## SIDEWINDER 2-INTO-1 EXHAUST SYSTEMS

- Increased power and torque
- Stainless steel header construction
- High-flow catalytic converters
- Includes adapters that allow use of wide band or stock O<sub>2</sub> sensors
- Machined aluminum end cap
- Deep performance exhaust note
- Optional Shadow Muffler kits fill the left-side cutout in extended saddlebags when running a Sidewinder 2:1 exhaust system (sold separately, see the 2020 Parts Europe FatBook)
- Matched muffler body is 4,5" in diameter
- End cap is a mirror image match of the right-side 2:1 Sidewinder muffler end cap
- All necessary mounting hardware included

## 150-WATT XL SERIES REAR SPEAKERS

- 5,25", 2-ohm speakers
- Speakers offer superior bass response and overall better sound, especially at riding speeds
- Feature carbon fiber woofer cone and titanium-impregnated 1" tweeter
- Feature multiple neodymium magnets for increased bass and power handling and studio-quality polystyrene capacitors for crossover
- Easy plug-n-play installation
- Sold in pairs

**PART #**
**4405-0617**
**DESCRIPTION**

For 06-13 FLHTCU/FLTRU/FLHTCUTG/FLHXS models

## EXTENDED REACH ROAD SOFA SEAT WITH BACKREST

- Carbon fiber styling
- Features silver stitching and the legendary carbon-fiber look while providing comfort and stability
- Extends the driver's seating area by a full 51 mm (2")
- Refined split-cushion design separates the seating surface from the lumbar support to reduce tailbone/back pressure for maximum long-range comfort
- Also features a combination of progressive density foam and SaddleGel™ inserts for superior driver and passenger comfort
- Passenger pillion area has received special attention for comfort and to allow a clear view of the road ahead
- Includes driver's backrest

### PART #

0801-1191

### DESCRIPTION

For 08-20 FLHT/FLHR/FLTR/FLTRU/FLTRK/FLTRX/FLHX

0801-1192

## EXTENDED REACH HEATED ROAD SOFA SEATS

- Carbon fiber styling
- Features silver stitching and the legendary carbon fiber look while providing comfort and stability
- Extends the driver's seating area by a full 51 mm (2")
- Two-level heat adjustment that connects easily to the bike's electrical system
- Independently-controlled heating elements for the rider and passenger
- Brightly-colored LEDs indicate the level of heat
- Styling and function are unaffected by switches or wiring
- Refined split-cushion design separates the seating surface from the lumbar support to reduce tailbone/back pressure for maximum long-range comfort
- Also features a combination of progressive density foam and SaddleGel™ inserts for superior driver and passenger comfort
- Passenger pillion area has received special attention for comfort and to allow a clear view of the road ahead
- Available with or without driver's backrest

### PART #

0801-1225 Black double diamond full-length seat w/ white inlay

0801-1226 Perforated black double diamond full-length seat

0801-1227 Black carbon fiber full-length seat

## CORE MANUAL TORQDRIVE® CLUTCH

- Core Manual TorqDrive delivers unprecedented performance and durability within your OEM clutch footprint
- TorqDrive provides more disks in less space, allowing the addition of four friction disks over stock
- More frictions equals more torque capacity, thus unlocking the full power of your engine without the need to add stiffer pressure plate springs or a lock-up device
- The clutch is converted from a diaphragm spring to six coil springs, allowing for increased tuning options and improved lever feel
- The billet center hub and pressure plate work together to move more oil through the clutch, decreasing operating temperatures and increasing clutch pack life
- Core Manual TorqDrive increases torque capacity by 20 percent while decreasing lever pull by 10 percent

**PART #**  
**1130-0435**

**DESCRIPTION**  
For 03-20 XL models

## TORQDRIVE® CLUTCH KITS

- TorqDrive provides more disks in less space, allowing us to add up to six additional friction disks to the clutch pack over stock
- More frictions = more torque capacity, thus unlocking the full power of your engine without the need to add stiffer pressure plate springs or a lock-up device
- TorqDrive provides smoother shifting and improved lever feel
- Rekluse basket sleeves eliminate basket wear and notching

1130-0434

## POWER DISTRIBUTION MODULE AMPLINK

- Designed to connect directly to a (12V) power source (vehicle battery), and safely distribute power for accessories or electronic devices
- 60A total capacity
- Six high-current output leads
- Programmable amp limits
- Rugged and waterproof
- Wireless control and setup
- Three programmable input triggers
- Solid state electronics with automatic fault circuit reset, which protects wiring and devices without fuses
- Dimensions: 76 mm L x 51 mm W x 23 mm H (3" x 2" x 0,90")
- Weighs 283 g (10 oz.)
- Fully compatible with CAN equipped systems
- Free amplink app available in the app store and play store

**PART #**  
**2130-0276**

**DESCRIPTION**  
Power distribution amplink

## PDM60 POWER DISTRIBUTION MODULE

- Designed to connect directly to a (12V) power source (vehicle battery), and safely distribute power for accessories or electronic devices
- 60A total capacity
- Six high current output leads
- Super bright LED indicators keep you informed of the status of each circuit
- Fully programmable via USB
- Fully compatible with CAN equipped systems
- Rugged and waterproof
- Two programmable input triggers
- Solid state electronics with automatic fault circuit reset, which protects wiring and devices without fuses
- Dimensions: 76 mm L x 51 mm W x 23 mm H (3" x 2" x 0,90")
- Weighs 283 g (10 oz.)

**PART #**  
**2130-0275**

**DESCRIPTION**  
PDM60 Power distribution module

## CUSTOM DYNAMICS

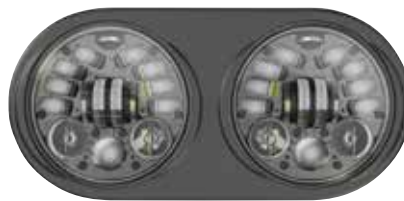

Everything needed to light up your ride! Custom Dynamics has been offering the highest-quality LED lighting products and electrical modules for American V-Twins since 2002. They utilize the latest technologies and manufacturing techniques to ensure the highest-quality products and trouble-free performance.

## THE SPEED MERCHANT

A brand that showcases the passion the company founders have for motorcycles. All products are 100% made near their Southern California base of operations to ensure quality, service and integrity. The cooperative environment that develops when working with local craftsmen shows in every part they make. The pieces look good and perform great. Support the independents with THE Speed Merchant.

### ELITE 49 MM FATBOB TRIPLE TREES

- Manufactured from 6061 billet aluminum
- Bottom headlight mount included unless noted
- Designed with a modified offset to provide increased stability
- All hardware is stainless steel
- Triple tree requires the use of a custom 14,5 cm (5<sup>3</sup>/<sub>4</sub>" ) bottom mount headlight
- PART #0408-0378 requires the use of headlight mounting blocks (PART #s 2001-2216 or 2001-2217)

**NOTE:** 18-20 trees utilize early style riser bushings.

**NOTE:** Does not have fork lock capability.

## XR STAINLESS EXTREME RESPONSE FRONT UPPER BRAKE LINES FOR H-D TRIKE MODELS

- Manufactured with an enhanced construction for extreme braking response and durability
- Designed to be compatible with Harley-Davidson® ABS requirements for stock and alternate length brake lines
- Two color choices: clear-coated with chrome fittings or black-coated stainless steel with black chrome fittings
- Available in stock and plus lengths to fit most ABS Harley-Davidson Trike models
- All fittings are highly polished and chrome or black chrome plated
- Inner PTFE tubing braided with XR Stainless Steel reinforcement embedded in a tough nylon outer jacket offers exceptional protection for paint or chrome
- All brazed manifold construction eliminates leaks, alignment problems, and unattractive threaded connections for a sleek appearance
- -3AN connections for easy installations

**NOTE:** ABS Upper Kits contain a brake line assembly with any needed adapters to connect the ABS controller or lower brake line assembly to the master cylinder. A lower brake line assembly is not required.

<b>1620-1933</b>	M-Eight Softail/ELW Driver footpegs
<b>1620-1934</b>	M-Eight Softail/ELW Passenger footpegs

1620-1931

1620-1932

### MX-STYLE FOOTPEGS

- Billet aluminum is nice for your dad's Bagger, but steel is the real deal and MX-style pegs from Burly are just that
- Inspired by the bear trap style of the 70's motocross machines
- MX pegs have an adjustable angle that will let you tune them to your liking
- A serrated edge will keep your feet planted
- Sold in pairs
