JT5 HELMETS

- Outer shell construction is aramid carbon fiber combined with epoxy resin making the shell light, elastic and resistant to impacts
- Inner shell is made of EPS material with variable density on different areas to ensure perfect response to shocks
- Outer shell is produced in two mold sizes to perform better depending on the size required. Small shell covers sizes XS to M and larger shell covers L to XXL
- Main visor is transparent polycarbonate, which is anti-scratch treated, covering the whole face for protection from wind and dust
- Inner visor is dark, working like sunglasses in case of strong light. It is operated via lever present in the lower part, lowering or raising it inside the shell
- Inner visor is also equipped with Pinlock® anti-fog system predisposition on the visor
- Two air intakes on top and extractor on back ensure good ventilation

- Interior has been designed for comfort, wide view and freedom of movement
- All interiors are hypoallergenic due to the Sanitized treatment and are removable and washable
- Helmet is predisposed to the installation of Bluetooth communication systems
- Micrometric strap closure makes the attachment and release fast
- Meets ECE 22.06 helmet safety standards

TYPHOON HELMETS

- Outer shell construction uses two mould sizes to increase performance
- Inner shell construction is EPS material allocated at different densities to disperse energy released in case of impact
- Scratch-resistant polycarbonate visor with a special locking system, also has dark concealed inner visor allowing riding in all weather and light conditions
- Visor is equipped with Pinlock® lens included which can be mounted comfortably without aid of equipment
- Four element ventilation system consists of large air intake on front, one on the chin guard while two extractors on the back allow for optimal ventilation
- "Advanced Padding System" kit included with the helmet allows interior to be customized for better fit and comfort
- Thanks to the Easy Fit system the internal padding has been arranged to include sufficient space for eyeglasses
- Equipped with micrometric chinstrap and is prepared for installation of Bluetooth communication systems
- Meets ECE 22.06 helmet safety standards
