PARTS EUROPE

A Look At What's New For 2025

Here is the 2025 Parts Europe Offroad catalogue update! This catalogue highlights new parts and accessories available for offroad enthusiasts, and their machines.

Be sure to keep the 2024 Parts Europe Offroad catalogue! You can still order from it. This update catalogue is designed to supplement the 2024 Offroad main catalogue.

For tires, tools, cleaners, lubes and service items, see the 2025 Parts Europe/Drag Specialties Tire, Tools & Chemicals catalogue update, along with the 2024 Parts Europe/Drag Specialties Tire, Tools & Chemicals catalogue.

For riding gear, helmets and casual apparel, see the 2025 Parts Europe/Drag Specialties Helmet & Apparel catalogue. We are still adding new products daily! Be sure to check partseurope.eu all year long to see what is new from Parts Europe.

Parts Europe – We support dealers, their customers and the sport!

All model designations and applications used herein are determined by the manufacturer as USA and/or European specific. Contact the individual manufacturer for additional international model information.

Table Of Contents

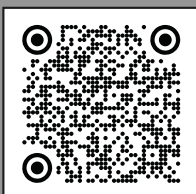

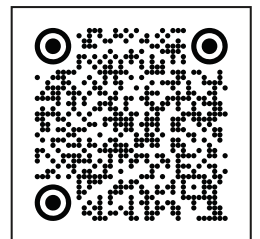

Exhaust	5-16	Brakes	89-105
Luggage	17-18	Wheels & Accessories	106-111
Bike Stands & Accessories	19-20	Suspension	112-127
Handlebars & Hand Controls	21-38	Electrical & Gauges	128-134
Footpegs & Foot Controls	39-44	Lighting	135-136
Body	45-59	Engine	137-151
Graphics & Seats	60-74	Fuel/Air Systems	152-159
Sprockets	75-83	Hardware & Merchandising	160
Chains	84-88		

Missing Something Here?

That's right and we did it on purpose!

To make your life easier, we have put together the almost endless selection of products from many popular top manufacturers in the clothing and equipment sector into our latest addition to the well-known PARTS EUROPE catalogue range. Find the huge selection of the latest helmets, eyewear, riding gear, accessories, apparel and rider protection from the top brands of the powersports business in our new **HELMET & APPAREL CATALOGUE 2025!**

IMPORTANT INFORMATION RELATING TO MANUFACTURER'S WARRANTY, EMISSION CONTROL REGULATION AND NOISE REGULATION INFORMATION:

DISCLAIMER: There is no warranty on exhaust pipes and mufflers with regard to any discoloration. Discoloration (blueing) is caused by tuning characteristics, i.e. timing, carburetor, fuel injection/controller settings, etc., and is not caused by defective manufacturing. See the Tires, Tools and Chemicals catalog for products that will help prevent and remove blueing.

DISCLAIMER: Products shown may be designed, manufactured, intended and sold for closed circuit race use only and use of the same on public roads or lands may be a violation of local, state and/or federal/EU laws.

DISCLAIMER: A number of regions have exhaust noise laws. Exhaust products advertised might not be legal for sale or use on public roads or lands in such jurisdictions. Check applicable laws and regulations.

DISCLAIMER: Check your applicable laws and manufacturer's publication(s) and/or website(s) for manufacturer's warranty, maintenance, safety, mounting and any regulatory compliance/non-compliance information.

1820-2045

1820-2048

FACTORY 4,1 RCT EXHAUST SYSTEMS

- RCT (Resonance Chamber Technology) features a core shape that lowers decibels while maintaining maximum power output
- Internal ducts in the chambers of the RCT system increase internal volume for improved exhaust flow, resulting in power gains throughout the entire range of power
- FMF's Factory Forward Engineering centralizes mass and is less prone to crash damage
- Innovative rear end cap features simple installation of tuning tip inserts or spark arrestor with the removal of four screws
- QuietCore 94 dB insert included
- Spark arrestor included in muffler
- Feature MegaBomb header and midpipe

- Available in natural titanium or blue anodized finish with titanium or carbon fiber end caps
- Meet AMA and FIM sound requirements
- See pages 6-7 of the 2024 Parts Europe Offroad catalog for additional Factory 4,1 RCT exhaust systems

THE Q SERIES

Q4 HEX

FOR KAWASAKI KX 450F 24-25

- Less sound equals more ground
- Meets FIM World Enduro sound regulations
- Power gains throughout the entire rpm range
- Spark arrestor included
- Pounds lighter than stock
- Rugged design for off-road endurance

• See page 10 of the 2024 Parts Europe Offroad catalog for additional Q Series exhaust systems

NOTE: FOR CLOSED COURSE COMPETITION USE ONLY. NOT INTENDED FOR STREET USE.

DESCRIPTION

Q4 Hex slip-on muffler

PART

1821-2092

POWERCORE 4

FOR KAWASAKI KX 450 24-25

- Hi-Flo end cap boosts all-around performance
- Computer-designed and dyno-tested for every 4-stroke application
- Enhanced sonic evacuation delivers a higher flow of exhaust gases, which increases power
- A stainless steel mid-pipe mates to the computer-designed rear can for lightweight durability
- Round perforated steel inner cores make for optimum flow, using hi-flo technology
- FMF's exclusive cross-weave internal packing provides longevity and maximum sound dispersion
- Elliptical aluminum can offers strategic sizing for superior performance

• Optional Quiet Core insert will provide a decrease in sound level if desired

• Features a screen-type spark arrestor that does not interrupt exhaust flow or performance

• See page 11 of the 2024 Parts Europe Offroad catalog for additional Powercore 4 slip-on mufflers

MEGABOMB HEADERS STAINLESS STEEL AND TITANIUM

- The ultimate power boosters
- Improved bottom to mid-range power
- Produce the low end of a longer header and the top end of a short header
- Less susceptible to damage than a long header
- Effectively reduce sound output by as much as 1,5 dB
- Run well with sound-restricting mufflers
- Available in stainless steel or FMF's exclusive Ti-Metal construction
- See page 13 of the 2024 Parts Europe Offroad catalog for additional Megabomb headers

1820-2040

Ti-6 AND T-6 4-STROKE EXHAUST SYSTEMS FOR KAWASAKI KX 450 24-25

- Ti-6 Pro titanium exhaust system is perfect for you; created as a full race system, the Ti-6 Pro is designed to increase performance and help professional racers pass FIM sound regulations
- Ti-6 titanium exhaust system is designed to improve performance and power; constructed of titanium throughout the headpipe, mid pipe and canister; this is the ideal exhaust for any offroad or closed course racer looking for improved performance, durability and a professional look; comes with a removable spark arrestor making it easy to alternate between off-road and closed course riding
- T-6 stainless steel exhaust system offers the same benefits as Ti-6 titanium exhaust system, but the T-6 is constructed of stainless steel and aluminum for increased strength and durability while giving riders a more affordable alternative to titanium; comes with a removable spark arrestor making it easy to alternate between off-road and closed course riding

- All T-6 Euro exhaust systems pass FIM sound regulations
- Machined aluminum muffler brackets for increased strength and durability
- Asymmetrical muffler configuration for increased packing volume
- Most systems equipped with a RC-4 Resonance Chamber for reduced sound output
- Machined mid pipe to headpipe joint for a better, leak-free fit
- TIG precision welding
- For the full line of Ti-6 and T-6 exhaust systems see pages 26-27 of the 2024 Parts Europe Offroad catalog

DESCRIPTION	PART #	DESCRIPTION	PART #
T-6 stainless system	1820-2037	Ti-6 w/ carbon end cap	1820-2038

T-6 SLIP-ON FOR KAWASAKI KX 450 24-25

- T-6 Stainless Slip-On Silencers are designed for a rider looking for an inexpensive, easy-to-install, durable performance silencer that can bolt onto their stock headpipe
- Constructed of stainless steel throughout the mid-pipe and end-cap while the canister is constructed of aluminum for increased durability
- Machined aluminum muffler bracket for increased strength and durability
- Asymmetrical muffler configuration for increased packing volume

- Removable spark arrestor
- TIG precision welding
- For the full line of T6 Slip-on exhaust systems see page 28 of the 2024 Parts Europe Offroad catalog

WORKS PIPES

- The original Pro Circuit Works pipe offers unparalleled performance and power for every two-stroke application
- Increased horsepower and torque gains will quickly be noticed across the entire rpm range
- The unplated, oiled metal finish requires some maintenance, but really gives your bike that "Works Look"
- For the full line of Works Pipes see page 31 of the 2024 Parts Europe Offroad catalog

PLATINUM PIPES

- Inspired by the championship winning Works pipe, the Platinum series pipe utilizes plating on the body to protect it from everyday wear and tear
- Unique nickel bath technology gives the surface added abrasion resistance and enhances the aesthetic look
- Stamped AKDQ high-quality carbon steel construction for exceptional fit and performance
- Hand-welded and pounded seams
- Embossed name plate and CNC-machined exhaust flange
- Reinforced mounting brackets and stinger for increased strength and durability
- For the full line of Platinum Pipes exhaust systems see page 32 of the 2024 Parts Europe Offroad catalog

R304 SHORTY AND R304 SHORTY Ti-2 CARBON-ARAMID FIBER SILENCERS

- Canister is made of lightweight 6061-T6 aluminum with brushed finish
- High-strength aluminum rivets and R304 Shorty features steel Allen-head screws for easy disassembly and repacking
- Double-walled mounting brackets
- Exclusive E-glass pillow packing
- PC logo detailing
- Carbon-aramid fiber silencers feature a carbon-aramid fiber shell, titanium tubing and titanium end caps; optimum performance gains while reducing weight
- For the full line of R304 Shorty exhaust systems see page 33 of the 2024 Parts Europe Offroad catalog

TYPE 296 SPARK ARRESTOR SILENCERS

- Includes spark arrestor while maximizing performance
- 96 dB sound level
- Specially engineered internal metal baffle, chambers and sound-absorbing materials for lower sound levels and no loss of motor performance
- FIM-approved stainless steel end cap
- Silencer body is made from extruded 6061-T6 aluminum to reduce weight
- Removable allen-head screws make repacking an easy task
- Double-walled mounting brackets
- For the full line of Type 296 silencers see page 35 of the 2024 Parts Europe Offroad catalog

1820-2041

EVOLUTION LINE COMPLETE EXHAUST SYSTEMS

- The flagship of the Akrapovic exhaust system range
- Used and tested by top factory teams in motorcycle racing
- Each model is unique and dedicated to maximizing the engine's performance, while reducing overall weight for optimized overall handling of the motorcycle
- Made entirely of titanium
- Exhaust systems meet FIM noise limits, and feature a more durable welded bracket and titanium end cap

- Performance exhaust systems also feature a new coating for the silencer outer sleeve giving better scratch resistance and easier cleaning
- See page 37 of the 2024 Parts Europe Offroad catalog for the complete line of Akrapovic Evolution exhaust systems

X3 EVO SLIP-ON MUFFLERS

- Hand made from AISI 304 stainless steel, TIG-welded for long-lasting performance
- Media-blasted for a perfect textured surface finish
- Lightweight carbon fiber end cap
- Welded mounting brackets with rubber damper or carbon fiber strap offering strength and reliability
- USFS-approved spark arrester included
- Meets USFS and FIM World Enduro sound regulations
- Straight-through race-developed muffler core, to unleash a deep sound
- Industry-leading muffler repack intervals due to the highest quality and density of packing material
- Optimized torque, more usable performance
- Wash plug included in the box
- Made in Europe
- Please see page 41 of the 2024 Parts Europe Offroad catalog for Leo Vince's full line of X3 Evo slip-on mufflers

PIPE GUARDS BY E-LINE

- Moose Racing pipe guards offer the most protection, style and durability on the market
- Custom-molded to fit perfectly every time
- Antiballistic composite material, fiberglass and high-temp resins yield an exceptional guard; 8 times stronger, 2 times stiffer, yet 1,5 times lighter than aluminum
- The level of heat reached by 4-strokes causes pipes to ding easily; it can also burn your pants and leg; end the hassle by installing a Moose Racing pipe guard
- Our pipe guards distribute impacts over a large area; aluminum guards cannot duplicate this effect
- See pages 42-44 of the 2024 Parts Europe Offroad catalog for Moose Racing's full line of pipe guards by Eline

REPLACEMENT TOP RUBBER FOR PRO MR-1 BIKE STAND

- Comes with 2 injection molded rubber pads to replace worn out tops
- 6 large head aluminum rivets supplied with kit
- Made of oil & gas resistant rubber

DESCRIPTION

Replacement top rubber for Pro MR-1 bike stand

PART #

4101-0586

MOTO STARTING BLOCK

- Get the best start ever with Factory Links starting block
- Anti-slip top plate
- Carrying handle
- Developed with MXGP riders
- Made from 2.5 mm thick aluminum
- Measures 20 cm L x 12 cm W x 10 cm H (7,87" x 4,72" x 3,94"); weighs 480 g (1.1lb.)

DESCRIPTION

Moto starting block

PART #

4101-0579

PIT MAT

- Designed to not only dress up your pit area but are also environmentally friendly
- The bike mat absorbs up to 6 L of fluid like radiator coolant along with other solvent-based products that can harm the environment by containing within the mat
- Not only lightweight but can be easily washed and reused
- Measures: 80 cm x 200 cm (31 1/2" W x 78 3/4")

DESCRIPTION

Pit mat

FATBAR™ PURPLE HANDLEBARS

- 7010-T6 aluminum alloy, braceless design to reduce weight while maintaining an extremely high strength
- The braceless design allows for a comfortable level of flexibility
- 28,6 mm (1 1/8") clamping area reduces slippage
- Laser-etched positioning grid; knurled clutch side bar end prevents grip slippage
- Shot-peened, anodized finish resists corrosion
- Each handlebar includes an updated injection-molded foam bar pad for better protection and greater durability
- Require 28,6 mm (1 1/8") bar mounts for bikes originally equipped with 22 mm (7/8") bars

Handlebar Dimensions

- Purple line is a limited edition color; other colors also available (see bullet below)
- See page 107 of the 2024 Parts Europe Offroad catalog for the full line of Renthal® Fatbar™ Handlebars

TWINWALL® PURPLE HANDLEBARS

- Constructed of two aluminum alloy tubes, one inside the other
- Outer tube is 7010-T73, has extreme resistance to mechanical damage and is anodized to prevent corrosion
- Inner tube is ultra-high strength 7010-T6 aluminum, hard anodized to resist wear from twist grip and controls
- Rubber seals are used to cover the ends of the outer tube to keep water and cleaning fluids out
- Laser-marked in the middle for accurate positioning
- Available with anodized finish in your favorite racer's bend
- Each handlebar includes an updated injection-molded foam bar pad for better protection and greater durability
- Require 28,6 mm (1 1/8") bar mounts for bikes originally equipped with 22 mm (7/8") bars

Handlebar Dimensions

- Purple line is a limited edition color; other colors available (see bullet below)
- See page 108 of the 2024 Parts Europe Offroad catalog for the full line of Renthal® Twinwall® Handlebars

APEX TRIPLE CLAMPS

- Manufactured from 7075-T6 aerospace-quality aluminum
- Designed to minimize distortion in the clamping area, enhancing responsiveness
- Split clamp design with self-locking mechanism offers greater protection against fork twisting
- Clamping screws function independently, enabling more precise control over the clamping torque
- Top clamp offers 6 different handlebar mount positions: 3 on the clamp, as well as reversible bar mounts which allow fore and aft positioning
- M12 bolts threaded directly into the top triple clamp with wide groove to locate the bar mount
- Supplied with steering stem and pressed steering bearing
- Perfect flexibility adapted precisely to OEM forks
- Optimally tuned steering stem stiffness
- Eye-catching silver finish

RUFFIAN MX SINGLE-PLY GRIPS

- ODI's proprietary medium-compound material provides comfort without sacrificing durability
- Used by top AMA motocross teams such as Motoconcepts, Yamaha and Troy Lee Designs racing
- Available in half-waffle
- For 22 mm (7/8") bars and use with twist throttles
- Sold in pairs

DESCRIPTION	PART #
Purple	0630-3318

TROY LEE DESIGNS MX GRIPS

- Designed by Troy Lee Designs
- Ergonomic designs conforms to a true riding position
- Reinforced ends provide extra protection and prevent grip blowout
- Stepped, raised diamond pattern provides slim feel with extra traction
- For 7/8" bars with twist throttle
- Sold in pairs

DESCRIPTION	PART #
Purple MX grips	0630-3317

MX HALF WAFFLE GRIP SET

- Classic black half-waffle Motocross grips suitable for all scooters, mopeds and motorcycles with 22 mm handlebar and throttle grip
- Outer length measures: 125 mm
- Inner length measures: 119 mm
- Throttle type: throttle twist grip
- Sold in pairs

EZ3 CLUTCH LEVER ASSEMBLY

- Unique design allows up to 50% less effort to pull the clutch lever
- Choose from three positions according to your clutch pull and riding style
- Pivoting cable adjuster to position the angle of the cable to prevent wear
- Made from 100% aluminum alloy
- Red vulcanized silicone rubber grip for any riding condition
- Perch insert allows rotation upon impact
- Universal clutch fit
- Available with standard and "shorty" (25 mm (1") shorter than OEM) levers

- Hot start option available
- For off-road use only
- Replacement levers and parts available
- Replacement perch inserts available separately, PART #0615-0180 (3 pk.)
- See page 213 of the 2024 Parts Europe Offroad catalog for the complete line of EZ3 clutch lever assemblies

APT UNBREAKABLE LEVERS

- Proprietary compound that emulates the feel and touch of aluminum levers; hybrid structure with APT (Aero Parts Technology) manufacturing
- Durable and resistant to damage; levers can be restored to original shape after impacts
- Pivot system allows the lever to fold outward to prevent breakage
- Texturized lever surface with silk-printed logos

- Developed and tested with top pro riders and teams
- Mounts to stock perch and/or stock master cylinder
- Sold in pairs (one clutch and one brake lever) or each (one clutch or one brake lever)
- See page 235 of the 2024 Parts Europe Offroad catalog for additional lever applications

CONTROL CABLES

- Clutch and throttle cable assemblies
- Black PVC outer jacket for maximum flexibility and durability
- Steel inner casing is tightly coiled for low compression ratios
- A pre-lubricated nylon inner sleeve guarantees smooth operation and long life
- All wire ends are bird-caged prior to terminal casting for superior pull-out resistance

- EPDM molded rubber components for high UV resistance and long life
- Injected-molded components are manufactured from high-strength POM material
- See pages 245-250 of the 224 Parts Europe Offroad catalog for Moose Racing's complete line of control cables

+20 MM OFFSET FORGED SHIFT LEVERS

- Designed for riders with larger boot sizes to ensure a better fit and reduced missed shifts due to lever size limit constraints
- The shift lever arm is forged from aircraft-grade 6061 aluminum for maximum strength and durability
- The shift lever tip is machined from billet aluminum for precise fit and function and includes a rustproof stainless steel spring ensuring precise performance in all conditions

- Each tip is finished in a UV protected matte anodizing matching the OEM brand adding a splash of color matching coolness to the bike it fits
- Lighter, stronger and better performing than most OEM stock levers

KNURLED SHIFT TIPS

- Replacement knurled shift lever tip for use on Hammerhead™ CNC shift levers
- Aggressively knurled grip
- Stainless steel mounting hardware included
- Precision machined from 6061 billet aluminum
- Anodized and UV coated for long lasting color
- Will NOT work with the Hammerhead™ forged shift levers.

FORGED SHIFT LEVERS

- Moose Racing has teamed up with Hammerhead to bring you the ultimate shift lever
- The forged shift lever arm is manufactured from aircraft-grade 6061 aluminum
- Anodized in a matte finish
- The tips are anodized in colors per bike brand
- Shift lever tip is a finely machined full CNC part with stainless steel spring
- Anodized with UV protection to preserve color
- See pages 272-273 of the 2024 Parts Europe Offroad catalog for Moose Racing's complete line of Forged Shift Levers

ALUMINUM SHIFTERS

- Manufactured from high-grade aluminum
- Lower cost, yet higher quality than stock replacements
- Folding shift tip is knurled for accurate shifts
- Tip and lever assembled with bolt instead of rivets
- Replaceable pivot hardware allows for extended shift lever life

BRAKE PEDALS

- Moose Racing has teamed up with Hammerhead to bring you the ultimate brake pedal
- The brake pedal arms are forged from 6061 with stainless steel clevis pin sleeves and brass mounting bolt sleeve bushings
- Brake tip is a finely machined CNC part with stainless steel set screws for durability and grip
- Brake tip can be adjusted for length in two mounting positions and is connected with stainless steel socket screws
- The brake pedal arm is anodized in a matte black finish and the tips are anodized in colors per bike brand
- Brake pedal includes a CNC brake clevis, also anodized in colors per bike brand with a stainless steel pin (except KTM)

- KTM brake pedals include two precision bearings at the mounting point
- Every brake pedal also comes with a stainless steel brake snake
- Anodized with UV protection to preserve color
- See pages 280-281 of the 2024 Parts Europe Offroad catalog for Moose Racing's complete line of brake pedals

PRO REAR BRAKE RETURN SPRING KITS WITH CAP

- Pro Rear Brake Return Spring replaces the original equipment rear brake return spring configuration on most Honda, Kawasaki, Suzuki and Yamaha MX models
- Robust design improves rear brake pedal return performance over stock
- Provides more precise pedal feedback while riding

DESCRIPTION	PART #
Fits most Honda, Suzuki and Yamaha MX models	1610-0730

- Kit includes replacement spring and spring cap
- Mounts between the rear master cylinder and the clevis
- UV anodized cap improves durability and corrosion resistance

NOTE: Kit does NOT include rear brake clevis.

DESCRIPTION	PART #
Fits most Kawasaki MX models	1610-0731

REAR BRAKE PEDAL PADS

- Precision machined from 6061-T6 aluminum with corrosion-resistant stainless steel mounting hardware
- Three adjustment holes allows you to dial in brake pedal length for smaller to larger boot sizes
- Anodized color options available to either match most OEMs or match lever arm with black

- Replaces standard size pad on all Moose Racing Forged Rear Brake Pedals
- Includes two mounting bolts

TITANIUM BRAKE PEDAL PAD

- Titanium brake pedal pad is 6 mm wider (1/4") and 6 mm longer (1/4") than OEM
- The "racer's tip" is ultra lightweight
- Includes stainless steel mounting hardware
- Fits ALL Hammerhead™ CNC and Forged rear brake pedals
- Fits some KTM/Beta OEM rear brake pedals

DESCRIPTION	PART #
Titanium rear brake pedal pad	1610-0732

TITANIUM BRAKE TIP

- Made from aerospace-grade Ti-6Al-4V titanium
- Super-grippy full-titanium tip
- Ultra lightweight
- Premium quality and high-performance construction
- Longer than OEM
- Eliminates the risk of brake loss
- For the full line of SCAR titanium brake tips see page 296 of the 2024 Parts Europe Offroad catalog

TI FOOTPEGS

- Made from aerospace-grade titanium Grade 5 Ti-6AL-4V with chamber-controlled welding
- 57 mm cleated platform provides ample surface area and support for the most aggressive riding
- Super lightweight coming in under 300 grams per set
- Inner cleated webbing design provides added traction surface and strength to the footpegs
- Beveled front and rear edges prevent pegs from hanging up in deep ruts
- See page 284 of the 2024 Parts Europe Offroad catalog for Moose Racing's complete line of Ti footpegs

QUALIFIER FOOTPEGS

- Two-piece lightweight footpeg design
- CNC-machined aluminum alloy construction
- Extra-wide replaceable stainless steel footplate providing the rider with ultimate grip
- The stainless steel footplate also sits inside a rubber damper, helping to absorb shock
- Use your OEM springs
- Available in black only
- Replacement footplate PART #1620-1738 available separately
- See page 289 of the 2024 Parts Europe Offroad catalog for the complete line of Moose Racing Qualifier Footpegs

ADVENTURE SPORT QUALIFIER FOOTPEGS

- Moose's most popular footpegs now fit a number of popular Adventure Sport models
- Aggressive claw boot surface improves grip and stability in various riding conditions
- Polished stainless steel footplate sits inside rubber isolator to minimize primary vibration
- Two-piece light weight design includes wide replaceable stainless steel footplate
- CNC-machined aluminum alloy construction
- Durable gloss black powdercoated finish with Moose Racing logo
- Allows use of OEM springs for installation

HYBRID FOOTPEGS

- Each footpeg is cast from 17-4 stainless steel, given a solution-annealing treatment, and age-hardened for superior strength
- 57 mm (2 1/4") W x 90 mm (3 1/2") L
- Slightly convex platform for better boot positioning and grip when leaning forward or back
- Dual-plane teeth provide traction without the "stuck" feeling
- Available with 13 mm (1/2") rear offset to allow more space
- Use your OEM springs
- For the full line of Hybrid Footpegs, see pages 289-290 of the 2024 Parts Europe Offroad catalog
- Sold in pairs

BODY

EVOLUTION RACING FOOTPEGS

- The Evolution of the Standard footpeg; Scar is the inventor of footpegs with integrated component teeth (a registered design)
- Made from high-quality aerospace aluminum, then CNC machined; 40% lighter and 20% more resistant than OEM
- Exceptional grip with the new sharpened teeth made out of high-strength tempered steel
- The body of the footpeg is 57 mm wide (+10 mm compared to the stock pegs)
- Improved comfort and better control, thanks to an increased width, which provides 30% more surface area for greater shock absorption during high "G" loading (casing jumps, etc.)

REPLACEMENT PLASTIC FOR BETA

- Created using many exclusive and patented methods including DGP - Durable Gloss Polypropylene - Polisport's own developed technology that combines the highest levels of resistance and flex while maintaining a superior gloss finish and color brightness
- Injection-molded, quality plastic components with a perfect OEM fit
- Exact replica of stock OEM plastic components but stronger
- Inexpensive alternative to OEM replacement parts

- Stock color match
- Glossy and flexible
- Less prone to scratches
- See pages 352-353 of the 2024 Parts Europe Offroad catalog for additional Beta replacement plastic applications

¹ Vented design.

POWERFLOW INTAKE RADIATOR SHROUDS

- Cycra bypass airflow technology, or "powerflow", dramatically reduces radiator, fuel tank and engine head temperatures to prolong engine life
- Bypass scoop manipulates air velocity using a narrowing "powerflow channel" to accelerate airflow past the radiator

- Cools bike by maximizing radiator efficiency
- Injection-molded, precise fit and high gloss finish

HARDWARE & MERCHANDISING

CARBON FIBER SKID PLATES BY E LINE

- Thick composite plates with many advantages over aluminum
- The use of antiballistic composite material provides a longer fatigue life and greater tensile strength than aluminum
- Composite plates are molded to the exact shape desired, making for a closer fit and more protective plate
- Composite plates absorb vibration and do not amplify sounds like aluminum plates do
- When hit hard, aluminum permanently deforms, bending frame tubes and slicing into water pumps
- Composite plates will bounce back from hard hits and look great long after aluminum plates give up
- Skid plates protect the side engine cases and the water pump in addition to the frame and the center case
- Designed with a high front to keep mud from building up on the engine
- Mounting hardware included

• See page 416 of the 2024 Parts Europe Offroad catalog for Moose Racing's full line of carbon fiber skid plates by E Line

ALUMINUM SKID PLATE

- Protects vital engine parts and cases from rocks and debris
- Clear anodized for corrosion protection and good looks
- Skid plates made from 4,8 mm (³/₁₆"") 5052 H-32 aluminum (some plates use 4,1 mm (0,160"))
- Smooth underside won't snag when crossing logs
- Oil drain hole on all required models
- Heat-treated chromoly steel clamps keep plates mounted securely
- All mounting hardware included
- Replacement clamps available

• See pages 417-418 of the 2024 Parts Europe Offroad catalog for Moose Racing's complete line of aluminum skid plates

PRO SKID PLATES

- Made from a flexible high-density polyethylene construction
- HDPE is an excellent material: a technical plastic that offers many characteristics to protect your bike
- 6 mm thick for maximum protection of the frame and cases
- Goes through a thermoforming process and is then welded
- 40% lighter than 4 mm aluminum
- No more vibrating or rattling
- Mounting hardware and installation instructions included
- See page 420 of the 2024 Parts Europe Offroad catalog for Moose Racing's complete line of Pro skid plates

XTREM SKID PLATES

- Made for an extreme use
- Offers the maximum of protection needed for your bike
- Frame entirely covered, linkage and engine cases protection and provides water pump protection on the 4-stroke models

- Made of 8 mm HDPE plastic (2 mm more than the MX/SX range), it is a "one bloc" made and welded only in the inside for better resistance
- No vibrations, no deformation, lightweight and durable, the polyethylene is the perfect option compared to alloy or carbon

PLASTIC SKID PLATES

- The plastic HDPE skid plate is dedicated to motocross, supercross and classic enduro use
- Made from 6 mm thick polyethylene, it covers the underside of the frame, protects the lower engine and crankcases from projections
- Unlike aluminum, HDPE absorbs impacts, does not undergo deformation, does not generate vibrations and is 40% lighter

BILLET RADIATOR GUARD FOR KAWASAKI KLX 400 03-04, SUZUKI DR-Z 400 00-24

- New billet design provides excellent side and front impact protection
- Protects the radiator from collisions or crashes
- Clean design with maximum airflow
- Easy Installation; install both sides in less than 4 minutes
- Will not pair with radiator braces
- See pages 425-426 of the 2024 Parts Europe Offroad catalogue for additional billet radiator guard applications

DESCRIPTION	PART #
Billet radiator guard	1901-0952

RADIATOR SLEEVES

- Fits over the radiator louvers to prevent dirt, sand and mud from clogging the radiator
- Made from nylon-coated glass yarn material
- Easy installation – simply remove the louvers, slide on the sleeve and re-install on the radiator
- For the full line of radiator sleeves see page 428 of the 2024 Parts Europe Offroad catalog

XTREM RADIATOR GUARDS

- Especially made for Hard Enduro and developed with our pro riders in all conditions, these radiator guards offer a maximum of protection by wrapping the radiators and being against the central part of the frame to provide a maximum of rigidity and limit deformation
- Designed from 6 mm thick HDPE plastic with removable protection grids
- Provide more resistance to impacts, do not limit airflow and remove quickly to allow perfect radiator cleaning
- 4 mm thick aluminum base with spacers offering a strong rigidity

RADIATOR BRACES

- Cut in an aluminum plate 4 mm thick and light
- The protections are mounted at three points, two at the front and one at the rear
- This design laterally protects your radiators in the event of slow drops but also prevents them from rolling back during high-speed impacts
- The protection is provided for both sides with all the screws necessary for assembly

NOTE: Our radiator reinforcement will allow you to minimize damage. Radiator deformations may occur despite protection.

CHROMOLY STEEL FRONT SPROCKETS

- Machined from impact and wear resistant chromoly steel
- Inner splines are broached to provide maximum spline-to-countershaft contact - this helps distribute driveline forces over the largest possible area
- Heat-treated, then finished with a nickel coating for corrosion resistance and lubricity
- BE SURE TO CHECK FOR CLEARANCE WHEN ORDERING SIZES LARGER THAN STOCK
- See pages 530-540 of the 2024 Parts Europe Offroad catalog for the complete line of Moose Racing Sprockets

SPROCKETS FRONT SPROCKETS

- CNC machined from case-hardened and core-refined 655M13 nickel chromium steel
- Machined self-cleaning mud grooves at each tooth to help prevent mud buildup and increase wear resistance
- Certain models available in ultralight design for a 10 to 15% weight savings
- See pages 546 to 574 of the 2024 Parts Europe Offroad catalog for the full line of Renthal® sprockets

STEEL FRONT SPROCKETS

- Constructed from top-grade hardened steel; will last up to three times longer than aluminium sprockets
- Drilled holes for lower weight
- Special coating for extra durability
- Race-proven design offers optimal strength-to-weight ratio
- CAD-designed and laser cut
- See pages 588-619 of the 2024 Parts Europe Offroad catalog for the complete line of Moto-Master sprockets

SPROCKETS

FRONT SPROCKETS

- Durable hardened steel
- CNC-machined
- Ultralight with drilled weight reduction holes
- Coated for extra endurance

ALUMINUM REAR SPROCKETS

- CAD-designed and CNC-machined using state-of-the-art technology
- Optimized for maximum strength and lowest weight
- Aviation-grade 7075-T6 aluminium alloy construction
- Self-cleaning grooves between each tooth to prevent mud build-up
- Anodized coated surface for extra durability and sleek black finish

SPROCKET BOLTS AND NUTS

- Aerospace-grade titanium construction
- CNC-machined
- Ultra lightweight
- Sold in 6 pk.

JT SPROCKETS

- Computer-designed to achieve ultimate strength at minimum weight
- JT combines leading-edge technology with top materials to produce the ultimate quality sprocket range with unbeatable value
- Every sprocket meets or exceeds the highest possible quality standards
- Sprockets are heat-treated and bead-blasted to reduce material surface tension
- Front sprockets made with top-quality SCM420 chromoly steel alloy
- Steel rear sprockets made with top-quality Japanese C49/C50 high carbon steel; available as noted with an induction-hardened black zinc finish - these sprockets are made from C45 high carbon steel with teeth that are heat-induction hardened to 38-50 HRC
- Aluminum rear sprockets are made with high-strength Austrian 7075-T6 anodized aluminum
- JT aluminum sprockets are about 30% lighter than a comparable steel equivalent, which reduces unsprung rotating weight and improves performance
- Lightweight front sprockets available for some applications
- For the full line of JT Sprockets see pages 620-677 of the 2024 Parts Europe Offroad catalog

RUBBER CUSHIONED FRONT SPROCKETS "RB"

- Used by the major Japanese motorcycle manufacturers since early 1990s to dampen the chain impact on the teeth of the front sprocket
- These same sprockets are now available to the aftermarket
- Quality, design and OEM proven technology are the same as what is supplied to the motorcycle manufacturers

SELF-CLEANING SPROCKETS "SC"

- Manufactured with self-cleaning grooves for added life and performance
- Made of stainless steel

RACELITE ALUMINUM REAR SPROCKETS

- JT sprockets is proud to introduce the new RaceLite range of anodized 7075-T6 aluminum sprockets
- Available in hard wearing color options, see fitment section for details

KEY TO NOTES:

- RB = Rubber cushioned.
- SC = Self-cleaning steel.
- ST = Steel.
- BLK = RaceLite black aluminum sprocket.
- BLU = RaceLite blue aluminum sprocket.
- GLD = RaceLite gold aluminum sprocket.
- RED = RaceLite red aluminum sprocket.

NOTE: When installing sprockets which differ from OEM sizes, check for proper clearances before operating.

Moose Racing chain is made through an exclusive contract with a top European supplier. Moose Racing is in a state of constant development to bring you better chain at a competitive price. The recently developed FB technology is now proven. As the FB continues to impress, the development is paying dividends through the entire range of chains.

428 RXP PRO-MX CHAIN

- Non-O-ring chain
- Designed specifically for high-powered, mini-racing machines
- High application greased chain
- High-tensile strength nickel-plated inner link plates
- High-tensile rust-resistant gold-plated side plates
- Solid rollers
- Clip-type connecting link included
- Recommended for applications between 80/85 cc
- Replacement link available
- See pages 700-701 of the 2024 Parts Europe Offroad catalog for the complete line of Moose Racing chains

NO. OF LINKS	PART #
124	1222-0714

525 X-RING CHAINS

- Uses X shaped self lubricant seal allowing constant lubrication
- X-ring seals provides up to 7 times longer wear resistance than O-ring design
- Extra high-tensile strength link plates
- Rust-resistant gold-plated side plates
- Black inner and gold outer links
- Solid inner link and inner bushing
- Includes clip-type connecting link

NO. OF LINKS	PART #	NO. OF LINKS	PART #

O-RING CHAINS

- Uses O shaped self lubricating seal allowing constant lubrication
- Extra high-tensile strength link plates
- Rust-resistant gold-plated side plates
- Gold inner and outer links
- Solid roller inner link and inner bushing
- Includes clip-type connecting links

EK DEX SERIES CHAINS AND CONNECTING LINKS

- Economical QX-ring chain
- Features the Quadra X-Ring design which increases chain life from 1 1/2 to 2 times longer than a standard O-ring chain
- Replacement clip or rivet connecting links are available, sold separately
- See pages 706-707 of the 2024 Parts Europe Offroad catalog for the complete line of EK chains

Z-Ring "Spring effect"

520ZRE Z-RING CHAIN

- High-performance ZR chains with Z44 seal Z-ring sections
- Z-ring flexes when assembled, creating a spring effect that guarantees seal will not diminish over time
- Z-ring section also provides enhanced chain flexibility
- Features high-alloy steel plates and pins, solid bushings and rollers and shot-peened plates, pins and rollers
- Pre-stretched to enhance performance
- Clip-type and rivet-type links included
- Gold color
- See page 711 of the 2024 Parts Europe Offroad catalogue for the complete line of Regina 520ZRE chain

DAI-HARD (DHA) SERIES NZ NON O-RING CHAIN

- D.I.D.'s professional high-performance non O-ring chain
- DHA pin treatment - hard chromium-carbide layer formed on pin surface
- Far better wear resistance than other chains
- Up to 19% higher tensile strength
- Increased antioxidation performance
- Solid bushings, quad-riveted pins
- Originally comes with clip connecting link
- See page 713 of the 2024 Parts Europe Offroad catalog for the complete line of D.I.D.'s Non O-ring Chains

XRE (XW-RING) LIGHTWEIGHT HIGH PERFORMANCE CHAIN

- Ideal for OEM replacement of mid-size motorcycle
- Lightweight and durable chain provides quick and smooth acceleration
- Designed with cutting edge technology from various on-road and off-road racing
- RK's original double-X-shaped "XW-Ring" seal provides exceptionally long chain wear-life

- 428XRE tensile strength of 2753 kg (6.070 lbs) and maximum of 400 cc
- 520XRE tensile strength of 3719 kg (8.200 lbs) and maximum of 800 cc

428XRE (NATURAL) - CUT-TO-LENGTH

HEAVY-DUTY STANDARD CHAIN (H)

- Non-Sealed economical chain for heavy-duty usage, improved strength compare to standard chains
- Manufactured from carbon alloy steel, heat-treated and shot-peened for maximum strength and durability
- Pre-stressed and pre-stretched for superior performance and minimize elongation during the life of the chain
- Excellent quality and cost performance for heavy-duty motorcycle application

- Includes clip connecting link
- 520 H Tensile strength 3493 kg (7.700 lbs)
- See page 714 of the 2024 Parts Europe Offroad catalogue for the complete line of RK Heavy-Duty Standard Chain

COLORED CHAIN GUIDES

- Outer anodized plates made of CNC-machined 6061 aluminum
- 3D designed inner slider to help in not allowing buildup of debris around chain that may cause chain to derail
- TPU inner guide material provides perfect wear resistance for chain to ride on along with minimizing wear to the chain block
- TPU compound helps reducing load on swingarm and mounting brackets of chain guide due to impacts
- High-quality anodizing helps prevent fading in high UV climates

CHAIN GUIDES

- Made of reinforced polyethylene plastic
- It's designed in two parts, which allows it to be installed and dismantled without opening the chain
- The material used offers better resistance to obstacles and also a better durability

XCR REAR BRAKE PADS BY DP BRAKES

- Manufactured for Moose Racing by the originators of sintered brake technology, DP Brakes
- Trusted by top riders worldwide, these top quality pads are offered in two compounds to fit your needs
- Ultimate wet condition pads
- Low-wear S-47 sintered metal compound outlasts the gnarliest conditions
- High-tech gray zirconium-based ceramic applied extra thick to protect brake fluid from heat
- Perfect match with Moose Racing OEM-replacement or Mud-Proof Solid replacement rotors
- See pages 732-742 of the 2024 Parts Europe Offroad catalog for Moose Racing's complete line of brake pads and shoes by DP Brakes

NITRO BRAKE PADS

- Sintered metal pads offer a powerful initial bite and optimal wear resistance in extreme conditions
- They provide a progressive feel at the lever and offer high thermal stability up to 600 °C/1000 °F degrees; no fading on high-speed downhills
- 100% compatible with OEM stainless steel rotors, but are designed especially to match Moto-Master brake rotors in performance and feeling
- Bedding-in time is low as optimal pad/disc contact is achieved after eight to 10 stops
- Racing pads offer quicker bedding in times and stronger initial bite
- Racing GP pads are optimized for racing with maximum bite, and supreme temperature resistance
- Fit both front and rear for listed applications

BRAKE PADS

CERAMIC BRAKE PADS (HF)

- Replacement pad compound for motorcycles with non-sintered pads
- Ceramic compound offers long pad life, low dust and low brake disc/rotor wear
- Consistent performance in wet or dry conditions
- NUCAP NRS technology secures a mechanical, indestructible bonding of the pad compound
- Noise reduction technology for high comfort and low development of noise

RACING SINTERED BRAKE PADS (RST)

- Performance upgrade choice of MXGP FIM Motocross World Championship teams and riders
- Sintered compound formulated for high thermal stability, powerful and predictable fade-free performance
- Compatible with OEM standard brake discs and specially designed racing discs
- NUCAP NRS technology secures a mechanical, indestructible bonding of the pad compound
- See pages 761-793 of the 2024 Parts Europe Offroad catalog for the complete line of SBS brake pads

BRAKE PADS

SEMI-METALLIC/ORGANIC (1054)

- Great feel and modulation for OEM replacement
- Long lasting and very little rotor wear
- Good in wet and/or dry conditions
- Overall, a very versatile compound for almost every need

- GG friction rated
- See pages 755-760 of the 2024 Parts Europe Offroad catalog for the complete line of Galfer brake pads

DISC BRAKE PADS

TRQ TRACK RACING QUALITY BRAKE PADS

- Designed for maximum track performance while being street legal; enjoy a full day on the track and ride home on the same bike
- ONLY use for FRONT brake caliper
- Higher, more stable friction coefficient for greater braking performance
- Optimized direct response characteristics

- Innovative sintering process for exceptional thermal resistance
- Low pad and disc wear
- See pages 794-802 of the 2024 Parts Europe Offroad catalog for the complete line of TRW brake pads

DP BRAKES

DP PRO MX HIGH-PERFORMANCE BRAKE PADS

- Developed by Pro Factory riders
- High-performance HH-rated friction material
- Equally adept in wet or dry conditions
- No brake fade
- Excellent initial response and quick break-in
- Provides a competitive edge under all conditions
- Gray, state-of-the-art zirconium-based ceramic material on backplate works as a heat shield in maximum-stress race conditions
- DP PRO MX pads are available in a limited number of fitments
- MX Sport recommended for all motocross racing and competitive enduro use

DP SINTERED METAL BRAKE PADS

- GG friction material
- Equal performance in wet or dry conditions; no brake fade
- Ideal replacement on off-road bikes where durability is the prime requirement
- Gray aluminum oxide-based ceramic material on rear of backplate works as a heat shield in high-stress conditions

BRAKE SHOES

"G" GROOVED BRAKE SHOES

- All the features of EBC standard brake shoes, plus multiple-angle liner grooves designed to channel away dirt, dust, water and debris from the braking surface area to improve performance and extend drum and shoe life
- See pages 806-849 of the 2024 Parts Europe Offroad catalog for additional EBC brake pad and shoe applications

MUD-PROOF SOLID REAR DISC ROTOR

- Used by professional off-road racing teams around the world
- Made from high-carbon content stainless steel, which offers greater friction than standard discs
- No-holes design greatly prolongs brake pad life in muddy conditions
- Cut with a CAD/CAM laser machine, not stamped like stockers
- Perfect for muddy conditions, off-road or on the track

SUPERMOTO ROTORS AND ADAPTERS

SUPERMOTO STREET ROTORS

- The ideal solution for the rider who wants race-oriented performance without the cost of switching to a full Supermoto Racing setup
- Designed for use with stock brake calipers, Supermoto Street Discs are 4 mm thick and utilize a 320 mm floating design
- Like the flame design outer ring, the inner carrier is in premium quality stainless steel, mounted with 10 stainless steel floaters
- Discs must be used with Moto-Master matching CNC-machined black adapter bracket

- For optimal performance it is recommended to use Moto-Master matching brake pads in the racing compound with this brake setup
- ABE approved, unless noted
- See page 884-890 of the 2024 Parts Europe Offroad catalog for the complete line of Moto-Master supermoto racing kits

SUPERMOTO RACING KITS

- Race-ready setup in one complete kit that includes all of the following:
- 12 mm radial master cylinder
- Stainless braided brake line
- Two-piece, 320 mm floating Flame racing disc
- 4-piston CNC-machined racing caliper and adapter bracket
- Mounting hardware
- Racing compound front brake pads
- Not ABE approved
- See page 884-890 of the 2024 Parts Europe Offroad catalog for the complete line of Moto-Master supermoto racing kits

ADAPTER BRACKETS FOR SUPERMOTARD STREET AND SUPERMOTARD RACING ROTORS

- Adapter bracket is needed to mount Supermotard Street and Supermotard Racing Discs
- Fully CNC-machined 6082 billet aluminum construction
- Supermotard street adapter brackets are used to relocate the stock brake caliper; Supermotard racing adapter brackets are for use with Moto-Master Supermotard 4-piston front caliper (PART# 1701-0592, sold separately)
- 320 mm adapter brackets are ABE, unless noted

FLOATING FLAME FRONT BRAKE DISC

- Unique Flame design offers optimal cooling and unsurpassed smooth braking action
- For best performance we recommend using Moto-Master brake pads.
- Instant bolt-on performance upgrade for your bike

RALLY/DAKAR 298 MM

Floating Grooved

WAVE® ROTORS

- Made of Galfer's unique laser-cut high carbon 420 stainless steel/8 composite
- Laser-cut and double-disc parallel ground to assure perfect flatness and excellent feel
- Rotors cool as they rotate to lower brake operating temperatures

- Do not require any extra parts for install
- Manufactured in Spain
- See pages 895-908 of the 2024 Parts Europe Offroad catalog for the complete line of Galfer Wave® rotors

WAVE® ROTORS continued on next page.

SHARK BRAKE ROTORS

- Reduces unsprung weight
- Increases braking power
- Improves heat dissipation
- Excellent resistance to corrosion
- Less tendency to warp
- 3 mm front thickness
- 4 mm or 5 mm rear thickness

OVERSIZED BRAKE DISC KIT

- Bolt-on brake performance upgrade in a box
- Kit includes oversize front brake rotor
- Oversize front brake rotors are 270 mm (unless noted in chart)
- Kit also includes all necessary brake pads for complete replacement
- Include brake caliper relocation bracket
- See pages 898-900 of the 2024 Parts Europe Offroad catalog for the complete line of brake disc kits

BRAKE CALIPER ADAPTER

• Fully CNC-machined 6082 billet aluminum adapter brackets are used to relocate the stock brake caliper to accommodate oversize discs

• For rear 240 mm oversize Flame discs

NOTE: Use only in combination with 16" to 17" wheels.

PRO SHARK FIN DISC PROTECTORS WITH BRAKE CARRIER

FOR SHERCO 13-20 (ALL)

- The burliest rear disc guard on the market, offering protection for the caliper and the rotor
- This disc protector replaces the entire brake carrier for the most coverage available
- Replacement lower fin available, PART #M13-051, sold separately
- See page 948 of the 2024 Parts Europe Offroad catalogue for additional Moose Racing Pro Shark Fin disc protectors with brake carrier applications

DESCRIPTION	PART #
Pro Shark Fin disc protector with brake carrier	1711-1349

REAR ROTOR GUARDS

- Great way to personalize your bike or add extra protection for the rear rotor against rocks and debris
- Provides better protection versus the standard plastic OEM guards
- Mounts to existing mounting points on rear brake caliper bracket
- CNC machined from 6061-T6 aluminum
- Anodized colors that match the brand
- See page 947 of the 2024 Parts Europe Offroad catalog for the full line of Moose Racing Rear Rotor Guards

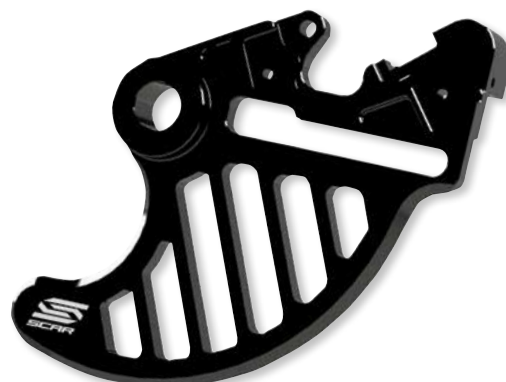

FITS MODEL	COLOR	PART #

HUSQVARNA		
FE 250/450/501, TE 250/300 22	Red	1711-2267

REAR DISC GUARD

- Ultimate protection for the rear brake disc
- Machined from a single piece of aluminum with a black anodized finish
- Also replaces the brake caliper support
- See page 950 of the 2024 Parts Europe Offroad catalog for the complete line of SCAR rear disc guards

REAR DISC GUARD

- CNC-machined design, made of 10 mm thick aluminum affixed to 12 mm thick plastic (HDPE)
- Aluminum allows a strong fixation while the hard plastic provides good protection to your bike
- Thanks to the flexibility of the plastic, your disc brake will be protected all the way without any risk of being blocked by a bent part as aluminum could be

REAR BRAKE RESERVOIR COOLING EXTENSIONS

- Increases the amount of brake fluid in rear reservoir
- Reduces brake fade
- CNC-machined
- Can be fitted in seconds
- Includes rubber gasket

- Anodized black finish resists corrosion
- See page 951 of the 2024 Parts Europe Offroad catalog for the complete line of SCAR rear brake reservoir cooling extensions

STAINLESS STEEL BRAIDED BRAKE LINES

- Swivel union ends are the secret to easier fitting, and ensure a kink- and stress-free installation
- Venhill Engineering in the UK makes Moose Racing Stainless Steel Brake lines to the highest specifications
- Each line is made from top-quality PTFE-coated hose, wrapped with British-made stainless steel and PVC-coated for protection and great looks
- Rubber protection boots and extra rigid tubing are used to protect vulnerable areas from heat and impact and to prevent hose flex under compression

- Each line is designed to withstand a minimum of 14,000 psi
- Installing our stainless lines gives a large performance increase by significantly reducing expansion under pressure, and absorption of water when compared to stock rubber hoses
- See page 954 of the 2024 Parts Europe Offroad catalog for Moose Racing's complete line of stainless steel braided brake lines

OEM REPLACEMENT STAINLESS STEEL BRAKE LINES

- Developed to replace the bike's original brake line, this braided stainless steel brake line is a great improvement for any brake system
- Protected with a durable yet lightweight PVC covering, which allows it to stand up to heavy abuse while also providing a tremendous increase in feel and response due to reduced flex over a standard OEM plastic line
- The banjos are in rust-free stainless steel, swaged-pressed and turnable to allow torsion-free mounting on the bike without the risk of a banjo coming loose

- All lines come packaged with the necessary mounting hardware including banjo bolts and copper washers, along with fitment instructions to help with installation
- For the full line of Moto-Master OEM Replacement stainless steel brake lines see pages 955-958 of the 2024 Parts Europe Offroad catalog

SX-1 COMPLETE MINI WHEELS

- Moose hubs are made from forged 6061 T6 aluminum with a high-quality gray anodized finish that doesn't fade
- Our stainless steel spokes are made from T3002H stainless for maximum tensile strength
- Moose uses extruded 7000 series aluminum for best durability and strength
- Rims are treated with a 3-stage heat treatment process for added strength
- Wheels come complete with OEM-style spacers
- All spokes are polished to maintain surface strength
- See page 977 of the 2024 Parts Europe Offroad catalog for the complete line of Moose Racing SX-1 complete mini wheels

COATED STEEL SPOKE SET

- Chrome-plated steel spokes are interchangeable with Moose and stock rims and hubs
- #45 grade steel meets or exceeds OEM standards
- Consistent-diameter design offers superior strength over stock
- Spokes come with matching nipples
- Sold in sets or individually
- See pages 978-979 of the 2024 Parts Europe Offroad catalog for Moose Racing's complete line of spokes and spoke sets

REAR WHEEL BEARINGS AND SEAL KITS

- Kit includes all bearings and seals to refit a wheel
- Premium high-speed bearings with low-drag double-lip seals and nitrile elastomer outer seals to keep water and dirt out, extending bearing life
- Packed with Chevron SR1-2 high-performance grease with rust and oxidation inhibitors
- Kits are per wheel
- See pages 996-1001 of the 2024 Parts Europe Offroad catalog for the complete line of Moose Racing wheel bearings and seal kits

WHEEL BEARING AND SEAL KIT

- Exact OEM replacement bearing and seal kits bring back the steering and braking control lost due to worn or rusted wheel bearings
- Kit includes necessary bearings and seals to completely rebuild each hub
- Double-sealed ball bearings keep moisture and contamination from entering bearing

- Seals ensure proper fitment
- For the full line of wheel bearing and seal kits see page 1009 of the 2024 Parts Europe Offroad catalog

REAR WHEEL BEARING KITS

- Our advanced premium off-road wheel bearing kit contains all elements required for a full service of your wheel hub
- Factory-Links ball bearing features a dedicated off-road design with dust seals that offer the ultimate protection against the intrusion of contaminants such as water, mud and dust
- Our Nitrile Butadiene rubber double-lip oil seals and DINP6 - ABEC3 ball bearings have established a categorical improvement over conventional bearings
- Bearings are packed with a heavy-duty premium marine grease that features special thickeners which allows it to be virtually waterproof to provide unsurpassed rust and corrosion protection
- See pages 1004-1008 of the 2024 Parts Europe Offroad catalog for the Factory Links' full line of wheel bearing kits

WHEEL SPACERS

- Replace or upgrade OEM wheel spacers with these durable replacements
- Water and dirt grind between wheel bearing seals and soft OEM aluminum wheel spacers; this creates grooves and allows for bearing contamination
- Moose Racing wheel spacers feature hardened steel contact surfaces
- This makes for a tight seal that will last for years and keep your bearings fresh
- Our spacers are made from hardened steel shell, or solid - hardened and ground bearing steel, depending on application

- Upgrade to Moose Racing wheel spacers when you replace damaged wheel bearings, or before you have to
- Kits come with two spacers, unless called out in catalog
- See pages 1019-1020 of the 2024 Parts Europe Offroad catalog for the complete line of Moose Racing wheel spacers

AXLE PULLS

- Makes wheel removal and installation faster and easier
- Takes only seconds to mount
- Durable billet aluminum construction with black anodized finish
- Handle and split-bevel design allows the user to simply pull axle out
- See page 1023 of the 2024 Parts Europe Offroad catalog for the complete line of SCAR axle pulls

RIM TAPE

- 7 mm wide rim transfers for motorcycle and scooters rims give a great visual boost
- It can also serve as a separation between different colors on bodywork panels or to accentuate specific contours
- Includes one 6 m roll of rim tape
- Sufficient for two rims up to 45,72 cm

UNIVERSAL 50 cc TRAINING WHEELS

- Works on any 50 cc motorcycle
- Adjustable for terrain and riders' skill level
- Solid steel axle with CNC machined components for accurate fit
- 20,5 cm (8") pneumatic wheels with 4-ply tires
- Sealed ball bearings
- Hardened fasteners

WARNING: FAILURE TO USE THE APPARATUS CORRECTLY CAN RESULT IN SERIOUS INJURY OR DEATH. ONLY USE THESE TRAINING WHEELS FOR THE INTENDED TRAINING PURPOSE. THIS IS ONLY A TRAINING AID!!!!

S46 OFFROAD SHOCK

- STX-technology
- Great dynamics equal optimum function
- Rebound adjuster
- Wide range of low speed compression adjustment, 3 clicks high speed adjustment
- Comes equipped with our Position Damping System (PDS)
- Full maintenance and service capability

FITS MODEL	PART #	FITS MODEL	PART #	FITS MODEL	PART #

STX 22 CARTRIDGES

- STX-technology
- Low profile top cap design making it possible to move the fork tubes far up the triple clamps
- Efficient hydraulic stop for improved bottoming resistance
- Adjustable compression and rebound
- Spring pressurized system to compensate for heat changes and provide reliable damping behavior
- Converts air forks to spring type forks for better reliability and constant performance
- Full maintenance and service capabilities

RXF 48 FRONT FORKS

- 48 mm front forks fully loaded with the TTX 22 cartridge kits inside and the latest Öhlins front fork technology
- Main piston performance in the cartridge kit is improved thanks to the springs fitted to the kit; inner tubes feature a titanium oxide treatment
- Check valve unit helps the forks stay up in stroke without feeling too hard, which also improves the overall performance
- Hard enough to resist stones but is still solid enough to prevent corrosion
- Come with protective stickers for the outer tube to protect the outer tube all way up to the lower clamp

TTX 22 CARTRIDGE KITS

- Cartridge kits with patented TTX design
- Gas pressurized damping system for immediate damping response
- Easy installation in OE front forks
- External compression and rebound adjusters
- Improved hydraulic stops to improve bottoming resistance
- Springs, oil and installation tools sold separately
- New top out rubber for smoother top out feeling
- Available for all major MX and Enduro models

FORK SPRINGS

- Available in multiple rates to help you dial in the front suspension
- Recommended fork oil viscosity and oil fill height (mm, measured from top of the fork tube, collapsed, with spring removed) or fork oil volume (cc) listed in chart (where applicable)
- See pages 1038 to 1040 of the 2024 Parts Europe Offroad catalog for additional front fork spring kits

COMPRESSION ADJUSTER KIT FOR KYB AOS FORKS

- Designed to fit motorcycles 06-Present fitted with KYB AOS/SSS forks
- Allows for easy adjustments to compression damping without the use of tools
- Includes Motion Pro Micro Bleeder Set PART #0404-0280 to allow for tool-free fork bleeding
- Anodized billet 6061 aluminum construction with stainless steel adjuster knob
- Requires 10 mm handlebar clearance above top of fork cap
- Kit includes complete set to fit both fork legs

DESCRIPTION	PART #
Compression adjuster kit for KYB AOS forks	3801-0421

FRONT FORK SPRING COLLARS

- Include guide bush and spring seat
- See page 1054 of the 2024 Parts Europe Offroad catalog for the complete line of KYB front fork spring collars

FRONT FORK SEALS

- High quality replacement fork seals
- Most performance models available in "NOK" anti-stiction material
- Dual compound seals have a green tough durable part that maintains a high surface grip without compromising friction and a red soft and flexible part that adapts to any micro-imperfections of the fork tube
- Sold in pairs
- See pages 1081-1083 of the 2024 Parts Europe Offroad catalog for the full line of Athena Front Fork Seals

FORK ROD CARTRIDGE SEALS

- Meticulously crafted from superior low-friction NBR compounds
- Ensures damping performance with reliable fluid separation inside the fork
- Allows the use of different fork fluids inside the fork assembly to optimize overall performance
- Lip shapes designed to minimize friction and enhances damping settings for smoother ride
- Compatible with a wide range of OEM and aftermarket suspension fluids
- High efficiency during operation; prevents pressure loss and annoying leaks

FORK MUD SCRAPER KITS

- Prevents dirt from entering fork and effectively cleans dried mud from stanchion providing superior water and dirt protection
- Engineered for optimal seal protection
- Feature low-friction plastic material ensuring top-tier performance under severe conditions
- UV-light resistant

- Designed to reduce seal contamination
- User-friendly installation; can be installed in-field without need for fork or wheel removal
- Includes two mud scrapers and stainless steel assembly pins
- Can operate with a long stroke and at high speed

FORK SEALS AND DUST SEALS

- Seal profile is engineered to create equal pressure in each seal lip; equalized seal pressure creates less drag and longer seal life
- MAX-LIFE has a coefficient of friction up to three times less than the OEM seal material
- Triple-lip seal design
- Directional ribs allow seal to be installed easily

FORK BUSHING KITS

- Maintenance free bushings that combine the robustness of steel with the low friction of a PTFE-based self-lubricating sliding layer
- Composite fork bushing eliminates the need for regular maintenance while still ensuring consistent performance
- Thin bronze layer forms a robust bond between the backing and sliding surfaces to enhance heat dissipation
- Steel body ensures strength and is copper plated to safeguard against corrosion
- PTFE-based sliding surface minimizes friction and provides a low-wear performance
- Widely adopted in premium motorcycle applications globally

46/50 MM FORK CAP WRENCH

- For removing the caps on Showa MX forks
- One end is 46 mm, the other is 50 mm
- Can be used for removal of the compression stack
- CNC machined for precise fit and tolerance
- 6061 aluminum material is non-marring on fork caps

DESCRIPTION	PART #
46 mm/50 mm fork cap wrench	3805-0162

FRONT FORK OIL

SS05

- 15,1 cSt at 40 °C (104 °F) in bright red color
- High-performance, front fork oil for high-hydraulic speeds; increases front fork rider feeling compared with OEM oil
- Low friction and longer durability
- Can be used both on- and off-road

DESCRIPTION	SHOWA REFERENCE #	PART #
SS05		
5 L	L598005005	3608-0035
20 L	L598005020	3608-0021

3608-0021

3608-0037

A15-00

- 15,1 cSt at 40 °C (104 °F) in orange color
- Reduces the friction and gives more feeling to the rider; developed in MXGP and AMA
- Low friction in low speed
- Can be used both on- and off-road

DESCRIPTION	SHOWA REFERENCE #	PART #

TTX FLOW DV SHOCK ABSORBERS

- TTX-technology
- New efficient high speed compression adjuster
- New compression valve interface for optional pressure control
- New rebound needle and shaft jet design
- Stronger 16 mm shaft
- Patent pending flow valve dynamic control
- Great bottoming resistance
- Easy spring change due to unique spring clip design
- Wide range of optional springs

SHOCK SEAL HEAD COMPLETE KITS

- Designed to enhance suspension performance and increased durability
- Unique and compact solution to maximize stroke and minimize the shock absorber length
- Made of a specially developed NBR compound for temperatures of -40 to 140 °C
- Ensures robust sealing over a wide temperature range
- Plastic back up ring is a key element that reduces friction and wear
- Proprietary designed rebound bumper and mating plate provide smoother kick back and extended operational life
- Static outer diameter seal design allows for easier assembly and removal
- Provides better feel and comfort when riding

SHOCK SEAL HEAD REPLACEMENT KITS

- Overhaul kit for mono-shock absorbers
- Meticulously designed to provide a precise response to terrain irregularities
- Uses high-quality materials
- Includes necessary components for periodic maintenance of the mono-shock absorber on offroad motorcycles equipped with SKF's innovative seal head unit
- Designed for seamless installation directly onto the rigid support and is fully integrated with other shock absorber components

PISTON SEAL

- Designed for optimal oil/air retention in both 2-wheel fork and shock absorber applications
- Crafted with superior low-friction NBR compounds and a refined seal design
- Dynamic lips supported by strategically placed back-up rings ensure stability and consistent performance across various pressures
- Inclusion of metal insert in the design ensures an optimal seal contact pattern between the piston seal, shaft and housing
- Engineered with reduced axial space to create more room for the damping chamber contributing to improved overall performance
- Compatible with a wide range of OEM and aftermarket suspension fluids
- Streamlined installation process allowing riders to enjoy cutting-edge hassle-free technology

SHOCK ABSORBER RESERVOIR BLADDER CONVERSION

- Designed to reduce the amount of friction generated inside the shock absorber and increase the gas volume inside the reservoir
- This improves compliance on low-speed movements of the rear wheel and makes the shock react more consistently over differing temperature ranges
- Improves rear wheel traction

- Reduces shock temperature
- Better damping stability
- Reduces friction

NOTE: Recommended to be installed by a suspension specialist as specific tools are required to disassemble the shock, please refer to the fitting instructions.

1313-0255

DESCRIPTION	PART #	DESCRIPTION	PART #
For 23-later WP XACT 5057 shock with 69 mm reservoir	1313-0255	For WP XPLOR shock with 49 mm reservoir	1313-0257

HIGH PERFORMANCE LITHIUM MAX BATTERIES

- Crafted to exceed the exacting standards of modern vehicles including off-road bikes, V-Twins and ATV/UTV vehicles
- Features robust brass terminals and larger polymer cells
- Delivers unrivaled performance with enhanced CCA and capacity
- Engineered to meet the latest electrical standards
- Tailored to seamlessly integrate into present-day motorcycles as original equipment manufacturer fittings
- Ready to use: just plug-and-play
- Fast charging
- Multi-positioning mounting and light weight
- Very safe and environmental friendly
- Extensive cycle life: over 2.000 cycles
- Very low self-discharge
- Cold temperature performance
- Heat temperature resistance up to 230 °C
- Waterproof design

SLA FACTORY-ACTIVATED AGM MAINTENANCE-FREE BATTERIES

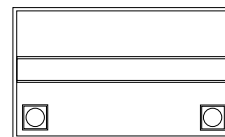

- AGM construction (Absorbed Glass Material)
- VRLA battery (Valve Regulated Lead Acid)
- Sealed and factory-activated
- Spillproof design
- Multi-positional fitment
- Ready and easy to use
- Increased power and extended life
- Extreme vibration resistance
- See page 175 of the 2024 Parts Europe Offroad catalog for the complete line of BS Battery SLA Factory-Activated AGM maintenance-free batteries

YUASA BATTERY SPARE PARTS

- Bolts and nuts sold in packs of five sets of two each

DESCRIPTION	PART #
Bolt/nut set (2 ea.) 6 x 11 mm (5 pk.)	2113-0079

DISCLAIMER: SEE PAGE 4 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

BS 30 SMART BATTERY CHARGERS/MAINTAINERS

- Easy to use: connect and forget
- Includes nine stages of charge to enhance the performance of all your powersports batteries
- Designed for batteries up to 60Ah
- Auto detect lead acid or lithium technology
- Adaptable charging algorithm for lead acid and lithium (LiFePO4)
- Safe: connection spark free, reverse polarity, short circuit and internal overheat protection
- 12V smart battery charger and maintainer rated at 3A
- Includes one clamp set and one fused ring terminal set
- Multiaxis hook

DESCRIPTION	PART #
EU plug	3807-0587
UK plug	3807-0706

BS 10 SMART BATTERY CHARGERS/MAINTAINERS

- Ideal for maintenance
- Very safe and compact
- Easy to use: connect and forget
- Includes nine stages of charge to enhance the performance of all your powersports batteries
- Designed for batteries up to 20Ah
- Auto detect lead acid or lithium technology
- Adaptable charging algorithm for lead acid and lithium (LiFePO4)
- Safe: connection spark free, reverse polarity, short circuit and internal overheat protection
- 6V and 12V smart battery charger and maintainer rated at 1A
- 6V and 12V manual switch selection
- Includes one clamp set and one fused ring terminal set

DESCRIPTION	PART #
EU plug	3807-0464
UK plug	3807-0696

FLEECE WIRE HARNESS TAPE

- Cloth wiring tape
- Useful for noise dampening in wiring looms
- Highly abrasion resistant
- 25.4 mm (1") wide x 25 m (82') long roll
- Sold each

DESCRIPTION	PART #
Fleece wire harness tape	2130-0374

WIRELESS VIBRATION SENSITIVE HOUR METER

- Enhance your motorcycle adventures
- Accurately tracks engine running hours, offering valuable data for maintenance planning and performance assessment
- Simple to install using the provided adhesive
- Detects engine operation by interpreting and distinguishing frame vibrations
- Lock Mode feature allows you to pause hour counting; helpful during maintenance and transportation to avoid false readings
- Shock-resistant and waterproof design
- Perfect for extreme conditions, ensuring your bike performs at its best in any situation
- Sensitivity adjustment
- Total and partial counter
- Water-resistant IP67 certified

DESCRIPTION	PART #
Wireless vibration sensitive hour meter	2212-0904

STARTERS

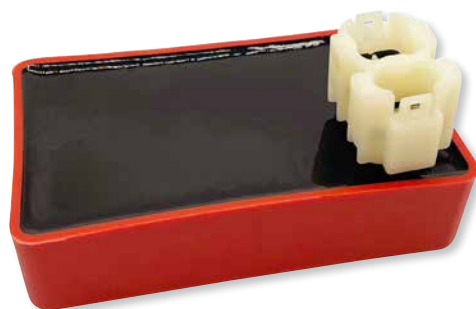

- Affordable starters are constructed with longer-life bearings than OEM
- Many OEM starter motors have an unprotected output needle bearing on the outside of the output shaft's seal; moisture can and does enter the output cap of the electric motor and follows the armature shaft to the unprotected output needle bearing, which corrodes the bearing
- Rick's takes the extra step of installing a double-sealed ball bearing, with the output shaft seal on the outside of the bearing in their new aftermarket unit
- This simple application of common-sense engineering does two things: first, the outside bearing is now protected from damaging water entry, and second, the sealed ball bearing is replaceable
- See page 1221 of the 2024 Parts Europe Offroad catalog for the complete line of Rick's Motorsport Starters

HOT SHOT SERIES CDI BOX FOR HONDA XR 650L 93-21

- CDI box enhancements include duplicator circuits, increased rpm redline and altered ignition advance curves
- Designed to enhance overall performance when installing a high-flow jet kit
- Also may be used to replace defective CDI box on stock machines
- See page 1224 of the 2024 Parts Europe Offroad catalog for the complete line of Rick's Motorsport Hot Shot Series CDI Boxes

DESCRIPTION	PART #
Hot Shot series CDI box	2110-0479

LITHIUM-ION FRIENDLY CHARGING KIT

- Rick's Motorsport original design
- Includes both a stator and a lithium-ion friendly rectifier-regulator
- Will put out approximately 150W and power a 55W headlight if the bike's rotor has not been compromised
- Supplies constant power to the bike's battery
- See page 1227 of the 2024 Parts Europe Offroad catalog for the complete line of Rick's Motorsport Lithium-ion Friendly Charging Kits

NOTE: This kit is not for use with standard lead acid batteries. The voltage point is set to 14V +/- 2. Please contact the manufacturer of your lithium-ion battery to ensure the product has the correct set point.

DESCRIPTION	PART #
D4 LED light pods	2001-2949

D4 TriOptic™ LENS KITS

- D4 TriOptic™ lenses have three distinct optical zones, allowing for different focal lengths or light patterns which increase visibility in various lighting conditions

- Kits include two spot lenses and two True-Hybrid™ lenses; use spot lenses for maximum distance, two Hybrid lenses for a balanced lighting solution

DESCRIPTION	PART #	DESCRIPTION	PART #
D4 TriOptic™ lens, amber	2040-3388	D4 TriOptic lens, yellow	2040-3375

SLIP-ON BLACKOUT COVERS

- The rugged silicone construction of the slip-on covers protect from rocks and other debris, providing a longer lifespan for your Denali D4 LED lights
- Blackout covers keep your bike street legal in states that require aftermarket lighting to be covered on public roads

DESCRIPTION	PART #
Blackout covers	2040-3389

DIALDIM™ LIGHTING CONTROLLER

- This controller allows you to manage two sets of lights independently with a single, intuitive interface
- The DialDim™ monitors your battery health, displaying voltage status on startup and implementing a low-voltage cutoff to prevent you from being stranded
- Designed for easy installation; comes with a 22 mm (7/8") handlebar mount, making it a perfect fit for most motorcycles
- Included Functions: on/off & dim, high/low sync, stealth mode, cancel with turn signal and strobe with horn

DESCRIPTION	PART #
DialDim™ lighting controller	2050-0544

BIG BORE CYLINDER KIT FOR YAMAHA YZ 250 99-25

- Ready-to-install, direct bolt-on cylinders require no re-plating and look virtually identical to the OEM cylinders
- Cylinder kits include matched Vertex pistons to ensure longevity, performance and reduced engine noise
- Nickel silicon carbide-plated for long life
- Kits come complete with gaskets, cylinder, piston, rings, pin and clips
- Big Bore cylinders do not require machine work
- For the full line of cylinder kits see pages 1281-1282 of the 2024 Parts Europe Offroad catalog

DESCRIPTION	BORE (MM)	PART #
Big Bore kit	72	0931-1163

TOP-END PISTON KITS

- All pistons are heat-treated with a T-5 hardening and tempering cycle
- All piston skirts are coated with a high-tech Molybdenum Disulphite coating for faster break-in time and increased piston life
- Cast piston kits are gravity-cast aluminum alloy (not forged) with 18% silicon content, which produces an extremely light but very strong piston
- Forged pistons are forged from 2618 aluminum for superior strength and durability
- Forged High Compression pistons improve power and torque across entire rpm range
- Forged Replica pistons are forged OEM replacements
- Replica pistons and all rings are OEM replacements
- Top-end piston kit includes piston, rings, pins, circlips, top-end gaskets, wrist pin bearing when applicable and cam chain when applicable

0910-6821

PISTON KITS

- Forged from aerospace-grade aluminum alloys and heat-treated for strength and durability using Wossner's state-of-the-art heat treatment process
- CNC-machined using MAZAK® advanced technology maintaining high precision and accuracy through every machining step
- Reduced product distortion and variability
- Enhanced piston pin oiling slots, radial boss machining and annular grooves for improved wrist pin lubrication
- Piston skirt profile and camming are specifically tailored to each application for reduced friction, smooth operation and reduced noise from rockover
- Piston skirts are coated for reduced friction and improved break-in performance
- Select applications have coating treatments to protect from harsh tuning environments
- Piston rings are made from premium alloy steel and feature treatments to improve ring seal and extend wear life
- Kits include piston, piston rings, piston pin and retaining clips
- See pages 1350-1357 of the 2024 Parts Europe Offroad catalog for the complete line of Wossner Piston kits

4-STROKE KITS

- Crown options available for stock and altered compression ratios
- Ring land treatments for improved ring seal and oil control, as well as gas porting on featured applications for the strongest compression ring seal

2-STROKE KITS

- Offered in standard graded sizes as well as oversizes for select applications
- Optimized machining for lightness, as well as maintaining strength in key areas such as crown and skirt wall cross-sections
- External machining optimized to prevent port venting for extreme applications with race porting

OEM STROKE CRANKSHAFT ASSEMBLY

- Premier alternative to costly OEM crankshaft
- Forged from 4140 steel and precision machined
- Sold complete and ready for installation with the original proven Hot Rods connecting rods, top end bearings and crankshaft webs
- Multi-cylinder applications are sold complete with main bearings (unless specified otherwise)
- Gears are made at a quality level of DIN class 9 or higher
- Assembly sold complete with Hot Rods connecting rod
- Factory assembled and trued to OEM specifications, Hot Rods cranks will meet or surpass the OEM in performance durability

- Ready for installation
- Crankshafts are fully rebuildable with genuine Hot Rods connecting rods and bearings (except Stroker)
- Main bearings not included
- See page 1366 of the 2024 Parts Europe Offroad catalog for the complete line of Hot Rods OEM crankshaft assemblies

CRANK BEARING AND SEAL KIT

- Precision crank bearings
- Kits contain right and left crankshaft bearings and outer seals
- Seals designed with a fluorocarbon lip to reduce dry start friction on 2-stroke engines
- See page 1368 of the 2024 Parts Europe Offroad catalog for the complete line of Moose Racing crank bearing/crank and seal kits

HI-PERFORMANCE OFFROAD GASKETS AND SEALS

- Gaskets and gasket sets used by professionals in high-performance machines and as OE replacements worldwide
- Each PART # contains the proper amount of gaskets for one application
- See pages 1374-1378 of the 2024 Parts Europe Offroad catalog for the complete line of Cometic Gaskets

TOP-END GASKET KITS

- Top end gasket kits include correct base, head gasket and cylinder O-rings as well as other top end specific O-rings or seals needed for R&R of top end
- Materials will vary depending on what is correct and engineered for specified application
- Purchase a top and a bottom end gasket kit for a complete gasket kit when doing a total engine rebuild

COMPLETE AND BASIC BOTTOM-END GASKET KITS

- Basic bottom end gasket kits include cover gaskets; some kits have crank seals (see footnote in chart)
- Complete bottom end kits include all necessary gaskets, seals and O-rings for a complete bottom end rebuild including crank seals
- Materials will vary depending on what is correct and engineered for specified application

NOTE: GASKET DESIGNATIONS: Reed=R, Power Valve=PV, Exhaust=E

CLUTCH COVER GASKETS

- Clutch cover gaskets are made from an AFM material which is a chemically-blown, compounded nitrile synthetic rubber bonded to an aluminum core
- Aluminum core gives the gasket strength for a superior seal and prevents the gasket from weeping or crawling out in today's engine cases with limited sealing surfaces
- No sealants required for installation
- Saves service time as AFM will not stick to the engine case, making replacement quick and easy, no more scraping

COMPLETE CRANKSHAFT AND OIL SEAL KITS

- Domestically made sets include the correct number of seals for one application
- Available in complete oil seal sets as well as crankshaft oil seal kits

HI-PERFORMANCE OFFROAD GASKETS AND SEALS continued on next page.

GASKET SETS

- Superior-quality gasket sets from Athena S.p.A
- Head gaskets feature rubber-coated spring steel construction
- Soft steel base gaskets are rubber coated
- Steel core materials feature high spring-back and superior tensile strength
- Revolutionary transparent coating guarantees a perfect seal even at extremely high temperatures
- High-temperature blue silicone beading on most critical flat gaskets
- See pages 1388 to 1390 of the 2024 Parts Europe Offroad catalog for the full line of Athena Gasket Sets

TOP-END RACE GASKET KITS

- Specifically designed for the pro, semi-pro and amateur rider who freshens up their engine prior to a race or during mid-season
- Kits include a top-of-the line MLSS head gasket and two or more premium quality base gaskets of different thicknesses to optimize engine compression ratios
- Gives the rider a choice of using standard gas with stock compression, or race gas with a higher compression
- Kits do not include valve stem seals, rubber parts, shims, or other fiber gaskets

TOP-END AND COMPLETE GASKET KITS

- Include all necessary top-quality gaskets, rubber parts and valve stem seals to rebuild top-end and complete engines respectively

CLUTCH COVERS

- Rekluse clutch covers are specifically engineered to provide unparalleled durability and performance in a single, stylish component
- Covers are ready to ride whenever you are, standing up against rocks, logs, boots and whatever else you may encounter in your adventures
- Billet aluminum construction provides incredible strength
- Clutch covers are double hard anodized to further enhance durability and wear resistance
- Rekluse covers have a greater depth than OEM designs, allowing increased oil capacity
- See page 1416 of the 2024 Parts Europe Offroad catalog for additional Rekluse clutch covers

CLUTCH COVER FOR TRIUMPH TF 250-X 24

- Improves heat dissipation
- Stronger than stock
- Precision machined from billet T6 aircraft-quality aluminum
- Race proven by virtually every factory race team
- Hard-coated to resist boot wear

DESCRIPTION	PART #
Clutch cover	0940-2211

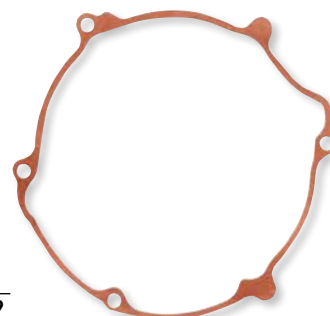

FACTORY CLUTCH COVER REPLACEMENT GASKET

FOR HONDA CR250R 02-07

- Replacement gasket for Factory Clutch Cover PART #s CC-02AB and 0940-0223
- See full line of Factory Clutch Covers and Replacement Gaskets on pages 1412-1414 of the 2024 Parts Europe Offroad catalog

DESCRIPTION	PART #
Clutch cover gasket	0934-7889

DISCLAIMER: SEE PAGE 4 FOR IMPORTANT INFORMATION REGARDING CERTAIN WARRANTY AND EMISSION CONTROL REGULATION COMPLIANCE AND NOISE REGULATION INFORMATION.

All Rekluse clutch products are precision-engineered and made of high-quality materials to provide the best in performance and durability. Their components are stronger, lighter, longer-lasting and built for maximum performance. Rekluse's industry-leading auto clutches are optimized for each bike model as it comes from the factory and they've designed each clutch to be fine-tuned for every rider. Rekluse's manual clutches deliver unprecedented performance, tuning and durability with a design that provides more discs in less space, allowing up to four additional friction discs over stock.

RADIUSCX 4.0

- Eliminates stalling, start and stop without engaging the clutch lever
- Increased power transfer over OEM
- On-the-fly external adjustment
- Allows riders to run a gear taller, letting the suspension work better and saving energy
- TorqDrive® disks and EXP 4.0 provide stronger power delivery and a more reliable, responsive clutch modulation
- Rekluse's billet Core components help keep the clutch cooler and resist wear with improved oil flow and hard anodized coatings, plus provide an improved, consistent lever feel
- Provided with basket sleeves to prevent clutch baskets from notching, the RadiusCX is the ultimate performance auto clutch kit that can be setup to fit almost any rider's preferences
- Retains full, normal use of the clutch lever to fully override the auto functionality at any time

1130-0782

- Improves rider control, maximizes traction and confidence to navigate challenging terrain
- Improved oil flow and cooling with Core components aids in durability
- Rekluse clutch cover improves strength and durability over stock, and adds a factory look
- See page 1419 of the 2024 Parts Europe Offroad catalog for additional Rekluse RadiusCX 4.0 clutch kits

RADIUSX CLUTCH KITS

- With RadiusX a high-performance auto clutch is just a clutch pack swap away
- RadiusX combines TorqDrive® friction disk technology with Rekluse's innovative EXP (auto clutch) disk
- TorqDrive provides more clutch disks in less space, delivering high performance auto function within the framework of the stock clutch
- The RadiusX clutch prevents engine stalls so you can focus on the ride and let the auto clutch do the rest
- RadiusX delivers increased power transfer over OEM and longer clutch life with less adjustment over time
- Standard clutch lever function is retained and full override
- Some configurations include Rekluse basket sleeves to prolong basket life
- See pages 1420-1421 of the 2024 Parts Europe Offroad catalog for additional RadiusX clutch kit applications

KOVE 450 24	1130-0869

CORE EXP 4.0 CLUTCH FOR YAMAHA YZ 65 18-25/YZ 85 02-25

- Updated EXP (expanding friction disk) assembly
- Base material updated to provide better strength in high temperature environments, critical for the heat clutch systems create
- Internal wall bases redesigned for strength and rigidity, which helps translate to a more connected lever feel for the rider
- On the outside of the EXP disk, friction pads now match proprietary friction design found on Rekluse TorqDrive® clutch plates, this design helps match oil flow characteristics on the clutch pack beneath, promoting improved cooling capability and consistent operation
- EXP 4.0 wedges have been improved to now use rolling contact with built-in pins

- Rolling pins versus sliding creates less friction and resistance, providing smoother engagement and a more responsive feel, creating stronger power delivery overall
- More direct power delivery, improved durability, and rider-focused functionality
- Engagement curve designs updated to better match modern motorcycle engine characteristics
- More tuning options with varying wedge weights and EXP springs

DESCRIPTION	PART #
Core EXP 4.0 clutch	1130-0865

CORE MANUAL TORQDRIVE® CLUTCH KIT

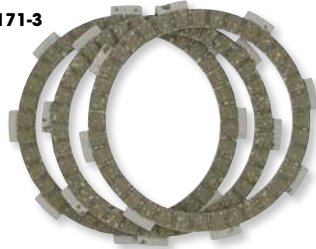

- The Core Manual TorqDrive® clutch delivers unprecedented performance, tuning and durability
- TorqDrive provides more disks in less space, allowing up to four additional friction disks over stock
- More frictions = more torque capacity, thus unlocking the full power of your engine without the need to add stiffer pressure plate springs
- Provides more consistent clutch lever feel and behavior
- Can be set up to maintain a stock or lighter than stock, lever pull depending on engine tuning
- Rekluse sleeves eliminate basket wear and notching
- Proven in racing at the highest levels
- See page 1424 of the 2024 Parts Europe Offroad catalog for additional Rekluse Core Manual TorqDrive clutch kits

MSK CLUTCH SUPER KIT FOR KTM SX 125 98-15

- Complete clutch kit contains springs, friction and steel plates together with a clutch cover gasket
- An alternative to standard clutch components
- See page 1436 of the 2024 Parts Europe Offroad catalog for the complete line of TRW MSK Clutch Super Kits

DESCRIPTION	PART #
MSK clutch super kit	1131-3711

DPK CLUTCH KITS

- Designed to outperform any OEM or aftermarket clutch
- DPK kits include friction plates, steel drive plates and diaphragm springs
- DP clutch kits come in a foam-lined hard plastic case that protects clutch components from being damaged prior to installation
- Case can be used to store and transport parts, tools or other items after clutch is installed
- See page 1444 of the 2024 Parts Europe Offroad catalog for the complete line of DPK Clutch Kits

FRICTION PLATES

- Come ready to race - no need to presoak plates in oil
- Designed to ensure ultrasmooth power delivery
- Exclusive high-heat friction materials for fade-free performance
- Friction compounds designed to suit off-road and dual-sport bikes
- More durable than OE plates

FITS MODEL	PART #
KAWASAKI	
KX 250/X - Diaphragm Spring 21-24	1131-3907

STEEL DRIVE PLATES

- Steel plates won't expand; will not fade or promote clutch swell like stock aluminum plates
- Long lasting - up to 300% more life than stock plates
- Increased weight over stock plates adds flywheel effect for aiding starting and traction
- Will not muddy or contaminate oil

FITS MODEL	PART #
KAWASAKI (CONT)	
KX 450/X - Diaphragm Spring 21-23	1131-3908

FSC CLUTCH PLATE AND SPRING KIT

- Carbon fiber clutch plate kit
- Designed to enhance the performance of OEM clutch baskets, inner hubs and pressure plate or Hinson parts
- Tested and raced with all the same high-quality standards as all Hinson clutch components
- High production tolerances to perfectly mate Hinson clutch basket, enhancing clutch basket and plate life
- Clutch springs made from high temperature material to outlast any other springs on the market

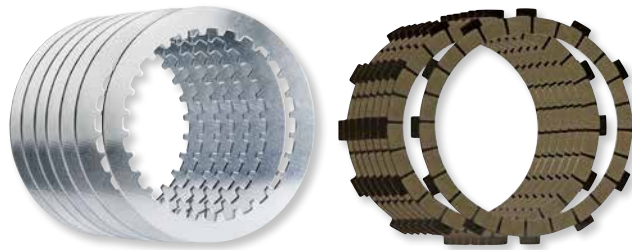

- Manufactured using the highest quality materials
- See pages 1463-1464 of the 2024 Parts Europe Offroad catalog for Hinson's full line of FSC Clutch Plate and Spring Kits

HI-TEMP CLUTCH SPRING KITS

- Developed with and recommended to enhance performance of OEM pressure plates as well as Hinson clutch baskets, inner hubs and pressure plates
- Made out of high-temperature steel to outlast anything else on the market
- Highly resistant to losing strength due to high heat from 4-strokes
- The correct stiffness to handle high horsepower engines
- Provides optimum hook-up with minimum heat buildup
- See page 1466 of the 2024 Parts Europe Offroad catalog for Hinson's full line of Hi-Temp Clutch Spring Kits

RADIATOR CAPS WITH TEMP GAUGE

- Improved radiator cap with a high performance design that includes a temperature gauge to easily monitor engine coolant temperatures
- High-quality aluminum alloy, silicone rubber, and zinc materials increase durability avoiding the common issue of fatigue in the rubber and spring preventing water leakage
- Built-in thermometer that displays coolant temperatures in both Celsius and Fahrenheit promoting safety before removing the cap

1903-0036

POWER VISION TOKEN

- With this token for your Dynojet Power Vision, you can tune an additional vehicle on the same device
- This is perfect for dealers, as well as enthusiasts and families who have multiple vehicles to maintain
- Works with all Power Vision, Power Vision 3 and Power Vision 4
- Can be used on one vehicle an unlimited number of times, but not on multiple vehicles

DESCRIPTION	PART #
Single token	1020-4230
10 pk.	1020-4231

1020-4222

POWER VISION 3 FOR HONDA

- Flash performance tunes via OEM diagnostic connector, no need to remove and send out ECU
- Display vehicle data channels in real-time
- Weather-resistant for use in all conditions
- High-contrast display, viewable in direct sunlight
- Fueling revised for maximum power and torque
- Spark timing optimized for 91-93 octane fuel
- Rev limit raised
- Speed limit raised
- See page 1515 of the 2024 Parts Europe Offroad catalog for the complete line of Dynojet Power Vision 3

NOTE: All Power Vision returns and/or adjustments must be made directly with Dynojet Research.

CONTROL UNITS RX1 PRO BASIC KITS

- Designed to exploit everything your bike has to offer ensuring better power delivery and timing at any engine speed
- Gives your bike a smoother ride, more immediate ignition and greater speed on the track
- Mounts quickly and easily directly on to the bike's main wiring without having to modify the electrical system
- Replaces OEM ECU
- Quickly processes input data coming from the CPS (Cam Position Sensor), TPS (Throttle Position Sensor), MAP (Manifold Absolute Pressure sensor), IAT (Intake Air Temperature sensor) and ECT (Engine Coolant Temperature sensor)
- Adjusts the ignition and carburetion accordingly in all weather conditions and at any altitude
- Comes with two pre-installed racing mappings which get the best out of every standard engine with a racing exhaust installed
- GPA Traction Control technology can be adjusted on ten different intervention levels for each map
- Compatible with data acquisition systems like GET SL1 via CAN bus (sold separately)
- Allows any rider of any level to easily customize the main mapping parameters like carburetion and ignition times in total safety using the app with GET WiFi-Com (sold separately)
- Custom builders can fine-tune engine using the Maya programming software (sold separately)

1020-4182

SX1 PRO KITS

- Designed to optimize the potential of your bike while maintaining the same level of reliability and improving power
- Multifunction control SX1 controller and SX1 Connect WiFi module included in the kit
- Optimal management of advance degrees and injection times in all weather conditions and at all altitude levels
- Plug-and-play installation
- Installs directly on the main wiring of the bike without modifying the electrical system
- Supplied with two racing maps developed and approved after intense tests with the best AMA and MXGP teams
- Each map can be modulated via the GPA Traction Control technology on ten different intervention levels
- Activates the electronic Launch Control system for maximum speed when cornering and starting
- GPA Switch PART #1020-4161 works with SX1 Pro units, mounting on your handlebars and allows modulation in real-time of up to ten levels of GPA Traction Control (sold separately)

AIR CUT-OFF VALVE REBUILD KITS

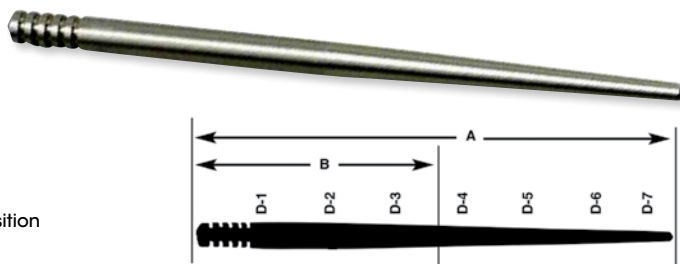

- Kits include all necessary parts to rebuild the air cut-off valve circuit
- Models with multiple carburetors include components to repair all carburetors
- Kits include necessary O-rings, diaphragm, spring, screws
- Improperly functioning air cut-off valves can stick open or closed, causing popping on deceleration or poor running conditions
- See page 1524 of the 2024 Parts Europe Offroad catalog for the complete line of Moose Racing air cut-off valve rebuild kits

FUEL PUMP MODULES

- Includes all necessary parts to replace the fuel pump module
- Economical solution for restoring lost performance or non-performing fuel pump
- Pump draws less current than OEM pump while maintaining the same flow rate and working pressure reducing working temperatures and increasing unit life
- Includes complete module, retaining nut and gasket
- See page 1537 of the 2024 Parts Europe Offroad catalog for additional All Balls fuel pump modules

EFI FUEL PUMP REBUILD KITS

- Kits include all necessary parts to rebuild the OEM fuel pump module
- Kits include: pump, hoses, clamps, wiring harness and filter if needed
- Restore lost performance or non-functioning fuel pump with this economical solution
- Kits come ready for plug-and-play installation
- See page 1368 of the 2024 Parts Europe Offroad catalog for the complete line of Moose Racing EFI fuel pump rebuild kits

VFORCE4X REED VALVES AND REPLACEMENT REEDS

- Advanced reed petal resin system, carbon fiber and lay-up
- Pre-curved reed petal ensures better seal at the tip
- Wider reed cage for maximum airflow
- Combined reed tip area is increased by 10,5% for better airflow
- Airfoil shape added to cage tip to increase velocity from the outer ports
- Long reed stops added to progressively slow reed petal tip velocity for increased petal durability
- Reduced frontal area of the central wing combined with a more aerodynamic shape
- Replacement reeds sold one set per reed cage

VFORCE3 REED VALVE AND REPLACEMENT REED

- Snap-together cage uses symmetrical reed petals, eliminating the need for different "inner" and "outer" replacement petals
- Reed tip shape accelerates air mixture, ensuring increased airflow for increased horsepower
- Innovative design completely eliminates need for screws
- When ordering replacement reeds, order one set per reed cage

EAR CLAMP ASSORTMENT KIT

- 80 pieces total in various sizes
- Includes jaw pincer plier tool
- Clamps are made from SS304 Stainless Steel for improved durability and corrosion resistance
- Smooth edged clamp design prevents/minimizes damage to hose
- 7 mm wide, 0.6 mm thick bank provides concentrated seal compression
- 360° stepless design with no gaps on inner surface for maximized clamping pressure

DESCRIPTION	PART #
Ear clamp assortment kit	2402-0295

STANDARD AND BACKFIRE FILTERS

- Twin Air dual-stage filters are the choice of top factory teams and riders worldwide
- Dual-bonded foam design filters out even the smallest dirt particles, while allowing more airflow than two separate layer filters (flow bench proven)
- Flat foam sealing ring provides a secure seat against the airbox, even in the worst riding conditions
- Twin Air filters are slightly smaller than stock, making them easier to change while increasing dead air space around the filter for better performance
- Backfire triple-stage filters include a laminated layer of backfire-retardant foam
- Air filter cages available separately for some models
- Supermoto filters available for select models are built with Twin Air's Dust Cover material for added airflow
- See pages 1559-1571 of the 2024 Parts Europe Offroad catalog for the complete line of Twin Air filters, dust covers, airbox covers and air filter kits

FACTORY PRE-OILED AIR FILTERS

- The same factory treatment that race teams and OEMs receive is now available for all Twin Air users
- Filters are pre-oiled with Twin Air Bio-Foam Filter Oil using our state-of-the-art filter oiling machines to provide the ultimate consistency in pore coverage
- Same industry-leading Twin Air Filter pre-oiled for your convenience
- Resealable bag included
- Available in standard Twin Air replacement filters and PowerFlow Twin Air replacement filters
- PowerFlow replacement filters include Backfire Filter

1011-4956

DUST/RAIN/ GRAND-PRIX COVERS

- Fits over the Twin Air filter when riding in severe conditions such as heavy dust and sand
- Coarse foam pre-filter will act as an additional layer of protection and extend the service time between filter cleanings
- Dust cover is a single-stage foam filter
- Rain coat is a single-stage foam filter with material for extremely wet conditions
- Grand-Prix cover is a filter sock with nylon

1011-4865

POWERFLOW KITS

- 2-stroke kits include a Twin Air filter and a rigid, lightweight, billet aluminum cage that replaces the flimsy plastic stock cage and provides a tight seal to the airbox
- 4-stroke kits replace the air-restricting stock backfire screen with a screen that has a special backfire-resistant layer of foam laminated to the inside
- Include a rigid, lightweight billet aluminum cage

AIRBOX COVERS

- Remove the air filter and pressure wash the inside of the airbox by covering the carb inlet with a watertight cap
- Made of PVC with a rubber sealing ring
- Top screw included

AIR FILTERS

- Bonded, two-layer foam designed for maximum protection and airflow
- Coarse outer foam traps large particles while fine inner foam catches the finest dust
- Flexible glue is used on all seams to prevent cracking
- Super Seal neoprene ring keeps out water and provides a no-grease seal
- Exclusive 0,65 foam
- Precision Pre-Oiled air filters are prepared by a high-technology machine that pre-oils filters to perfection
- With the precision pre-oiled air filter, there is no excess oil to rob horsepower, and no dry spots endangering your engine

AIR FILTERS

- Unsurpassed in airflow, dirt stopping and overall performance
- Two-stage air filters come apart for maximum airflow and ultimate cleaning
- Most filters feature the Ultra Seal grease groove on the sealing surface
- Each fits in stock air box exactly like OEM filter
- Clean easily with grease-cutting dishwashing detergent; just clean, oil and reuse indefinitely

OE REPLACEMENT OFFROAD HIGH-FLOW AIR FILTER™

FOR HONDA CRF 250F 19-24

- Designed to increase airflow and performance
- Pleated media creates a large surface area
- Strong, pliable molded flange and seals
- Fuel-management modifications are not required for increased performance
- Washable and reusable, pre-oiled and ready to ride
- Cleans up easily with K&N® filter cleaners
- See page 1576 of the 2024 Parts Europe Offroad catalog for the complete line of K&N High-Flow air filters

FITS MODEL

High-Flow air filter™

PART

1011-4966

UNIVERSAL CLAMP-ON AIR FILTER

- Round tapered shape
- Centered flange type
- Chrome end cap
- Clamp directly to the carburetor throat, replacing the stock airbox and filter element
- Pleated design increases surface area air flow
- Match the outer diameter (OD) of your carb throat with the inner diameter (ID) of the filter (given in inches and millimeters)
- Flange ID: 64 mm (2 1/2")
- Base OD: 118 mm (4 82/125")
- Top OD: 89 mm (3 1/2")
- Filter length: 151 mm (6")
- Flange length: 21 mm (4/5")
- See pages 1576-1577 of the 2024 Parts Europe Offroad catalog for the complete line of K&N® universal clamp-on air filters

DESCRIPTION

Universal clamp-on air filter

FOAM AIR FILTER

FOR KAWASAKI KLX 110 02-25

- HiFloFiltro® competition off-road air filters are manufactured using a special dual-layer foam formulated to maximize filtration with optimum airflow for improved power
- Top-quality materials and superior construction allow the filter to be used over and over again without any loss of performance
- Direct replacement of original equipment filter with no need to change carburetor jets or settings
- For the full line of foam air filters see pages 1582-1583 of the 2024 Parts Europe Offroad catalog

DESCRIPTION

Foam air filter

AIR FILTERS

- DT-1's world-class foam technology delivers maximum airflow while maintaining critical engine protection
- Their Super Seal base eliminates the need for grease and creates the cleanest and best seal on the market
- All DT-1 Air Filters are handmade with the highest quality bonded dual, triple and evolution foam available
- DT-1 Air Filters come non-oiled or pre-oiled with the highest quality flame-resistant biodegradable filter oil
- See pages 1584-1589 of the 2024 Parts Europe Offroad catalog for the full line of DT-1 air filters

SUPER SEAL STANDARD DUAL LAYER FOAM AIR FILTERS

- DT-1 standard air filters are constructed with high quality 15 mm dual-stage foam
- Custom-designed for each air box and filter cage for the best fitment and performance

CARBON FIBER AIR FILTER CAGES

- An open air filter cage built of reinforced high-temperature carbon fiber
- One piece design, no bolts or welding
- Open design is approximately 30% lighter than an aluminum air cage
- Provides improved support for the air filter and prevents vibrations at high rpms
- Flexible, can tolerate high temperatures

SAFETY WIRE

- Used to secure glue-on grips, lock-wire bolts and other fasteners
- Aircraft grade 0.032 in diameter stainless steel safety wire
- High-quality 304 stainless steel resists corrosion and rust
- Tested and used by top motorcycle racers and mechanics
- Convenient 50' easy access spool

DESCRIPTION

Safety wire

PART

0633-0034

PIT MAT

- Environmentally friendly pit mat
- Can absorb up to 6 L of fluid like radiator coolant, oil, and any other solvent-based products that can harm the environment, by being contained within the mat, or help absorb mud and water
- Not only are they lightweight, but can easily be washed and reused
- Measure: 78,74 cm x 76,2 cm (30" x 31")

DESCRIPTION

Moose Offroad

PART

9905-0234

COURSE ARROWS

- Ink formula resists sun fade and is less than tasty to insects and wildlife
- Heavy-duty lamination on both sides of arrow
- Made from heavy-duty card stock
- Sold in packs of 50
- See page 1611 of the 2024 Parts Europe Offroad catalog for additional Moose Racing course arrows

DESCRIPTION

Green/white

PART

9901-0323

ECE TYPE APPROVED

This logo symbolizes that the article conforms to applicable UN ECE regulations. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

ECE R90 TYPE APPROVED

This logo symbolizes that the article conforms to applicable UN ECE R90 regulations. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

PPE (Personal Protective Equipment)

This logo indicates the article's conformity with the Essential Health and Safety Requirements of Regulation (EU) 2016/425.

EC TYPE APPROVED

This logo symbolizes that the article conforms to applicable EU EC directives. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

EU TYPE APPROVED

This logo symbolizes that the article conforms to applicable EU Regulation (generally for newer products). Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

PPE

This logo indicates the article's conformity with the Essential Health and Safety Requirements of Regulation (EU) 2016/425. (non-motorcycle articles, e.g. Watercraft articles).

ECE R22.06

This logo symbolizes that a helmet, helmet visor/shield or other helmet accessory has been tested and certified to ECE 22.06 regulation.

ART

The ART quality mark symbolizes that the lock is independently tested according to the standard for two-wheeler theft prevention. (MBT-04) and certified by the ART Foundation. The locks are rated according to a 5 stars category designation system based on the use of a lock (bicycle, E-bike, scooter, motorcycle, other). The more stars a lock has, the higher its preventative value and the better it protects against theft.

ABE

This logo symbolizes the article has been approved by KBA (German Federal Motor Transport Authority) for specific vehicle application.

TEILEGUTACHTEN (German Parts Certificate)

This logo symbolizes that the article contains a TEILEGUTACHTEN (German Parts Certificate) to ensure the legal part installation. Issued by a German inspection body.

CLASSE S.R.A.

The logo symbolizes that the anti-theft device is tested and approved according to the SRA (SÉCURITÉ et RÉPARATION AUTOMOBILES France) rules for theft prevention. The classification in the "SRA classes" includes electronic protection systems (engine cut-off, alarm, etc.) and mechanical protection systems (U-locks, chains and disc locks).

SOLD SECURE

The logo symbolizes that the lock is tested and approved according to Sold Secure (UK's testing and certification house for security products) standards for theft prevention.

ELECTRICAL WIRING

WIRE GAUGE CONVERTER

GAUGE	MM ²	MM Ø	GAUGE	MM ²	MM Ø

14	2,0	1,7	2	32,0	6,5
12	3,0	2,1	0	52,0	8,3

WIRE GAUGE SELECTOR

It's important to match up wire diameter and current properly. To choose the right gauge wire, you will need to know how much Wattage (or Amperage) you will draw and what the length of the cable will be.

NOTE: The chart below is based on a 12V system. To find the appropriate wire for 6V systems, the Amp and Watt numbers should be divided in half.

AMP	WATT	91 CM (3 FT)	152 CM (5 FT)	213 CM (7 FT)	305 CM (10 FT)	457 CM (15 FT)	AMP	WATT	91 CM (3 FT)	152 CM (5 FT)	213 CM (7 FT)	305 CM (10 FT)	457 CM (15 FT)
