1011-0566

STANDARD AND BACKFIRE FILTERS

- Twin Air dual-stage filters are the choice of top factory teams and riders worldwide
- Dual-bonded foam design filters out even the smallest dirt particles, while allowing more airflow than two separate layer filters (flow bench proven)
- Flat foam sealing ring provides a secure seat against the airbox, even in the worst riding conditions
- Twin Air filters are slightly smaller than stock, making them easier to change while increasing dead air space around the filter for better performance
- Backfire triple-stage filters include a laminated layer of backfire-retardant foam
- Air filter cages available separately for some models
- Supermoto filters available for select models are built with Twin Air's Dust Cover material for added airflow

FACTORY PRE-OILED AIR FILTERS

- The same factory treatment that race teams and OEMs receive is now available for all Twin Air users
- Filters are pre-oiled with Twin Air Bio-Foam Filter Oil using our state-of-the-art filter oiling machines to provide the ultimate consistency in pore coverage
- Same industry-leading Twin Air Filter you are used to, now pre-oiled for your convenience
- Come in a resealable bag
- Available in standard Twin Air replacement filters and PowerFlow Twin Air replacement filters
- PowerFlow replacement filters include Backfire Filter

1011-4249

1014-0223

1011-0438

1011-4133

POWERFLOW KITS

- 2-stroke kits include a Twin Air filter and a rigid, lightweight, billet aluminum cage that replaces the flimsy plastic stock cage and provides a tight seal to the airbox
- 4-stroke kits replace the air-restricting stock backfire screen with a screen that has a special backfire-resistant layer of foam laminated to the inside
- Include a rigid, lightweight billet aluminum cage

DUST/RAIN/GRAND-PRIX COVERS

- Fits over the Twin Air filter when riding in severe conditions such as heavy dust and sand
- Coarse foam pre-filter will act as an additional layer of protection and extend the service time between filter cleanings
- Dust cover is a single-stage foam filter
- Rain coat is a single-stage foam filter with material for extremely wet conditions
- Grand-Prix cover is a filter sock with nylon

1014-0034

AIRBOX COVERS

- Remove the air filter and pressure wash the inside of the airbox by covering the carb inlet with a watertight cap
- Made of PVC with a rubber sealing ring
- Top screw included

FUEL FILTERS

- Twin Air's latest product features a custom-shaped adaptor for each model that fits securely under the gas cap, creating a leak-proof seal
- The filter media traps dirt or debris that can enter into your fuel system when refueling

RADIATOR SLEEVES

- Fits over the radiator louvers to prevent dirt, sand and mud from clogging the radiator
- Made from nylon-coated glass yarn material
- Easy installation – simply remove the louvers, slide on the sleeve and re-install on the radiator

STANDARD AND BACKFIRE FILTERS

- Twin Air dual-stage filters are the choice of top factory teams and riders worldwide
- Dual-bonded foam design filters out even the smallest dirt particles, while allowing more airflow than two separate layer filters (flow bench proven)
- Flat foam sealing ring provides a secure seat against the airbox, even in the worst riding conditions
- Twin Air filters are slightly smaller than stock, making them easier to change while increasing dead air space around the filter for better performance
- Backfire filters include a laminated layer of backfire-retardant foam

FACTORY PRE-OILED AIR FILTERS

- The same factory treatment that race teams and OEMs receive is now available for all Twin Air users
- Filters are pre-oiled with Twin Air Bio-Foam Filter Oil using our state-of-the-art filter oiling machines to provide the ultimate consistency in pore coverage
- Same industry-leading Twin Air Filter you are used to, now pre-oiled for your convenience
- Comes in a new, resealable bag for added convenience
- Available in standard Twin Air replacement filters and PowerFlow Twin Air replacement filters
- PowerFlow replacement filters include Backfire Filter

1011-2337

POWERFLOW KITS

- Don't let your stock setup rob you of power and engine reliability
- Eliminates leaks and provides more air for power, but the filter can still be removed in a snap for cleaning
- The new generation PowerFlow kit converts the filter mounting system from a clamp-on filter to a filter cage and wing bolt mounting system
- This new flange system allows for the use of a Twin Air Airbox Cover for washing the airbox

1014-0035

STOCK REPLACEMENT KITS

- Replacement filters that require other parts like a reducer, cage, spring or something else
- Kits contain all necessary parts needed for each application

AIRBOX COVERS

- Remove the air filter and pressure wash the inside of the airbox by covering the carb inlet with a watertight cap
- Made of PVC with a rubber sealing ring
- Top screw included

1014-0108

GRAND PRIX FILTER COVERS

- Nylon filter cover helps prevent dust, sand and mud from clogging your filter

1011-2342

AIR FILTER DUST COVERS

- Coarse foam pre-filter will act as an additional layer of protection and extend service time between filter cleanings

¹ Foam outer cover for stock filter.

³ Comes with aluminum flange, filter cage, backfire filter and mounting hardware.

⁷ Comes with standard Twin Air filter and wire filter cage.

¹⁰ Comes with plastic composite intake tube, backfire filter and mounting hardware.

¹¹ Comes with plastic intake flange, wire filter cage and backfire filter.

¹⁵ Powerflow kit.

¹⁶ Comes with plastic filter base and square foam filter.

BIODEGRADABLE FILTER CARE PRODUCTS

- Keep your foam filter in like-new condition
- BIO Liquid Power filter oil was developed and produced by Texaco exclusively for Twin Air; exceeds the strictest standards on biodegradability; starts thin for deep, even penetration and dries to an even-coating, high-tack shield that traps dirt, dust and grit
- BIO Dirt Remover cleans BIO Liquid Power oil by using granular detergents instead of solvents; will not harden or damage filter foam
- Recommended for all foam filters
- BIO Dirt Remover available in one liter bottle, BIO Liquid Power filter oil available in one liter can, BIO Pack contains one liter BIO Dirt Remover and one liter BIO Liquid Power filter oil
