SADDLEMEN

Specializing in gel motorcycle seats and motorcycle luggage since 1987, Saddlemen puts more than 30 years of industry and real-world riding experience into every product. They are constantly bringing new seats to the market for the latest V-Twin models. They continue to expand their custom seat offerings for the latest Softail models. Want great style and long-haul comfort? Switch up to a Saddlemen seat for your ride.

0802-1405

0802-1407

0802-1399

STEP-UP SEATS

- Saddlemen has collaborated with top freestyle performers to create the new T-sport-inspired step-up lattice stitch (LS) or tuck-n'-roll (TR) seats
- LS seats infuse old-school lattice stitch retro styling with a modern twist
- TR seats feature true tuck-n'-roll styling
- High lumbar keeps the rider locked into the seat
- Features Saddlemen's Ultra-Foam, which is formulated to provide a perfect balance of rigidity and user compliance with integrated GelCore™ technology
- Black or brown whisper-grain SaddleHyde™ covers
- Installs easily with all necessary mounting hardware and instructions included

GRIPPER STEP-UP SEAT

- Blends rider and passenger comfort with the ergonomics required to keep the rider locked in place and in control of the bike
- Combines a GelCore™ interior with Ultra-Foam to create a perfect balance of rigidity and user compliance
- The Ultra-Foam's unique molding process creates an element-resistant, self-skinning process that seals the foam from water and enhances the seat's durability as well as comfort
- Gripper lumbar will stick you to the seat
- All mounting hardware and instructions are included for easy installation
- Available with a black SaddleHyde™ cover with black stitching

EXTENDED REACH DOMINATOR SEAT AND PILLION PAD

- Hybrid seat design combines GelCore™ interior, progressive-density foam and a Gel Channel™-design cover to provide Harley-Davidson® riders with unparalleled comfort, control and a modern style
- Gel Channel (GC) center channel relieves seating pressure on the perineal area to increase blood flow, thus keeping the rider comfortable in the saddle for a longer time
- In addition to pressure relief, the GC-style center of the seat provides an airflow passage
- Extended reach design extends the driver's seating area a full 51 mm (2") from the stock seating position
- The rugged carbon fiber weave and smooth vinyl cover holds up to hard use and still retains its good looks
- Cover is constructed with durable SaddleHyde™ that resists water and cold-cracking
- Using a very large gel pad for additional foam support and vibration damping, the seat offers the comfort levels normally found in larger touring seats
- Marine-grade fiberglass pans and chrome brackets make sure the seat is durable for decades of riding
- Easy to install; additional mounting hardware as needed
- The matching optional pillion pad also features gel and the same GC-design plus a shape fuller than conventional pillion pads for longer rides in great comfort

METHOD CLEAR SERIES AIR CLEANER KITS

- Forged billet aluminum air cleaner featuring a polycarbonate window to view the internal workings of air intake system
- Polycarbonate window is coated with proprietary film that prevents oil adhesion, yellowing, or marring from engine oil or UV exposure to maintain window clarity for a clear view of engine's internals
- Forged billet aluminum backing plate with internal hidden breather backing plate technology eliminating the need for external hoses or hardware for a virtually closed loop system
- Radius air inlet provides unobstructed airflow into engine
- High-performance filter is constructed from black pre-oiled cotton for optimum flow and filtration
- Filter is washable and reusable
- Includes gaskets and necessary hardware
- Titanium anodized finish

ALLOY ART

American-made high-quality custom parts and accessories for American V-Twin motorcycles is the passion of Alloy Art. Started in 1999, their parts emphasize a signature style of functional performance and a less-is-more clean custom style. Their cush drive chain conversion systems let you run a chain final drive on your Big Twin. The CNC-machined billet aluminum carrier and hub adapter look incredible and have a CNC-machined carbon steel sprocket for strength and durability.

SHOCKS

- High-performance, 7075-T6 aircraft aluminum construction; a wet born piston rod and self-adjusting bearing
- Radial piston with straight flow and preload through a pre-combustion oil chamber offers optimum response
- Anti-block system features a separate overpressure valve that prevents the shock from hydraulic lock
- Anti-fading damping system
- Rebound/compression adjuster; 50/30 clicks
- Features progressive spring and threaded spring preload adjuster
- Adjusted for a solo rider and occasional two-up riding; spring load can be adjusted to personal preference

DESCRIPTION	306 MM (12")	318 MM (12,5")	330 MM (13")
FULLY ADJUSTABLE WITH FIXED RESERVOIR			
For 15-20 FLHT/FLHR/FLTR/FLHX	1310-2085	1310-2086	1310-2087

1310-2007

**429 SERIES SHOCKS**

- High pressure nitrogen-charged damper
- 40 mm steel monotube construction
- Adjustable pre-load
- Progressive rate spring
- Deflective disc valving

NOTE: All shocks are measured center-of-eyelet to center-of-eyelet.

NOTE: Heavy-duty applications are recommended for bikes that are operated at or near the manufacturer's maximum load rating over 50% of the time.
