

RJWC POWERSPORTS

SINGLE APX SLIP-ON EXHAUSTS

- Built and assembled in northern Sweden
- All aluminum modular exhaust
- CAD drawn with extruded aluminum cans
- Casted stainless intake flanges and new inner cores
- All aluminum parts are CNC-machined from 6061 billet
- Precision TIG-welded with high-quality filler rod; mandrel-bent tubing
- Great power increase
- Spark arrestor included

NOTE: All exhausts and mufflers are bolt-on and are made to fit stock vehicles; any aftermarket modifications or additions may affect exhaust fit

FACTORY 4,1 RCT EXHAUST SYSTEMS

- RCT (Resonance Chamber Technology) features a core shape that lowers decibels while maintaining maximum power output
- Internal ducts in the chambers of the RCT system increase internal volume for improved exhaust flow, resulting in power gains throughout the entire range of power
- FMF's Factory Forward Engineering centralizes mass and is less prone to crash damage
- Innovative rear end cap features simple installation of tuning tip inserts or spark arrestor with the removal of four screws

- QuietCore 94 dB insert included
- Spark arrestor included in muffler
- Feature MegaBomb header and midpipe
- Available in natural titanium or blue anodized finish with titanium or carbon fiber end caps
- Meet AMA and FIM sound requirements

FACTORY 4,1 RCT SLIP-ON MUFFLERS

- RCT (Resonance Chamber Technology) features a core shape that lowers decibels while maintaining maximum power output
- Internal ducts in the chambers of the RCT system increase internal volume for improved exhaust flow, resulting in power gains throughout the entire range of power
- FMF's Factory Forward Engineering centralizes mass and is less prone to crash damage

- The innovative rear end cap offers a straightforward installation process for tuning tip inserts or a spark arrestor, requiring the removal of just four screws.
- Compatible with stock header or FMF header
- QuietCore 94 dB insert included
- Meet AMA and FIM sound requirements

THE Q SERIES

Q4 HEX

FOR KAWASAKI KX450 24 AND KX450X 24

- Less sound equals more ground
- Meets FIM World Enduro sound regulations
- Power gains throughout the entire rpm range
- Spark arrestor included
- Pounds lighter than stock
- Rugged design for off-road endurance

NOTE: FOR CLOSED COURSE COMPETITION USE ONLY. NOT INTENDED FOR STREET USE.

DESCRIPTION

Q4 Hex slip-on muffler

PART

1821-2092

POWERCORE 4

FOR KAWASAKI KX450X AND KX450X 24

- Hi-Flo end cap boosts all-around performance
- Computer-designed and dyno-tested for every 4-stroke application
- Enhanced sonic evacuation delivers a higher flow of exhaust gases, which increases power
- A stainless steel mid-pipe mates to the computer-designed rear can for lightweight durability
- Round perforated steel inner cores make for optimum flow, using hi-flo technology
- FMF's exclusive cross-weave internal packing provides longevity and maximum sound dispersion

- Elliptical aluminum can offers strategic sizing for superior performance
- Optional Quiet Core insert will provide a decrease in sound level if desired
- Features a screen-type spark arrestor that does not interrupt exhaust flow or performance

DESCRIPTION

Powercore 4 slip-on muffler

PART

1821-2091

POWERCORE 2 SILENCER

FOR KAWASAKI KX500 88-04

- A lightweight, compact silencer made from an extruded aluminum canister with a nickel-plated stinger and end cap
- The elliptically shaped bodies with perforated core perform well in any condition
- It can be completely rebuilt with basic hand tools.
- Provides the factory look and sound while delivering an increase in power compared to the stock silencer

DESCRIPTION

Powercore 2 Silencer

PART

1821-2088

MEGABOMB HEADERS
STAINLESS STEEL AND TITANIUM

- The ultimate power boosters
- Improved bottom to mid-range power
- Produce the low end of a longer header and the top end of a short header
- Less susceptible to damage than a long header
- Effectively reduce sound output by as much as 1,5 dB
- Run well with sound-restricting mufflers
- Available in stainless steel or FMF's exclusive Ti-Metal construction

CUBIQ® BRAKE ROTORS

- Named after the crystal steel molecules, the Cubiq® brake rotor combines state-of-the-art technology with modern design
- Rotor shape promotes uniform brake pad wear - the same contact surface between the pad and disc; every revolution generates regular wear
- Less unsprung weight (up to 40% lighter than standard round rotors) reduces gyroscopic effect and improves the maneuverability of the motorcycle
- Increased perimeter surface design generates more cooling surface around the rotor for better temperature dissipation
- Sold each

WAVE® ROTORS

- Laser-cut double-disc ground 420 high carbon stainless steel
- Direct-replacement brake rotors; do not require any extra parts, bolt on just like a stock brake disc
- Full-floating design rotors have an aluminum center carrier
- Improves brake lever feel and modulation
- Rotors cool as they rotate to lower brake operating temperatures
- Design is self-cleaning, removes water as it rotates

- Less tendency to warp
- Manufactured in Spain
- Sold each
- Available to fit a wide variety of motorcycle models, see pages 1382 - 1384 of the 2024 Europe Street catalog, pages 895 - 908 of the 2024 Europe Offroad catalog and also partseurope.eu for the latest applications

ROUND ROTORS FOR BMW

- Classic look and has more braking power than the original disc
- Low working temperature and less tendency to warp
- Excellent resistance to corrosion
- Stainless steel high carbon content
- Floating discs are made from anodized or chromed high-resistance aluminum (7075 T6-6082) or stainless steel (AISI 420) carrier

GALFER FRONT BRAKE PADS HH SINTERED CERAMIC (G1375)

- For moderately aggressive every day and sport street riding
- Ceramic-coated backing plate to assist with temperature management and dissipate heat
- Advanced ceramic composites ready to withstand higher temperatures than regular semi-metallic carbon brake pads
- HH friction-rated compounds deliver excellent feel and modulation
- Capable of handling almost any type of riding you throw at them
- Brake pads do not fade
- Performance street, track days, canyon riding, amateur racing

RAD VALVES

- Developed with Factory Yamaha, Pro Circuit, Factory Kawasaki of Europe, Factory KTM and top pros like Jeremy McGrath, Sebastian Tortelli and many others
- Specially designed reed cage now comes with carbon fiber Pro Series reeds
- Maintain flow velocity through the valve and redirects intake charge for even distribution to intake ports
- Pull a gear higher on uphill; instant acceleration makes passing effortless
- Made of one-piece aluminum casting and bolts in easily; no modifications necessary

NOTE: Rad Valve is stamped with PART #.

STANDARD FILTERS

- Twin Air dual-stage filters are the choice of top factory teams and riders worldwide
- Dual-bonded foam design filters out even the smallest dirt particles, while allowing more airflow than two separate layer filters (flow bench proven)
- Flat foam sealing ring provides a secure seat against the airbox, even in the worst riding conditions
- Twin Air filters are slightly smaller than stock, making them easier to change while increasing dead air space around the filter for better performance
- Air filter cages available separately for some models

AIRBOX COVER

- Remove the air filter and pressure wash the inside of the airbox by covering the carb inlet with a watertight cap
- Made of PVC with a rubber sealing ring
- Top screw included

FACTORY PRE-OILED AIR FILTERS

- The same factory treatment that race teams and OEMs receive is now available for all Twin Air users
- Filters are pre-oiled with Twin Air Bio-Foam Filter Oil using our state-of-the-art filter oiling machines to provide the ultimate consistency in pore coverage
- Same industry-leading Twin Air Filter pre-oiled for your convenience
- Resealable bag included
- Available in standard Twin Air replacement filters and PowerFlow Twin Air replacement filters
- PowerFlow replacement filters include Backfire Filter

POWERCOVER

- Enhances airflow to the airbox
- Creates even inflow of fresh air
- Increases throttle response and top end max power

¹ Includes cage.

CARBON FIBER AIR FILTER CAGES

- An open air filter cage built of reinforced high-temperature carbon fiber
- One piece design, no bolts or welding
- Open design is approximately 30% lighter than an aluminum air cage
- Provides improved support for the air filter and prevents vibrations at high rpms
- Flexible, can tolerate high temperatures

OIL FILTER FOR TGB BLADE 1000 16-22

- High-quality replacement for your standard filter
- Can filter down to 10 microns
- Constructed with high-quality paper filter materials
- Manufactured with sealing ring to ensure perfect fit
- Offer maximum protection and long lasting filter life
- May be used with conventional and synthetic oils

DESCRIPTION	PART #
Oil filter	0712-0667

1212-2218

1212-2076

CHROMOLY STEEL FRONT SPROCKETS

- Machined from impact and wear resistant chromoly steel
- Inner splines are broached to provide maximum spline-to-countershaft contact – this helps distribute driveline forces over the largest possible area
- Heat-treated, then finished with a nickel coating for corrosion resistance and lubricity
- **BE SURE TO CHECK FOR CLEARANCE WHEN ORDERING SIZES LARGER THAN STOCK**

BILLET AIRBOX COVER AND GASKET

- Two-tone machine accents on billet cover offer a unique custom appearance
- Add style when replacing your broken plastic airbox cover
- Effortless installation
- Seal will not rebound and becomes compressed over time to continue proper function
- OEM airbox cover seal allows dirt directly into filter and degrades quickly
- Cover and gasket sold separately

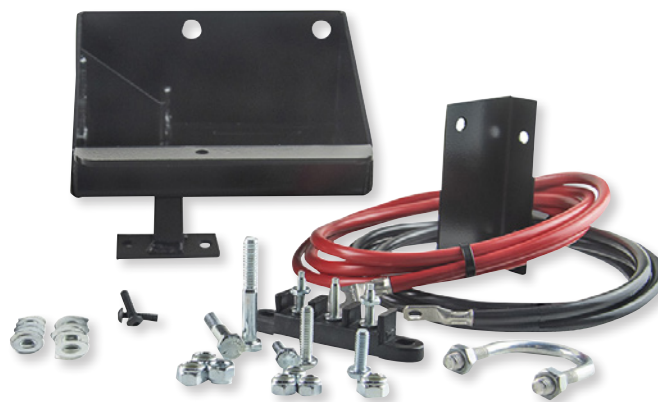

1011-4725
