

## PRO TANK RING

- Allows mounting of PRO tank bags
- Convenient quick-lock mechanism allows the tank bag to be mounted or removed in seconds
- Bike-specific design provides complete stability and optimal fit
- Magnetic guide aid for easy attachment
- Simple installation
- Constructed from fiberglass-reinforced polyamide
- Mounting hardware included

## OMNI LED TRUNK LIGHT BAR FOR HONDA GL1800 GOLD WING 18-20

- Design seamlessly matches stock rear lighting in style, lighting output and functionality
- Requires plug-and-play wiring adapter, PART #2120-1000, sold separately (If bike is already equipped with PART #2120-1000 and all three outputs are used, all that is needed is Y-Connector kit, PART #2120-1001)
- Provides red run, red brake and amber turn signal functionality
- Bolt-on design for ease of installation and life-long durability
- Durable polycarbonate lens with OEM styling

DESCRIPTION	PART #
Omni LED trunk light bar	<b>2040-2986</b>

## DARK EDITION STEERING DAMPERS CSC STEERING DAMPERS

- New all-black Dark Edition finish
- Linear-damping steering damper with 24 clicks to make a fine-tuning possible
- Gives the rider comfort in riding and the assurance of not getting knocked off by the quick steering movements of the bike
- Fully adjustable; damping can be adjusted in 22 positions
- Fully reconstructable with spare parts availability
- Twin-tube clamp ensures that the clamping force of the tube-clamp does not obstruct the piston
- Low-friction design due to 8 mm piston rod with special surface treatment
- One-piece piston rod
- Triple-function seals
- Dust scraper and double oil seal, ensuring that dust cannot enter and oil cannot exit
- Nitrogen-pressurized heat expansion reservoir
- Gas pressure prevents the formation of air bubbles

0604-0247

0604-0242

## RSC STEERING DAMPERS

- New all-black Dark Edition finish
- Superior to other steering dampers
- Behaves like a linear steering damper when driving normally and has all the functionalities of the CSC steering damper
- RSC dampers will react in a direct way with a lot of extra progressive damping
- Damping can be adjusted in 22 positions
- Fully reconstructable with spare parts availability
- Twin-tube clamp ensures that the clamping force of the tube-clamp does not obstruct the piston
- Low-friction design due to 8 mm piston rod with special surface treatment
- One-piece piston rod
- Triple-function seals
- Dust scraper and double oil seal, ensuring that dust cannot enter and oil cannot exit
- Nitrogen-pressurized heat expansion reservoir

**NOTE: Steering damper only. Must order steering damper mounts separately; see the 2022 Parts Europe Street catalog SUSPENSION section for Hyperpro steering damper mounts.**

## JT SPROCKETS

### RACELITE ALUMINUM REAR SPROCKET

- JT sprockets is proud to introduce the new RaceLite range of anodized 7075-T6 aluminum sprockets
- Computer-designed to achieve ultimate strength at minimum weight
- JT combines leading-edge technology with top materials to produce the ultimate quality sprocket range with unbeatable value
- Every sprocket meets or exceeds the highest possible quality standards
- Sprockets are heat-treated and bead-blasted to reduce material surface tension
- Aluminum rear sprockets are made with high-strength Austrian 7075-T6 anodized aluminum
- JT aluminum sprockets are about 30% lighter than a comparable steel equivalent, which reduces unsprung rotating weight and improves performance

- Lightweight front sprockets available for some applications
- Available in hard wearing color options
- See pages 1114-1161 of the 2022 Parts Europe Street catalog for the full line of JT sprockets

NOTE: When installing sprockets which differ from OEM sizes, check for proper clearances before operating.

## BRAKE PADS AND SHOES

### ORGANIC/ARAMID BRAKE PADS

- Provide excellent stopping power without noise and rotor galling
- Fingertip control and strong, predictable brake response

### DOUBLE-H™ SINTERED METAL BRAKE PADS

- Feature the HH friction rating – the highest in the industry
- Provide maximum brake effect and last twice as long as organic pads

### EP EXTREME PRO™ BRAKE PADS

- The latest in sintered metal brake pad fusion technology
- Pad blend includes molybdenum metal and tungsten additives to enhance friction performance for the life of the pad
- No lead, iron or steel additives; no more rotor outline etching or rotor stiction
- Super-fast bed-in, full friction after 10 to 15 race stop uses
- Great heat cycle ability; pads cool after the race and perform just as strong the next race day

**WARNING:** GPFX pads are for Race/Track use only; not for street use. These pads are for Race/Track use only. Any other use could result in death or serious injury.

**NOTE:** ABE approved unless noted.

**NOTE:** Brake pads/shoes are sold in sets for one disc or one drum. For dual-disc applications, two sets of brake pads are required for complete replacement.

**PRO-LITE MD STANDARD BRAKE ROTORS WITH ABE**

- Complete bolt-on and go rotor assemblies
- Made with forged aluminum center hubs, high-friction billet steel rotor rings and sturdy riveted construction
- X-Series rotors offer a universal design for left- or right-side applications; all X-Series feature SD-System™ square-sided buttons that allow the rotor to expand inwards and outwards unrestrained for perfect rotor functionality at any speed or load and increased durability

- Excellent choice when upgrading or replacing OEM brake rotors
- Sold each

**NOTE: ABE approved unless noted.****STREET**

**HIFLOFILTRO®****FOAM AIR FILTER**

- Hiflofiltro® competition off-road air filters are manufactured using a special dual-layer foam formulated to maximize filtration with optimum airflow for improved power
- Top-quality materials and superior construction allow the filter to be used over and over again without any loss of performance
- Direct replacement of original equipment filter with no need to change carburetor jets or settings

TEXA

**NAVIGATOR TXB EVOLUTION DIAGNOSTICS TOOL**

- Compared to the previous Navigator TXBs, the device has not only become smaller and easier to handle, but more technically developed and improved
- The number of supported CAN standard protocols has also been increased, enabling the control of single-wire CAN systems
- The supported CAN standards include the CAN single wire management and an extra CAN controller for diagnosis on more than one network
- Navigator TXB Evolution allows you to record the diagnostic session in "Dynamic Tests" mode, while the vehicle or boat is moving, in order to identify specific problems that otherwise would not be detected in the workshop

- Designed and developed specifically for bike and marine diagnosis environments
- Hardware features make it compatible with all the current protocols for both environments and its integrated 16-pin CPC connector allows the use of all the diagnostic cables
- IDC5 is TEXA's unique diagnostic software for managing all daily activities in a workshop

## AST AIR v2 JACKET

- Tech-Air 5<sup>®</sup> ready
- Ventilated construction offers enhanced breathability and airflow for optimized rider comfort
- GP Lite on shoulder for additional abrasion resistance
- Offering a personalized sports riding fit, the AST Air v2 jacket is an exceptionally light and durable jacket featuring a main mesh shell for superior ventilation that is fully optimized for use with or without Tech-Air 5
- Tech-Air 5 compatible; Tech-Air is the world's first completely electronic, self-contained, fully independent upper body motorcycle airbag system with no bike-to-rider setup configurations required
- Strategically positioned stretch panel inserts have been designed to accommodate Alpinestars airbag system, allowing expansion when the airbag inflates but also offering a high level of anatomical performance and a superior fit when riding without the system fitted
- Constructed from hard-wearing 600 denier poly-fabric and incorporating extensive mesh panels strategically placed on the front, back and arms for optimum airflow performance
- Removable Nucleon Flex protectors in the elbows and shoulders are lightweight, sleek and promote exceptional resistance against impacts
- GP Lite on the shoulders for superior abrasion resistance in a key area
- Chest and back pad compartments with comfort padding
- Sleeves feature pre-curved construction for increased comfort performance in riding position
- Volume adjustment system on sleeves incorporates hook-and-loop adjustments for a highly personalized fit and to help maintain positioning of elbow protector
- Elongated rear profile and hook-and-loop D-ring waist adjustment for added riding comfort and customization
- External hand pockets are zippered for a safe and secure closure
- Textile comfort edge on collar and cuffs for comfort and moisture-wicking
- YKK<sup>®</sup> auto-locking zippers for durability and safety
- Reflective details
- The following standards apply to this product: Category II prEN17092 standards – A class
- Level 1 EN1621-1:2012 Alpinestars Nucleon Flex shoulder and elbow protectors
- Available in men's sizes S-4X

### SP-8 v3 AIR GLOVE

- Made from high-quality, full-grain goatskin and synthetic leather is comfortable, durable and has excellent abrasion resistance
- Extensive perforations and mesh inserts on the back of the hand for exceptionally high airflow and breathability
- The advanced, from MotoGP, offers excellent performance against repeated impacts derived double hardened SP knuckle protector
- The extended cuff with an integrated fastener provides greater coverage, security and ease of use
- An innovative microfiber and non-slip PU insert is strategically positioned on the palm, and thumb where it ensures excellent grip and durability
- The exclusive ergonomic stretch insert from Alpinestars between the palm and thumb offers improved freedom of movement for the hand and greater sensitivity when operating the motorcycle controls
- Alpinestars third and fourth finger bridge prevents the seams from opening and the fingers from separating in the event of slippage

- Perforated cuff, plus perforated finger side walls for excellent breathability
- Hook-and-loop fastener on the cuff and wrist with an elastic band on the wrist for a secure, individual fit
- Preformed, anatomical finger design and half inside/half outside seams for comfort and exceptional feeling
- Newer construction for reduced seams and improved driver comfort
- The following standards apply to this product: EN 13594 2015 Level 1 KP

## SMX-6 V2 BOOTS

- Boot uppers incorporate an innovative front and rear bellows and rear calf zones for superior levels of flexibility
- Boot uppers are constructed from microfiber for durability and abrasion resistance
- Ergonomic forefoot streamlining enables greater control of the bike's controls and provides a superior, wide-ranging foot profile for excellent fit and comfort
- Alpinestars innovative TPU lateral ankle braces provide a biomechanical support between the lateral top calf/shin and ankle and provides improved structural integrity, protection against impact shocks, repeated abrasion resistance and flex support
- Air vents on the heel counters and shin plates plus breathable mesh inserts improve comfort and reduce fatigue on the ride (vented boot styles only)
- High modulus TPU-injected shin guards, calf protectors, heel counters, shift pads, ankle braces and toe sliders for improved shock protection and durability
- Double-density ankle protectors on the medial side, layered under the uppers, offer protective performance in key areas
- Integrated, replaceable bi-injected TPU sliders feature a new easy-screw fixing concept for quicker, easier replacement
- Innovative insteps and Achilles accordion flex zones construction for superior comfort, extension, control and support

### FASTER-3 RIDEKNIT RIDING SHOES

- Main upper material is combination of advanced microfiber, knitted mesh and seamless thermos-welded microfibers to create an innovative, technical finish
- Lower tongue, lateral and medial quarter in knitted mesh for breathability, comfort and a modern street look
- Air vent details on lateral and toe area are strategically positioned to improve airflow and ventilation
- Enhanced TPU ankle extended into lower lateral area gives improved support and protection
- TPR slider detail on lateral toe box gives improved flex and protection
- TPR heel counter design ensures additional lateral support and security
- Asymmetric toe design gives protection on shift area
- Traditional lace closure system for easy, secure and comfortable fit
- Lateral adjustable hook-and-loop closure system with TPR strap for increased security
- Medial dual-density ankle protectors are applied between the upper and added lining to provide strategic protection and fit around flexibility in key areas
- Tongue and collar padding provides high levels of comfort and fit around the ankle and instep
- 3D mesh lining for high levels of breathability with anti-slip microsuede in the heel
- Replaceable anatomical EVA footbed with Lycra® lining on top
- Extremely lightweight, specifically compounded, rubber sole provides a textured grip, excellent absorption and features an integrated support shank for enhanced sole rigidity

### AMP-7 BACKPACK

- Technical backpack designed for carrying all your important gear, keeping it safe, dry, and secure, both on and off the bike
- Includes a packable waist strap, chest strap with a magnetic buckle to help distribute the pack's load when worn as well as conveniently open and close one-handed with gloves, back panel comfort pads, quick access front pocket, quick access external rain cover, internal zippered mesh pockets, adjustable position removable inner pouch, and a separate padded laptop compartment
- Features an overall capacity of 22L
- Constructed from a tech fabric with structured, padded walls and lower body reinforcements to help maintain the bag's shape, as well as full, long zippered openings for easy and wide access
- Whether partially filled or completely packed, four compression straps that add extra security to the closure, stabilize the internal load, and allow the backpack to fit as comfortably and closely to the body as possible, while keeping the bag as aerodynamic as possible

- The two main shoulder straps are ergonomically shaped and padded with ventilated air holes to allow it to breathe well and fit comfortably for those long trips
- There are three convenient grab handles, easy to grab and to provide functional large anchor points to strap the bag down to the motorcycle for easier transportation
