GEN5 SNOWMOBILE WINDSHIELDS FOR SKI-DOO TRAIL MODELS 23-24

- Sleek and durable accessory engineered for the snow enthusiast who craves both style and functionality
- Offers unparalleled rider protection
- Constructed from optical-grade .08" polycarbonate ensuring clear viewing and long-lifecycle durability
- Works with handguards
- Compatible with stock and extended glove boxes
- Easily installs with included hardware

Flame front

Halo front

REPLACEMENT FLAME AND HALO ROTORS

FLAME SERIES ROTORS

- Bolt-on performance upgrade
- Flame design ensures optimal heat dissipation and a perfect cleaning of the brake pad surface
- Durable, premium-quality stainless steel outer ring, mounted with lightweight stainless floaters
- Precision double-ground for excellent rider feedback, eliminating any pulsation at the lever
- Equal brake pad contact throughout entire rotation of disc ensures linear braking action
- CNC-machined 6082 billet aluminum, black anodized carrier is lightweight and strong
- Can be used with any type of brake pad
- Fixed design unless noted
- Sold each

HALO SERIES ROTORS

- A new standard in aftermarket circular-round brake rotors
- Durable, premium quality stainless steel outer ring is laser-cut and precision-ground
- Carrier is crafted from CNC-machined billet aircraft aluminum, black anodized and laser marked
- Venting holes are sized and positioned exactly to ensure equal heat dispersion, even under high thermal stress, while the brake pad contact surface stays clean
- Lightweight stainless steel floaters complete the package
- Halo front floating rotors are left and right, unless noted
- Sold each

NITRO SERIES FRONT BRAKE DISC FOR HONDA X-ADV 750 17-23

- The ideal budget OEM-replacement
- Offers innovative floating design and performance enhancement according to Moto-Master quality standards
- Made from specially hardened, premium-quality stainless steel, Nitro discs allow for high-performance braking while exhibiting extremely little wear
- Venting slots are integrated into the disc design to help aid with cooling and cleaning of the brake pad contact surface
- Fits left and right sides

DESCRIPTION

Front Nitro series brake disc

PART

1710-4636

NITRO MX FLOATING FRONT BRAKE DISCS

- Serious performance upgrade at a reasonable cost
- Outperform OEM fixed rotors
- Durable stainless steel outer ring and floaters, coupled with a lightweight aluminum core
- Simple installation with no relocation bracket required

HALO T-FLOATER
RACING DISC

HALO T-FLOATER FRONT RACING DISC FOR KAWASAKI ZX-10R 16-23

- 330 mm floating design
- Lightweight, hard anodized construction
- Outer ring design ensures equal heat dispersion while the brake pad contact surface is evenly cleaned
- Laser-cut and precision-ground outer ring is fixed to a billet CNC-machined aircraft aluminum carrier
- T-Floater system ensures precise controlled full floating action in the most severe racing conditions
- Pin-slot construction allows high mechanical load with minimal wear
- Fits left and right sides

DESCRIPTION	PART #
Halo-T floater front racing disc	1710-4637

OEM REPLACEMENT STAINLESS STEEL BRAKE LINES

OEM REPLACEMENT BRAKE LINES

- Developed to replace the bike's original brake line, this braided stainless steel brake line is a great improvement for any brake system
- Protected with a durable yet lightweight PVC covering, which allows it to stand up to heavy abuse while also providing a tremendous increase in feel and response due to reduced flex over a standard OEM plastic line
- The banjos are in rust-free stainless steel, swaged-pressed and turnable to allow torsion-free mounting on the bike without the risk of a banjo coming loose

- All lines come packaged with the necessary mounting hardware including banjo bolts and copper washers, along with fitment instructions to help with installation

NOTE: This brake line **MUST** be used with **Moto-Master Radial Master Cylinder** (available separately). OEM brake lines will not fit.

BS 30 SMART BATTERY CHARGER/MAINTAINER

- Easy to use: connect and forget
- Include nine stages of charge to enhance the performance of all your powersports batteries
- Designed for batteries up to 60Ah
- Auto detect lead acid or lithium technology
- Adaptable charging algorithm for lead acid and lithium (LiFePO4)
- Safe: connection spark free, reverse polarity, short circuit and internal overheat protection
- 12V smart battery charger and maintainer rated at 3A
- Include one clamp set and one fused ring terminal set
- Multiaxis hook

CLUTCH SPRING CONVERSION KIT FOR YAMAHA SUPER TENERE XTZ1200 10-24

- Converts the stock diaphragm spring to six heavy-duty coil springs and provides a more progressive, controllable engagement
- Included is a CNC precision-machined billet aluminum pressure plate, two different heavy-duty coil springs and screws
- This kit simply replaces the stock clutch spring/pressure plate assembly; no modifications required

DESCRIPTION	PART #
Clutch spring conversion kit	1131-3913

See chart for details

FRONT FORK SPRING KITS

- Shorter braking distance
- Better balance in the bike, more comfortable riding, even with passenger
- Easy cornering
- Improved tire life
- More grip in dry and wet weather
- More confidence; it makes your ride more comfortable and/or faster
- Overall sense of confidence in the bike
- Hyperpro progressive front fork spring kits include front fork oil
- ABE approved unless noted
