2023 Indian Pursuit Famed Custom

ON THE COVER

ast looks and racing DNA define this year's Indian Motorcycle catalogue cover bike. But what would you expect from an owner/builder who is involved with multiple motorcycle shops, and three different racing classes in the MotoAmerica[®] national championship road racing series?

6

munu le

"I'm a motorcycle guy," says Tim Sutherland. "I've been riding motorcycles since I was five years old. I just love bikes." And it shows. His beautiful custom 2023 Indian Pursuit is catching a lot of attention, and Drag Specialties is excited to feature it on the cover.

Sutherland has a long association with the industry. He opened a motorcycle dealership approximately 20 years ago while still owning/operating an automobile dealership. "I thought it would be so cool to be a motorcycle dealer," Sutherland said. "I went around, knocking on doors, talking to brands."

At that time Victory Motorcycles (manufactured by Polaris Industries) was just beginning. "The timing was just right for both of us," Sutherland said. It was 2004, and Victory had just two models out at that time. They were looking to expand the dealer network, and Sutherland wanted to come on board. "They signed me up!"

Sutherland's dealership, Coastal Victory, was a great success. His efforts earned his shop a spot as one of the top five dealerships in the nation for Victory motorcycle sales. The Victory brand came to an end in 2017, but Sutherland was already involved in becoming a dealer for Indian motorcycles.

Sutherland's interest with Indian Motorcycles is extensive. His involvement is more than just his dealership. He has a true passion for customizing bikes and developing performance products and accessories to make them look and go faster through his collaboration with Lloyd'z Garage.

That passion got him involved in racing with the Indian brand. "Lloyd'z Garage Racing has three bikes that run in MotoAmerica[®]," Sutherland said. The team runs an Indian Challenger in the Bagger Racing League, and an Indian FTR Hooligan and an Indian Chief Hooligan in the Mission Foods SuperHooligan national championship class. "Our rider,

ON THE COVER

Owner/Builder: Tim Sutherland, co-owner St. Paul Indian Motorcycles/Lloyd'z Garage at Indian Motorcycles Charlotte

> Paint: Rusty Nash Paints By Rusty

Hawk Mazzotta, won the SuperHooligan national championship this year," he said. "We have a #1 plate coming our way!"

That passion for performance will be incorporated in his own bike. "Right now, the bike is actually fairly stock," Sutherland said. "It has some Indian brand floorboards on it, a custom exhaust. The front fender is a Klock Werks piece, and it has a Klock Werks Flare™ windshield."

The long-term plan is to put in a set of cams and a bigbore kit and some other performance upgrades. "These bikes (the baggers) can really run," Sutherland said. "People might kind of scoff at them, but when you look at the lap times

these guys are doing on the circuits now ... they are right up there with the other classes. It is amazing how far they have come, even the stock bikes."

The stylish paint job has people referring to the bike as the "Hot Wheels" bike, Sutherland laughed. "People think it should be in a Hot Wheels display box. It just has that cool look."

"I always joke that Lloyd (Greer) builds bikes fast, and I make them look pretty," Sutherland said. "So between the two of us, they turn out pretty fast!"

IMPORTANT INFORMATION RELATING TO MANUFACTURER'S WARRANTY, EMISSION CONTROL REGULATION AND NOISE REGULATION INFORMATION:

DISCLAIMER: There is no warranty on exhaust pipes and mufflers with regard to any discoloration. Discoloration (blueing) is caused by tuning characteristics, i.e. timing, carburetor, fuel injection/controller settings, etc., and is not caused by defective manufacturing. See the Tires, Tools and Chemicals catalog for products that will help prevent and remove blueing.

DISCLAIMER: Products shown may be designed, manufactured, intended and sold for closed circuit race use only and use of the same on public roads or lands may be a violation of local, state and/or federal/EU laws.

DISCLAIMER: Check your applicable laws and manufacturer's publication(s) and/or website(s) for manufacturer's warranty, maintenance, safety, mounting and any regulatory compliance/non-compliance information.

MOTORCYCLE FAIRINGS & WINDSHIELDS

SIDE WINGS

- Expand comfort pocket, channeling air outward while "cleaning" the flow
- Adjust to suit rider preference
- Can be installed/removed with windshield intact Santoprene pads grip the windshield but do not mar the surface
- "Ghost" shade a neutral tint with 85% light transmission: barely noticeable, with just enough tint to make the edges disappear
- Side Wings fit all Memphis Fats windshields or similar windshields that measure either 3 mm or 4,5 mm thick (includes inserts for both sizes): feature injection-molded glass-filled nylon clamps in place of the billet aluminum: can be mounted along with Hot Wing

60 57 54 51 48 45

HOT WING

- Boost airstream upward Venturi action speeds up the airstream while smoothing the flow - without buffeting
- Allows the use of a shorter shield; now you can easily look over your shield
- Made with "Ghost" shade a neutral tint with 85% light transmission;
- barely noticeable, with just enough tint to make the edges disappear Uses lightweight, economical injection-molded glass-filled nylon clamps: fits Memphis Fats windshields or similar windshields that
- measure 3 mm or 4,5 mm thick (includes inserts for both sizes)

GEL CHANNEL TRACK-CF SPORT BIKE SEAT

 The best looking, most unique custom seat you can buy, with lines and materials designed to match specific bikes

• Designed specifically for the rider who needs a seat that can

do everything-canyon carving, track days or commuting

Features Gel Channel[™] technology that incorporates a split

piece of $\operatorname{GelCore}^{\scriptscriptstyle\mathsf{M}}$ and a channel in the base foam to relieve pressure on the perineal area for all-day riding comfort

• The Track LS model is a result of Saddlemen's devotion to creating

Beautifully upholstered with unique, ventilated-style stitched leather

shaped nose that helps rider's feet better touch the ground at stops

cover that provides both a luxurious look and a comfortable ride Matches the height of the original seat and incorporates a specially

better looking, better fitting and more comfortable seats • The seat platform starts with Saddlemen's proprietary and improved GelCore[™] technology, which is an advanced progressive-density

 The sleekest and most functional race seat on the market High-quality, durable construction with an interior of progressive-density foam and GelCore*

Carbon fiber seating area features gripper on the seat

sides to maintain the best control of the motorcycle

GelCore comfort comes standard with all GP-V1 seats

to provide the most comfort in any seat

Bolts directly to bike like stock seat

g = core

GRIPPER STEP-UP SEAT

• Matches the height of the original seat and incorporates a specially shaped nose that helps rider's feet better touch the ground at stops

• Blend rider and passenger comfort with the ergonomics required

to keep the rider locked in place and in control of the bike

 Combines a GelCore[™] interior with Ultra-Foam to create a perfect balance of rigidity and user compliance

formulation to create exceptional seat foundation

Custom-fitted rain cover included to protect

the seat from water and dirt

Bolts directly to bike like stock seat

c = core

GP-V1 SPORT BIKE SEAT

Performance oriented—the seats match the

characteristics of the bikes they're made for • More comfortable than any stock seat on the market • Fine-grain SaddleHyde[™] vinyl construction

• High-tech, carbon fiber-look cover with center

Special seat cover materials allow for easy

movement when riding aggressively

1020-3609

1020-3610²

² With crank sensor.

POWER COMMANDER 6

- · Compact design for discrete placement and easy uninstallation to revert to stock settings
- Easily change and upgrade tunes as you upgrade parts
- Comes with Power Core software that connects dyno runs with our EFI Tuning Devices to unlock your ride's potential
- Pair with other Power Commander accessories
- like the Autotune, Quickshifter or POD-300 • Analog input allows you to install any 0-5 volt sensor and build an
- adjustment table based on its input such as boost or temperature
- Easily connects to your computer via USB
- Each cylinder can be mapped individually and for
- each gear, giving riders more granular control
- Made in the U.S.A.

PART #	DESCRIPTION
1020-3611 ²	For 22-23 Chief 111"
1020-3607 ²	For 14-20 Chief 111", 14-23 Chief Classic/ Vintage/Chieftain/Roadmaster/Springfield
1020-3608 ¹	For 15-23 Scout

MOJET_® **ANDER 6** IJECTION MODULE DESCRIPTION For 17-23 Scout Sixty For 20-23 Challenger ¹ Includes ignition adjustment.

POWER COMMANDER V MAP SELECT SWITCH

- Switches between two different maps that have
- been pre-loaded in a Power Commander V
- · Comes with a switch, wiring and instructions
- Universal mount

WIDEBAND CX DUAL CHANNEL AFR KIT

- Plugs into the vehicle's diagnostic port and seamlessly integrates AFR data from the included wideband O_2 sensor(s) with the OEM databus
- When used in conjunction with Power Vision CX, you can view and datalog wideband O_2 data alongside custom channels directly from the vehicle's diagnostic port
- Plug-and-play kit with no extra cables for power, ground and signal that are typically associated with wideband controllers
- Ensures real-time wideband O₂ AFR accuracy with negligible latency and avoids any signal offset issues with its industry-first, innovative design

- Flash performance tunes via OEM diagnostic connector; no need to remove and send out ECU Displays vehicle data channels in real-time
- Weather-resistant for use in all conditions
- High contrast display, viewable in direct sunlight

DESCRIPTION For 14-23 Indian Thunderstroke 111"/116"

 See Dynojet website: http://www.dynojet.com/ powervision-tune-license-programs.aspx for information about purchasing additional Power Vision tune license

PV3

MANUFACTURER'S NOTE: All Power Vision returns and/or adjustments must be made directly with Dynojet Research. The Power Vision may be used on any bike to read and clean trouble codes.

PART #	DESCRIPTION
1020-4051	For all 14-23 Indian models

POWER VISION 3

- Flash performance tunes via OEM diagnostic connector, no need to remove and send out ECU
- Display vehicle data channels in real-time

codes (DTCs) with built-in descriptions

• Return to stock at any time, your original factory tune is safely backed up on the cloud and on your phone

Supports licensing additional vehicles

- Weather-resistant for use in all conditions
- High-contrast display, viewable in direct sunlight • Fueling revised for maximum power and torque
- Spark timing optimized for 91-93 octane fuel
- Rev limit raised

Speed limit raised

NOTE: All Power Vision returns and/or adjustments must be made directly with Dynojet Research.

PART #	DESCRIPTION	PART #	DESCRIPTION
1020-3035	For 15-23 Scout	1020-3185	For 19-23 FTR1200

ELECTRIC EASY SHIFT SPEED SHIFTER KIT

- Easy shifting for rider comfort and convenience or for speed for the performance-oriented rider
- For performance, this is the best bang-for-your-buck product
- Gain a minimum of one bike length per shift • Shift up at partial or full throttle and back
- down with the push of a button • Eliminates the need to shift with your foot or clutch
- OEM shifting ability is retained after installation
- Clutch use is still required for starting and
- stopping when using these kits • Uses state-of-the-art control module to send a signal
- from the button control to the shift solenoid • Kit includes a stylish dual-button shift control for upshifts/ downshifts, a chrome-plated electronic shift cylinder, ignition kill module, control modules and all necessary brackets

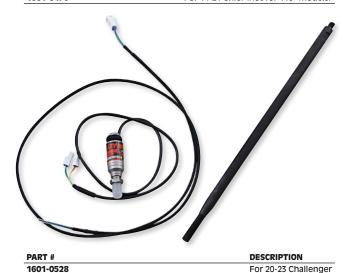

PART # 1601-0470

DESCRIPTION For 14-21 Chief (not for 116" models)

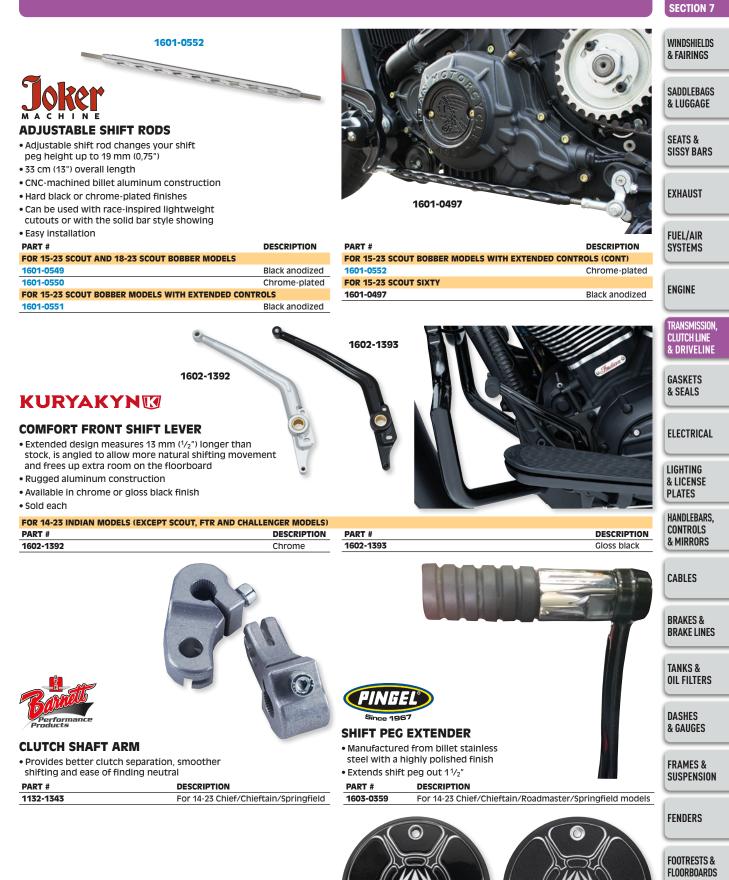

IGNITION QUICK SHIFTER

- Allows any vehicle with up to four coils to have quick shifter functionality
- Features the latest Intellishift[™] technology and provides the smoothest shifts of any stand-alone unit on the market
- Kill times per rpm band and shift sensor activation point are adjustable
- Includes Denso coil cap connectors for easy installation on many late-model motorcycles; connectors can be removed for applications without this style of coil
- 4-channel variation has control box only; requires
 Power Commander shifter sensor
- Power Commander snifter sens
- Kit includes sensor and module

DERBY COVERS

- Billet aluminum construction provides increased durability
- Designed to match OEM specifications, they bolt
- on with no modifications or drilling
- Available in gloss black or wrinkle black powdercoating
- Fits over any Rekluse or OEM clutch

DRAG SPECIALTIES HIGH PERFORMANCE BATTERIES

18

18,9

 Specifically designed for high-performance engines that need extra cranking power

Superior engineering features include

design for maximum cranking amps

High vibration resistance

an AGM (Absorbed Glass-Mat) radial grid

- Spill-proof, pre-filled, pre-charged,
- maintenance-free sealed design
- Batteries include brass spacers, stainless
- steel nuts, bolts and star washers
- NOTE: Factory-Activated batteries should be charged once a month when not in service.

BST 1000 LEAD ACID AND LITHIUM BATTERY TESTER

Compatible with lead acid batteries

(SLA, GEL, AGM, EFB, MF, DRY, Ca/Ca)

• Up to 20 jumps starts in one charge • Designed for gas and diesel engines

and output port used

• For lead acid (flooded, AGM flat plate, AGM

- spirale, GEL, EFB) and lithium batteries For all 12V vehicle and motorcycle batteries
- Five battery tests: cold cranking amps, voltage, internal resistance, health, starting

• Perfect back-up power solution able to deliver 600A for jump starting vehicles (motorcycles, cars, boats and more), charge USB devices

• Very safe: smart cable with spark-proof connection and reverse polarity protection

• Compact and powerful booster rated at 600A (1200A peak current)

 Power supply for small electronic devices via their USB ports (most of smartphones, earphones, portable gaming devices, MP3/MP4 players can be charged with the included accessories)

• LED flashlight function with 3 modes (powerful constant light/strobe/SOS)

(smartphones or tablets) and offer emergency lighting

• LED display with battery state of charging indication

- Vehicle charging and cranking system test
- Easy to read large LCD screen
- Print function via PC printer
- Multiple languages: English, German, Spanish, French, Dutch and Italian
- Short circuit and polarity reverse connection protections
- Useful, compact and delivered with clamp set, pouch protection and a USB cable to connect the tester to a computer for printing out all the diagnostics

DESCRIPTION

2040-2875

DESCRIPTION

IC relay w/ connector

mo.flash digital relay

2020-0463

• Replaces all conventional flasher relays; only uses two cables • Perfect for custom bikes and modifications with limited space

· Works with four signal lights or two handlebar end blinkers

Route through the handlebar, frame tubing or in the cable harness

• Keys do not require batteries

• Water- and short circuit-proof

PART #

2020-0464

• Does not require load resistors or similar accessories

• mo.wave (PART #2020-0464) is the first flasher relay to

allow a smooth fade in/fade out with your flash lights

halogen blinkers and bulb blinkers from 1W-100W

• PART #2020-0463 is suitable for all LED blinkers, micro blinkers,

2105-0133

 Optional wiring harness kit ensures seamless installation process • NFC connection cable is a high quality, 2m long, 3-wire cable for connecting the mo.lock NFC and fits the included cable cover

SOLDERLESS WIRE CONNECTORS

- No soldering gun required
- Low-heat solder melts with just a heat gun and shrinks the tubing for a watertight seal
- Waterproof, solderless heat shrink wire connectors come in four different sizes: yellow (AWG 10-12), blue
- (AWG 14-16), red (AWG 18-22) and white (AWG 24-26) • PART #2120-0954 is a reclosable plastic box including 40 pieces red AWG 18-22, 40 pieces blue AWG 14-16, 10 pieces white AWG 24-26 and 10 pieces yellow AWG 10-12
- PART #2120-0955 contains 100 individual retail packs of the connectors: 15 packs (6 pcs./pack) white AWG 24-26, 32 packs
- (6 pcs./pack) red AWG 18-22, 35 packs (5 pcs./pack) blue AWG 14-16 and 5 packs (5 pcs./pack) yellow AWG 10-12 • Perfect for the service department or checkout
- counter in a wide-mouth, clear plastic jar

DESCRIPTION & MOUNTS

60 MM (2³/₈") LED DRIVING LIGHT KIT FOR CRUISERS WITH 38 MM TO 41 MM FORKS

- MR16 high-output and high-intensity Litespan LED 60 mm (2³/₈") driving light kit is available in a universal cruiser fitment
- Custom die-cast aluminum lights and fork mounts make an ideal fit on many cruisers
- The Litespan LED reflector bulbs produce 400 lumens each from 7 watt 6-LED output in bright white 4000K color
- Their concentrated 20° beam angle puts more light down the road in front of riders for a true driving light function
- The die-cast clamps fit cruisers with 38 mm to 41 mm forks and come with a wire harness, relay and switch

• Die-cast body with smooth design comes in aluminum or black finish

- Visor integrated into bezel; setscrew allows visor to rotate to desired position for custom installation • 95 mm x 60 mm (3 3/4" L x 2 3/8") dia.; 8 mm (5/16") stem
- Halogen features 55W, 12V bulb

MINI DRIVING LIGHTS

- LED features 7W. six 12V bulbs
- Sold each

DESCRIPTION

mo.view pace mirror

mo.VIEW PACE MIRROR

- CNC-machined from solid aluminum with stainless steel screws and glass-free mirror
- Weightless design features convex mirror with no edge or frame
- Mirror is resistant to corrosion, oxidation and
- scratching; approx. 4,5 mm thick
- Can be mounted on left or right side; above or below 22 mm or 25,4 mm handlebar end with included 10 mm W clamp
- Measures 122 mm dia.; 72 mm long stem

mo.VIEW CRUISE MIRROR

- CNC-machined from solid aluminum with
- stainless steel screws and glass-free mirror
- Weightless design features convex mirror with no edge or frame Mirror is resistant to corrosion oxidation and
- scratching; approx, 4.5 mm thick
- Can be mounted on left or right side; above or below 22 mm or 25,4 mm handlebar end with included 10 mm W clamp
- Measures 114 mm dia.; 72 mm long stem

HANDLEBAR CABLE KITS, CLUTCH CABLES AND BRAKE LINES

• Take "cable calculation" headaches out of swapping handlebars • Kit includes the correct length brake/clutch lines to complete **OIL FILTERS**

a handlebar swap; electrical wire extensions not included • Stainless braided kit includes clutch line, brake lines, chrome "T" brake line junction, banjo bolts, fittings and copper crush washers

 Black vinyl/stainless kit includes black vinyl clutch line and black stainless brake lines with chrome fittings, banio bolts and crush washers

• The midnight kit includes stainless steel brake lines and clutch lines covered in a black smoke-tinted coating with pure black fittings throughout; lines appear graphite or carbon fiber in appearance providing that ultra-custom look and the black fittings seamlessly blend with blacked-out controls and covers on the bike • Individual components for all kits are available as listed

15-23 Scout/Scout Sixty, 18-23 Scout

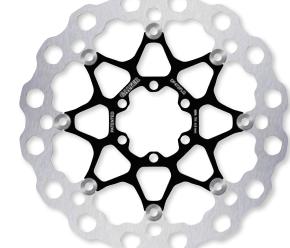

Bobber/Bobber Sixty/Bobber Twenty

- Named after the crystal steel molecules, the Cubiq® brake rotor combines state-of-the-art technology with modern design
- Rotor shape promotes uniform brake pad wear the same contact surface between the pad and disc every revolution generates regular wear
- Less unsprung weight (up to 40% lighter than standard round rotors) reduces gyroscopic effect and improves the manueverability of the motorcycle
- Increased perimeter surface design generates more cooling surface around the rotor for better temperature dissipation
- Available in fixed (solid mount) or floating designs

Sold each

NOTE: For maximum braking performance and rotor longevity, Galfer recommends using Galfer brake pads with Galfer rotors. See page 156 for Galfer brake pads.

Organic

aramid fiber

Sintered metal

BRAKE PADS

- Sintered metal brake pads are the OEM-type replacement pads for most bikes from the late 1970s to the present
- Sintered metal brake pads are second-to-none in their stopping abilities and wear characteristics, while still providing excellent reduction in noise and dust
- Organic pads are OEM-type replacement brake pads for 1970s and earlier models

22-23 Scout Rogue/Rogue Sixty

15-16 Scout, Scout Sixty (Cast Wheel/Toso calipers)

02-08 (all models)

• Organic pads with aramid high-performance fibers are the perfect choice for polished or chromed rotors and billet steel rotors

• Both compounds of Drag Specialties brake pads are asbestos-, nickel- and lead-free

NOTE: If you are using aftermarket billet steel rotors, it is recommended you use our Organic pads with aramid highperformance fiber brake pads to avoid damage to them. Sintered pads are not recommended for billet steel rotors as the pad material is too aggressive for those rotors.

DISC BRAKE PADS STANDARD BRAKE PADS

- Organic pad compound
- Long service life
- Suitable for use with all brake disc types
- Solid brake performance, even in wet conditions

Lucas

Standard

- For front brake use ONLY
- Completely metallic sinter pad
- Good performance
- Can be used with nearly any brake disc type
- Should only be used with bikes that were originally equipped with sintered metal brake pads
- Limited race track use; not heat resistant above 400 °C

SH SINTERED METAL **BRAKE PADS**

- For rear brake use ONLY
- Completely metallic sinter pad
- Good performance
- Can be used with nearly any brake disc type
- Should only be used with bikes that were originally equipped with sintered metal brake pads
- Friction rate is matched to the SV pad

TRQ TRACK RACING QUALITY BRAKE PADS

- Designed for maximum track performance while being street legal; enjoy a full day on the track and ride home on the same bike
- For front brake caliper use ONLY
- Higher, more stable friction coefficient for greater braking performance
- Optimized direct response characteristics
- Innovative sintering process for exceptional thermal resistance
- Low pad and disc wear
- NOTE: ABE approved unless noted.

NOTE: All brake pad application PART #s shown are STANDARD compound pads unless noted in chart.

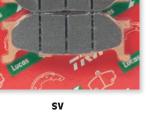

NOTE: Some brake pad applications are available in multiple compound types. To see if additional brake pad compound type is available for your application, c

check your brake pad PART # in the cross-reference charts provi	ded.

BRAKE PADS

- SBS brake pads feature asbestos-free brakes using patented Unified Composite Technology (UCT)
- UCT technology completely blends all brake pad materials into a balanced, unified pad

EXCEL SINTERED BRAKE PADS (HS/LS)

- The right choice for modern sportbikes and big touring bikes
- OE-replacement or upgrade choice when
- replacing sintered metal pads Class-leading HH friction rating was developed
- in racing, then tuned for street use
- Front (HS) and rear (LS) compounds for correct brake balance
- Compounds formulated for low wear and high performance

 Leading noise-reducing technology for the lowest risk of noise EVCE CEDANIC

DP BRAKES

- THE ORIGINAL SINTERED BRAKES • DP Brakes brake pads are designed with sintered metal compounds
- to give your bike high-tech performance in all conditions
- Pads have a quick break-in period so you
- get maximum performance fast
- DP Brakes design and materials ensure consistent hard stops and fade-free performance
- Sintered metal compounds outlast more

conventional organic or aramid fiber pads **STANDARD SINTERED METAL BRAKE PADS**

- GG friction-rated and made with DP Brakes' proven sintered metal material
- Gray-colored aluminum oxide-based ceramic material on rear of backing plate keeps heat away from caliper piston and fluid in extreme conditions for fade-free performance
- Pad compound gives equal performance in wet or dry conditions • Ideal replacement for street and touring machines
- where durability is the prime requirement

No brake fade

CHROME BLACK FOR 15-23 SCOUT, SCOUT SIXTY, SCOUT BOBBER 0712-0479 0712-0480 FOR 19-20 FTR 0712-0479 0712-0480

0712-0479

PERFORMAN

 Check-valve/anti-drain back valve prevents drain-back and dry starts (where applicable)

- Pre-lubed base gasket
- 17 mm hex nut (pre-drilled for safety wire security) allows easy-on, wrench-off removal (where applicable)

DESCRIPTION

- For 15-22 Chief/Chief Bobber/Super Chief/Chieftain/Roadmaster/Springfield For 20-22 Challenger/Pursuit
- For 15-22 Scout/Sixty, 22 Scout Rogue/Sixty
- For 15-22 Scout Bobber/Sixty/Twenty

PART #

PERFORMANCE OIL FILTERS

- K&N delivers a premium oil filter which is built with a synthetic media specifically designed to withstand the high concentrates of synthetic racing oils
- A large filter media provides high-flow rates and outstanding oil filtration to keep your motor running clean and smooth
- Uniform pleated synthetic filter media provides high capacity and outstanding filtration
- Synthetic Media allows for the higher-flow rates associated with synthetic and synthetic blended oils
- Protected by a heavy-duty canister and baseplate, with a double-rolled seal

PART # 0712-0654

0712-0654

0712-0655 0712-0655

valve to open and allow unfiltered oil to enter your engine DESCRIPTION For 14-24 Chief/Chieftain, 15-24 Scout, 15-24 Roadmaster, 17-24 Springfield, 19-24 FTR1200, 20-24 Challenger, 22-24 Pursuit 0712-0149

extreme heat, the presence of water, and cold start-ups where industry where filtration is of the utmost importance paper filters can flow so poorly that they often cause the bypass FLO reference # PCS1

FLO STAINLESS STEEL, REUSABLE "SPIN-ON" OIL FILTER Made from laser-cut, medical-grade, 304 stainless steel micronic filter cloth, this filter provides 200% more filter area in many cases • Stainless filter catches items down to 35 microns, which is about

FLOII

three times better than most good paper or brass filters • Unlike glued paper filters, the FLO Oil Filter pleat seam

• Filter maintains consistent flow under all conditions including

LEGEND REVO-A COIL SUSPENSION FOR SCOUT MODELS

- Provides improved plush ride quality, control and resistance to bottoming out
- Extended coil length has larger "sweet spot" without increasing overall shock length
- Unique spring rate offers the ability to soften preload, reducing ride height and maintaining a smooth ride
- Allows minimal preload adjustments when
- changing between riders' weights or loads
- Adjusts by hand no tools needed

PART # 1310-1739

- Easy installation
- Suspension alignment is provided by spherical bearings on both top and bottom
- External knob has six adjustments to allow fine-tuning of rebound
- Provides optimum rebound performance for any given rider
- weight, personal ride quality preference or personal riding style
- Light to heavy riders can fine-tune ride preference
- Available only in black type III hard coat anodize
- NOTE: For solo rider only, with total weight of 113 kg (250 lb) or less.

For 15-23 Scout/Scout Sixty, 18-23 Scout Bobber/Scout Bobber Sixty, 22-23 Scout Rogue/Scout Rogue Sixty

PRO SHORT FAT FRONT FENDER KIT

1402-0424

(Ŵ;

CULT-WERK

Provides a clean and cool look

No adjustment work necessary

OLD SCHOOL FRONT FENDERS

Shorter, narrower and clears the view of the front wheel

• All bores and millings are milled on the most modern

Available in gloss black or a raw finish ready for painting

5-axis CNC machining centers, so that the fender

only has to be exchanged for the original

• A 100% custom-fit ABS plastic part, so it offers 100% fitting accuracy

- Fat front fender kit in short length "Pro Short" style
 Front fender kits allow 180 mm 18" x 5,5" wide front wheel/tire setups to be installed on Indian Touring Chieftain, Roadmaster and Springfield models
- Features a direct bolt-on design with specially notched sides to fit a 180 mm wide front tire inside the factory fork legs without any custom fabrication

• Made from premium quality steel for strength and durability NOTE: Will fit with fabrication on 14-18 Chieftain models with early style fairing and 18" front wheel. Bottom of the fairing needs to be slightly trimmed for clearance.

For 19-23 Chieftain/Roadmaster/Springfield w/ new redesigned style fairing and 19" wheels

REAR FENDERS

- Direct bolt-on replacement fender offers an instant bobber style, using stock mounting locations and hardware
- Complete with bolt-in taillight/license plate mount (included)
- Stamped from 14-gauge steel using precision, deep-draw stamping technology that ensures a consistently smooth and flawless finish that minimizes bodywork
- 13-step E-coated process prevents rust and corrosion, from manufacture to paint booth and beyond, as it continues to resist rust after paint

Made of high quality ABS plastic and all holes and milled

 Precision, laser-cut technology ensures accurate fitment • Works with stock 150/80-16 rear and up to a 180 rear tire PART # DESCRIPTION

UNIVERSAL IO PHONE MOUNT

 Secure devices within any vehicle with a flat mounting surface (stick-on or bolt-on options)

- Universal kit is perfect not only for UTVs but also
- boats, tractors, semis, hot rods and more
- Attach razor-thin iOadapt[™] stainless steel adapter to your device and connect to the powerful iOcore™ magnetic carrier
- No special case needed. Device is held in place by the strong iOcore
- magnet, and can be adjusted to preferred angle
- Included in box: one Semisphere mount, adhesive patch, two iOadapt steel discs and one magnetic black iOcore
- Adhesive requires 72 hours for proper cure time
- Purchase additional iOadapt discs to use multiple devices on same mount
- NOTE: Not for use with phones that have inductive charging.

NOTE: Not for use with Samsung Galaxy S4 phones.

MAGNETIC TANK POUCH

- Convenient magnetic phone and GPS tank pouch for steel tanks
- Generous 20,5 cm x 11,5 cm (8" x 4¹/₂") size easily accommodates most cell phones or GPS units in a clear-faced pocket
- Six ultra-strong magnets securely hold pocket in place and the felt backing protects against scratching

All part numbers in **BLUE** are new for 2024.

3502-0311

EI SON-RIGG Ulire MA **ROUTE 1 MAGNETIC PHONE HOLDER** Innovative UltraMax[™] durable polyester material Highest UV protection in industry

- Sized to fit all current plus-size phones
- Attaches to metal tanks with strong magnets
- Can be adjusted to different positions for
- sun glare and optimal viewing
- Reverse coil zippers help keep out dust and dirt
- Clear top is touchscreen device-friendly

OJ HOLDER AND HOLDER PLUS

Waterproof double-slider zip

• Foam inserts for a better fit in case • OJ Holder dimensions: 10 cm x 16 cm x 3 cm; touch window dimensions: 6 cm x 13,4 cm

- Protective base material prevents slipping or marking
- Inner sleeves to hold credit cards, license and/or small documents
- 16,5 cm L x 89 mm W x 38 mm D (6,5" x 3,5" x 1,25")

• OJ Holder Plus dimensions: 11 cm x 18 cm x 3 cm: touch window dimensions. 7 cm x 15 cm

PART #	DESCRIPTION
3512-0293	OJ Holder

• Double fixing system attaches to handlebar by means of a clip

and to mirror by means of a comfortable and articulated arm Attachment versatility allows the user to choose how best to use holder in order to improve driving experience

ECE TYPE APPROVED

This logo symbolizes that the article conforms to applicable UN ECE regulations. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

PPE (Personal Protective Equipment)

This logo indicates the article's conformit

with the Essential Health and Safety Requirements of Regulation (EU) 2016/425.

ECE 22.06

ECE 22.06

This logo symbolizes that a helmet has been tested and certified to ECE 22.06 Regulation.

ART

This logo symbolizes the article has been approved by KBA (German Federal Motor Transport Authority) for specific vehicle application.

conforms to applicable UN ECE R90 regulations. Type

approved means that a product meets a minimum

set of regulatory, technical and safety requirements.

ECE R90 TYPE APPROVED

This logo symbolizes that the article

The logo symbolizes that the lock is tested and approved according to Sold Secure (UK's testing and certification house for security

products) standards for theft prevention.

ABE

Õ

C

conforms to applicable EU EC directives. Type approved means that a product meets a minimum set of regulatory, technical and safety requirements.

This logo indicates the article's conformity with the Essential Health

and Safety Requirements of Regulation (EU) 2016/425. (non-motorcycle articles, e.g. Watercraft articles)

approved according to the SRA (SÉCURITÉ et RÉPARATION AUTOMOBILES, France) rules for theft prevention. The classification in the "SRA classes" includes electronic protection systems (engine cut-off, alarm, etc.) and mechanical protection systems (U-locks, chains and disc locks).

The ART quality mark symbolizes that the lock is independently tested according to the standard for two-wheeler theft prevention (MBT-04) and certified by the ART Foundation. The locks are rated according to a 5 stars category designation system based on the use of a lock (bicycle, E-bike, scooter, motorcycle, other). The more stars a lock has, the higher its preventive value and the better it protects against theft.

WIRE GAUGE SELECTOR

It's important to match up wire diameter and current properly. To choose the right gauge wire, you will

need to know how much Wattage (or Amperage) you will draw and what the length of the cable will be.

NOTE: The chart below is based on a 12V system. To find the appropriate wire for 6V systems, the Amp and Watt numbers should be divided in half.

AMP.	WATT	91 CM (3 FT)	152 CM (5 FT)	213 CM (7 FT)	305 CM (10 FT)	457 CM (15 FT)	AMP.	WATT	91 CM (3 FT)	152 CM (5 FT)	213 CM (7 FT)	305 CM (10 FT)	457 CM (15 FT)

FORMULAS DISPLACEMENT

Bore x bore x stroke x 1,5708 = Displacement in Cubic Inches Bore x bore x stroke x 25,744019 = Displacement in Cubic Centimeters **Example:** A stock 96"Twin Cam has a bore of 3,750" and a stroke of 4,375". **Formula:** 3,750" x 3,750" x 4,375" x 1,5708 = 96,64 cubic inch 3,750" x 3,750" x 4,375" x 25,744019 = 1583,86cc

COMPRESSION RATIO

Ratio = Cylinder displacement plus combustion chamber volume divided by combustion chamber volume. **Example:** A 96" cubic inch Twin Cam has 794cc per cylinder. Combustion chamber volume is approximately 86cc. **Formula:** 794 + 86 = 880 : 86 = 10,2:1 Compression Ratio (CR)

Note: When calculating compression ratio, do not forget to include gasket thickness, valve pockets and ringlands in the piston. CC-ing the heads, filling them with fluid after heads have been installed, will give you accurate numbers.

HEAD/BASE GASKET VOLUME

Bore x bore x 12,87 x compressed gasket thickness = Gasket volume in cubic centimeters **Example:** A head gasket has a thickness of 0,045"; bore is 3,750". **Formula:** 3,750" x 3,750" x 12,87 x 0,045" = 8,144cc

AREA OF CIRCLE

The radius is the diameter of a circle divided in half. Radius x radius x 3,1416 = Area of a circle **Example** : A stock 96" Twin Cam has a bore of 3,750". **Formula:** 1,875" x 1,875" x 3,1416 = 11,05 Inch² 47,63 mm x 47,63 mm x 3,1416 = 7127,09 mm² (71,271 cm²)

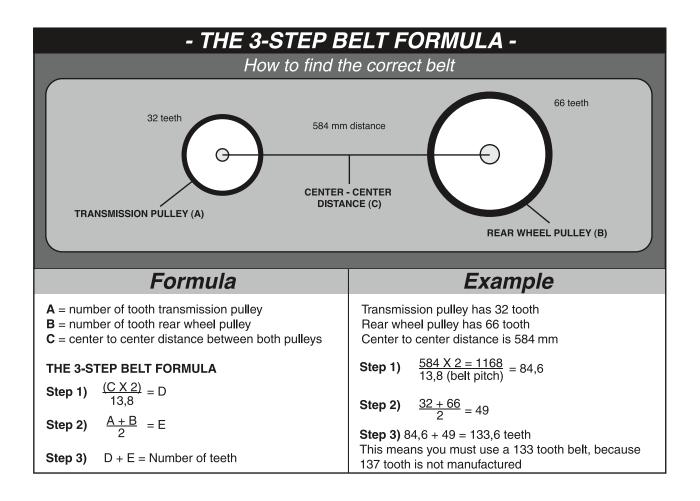

ELECTRICAL: AMPERAGE, WATT AND VOLTS

Understanding electrical current is important to prevent a meltdown within the electrical wiring of a motorcycle. It is useful to calculate what fuse you will need for a certain application. Watt divided by Volt = Amp Amp multiplied by Volt = Watt Watt divided by Amp = Volt

From Our Garage To Yours

We are the #1 resource for powersports products. We support our dealers, vendors and fans at races, rallies, special events and showcases.
