooded gear design mentality. It features our sport-fit with leather sleeve overlays, specifically tuned for the aggressive riding posture of performance street bikes. A mesh AirFly™ and zippered vents keep things cool, while waist adjusters keep things secure. In addition, a full complement of the newest D30® Ghost impact protectors ensures coverage on the road yet are low-profile enough that they remain unnoticed when the jacket is worn casually. Finally, the entire garment is tested & certified to standard [EN 17092-4:2020 Class A] for optimum performance.

# HOOLIGAN CE™ JACKET

ICON MOTOSPORTS (WOMENS)

D30

VENTED

The Hooligan CE™ jacket is the physical representation of the core ICON mission of protecting the most at-risk riders. Built with our sport fit pattern for an aggressive riding stance, it is constructed of a 300D polyester chassis loaded with D30® Impact protectors in the shoulder, elbow, and back. In addition, Iron Weave™ mesh panels placed in strategic areas significantly increase airflow through the jacket. The Hooligan is fully designed for impact & abrasion yet maintains its easy wearing and max comfort characteristics.

## FIELD ARMOR 3™ KNEE

ICON MOTOSPORTS

If you're reading this, there's a good chance your knees already give you some kind of problems. After years of having fun, that's just the name of the game. Preserve what you've got left from an untimely tarmac tear-up with the Field Armor 3™ Knee. Vented bio-foam and air mesh chassis are paired to articulating injection molded shell with airflow channels, so comfortable it's easy to forget you're wearing them at all. Low profile, the design fits under most pants while the 3 stretch adjustment straps keep the protector securely in place. The D30® impact protectors do the heavy lifting. Wear them and keep your knees another day.

# D30® IMPACT PROTECTORS

## REPLACEMENT INSERTS AVAILABLE

D30® unique patented and proprietary technologies provide both enhanced protection and a versatile, flexible material for a host of shock absorption and protection applications.

### GHOST

D30® Ghost™ Impact Protectors are made with the revolutionary new D30® Impact Print™ technology which allows for unrivaled freeform geometry and flexibility. The superior breathability of Ghost impact protectors makes it perfect for summer riding jackets and pants. At only 0.65cm thick, the low-profile design is an ideal retrofit to many motorcycle apparel applications.

### LP1 / LP2

The new highly vented geometry of the D30® LP1 offers a 45% improvement in breathability. It utilizes the latest material innovation from D30® which offers increased durability while offering great impact protection whilst remaining low profile and lightweight.

### LP1 COMPACT

LP1 Compact is ideal for those wanting a smaller pad due to smaller limb size or the need for increased freedom of movement, including women, youth or mountain bikers.

### T5 EVO / T5 EVO PRO

The D30® EVO Range utilizes the latest material innovation from D30® which offers increased durability while offering great impact protection whilst remaining low profile and lightweight.

# HYPERSPORT SHORT™ GLOVE

ICON MOTOSPORTS

ICON is always searching for the upper hand; we've found it with the Hypersport Short™ glove. The materials and construction of the Hypersport Short™ glove have been purposely chosen for their innate abilities to provide this advantage. The Ax® Laredo chassis is paired with goatskin palm overlays and diamond stitch accents located in areas of high wear from grips. The palm sliders are in case of high-velocity asphalt encounters. Key construction techniques include ICON's exclusive floating knuckle, which allows for maximum knuckle articulation, and an out-seamed finger box for all-day comfort. The Hypersport Short™ gloves feature full knuckle coverage from the vented TPU/Polycarbonate knuckle plates. A wrist hook & loop closure allows for a secure fit.

**MATERIAL** Ax® Laredo Chassis, BattleHide™ Goatskin Palm Overlays

## STORMHAWK™ GLOVE

ICON MOTOSPORTS

D30®

It rains here in Portland a lot, so we've designed a lightweight, waterproof glove that can beat Poseidon in an arm-wrestling match any soggy Sunday. The Stormhawk™ glove features an abrasion-resistant polyester ripstop chassis exterior paired with a Hipora™ waterproof interior insert. This construction keeps the Stormhawk™ rugged yet low-profile, perfect for 3-season motorcycle riding. The glove also features a rigid knuckle plate and internal D30® knuckle insert to provide functional backhand coverage. Finally, the Ax® Laredo engineered synthetic palm and palm overlays improve wear and grip properties.

## TWENTY NINER™ CE GLOVE

ICON MOTOSPORTS

**VENTED**

A standing tradition in ICON's line of MX inspired, street-specific lightweight riding gloves. All our standard performance amenities are here, such as a pre-curved palm and finger design, thermoplastic rubber knuckles, and a secure wrist closure system. Of course a street motorcycle glove isn't really a glove without a durable, abrasion resistant palm. The Twenty-Niner™ glove features an Ax® Laredo palm capable of hand-to-hand combat with gravel choked asphalt. With its hi-flow mesh backhand, the Twenty-Niner™ glove is perfect for spring and summer riding.

## HELMET FITMENT

### CHOOSING THE CORRECT HELMET SIZE

Helmet fit is critical to helmet protective performance. The correct helmet size can only be checked and confirmed by physically fitting the helmet to the user. Always try the helmet on in a store, before purchasing it, to be sure you are purchasing the correct sized helmet for you.

### HEAD MEASUREMENT INSTRUCTIONS

Wrap a flexible tape measure around your head approximately one inch above the eyebrows and ears. Use this measurement (in either inches or centimeters) to find your helmet size.

### HELMET SIZING INFORMATION

To achieve proper helmet fitment, begin by finding your head circumference size using the method described. Remember that the helmet size you choose should fit around the crown of your head comfortably with no pressure points. The cheekpads should fit firmly around your face. Once your chin strap is fastened, grab the chin bar of the helmet and move it side to side. Your cheeks should move with the helmet, which should not slide across your face. Different thickness cheekpads can be purchased to obtain the best fit. Ask your dealer or visit [www.rideicon.com](http://www.rideicon.com) for more information.

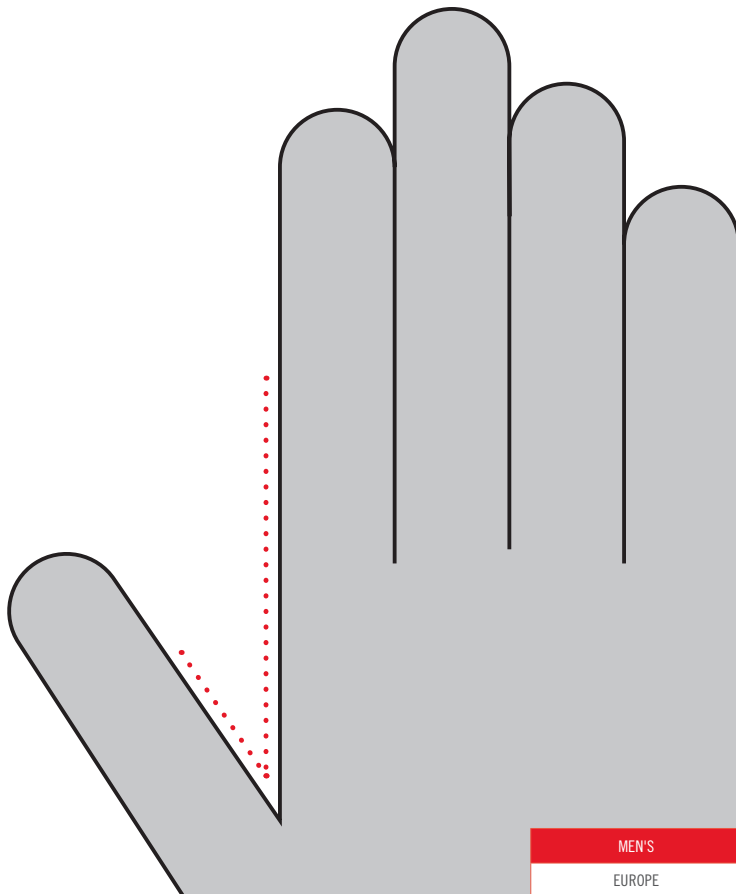

When sizing your helmet please refer to the size charts that are unique to each helmet shell:

**AIRFLITE:** SEE PAGE 14

**AIRFORM:** SEE PAGE 26

## GLOVE FITMENT

### HOW TO DETERMINE YOUR GLOVE SIZE

ICON glove size is determined by measuring the width of your palm at its widest point - a little below the knuckles. To get this measurement, place your hand on the page as shown with the crook of your thumb positioned at the "V" intersection of the two dotted lines and on top of the Men's and Women's measuring bars.

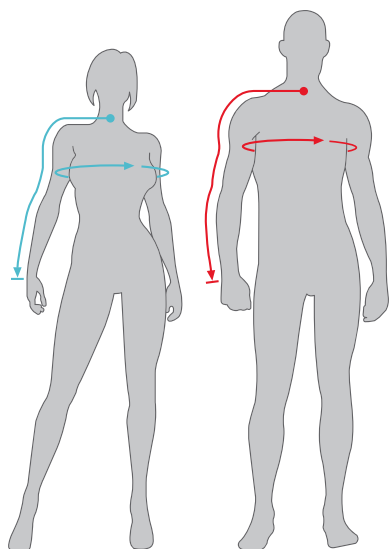

THIS CHART SERVES ONLY AS A GUIDE. TO ENSURE THE PROPER FIT ALWAYS TRY ON THE ACTUAL PRODUCT.

## JACKET FITMENT

### JACKET SIZING INFORMATION

There are three variables to consider when sizing an ICON jacket. The first two are the chest and sleeve measurements, which are what your jacket size is based on. The third is the jacket fit type, which defines the “cut” of the jacket (Attack, Sport, or Relaxed). Instructions, sizing charts and jacket fit details can be found below. The fit type of every ICON jacket can be found in the first bullet point of the copy block for that individual product.

**ATTACK**  
 » TAILORED BODY  
 » PRECURVED ARMS

**SPORT**  
 » STRAIGHT BODY  
 » ARTICULATED ARMS

**RELAXED**  
 » STRAIGHT BODY  
 » STRAIGHT ARMS

### CHEST MEASUREMENT INSTRUCTIONS

While standing with your arms relaxed at your side, wrap a flexible tape measure around your chest at its largest point. The tape measure should go through your armpit and stay parallel with the floor while taking the measurement.

### SLEEVE MEASUREMENT INSTRUCTIONS

While standing with your arms relaxed at your side, place one end of a flexible tape measure on your spine at the base of your neck. Measure over the top of your shoulder, down over the point of your elbow, and finish at the wrist bone.

## PANT FITMENT

### PANT SIZING INFORMATION

There are three variables to consider when sizing ICON pants. The first two are the waist and inseam measurements, which are what your pant size is based on. The third is the fit type of the pant. Measurement instructions and sizing charts can be found below. The fit type of every ICON® pant can be found in the first bullet point of the copy block for that individual product.

### WAIST MEASUREMENT INFORMATION

While standing in a relaxed position, measure around your natural waistline, while keeping the tape measure parallel to the floor.

### INSEAM MEASUREMENT INFORMATION

While standing in a relaxed position, measure the total length of the inside of your leg, from crotch to ankle.
